ROLL CALL

INTRODUCTIONS

PUBLIC COMMENTS ON MATTERS ON THE AGENDA WILL BE TAKEN UP AS THE ITEM IS CALLED FOR BUSINESS, BETWEEN STAFF'S REPORT AND CITY COUNCIL DELIBERATION (SPEAKER SLIPS MAY BE TURNED IN UNTIL THE ITEM IS CALLED FOR BUSINESS.)

SPECIAL ORDER OF BUSINESS

1 RESOLUTION NO. 2014-51 CERTIFYING GENERAL MUNICIPAL ELECTION RESULTS
(Report of: City Clerk Department)

Recommendations That the City Council:
1. Adopt Resolution No. 2014-51. A Resolution of the City Council of

the City of Moreno Valley, California, Reciting the Facts of the General Municipal Election held June 3, 2014, Declaring the Results and such other matters as Provided by Law.

2 SWEARING-IN OF COUNCIL MEMBER ELECT GEORGE PRICE

3 CITY COUNCIL REORGANIZATION – SELECTION OF MAYOR
(Report of: City Clerk Department)

Recommendations That the City Council:

1. Select one Council Member to fill the vacancy of the unexpired term of Mayor by conducting the voting for the selection of Mayor by written ballot or by voice vote.

2. Swearing-in of appointed Mayor

PUBLIC COMMENTS ON ANY SUBJECT NOT ON THE AGENDA UNDER THE JURISDICTION OF THE CITY COUNCIL

Those wishing to speak should complete and submit a BLUE speaker slip to the Bailiff. There is a three-minute time limit per person. All remarks and questions shall be addressed to the presiding officer or to the City Council and not to any individual Council member, staff member or other person.

JOINT CONSENT CALENDARS (SECTIONS A-D)

All items listed under the Consent Calendars, Sections A, B, C, and D are considered to be routine and non-controversial, and may be enacted by one motion unless a member of the City Council, Community Services District, City as Successor Agency for the Community Redevelopment Agency, Housing Authority or the Board of Library Trustees requests that an item be removed for separate action. The motion to adopt the Consent Calendars is deemed to be a separate motion by each Agency and shall be so recorded by the City Clerk. Items withdrawn for report or discussion will be heard after public hearing items.

A. CONSENT CALENDAR-CITY COUNCIL

A.1 ORDINANCES - READING BY TITLE ONLY
Recommendation: Waive reading of all Ordinances.

A.2 MINUTES - REGULAR MEETING OF JUNE 10, 2014 (Report of: City Clerk's Department)

2. Authorize the City Engineer to execute the 90% reduction to the Faithful Performance Bond, exonerate the Material and Labor Bond in 90 days if there are no stop notices or liens on file with the City Clerk, and exonerate the final 10% of the Faithful Performance Bond in one year when all clearances are received.

A.9 APPROVE THE FOURTH AMENDMENT TO AGREEMENT FOR PROJECT DBF/09 DETENTION BASIN WITH NATURE'S IMAGE INC.

(Report of: Public Works Department)

Recommendation That the City Council as Successor Agency

1. Approve amendment to extend contract for project DBF/09 Detention Basin with Nature's Image Inc. to provide detention basin maintenance services, extend the agreement from July 1, 2014 to June 30, 2015 and increase agreement to a "not to exceed" cumulative amount of $130,736.00.

2. Authorize the City Manager to execute said Extension Agreement with Nature's Image, Inc. of Lake Forest, California.

3. Authorize the Purchasing Manager, on July 1, 2014, to issue a purchase order to Nature's Image, Inc. in the amount of: twenty three thousand, eight hundred and eighty-eight and 00/100 dollars ($23,888.00) for twelve months of basin maintenance service.

A.10 2013 ANNUAL REPORT OF THE PLANNING COMMISSION
(Report of: Community & Economic Development Department)

Recommendations

1. RECEIVE AND FILE the 2013 Annual Report of the Planning Commission.

2. AUTHORIZE transmittal to the California State Office of Planning and Research in accordance with Government Code Section 65400(a)(2).

A.11 PA08-0041 (P09-094, P10-088) – ACCEPT AGREEMENT AND SECURITY FOR PUBLIC IMPROVEMENTS. DEVELOPER – SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS DBA MORENO HILLS SDA CHURCH, RIVERSIDE, CA 92513
(Report of: Public Works Department)

Recommendations

1. Accept the Agreement for Public Improvements and Securities for PA08-0041(P09-094, P10-088).

2. Authorize the Mayor to execute the Agreement.

3. Direct the City Clerk to forward the signed Agreement to the County Recorder's Office for recordation.

4. Authorize the City Engineer to execute any future time extension amendments to the agreement, subject to City Attorney approval, if the required public improvements are not completed within said timeframe.

A.12 REVIEW GENERAL FUND COST ALLOCATION PLAN
(Report of: Financial & Management Services Department)

Recommendations

1. Receive and file the proposed General Fund Cost Allocation Plan.

2. Authorize revenue and expenditure appropriations as identified within the Fiscal Impact section of this report.

A.13 CONFLICT OF INTEREST CODE – AGENCY REVIEW
(Report of: City Clerk Department)

Recommendation:

1. That the City Council, as the code reviewing body of the City of Moreno Valley, direct each agency, which has adopted a Conflict of Interest Code pursuant to the provisions of the Political Reform Act of 1974 (Government Code §87100, et. seq.), to review its Conflict of Interest Code, and if a change is necessary, to submit its biennial report to the City Clerk no later than October 1, 2014.

A.14 APPROVAL OF CREATION OF INTERNAL SERVICE FUND SUB-FUNDS FOR THE SEPARATION OF OPERATING, CAPITAL AND REPLACEMENT FUNDS AND THE TRANSFERS OF FUND BALANCES
(Report of: Financial & Management Services Department)

Recommendations

1. Approve the creation of Fund 7220 Technology Assets and Capital Projects, Fund 7230 Technology Replacement Reserve, Fund 7320 Facilities Assets and Capital Projects, and Fund 7330 Facilities Replacement Reserve.

2. Approve the transfers of fund balances as set forth in the Fiscal Impact section from Fund 7510 Equipment Replacement Reserve.

A.15 AMENDMENT TO EXISTING CONTRACT WITH LIBRARY SYSTEMS AND SERVICES (LSSI)
(Report of: Administrative Services Department)

Recommendations

1. Approve the amendment to City's current contract with LSSI to add information technology (IT) services.

2. Authorize the City Manager to sign the contract amendment.

3. Authorize the revenue and expenditure appropriations as identified

within the Fiscal Impact section of this report.

A.16 AWARD TO PB LOADER CORPORATION FOR THE REPLACEMENT PURCHASE OF ONE ASPHALT PATCH TRUCK
(Report of: Public Works Department)

Recommendations

1. Award to PB Loader Corporation of Fresno, CA, for the purchase of one 2015 Ford F-650 6.8L Triton V10 3-Valve Gasoline 362 HP @ 4750.

2. Authorize the Purchasing & Facilities Division Manager to issue a purchase order to PB Loader Corporation in the amount of $147,147.00.

A.17 WASTE MANAGEMENT OF THE INLAND EMPIRE FY 2014/2015 RATE ADJUSTMENT
(Report of: City Manager Department)

Recommendation:

1. Approve the Waste Management of the Inland Empire proposed Fiscal Year (FY) 2014/2015 Rate Adjustment.

A.18 RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY DECLARING ITS SUPPORT FOR AN ECONOMIC EXPANSION PROJECT IBANK FINANCING APPLICATION BY FAMILY SERVICE ASSOCIATION
(Report of: Community & Economic Development Department)

Recommendation:

1. Adopt Resolution No. 2014-54. A Resolution of the City Council of the City of Moreno Valley, California, Declaring its Support for an Economic Expansion Project to be implemented by Family Service Association and its Intent to Act as a Sponsor for Purposes of the Financing Application for such Project.

A.19 AUTHORIZE A CHANGE ORDER TO INCREASE THE PURCHASE ORDER WITH PACIFIC UTILITY INSTALLATION, INC. FOR SCE TIE-IN WORK TO MOVAL SOUTH 33 KV SUBSTATION – PROJECT NO. 805-0021-70-80
(Report of: Public Works Department)

Recommendations

1. Authorize a Change Order to increase the existing Purchase Order with Pacific Utility Installation, Inc., the onsite contractor for the MOVAL South 33 kV Substation project by an additional $248,669.00.

2. Authorize the Public Works Director/City Engineer to execute a change order with Pacific Utility Installation, Inc.

D.1 ORDINANCES - READING BY TITLE ONLY
Recommendation: Waive reading of all Ordinances.

D.2 MINUTES - REGULAR MEETING OF JUNE 10, 2014 (Report of: City Clerk's Department)

Recommendation:
1. Approve as submitted.

E. PUBLIC HEARINGS

Questions or comments from the public on a Public Hearing matter are limited to five minutes per individual and must pertain to the subject under consideration. Those wishing to speak should complete and submit a GOLDENROD speaker slip to the Bailiff.

E.1 PUBLIC HEARING REGARDING THE MAIL BALLOT PROCEEDINGS FOR ASSESSOR'S PARCEL NUMBERS (APNS) 297-220-012; AND 292-

242-014 BALLOTING FOR NPDES
(Report of: Financial & Management Services Department)

Recommendations That the City Council:

1. Conduct the Public Hearing and accept public testimony regarding the mail ballot proceedings for APNs 297-220-012; and 292-242-014 for approval of the National Pollutant Discharge Elimination System (NPDES) maximum annual rate.

2. Direct the City Clerk to tabulate the NPDES ballots for APNs 297-220-012; and 292-242-014.

3. Verify and accept the results of the mail ballot proceedings as identified on the Official Tally Sheet.

4. Receive and file with the City Clerk's office the Official Tally Sheet.

5. If approved, authorize and impose the NPDES maximum commercial/industrial regulatory rate to APNs 297-220-012; and 292-242-014.

E.2 PUBLIC HEARING FOR DELINQUENT RESIDENTIAL SOLID WASTE ACCOUNTS
(Report of: City Manager Department)

Recommendations That the City Council:

1. Approve placing the submitted list of delinquent solid waste accounts for the Fiscal Year (FY) 2014/2015 Riverside County property tax roll for collection.

2. Direct the City Clerk to file with the Riverside County Auditor a certified copy of Resolution No. 2012-55 and the list of delinquent solid waste accounts as required by Section 5473.4 of the California Health and Safety Code and Section 6.02.030 of the City of Moreno Valley Municipal Code.

E.3 PUBLIC HEARING AND ADOPTION OF RESOLUTION ESTABLISHING APPROPRIATIONS ("GANN") LIMIT FOR THE CITY OF MORENO VALLEY FOR FISCAL YEAR 2014-15
(Report of: Financial & Management Services Department)

Recommendations That the City Council:

1. Conduct a Public Hearing to receive public comments on the City's appropriations limit for Fiscal Year 2014-15.

2. Adopt Resolution No. 2014-55. A Resolution of the City Council of

the City of Moreno Valley, California, Establishing the Appropriations Limit for Fiscal Year 2014-15.

E.4 PUBLIC HEARING AND ADOPTION OF RESOLUTION ESTABLISHING APPROPRIATIONS ("GANN") LIMIT FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT FOR FISCAL YEAR 2014-15
(Report of: Financial & Management Services Department)

Recommendations That the CSD:

1. Conduct a Public Hearing to receive public comments on the Community Services District's appropriations limit for Fiscal Year 2014-15.

2. Adopt Resolution No. CSD 2014-12. A Resolution of the Moreno Valley Community Services District Establishing the Appropriations Limit for Fiscal Year 2014-15.

E.5 PUBLIC HEARING TO CONSIDER RECOMMENDED RESOLUTIONS APPROVING THE CONTINUANCE OF CURRENT MORENO VALLEY COMMUNITY SERVICES DISTRICT ANNUAL PARCEL TAXES AND CHARGES PROPOSED FOR FISCAL YEAR 2014/15
(Report of: Financial & Management Services Department)

Recommendations That the CSD:

1. Acting in its capacity as President and Members of the Board of Directors of the Moreno Valley CSD ("CSD Board") conduct a Public Hearing to consider the continuance of current Moreno Valley Community Services District annual parcel taxes and charges proposed for Fiscal Year 2014/15.

2. Approve and adopt Resolution No. CSD 2014-13. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Tax for Providing Zone A (Parks and Community Services) Services During Fiscal Year 2014/15.

3. Approve and adopt Resolution No. CSD 2014-14. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Tax for Providing Zone C (Arterial Street Lighting and Intersection Lighting) Services During Fiscal Year 2014/15.

4. Approve and adopt Resolution No. CSD 2014-15. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Charge for Providing Zone D (Parkway Landscape Maintenance)

Services During Fiscal Year 2014/15.

5. Approve and adopt Resolution No. CSD 2014-16. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Charge for Providing Zone E (Extensive Landscape Maintenance) Services During Fiscal Year 2014/15.

6. Approve and adopt Resolution No. CSD 2014-17. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Charge for Providing Zone M (Commercial/Industrial/Multifamily Improved Median Maintenance) Services During Fiscal Year 2014/15.

7. Approve and adopt Resolution No. CSD 2014-18. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Maximum Parcel Charge for Providing Zone S (Sunnymead Boulevard Maintenance) Services During Fiscal Year 2014/15.

8. Authorize the Chief Financial Officer to determine the applied parcel tax or charge to be levied on the property tax bill of properties located within Zones A, C, D, E, M, and S provided it does not exceed the maximum approved parcel tax or parcel charge and does not exceed the approved budget.

E.6 A PUBLIC HEARING FOR THE PROLOGIS EUCALYPTUS INDUSTRIAL PARK PROJECT AND RELATED ENVIRONMENTAL IMPACT REPORT. THE PROJECT PROPOSES A GENERAL PLAN AMENDMENT AND A ZONE CHANGE FOR 122 ACRES. THE LAND USE CHANGES ARE REQUIRED FOR DEVELOPMENT OF SIX WAREHOUSE DISTRIBUTION FACILITIES TOTALING 2,244,419 SQUARE FEET. THE DEVELOPER ALSO PROPOSES TENTATIVE PARCEL MAP NO. 35679 TO SUBDIVIDE THE PROJECT SITE INTO SIX PARCELS. A GENERAL PLAN AMENDMENT IS ALSO REQUIRED FOR PROPOSED CHANGES TO THE CITY'S GENERAL PLAN CIRCULATION ELEMENT AND THE MASTER PLAN OF TRAILS. THE SITE IS LOCATED SOUTH OF STATE ROUTE 60 AND EAST OF THE MORENO VALLEY AUTO MALL, AT FIR AVENUE (FUTURE EUCALYPTUS AVENUE) AND BETWEEN PETTIT STREET AND THE QUINCY CHANNEL. THE APPLICANT IS PROLOGIS
(Report of: Community & Economic Development Department)

Recommendations That the City Council:

1. Conduct a public hearing for Prologis Eucalyptus Industrial Park Project and subsequent to the public hearing:

2. Approve Resolution No. 2014-56. A Resolution of the City Council of the City of Moreno Valley, California, Certifying the Final Environmental Impact Report (P07-186) and Adopting the Findings and Statement of Overriding Considerations and Approving the Mitigation Monitoring Program for the Prologis Eucalyptus Industrial Park Project, included as Exhibits A and B.

3. Approve Resolution No. 2014-57. A Resolution of the City Council of the City of Moreno Valley, California, Approving a General Plan Amendment (PA07-0082) from R15, R5, and RA-2 land use designations to Business Park for approximately 71 acres for development of a 2,244,419 square foot industrial park located within Assessor's Parcel Numbers 4880330-011, -012, -013, -017, -018, -019, -020 and -021, as shown on the General Plan Amendment Map included as Exhibit A.

4. Introduce Ordinance No. 880. An Ordinance of the City Council of the City of Moreno Valley, California, Approving a Zone Change (PA07-0081) from Business Park, Business Park Mixed-use, R15, R5, and RA-2 to Light Industrial for approximately 122 acres for development of a 2,244,419 square foot industrial park located within Assessor's Parcel Numbers 488-330-011, 012, -013, -017, -018, -019, -020, and -021, as shown on the Zone Change Map included as Exhibit A.

5. Approve Resolution No. 2014-58. A Resolution of the City Council of the City of Moreno Valley, California, Approving Master Plot Plan application PA07-0083 and Plot Plan applications PA07-0158 through PA07-0162 for development of the 2,244,419 square foot Prologis Eucalyptus Industrial Park Project within the 122 acres of Assessor's Parcel Numbers 488-330-011, 012, -013, -017, -018, -019, -020, and -021, subject to the conditions of approval included as Exhibit A.

6. Approve Resolution No. 2014-59. A Resolution of the City Council of the City of Moreno Valley, California, Approving Tentative Parcel Map 35679 (PA07-0084) for development of the 2,244,419 square foot Prologis Eucalyptus Industrial Park Project within the 122 acres of Assessor's Parcel Numbers 488-330-011, 012, -013, -017, -018, -019, -020, and -021, subject to the conditions of approval included as Exhibit A.

F. ITEMS REMOVED FROM CONSENT CALENDARS FOR DISCUSSION OR SEPARATE ACTION

G. REPORTS

G.1 APPOINTMENTS TO THE CITY COUNCIL ADVISORY BOARDS AND

COMMISSIONS
(Report of: City Clerk Department)

Recommendations That the City Council:

1. Appoint those applicants who received majority vote by the City Council.

2. If vacancies are not filled by a majority vote of the City Council, authorize the City Clerk to re-advertise the positions as vacant and carry over the current applications for reconsideration of appointment at a future date.

BUDGET OFFICER	
CITY ATTORNEY	
CITY MANAGER	

Report to City Council

TO: Mayor and City Council

FROM: Jane Halstead, CMC, City Clerk

AGENDA DATE: June 24, 2014

TITLE: RESOLUTION NO. 2014-51 CERTIFYING GENERAL MUNICIPAL ELECTION RESULTS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Adopt Resolution No. 2014-51. A Resolution of the City Council of the City of Moreno Valley, California, Reciting the Facts of the General Municipal Election held June 3, 2014, Declaring the Results and such other matters as Provided by Law.

SUMMARY

On Tuesday, June 3, 2014, the City of Moreno Valley conducted a Special Election Municipal Election pertaining to the Recall of Council Member Tom Owings in District 3.

The Riverside County Registrar of Voters has now completed the canvass of election returns as provided in §§10260 and 15301 of the California Elections Code. The City's Resolution No. 2014-51 provides the required certificate of results, which is attached hereto as Exhibit A.

The question to Recall Tom Owings and the response (yes or no) from the voters is listed below:

CITY OF MORENO VALLEY DISTRICT 3 TO RECALL TOM OWINGS

Yes	2,728	In favor of Recall
No	633	Opposed to Recall
	Total: 3,361	100%

The names of persons voted for, and the number of votes given in the City for Member of the City Council for District 3 are as follows:

NAME:	NUMBER OF VOTES:	
Carlos “Tom” Ketcham	587	18.60%
Omorefe “EJ” Igbinosa	64	2.03%
Susan Gilmore-Owings	249	7.89%
Joe “Jose” Garcia	129	4.09%
George E. Price	1,443	45.72%
Brian R. Lowell	684	21.67%
	Total: 3,156	100%

Pursuant to California Elections Code §10263, the City Council must declare the results of the General Municipal Election held June 3, 2014 and install the newly elected officers no later than the next regularly scheduled City Council meeting following presentation of the 28-day canvas of the returns, or at a special meeting called for this purpose. Adoption of the proposed resolution will comply with such statutory requirement.

FISCAL IMPACT

An early estimate from the Registrar’s office for the cost of the election is $10,000-$20,000. The lower amount relates to the number of jurisdictions scheduled participation in the election. Actual costs are dependent on number of registered voters and vendor costs. The estimated election costs are currently included within the adopted FY 2013/14 budget.

RESOLUTION NO. 2014-51

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, RECITING THE FACTS OF THE GENERAL MUNICIPAL ELECTION HELD JUNE 3, 2014, DECLARING THE RESULTS AND SUCH OTHER MATTERS AS PROVIDED BY LAW

WHEREAS, On Tuesday, June 3, 2014, a General Municipal Election was held and conducted for the purpose of the recall of Council Member Tom Owings.

WHEREAS, Notice of the election was given in time, form and manner as provided by law; voting precincts were properly established; election officers were appointed and in all respects, the election was held and conducted and the votes were cast, received and canvassed and the returns made and declared in time, form and manner as required by the provisions of the elections Code of the State of California for the holding of elections in general law cities; and

WHEREAS, Pursuant to Resolution 2014-09 adopted on February 11, 2014, the Registrar of Voters of the County of Riverside canvassed the returns of the election and has certified the results thereof to this City Council.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1.

That the whole number of votes cast in the City except vote-by-mail voter ballots was1,060.

That the whole number of vote-by-mail voter ballots cast in the City was 2,466 making a total of 3,526 votes cast in the City.

SECTION 2.

The question to Recall Tom Owings and the response (yes or no) from the voters is listed below:

CITY OF MORENO VALLEY DISTRICT 3 TO RECALL TOM OWINGS

Yes	2,728	
No	633	
Total:	3,361	100%

SECTION 3.

That the names of persons voted for, and the number of votes given in the City, at the election for Member of the City Council for District 3 are as follows:

NAME:	NUMBER OF VOTES:	
a. Carlos "Tom" Ketcham	587	18.60%
b. Omorefe "EJ" Igbinosa	64	2.03%
c. Susan Gilmore-Owings	249	7.89%
d. Joe "Jose" Garcia	129	4.09%
e. George E. Price	1,443	45.72%
f. Brian R. Lowell	684	21.67%
Total:	3,156	100%

SECTION 4.

That the number of votes given at each precinct and the number of votes given in the City to each of the persons above named for the respective office for which the persons were candidates were as listed on the Statement of Vote prepared by the Registrar of Voters and attached hereto as Exhibit A.

SECTION 5.

That the City Council does declare and determine that George Price was elected as a Member of the City Council for District 3 for a partial term expiring on December 2016.

SECTION 6.

That the City Clerk shall enter on the records of the City Council of the City a statement of the results of the election showing: (1) the whole number of votes cast in the City; (2) the names of the persons voted for; (3) for what office each person was voted for; (4) the number of votes given at each precinct to each person; and (5) total number of votes given to each person.

SECTION 7.

That the City Clerk shall immediately make and deliver to the person so elected a Certificate of Election signed by the City Clerk and authenticated; that the City Clerk shall also administer to the person elected the Oath of Office prescribed in the Constitution of the State of California and shall have the person subscribe to it and file it in the office of the City Clerk. The person so elected shall then be inducted into the respective office to which the person has been elected.

SECTION 8.

That the City Clerk shall certify to the passage and adoption on this resolution and enter it into the book of original resolutions.

APPROVED AND ADOPTED this 24th day of June, 2014.

BUDGET OFFICER	
CITY ATTORNEY	
CITY MANAGER	

Report to City Council

TO: Mayor and City Council

FROM: Jane Halstead, City Clerk, CMC

AGENDA DATE: June 24, 2014

TITLE: CITY COUNCIL REORGANIZATION – SELECTION OF MAYOR

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Select one Council Member to fill the vacancy of the unexpired term of Mayor by conducting the voting for the selection of Mayor by written ballot or by voice vote.

2. Swearing-in of appointed Mayor

SUMMARY

The City Council's Rules of Procedure Section 4.3.1 Occurrence of Vacancy defines a vacancy a) The death of the holder of such office; b) The loss or resignation from membership on the City Council by the holder of such office; or c) The acceptance by the City Council of the resignation from such office by the holder thereof.

Due to the recent recall of Council Member Tom Owings and certification of the June 3, 2014 election results, the City Council may appoint a Mayor to fill the vacancy at its first regular meeting after the occurrence of a vacancy created by one of the events mentioned above.

Section 4.2.3 of the Rules of Procedure provides that nominations for the office of mayor may be made by any member of the City Council and need not be seconded in order to be effective. Each selection shall be by three or more affirmative votes. In the event that no person receives three or more votes in the selection process for one office, the selection process shall be repeated immediately; provided, that the person receiving the highest number of votes in the preceding selection process shall be the only nominees for the office to be filled. If, upon repeating the selection process for

Mayor, no person has yet received three affirmative votes for such office, the City Council may either repeat the selection process until the officer has been duly selected or may continue the selection to the next regular meeting of the City Council.

Voting in the selection of Mayor shall be by written ballot unless the City Council, by three or more affirmative votes, determines to conduct the selection process by voice vote. If conducted by written ballot, the vote of each Council Member shall remain undisclosed until all votes have been cast and have been lodged with the City Clerk. The City Clerk shall then read aloud into the minutes of the City Council the identity of the voting Council Member and the name of the person for whom such person is voting. The written ballots shall be public documents and shall be retained in the records of the City Council. The Standard Code of Parliamentary Procedure shall apply to resolve any question of procedure arising during the selection process, which is not governed by Section 4.2 of the City Council Rules of Procedure.

The New Mayor shall serve until the next meeting scheduled for selection of Mayor in December 2014. In the event that the Mayor Pro Tem is elevated to Mayor, the resulting vacancy in the Mayor Pro Tem position would be agendized at the next regular city council meeting.

ALTERNATIVES

1. Conduct the reorganization of the City Council by selecting a new Mayor.

2. Continue the selection to the next regular meeting of the City Council if upon repeating the selection process, no person receives three affirmative votes for Mayor.

FISCAL IMPACT

There is no fiscal impact.

JOINT CONSENT CALENDARS (SECTIONS A-D)

The City Attorney Suzanne Bryant announced that as the recall has prevailed, the recalled Council Member shall not expend or participate in any action that will commit to expend City's funds. Therefore, Tom Owings must refrain from discussing or voting on Items A.3, A.12, A.13, A.15 A.16, B.3 and G.3. If Items are on the Consent Calendar, he may not leave the dais. For the Item G.3, he should leave the dais and the Council Chamber.

The City Manager announced that staff is requesting that Items A.6 through A.10 and B.4 be removed from the Consent Calendar and rescheduled for Reports for June 24 Council meeting.

The City Clerk announced that staff requested to amend Recommendation No. 2 of Item B.3 to substitute City Manager for Mayor.

Motion to Continue Items A6, A.7, A.8, A.9, A.10 and B.4 to June 24, 2014 City Council Meeting by m/Richard A. Stewart, s/Tom Owings

Approved by a vote of 4-0-1, Tom Owings abstained.

Mayor Tom Owings opened the agenda items for the Consent Calendar for public comments, which were received from Roy Bleckert (Item. A.13), Pete Bleckert (A.13), Kathleen Dale (A.12, A.13), Deanna Reeder (A.12, A.13), Kenny Bell (managing development), and Louise Palomarez (A.13).

(Report of: Public Works Department)

Recommendations

1. Approve the Funding Agreement with the Riverside County Flood Control and Water Conservation District (RCFC & WCD) for the San Timoteo Foothill Neighborhood Flood Protection – Moreno Master Drainage Plan Storm Drain Lines K-1 and K-4.

2. Authorize the City Manager to execute the Funding Agreement.

3. Authorize the Public Works Director/City Engineer to approve any minor changes that may be requested by the RCFC & WCD or the City, subject to the approval of the City Attorney.

4. Authorize the Public Works Director/City Engineer to execute any future amendments to the Funding Agreement, subject to the approval of the City Attorney.

5. Authorize a revenue appropriation of $500,000 in the Public Works General Capital Projects Fund (Fund 3002) for the design and construction of the San Timoteo Foothill Neighborhood Flood Protection – Moreno Master Drainage Plan Storm Drain Lines K-1 and K-4.

B.1 ORDINANCES - READING BY TITLE ONLY
Recommendation: Waive reading of all Ordinances.

B.2 MINUTES - REGULAR MEETING OF MAY 27, 2014 (Report of: City Clerk's Department)

Recommendation:
Approve as submitted.

B.3 RECOMMENDATION TO APPROVE CONTRACT MOWING AND MAINTENANCE OF PARKS IN ZONE A AND COMMUNITY FACILITIES DISTRICT #1 TO TRUGREEN LANDCARE, L.L.C.
(Report of: Parks & Community Services Department)

Recommendations

1. Approve Contract Mowing and Maintenance of Parks in Zone A and Community Facilities District #1 to TruGreen LandCare, L.L.C., CA, in the total amount of $142,281.36 per fiscal year ($118,657.68 for Zone A and $23,623.68 for CFD #1).

2. Authorize the Mayor to execute the Contract Mowing and Maintenance of Parks in Zone A and Community Facilities District #1, with the above-mentioned contractor in a form and substance acceptable to the City Attorney.

3. Authorize the Chief Financial Officer to issue a purchase order upon execution of the Contract Mowing and Maintenance of Parks in Zone A and Community Facilities District #1 to the above-mentioned contractor not to exceed $142,281.36 per fiscal year. Funds are available in CSD Zone A account 5011-50-57-35211-620910 and CFD #1 account 5113-50-57-35216-620910.

B.4 APPROVAL OF THE CALCULATION OF THE MORENO VALLEY COMMUNITY FACILITIES DISTRICT NO. 1 MAXIMUM SPECIAL TAX RATE FOR FISCAL YEAR 2014/15
(Report of: Financial & Management Services Department)

Recommendation:

1. Acting in its capacity as President and Members of the Board of Directors of the CSD ("CSD Board") and as the legislative body of Moreno Valley Community Facilities District No. 1 approve and adopt Resolution No. CSD 2014-11. A Resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, Approving the Calculation of the Moreno Valley Community Facilities District No. 1 Maximum Special Tax Rate for Fiscal Year 2014/15.

2. Authorize the Chief Financial Officer to determine the applied special tax rate to be levied on the property tax bill provided it does not exceed the maximum tax rate of $155.33, and is in compliance with the Rates and Method of Apportionment of Special Tax ("RMA").

Reconvened

G.1.1 Report by Council Member Molina on March Joint Powers Commission (MJPC)

Council Member Jesse Molina reported the following: he attended March JPA meeting last Wednesday; a TUMF exemption for non-profit businesses supporting housing for severely combat injured veterans was approved; a new development ad hoc committee was established; staff took a legislative trip to Washington D.C. The delegation met with the Air Force, local Senators and Congressional representatives to focus attention on funding to improve Heacock Channel and eliminate flooding on the Base and in Moreno Valley. Also, they met with the FAA to discuss the status of the airport, met with the Foreign Trade Zone officials and described their trade mission to China, met with the Veterans' Administration to emphasize the need for a VA clinic at March to provide medical and behavioral services in Riverside County; want to start internship with vets as groundkeepers.

G.3 GENERAL MUNICIPAL ELECTION – NOVEMBER 4, 2014 RESOLUTIONS CALLING AND GIVING NOTICE; REQUESTING CONSOLIDATION WITH STATEWIDE GENERAL ELECTION; AND ADOPTING REGULATIONS PERTAINING TO CANDIDATES' STATEMENTS
(Report of: City Clerk Department)

Recommendations That the City Council:

1. Adopt Resolution No. 2014-48. A Resolution of the City Council of the City of Moreno Valley, California, Calling and Giving Notice of the Holding of a General Municipal Election on Tuesday, November 4, 2014, of Certain Officers as Required by the Provisions of the Laws of the State of California Relating to General Law Cities.

2. Adopt Resolution No. 2014-49. A Resolution of the City Council of the City of Moreno Valley, California, Requesting the Board of Supervisors of the County of Riverside to Consolidate a General Municipal Election with the Statewide General Election to be held on Tuesday, November 4, 2014, Pursuant to §10403 of the California Elections Code.

3. Adopt Resolution No. 2014-50. A Resolution of the City Council of the City of Moreno Valley, California, Adopting Regulations for Candidates for Elective Office Pertaining to Candidates' Statements Submitted to the Voters for the Election to be held on Tuesday, November 4, 2014.

4. Approve the attached Municipal Information Form and authorize the City Clerk to submit the completed form and the resolutions to the Registrar of Voters.

Mayor Tom Owings recused himself and left the dais.

Mayor Pro Tem Victoria Baca opened the agenda item for public comments, which were received from Kathleen Dale (opposes).

Adopt Resolution No. 2014-48. CLOSING COMMENTS AND/OR REPORTS OF THE CITY COUNCIL, COMMUNITY SERVICES DISTRICT, CITY AS SUCCESSOR AGENCY FOR THE COMMUNITY REDEVELOPMENT AGENCY OR HOUSING AUTHORITY

Council Member Jesse Molina

1. His goal is to bring the City and citizens together; can't satisfy everybody
2.Thanked everyone for being here and for voicing opinions/concerns
3. Thanked Fire Battalion Chief Mike Smith, Fire Department, Police Department and City employees for providing great service
4. Wants the best for the City

Council Member Richard A. Stewart

1. Referred to an article in the Riverside County Bar Association Journal regarding civility in the court room; one day you fight the other attorney, and the next day you are on the same side.
2. Commended the Mayor for his job. Tom came in without any previous experience, became the mayor and was learning on the job; mayor is like an orchestra conductor, and it is very hard thing to do

Council Member Yxstian A. Gutierrez

1. Thanked residents for being here
2. Congratulated members of the newly established Emerging Leaders Council; a lot of training will be provided; members will be the voice for the youth and help bring fresh ideas
3. Addressed issue about his appointment and the lawsuit
4. Emphasized that we need to treat each other right with civility and respect
5. Reported on two events: MoVal Rocks with bands and food vendors will be held this Thursday at the Conference and Recreation Center; Jacobs Foundation, an organization run by UCR college students, provides music and arts to the elementary and middle school kids

Mayor Pro Tem Victoria Baca

1. Thanked Mayor Tom Owings for services in Moreno Valley; wished him

the best
2. Thanked staff
3. On Saturday, June 14, free Edgemont Clean Up project will be held at Edgemont Elementary School
4. On June 28, Walk-A-Thon sponsored by the City and a local organization Tuning Sounds will be held at Towngate Park; Tuning Sounds teaches children how to play instruments and how to be good citizens

Mayor Tom Owings

1. Stressed that the City has three unions that they are vying for the same amount of money available; finding balance needs to be addressed
2. Addressed his comments to people who voted for him and to all people who supported him; it was an honor to be a mayor; is grateful for the opportunity to serve
3. Thanked staff, residents and his wife; it was an honor to serve

CLOSED SESSION - none

There being no further business to conduct, the meeting was adjourned at 9:50 p.m. by unanimous informal consent.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E. Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: APPROVAL OF: (1) POWER PURCHASE AGREEMENT AMONG RE ASTORIA 2 LLC (AS SELLER) AND THE SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY (SCPPA), THE POWER AND WATER RESOURCES POOLING AUTHORITY (PWRPA), AND THE CITIES OF LODI, CORONA, MORENO VALLEY, AND RANCHO CUCAMONGA (TOGETHER, AS BUYERS); AND (2) BUYERS JOINT PROJECT AGREEMENT

RECOMMENDED ACTION

Recommendations:

1. Approve the Power Purchase Agreement among RE Astoria 2 LLC (as seller), and SCPPA, PWRPA, and the Cities of Lodi, Corona, Moreno Valley, and Rancho Cucamonga.

2. Approve the Buyers Joint Project Agreement by and among SCPPA, PWRPA, and the Cities of Lodi, Corona, Moreno Valley, and Rancho Cucamonga.

3. Authorize the City Manager to execute both Agreements.

SUMMARY

All publicly owned utilities must adopt a Renewable Portfolio Standard (RPS) program with prescribed goals for purchasing energy generated through renewable sources. The most frequently used renewable resources include biomass, water, geothermal, wind and solar energy. This report recommends approval of two agreements through which the Moreno Valley Utility will purchase renewable energy from the RE Astoria 2

LLC Solar Project being developed by Recurrent Energy. The City of Moreno Valley is one of several buyers in the project; the other buyers include SCPPA, PWRPA, and the Cities of Lodi, Corona, and Rancho Cucamonga.

DISCUSSION

On June 11, 2013, the City Council approved Resolution No. 2013-37 adopting a Renewable Energy Procurement Plan pursuant to Senate Bill 2-1X. The bill requires all publicly owned utilities to adopt a Renewable Portfolio Standard (RPS) program with prescribed goals for procuring renewable energy resources and the criteria for achieving such goals. The goals for procuring renewable energy are as follows:

- Procurement targets are described as a percentage of retail sales –
    - Compliance Period One: an average of 20% RPS eligible resource procurement
    - Compliance Period Two: by December 31, 2016, 25% RPS eligible resource procurement
    - Compliance Period Three: by December 31, 2020, 33% RPS eligible resource procurement

SCPPA, a joint-powers authority comprised of twelve public power agencies and one irrigation district located in Southern California, annually issues an RFP for renewable energy projects. Each proposal received is evaluated and if there is sufficient interest in a project, SCPPA will negotiate a Power Purchase Agreement with the developer.

The RE Astoria 2 Solar Project is being developed by Recurrent Energy, and is the second phase of a larger project that was developed for Pacific Gas & Electric. It will be sited on approximately 840 acres located in Kern County, just north of Los Angeles County. This second phase will be 75 MW in size. The scheduled commercial operation date of the facility is December 31, 2016.

The output of the project is allocated as follows:

- SCPPA 55 MW
    - City of Azusa 2 MW
    - City of Banning 8 MW
    - City of Colton 5 MW
    - City of Vernon 20 MW – increasing to 30 MW in 2022
- City of Corona 2 MW
- City of Lodi 10 MW
- City of Moreno Valley 2 MW
- City of Rancho Cucamonga 6 MW
- PWRPA 10 MW

The terms of the Power Purchase Agreement include a fixed price of $64.00 per MWh over 20 years for the energy and renewable attributes. If the Seller fails to deliver at

least 80% of the annual guaranteed generation, the Seller will either provide an equivalent product for the shortfall amount, or pay the Buyers' actual cost for any replacement energy purchased. The Seller will establish a $10.5 million security fund to ensure compliance with the performance parameters specified in the Agreement. Project members will have the option to purchase the facility after ten years at fair market value. For the Project members who do not exercise the purchase option, the terms of the Power Purchase Agreement would substantially remain in place.

The Buyers Joint Project Agreement stipulates the formation of a Buyers' Joint Project Committee, whose purpose is to provide coordination among the Buyers and a means to jointly agree on matters related to the project over the term of the Agreement.

MVU's allocation in this project will count towards the renewable energy requirement for Compliance Period 3 as defined in the Renewable Energy Procurement Plan, and conforms to the policies established by the 10-Year Resource Plan that the City Council approved on June 11, 2013.

ALTERNATIVES

1. Approve the Power Purchase Agreement and the Buyers Joint Project Agreement. Staff recommends this alternative.

2. Do not approve the Power Purchase Agreement and the Buyers Joint Project Agreement. Staff does not recommend this alternative. *The City could be found non-compliant with the State mandate for renewable energy.*

FISCAL IMPACT

The Project will require no contributions to construction costs, and therefore will have no fiscal impact for FY 14/15 or FY 15/16. MVU would only pay for the actual energy received at the contract price of $64.00 per MWh, beginning in 2017. The projected annual cost is $398,400, based on anticipated Project output. The projected annual cost does not exceed the Cost Limitation provision of 2.5% of total annual revenue from electricity sales to retail customers that was established and approved in the Renewable Energy Procurement Plan.

CITY COUNCIL GOALS

POSITIVE ENVIRONMENT:

The diversified portfolio of the City's power supply resources will foster a positive environment and potentially help contribute to the reduction of the State's reliance on fossil-fueled generation.

NOTIFICATION

POWER PURCHASE AGREEMENT

PARTIES

THIS POWER PURCHASE AGREEMENT (this "***Agreement***"), dated as of this __ day of _____, 2014, is being entered into by and among the SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY, a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the Act and the Joint Powers Agreement (each as defined below), ("***SCPPA***"), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act ("***PWRPA***"), the CITY OF LODI, a California municipal corporation organized and existing under the laws of the State of California ("***Lodi***"), the CITY OF CORONA, a California municipal corporation organized and existing under the laws of the State of California ("***Corona***"), the CITY OF MORENO VALLEY, a California municipal corporation organized and existing under the laws of the State of California ("***Moreno Valley***"), the CITY OF RANCHO CUCAMONGA, a California municipal corporation organized and existing under the laws of the State of California ("***Rancho Cucamonga***") and RE ASTORIA 2 LLC, a limited liability company organized and existing under the laws of the State of Delaware ("***Seller***"). SCPPA, PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga are each referred to herein as a "***Buyer***," and together as "***Buyers***." Each Buyer and Seller is referred to individually in this Agreement as a "***Party***" and together as the "***Parties.***"

RECITALS

WHEREAS, SCPPA's members have adopted or are adopting policies to comply with the California Renewable Energy Resources Act that are designed to increase the amount of energy that they provide to their retail customers from eligible renewable energy resources; and

WHEREAS, on January 1, 2013, SCPPA issued a request for proposals ("***RFP***") to acquire renewable energy resources; and

WHEREAS, an affiliate of Seller responded to SCPPA's RFP on behalf of its indirect, wholly-owned subsidiary, Seller, and, following negotiation, Seller has agreed to sell to Buyers, and Buyers have agreed to purchase from Seller, certain renewable energy and associated environmental attributes for the purchase price set forth in Appendix A hereto; and

WHEREAS, the Parties desire to set forth the terms and conditions pursuant to which such sales and purchases shall be made.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing Recitals, which are incorporated herein, the mutual covenants and agreements herein set forth, and other good and valuable consideration, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

ARTICLE I
DEFINITIONS AND INTERPRETATION

Section 1.1 Definitions. The following terms in this Agreement and the appendices hereto shall have the following meanings when used with initial capitalized letters:

"**Act**" means all of the provisions contained in the California Joint Exercise of Powers Act found in Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California, beginning at California Government Code Section 6500 et seq.

"**Additional Site Control Documents**" means the documents listed on Appendix R under the heading "Additional Site Control Documents".

"**Affiliate**" means, as to any Person, any other Person that, directly or indirectly, is in control of, is controlled by or is under common control with such Person or is a director or officer of such Person or of an Affiliate of such Person. As used in this Agreement, "control" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of management, policies or activities of a Person, whether through ownership of voting securities, by contract or otherwise.

"**Agreement"** has the meaning set forth in the preamble of this Agreement, and includes Appendices A through Q, and Schedules 6.5, 10.3, and 12.2(h) attached hereto.

"**Agreement Term**" has the meaning set forth in Section 2.2(a).

"**Ancillary Documents**" means the Option Agreement, the Land Option Agreement, the Site Control Documents, the Security Documents and all other material agreements entered into by and between the Seller Parties or between any Seller Party and Buyers, in each case, related to the Facility or the Site.

"**Annual Contract Quantity**" means, for each Contract Year, the number of MWh set forth on Appendix C.

"**Applicable Contract Capacity**" means (a) 65 MW from the Commercial Operation Date until and including December 31, 2021, and (b) at least 75 MW from and after January 1, 2022 until the expiration of the Agreement Term, in each case, as measured by the sum of the inverter nameplate capacity of the Facility.

"**Applicable MW Share**" means the amount, measured as a percentage of Applicable Contract Capacity, of Facility output allocated as of the Effective Date to SCPPA's Participating Members, Corona, Lodi, Moreno Valley, Rancho Cucamonga and PWRPA, as set forth in Appendix M.

"**ASME**" means American Society of Mechanical Engineers.

"**Assumed Daily Deliveries**" has the meaning set forth in Section 13.4(d).

"**ASTM**" means American Society for Testing and Materials.

"**Authorized Auditors**" means representatives of any Buyer or a Buyer's Authorized Representative who are authorized to conduct audits on behalf such Buyer.

"**Authorized Representative**" has the meaning set forth in Section 14.1.

"**Availability Standards**" means the program set forth in Section 40.9 of the CAISO Tariff, as it may be amended, supplemented or replaced (in whole or in part) from time to time, setting forth certain standards regarding the desired level of availability for Resource Adequacy (as defined in the CAISO Tariff) resources and possible charges and incentive payments for performance thereunder.

"**AWS**" means American Welding Society.

"**Bankruptcy**" means any case, action or proceeding under any bankruptcy, reorganization, insolvency or receivership law or any dissolution or liquidation proceeding commenced by or against a Person and, if such case, action or proceeding is not commenced by such Person, such case or proceeding shall be consented to or acquiesced in by such Person or shall result in an order for relief or shall remain undismissed for ninety (90) days.

"**Brown Act**" has the meaning set forth in Section 14.21(d).

"**Business Day**" means any day that is not a Saturday, a Sunday, or a day on which commercial banks are required to be closed in Los Angeles County, California or New York, New York.

"**Buyer**" or "**Buyers**" has the meaning set forth in the preamble of this Agreement.

"**Buyers' Agent**" means the agent appointed by Buyers pursuant to a written agreement among Buyers for the purpose of administering this Agreement on behalf of Buyers, which appointment may be changed from time to time, subject to the representation, warranty and covenant in Section 12.1(e), by written agreement among Buyers with notice thereof to Seller. Notice information for Buyers' Agent shall be as set forth on Appendix C. As of the Effective Date, Buyers' Agent shall be SCPPA.

"**Buyers' Percentage of Facility Output**" means the percentage of Facility output allocated to each Buyer as set forth in Appendix M, as may be adjusted due to any withdrawal, termination or other change to the interest of a Buyer in the Facility as permitted or required by this Agreement, subject to the right, but not the obligation, of the remaining Buyers to take all or any portion of such partially terminated or withdrawn Buyer's share of the Facility output.

"**Cal-OSHA**" means the California Occupational Safety & Health Administration.

"**CAISO**" means the California Independent System Operator.

"**CAISO Integration Amounts**" means fees, costs and charges that are: (a) at the time such fees, costs and charges come into existence (there are none applicable to generators as of the Effective Date), identified as an "Integration Cost Charge Code" on Appendix N, as updated by Seller from time to time with the consent of Buyers' Agent (not to be unreasonably withheld)

due to changes in the CAISO Tariff or changes in CAISO procedures or practices, and (b) assessed by the CAISO to Seller in its capacity as Scheduling Coordinator for the Facility, and (c) result in a charge on Seller's Settlement Statement, and (d) are not already charged to Seller under any other provision to this Agreement.

"**CAISO Integration Amounts Cost Cap**" means the maximum dollar amount of CAISO Integration Amounts for which Seller is liable and shall equal (a) in any Contract Year, Five Hundred Thirty Five Thousand dollars ($535,000), and (b) during the Delivery Term, an aggregate of Three Million Two Hundred Ten Thousand dollars ($3,210,000).

"**CAISO Settlement Price**" means the Locational Marginal Price at the Point of Delivery for each Settlement Interval, or, in the case of Replacement Product delivered to another CAISO node in accordance with Section 9.2, the LMP at such CAISO node for such deliveries of Replacement Product.

"**CAISO Tariff**" means the CAISO FERC Electric Tariff, Fifth Replacement Volume, including the rules, protocols, procedures and standards attached thereto.

"**CAMD**" means the Clean Air Markets Division of the EPA and any other state, regional or federal or intergovernmental entity or Person that is given authorization or jurisdiction or both over a program involving the registration, validation, certification or transferability of Environmental Attributes.

"**Capacity Rights**" means the rights, whether in existence as of the Effective Date or arising thereafter during the Agreement Term, to capacity, Resource Adequacy Attributes, Local Capacity Requirement Attributes, associated attributes or reserves, or any of the foregoing as may in the future be defined by the CAISO, or any other balancing authority, reliability entity or Governmental Authority associated with the electric generating capability (based on the Applicable Contract Capacity) of the Facility, including the right to resell such rights.

"**CEC**" means California's State Energy Resources Conservation and Development Commission, also known as the California Energy Commission.

"**CEC Certified**" means that the CEC has certified that the Facility is an eligible renewable Energy resource in accordance with Public Utilities Code Section 399.12(e) and the guidelines adopted by the CEC, as amended from time to time, and any successor statute.

"**CEC Performance Standard**" means, at any time, the applicable greenhouse gas emissions performance standard in effect at such time for baseload electric generation facilities that are owned or operated (or both) by local publicly owned electric utilities, or for which a local publicly owned electric utility has entered into a contractual agreement for the purchase of power from such facilities, as established by the CEC or other Governmental Authority having jurisdiction over any Buyer.

"**CEQA**" means the California Environmental Quality Act, California Public Resources Code §§ 21000, et seq.

"**CEQA Determinations**" means that:

(a) The lead agency conducting the review of the Facility as required under CEQA shall have (i) reviewed and approved the CEQA Documents, (ii) issued a final land use entitlement or other discretionary permit for the Facility, and (iii) filed a Notice of Determination in compliance with CEQA; and

(b) The applicable period for any legal challenges to any action by either the lead agency or any responsible agency under CEQA shall have expired without any such challenge having been filed or, in the event of any such challenge, the challenge shall have been determined adversely to the challenger by final judgment or settlement.

"**CEQA Documents**" means a final environmental impact report, mitigated negative declaration or equivalent document upon which the lead agency issued a final approval for the Facility.

"**Change in Control**" means the occurrence, whether in a single transaction or in a series of related transactions, of any one or more of the following: (i) a merger or consolidation of Seller or any RE Holdings Entity with or into any other Person or any other reorganization in which the members of Seller or any RE Holdings Entity immediately prior to such consolidation, merger, or reorganization, own less than fifty percent (50%) of the equity ownership of the surviving entity or cease to have the power to control the management and policies of the surviving entity immediately after such consolidation, merger, or reorganization, (ii) any transaction or series of related transactions in which in excess of fifty percent (50%) of the equity ownership of Seller or any RE Holdings Entity, or the power to control the management and policies of Seller or any RE Holdings Entity is transferred to another Person, (iii) a sale, lease, or other disposition of all or substantially all of the assets of Seller or any RE Holdings Entity, (iv) the dissolution or liquidation of Seller or any RE Holdings Entity, or (v) any transaction or series of related transactions that has the substantial effect of any one or more of the foregoing; *provided*, *however*, that a Change in Control shall not include any transaction or series of transactions in which any equity interest in Seller or any RE Holdings Entity are issued or transferred to another Person solely for the purpose of a Tax Equity Transaction.

"**Change in Law**" means a change to any WREGIS standards, rules, or requirements, or a change to any federal, state, local or other law (including any environmental law, EPS Law or RPS Law), resolution, standard, code, rule, ordinance, directive, regulation, order, judgment, decree, ruling, determination, permit, certificate, authorization, or approval of a Governmental Authority, including the adoption of any new law, resolution, standard, code, rule, ordinance, directive, regulation, order, judgment, decree, ruling, determination, permit, certificate, authorization, or approval.

"**Charge Codes**" has the meaning set forth in the CAISO Tariff.

"**Closing**" means the consummation of the transactions with respect to a sale pursuant to one or more Buyer's exercise of the Right of First Offer or pursuant to the Option Agreement.

"**Commercial Operation**" means all of the following have occurred:

(a) Construction of the Facility has been completed in accordance with the terms and conditions of this Agreement, "substantial completion" under the relevant construction

contracts has been achieved, and the Facility possesses all of the characteristics and satisfies all of the requirements set forth for the Facility in this Agreement;

(b) The Facility has successfully completed all testing required by Prudent Utility Practices or any Requirement of Law to operate the Facility;

(c) Seller has delivered to Buyers' Agent a certificate of an independent engineer substantially in the form attached hereto of Appendix L-2;

(d) Seller has obtained all Permits (including the CEQA Determinations) required for the operation and maintenance of the Facility in accordance with this Agreement, including the Permits identified on Appendix B-1, and all such Permits are final and non-appealable;

(e) Seller has entered into an agreement providing for the operation and maintenance of the Facility with a Qualified Operator;

(f) Each Buyer has received the Delivery Term Security as provided in Section 5.7 in a form reasonably acceptable to Buyers;

(g) The Facility is both authorized and able to operate and deliver Energy at the Applicable Contract Capacity in accordance with the Generator Interconnection Agreement, Prudent Utility Practices, the Requirements, and all Requirements of Law; *provided* that the Facility need not be CEC Certified as a condition to achieving Commercial Operation; and

(h) Seller has provided notice from the CAISO that the Facility has completed startup testing and has been approved by the CAISO to commence operations.

"**Commercial Operation Date**" means the date on which Commercial Operation of the Facility occurs, as determined pursuant to Section 3.5.

"**Confidential Information**" has the meaning set forth in Section 14.21(a).

"**Construction Start Date**" means the date on which Seller delivers to Buyers' Agent a written certification substantially in the form attached hereto as Appendix L-1.

"**Contract Price**" means, for any period of time, the applicable Contract Price set forth in Appendix A.

"**Contract Year**" means (i) the period beginning on the Commercial Operation Date and ending at 24:00 hours on December 31 in the year during which the Commercial Operation Date occurs; (ii) the following twenty (20) calendar years, beginning on the first day of January following the end of the stub year described in (i) above, and each succeeding twelve-month period up to and including the period ending with December 31 of such twentieth (20th) calendar year.

"**Corona**" has the meaning set forth in the preamble of this Agreement.

"**Costs**" has the meaning set forth in Section 13.4(g)(iii).

"**Cover Damages**" has the meaning set forth in Section 6.3.

"**CPRA**" has the meaning set forth in Section 14.21(d).

"**Curtailment Period**" means a period of time during the Delivery Term during which the generation of Facility Energy is required to be curtailed or reduced (in whole or part) as a result of an order, direction, alert, request, notice, instruction or directive from a Transmission Provider, the CAISO, WECC, NERC, or any other reliability entity due to (a) a System Emergency, (b) system improvements, curtailments, or scheduled and unscheduled repairs or maintenance at or downstream from the Point of Delivery, (c) an event of Force Majeure at or downstream from the Point of Delivery, (d) over-generation or any other reason adversely affecting the normal function and operation of the CAISO grid or a Transmission Provider's system, as may from time to time be identified by the CAISO, the Transmission Provider, WECC, NERC, or any other reliability entity. For the avoidance of doubt, the term "Curtailment Period" shall not include curtailments directed by CAISO for economic reasons.

"**Daily Delay Damages**" has the meaning set forth in Section 3.6(c).

"**Day-Ahead Market**" has the meaning set forth in the CAISO Tariff.

"**Deemed Generated Energy**" has the meaning set forth in Section 7.4(d).

"**Default**" has the meaning set forth in Section 13.1.

"**Defaulting Party**" has the meaning set forth in Section 13.1.

"**Delivery Term**" has the meaning set forth in Section 2.2(b).

"**Delivery Term Security**" has the meaning set forth in Section 5.7(b).

"**Dispute**" has the meaning set forth in Section 14.3(a).

"**Dispute Notice**" has the meaning set forth in Section 14.3(a).

"**Downgrade Event**" means, with respect to a financial institution, or a provider of a letter of credit or Escrow Account hereunder, any event that results in (a) the failure of such financial institution to maintain the credit rating or organizational status of a Qualified Issuer, as applicable, or (b) the commencement by such a financial institution of involuntary or voluntary bankruptcy, insolvency, reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar proceeding (whether under any present or future statute, law or regulation), or (c) any Buyer electing to terminate any relationship with such Person pursuant to directives from any Governmental Authorities applicable to such Buyer.

"**Early Termination Date**" has the meaning set forth in Section 13.4(a).

"**EEI**" means Edison Electric Institute.

"**Effective Date**" has the meaning set forth in Section 2.1.

"**Effective Date Site Control Documents**" means the documents listed on Appendix R under the heading "Effective Date Site Control Documents".

"**EIRP Forecast**" means the final forecast of the Energy to be produced by the Facility prepared by the CAISO in accordance with the Eligible Intermittent Resources Protocol for use in submitting a Schedule for the output of the Facility in the Real-Time Market.

"**Electric Metering Devices**" means all meters, metering equipment, and data processing equipment used to measure, record, or transmit data relating to the Facility Energy. Electric Metering Devices include the metering current transformers and the metering voltage transformers.

"**Eligible Intermittent Resources Protocol**" or "**EIRP**" means the Eligible Intermittent Resource Protocol, as may be amended from time to time, as set forth in the CAISO Tariff.

"**Energy**" means electrical energy.

"**Enforceability Opinion**" means a reasoned opinion of Seller's outside legal counsel in a form reasonably acceptable to Buyers' Agent, and addressed to Buyers, as to the enforceability and due authorization of this Agreement.

"**Environmental Attributes**" means RECs, and any and all other current or future credits, benefits, emissions reductions, offsets or allowances, howsoever entitled, named, registered, created, measured, allocated or validated that are (a) at any time recognized or deemed of value (or both) by any Buyer, applicable law, or any voluntary or mandatory program of any Governmental Authority or other Person, and (b) attributable to (i) generation by the Facility of Energy during the Delivery Term or any Replacement Product required to be delivered by Seller to Buyers during the Delivery Term, and (ii) the emissions or other environmental characteristics of such generation or such Replacement Product or its displacement of conventional or other types of Energy generation. Environmental Attributes include any of the aforementioned arising out of legislation or regulation concerned with oxides of nitrogen, sulfur, carbon, or any other greenhouse gas or chemical compound, particulate matter, soot, or mercury, or implementing the United Nations Framework Convention on Climate Change (the "***UNFCCC***"), the Kyoto Protocol to the UNFCCC, California's greenhouse gas legislation (including California Assembly Bill 32 (Global Warming Solutions Act of 2006) and any regulations implemented pursuant to that act, including without limitation any compliance instruments accepted under the California Cap on Greenhouse Gas Emissions and Market-Based Compliance Mechanisms regulations of the California Air Resources Board or any successor regulations thereto), or any similar international, federal, state or local program or crediting "early action" with a view thereto, or laws or regulations involving or administered by the CAMD, and all Environmental Attribute Reporting Rights, including all evidences (if any) thereof such as renewable Energy certificates of any kind. Environmental Attributes for purposes of this definition are separate from the Facility Energy. Environmental Attributes exclude (1) investment tax credits, any local, state or federal production tax credits, depreciation deductions or other tax credits providing a tax benefit to Seller or any other Person based on

ownership or a security interest in the Facility or Energy production from any portion of the Facility, including any investment or production tax credit expected to be available to Seller with respect to the Facility, (2) depreciation deductions and benefits, and other tax benefits arising from ownership or operation of the Facility unrelated to its status as a generator of renewable or environmentally clean Energy, and (3) cash grants or other financial incentives from any local, state or federal government available to Seller with respect to the Facility.

"**Environmental Attribute Reporting Rights**" means all rights to report ownership of the Environmental Attributes to any Person, including under Section 1605(b) of the Energy Policy Act of 1992 (Title 42, United States Code § 13385) or any other current or future international, federal, state or local law, regulation or bill, or otherwise.

"**Environmental Attributes Value**" means the value of Environmental Attributes purchased by Buyers under this Agreement, stated in $/MWh, determined based on a Renewable Energy Credit pricing index that has been mutually agreed upon by Seller and Buyers' Agent or, if such index is not available, the value of the Environmental Attributes as determined by the average of three (3) nationally-recognized broker quotes for Environmental Attributes that meet the definition of Environmental Attributes set forth in this Agreement; *provided* that such index pricing or broker quotes shall relate to Environmental Attributes that are derived from comparable vintage and generation technology as the Environmental Attributes that are being replaced, and are from a generator that qualifies as an "eligible renewable energy resource" within the meaning of Section 399.16(b)(1)(A) of the California Public Utilities Code at the time of such pricing or broker quotes, as applicable.

"**EPA**" means the United States Environmental Protection Agency.

"**EPC Contractor**" means an engineering, procurement, and construction contractor, or if not utilizing an engineering, procurement and construction contractor, the entity having lead responsibility for the management of overall construction activities, selected by Seller, with substantial experience in the engineering, procurement, and construction of power plants of the same type of facility as Seller's; *provided, however*, that Seller or Seller's Affiliate(s) may serve as EPC Contractor.

"**EPS Compliance**" or "**EPS Compliant**" when used with respect to the Facility, means that the Facility satisfies both the PUC Performance Standard and the CEC Performance Standard in effect at the time; *provided*, if it is impossible for the Facility to satisfy both the PUC Performance Standard and the CEC Performance Standard in effect at any time, the Facility shall be deemed EPS Compliant if it satisfies the CEC Performance Standard in effect at the time and those portions of the PUC Performance Standard in effect at the time that it is possible for the Facility to satisfy while at the same time satisfying the CEC Performance Standard in effect at the time.

"**EPS Law**" means Sections 8340 and 8341 of the California Public Utilities Code.

"**Escrow Account**" has the meaning set forth in Section 5.7(a).

"**Excess Energy**" means, in any Contract Year, Facility Energy delivered in excess of one hundred twenty percent (120%) of the Annual Contract Quantity for such Contract Year,

which deliveries shall be verified in invoices provided by Seller as set forth in Section 11.2(a)(i).

"**Existing Site Control Document**" means (a) the Effective Date Site Control Documents and (b) the Unexecuted Agreed Site Control Documents.

"**Facility**" means the 75 MW solar photovoltaic power generating facility described in Appendix B-1 and depicted on Appendix B-2, including all property interests and related transmission and other facilities.

"**Facility Assets**" has the meaning set forth in Section 14.25(a), as further defined in the Option Agreement.

"**Facility Assets Sale**" has the meaning set forth in Section 14.25(a).

"**Facility Cost**" means, measured as of any date, the aggregate amount of all costs and expenses incurred by Seller during the Agreement Term for the development, design, engineering, equipping, procuring, constructing, installing, starting up, and testing of the Facility, including (a) the cost of all labor, services, materials, suppliers, equipment, tools, transportation, supervision, storage, training, demolition, site preparation, civil works, and remediation in connection therewith, (b) the cost of acquiring and maintaining the Site Control Documents, (c) real and personal property taxes, ad valorem taxes, sale, use, and excise taxes, and insurance (including title insurance) premiums payable with respect to the Facility, (d) initial working capital requirements of the Facility, (e) the cost of acquiring the Permits for the Facility, (f) the cost of establishing a spare parts inventory for the Facility, and (g) financial, legal, and consulting fees, costs, and expenses.

"**Facility Debt**" means, measured as of any date, the payment obligations of Seller in connection with borrowed money, including (a) principal of and premium and interest on indebtedness, (b) fees, charges, penalties, and expenses related to indebtedness, (c) amounts due upon acceleration or in connection with prepayment or restructuring of indebtedness, and (d) swap or interest rate hedging breakage costs.

"**Facility Energy**" means Energy generated by the Facility based on the Applicable Contract Capacity, less station load and transmission losses to the Point of Delivery, as measured by CAISO-approved Electric Metering Devices.

"**Facility Lender**" means any financing party or Tax Equity Investor providing senior or subordinated construction, interim or long-term debt or equity financing or refinancing for or in connection with the development, construction, purchase, installation or operation of the Facility, including in connection with any Tax Equity Transaction, any trustee or agent acting on their behalf, and any Person providing interest rate protection agreements to hedge any of the foregoing debt obligations.

"**Facility Lender Consent**" has the meaning set forth in Section 13.3.

"**Facility Site**" means the real property (including all fixtures and appurtenances thereto) and related physical and intangible property generally identified in Appendix B-1 and Appendix B-2 where the Facility is or will be located.

"**FERC**" means the Federal Energy Regulatory Commission.

"**Fixed Rate**" means Sixty Four Dollars ($64.00) per MWh, without escalation.

"**Force Majeure**" has the meaning set forth in Section 14.6(b).

"**Force Majeure Notice**" has the meaning set forth in Section 14.6(a).

"**Forced Outage**" means the removal of service availability of the Facility, or any portion of the Facility, for emergency reasons or conditions in which the Facility, or any portion thereof, is unavailable due to unanticipated failure, including as a result of Force Majeure.

"**Full Capacity Deliverability Status**" or "**FCDS**" has the meaning set forth in the CAISO Tariff.

"**Full Capacity Deliverability Status Finding**" or "**FCDS Finding**" means a written confirmation from the CAISO that the Project is eligible for FCDS.

"**Gains**" has the meaning set forth in Section 13.4(g)(i).

"**GAAP**" means generally accepted accounting principles set forth in opinions and pronouncements of the Accounting Principles Board of the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or in such other statements by such other entity as may be approved by a significant segment of the accounting profession, in each case as the same are applicable to the circumstances as of the date of determination.

"**Generator Interconnection Agreement**" means the agreement and associated documents (or any successor agreement and associated documentation approved by FERC) by and among Seller, Southern California Edison, and the CAISO governing the terms and conditions of Seller's interconnection with the CAISO grid, including any description of the plan for interconnecting to the CAISO grid.

"**Governmental Authority**" means any federal, state, regional, city or local government, any intergovernmental association or political subdivision thereof, or other governmental, regulatory or administrative agency, court, commission, administration, department, board, or other governmental subdivision, legislature, rulemaking board, tribunal, or other governmental authority, or any Person acting as a delegate or agent of any Governmental Authority. The term "Governmental Authority" shall not include any Party.

"**Guaranteed Commercial Operation Date**" means December 31, 2016.

"**Guaranteed Generation**" means, with respect to each Contract Year, eighty percent (80%) of the Annual Contract Quantity for such Contract Year, which amount shall be reduced by the aggregate amount of Deemed Generated Energy during all Seller Excused Hours during such Contract Year.

"**IEEE**" means the Institute of Electrical and Electronics Engineers.

"**Indemnitees**" has the meaning set forth in Section 14.19(a).

"**Independent Manager**" means a manager who is not at the time of initial appointment, or at any time while serving as Independent Manager, and has not been at any time during the preceding five (5) years: (i) a member, stockholder, equityholder, director, manager (except as the Independent Manager of Seller), officer, employee, partner, attorney or counsel of Seller, any member of Seller, or any Affiliate of Seller; (ii) a customer, supplier or other Person who derives any of its purchases or revenues from its activities with Seller, any member of Seller, or any Affiliate of Seller (other than for serving as Independent Manager of Seller), (iii) a Person controlling or under common control with any such stockholder, equityholder, partner, manager, customer, supplier or other like Person, or (iv) a member of the immediate family of any such member, stockholder, equityholder, director, officer, employee, manager, partner, customer, supplier or other like Person.

"**Initial Delivery Date**" means the date that Seller first delivers Facility Energy to the Point of Delivery.

"**Initial Negative Intervals**" has the meaning set forth in Section 6.5(a)(ii).

"**Insurance**" means the policies of insurance as set forth in Appendix F.

"**Interest Rate**" has the meaning set forth in Section 11.3.

"**ISA**" means the Instrument Society of America.

"**Joint Powers Agreement**" means the "Southern California Public Power Authority Joint Powers Agreement" entered into pursuant to the provisions of the Act among SCPPA and SCPPA's members, dated as of November 1, 1980, as amended or modified from time to time.

"**Key Milestone**" means a Milestone for which liquidated damages are provided in Appendix I.

"**Land Lease**" means that certain Land Lease between Seller and LandCo LLC substantially in the form set forth in Appendix Q.

"**Land Option Agreement**" means that certain Land Option Agreement to be entered into concurrently with the Option Agreement as a condition to the Construction Start Date, in the form set forth in Appendix O, granting Buyers the right to purchase the real property interests to be owned by LandCo LLC.

"**LandCo LLC**" means Astoria 2 LandCo LLC, a Delaware limited liability company.

"**Lessor**" means any lessor of real property for the Facility pursuant to a Site Control Document, including LandCo LLC.

"**Licensed Professional Engineer**" means an independent, professional engineer reasonably acceptable to Buyers' Agent, licensed in the State of California, and otherwise qualified to perform the work required hereunder.

"**Lien**" means any mortgage, deed of trust, lien, security interest, retention of title or lease for security purposes, pledge, charge, encumbrance, equity, attachment, claim, easement, right of way, covenant, condition or restriction, leasehold interest, purchase right or other right of any kind, including any option, of any other Person in or with respect to any real or personal property.

"**Local Capacity Requirement Attributes**" means the benefits or attributes now or existing in the future based on the procurement obligations of Buyers with respect to local resource capacity requirements as prescribed by the PUC, the CAISO or other regional entity, and that are associated with the electric generating capability of the Facility.

"**Locational Marginal Price**" or "**LMP**" has the meaning set forth in Appendix C of the CAISO Tariff.

"**Lodi**" has the meaning set forth in the preamble of this Agreement.

"**Losses**" has the meaning set forth in Section 13.4(g)(ii).

"**Major Maintenance Blockout**" has the meaning set forth in Section 4.4(a).

"**Milestone**" has the meaning set forth in Section 3.6(a).

"**Milestone Date**" has the meaning set forth in Section 3.6(a).

"**Moody's**" means Moody's Investor Services, Inc.

"**Month**" means a calendar month commencing at 00:00 Pacific Prevailing Time on the first day of such month and ending at 24:00 Pacific Prevailing Time on the last day of such month.

"**Moreno Valley**" has the meaning set forth in the preamble of this Agreement.

"**MW**" means megawatt in alternating current, or ac.

"**MWh**" means megawatt-hours.

"**NERC**" means the North American Electric Reliability Corporation.

"**Non-Defaulting Party**" has the meaning set forth in Section 13.4(a).

"**Notice to Proceed**" means the notice provided by Seller to EPC Contractor by which Seller authorizes EPC Contractor to begin construction of the Facility without any delay or waiting periods.

"**Notifying Party**" has the meaning set forth in Section 14.3(a).

"**O&M Agreement**" means the agreement for the provision of operation and maintenance services for the Facility entered into or to be entered into by and between Seller and a Qualified Operator.

"**Option Agreement**" means that certain Option Agreement to be executed by the Parties concurrently with the Land Option Agreement as a condition to the Construction Start Date, in the form set forth in Appendix K.

"**OSHA**" means the Occupational Safety and Health Administration of the United States Department of Labor.

"**Outside Commercial Operation Date**" means December 31, 2017, which date shall not be subject to extension of any kind (except as provided in Section 3.6(d)).

"**Pacific Prevailing Time**" means the local time in the State of California.

"**Party**" or "**Parties**" has the meaning set forth in the preamble of this Agreement.

"**Performance Security**" means the Project Development Security or Delivery Term Security for the Facility, together or individually, as applicable.

"**Permits**" means all applications, permits, licenses, franchises, certificates, concessions, consents, authorizations, approvals, registrations, orders, filings, entitlements and similar requirements of whatever kind and however described that are required to be obtained or maintained by any Person with respect to the development, siting, design, acquisition, construction, equipping, financing, ownership, possession, shakedown, start-up, testing, operation or maintenance of the Facility, the production and delivery of Products from the Facility, including Facility Energy, Capacity Rights and Environmental Attributes, or any other transactions or matter contemplated by this Agreement (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements), including the CEQA Determinations and the Permits described in Appendix B-1.

"**Permitted Encumbrances**" means (a) the Lien of any Facility Lender on the Facility, (b) any Lien approved by Buyers' Agent in a writing separate from this Agreement that expressly identifies the Lien as a Permitted Encumbrance, and (c) other Liens secured by, or encumbrances on, the Facility that (i) at any time do not, in the aggregate, exceed Twenty-Five Million Dollars ($25,000,000), and (ii) satisfy one or more of the following criteria: (A) Liens for Taxes not yet due or for Taxes being contested in good faith by appropriate proceedings, (B) suppliers', vendors', mechanics', workman's, repairman's, employees' or other like Liens arising in the ordinary course of business for work or service performed or materials furnished in connection with the Facility for amounts the payment of which is either not yet delinquent or is being contested in good faith by appropriate proceedings, (C) Liens of any judgment, if such judgment shall not have remained undischarged or unstayed on appeal for more than three (3) months, (D) encumbrances consisting of zoning restrictions, licenses, easements, restrictions on the use of the Site and minor defects and irregularities in title which do not materially impair the use of the Site, the Facility or any portion thereof by Seller or materially impact the value of the Site, the Facility or any portion thereof, (E) rights arising under the Site Control Documents, or (F) other Liens incidental to the conduct of Seller's business or the ownership of its property that

were not incurred in connection with the borrowing of money or obtaining advances of credit and do not materially detract from the value of the Facility, or any portion thereof, or its use.

"**Person**" means any individual, corporation, partnership, joint venture, limited liability company, association, joint stock company, trust, unincorporated organization, entity, government or other political subdivision.

"**Point of Delivery**" means the CAISO Pricing Node (as defined in the CAISO Tariff) to be established by CAISO at the 220kV bus of Southern California Edison Company's Whirlwind Substation and to be identified by notice from Seller to Buyers' Agent prior to the Commercial Operation Date, *provided* that in the case of Replacement Product, an alternative delivery point may designated in accordance with Section 9.2.

"**Pre-Certification Period**" has the meaning set forth in Section 6.1(d).

"**Present Value Rate**" means, at any date, the sum of 0.50% plus the yield reported on page "USD" of the Bloomberg Financial Markets Services Screen (or, if not available, any other nationally-recognized trading screen reporting on-line intraday trading in United States government securities) at 11:00 a.m. (New York City, New York time) for the United States government securities having a maturity that most nearly matches the Remaining Term at that date.

"**Products**" means any and all Facility Energy, Capacity Rights, Environmental Attributes, and ancillary products, services or attributes similar to the foregoing that are or can be produced by, or are associated with, the Applicable Contract Capacity of the Facility, whether now attainable or established in the future, including delivered energy, renewable attributes, and renewable energy credits. The Products shall meet the standard of "Portfolio Content Category 1" as defined by RPS Law.

"**Project Development Security**" has the meaning set forth in Section 5.7(a).

"**Project Purchase Option**" means the right of one or more Buyers to purchase the Facility and certain related assets from Seller in accordance with the provisions of the Option Agreement, and purchase the real property associated with the Facility Site in accordance with the provisions of the Land Option Agreement.

"**Property**" has the meaning set forth in Section 12.8.

"**Proposed Purchase Notice**" has the meaning set forth in Section 14.25(b).

"**Proposed Sale Notice**" has the meaning set forth in Section 14.25(b).

"**Prudent Utility Practices**" means those practices, methods, and acts, that are commonly used by a significant portion of the solar-powered electric generation industry in prudent engineering and operations to design and operate electric equipment (including solar-powered facilities) lawfully and with safety, dependability, reliability, efficiency, and economy, including any applicable practices, methods, acts, guidelines, standards and criteria of the CAISO, FERC, NERC, WECC, as each may be amended from time to time, and all applicable

Requirements of Law. Prudent Utility Practices are not intended to be limited to the optimum practice, method, or act, to the exclusion of all others, but rather is intended to include acceptable practices, methods, and acts generally accepted in the industry.

"**Public Utilities Code**" means the Public Utilities Code of the State of California, as may be amended from time to time.

"**PUC**" means the California Public Utilities Commission and any successor thereto.

"**PUC Performance Standard**" means, at any time, the greenhouse gas emission performance standard in effect at such time for baseload electric generation facilities owned or operated (or both) by load-serving entities and not local publicly-owned electric utilities, as established by the PUC or other Governmental Authority under the EPS Law.

"**PWRPA**" has the meaning set forth in the preamble of this Agreement.

"**QRE**" has the meaning set forth in Section 8.4.

"**Qualified Buyer Assignee**" means a Participating Member, any other non-participating member of SCPPA or a third party Person that is rated (a) "A3" or higher by Moody's and "A-" or higher by S&P, if such Person is rated by both Moody's and S&P, or (b) "A3" or higher by Moody's or "A-" or higher by S&P if such Person is rated by either S&P or Moody's, or (c) equivalent ratings by any other credit rating agency of recognized national standing.

"**Qualified Issuer**" means a Person that maintains a United States domestic branch, and a current long-term credit rating (corporate or long-term senior unsecured debt) of (a) "A3" or higher by Moody's and "A-" or higher by S&P, if such Person is rated by both Moody's and S&P or (a) "A3" or higher by Moody's, or "A-" or higher by S&P if such Person is rated by either S&P or Moody's.

"**Qualified Operator**" means (a) a Person reasonably acceptable to Buyers' Agent that has at least three (3) years of operating experience with at least two (2) utility-scale solar projects of 10 MW ac or higher, (b) any Person identified on Appendix H or any such Person's Affiliates, or (c) any other Person reasonably acceptable to Buyers' Agent.

"**Qualified Transferee**" means a Person that (a) maintains a current long-term credit rating (corporate or long-term senior unsecured debt) of (i) "A3" or higher by Moody's and "A-" or higher by S&P, if such Person is rated by both Moody's and S&P or (ii) "A3" or higher by Moody's, or "A-" or higher by S&P if such Person is rated by either S&P or Moody's, or (iii) equivalent ratings by any other credit rating agency of recognized national standing and retains, causes Seller to retain, a Qualified Operator to operate the Facility (or otherwise agrees not to interfere with the existing Qualified Operator for the Facility), or (b) is reasonably acceptable to Buyers' Agent.

"**Quality Assurance Program**" has the meaning set forth in Section 5.4.

"**RA Deficiency Amount**" means the liquidated damages payment that Seller shall pay to Buyers for the applicable RA Shortfall Month as calculated in accordance with Section 10.3.

"**RA Shortfall Measurement Period**" means a period after which Seller's FCDS Notification has occurred and prior to the applicable RAR Showing deadline, measured commencing on the first day of the Month following the Commercial Operation Date and concluding on the last day of the Month that occurs immediately prior to the first Showing Month.

"**RA Shortfall Month**" means the applicable Month within the RA Shortfall Measurement Period for purposes of calculating an RA Deficiency Amount under Section 10.3.

"**RA Value**" means $1,650/MW/month.

"**Rancho Cucamonga**" has the meaning set forth in the preamble of this Agreement.

"**RAR Showing**" means the resource adequacy requirements compliance showing (or similar or successor showings) that a load serving entity is required to make to CAISO.

"**RE Holdings**" means Recurrent Energy Development Holdings, LLC, a Delaware limited liability company.

"**RE Holdings Entity**" means each of RE Holdings, RE Pioneer Holdings LLC, and RE Astoria 2 Holdings LLC.

"**Real-Time Market**" has the meaning set forth in the CAISO Tariff.

"**REC**" or "**Renewable Energy Credit**" means a certificate of proof associated with the generation of electricity from an eligible renewable energy resource, which certificate is issued through the accounting system established by the CEC pursuant to the RPS Law, evidencing that one (1) MWh of Energy was generated and delivered from such eligible renewable energy resource. Such certificate is a tradable environmental commodity (also known as a "green tag") for which the owner of the REC can prove that it has purchased renewable Energy.

"**Recipient Party**" has the meaning set forth in Section 14.3(a).

"**Remedial Action Plan**" has the meaning set forth in Section 3.6(a).

"**Remaining Term**" means, at any date, the remaining portion of the Delivery Term at that date without regard to any early termination of this Agreement.

"**Replacement Capacity Rights**" means Capacity Rights, if any, equivalent to those that would have been provided by the Facility during the Contract Year for which the Replacement Product is being provided.

"**Replacement Energy**" means Energy produced by a facility other than the Facility that, at the time delivered to Buyers, is (i) both RPS Compliant and EPS Compliant, (ii) qualifies under Public Utilities Code 399.16(b)(1), and (iii) includes Environmental Attributes that have the same or comparable value, including with respect to the timeframe for retirement of such Environmental Attributes, if any, as the Environmental Attributes that would have been

generated by the Facility during the Contract Year for which the Replacement Energy is being provided.

"**Replacement Price**" means the price at which Buyers' Agent, acting in a commercially reasonable manner, purchases Replacement Product, or, absent such a purchase, (a) the SP-15 Price, plus (b) the price of the Environmental Attributes that would have been generated by the Facility valued at the Environmental Attributes Value, plus (c) the value of Capacity Rights, if any, equivalent to those that would have been provided by the Facility, whether sold separately or bundled as a package, in each case, for the calculation period, all as reasonably calculated by Buyers' Agent.

"**Replacement Product**" means (a) Replacement Energy, and (b) Replacement Capacity Rights.

"**Requirements**" means, collectively, (a) any standards or requirements of ASTM, ASME, AWS, EPA, EEI, IEEE, ISA, National Electrical Code, National Electric Safety Code, OSHA, Cal-OSHA, Uniform Building Code, or Uniform Plumbing Code applicable to the design or construction of the Facility, (b) any applicable local county fire department standards or codes, (c) Prudent Utility Practices, (d) all applicable Requirements of Law, (e) Seller's Quality Assurance Program, and (f) all other requirements of this Agreement.

"**Requirement of Law**" means any federal, state, local or other law (including any environmental law, EPS Law or RPS Law), resolution, standard, code, rule, ordinance, directive, regulation, order, judgment, decree, ruling, determination, permit, certificate, authorization, or approval of a Governmental Authority, including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements.

"**Resource Adequacy Attributes**" means the benefits or attributes, if any, now or existing in the future based on the procurement obligations of Buyers with respect to Resource Adequacy as prescribed by the PUC, the CAISO or any other regional entity, and that are associated with the electric generating capability of the Facility or another RPS Compliant eligible renewable resource providing Replacement Product.

"**RFP**" has the meaning set forth in the recitals to this Agreement.

"**Right of First Offer**" and "**ROFO**" have the meaning set forth in Section 14.25(a).

"**RPS Compliance**" or "**RPS Compliant**" means, when used with respect to the Facility or any other facility at any time, that all Energy generated by such facility at all times shall, together with all of the associated Environmental Attributes, qualify as a "portfolio content category 1" eligible renewable resource under the RPS Law and meet the requirements of Public Utilities Code Section 399.16(b)(1).

"**RPS Compliance Period**" means each "Compliance Period" as defined in California Public Utilities Code Section 399.30(c).

"**RPS Law**" means the California Renewable Energy Resources Act, including the California Renewables Portfolio Standard Program, Article 16 of Chapter 2.3, Division 1 of the

Public Utilities Code, California Public Resources Code § 25740 through 25751, any related regulations or guidebooks promulgated by the CEC or, as applicable, the PUC.

"**SCADA**" means the supervisory control and data acquisition system for the Facility.

"**SCPPA's Participating Members**" means the City of Azusa, the City of Banning, the City of Colton and the City of Vernon.

"**Schedule**" or "**Scheduling**" means the actions of Seller and each Scheduler, their Authorized Representatives, and their Transmission Providers, if applicable, of notifying, requesting and confirming to the CAISO the amounts of Facility Energy and Replacement Product expected to be delivered consistent with the Scheduling interval at the Point of Delivery on any given date during the Delivery Term, all in the manner contemplated by the CAISO Tariff.

"**Scheduled Outage**" means any outage affecting more than ten percent (10%) of the Applicable Contract Capacity other than a Forced Outage.

"**Scheduled Outage Projection**" has the meaning set forth in Section 4.4(a).

"**Scheduler**" means the Persons conducting Scheduling on behalf of PWRPA, Corona, Lodi, Moreno Valley, Rancho Cucamonga and, with respect to SCPPA, each Participating Member. The contact information for each Scheduler is set forth in Section 4 of Appendix J.

"**Scheduling Coordinator**" has the meaning set forth in the CAISO Tariff.

"**Security Documents**" means the documents, each in form and substance satisfactory to Buyers (including those documents described in the Land Option Agreement), granting to Buyers a security interest in accordance with the requirements set forth in Section 12.8(a), subordinate only to the interest the Facility Lenders, in (a) the real property for the Facility Site, and (b) the Facility and related assets, that secure each of Seller's and LandCo LLC's performance under the Land Lease and the Land Option Agreement, respectively.

"**Seller**" has the meaning set forth in the preamble of this Agreement.

"**Seller Excused Hour**" means an hour during which Seller is unable to produce or deliver Facility Energy from the Facility as a result of (a) curtailments, as set forth in Section 7.4, (b) a Forced Outage, (c) any Buyer's failure to perform, or (d) Force Majeure.

"**Seller Parties**" means Seller and LandCo LLC (for so long as LandCo LLC is an Affiliate of Seller).

"**Seller's FCDS Notification**" means the date on which Seller notifies Buyers' Agent that Seller has obtained the Full Capacity Deliverability Status Finding.

"**Settlement Interval**" has the meaning set forth in the CAISO Tariff.

"**Settlement Statement**" has the meaning set forth in the CAISO Tariff.

"**Shared Facilities Agreement**" means any agreement providing for the shared ownership, use, operation, and management of any facilities that is required to operate the Facility.

"**Shortfall Energy**" has the meaning set forth in Section 9.1.

"**Shortfall Damages**" has the meaning set forth in Section 9.3.

"**Shortfall Makeup Period**" means the Contract Year following the Contract Year during which Shortfall Energy accrues.

"**Showing Month**" means the Month that is the subject of the RAR Showing, as set forth by the PUC.

"**Site**" means the Facility Site and the Transmission and Roadway Site.

"**Site Control**" means that each of the following has occurred: (a) LandCo LLC: (i) has acquired real property rights for the Facility Site from the option holders therefor; and (ii) executed and delivered the Land Option Agreement substantially in the form of Appendix O in which it has granted to Buyers a security interest in the real property for the Facility Site; and (b) Seller: (i) has executed the Land Lease, has received an executed counterpart of such Land Lease from LandCo LLC, and has delivered an executed copy of such Land Lease to Buyers' Agent; (ii) is the grantee of one or more easements or rights of way with respect to the Transmission and Roadway Site, which, in each case, permits Seller and the Seller Parties to perform their obligations under this Agreement and the Ancillary Documents to which they are a party; and (iii) has demonstrable exclusive right to control the Facility Site as lessee under one or more site leases with respect to any portion of the Facility Site not covered by the Land Lease, and a non-exclusive easement or right of way with respect to the use of the Transmission and Roadway Site, in each case, so as to permit Seller and the Seller Parties to perform their obligations under this Agreement and the Ancillary Documents to which they are a party.

"**Site Control Documents**" means the real property leases and easements for the Site that together establish Site Control, including (a) the Effective Date Site Control Documents, (b) the Unexecuted Agreed Site Control Documents, and (c) the Additional Site Control Documents.

"**Site Control Milestone Date**" means the date specified on Appendix I with respect to the attainment of Site Control, as may be extended pursuant to Section 3.6(b).

"**SiteCo LLC**" means SiteCo, LLC, a Delaware limited liability company.

"**Solar NQC Factor**" means the applicable monthly solar factor for a particular month and calendar year as published in the CAISO's Final Net Qualifying Capacity List.

"**SP-15 Price**" means the CAISO SP-15 Trading Hub Day-Ahead Market hourly LMP, as published by the CAISO. For the avoidance of doubt, the SP-15 Price shall not include the value of any Environmental Attributes or Capacity Rights, if any.

"**Special Project Entity**" means a limited liability company which*:*

(a) shall not (i) engage in any consolidation or merger with or into any other business entity, (ii) acquire by purchase or otherwise all or substantially all of the business or assets of or beneficial interest in any other entity, (iii) permit or cause a Change in Control except to the extent permitted herein, (iv) modify, amend or waive any provisions of its organizational documents related to its status as a Special Project Entity, or (v) terminate its organizational documents or its qualifications and good standing in any jurisdiction.

(b) was, is and will be organized solely for the purpose of acquiring, developing, owning, holding, selling, leasing, transferring, exchanging, managing and operating the Facility, entering into this Agreement with Buyers and transacting lawful business that is incident, necessary and appropriate to accomplish the foregoing;

(c) has not been, is not, and will not be engaged in any business unrelated to the acquisition, development, ownership, management or operation of the Facility.

(d) has not had, does not have and will not have, any assets other than those related to the Facility;

(e) has held itself out and will hold itself out to the public as a legal entity separate and distinct from any other entity and has not failed and will not fail to correct any known misunderstanding regarding the separate identity of such entity;

(f) has maintained and will maintain its financial statements, bank accounts, accounts, books, resolutions, agreements and records separate from any other Person and has filed and will file its own tax returns (except to the extent treated as a "disregarded entity" for tax purposes and is not required to file tax returns under applicable law);

(g) has held itself out and identified itself and will hold itself out and identify itself as a separate and distinct entity under its own name or in a name franchised or licensed to it by an entity other than an Affiliate of Seller and not as a division, department or part of any other Person;

(h) has maintained and will maintain its assets in such a manner that it will not be costly or difficult to segregate, ascertain or identify its individual assets from those of any other Person;

(i) has not made and will not make loans or advances to any Person or hold evidence of indebtedness issued by any other Person (other than cash and investment-grade securities issued by an entity that is not an Affiliate of or subject to common ownership with such entity) or made any gifts or fraudulent conveyances to any Person;

(j) has not identified and will not identify its members, or any Affiliate of any member, as a division or department or part of it, and has not identified itself and shall not identify itself as a division or department of any other Person;

(k) has not entered into or been a party to, and will not enter into or be a party to, any transaction with its members or Affiliates, except in the ordinary course of its business and on terms which are intrinsically fair, commercially reasonable and are no less

favorable to it than would be obtained in a comparable arm's-length transaction with an unrelated third party;

(l) on and after the Construction Start Date, will not have any obligation to indemnify and will not indemnify its managers, members, and officers, as the case may be, other than (i) the Independent Manager and (ii) natural Persons who are officers, managers, or members of Seller or any Affiliate of Seller, and (iii) in connection with the Shared Facilities Agreement and agreements ancillary thereto;

(m) has considered and shall consider the interests of its creditors in connection with all limited liability company actions;

(n) on and after the Commercial Operation Date, does not and will not have any of its obligations guaranteed by any Affiliate and will not hold itself out as being responsible for the debts or obligations of any other Person, other than in connection with the Shared Facilities Agreements and agreements ancillary thereto;

(o) has complied and will comply with all of the terms and provisions contained in its organizational documents, including the provision requiring that there be an Independent Manager on and after the Construction Start Date, and has done or caused to be done and will do all things necessary to preserve its existence;

(p) has not commingled, and will not commingle, its funds or assets with those of any Person and has not participated and will not participate in any cash management system with any other Person;

(q) has held and will hold its assets in its own name and conducted and will conduct all business in its own name;

(r) has maintained and will maintain its financial statements, accounting records and other entity documents separate from any other Person and has not permitted and will not permit its assets to be listed as assets on the financial statement of any other entity except as required by GAAP; *provided, however*, that any such consolidated financial statement shall contain a note indicating that its separate assets and liabilities are neither available to pay the debts of the consolidated entity nor constitute obligations of the consolidated entity;

(s) has paid and will pay its own liabilities and expenses, including the salaries of its own employees, out of its own funds and assets, and has maintained and will maintain a sufficient number of employees in light of its contemplated business operations;

(t) has observed and will observe all limited liability company formalities;

(u) has not assumed or guaranteed or become obligated for, and will not assume or guarantee or become obligated for the debts of any other Person and has not held out and will not hold out its credit as being available to satisfy the obligations of any other Person except as permitted pursuant to this Agreement, other than in connection with the Shared Facilities Agreements and agreements ancillary thereto;

(v) has not acquired and will not acquire obligations or securities of its members or any Affiliate, other than in connection with the Shared Facilities Agreements and agreements ancillary thereto;

(w) has allocated and will allocate fairly and reasonably any overhead expenses that are shared with any Affiliate, including paying for shared space and services performed by any employee of an Affiliate;

(x) has maintained and used, now maintains and uses, and will maintain and use separate stationery, invoices, and checks bearing its name; such stationery, invoices, and checks utilized by it or utilized to collect its funds or pay its expenses have borne and shall bear its own name and have not borne and shall not bear the name of any other entity unless such entity is clearly designated as being its agent;

(y) has not pledged and will not, except as permitted under Section 14.7(d), pledge its assets for the benefit of any other Person;

(z) on and after the Construction Start Date, will have articles of organization, a certificate of formation or an operating agreement, as applicable, that includes the requirement that there be an Independent Manager and provides that it will not, without the affirmative vote of its Independent Manager: (A) dissolve, merge, liquidate or consolidate; (B) sell, transfer, lease or otherwise convey all or substantially all of its assets (other than in connection with a transfer to a Facility Lender); (C) engage in any other business activity, or amend its organizational documents with respect to the matters set forth in this definition; or (D) file a bankruptcy or insolvency petition or otherwise institute insolvency proceedings with respect to itself or to any other entity in which it has a direct or indirect legal or beneficial ownership interest;

(aa) has been, is and intends to remain solvent and has paid and intends to continue to pay its debts and liabilities (including, as applicable, shared personnel and overhead expenses) from its assets as the same shall have or become due, and has maintained, is maintaining and intends to maintain adequate capital for the normal obligations reasonably foreseeable in a business of its size and character and in light of its contemplated business operations; and

(bb) does not have nor will have any indebtedness other than (i) the indebtedness due to the Facility Lender providing construction financing for the Facility and any indebtedness in replacement or substitution thereof, (ii) Taxes and Insurance premiums, (iii) liabilities incurred in the ordinary course of business relating to its ownership, leasing and operation of the Facility and its routine administration, which liabilities are not more than sixty (60) days past due, are not evidenced by a note and are paid when due, and which amounts are normal and reasonable under the circumstances, and in any event not in excess of Twenty-Five Million Dollars ($25,000,000) in the aggregate, and (iv) such other liabilities that are permitted pursuant to this Agreement or arising in connection with the Shared Facilities Agreements and agreements ancillary thereto.

"**S&P**" means Standard & Poor's Financial Services LLC.

"**Subcontract**" means any agreement or contract entered into on or after the Effective Date by Seller and a Person other than any Buyer or Buyers' Agent, which Person is providing goods or services to Seller that are related to the performance of Seller's obligations under this Agreement. Subcontracts specifically include any agreement or contract that is referred to or defined as a "subcontract" in the policies, ordinances, codes or laws with which Seller must comply pursuant to this Agreement, or that is made with a "subcontractor" as such term is used or defined in such policies, ordinances, codes, or laws.

"**Subcontractor**" means any party to a Subcontract with Seller.

"**System Emergency**" has the meaning set forth in the CAISO Tariff.

"**Tax**" or "**Taxes**" means each federal, state, county, local and other (a) net income, gross income, gross receipts, sales, use, ad valorem, business or occupation, transfer, franchise, profits, withholding, payroll, employment, excise, property or leasehold tax and (b) customs, duty or other fee, assessment or charge of any kind whatsoever, together with any interest and any penalties, additions to tax or additional amount with respect thereto.

"**Tax Equity Transaction**" means, with respect to Seller or any RE Holdings Entity, any transaction or series of transactions pursuant to which (i) a Person either (A) obtains less than a one hundred percent (100%) of the equity interest in Seller or any RE Holdings Entity that has an interest in Seller, or (B) obtains all of the equity interest of Seller in connection with a sale-leaseback transaction (in either case, such Person, a "***Tax Equity Investor***"), and (ii) such Tax Equity Investor is allocated a share of profits, losses, and tax allocations associated with such equity interest or the Facility, as applicable; *provided*, *however*, that such RE Holdings Entity retains direct or indirect management control of Seller or the Facility, as applicable, subject to the Tax Equity Investor's right to vote in any major decision with respect to Seller, as provided for in the transaction documents between Seller and such Tax Equity Investor.

"**Tax Equity Investor**" has the meaning set forth in the definition of "Tax Equity Transaction."

"**Term Conversion Date**" means the earlier of (i) the date on which any construction debt provided by a Facility Lender is converted into, or refinanced with, long-term debt that amortizes over all or part of the Facility operating period; and (ii) the date falling one hundred eighty (180) days following the Commercial Operation Date.

"**Termination Notice**" has the meaning set forth in Section 13.4(a).

"**Termination Payment**" means a payment in an amount equal to the Non-Defaulting Party's (a) Losses, plus (b) Costs, minus (c) Gains; *provided*, *however*, that if such amount is a negative number, the Termination Payment shall be equal to zero.

"**Test Energy**" means Facility Energy that is delivered to the Point of Delivery prior to the Commercial Operation Date.

"**Transmission and Roadway Site**" means the real property (including all fixtures and appurtenances thereto) and related physical and intangible property generally identified in

Appendix B-1 and Appendix B-2 where any transmission lines and roadways servicing the Facility are or will be located.

"**Transmission Providers**" means Persons operating the Transmission System to and from the Point of Delivery.

"**Transmission Services**" means the transmission and other services required to transmit Facility Energy to or from the Point of Delivery.

"**Transmission System**" means the facilities utilized to provide Transmission Services.

"**Uncontracted Products**" means any and all Facility Energy, Capacity Rights, Environmental Attributes, and ancillary products, services or attributes similar to the foregoing that are not or cannot be produced by, or are not associated with, the Applicable Contract Capacity of the Facility, whether now attainable or established in the future, including delivered energy, renewable attributes, and renewable energy credits.

"**Unexcused Cause**" has the meaning set forth in Section 14.6(b).

"**Unexecuted Agreed Site Control Documents**" means the documents listed on Appendix R under the heading "Unexecuted Agreed Site Control Documents".

"**UNFCCC**" has the meaning set forth in the definition of "Environmental Attributes."

"**WECC**" means the Western Electricity Coordinating Council.

"**WREGIS**" means Western Renewable Energy Generation Information System.

"**WREGIS Certificates**" has the meaning set forth in Section 8.4.

"**WREGIS Operating Rules**" means the rules describing the operations of the WREGIS, as published by WREGIS.

Other terms defined herein have the meanings so given when used in this Agreement with initial-capitalized letters.

Section 1.2 Interpretation. In this Agreement, unless a clear contrary intention appears:

(a) time is of the essence

(b) the singular number includes the plural number and vice versa;

(c) reference to any Person includes such Person's successors and assigns (regardless of whether such Person's successors and assigns are expressly referenced in the provision) but, in case of a Party hereto, only if such successors and assigns are permitted by this Agreement, and reference to a Person in a particular capacity excludes such Person in any other capacity or individually;

(d) reference to any gender includes the other;

(e) reference to any agreement (including this Agreement), document, act, statute, law, instrument, tariff or Requirement means such agreement, document, act, statute, law, instrument, or tariff, or Requirement, as amended, modified, replaced or superseded and in effect from time to time in accordance with the terms thereof and, if applicable, the terms hereof, regardless of whether the reference to the agreement, document, act, statute, law, instrument, tariff, or Requirement expressly refers to amendments, modifications, replacements, or successors;

(f) reference to any Article, Section, or Appendix means such Article of this Agreement, Section of this Agreement, or such Appendix to this Agreement, as the case may be, and references in any Article or Section or definition to any clause means such clause of such Article or Section or definition;

(g) "hereunder," "hereof," "hereto" and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Article or Section or other provision hereof or thereof;

(h) "including" (and with correlative meaning "include") means including without limiting the generality of any description preceding such term, regardless of whether words such as "without limitation" are expressly included in the applicable provision;

(i) relative to the determination of any period of time, "from" means "from and including," "to" means "to but excluding" and "through" means "through and including";

(j) unless otherwise indicated, reference to time shall always refer to Pacific Prevailing Time; and reference to any "day" shall mean a calendar day, unless otherwise indicated; and

(k) the term "or" is not exclusive, regardless of whether "and/or" is used in the applicable provision.

ARTICLE II
EFFECTIVE DATE, TERM, AND EARLY TERMINATION

Section 2.1 Effective Date. This Agreement shall be effective as of the date on which all Parties have executed this Agreement (the "***Effective Date***").

Section 2.2 Term.

(a) **Agreement Term**. The term of this Agreement (the "***Agreement Term***") shall commence on the Effective Date and end on the last day of the Delivery Term or upon the earlier termination of this Agreement in accordance with the terms hereof.

(b) **Delivery Term**. This Agreement shall have a delivery term (the "***Delivery Term***") commencing on the Initial Delivery Date and ending at 11:59 pm on December 31 of the

twentieth (20^{th}) full Contract Year, unless sooner terminated in accordance with the terms of this Agreement.

Section 2.3 Survivability. The provisions of this Article II, Article XII, Article XIII, Section 14.19 and Section 14.21 shall survive for a period of one year following the termination of this Agreement. The provisions of Article XI shall survive for a period of four (4) years following final payment made by Buyers hereunder or the expiration or termination date of this Agreement, whichever is later. The provisions of Article V, Article VI, Article VIII, and Article IX shall continue in effect after termination to the extent necessary to provide for final billing, adjustments, and deliveries (including the provision to Buyers of Replacement Product or Shortfall Damages) related to any period prior to termination of this Agreement.

Section 2.4 Early Termination.

(a) **Early Termination by Mutual Agreement**. This Agreement may be terminated by mutual written agreement of each of the Parties.

(b) **Early Termination for Failure to Provide Performance Security**. Any Buyer may, in its sole discretion, without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion, terminate this Agreement, in either case, effective upon notice to Seller, if Seller fails to deliver the Project Development Security within ten (10) days after the Effective Date.

(c) **Early Termination for Default**. Upon the occurrence of a Default, the Non-Defaulting Party, or Non-Defaulting Parties, as the case may be, may terminate this Agreement as set forth in Section 13.4.

(d) **Early Termination for Failure to Achieve a Key Milestone.** Any Buyer may, in its sole discretion, without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion, terminate this Agreement, in either case, effective upon notice to Seller, pursuant to Section 3.6(c).

(e) **Early Termination for Failure to Achieve Commercial Operation Date**. Any Buyer may, in its sole discretion and without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion and without penalty to Buyers, terminate this Agreement, in either case, effective upon notice to Seller, if Seller fails to achieve the Commercial Operation Date on or before the Outside Commercial Operation Date, except as set forth in Section 3.5.

(f) **Early Termination for Failure to Obtain CEC Certification**. Any Buyer may, in its sole discretion and without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion and without penalty to Buyers, terminate this Agreement, in either case, effective upon notice to Seller if the Facility is not CEC Certified by the date that is six (6) months following the Commercial Operation Date, *provided* that a Buyer or Buyers, as applicable, may not terminate this Agreement if Seller (i) demonstrates to the reasonable satisfaction of Buyers' Agent that the failure to obtain CEC Certification is not due to any act or omission by Seller or any Affiliate of Seller, (ii) has

provided the Delivery Term Security, and (iii) is otherwise in compliance with the terms and conditions of this Agreement.

(g) **Early Termination for Force Majeure**. This Agreement may be terminated pursuant to Section 14.6(c).

(h) **Early Termination for Exercise of First Right of Offer**. If pursuant to a written agreement entered into by the Buyers, one or more Buyers accept the Right of First Offer for any proposed sale of the Facility, this Agreement shall terminate effective upon the occurrence of such sale to one or more Buyers.

(i) **Early Termination for Exercise of Project Purchase Option**. If, pursuant to a written agreement entered into by Buyers, one or more Buyers elect to exercise the Project Purchase Option, this Agreement shall terminate effective upon the Closing.

(j) **Early Termination for Shortfall**. Any Buyer may in its sole discretion and without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion and without penalty to Buyers, terminate this Agreement, in either case, effective upon notice to Seller, pursuant to Section 9.5.

(k) **Early Termination Due to Environmental Effects**. Any Buyer may in its sole discretion, without penalty to such Buyer, withdraw from this Agreement, and Buyers may collectively, in their sole discretion and without penalty to Buyers, terminate this Agreement, in either case, effective upon notice to Seller, pursuant to Section 3.1.

(l) **Effect of Termination**. Any withdrawal from, or early termination of, this Agreement under this Section 2.4 shall be without prejudice to the rights and remedies of a Party for Defaults occurring prior to such termination; *provided* that the unused portion of the Project Development Security or Delivery Term Security, as applicable, if any, shall be returned by any withdrawing or terminating Buyer to Seller within ten (10) Business Days after any such withdrawal or termination in accordance with Section 5.7(c).

ARTICLE III
DEVELOPMENT OF THE FACILITY

Section 3.1 CEQA Determinations. Seller, at its expense, has taken and will take all steps necessary to obtain the CEQA Determinations, and shall provide evidence thereof reasonably satisfactory to each Buyer. Each Buyer shall retain all rights, powers and responsibilities of a responsible agency under CEQA to participate in the CEQA review of the Facility. Until the date that is thirty (30) days following the posting of a Notice of Determination by the lead agency in connection with its adoption of the applicable CEQA analysis for the Facility, each Buyer shall have the right to decide not to approve the purchase of Facility Energy and to withdraw (without penalty to such Buyer) from, or terminate, this Agreement, due to the failure of the lead agency to address comments received in a timely manner from any Buyer, acting in its role as a responsible agency, that significant adverse environmental impacts from the Facility have not been mitigated to the extent feasible or that appropriate findings have not been made to support a statement of overriding considerations with respect to such impacts.

Section 3.2 Project Design. Seller shall determine the proposed location, design, and configuration of the Facility as it deems appropriate, subject to the Requirements, including the characteristics and other requirements for the Facility set forth in Appendix B-1, and also subject to any conditions imposed by any responsible agency as part of the CEQA review of the Facility.

Section 3.3 Site Confirmation. Seller represents and warrants that (a) Seller's agents and representatives have visited, inspected and become familiar with the Site and its surface physical condition relevant to the obligations of Seller pursuant to this Agreement, including surface conditions, normal and usual soil conditions, roads, utilities, and topographical, solar radiation, air and water quality conditions, (b) Seller is familiar with all local and other conditions that may be material to Seller's performance of its obligations under this Agreement (including, transportation, seasons and climate, access, weather, handling and storage of materials and equipment, and availability and quality of labor and utilities), and (c) Seller has determined that the Site constitutes an acceptable and suitable site for the construction and operation of the Facility in accordance herewith. Any failure by Seller to take the actions described in this Section 3.3 shall not relieve Seller from any responsibility for estimating properly the difficulty and cost of successfully constructing, maintaining or operating the Facility in accordance with this Agreement or from proceeding to construct, maintain and operate the Facility successfully without any additional expense to Buyers. To the extent that Seller suffers an act constituting a Force Majeure hereunder, so long as the requirements set forth in Section 14.6 are satisfied, the foregoing shall not restrict Seller's right to claim Force Majeure hereunder.

Section 3.4 Subcontracts.

(a) Seller shall cause provisions to be included in each Subcontract that provide: (i) Buyers' Agent with rights of access to the Facility and the work performed under such Subcontract at all reasonable times (but subject to Site safety protocols and orientation) and the right to inspect, make notes about, and review all documents, drawings, plans, specifications, permits, test results and information as Buyers' Agent may reasonably request, subject to redaction of confidential or proprietary information; and (ii) that the personnel of, and consultants to, the applicable contractor and Seller shall be available to Buyers' Agent and its agents, representatives and consultants at reasonable times and with prior notice for purposes of discussing any aspect of the Facility or the development, engineering, construction, installation, testing or performance thereof.

(b) Seller shall deliver to Buyers a schedule of the performance of initial performance tests and all other tests required under each Subcontract.

Section 3.5 Certification of Commercial Operation Date. Seller shall provide Buyers' Agent with notice in accordance with Section 14.2 when Seller believes that all conditions precedent to achieving Commercial Operation of the Facility as specified in the definition of "***Commercial Operation***" have been satisfied. Buyers' Agent shall either accept the notice, or reject the notice if reasonable cause exists, *provided* that Buyers' Agent shall not unreasonably withhold, delay or condition any acceptance of such notice, and in any event shall provide in reasonable detail a written description of the reasons for any rejection. Buyers' Agent shall in all cases respond to any such notice within fifteen (15) Business Days after receipt thereof by Buyers' Agent, and Buyers shall be deemed to have accepted such notice if Buyers'

Agent fails to respond in such time. If Buyers' Agent rejects the notice, Seller shall promptly correct any defects or deficiencies and resubmit the notice. The Commercial Operation Date shall be deemed to have occurred as of the date of any Seller notice of Commercial Operation that is accepted (or deemed accepted) by Buyers. So long as Seller provides, in good faith, notice to Buyers' Agent of the achievement of Commercial Operation prior to the Outside Commercial Operation Date, no Buyer may withdraw (without penalty to such Buyer) from this Agreement, and Buyers may not collectively terminate this Agreement under Section 2.4(e) for failure to achieve the Commercial Operation Milestone under Section 3.6, so long as (a) Buyers' Agent either (i) accepts such notice or (ii) rejects such notice due to minor defects or deficiencies that do not affect the ability of the Facility to be placed in service and operated in accordance with this Agreement, and (b) Seller promptly corrects such minor defects or deficiencies identified by Buyers' Agent. In no event shall any extension of the Outside Commercial Operation Date under this Section 3.5 affect the amount of the Contract Price, notwithstanding any tax benefits lost as a result of the delay of the Commercial Operation Date.

Section 3.6 Milestone Schedule.

(a) Attached as Appendix I is a milestone schedule with deadlines for the development of the Facility through the Commercial Operation Date (each milestone, a "***Milestone***" and each date by which a Milestone is to be completed, a "***Milestone Date***"). Seller shall achieve each Milestone by the Milestone Date therefor. Until the Commercial Operation Date, Seller shall provide Buyers' Agent with a report on a quarterly basis (until six (6) months prior to the scheduled Commercial Operation Date, at which time such reports shall be provided on a Monthly basis) that includes: (i) a description of the Site plan for the Facility, (ii) a description of any planned changes to the Facility or Site plan since the previously delivered report, (iii) a bar chart schedule showing progress to achieving the remaining Milestones, (iv) a chart showing the critical path schedule of major items and activities, (v) a summary of activities at the Facility during the previous Month, (vi) a forecast of activities during the then-current Month, (vii) a list of any issues that could impact Seller's achievement of Milestones by the applicable Milestone Dates, and (viii) pictures, in sufficient quantity and of appropriate detail, documenting construction and startup progress with respect to the Facility. If Seller anticipates that it will not achieve a Milestone by the applicable Milestone Date (as such date may be extended pursuant to this Section 3.6), Seller shall promptly prepare and deliver to Buyers' Agent a remedial action plan ("***Remedial Action Plan***") which shall set forth (1) the anticipated period of delay, (2) the basis for such delay, (3) an outline of the commercially reasonable steps that Seller is taking to address the delay and to ensure that future Milestones, including the Guaranteed Commercial Operation Date, will be timely achieved, (4) a proposed revised date for achievement of the applicable Milestone and (5) such other information and in such detail as may be reasonably requested by Buyers. Except as set forth in Section 3.6(c), Seller shall not have any liability for failure to timely achieve a Milestone other than the obligation to submit a Remedial Action Plan *provided*, *however*, that the foregoing shall not limit any Buyer's right to exercise any right or remedy available under this Agreement or at law or in equity for any other Default occurring concurrently with or before or after Seller's delay in achievement of the applicable Milestone.

(b) Each Milestone Date (other than the Outside Commercial Operation Date) shall be extended, on a day-for-day basis to the extent Seller is actually, demonstrably and

unavoidably delayed in achieving such Milestone due to (i) the failure by any Buyer to perform any covenant or obligation under this Agreement, or (ii) Force Majeure.

(c) If Seller fails to achieve any Key Milestone by the applicable Milestone Date (as may be extended pursuant to Section 3.6(b)), Seller shall pay to each Buyer liquidated damages in an amount equal to such Buyer's proportionate share, based on the Buyers' Percentage of Facility Output, of the aggregate amount payable to Buyers. The amount of liquidated damages shall be calculated as (i) the number of days between such missed Milestone Date and the date upon which either (A) such Key Milestone is achieved, or (B) a Buyer withdraws (without penalty to such Buyer) from this Agreement pursuant to Section 2.4, or (C) this Agreement is terminated by Buyers pursuant to Section 2.4, as applicable, multiplied by (ii) the applicable daily liquidated damage amount set forth for such Key Milestone in Appendix I (the "***Daily Delay Damages***"), subject to a maximum amount for any Key Milestone equal to the daily damage amount in (ii) above multiplied by three hundred sixty-five (365) days. If, after the conclusion of such three hundred sixty-five (365) day period, Seller has not achieved any such Key Milestone, each Buyer shall have the right in its sole discretion to either (1) withdraw from this Agreement at no penalty to such Buyer, or, if all Buyers withdraw, to terminate this Agreement, or (2) allow Seller to continue to pay liquidated damages to each Buyer, during which time such Buyer, or Buyers, shall not withdraw from or terminate the Agreement based on Seller's failure to timely achieve a Key Milestone. If Seller, notwithstanding having failed to timely achieve any other Key Milestone, is able to achieve the Commercial Operation Date on or before the Guaranteed Commercial Operation Date (and prior to the exercise by each Buyer of its right to withdraw without penalty from this Agreement or the right of Buyers to terminate this Agreement, then each Buyer that has not, as of such date, withdrawn from or terminated this Agreement, shall refund to Seller any amounts previously paid to such Buyer as Daily Delay Damages. In addition, should any Buyer that has previously withdrawn from this Agreement elect to re-enter into the Agreement at any time on or prior to the achievement of the Commercial Operation Date, which re-entry shall require the consent of all Parties, then such Buyer shall also, as a condition to re-entering into this Agreement, refund to Seller any amounts previously paid to such Buyer as Daily Delay Damages except as may otherwise be agreed between Seller and such Buyer.

(d) In no event shall the Commercial Operation Date be extended beyond the Outside Commercial Operation Date, which date shall not be subject to extension except by mutual agreement of the Parties.

(e) Seller may change the Guaranteed Commercial Operation Date to a date that is earlier than the then-scheduled Guaranteed Commercial Operation Date by providing Buyers' Agent with notice at least six (6) months prior to the new Guaranteed Commercial Operation Date.

(f) The damages that Buyers would incur due to Seller's failure to timely achieve a Key Milestone would be difficult or impossible to predict with certainty, and it is impractical or difficult to assess actual damages in those circumstances, but the Daily Delay Damages are a fair and reasonable calculation of such damages, and shall be Seller's sole liability and obligation, and Buyers' sole right and remedy, other than withdrawal without penalty from, or termination of, this Agreement, for Seller's failure to achieve any Key

Milestone by the Milestone Date therefor. Notwithstanding the foregoing, the Daily Delay Damages shall not limit any Buyer's right to exercise any right or remedy available under this Agreement or at law or in equity for any Default occurring concurrently with, before or after Seller's delay in achievement of the applicable Key Milestone.

Section 3.7 Decommissioning and Other Costs. Unless a Closing occurs pursuant to the exercise by Buyers of the ROFO or the Project Purchase Option, no Buyer shall be responsible for any cost of decommissioning or demolition of the Facility or any environmental or other liability associated with the decommissioning or demolition of the Facility without regard to the timing or cause of the decommissioning or demolition.

ARTICLE IV
OPERATION AND MAINTENANCE OF THE FACILITY

Section 4.1 General Operational Requirements. Seller shall, at all times:

(a) At its sole expense, operate and maintain the Facility (i) in accordance with the Requirements and (ii) in a manner that is reasonably likely to achieve the Annual Contract Quantity and result in a useful life for the Facility of not less than the Delivery Term;

(b) At its sole expense, operate and maintain the Facility using a Qualified Operator in accordance with the Requirements;

(c) Use qualified and trained personnel for managing, operating and maintaining the Facility and for coordinating with Buyers' Agent, and ensure that necessary personnel are available on-site or on-call twenty-four (24) hours per day during the Delivery Term;

(d) Operate and maintain the Facility with due regard for the safety, security and reliability of the interconnected facilities and Transmission System; and

(e) Comply with operating and maintenance standards recommended or required by the Facility's equipment suppliers.

Section 4.2 Operation and Maintenance Plan. Seller shall devise and implement a plan of inspection, maintenance, and repair for the Facility and the components thereof in order to maintain such equipment in accordance with Prudent Utility Practices and shall keep records with respect to inspections, maintenance, and repairs thereto. The aforementioned plan and all records of such activities shall be available for inspection by Buyers' Agent during Seller's regular business hours upon reasonable notice.

Section 4.3 Environmental Credits. Seller shall, if applicable, obtain in its own name and at its own expense all pollution or environmental credits or offsets necessary to operate the Facility in compliance with any Requirement of Law.

Section 4.4 Scheduled Outage.

(a) Buyers' Agent and Seller shall cooperate to minimize Scheduled Outages during specified periods of time during each calendar year in accordance with Prudent Utility Practices and this Section 4.4 (such periods, the "***Major Maintenance Blockout***"); *provided* that the Major Maintenance Blockout during any calendar year shall not exceed eighty-four (84) days, which number shall be prorated (i) for the calendar year during which the Commercial Operation Date occurs, based on the number of days remaining in such calendar year as of the Commercial Operation Date, and (ii) for the calendar year during which the Delivery Term expires or terminates, based on the number of days occurring in such calendar year before such expiration or termination date. No later than thirty (30) days prior to the anticipated Commercial Operation Date and the commencement of each calendar year thereafter, Buyers' Agent shall provide Seller with the specified Major Maintenance Blockout. In the absence of such updated notification, the most recent previous Major Maintenance Blockout notification shall apply. Seller shall attempt to minimize its Scheduled Outages during the Major Maintenance Blockout consistent with Prudent Utility Practices; *provided* that Seller shall be permitted to perform scheduled and unscheduled maintenance on the Facility during Major Maintenance Blockouts during such hours when solar irradiance levels are insufficient to permit the production of Energy, if such maintenance is permitted under the CAISO Tariff and conducted in accordance with all applicable Requirements (including, for avoidance of doubt, the requirements of the Transmission Provider). No later than thirty (30) days prior to the anticipated Commercial Operation Date, and for each calendar year thereafter, no later than the deadline for providing the CAISO with proposed maintenance outages for the following year as described in the CAISO Tariff, Seller shall provide each Scheduler with its non-binding written projection of all Scheduled Outages for the succeeding calendar year (the "***Scheduled Outage Projection***") reflecting a minimized schedule of scheduled maintenance during the Major Maintenance Blockout. In addition, Seller shall cooperate in good faith with maintenance scheduling requests by Buyers' Agent consistent with Prudent Utility Practices. The Scheduled Outage Projection shall include information concerning all projected Scheduled Outages during such period, including (A) the anticipated start and end dates of each Scheduled Outage; (B) a description of the maintenance or repair work to be performed during the Scheduled Outage; and (C) the anticipated Facility capacity, if any, during the Scheduled Outage. Seller shall notify each Scheduler of any change in the Scheduled Outage Projection as soon as practicable, but in no event later than thirty (30) days prior to the originally-scheduled date of the Scheduled Outage. Seller shall use commercially reasonable efforts to accommodate reasonable requests of Buyers' Agent with respect to the timing of Scheduled Outages and shall, to the extent consistent with Prudent Utility Practices, coordinate Scheduled Outages to coincide with planned transmission outages. In the event of a System Emergency, Seller shall make reasonable efforts to reschedule any Scheduled Outage previously scheduled to occur during the System Emergency.

(b) In the event of a Forced Outage affecting at least ten percent (10%) of the Applicable Contract Capacity, to the extent practicable, Seller shall notify each Scheduler within two (2) hours after the commencement of the Forced Outage and, in any event, within seven (7) days thereafter, and provide detailed information concerning the Forced Outage, including (i) the start and anticipated end dates of the Forced Outage; (ii) a description of the cause of the Forced Outage; (iii) a description of the maintenance or repair work to be performed during the Forced Outage; and (iv) the anticipated MW of operational capacity, if any, during the Forced Outage.

Seller shall take all reasonable measures and exercise commercially reasonable efforts to avoid Forced Outages and to limit the duration and extent of any such outages.

(c) In addition to the requirements set forth in Sections 4.4(a) and (b), the Parties shall cooperate to develop mutually acceptable procedures for addressing Scheduled Outages and any other outages arising in connection with the Project.

(d) In the event of any inconsistency between the provisions in this Section 4.4 and any applicable requirements of CAISO, the Parties shall revise the provisions of this Section 4.4 to be consistent with the requirements of the CAISO.

ARTICLE V
COMPLIANCE DURING OPERATIONS; GUARANTEES

Section 5.1 Guarantees. Seller warrants and guarantees that it will perform, or cause to be performed, all engineering, design and construction in a good and workmanlike manner and in accordance with the Requirements. Seller warrants that, at the Commercial Operation Date, the Facility, its engineering, design and construction, its components and related work, shall be free from material defects caused by errors or omissions in design, engineering and construction. Seller further warrants that, throughout the Delivery Term: (a) the Facility will be free and clear of all Liens other than Permitted Encumbrances, and (b) the Facility will be designed, constructed and tested in compliance with the Requirements. Seller also warrants and guarantees that throughout the Delivery Term, it will monitor the operation and maintenance of the Facility and that said operation and maintenance is, and will be, in compliance with all Requirements applicable to the Facility as of the Effective Date. Without limiting the foregoing, Seller shall promptly repair and/or replace, consistent with Prudent Utility Practice, any component of the Facility that may be damaged or destroyed or otherwise not operating properly and efficiently. Seller shall exercise commercially reasonable efforts to timely undertake all updates or modifications to the Facility, and its equipment and materials, including procedures, programming and software, required by Prudent Utility Practice. Seller shall, at its expense, maintain throughout the Agreement Term an inventory of spare parts for the Facility in a quantity that is consistent with Prudent Utility Practice.

Section 5.2 Buyers' Rights to Monitor in General. Upon no less than ten (10) Business Days' notice to Seller, each Buyer shall have the right, and Seller shall permit each Buyer and its Authorized Representative, advisors, engineers and consultants, to observe, inspect, and monitor the construction of the Facility, and to have a representative present to witness the operations and activities at the Site before and after the Commercial Operation Date, including (a) reviewing and monitoring all initial performance tests during Facility start-up and all material tests required under the Subcontracts to be performed prior to each Milestone, and (b) performing such detailed examinations and inspections as, in the judgment of such Buyer, are appropriate and advisable to determine that the Facility equipment and ancillary components of the Facility have been installed in accordance with the Requirements; *provided, however*, that ten (10) Business Days' notice shall not be required if any Buyer's inspection, monitoring, or performance of examinations, inspections, quality surveillance, or tests is due to an emergency situation at the Site, a Facility curtailment, or any other occurrence causing an operational concern to such Buyer with respect to the Facility, in which case such Buyer shall provide as

much advance notice as is practicable under the circumstances. Any Buyer conducting such examinations and inspections shall compensate or reimburse Seller for increased costs or delays, in each case, solely and directly arising in connection with such activities by such Buyer (including relief in respect of Milestones). Seller shall, or shall cause its contractors to, provide at least fifteen (15) Business Days' notice to Buyers' Agent before any test referenced in the previous sentence is scheduled to begin. The presence of any Buyer or its Authorized Representative on the Site shall be at such Buyer's sole risk and expense. While at the Site, such Buyer, or its Authorized Representative, shall (i) comply with all applicable Requirements and Seller's written Site safety rules (including any required Site safety protocols and orientation), and (ii) not interfere with Seller's normal commercial operations. Seller shall cause its personnel, consultants, and contractors to be available to Buyers and their Authorized Representatives, advisors, engineers, and consultants at reasonable times and with prior notice for purposes of discussing any aspect of the Facility or the development, engineering, construction, installation, testing, performance, operation, or maintenance thereof. Buyers shall be limited to no more than ten (10) such visits to the Facility each Contract Year, except that visits made by any Buyer due to emergency situations, Facility curtailments, or any occurrence causing an operational concern to a Buyer with respect to the Facility shall not count toward such ten (10) visit limit.

Section 5.3 Effect of Review by Buyers. Any review by a Buyer or a Buyer's Authorized Representative of the design, construction, engineering, operation or maintenance of the Facility, or observation of any testing, is solely for the information of such Buyer. Buyers shall have no obligation to share the results of any such review or observations with Seller, nor shall any such review or the results thereof (whether or not the results are shared with Seller), nor any failure to conduct any such review, nor any observation of testing or failure to observe testing, relieve Seller from any of its obligations under this Agreement. By making any such review or observing any such testing, no Buyer makes any representation as to the economic and technical feasibility, operational capability or reliability of the Facility. Seller shall in no way represent to any third party that any such review by a Buyer or a Buyer's Authorized Representative of the Facility thereof, including, but not limited to, any review of the design, construction, operation or maintenance, is a representation by any Buyer as to the economic and technical feasibility, operational capability or reliability of the Facility. Seller is solely responsible for the economic and technical feasibility, operational capability and reliability thereof.

Section 5.4 Quality Assurance Program. Seller agrees to maintain and comply with a written quality assurance policy ("***Quality Assurance Program***") attached hereto as Appendix G, and Seller shall cause all work performed on or in connection with the Facility to materially comply with said Quality Assurance Program.

Section 5.5 No Liens. Except as otherwise permitted by this Agreement, the Facility shall be owned by Seller during the Agreement Term. Seller shall not sell or otherwise dispose of or create, incur, assume or permit to exist any Lien (other than Permitted Encumbrances) on any portion of the Facility or any other property or assets that are related to the operation, maintenance and use of the Facility without the prior written approval of Buyers' Agent.

Section 5.6 Reporting and Information. Seller shall provide to Buyers' Agent (a) Monthly reports of the operation of the Facility, which shall include (i) a performance summary of the Month- and Contract Year-to-date MWh delivery of Facility Energy, capacity factor, and availability, (ii) descriptions of weather, reasons for any downtime, maintenance or repairs, and Curtailment Periods and other curtailment events during the applicable Month, and (iii) a safety and environmental summary, and (b) such other information regarding the permitting, engineering, construction or operations of the Facility as Buyers' Agent may, from time to time, reasonably request.

Section 5.7 Performance Security.

(a) Within ten (10) days after the Effective Date, Seller shall furnish to each Buyer (i) one or more letters of credit issued by Qualified Issuers in the form attached hereto as Appendix E, or (ii) cash (to be held in an escrow account pursuant to an escrow agreement with a Qualified Issuer in form and substance satisfactory to Buyers (an "***Escrow Account***")), or a combination of the two, in the aggregate amount of Three Million Seven Hundred Thousand Dollars ($3,700,000) and delivered to each Buyer in an amount equal to such Buyer's proportionate share of such aggregate amount based on the Buyers' Percentage of Facility Output, which shall guarantee Seller's obligations under this Agreement (the "***Project Development Security***"). Seller shall maintain the Project Development Security until Seller posts the Delivery Term Security pursuant to Section 5.7(b), or until Buyers are required to return the Project Development Security under Section 5.7(c) below.

(b) As a condition to the achievement of the Commercial Operation Date, Seller shall have furnished to each Buyer (i) one or more letters of credit issued by Qualified Issuers in the form attached hereto as Appendix E, or (ii) cash (to be held in an Escrow Account), or a combination of the two, and in the aggregate amount of Ten Million Five Hundred Thousand Dollars ($10,500,000), and delivered to each Buyer in an amount equal to such Buyer's proportionate share of such aggregate amount based on the Buyers' Percentage of Facility Output, which, in each case, shall guarantee Seller's obligations under this Agreement ("***Delivery Term Security***"); *provided* that Seller may elect to apply the Project Development Security toward the Delivery Term Security. From and after the Commercial Operation Date, Seller shall maintain the Delivery Term Security until the end of the Delivery Term or until Buyers are required to return the Delivery Term Security to Seller as set forth in Section 5.7(c) below; *provided* that on January 1, 2022 the Delivery Term Security shall be increased to an aggregate amount of Twelve Million One Hundred Thousand Dollars ($12,100,000).

(c) Each Buyer shall return its proportionate share of the unused portion of the (i) Project Development Security, if any, to Seller within ten (10) Business Days after: (A) Seller's provision of the Delivery Term Security, unless Seller elects to apply the Project Development Security toward the Delivery Term Security, or (B) the effective date of any early termination of, or withdrawal from, the Agreement by any Buyer, so long as damages are no longer due and owing to such Buyer, and (ii) Delivery Term Security, if any, to Seller promptly after: (A) the Agreement Term has ended (including upon the exercise by Buyers of their right to purchase the Facility pursuant to the Option Agreement or the Right of First Offer), and (B) all obligations of Seller arising under this Agreement are paid (whether directly or indirectly such as through set-off or netting) or performed in full.

(d) Each Buyer may draw on its proportionate share of the Performance Security (i) at any time following the accrual of Daily Delay Damages hereunder in the amount of such Daily Delay Damages, (ii) upon Seller's failure to pay Buyers the Shortfall Damages prior to the end of the Shortfall Makeup Period as provided in Section 9.3, or (iii) upon Seller's failure to make any other payment due to Buyers hereunder in the amount of such unpaid payment, including any Termination Payment, *provided*, that, in the case of a draw under clause (iii), any such amount shall have been invoiced to Seller, or Seller shall have otherwise been notified thereof. Within five (5) Business Days following any draw by any Buyer on its proportionate share of the Performance Security, Seller shall replenish the amount drawn such that the Performance Security is restored to the applicable amount set forth in Section 5.7(a) or Section 5.7(b).

(e) Seller shall notify each Buyer of the occurrence of a Downgrade Event within five (5) Business Days after obtaining knowledge of the occurrence of such event. If at any time there a Downgrade Event should occur, any Buyer may require that Seller replace, in accordance with this Section 5.7, the Performance Security from the Person that has suffered the Downgrade Event within ten (10) Business Days of notice from the Buyer to Seller requesting replacement of such Performance Security. If the replacement Performance Security is not provided by Seller, each Buyer shall have the right to demand payment of the full amount of its proportionate share of such Performance Security, and each Buyer shall retain such amount in order to secure Seller's obligations under this Agreement; *provided* that if and to the extent such amount exceeds payment and performance in full of all of Seller's obligations under this Agreement, each Buyer shall refund the excess to Seller promptly after all such obligations of Seller under this Agreement have been paid or performed in full.

(f) If any Performance Security is in the form of a letter of credit, then Seller shall provide, or cause to be provided, a replacement letter of credit from a Qualified Issuer, in the amount required under this Section 5.7 within ten (10) Business Days of notice from any Buyer to Seller requesting such replacement Performance Security after the occurrence of any one of the following events: (i) the failure of the issuer of the letter of credit to extend such letter of credit by thirty (30) Business Days prior to the expiration of such letter of credit; (ii) the failure of the issuer of the letter of credit to immediately honor any Buyer's properly documented request to draw on such letter of credit; or (iii) the issuer of the letter of credit becomes bankrupt. If the replacement letter of credit is not delivered in accordance with this Section 5.7(f), each Buyer shall have the right to demand payment of its proportionate share of such Performance Security, and each Buyer shall retain such amount in order to secure Seller's obligations under this Agreement; *provided* that, if and to the extent such retained amount exceeds payment and performance in full of all of Seller's obligations under this Agreement, each Buyer shall refund the excess to Seller promptly after all such obligations of Seller under this Agreement shall have been paid or performed in full.

(g) Seller shall, from time to time as requested by any Buyer or Buyers' Agent, execute, acknowledge, record, register, deliver and file all such notices, statements, instruments and other documents as may be necessary or advisable to render fully valid, perfected and enforceable under all Requirements of Law the Performance Security (including any Ancillary Documents required therefor) and the rights, Liens and priorities of Buyers with respect to such Performance Security.

(h) Notwithstanding the other provisions of this Agreement, the Performance Security: (i) constitutes security for, but is not a limitation of, Seller's obligations under this Agreement, and (ii) shall not be Buyers' exclusive remedy against Seller for Seller's failure to perform in accordance with this Agreement.

ARTICLE VI
PURCHASE AND SALE OF PRODUCT

Section 6.1 Purchases by Buyers.

(a) Prior to the Commercial Operation Date, Seller shall sell and deliver, and each Buyer shall purchase and receive, its proportionate share of the Products associated with Test Energy for the applicable Contract Price set forth in Section 1 of Appendix A, as calculated in accordance with Section 6.5.

(b) Except as set forth in Section 6.1(d), on and after the Commercial Operation Date and continuing for the Delivery Term, Seller shall sell and deliver, and each Buyer shall purchase and receive, its proportionate share of the Products associated with Facility Energy (other than Excess Energy) and its proportionate share of the Replacement Product at the applicable Contract Price set forth in Section 2 of Appendix A, as calculated in accordance with Section 6.5.

(c) Except as set forth in Section 6.1(d), on and after the Commercial Operation Date and continuing for the Delivery Term, Seller shall sell and deliver, and each Buyer shall purchase and receive, its proportionate share of the Products associated with Excess Energy at the applicable Contract Price set forth in Section 3 of Appendix A, as calculated in accordance with Section 6.5.

(d) Seller shall use good faith efforts to ensure that the Facility is CEC Certified following the Commercial Operation Date. Notwithstanding the provisions of Section 6.1(a) through Section 6.1(c), during the period of time between the Initial Delivery Date and the day that is one (1) day following the date upon which Seller delivers evidence to Buyers' Agent that the Facility is CEC Certified (the "***Pre-Certification Period***"), each Buyer shall have the right to retain a portion of any payment to be made to Seller under Sections 6.1(a) through Section 6.1(c) in an amount equal to the difference between (i) the applicable Contract Price, and (ii) SP-15 Price for the respective hours in which Facility Energy was generated. Each Buyer shall release such retained amount, without interest of any kind, within thirty (30) days following Buyers' Agent's receipt from Seller of the CEC certificate confirming that the Facility is CEC Certified, but only to the extent that each such Buyer is able to apply the RECs generated by the Facility during the Pre-Certification Period towards compliance with each such Buyer's obligations under RPS Law and the requirements of Public Utilities Code Section 399.16(b)(1) to obtain a "portfolio content category 1" eligible resource.

(e) Each Buyer agrees that the Contract Price set forth in Section 2 of Appendix A shall be the basis for the calculation of all amounts due and payable pursuant to this Agreement with respect to such Buyer or Participating Member, as applicable, including, for the avoidance of doubt, any Shortfall Damages and Termination Payments.

(f) The Parties acknowledge that the amount to be invoiced by Seller and paid by each Buyer for the purchases and sales described in this Section 6.1 shall be calculated for each Settlement Interval in accordance with the payment formulas set forth in Section 6.5, which are based on current CAISO market design, and subject to adjustment in accordance with Section 14.4.

(g) The Parties acknowledge that (i) Seller has the right to use, sell, or otherwise dispose of, any of the Uncontracted Products to any party, and (ii) no Buyer has any right, title or interest in or to any of the Uncontracted Products.

Section 6.2 Seller's Failure. Except as provided in Article IX, in no event shall Seller have the right to procure Energy from sources other than the Facility for sale and delivery pursuant to this Agreement. Unless excused by Force Majeure or a Buyer's failure to perform, if Seller sells to a third party all or any part of the Products required to be delivered by Seller under this Article VI, Article VII, Article VIII or Article X, then Seller shall pay each Buyer, on the date payment would otherwise be due to Seller, an amount for each MWh of such deficiency calculated in proportion to Buyers' Percentage of Facility Output, equal to the positive difference, if any, obtained by subtracting (A) the price per MWh that would have been payable by Buyers for the Products not delivered from (B) the Replacement Price. Each Buyer shall provide Seller prompt written notice of the Replacement Price or, in the case of SCPPA, Replacement Prices, together with back-up documentation.

Section 6.3 Buyers' Failure. Unless excused by Force Majeure or Seller's failure to perform, if any Buyer fails to receive at the Point of Delivery all or any part of the Facility Energy or Replacement Product required to be received by Buyers under this Article VI, Article VIII, or Article X, such Buyer shall, on the date payment would otherwise be due to Seller, pay Seller Cover Damages; *provided* that Seller shall use commercially reasonable efforts to resell any Facility Energy not able to be received by such Buyer. "***Cover Damages***" means the positive difference, if any, obtained by subtracting (A) the amount for which Seller, acting in a commercially reasonable manner, resells any such Facility Energy (or, absent any such sales despite using commercially reasonable efforts to procure such sales, zero dollars ($0)) from (B) the applicable prices that would have been payable by Corona, Lodi, Moreno Valley, Rancho Cucamonga, PWRPA or SCPPA's Participating Members, as applicable, for the applicable portion of Facility Energy not received by such Buyer. Seller shall provide any Buyer that fails to receive all of any part of its portion of the Facility Energy with prompt written notice of the Cover Damages together with back-up documentation.

Section 6.4 Nature of Remedies. The Parties acknowledge and agree that the damages that Buyers would incur as a result of Seller's failure as described in Section 6.2 or that Seller would incur as a result of any Buyer's failure as described in Section 6.3 would be difficult or impossible to predict with certainty, and it is impractical and difficult to assess actual damages in those circumstances, and the liquidated damages set forth in Section 6.2 and Section 6.3 are fair and reasonable calculations of such damages. To the extent permitted by law, (a) the remedy set forth in Section 6.2 is in addition to, and not in lieu of, any other right or remedy of any Buyer under this Agreement or otherwise, for failure of Seller to sell and deliver the Products as and when required by this Agreement, and (b) the remedy set forth in Section 6.3 is

in addition to, and not in lieu of, any other right or remedy of Seller for any failure by any Buyer to receive Energy as and when required by this Agreement.

Section 6.5 Payment of Contract Price.

(a) The amount payable to Seller for each Settlement Interval shall be, for each Buyer, an amount equal to:

(i) in each Settlement Interval in which the CAISO Settlement Price is zero or positive, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Interval, (B) is the Buyers' Percentage of Facility Output, and (C) is the difference between (x) the Fixed Rate *minus* (y) the CAISO Settlement Price;

(ii) for the first three-hundred (300) Settlement Intervals in any Contract Year (or such other number of Settlement Intervals as would be equal to twenty-five (25) hours in the event that CAISO changes the number of minutes in a Settlement Interval as of the Effective Date) in which the CAISO Settlement Price is negative (the "***Initial Negative Intervals***"), for each Settlement Interval, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Interval, (B) is the Buyers' Percentage of Facility Output, and (C) is the Fixed Rate; and

(iii) for each Settlement Interval in which the CAISO Settlement Price is negative other than the Initial Negative Intervals, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Interval, (B) is the Buyers' Percentage of Facility Output, and (C) is the difference between (x) the Fixed Rate *minus* (y) the CAISO Settlement Price; and

(iv) if any Buyer (including, in the case of SCPPA, any of its Participating Members), exercises its right to curtail per Section 7.4(c), the amount to be paid by such Buyer for Deemed Generated Energy shall be the product of (A), (B), and (C), where (A) is the amount of Deemed Generated Energy calculated during such period of curtailment, (B) the Buyers' Percentage of Facility Output, and (C) the Fixed Rate.

(b) The Parties acknowledge that the foregoing payment formulas reflect both the Contract Price agreed upon by the Parties and the payment Seller shall receive from the CAISO under current market design. Seller shall invoice each Buyer for the amounts calculated hereunder in accordance with Article XI. If the amount determined to be payable by a Buyer is negative, then Seller shall pay such Buyer such amount.

(c) For purposes of this Section 6.5, a "negative" CAISO Settlement Price occurs when the CAISO Settlement Price for a Settlement Interval is negative and the Facility Energy (or Deemed Generated Energy, as applicable) for that Settlement Interval is positive, and a "zero or positive" CAISO Settlement Price occurs when the CAISO Settlement Price for a Settlement Interval is zero or positive and the Facility Energy (or Deemed Generated Energy, as applicable) for that Settlement Interval is positive.

(d) For purposes of illustration only, sample calculations of the Contract Price are provided in Schedule 6.5.

ARTICLE VII
TRANSMISSION AND SCHEDULING; TITLE AND RISK OF LOSS

Section 7.1 In General.

(a) Seller shall use all reasonable efforts consistent with Prudent Utility Practices and the other provisions of this Agreement to maximize the output of Facility Energy from the Facility except as otherwise set forth and in accordance with this Agreement. Seller shall arrange for, and shall bear all risks and benefits associated with, delivery of all Facility Energy and Replacement Product to and at the Point of Delivery, including the arrangement of and payment for the interconnection of the Facility to the CAISO grid and any Transmission Services required to deliver Test Energy, Facility Energy and Replacement Product to and at the Point of Delivery at the CAISO grid, including interconnection costs, transmission losses to the Point of Delivery, the transmission of Facility Energy, and transformer crossover fees associated with the transmission of Energy from the on-site substation to the Point of Delivery; *provided* that Replacement Product may be delivered at alternative locations as may be mutually agreed by the Parties.

(b) Each Buyer shall be obligated to pay for its proportionate share of all Facility Energy and Replacement Product delivered to the Point of Delivery, and each Buyer shall arrange for, and shall bear all risks associated with, acceptance and transmission of its proportionate share of Facility Energy and Replacement Product from the Point of Delivery, including the arrangement of and payment for Transmission Services from the Point of Delivery at the CAISO grid, and shall arrange for Transmission Services with its Transmission Providers to deliver Facility Energy and Replacement Product to Buyers' destination, including charges related to control area services, inadvertent energy flows, transmission losses, the transmission of Facility Energy and Replacement Product, and otherwise associated with the management of Buyers' loads.

Section 7.2 Scheduling Coordinator; CAISO Cost Allocation.

(a) Seller or Seller's designee shall act as Scheduling Coordinator to cause the Scheduling of Facility Energy and Replacement Product to and at the Point of Delivery. Accordingly, (i) Seller shall schedule delivery with the CAISO, and (ii) the CAISO will pay Seller under the CAISO Tariff for delivery through the CAISO system.

(b) In its capacity as Scheduling Coordinator, Seller shall (i) except as set forth in Section 7.2(c) and Section 7.2(d), be responsible for and shall pay all (A) fees, charges, and costs necessary to Schedule the receipt of Facility Energy and Replacement Product to the Point of Delivery (including CAISO Scheduling Coordinator costs and CAISO charges and penalties including imbalance or deviation charges) and (B) CAISO Integration Amounts, up to the amount of the CAISO Integration Amounts Cost Cap, and (ii) be entitled to all payments and credits on all Settlement Statements issued by the CAISO with respect to the Facility.

(c) Seller shall provide each Buyer with an annual report of CAISO

Integration Amounts. In the event that CAISO Integration Amounts exceed the CAISO Integration Amounts Cost Cap, each Buyer shall be obligated to pay or reimburse Seller for all CAISO Integration Amounts in excess of the CAISO Integration Amounts Cost Cap proportionately based upon Buyers' Percentage of Facility Output. Seller shall promptly notify each Buyer of such charges in a manner that is sufficient to allow any Buyer to timely request that Seller dispute with the CAISO those charges on behalf of that Buyer (and to the extent that Seller reasonably incurs costs during the course of such dispute above and beyond any CAISO dispute costs that Seller would otherwise have incurred, such costs shall be at Buyers' expense) that any Buyer or Seller believe to be incorrect and disputable under the CAISO Tariff. Seller shall provide Buyers with all documentation reasonably necessary to support such dispute. The obligation of each Buyer to reimburse Seller for its proportionate share based on the Buyers' Percentage of Facility Output of CAISO Integration Amounts in excess of the cap shall still apply during the pendency of a dispute if Seller has actually incurred such CAISO Integration Amounts, *provided* that if some or all of such CAISO Integration Amounts are reimbursed to Seller by the CAISO upon resolution of the dispute, Seller shall promptly pay the amount so reimbursed to each Buyer proportionately in accordance with Buyers' Percentage of Facility Output.

(d) Each Buyer shall be obligated to either pay to the CAISO or reimburse Seller for any and all costs or charges under a Settlement Statement incurred by Seller because of such Buyer's failure to perform any covenant or obligation set forth in this Agreement.

Section 7.3 Forecasting and Scheduling of Energy.

(a) Except upon the occurrence of a curtailment under Section 7.4, Seller shall Schedule all Facility Energy and Replacement Product in a reasonable and prudent manner in accordance with the CAISO Tariff, NERC and WECC operating policies and criteria, and any other applicable guidelines, and the Scheduling and forecasting procedures provided in or developed under this Section 7.3, based on the then-most-current forecast of energy provided under the EIRP Forecast, *provided* that the foregoing shall not restrict Seller from Scheduling Facility Energy and Replacement Product during periods in which the Locational Marginal Price at the Point of Delivery is zero or negative in accordance with this Agreement. Seller, at its own cost, shall install metering, telemetry and control equipment so as to be able to provide Facility Energy to the Point of Delivery and respond to CAISO, Transmission Provider, or reliability coordinator's dispatch orders.

(b) Seller shall provide, or shall cause its designee to provide, the following non-binding forecasts, and any updates to such forecasts, to each Scheduler based on the most current forecast of Facility Energy and Replacement Product:

(i) At least one-hundred twenty (120) days before (a) the scheduled Commercial Operation Date and (b) the beginning of each Contract Year for the Facility, a non-binding forecast of each Month's average-day deliveries of Facility Energy and Replacement Product from the Facility, for the following eighteen (18) Months.

(ii) No later than sixty (60) days before the beginning of each Month during the Delivery Term, a non-binding forecast of each day's average hourly deliveries of Facility Energy and Replacement Product, for such Month.

(iii) No later than ten (10) Business Days before the beginning of each Month during the Delivery Term, a non-binding forecast of each day's average hourly deliveries of Facility Energy and Replacement Product for the following Month.

(iv) On the first Business Day of each calendar week during the Delivery Term, a non-binding forecast of each day's average deliveries of Facility Energy and Replacement Product, by hour, for the following fourteen (14) days.

(v) By 5:30 a.m. Pacific Prevailing Time on the Business Day immediately preceding each day of delivery of Facility Energy and Replacement Product during the Delivery Term, a copy of a non-binding hourly forecast of deliveries of Facility Energy and Replacement Product for each hour of the immediately succeeding day. Any forecast provided on a day prior to any non-Business Day shall include forecasts for the immediate day, each succeeding non-Business Day and the next Business Day. Seller shall, by 10:00 a.m. Pacific Prevailing Time, provide a copy of any updates to such forecast indicating a change in forecasted Facility Energy from the then-current forecast.

(vi) Prior to 12:00 p.m. Pacific Prevailing Time of the Business Day immediately preceding each WECC Prescheduling Day (as defined by WECC) for each hour of the Delivery Day (as defined by WECC) in MW or MWh units (as applicable), in the format reasonably designated by each Scheduler, a non-binding preschedule forecast of Facility Energy and Replacement Product via email. The pre-scheduled amounts of Facility Energy and Replacement Product shall be the good faith estimate of Seller or Seller's designee of the anticipated delivery of Facility Energy and Replacement Product at the time. A forecast provided a day prior to any non-Business Day shall include forecasts for the next day, each succeeding non-Business Day and the next Business Day. Seller or Seller's designee shall provide a copy of any and all updates to the forecast of the Facility's availability from the then-current forecast. Except for Forced Outages, Seller shall operate the Facility with the objective that, for each hour scheduled, the actual Facility availability shall be maintained in accordance with the preschedule plan submitted to each Scheduler.

(c) Seller shall notify each Scheduler via email, telephone, or other mutually acceptable method, of any hourly changes due to a change in Facility availability or an outage no later than one-hundred five (105) minutes prior to the start of such Scheduling hour, or such other limit as specified in the CAISO Tariff. Seller shall notify each Scheduler of other unanticipated changes in availability by email or telephone as promptly as reasonably possible. Any notice delivered under this Section 7.3(c) shall include the reason for the outage and an estimated duration of the outage. Once the outage has ended, Seller shall notify each Scheduler that the outage has ended, the cause of the outage, and the actions taken to resolve the outage in order for the CAISO outage report to be updated accordingly.

(d) Throughout the Delivery Term, Seller shall provide to each Buyer and Participating Member the following data on a real-time basis, and in a format that reasonably allows such Buyer and Participating Member, as applicable, to copy, paste or otherwise use such data:

(i) Read-only access to meteorological and related solar measurements, megawatt capacity and any other Facility availability information required in accordance with EIRP requirements;

(ii) Read-only access via secure login credentials to Energy output information collected by the SCADA system for the Facility; *provided* that if any Buyer is unable to access the Facility's SCADA system, then upon written request from such Buyer, Seller shall provide Energy output information and meteorological measurements through such other format as may be mutually acceptable to Seller and such Buyer, all as may be updated from time to time based on advancements in technology in accordance with Prudent Utility Practices; and

(iii) Read-only access to all Electric Metering Devices.

(e) Seller will provide each Scheduler and each Buyer's real time operators with continuously updated non-binding hourly forecasts of deliveries of Facility Energy and Replacement Product for each hour of the succeeding twenty four (24)-hour period, in either electronic format, via an internet website accessible via secure login credentials, or via email in the form of an excel spreadsheet (or any combination thereof, so long as such Scheduler or real time operator is able to readily access and utilize such forecasts), transmitted on an hourly basis. Seller shall reasonably cooperate with each Scheduler to attempt to optimize the estimates for such time period two (2) hours prior to such forecasts. Seller shall reasonably cooperate with each Scheduler to enable such forecasts to be prepared in accordance with mutually agreed upon communications protocols as they are implemented or upgraded from time to time in accordance with Prudent Utility Practices.

(f) Seller and each Scheduler shall mutually develop forecasting and Scheduling procedures in addition to those set forth in this Section 7.3, in order to administer the provisions of this Agreement in compliance with all applicable Requirements and requirements of the Transmission Provider, CAISO, NERC, WECC, and any balancing authority involved in the Scheduling of Energy under this Agreement, *provided* that such procedures shall not subject Seller to any additional risks, costs, charges or liabilities. Seller and each Scheduler shall promptly cooperate to make any reasonably necessary and appropriate modifications to such forecasting or Scheduling procedures as may be required from time to time.

Section 7.4 Curtailment.

(a) Seller shall reduce deliveries of Facility Energy to the Point of Delivery immediately upon notice from the CAISO, a Transmission Provider, or any balancing authority or reliability entity during Curtailment Periods affecting any Buyer. Any reduction pursuant to such a notice under this Section 7.4(a) shall be made ratably between the Facility Energy and any Uncontracted Products. Any Buyer affected by such a reduction shall not be obligated to pay

Seller for the amount of reduced Facility Energy arising during a curtailment under this Section 7.4(a); *provided* that the Parties shall calculate the amount of Deemed Generated Energy (as defined below) for reductions of deliveries of Facility Energy arising under this Section 7.4(a), for purposes of determining Seller's compliance towards its Guaranteed Generation. If required by the CAISO, a Transmission Provider, or any balancing authority or reliability entity, Seller shall provide the capability to implement curtailments and adjust ramp rates, megawatt output, and (if applicable) megavar output in real-time by means of setpoints received from the SCADA system of Seller. Any such reduction of deliveries of Facility Energy shall be allocated on a pro-rata basis among any affected Buyers in accordance with such Buyers' Buyers' Percentage of Facility Output.

(b) Seller may reduce deliveries of Facility Energy to the Point of Delivery during the Initial Negative Intervals, provided that Buyers shall pay Seller for any Facility Energy actually delivered during the Initial Negative Intervals in accordance with Section 6.5(a)(ii). If Seller reduces deliveries of Facility Energy in accordance with this Section 7.4(b), then Buyers shall not be obligated to pay Seller for the amount of reduced Facility Energy arising during such a curtailment, but Seller shall receive credit for the amount of Deemed Generated Energy for reductions of deliveries of Facility Energy arising hereunder for purposes of determining Seller's compliance towards its Guaranteed Generation.

(c) In addition to the curtailments described in Section 7.4(a) and Section 7.4(b), each Scheduler may curtail deliveries of the Applicable MW Share of its respective Buyers or SCPPA's Participating Members, as applicable, at any time and for the duration specified by such Scheduler, including in accordance with Section 6.5(a)(iii). Each Scheduler shall provide a minimum of ten (10) minutes' notice to Seller of a request for curtailment under this Section 7.4(c), and Seller shall comply with such request in accordance with Prudent Utility Practices. In its curtailment notice to Seller, such Scheduler shall indicate the duration of the curtailment period, which shall be for a minimum of thirty (30) minutes, and the time at which such Scheduler requests Seller to resume delivery of the Facility Energy to such Scheduler, in accordance with the Applicable MW Share of its respective Buyers or SCPPA's Participating Members, as applicable. To the extent a Scheduler requests any change in the duration of the requested curtailment period, Seller shall effectuate any such change no later than ten (10) minutes following notice from such Scheduler's notification to Seller of the proposed change to curtailment. Seller shall respond to any Scheduler's curtailment notices (including the end of such curtailment periods) in accordance with Prudent Utility Practices. Each applicable Buyer shall pay Seller for any Deemed Generated Energy during any curtailment under this Section 7.4(c) in an amount equal to the Fixed Rate; *provided*, *however*, Seller shall use commercially reasonable efforts to sell any such Deemed Generated Energy to third parties at a positive price to the extent permitted under the CAISO Tariff. To the extent such Deemed Generated Energy is sold to a third party, (i) the obligation to pay the amounts set forth above for a curtailment by a Scheduler under this Section 7.4(c) shall be reduced accordingly by an amount equal to the net proceeds Seller receives from such sales of Deemed Generated Energy (after subtracting any Scheduling fees, wheeling charges, and other associated costs, fees, and reasonable expenses incurred in connection with such sales), and (ii) any Environmental Attributes not sold with such Deemed Generated Energy shall be delivered in proportion with the Applicable MW Share, at no additional cost to such Buyers.

(d) "***Deemed Generated Energy***" means the amount of Energy, expressed in MWh, that the Facility would have produced and delivered to the Point of Delivery, but for a curtailment event arising under this Section 7.4, which amount shall be equal to (i) the amount of MWh provided for in the EIRP Forecast applicable to the curtailment event, regardless of whether Seller is participating in the EIRP during the curtailment event, less (ii) the amount of Facility Energy delivered to the Point of Delivery during the curtailment event, if any, or, if there is no EIRP Forecast available, (A) an amount of MWh calculated based on an equation that incorporates relevant Facility availability, weather and other pertinent data for the period of time during the curtailment event in order to approximate the amount of Facility Energy that would have been delivered, less (B) the amount of Facility Energy delivered to the Point of Delivery during the curtailment event, if any; *provided* that, if the applicable difference calculated pursuant to either of the formulas provided above is negative, the Deemed Generated Energy shall be zero (0). The equation in (A) and (B) shall be subject to review and approval by Buyers' Agent.

Section 7.5 No Payment. No Buyer shall be obligated to pay Seller for any Facility Energy that is not or cannot be delivered to the Point of Delivery for any reason (including Force Majeure), except as otherwise stated in Section 7.4.

Section 7.6 Title; Risk of Loss. As between the Parties, Seller shall be deemed to be in exclusive control (and responsible for any damages or injury caused thereby) of all Energy prior to the Point of Delivery, and each Buyer shall be deemed to be in exclusive control (and responsible for any damages or injury caused thereby), of its proportionate share of the Energy at and from the Point of Delivery. Seller warrants that it will deliver all Energy and all of the associated Environmental Attributes to Buyers free and clear of all Liens created by any Person other than Buyers. Title to and risk of loss as to all Energy and all of the associated Products shall pass from Seller to Buyers at the Point of Delivery.

Section 7.7 RPS and EPS Compliance.

(a) Seller warrants and guarantees that, from the time it receives notice from the CEC that the Facility is CEC Certified, and at all times thereafter until the expiration or earlier termination of the Agreement, the Facility (including the Facility Energy and the associated Environmental Attributes) shall be both RPS Compliant and EPS Compliant.

(b) Notwithstanding Section 7.7(a), if a Change in Law occurs after the Commercial Operation Date that causes the Facility to cease to be both RPS Compliant and EPS Compliant, Seller shall use commercially reasonable efforts to comply with such Change in Law, which efforts shall include incurring up to One Million One Hundred Twenty-Five Thousand Dollars ($1,125,000) in any Contract Year, or Four Million Five Hundred Thousand Dollars ($4,500,000) in the aggregate over the Agreement Term in costs and expenses, including registration fees, volumetric expenses, license renewal fees, external consultant fees, and capital costs, but excluding lobbying activities, to cause the Facility to be both RPS Compliant and EPS Compliant. If, notwithstanding such commercially reasonable efforts, the Facility is still not RPS Compliant and EPS Compliant due to the occurrence of a Change in Law, each Buyer shall remain obligated to purchase its proportionate share based on the Buyers' Percentage of Facility Output of the Products at the applicable full Contract Price.

(c) From time to time and at any time requested by any Buyer or any of its Authorized Representatives, Seller will furnish to each Buyer, Governmental Authorities, or other Persons designated by any Buyer, all certificates and other documentation reasonably requested by any Buyer or such Authorized Representatives in order to demonstrate that the Facility, the Facility Energy, and the associated Environmental Attributes were or are RPS Compliant and EPS Compliant.

ARTICLE VIII
ENVIRONMENTAL ATTRIBUTES

Section 8.1 Transfer of Environmental Attributes. For and in consideration of Buyers entering into this Agreement, and in addition to the agreement by and among Buyers and Seller to purchase and sell Facility Energy on the terms and conditions set forth herein, Seller shall transfer to each Buyer, and each Buyer shall receive from Seller, proportionately in accordance with the Buyers' Percentage of Facility Output, all right, title, and interest in and to all Environmental Attributes, whether now existing or acquired by Seller or that hereafter come into existence or are acquired by Seller during the Agreement Term associated with the Facility Energy and any Replacement Energy. Seller agrees to transfer and make such Environmental Attributes available to Buyers immediately to the fullest extent allowed by applicable law upon Seller's production or acquisition of the Environmental Attributes. Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of all or any portion of such Environmental Attributes to any Person other than Buyers or attempt to do any of the foregoing with respect to any of the Environmental Attributes. The consideration for the transfer of Environmental Attributes is contained within the Contract Price.

Section 8.2 Reporting of Ownership of Environmental Attributes. During the Agreement Term, Seller shall not report to any Person that the Environmental Attributes granted hereunder to Buyers belong to any Person other than Buyers, and Buyers may report under any program that such Environmental Attributes purchased hereunder belong to them.

Section 8.3 Environmental Attributes. Upon request by any Buyer's Authorized Representative, Seller shall take all actions and execute all documents or instruments necessary under applicable law, bilateral arrangements or other voluntary Environmental Attribute programs of any kind, as applicable, to maximize the attribution, accrual, realization, generation, production, recognition and validation of Environmental Attributes throughout the Agreement Term.

Section 8.4 WREGIS. In furtherance and not in limitation of Section 8.3, prior to Seller's first delivery of Facility Energy hereunder, Seller shall register with WREGIS (or any successor system) to evidence the transfer of any Environmental Attributes considered RECs under applicable law or any voluntary program ("***WREGIS Certificates***") associated with Facility Energy or Replacement Product in accordance with WREGIS reporting protocols and WREGIS Operating Rules and shall register the Facility with WREGIS. After the Facility is registered with WREGIS, Seller shall transfer WREGIS Certificates from Seller's WREGIS account to each Buyer's WREGIS accounts, as designated by each Buyer's Authorized Representative, proportionately in accordance with the Buyers' Percentage of Facility Output. Seller shall be responsible for WREGIS Certificate issuance fees and WREGIS expenses

associated with registering the Facility, maintaining its account, acquiring and arranging for a Qualified Reporting Entity ("***QRE***") and any applicable QRE agreements, and transferring WREGIS Certificates to each Buyer, each such Buyer's Authorized Representatives, or any other designees. Each Buyer shall be responsible for its WREGIS expenses associated with maintaining its own account, or the accounts of its designees, if any, and subsequent transferring or retiring by it of WREGIS Certificates, or Seller's fees for the retirement of WREGIS Certificates on behalf of any Buyer. Seller shall be responsible for, at its expense, validating and disputing data with WREGIS prior to WREGIS Certificate creation each Month. In the event that WREGIS is not in operation, or WREGIS does not track Seller's transfer of WREGIS Certificates to any Buyer's Authorized Representative or its designees for purposes of any RECs attributed, accrued, realized, generated, produced, recognized or validated relative to the Facility Energy or Replacement Product, if any, or any Buyer chooses not to use WREGIS for any reason, Seller shall document the production and transfer of RECs under this Agreement to such Buyer by delivering to such Buyer an attestation in substantially the form attached as Appendix D for the RECs associated with the Buyers' Percentage of Facility Output, or Replacement Product, if any, measured in whole MWh, or by such other method as such Buyer shall designate.

Section 8.5 Further Assurances. Pursuant to Section 8.4, if WREGIS (or any successor thereto) is not in operation, or for Environmental Attributes to which WREGIS does not apply, Seller shall document the production of Environmental Attributes other than RECs by delivering with each invoice to Buyers an attestation for the amount of such Environmental Attributes associated with Facility Energy or included with Replacement Product, if any, for the preceding Month in the form of the attestation set forth as Appendix D. At Buyers' Agent's request, the Parties shall execute all such documents and instruments and take such other action in order to affect the transfer of the Environmental Attributes specified in this Agreement to Buyers and to maximize the attribution, accrual, realization, generation, production, recognition and validation of Environmental Attributes throughout the Agreement Term. In the event of the promulgation of a scheme involving Environmental Attributes administered by CAMD, upon notification by CAMD that any transfers contemplated by this Agreement shall not be recorded, each Party shall promptly cooperate in taking all reasonable actions necessary so that such transfer can be recorded. Each Party shall promptly give the other Party copies of all documents it submits to CAMD to effectuate any transfers.

ARTICLE IX
MAKEUP OF SHORTFALL ENERGY

Section 9.1 Makeup of Shortfall. Within thirty (30) days after the end of each Contract Year, Seller shall provide Buyers' Agent with a calculation of Facility Energy for such Contract Year. If Seller fails during any Contract Year to deliver Facility Energy in an amount equal to the Guaranteed Generation for the Facility, then Seller shall make up the shortfall of Facility Energy ("***Shortfall Energy***") in accordance with this Article IX.

Section 9.2 Replacement Product. During the Shortfall Makeup Period, the amount of Shortfall Energy shall first be reduced by the amount of any (a) Facility Energy or Deemed Generated Energy delivered or deemed to be delivered above the Guaranteed Generation during the applicable Shortfall Makeup Period, and (b) Replacement Product delivered by Seller during

the Shortfall Makeup Period. Such Replacement Product shall be delivered to the Point of Delivery or such other point of delivery as is mutually agreed upon by the Parties (which point of delivery shall be deemed the "Point of Delivery" for such Replacement Product for purposes of Article VII and the other Scheduling and delivery provisions hereof) and on a delivery schedule mutually agreed to by Seller and Buyers' Agent. Any additional costs or expenses associated with delivery of Replacement Product to a Point of Delivery designated under this Section 9.2 shall be borne by Seller. To the extent Seller is unable to deliver or provide sufficient Facility Energy, Deemed Generated Energy, or Replacement Product to make up the remaining Shortfall Energy, then Seller shall, at the end of the Shortfall Makeup Period, pay each Buyer damages in accordance with Section 9.3. Notwithstanding the foregoing, at the end of each RPS Compliance Period during the Delivery Term, if there is any Shortfall Energy at such time, Seller shall pay each Buyer its proportionate share of damages in accordance with Section 9.3 for the amount of Shortfall Energy in the last calendar year of such RPS Compliance Period.

Section 9.3 Shortfall Damages. If Seller is required to pay damages pursuant to Section 9.2, such damages shall be an amount, for each MWh of remaining Shortfall Energy, equal to the positive difference, if any, obtained by subtracting (a) the Fixed Rate from (b) the Replacement Price, and adding, in the case of the positive difference, the amount of all documented and reasonable out-of-pocket costs and expenses incurred by such Buyer to purchase such Replacement Product ("***Shortfall Damages***"). If Seller fails to pay any Buyer its proportionate share of the Shortfall Damages prior to the end of the Shortfall Makeup Period, such Buyer shall have the right, as early as the last day of such Shortfall Makeup Period, to draw the applicable amount of Shortfall Damages owed to such Buyer from the Delivery Term Security. The Shortfall Damages payable under this Section 9.3 shall be each Buyer's sole remedy, and Seller's sole liability, for Seller's failure to achieve the Guaranteed Generation and to deliver Replacement Product in the amount of the Shortfall Energy, except that the foregoing shall not limit any Buyer's right to withdraw from or terminate this Agreement under Section 9.5 or exercise any right or remedy available under this Agreement or at law or in equity for any Default occurring concurrently with or before or after the accrual of such Shortfall Energy.

Section 9.4 Availability Requirement. Seller shall be responsible for all costs, charges, expenses, penalties, and obligations resulting from Availability Standards, if applicable, and Seller shall be entitled to retain all credits, payments, and revenues, if any, resulting from Seller achieving or exceeding Availability Standards, if applicable, other than the Capacity Rights.

Section 9.5 Shortfall Energy Termination. If Seller fails during any two consecutive Contract Years to deliver at least Sixty Two and One Half percent (62.5%) of the Guaranteed Generation for such Contract Years then each Buyer, in its sole discretion, may within thirty (30) days after the end of such Contract Year, elect to either (a) collect Shortfall Damages for the Shortfall Energy pursuant to Section 9.3 and withdraw from this Agreement (or Buyers may collectively agree to terminate this Agreement), *provided* that such withdrawal, or termination, as applicable, shall be without further liability to such Buyer or Buyers; or (b) allow Seller to cure such failure by providing such Buyer or Buyers with Replacement Product or Shortfall Damages as described in Section 9.2 and Section 9.3.

ARTICLE X
CAPACITY RIGHTS

Section 10.1 Capacity Rights. For and in consideration of each Buyer entering into this Agreement, and in addition to the agreement by Buyers and Seller to purchase and sell Facility Energy and Environmental Attributes on the terms and conditions set forth herein, Seller hereby transfers to each Buyer, and each Buyer hereby accepts from Seller, all of Seller's rights, title and interest in and to the Capacity Rights, proportionately in accordance with the Buyers' Percentage of Facility Output. The consideration for the transfer of Capacity Rights, if any, is contained within the applicable Contract Price, *provided* that Seller shall pay each Buyer liquidated damages in accordance with Section 10.3 in the event that Seller is unable to obtain a Full Capacity Deliverability Status Finding or otherwise provide the amount of Capacity Rights that Buyers would have otherwise received if the Project had obtained Full Capacity Deliverability Status. No Buyer shall have any obligation or liability whatsoever for any debt pertaining to the Facility by virtue of any Buyer's ownership of the Capacity Rights or otherwise, other than in connection with Buyers' exercise under the Right of First Offer or the Option Agreement.

Section 10.2 Covenant Regarding Capacity Rights. Without limiting any of Seller's obligations under this Agreement, Seller shall use commercially reasonable efforts to cause the Facility to achieve Full Capacity Deliverability Status by the Commercial Operation Date, *provided* that the achievement of Full Capacity Deliverability Status shall not be a condition to the achievement of Commercial Operation, and no Default shall occur hereunder solely due to the failure of the Facility to obtain such status or the loss of such status once obtained, unless such failure is due to the actions or omissions of Seller or any RE Holdings Entity.

Section 10.3 Consequences of Failure to Obtain an FCDS Finding. Any failure by Seller to obtain an FCDS Finding, and any remedy by Seller to address such a failure, shall be resolved on a non-discriminatory basis among the Facility and any other generating facility which shares the same capacity designation.

(a) If Seller is unable to obtain a Full Capacity Deliverability Status Finding as of the Commercial Operation Date, then Seller shall pay each Buyer the RA Deficiency Amount for each RA Shortfall Month as liquidated damages due to each Buyer for the Capacity Rights that Seller failed to convey to each Buyer, calculated in accordance with Section 10.3(b) and (c) below, *provided* that in lieu of paying such liquidated damages Seller may deliver alternative Capacity Rights equivalent to those that would have been provided by the Facility for such RA Shortfall Month if the Facility had Full Capacity Deliverability Status.

(b) Seller shall calculate the "***RA Deficiency Amount***" using the formula set forth in Section 10.3(c) for each RA Shortfall Month and shall notify each Buyer of such amount no later than the last day of the applicable RA Shortfall Month. Seller shall pay the RA Deficiency Amount monthly in the form of a deduction from the amount invoiced by Seller in such month pursuant to Article 11. In the event that the RA Deficiency Amount payment due in any month exceeds the invoiced amount pursuant to Article 11, no Buyer shall make any payment to Seller for that Month, and the difference between the invoiced amount and the RA Deficiency Amount payment shall be included in the following Month's invoiced amount, until

the full amount has been deducted. Any dispute with regard to the calculation of any RA Deficiency Amount shall be resolved in accordance with Section 11.3.

(c) For each Buyer, the RA Deficiency Amount shall be equal to the product of (v), (w), (x), (y) and (z) where: (v) is the RA Value, (w) is the Applicable Contract Capacity, (x) is the Solar NQC Factor, (y) is the Buyers' Percentage of Facility Output, and (z) is one (1.0) minus the Partial RA Factor, which is defined below. The RA Deficiency Amount for each Buyer is represented by the following equation:

> RA Deficiency Amount ($/Month) = RA Value ($/MW/Month) * Applicable Contract Capacity (MW) * Solar NQC Factor * Buyers' Percentage of Facility Output * [1.0 - Partial RA Factor]
>
> where the "***Partial RA Factor***" is equal to the Facility's net qualifying capacity divided by the Facility's qualifying capacity, as assigned by the CAISO, the PUC or other applicable Governmental Authority, as determined by allocating the Facility qualifying capacity ratably to the Facility and any other generating facility which shares the capacity designation. The Partial RA Factor shall never be greater than one (1.0) or less than zero (0). If either the qualifying capacity or the net qualifying capacity has not been assigned to the Facility for the applicable month, the Partial RA Factor shall be equal to zero (0).
>
> Partial RA Factor = Net Qualifying Capacity (MW) / Qualifying Capacity (MW)

(d) For purposes of illustration only, a sample calculation of an RA Deficiency Amount is provided in Schedule 10.3.

(e) To the extent that information is required by any Buyer from Seller to complete its plans related to Resource Adequacy, Seller shall promptly, provide such information at no additional cost to such Buyer.

Section 10.4 Representation Regarding Ownership of Capacity Rights. Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of any of the Capacity Rights to any Person other than Buyers or attempt to do any of the foregoing with respect to any of the Capacity Rights. During the Agreement Term, Seller shall not report to any Person that any of the Capacity Rights belong to any Person other than Buyers. Each Buyer may, at each Buyer's own risk and expense, report to any Person that such Buyer's proportionate share of the Capacity Rights belongs to it. Seller makes no representations, warranties or covenants to Buyers, either expressed or implied, regarding the current or future characterization or treatment of the Capacity Rights under any Requirement of Law. Seller, as Scheduling Coordinator, shall submit to CAISO a Supply Plan (as defined in the CAISO Tariff) in accordance with applicable CAISO requirements noting Buyers as the entities to which such Capacity Rights belong.

Section 10.5 Further Assurances. Seller shall execute and deliver such documents and instruments and take such other action as required by the CAISO and as any Buyers' Authorized Representative may reasonably request to effect recognition and transfer of the Capacity Rights to Buyers. Seller shall bear the costs associated therewith.

ARTICLE XI
BILLING; PAYMENT; AUDITS; METERING; ATTESTATIONS; POLICIES

Section 11.1 Billing and Payment. Billing and payment for all Products shall be as set forth in this Article XI.

Section 11.2 Calculation of Energy Delivered; Invoices and Payment.

(a) Not later than the tenth (10th) day of each Month, commencing with the next Month following the Month in which Facility Energy is first delivered by Seller and received by Buyers under this Agreement, Seller shall deliver to each Buyer a proper invoice showing the amount due for the preceding Month from each Buyer to Seller for Facility Energy, Capacity Rights and Environmental Attributes based on the Buyers' Percentage of Facility Output. Each invoice shall show the title of the Agreement and, if applicable, the Agreement number, the name, address and identifying information of Seller and the identification of material, equipment or services covered by the invoices, and shall be sent to the address set forth in Appendix J or such other address as each Buyer may provide to Seller. Seller shall separately provide in such invoice (i) for any invoice during a period of time ending on or before December 31, 2021, evidence supporting the total amount of Facility Energy and Uncontracted Products generated during such period (including any reasonable documentation requested by Buyers' Agent for purposes of verifying the delivery of Test Energy and Excess Energy), (ii) Seller's computation of the number of Initial Negative Intervals, if any, that occurred during such Month, (iii) Seller's computation of any allocation for Replacement Product delivered by Seller and taken by each Buyer under this Agreement during the preceding Month, any Deemed Generated Energy calculated during the preceding Month (including any supporting documentation associated therewith) and (iv) any other amounts due to Seller, including amounts due under Section 6.3 or Section 7.3. Seller shall also separately designate in such invoice the generation of Excess Energy, if any. Seller shall also provide each Buyer with a summary of the calculations pursuant to Section 6.2, and in the case of Replacement Product, the amount in MWh actually supplied by Seller pursuant to Section 9.2. Any electronic information delivered by Seller under this Article XI shall be in a format such as Microsoft Excel (or its equivalent) that allows each Buyer to cut, paste or otherwise readily use and work with such information or documentation or as otherwise mutually agreed by the Parties.

(b) Subject to Section 11.2(c) and Section 11.3, not later than the thirtieth (30th) day after receipt by a Buyer of Seller's Monthly invoice (or the next succeeding Business Day, if the thirtieth (30th) day is not a Business Day), each Buyer shall pay to Seller, by wire transfer of immediately available funds to an account specified by Seller or by any other means agreed to by the Parties from time to time, the amount set forth as due by such Buyer in such Monthly invoice.

(c) With respect to Deemed Generated Energy, within thirty (30) days after receipt of an invoice from Seller, if any Buyer believes that it has insufficient information to verify the amount of Deemed Generated Energy calculated by Seller in the invoice, or if such Buyer requires additional time to verify such information, such Buyer shall notify Seller and the other Buyers thereof. Within thirty (30) days after receipt by such Buyer of additional information regarding such Deemed Generated Energy calculation, or on the date mutually

agreed to by the Parties pursuant to such Buyer's request for additional time to verify the information provided by Seller, such Buyer shall notify Seller of any discrepancies with respect to its calculation of the Deemed Generated Energy, in which event such invoice may be subject to the provisions of Section 11.3. The failure of such Buyer to respond to Seller's calculation of Deemed Generated Energy, if any, within thirty (30) days of receipt of an invoice shall be deemed approval of such calculation by such Buyer.

(d) Seller shall, in subsequent invoices, adjust previously invoiced amounts to reflect (i) adjustments pursuant to Section 11.3, or (ii) adjustments, reconciliations or final settlements with WREGIS occurring after the date of the initial invoice, or any other adjustments agreed to by the Parties (which shall be without interest of any kind), *provided* that Buyers shall not be required to make invoice payments if the invoice is received more than one (1) year after the billing period.

Section 11.3 Disputed Invoices. If any portion of any invoice is in dispute, the undisputed amount, as applicable, shall be paid when due. The Party disputing a payment shall promptly notify the other Parties of the basis for the dispute, setting forth the details of such dispute in reasonable specificity. If necessary, Disputes may be discussed directly by the Parties' Authorized Representatives, who shall use reasonable efforts to amicably and promptly resolve such Disputes, and any failure to agree shall be subject to resolution in accordance with Section 14.3. Upon resolution of any Dispute, if all or part of the disputed amount is later determined to have been due, then the Party owing such payment or refund shall pay within ten (10) days after receipt of notice of such determination the amount determined to be due plus interest thereon at the Interest Rate from the due date until the date of payment. For purposes of this Section 11.3, "***Interest Rate***" shall mean the lesser of (i) two percent (2%) above the per annum Prime Rate reported daily in *The Wall Street Journal*, or (ii) ten percent (10%) per annum.

Section 11.4 Buyers' Right of Setoff. In addition to any right now or hereafter granted under applicable law and not by way of limitation of any such rights, each Buyer shall have the right at any time or from time to time without notice to Seller or to any other Person, any such notice being hereby expressly waived, to set off against any amount due Seller from such Buyer under this Agreement or otherwise any amount due such Buyer from Seller under this Agreement or otherwise, including any amounts due because of breach of this Agreement or any other obligation if and to the extent paid in the first instance by such Buyer.

Section 11.5 Records and Audits. Seller shall maintain, and the Authorized Auditors shall have access to, all records and data pertaining to the performance and management of this Agreement (including compliance with the Requirements) and related Subcontracts, and as necessary to properly reflect all costs claimed to have been incurred hereunder and thereunder, including (a) in their original form, all (i) documents provided to Seller in the ordinary course of business for the Facility, (ii) documents for billing, costs, metering, and Environmental Attributes, (iii) books, records, documents, reports, deliverables, employee time sheets, accounting procedures and practices, and (iv) records of financial transactions, and (b) other evidence, regardless of form (for example, machine readable media such as disk or tape, etc.) or type (for example, databases, applications software, database management software, or utilities). If Seller is required to submit cost or pricing data in connection with this Agreement, Seller shall maintain all records and documents necessary to permit adequate evaluation of the cost or

pricing data submitted, along with the computations and projections used. In the event of a Dispute, records that relate to the Agreement, Dispute, litigation or costs, or items to which an audit exception has been taken, shall be maintained. Buyers' Agent and the Authorized Auditors may discuss such records with Seller's officers and independent public accountants (and by this provision Seller authorizes said accountants to discuss such billings and costs), all at such times and as often as may be reasonably requested. All such records shall be retained, and shall be subject to examination and audit by the Authorized Auditors, for a period of not less than four (4) years following final payment made by a Buyer hereunder, the expiration or termination date of this Agreement, or final settlement of all disputes, claims, or litigation, whichever is later. Seller shall make said records or, to the extent accepted by the Authorized Auditors, photographs, micro-photographs, or other authentic reproductions thereof, available to the Authorized Auditors at Seller's principal business office or any other of Seller's offices as mutually agreed upon by Buyers' Agent and Seller, at all reasonable times and without charge. The Authorized Auditors may reproduce, photocopy, download, transcribe, and the like any such records. Any information provided by Seller on machine-readable media shall be provided in a format accessible and readable by the Authorized Auditors. Seller shall not, however, be required to furnish the Authorized Auditors with commonly available software. Seller shall be subject at any time with fourteen (14) days prior written notice to audits or examinations by Authorized Auditors, relating to all billings and required to verify compliance with all Agreement requirements relative to practices, methods, procedures, performance, compensation, and documentation. Examinations and audits shall be performed using generally accepted auditing practices and principles and applicable governmental audit standards. If Seller utilizes or is subject to Federal Acquisition Regulation, Part 30 and 31, et seq. accounting procedures, or a portion thereof, examinations and audits shall utilize such information. To the extent that an Authorized Auditor's examination or audit reveals inaccurate, incomplete or non-current records, or records are unavailable, the records shall be considered defective. Consistent with standard auditing procedures, Seller shall be provided fifteen (15) days to review an Authorized Auditor's examination results or audit and respond to Buyers' Agent prior to the examination's or audit's finalization and public release. If an Authorized Auditor's examination or audit indicates Seller has been overpaid under a previous payment application, the identified overpayment amount shall be paid by Seller to Buyers within fifteen (15) days of notice to Seller of the identified overpayment. If an Authorized Auditor's examination or audit reveals that Buyers' overpayment to Seller is more than five percent (5.0%) of the billings reviewed, Seller shall pay all expenses and costs incurred by the Authorized Auditors arising out of or related to the examination or audit, which examination or audit expenses and costs shall be paid by Seller to Buyers within fifteen (15) days of notice to Seller. Seller shall contractually require all Subcontractors performing services under this Agreement to comply with the provisions of this Section 11.5 by inserting this Section 11.5 into each Subcontract.

Section 11.6 Electric Metering Devices.

(a) Facility Energy shall be measured using a CAISO-approved revenue-quality Electric Metering Device that complies with the CAISO Tariff and relevant protocols and is dedicated exclusively to the Facility. Seller shall arrange and bear all costs associated with the installation of the Electric Metering Devices needed for the registration, recording and transmission of information regarding the Facility Energy. Seller hereby agrees to provide a mutually agreed set of meter data to Buyers' Agent, which data shall be accessible to, and usable

by, Buyers. In addition to providing Buyers' Agent with its meter data, Seller shall use commercially reasonable efforts to support any efforts by Buyers' Agent to obtain CAISO meter data applicable to the Facility and all inspection, testing and calibration data and reports from the CAISO. If the CAISO makes any adjustment to any CAISO meter data for a given time period, Seller agrees that it shall submit revised Monthly invoices, pursuant to this Article XI covering the entire applicable time period in order to fully conform such adjustments to the meter data. Seller shall submit any revised invoices no later than thirty (30) days after the date on which the CAISO provides Seller with binding adjustments to the meter data.

(b) Seller or its Authorized Representative, at no expense to Buyers, shall inspect and test all Electric Metering Devices upon installation and at least annually thereafter. Seller shall provide Buyers' Agent with reasonable advance notice of, and permit representatives of Buyers and Buyers' Agent to witness and verify, such inspections and tests. Upon request by Buyers' Agent, Seller or its Authorized Representative shall perform additional inspections or tests of any Electric Metering Device and shall permit a qualified representative of any Buyer to inspect or witness the testing of any Electric Metering Device. The actual expense of any such requested additional inspection or testing shall be borne by Seller. Seller shall provide copies of any inspection or testing reports to Buyers' Agent.

(c) If an Electric Metering Device fails to register, or if the measurement made by an Electric Metering Device is found upon testing to be inaccurate by more than plus or minus one percent (+/- 1.0%), an adjustment shall be made to correct all measurements made by the inaccurate or defective Electric Metering Device for both the amount of the inaccuracy and the period of the inaccuracy. The adjustment period shall be determined by reference to Seller's check-meters, if any, or as far as can be reasonably ascertained by Seller from the best available data, subject to review and approval by Buyers' Agent (such approval not to be unreasonably withheld). If the period of the inaccuracy cannot be reasonably ascertained, any such adjustment shall be for a period equal to one-third of the time elapsed since the preceding test of the applicable Electric Metering Devices. To the extent that the adjustment period covers a period of deliveries for which payment has already been made by Buyers, Buyers' Agent shall use the corrected measurements as determined in accordance with this Section 11.6 to recompute the amount due for the period of the inaccuracy and shall subtract the previous payments by Buyers for this period from such recomputed amount. If the difference is a positive number, the difference shall be paid by Buyers to Seller; if the difference is a negative number, that difference shall be paid by Seller to Buyers, or at the direction of Buyers' Agent, may take the form of an offset to payments due to Seller from Buyers. Payment of such difference by the owing Party or Parties, as applicable, shall be made not later than thirty (30) days after the owing Party or Parties, as applicable, receives notice of the amount due, unless Buyers elect payment via an offset.

Section 11.7 Taxes. Seller shall pay or cause to be paid all Taxes on or with respect to the Products or the transaction arising before or at the Point of Delivery. Each Buyer shall pay or cause to be paid its proportionate share of all Taxes on or with respect to the Products or the transaction from (but excluding) the Point of Delivery to such Buyer. If Seller is required by a Requirement of Law to remit or pay Taxes that are the responsibility of any Buyer hereunder, such Buyer shall promptly reimburse Seller for such Taxes. If any Buyer is required by Requirement of Law to remit or pay Taxes that are Seller's responsibility hereunder, such Buyer

may deduct such amounts from payments to Seller hereunder; if such Buyer elects not to deduct such amounts from Seller's payments, Seller shall promptly reimburse such Buyer for such amounts upon request. Nothing shall obligate or cause a Party to pay or be liable to pay any Taxes for which it is exempt under law. A Party that is exempt at any time and for any reason from one or more Taxes shall bear the risk that such exemption shall be lost or the benefit of such execution be reduced.

ARTICLE XII
REPRESENTATIONS, WARRANTIES AND COVENANTS

Section 12.1 Representations, Warranties and Covenants of Buyers. Each Buyer makes the following representations, warranties and covenants to Seller as of the Effective Date and continuing throughout the Agreement Term:

(a) Such Buyer is, (i) with respect to SCPPA and PWRPA, a validly existing California joint powers authority, and (ii) with respect to Corona, Lodi, Moreno Valley and Rancho Cucamonga a validly existing California municipal corporation, and has the legal power and authority to own its properties, to carry on its business as now being conducted and to enter into this Agreement, and to carry out the transactions contemplated hereby and thereby, and to perform and carry out all covenants and obligations on its part to be performed under and pursuant to this Agreement.

(b) The execution, delivery and performance by such Buyer of this Agreement (i) have been duly authorized by all necessary action, and does not and will not require any consent or approval of such Buyer's (or, in the case of SCPPA, SCPPA's Participating Members') regulatory or governing bodies, other than that which has been obtained; *provided* that further authorizations from such Buyer's (or, in the case of SCPPA, SCPPA's Participating Members') regulatory or governing bodies will be required for Buyers to exercise the Project Purchase Option; and (ii) does not violate any federal, state, and local law, including the California Government Code and similar laws.

(c) This Agreement constitutes the legal, valid and binding obligation of such Buyer enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors' rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law.

(d) Such Buyer is not in violation of any federal, state, and local law, which violations, individually or in the aggregate, would reasonably be expected to result in a material adverse effect on the business, assets, operations, condition (financial or otherwise) or prospects of such Buyer, or the ability of such Buyer to perform any of its obligations under this Agreement.

(e) Buyers' Agent has been appointed as the agent for Buyers pursuant to an agreement entered into by Buyers, dated as of the Effective Date, a true and correct copy of which has been furnished to Seller, for the purposes of administering this Agreement, and Buyers' Agent has the power and authority to take such actions, grant such consents, and bind

Buyers with respect to the matters provided for in this Agreement in a manner consistent with the term and conditions set forth in this Agreement.

Section 12.2 Representations and Warranties of Seller. Seller makes the following representations and warranties to Buyers as of the Effective Date:

(a) Each of the Seller Parties is a corporation or limited liability company duly organized and validly existing and in good standing under the laws of its respective state of incorporation or organization and is qualified to do business in the State of California, and has the legal power and authority to own or lease its properties, to carry on its business as now being conducted and to enter into this Agreement and the Ancillary Documents to which it is a party, and to carry out the transactions contemplated hereby and thereby and to perform and carry out all covenants and obligations on its part to be performed under and pursuant to this Agreement and any Ancillary Documents to which it is a party.

(b) Each Seller Party has taken all corporate or limited liability company action required to authorize the execution, delivery, and performance of this Agreement and all Ancillary Documents requiring execution by such Seller Party, and such Seller Party has delivered to Buyers (i) copies of all resolutions and other documents evidencing such corporate or limited liability company actions, certified by an authorized representative of such Seller Party as being true, correct, and complete, and (ii) an incumbency certificate signed by the secretary of such Seller Party certifying as to the names and signatures of the authorized representatives of such Seller Party.

(c) The execution, delivery and performance by each Seller Party of this Agreement and any Ancillary Documents to which it is a party have been duly authorized by all necessary organizational action, and do not require any consent or approval other than those which have already been obtained.

(d) The execution and delivery of this Agreement and all Ancillary Documents to which any Seller Party is a party, the consummation of the transactions contemplated hereby and thereby and the fulfillment of and compliance with the provisions of this Agreement and any Ancillary Documents to which any Seller Party is a party, do not conflict with or constitute a breach of or a default under, any of the terms, conditions or provisions of any Requirement of Law, or any organizational documents, agreement, deed of trust, mortgage, loan agreement, other evidence of indebtedness or any other agreement or instrument to which any Seller Party is a party or by which it or any of its property is bound, or result in a breach of or a default under any of the foregoing or result in or require the creation or imposition of any Lien upon any of the properties or assets of any Seller Party (except as contemplated hereby), and each Seller Party has obtained or shall use commercially reasonable efforts to timely obtain (and expects to obtain in due course) all Permits required for the performance of its obligations hereunder and operation of the Facility in accordance with the Requirements.

(e) This Agreement and any Ancillary Documents to which any Seller Party is a party constitute the legal, valid and binding obligation of such Seller Party enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors'

rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law.

(f) There is no pending, or to the knowledge of Seller, threatened action or proceeding affecting any Seller Party before any Governmental Authority, which purports to affect the legality, validity or enforceability of this Agreement or any Ancillary Documents to which it is a party.

(g) None of the Seller Parties is in violation of any Requirement of Law, which violations, individually or in the aggregate, would reasonably be expected to result in a material adverse effect on the business, assets, operations, condition (financial or otherwise) or prospects of any Seller Party, or the ability of any Seller Party to perform any of its obligations under this Agreement or any Ancillary Documents to which it is a party.

(h) The corporate organizational structure and ownership of Seller, RE Pioneer Holdings LLC, and Astoria 2 Holdings LLC is as set forth on Schedule 12.2(h). Seller is a Special Project Entity. As of the Effective Date, (i) all of the membership interests in Seller are directly owned and controlled by RE Astoria 2 Holdings LLC, a Delaware limited liability company; (ii) all of the membership interests in RE Astoria 2 Holdings LLC are directly owned and controlled by RE Pioneer Holdings LLC, a Delaware limited liability company; and (iii) all of the membership interests in RE Pioneer Holdings LLC are directly owned and controlled by RE Holdings. The limited liability company interests in each of Seller, RE Astoria 2 Holdings LLC, RE Pioneer Holdings LLC and RE Holdings have been duly issued under and authorized by their respective limited liability company agreements and in accordance with applicable Requirements of Law.

(i) The Seller Parties have (i) not entered into this Agreement or any Ancillary Document to which they are a party with the actual intent to hinder, delay or defraud any creditor, and (ii) received reasonably equivalent value in exchange for its obligations under this Agreement and any Ancillary Document to which they are a party. No petition in bankruptcy has been filed against any Seller Party, and no Seller Party nor any of their respective constituent Persons have ever made an assignment for the benefit of creditors or taken advantage of any insolvency act for its benefit as a debtor.

(j) The Permits (including the CEQA Determinations) required to construct, maintain or operate the Facility in accordance with the Requirements have been or are reasonably expected to be timely obtained in the ordinary course of business.

(k) Tax returns and reports of each Seller Party required to be filed by it have been timely filed, and all Taxes shown on such Tax returns to be due and payable and all assessments, fees and other governmental charges upon each Seller Party and upon its properties, assets, income, business and franchises that are due and payable have been paid when due and payable. Seller knows of no proposed Tax assessment against it that is not being actively contested by it in good faith and by appropriate proceeding.

(l) Seller owns or possesses or will acquire all patents, rights to patents, trademarks, copyrights and licenses necessary for the performance by Seller of its obligations

under this Agreement, and Seller's use thereof does not infringe on the intellectual property rights of third parties.

(m) Seller has not assigned, transferred, conveyed, encumbered, sold or otherwise disposed of the Products except as provided herein.

(n) Seller reasonably expects to obtain the CEQA Determinations in the ordinary course of business in accordance with Appendix I and is in compliance with any mitigation plans, monitoring programs or other requirements associated therewith.

Section 12.3 Covenants of Seller Related to Special Project Entity Status. Seller shall remain at all times throughout the Agreement Term a Special Project Entity.

Section 12.4 Covenants of Seller Related to Site Control Documents.

(a) Seller shall deliver evidence of LandCo LLC's purchase of the real property rights for the Facility Site promptly upon the purchase thereof, but in no event later than the Site Control Milestone Date.

(b) A copy of the Land Lease duly executed by Seller and LandCo LLC shall be delivered to Buyers' Agent promptly upon execution thereof, but in no event any later than the Site Control Milestone Date.

(c) Seller shall (i) cause the execution (if applicable), delivery, and performance by Seller of the Site Control Documents to be duly authorized by all necessary action by Seller and to constitute the legal, valid, and binding obligation of Seller, (ii) maintain Site Control at all times after the Site Control Milestone Date, and (iii) provide Buyers' Agent with prompt notice of any change in the status of Seller's Site Control.

(d) For each Site Control Document capable of being recorded, Seller shall cause either a memorandum of such Site Control Document or the Site Control Document itself to be recorded in the applicable county for such Site Control Document promptly upon execution and delivery thereof.

(e) Seller shall at all times keep, perform, observe and comply with, or cause to be kept, performed, observed and complied with, all covenants, agreements, conditions and other provisions required to be kept, performed, observed and complied with by or on behalf of Seller from time to time pursuant to the Site Control Documents, and Seller shall not do or permit anything to be done, the doing of which, or refrain from doing anything, the omission of which, could impair or tend to impair the rights of Seller under the Site Control Documents, or could be grounds for any Lessor or any other counterparty to Seller thereunder to terminate a Site Control Document.

(f) Seller shall use commercially reasonable efforts to enforce the provisions of the Site Control Documents short of termination thereof such that Seller may enjoy all of the rights granted to Seller thereunder.

(g) Seller shall give Buyers' Agent immediate notice of (i) any default or of any event which, with the giving of notice or passage of time, or both, would become a default under any of the Site Control Documents, or the receipt by Seller of any notice from any Lessor, or any other counterparty to Seller thereto, or (ii) the commencement or threat of any action or proceeding or arbitration pertaining to any Site Control Document. Any Buyer, at its option, may take any action (but shall not be obligated to take any action) from time to time deemed necessary or desirable by such Buyer to prevent or cure, in whole or in part, any default by Seller under a Site Control Document. Seller shall deliver to Buyers' Agent, immediately upon service or delivery thereof on, to or by Seller, a copy of each petition, summons, complaint, notice of motion, order to show cause and other pleading or paper, however designated, which shall be served or delivered in connection with any such action, proceeding or arbitration.

(h) After Seller's execution and delivery of a Site Control Document, Seller shall not terminate, cancel, sever or surrender, or permit or suffer the subordination, termination, cancellation, severance or surrender of, or modify, change, amend or assign the Site Control Document in a way that could, individually or in the aggregate, reasonably be expected to have a material adverse effect on any Buyer (including Buyers' ability to exercise the Project Purchase Option and take possession of the Facility, generate Energy at the Facility, and transmit Energy from the Facility to the Point of Delivery in substantially the same manner as Seller during the Agreement Term), the Facility, or Seller's performance of its obligations under this Agreement, without the prior written consent of Buyers' Agent. Notwithstanding the foregoing, Buyers' Agent's consent shall not be required to terminate a Site Control Document if the real property rights arising under such Site Control Document are not reasonably necessary for the possession of the Facility, the generation of Energy at the Facility, or the transmission of Energy from the Facility to the Point of Delivery.

(i) Seller shall use commercially reasonable efforts to cause each counterparty under an Existing Site Control Document to provide each Buyer with an estoppel certificate that includes: (i) that each Buyer shall be a third party beneficiary of the representations, warranties, and covenants of such counterparty to the Existing Site Control Document, and that Buyers have all of the rights and benefits of Seller under, and the ability to enforce, the Existing Site Control Document, (ii) such counterparty's consent to Seller's grant of the Project Purchase Option and to the assignment of such Existing Site Control Document to Buyers following the exercise of the Project Purchase Option, (iii) a right for any Buyer or Buyers to step in and cure any breach or default by Seller under the Existing Site Control Documents prior to termination thereof, (iv) a summary of the rights of Buyers under the Existing Site Control Document and confirming the rights of Buyers under the Project Purchase Option, (v) the commencement and expiration dates of the applicable Existing Site Control Document, and (vi) an obligation of such counterparty to deliver to Buyers' Agent, upon Buyers' Agent's request therefor additional estoppel certificates certifying (A) whether the applicable Existing Site Control Document has been supplemented, amended, assigned, or subleased, and if so, the substance and manner thereof, (B) the validity and force and effect of the applicable Existing Site Control Document, (C) the existence of any default thereunder, and (D) any other matters as may be reasonably requested by any Buyer. Upon payment by one or more Buyers to cure any default of Seller under an Existing Site Control Document that prevents termination of such Existing Site Control Document or the exercise of any other remedy of the Lessor (or other counterparty) thereunder arising out of such default, Seller, within ten (10) days following

receipt of notice from such Buyer that such payment has been made, shall reimburse the amount of such payment to such Buyer, plus interest accruing thereon at the Interest Rate, from and including the date of the payment to cure such default to but excluding the date of such reimbursement by Seller.

(j) Seller shall (i) obtain Buyers' Agent's approval prior to the execution and delivery by Seller of any Additional Site Control Documents, and (ii) provide to Buyers' Agent copies of all Additional Site Control Documents; *provided* Buyers' Agent's approval of Additional Site Control Documents shall not be unreasonably withheld, conditioned, or delayed and shall be limited to ensuring that such Additional Site Control Documents (A) are sufficient to establish Site Control with respect to the subject matter thereof, (B) meet the requirements set forth in this Section 12.4, and (C) with respect to any Shared Facilities Agreement, do not allocate a disproportionate obligation or risk to Seller when compared to the pro rata obligations of the other parties; *provided further* that Seller may redact the purchase price, rent or other financial consideration payable under any of the Site Control Documents.

(k) Seller shall cause each Additional Site Control Document to include provisions providing (i) that each Buyer is a third party beneficiary of the representations, warranties, and covenants of the counterparties to the Additional Site Control Documents, and that Buyers have all of the rights and benefits of Seller under, and the ability to enforce, the Additional Site Control Documents, (ii) consent to Seller's grant of the Project Purchase Option, and assignment of the Additional Site Control Document to Buyers following the exercise of the Project Purchase Option (iii) a right for any Buyer to step in and cure any breach or default by Seller under the Additional Site Control Documents prior to termination thereof, and (iv) an obligation of the counterparties to the Additional Site Control Documents to deliver to Buyers' Agent upon Buyers' Agent's request therefor, an estoppel certificate certifying (A) whether the applicable Additional Site Control Document has been supplemented, amended, assigned, or subleased, and if so, the substance and manner thereof, (B) the validity and force and effect of the applicable Additional Site Control Document, (C) the existence of any default thereunder, (D) the commencement and expiration dates of the applicable Additional Site Control Document, (E) the rights of Buyers under the Additional Site Control Document and the rights of Buyers under the Project Purchase Option, and (F) any other matters as may be reasonably requested by Buyers' Agent. Upon any payment by one or more Buyers to cure any default of Seller under an Additional Site Control Document that prevents termination of such Additional Site Control Document or the exercise of any other remedy of the Lessor (or other counterparty) thereunder arising out of such default, Seller, within ten (10) days following receipt of notice from Buyers' Agent that one or more Buyers has made such payment, shall reimburse the amount of such payment to such Buyer or Buyers, as applicable, plus interest accruing thereon at the Interest Rate, from and including the date of the payment to cure such default to but excluding the date of such reimbursement by Seller.

(l) Upon any payment by a Buyer to cure any default of Seller under a Site Control Document that prevents termination of such Site Control Document or the exercise of any other remedy of the Lessor thereunder arising out of such default, Seller, within ten (10) days following receipt of notice from such Buyer that it made such payment, shall reimburse the amount of such payment to such Buyer plus interest accruing thereon at the Interest Rate, from

and including the date of the payment by such Buyer to cure such default to but excluding the date of such reimbursement by Seller.

(m) Seller shall provide to Buyers' Agent copies of any proposed amendments or modifications to Site Control Documents and obtain Buyers' Agent's approval (which approval shall not be unreasonably withheld, conditioned, or delayed) prior to execution and delivery of any such amendments or modifications by Seller.

(n) As long as this Agreement is in effect, there shall be no merger of any Site Control Document or of the leasehold estate or easement created thereby with the fee estate in the property subject to the Site Control Document and Seller shall not acquire any interest in such fee estate without the prior written consent of Buyers' Agent.

(o) In the event that a petition under the Bankruptcy Code shall be filed by or against Seller, Seller hereby presently, absolutely, irrevocably, and unconditionally grants and assigns to Buyers' Agent the sole and exclusive right to elect to assume and assign or to reject the Land Lease pursuant to Section 365 of the Bankruptcy Code, and Seller agrees that any such election, if made by Seller or Seller's trustee without the prior consent of Buyers' Agent shall be void at inception and of no force or effect. Buyers' Agent shall have the right, but not the obligation, to instruct Seller or Seller's trustee as to such assumption and assignment or rejection of the Land Lease, and Seller shall, or shall cause Seller's trustee to, comply with such instructions.

(p) In the event of the rejection by the Lessor (or by any receiver, trustee, custodian, or other party that succeeds to the rights of the Lessor) under the Land Lease pursuant to the Bankruptcy Code, Seller hereby presently, absolutely, irrevocably, and unconditionally grants and assigns to Buyers' Agent the right to make any election available to lessees under the Bankruptcy Code (including, without limitation, the election available pursuant to Section 365(h) of the Bankruptcy Code, 11 U.S.C. § 365(h), and any successor provision) if Seller has not made an election within thirty (30) days after the Lessor's rejection of the Land Lease. Without limiting the generality of the foregoing sentence, Seller shall not, without Buyers' Agent's prior consent, elect to treat the Land Lease or the leasehold estate created thereby as terminated under Section 365 of the Bankruptcy Code, after rejection of the Land Lease by the Lessor (whether as debtor in possession or otherwise) or by any trustee of the Lessor, and any such election made without such consent shall be void at inception and of no force or effect. At the request of Buyers' Agent, Seller will join in any election made by Buyers' Agent under the Bankruptcy Code and will take no action in contravention of the rights granted to Buyers' Agent pursuant to this Section 12.4(p).

(q) In the event there is a rejection by the Lessor under the Land Lease (whether as debtor in possession or otherwise) or by any trustee of such Lessor pursuant to the Bankruptcy Code, Seller shall remain in possession under any legal right Seller may have to occupy the property pursuant to the Land Lease, and perform all acts necessary for Seller to retain its right to remain in such possession, whether such acts are required under the then-existing terms and provisions of the Land Lease or otherwise.

Section 12.5 Covenants of Seller Related to Material Adverse Effects. In the event

of a material adverse effect on the business, assets, operations, condition (financial or otherwise) or prospects of Seller or an event of default by Seller or the operator under the O&M Agreement, Seller shall promptly thereafter notify Buyers' Agent, and Seller shall, within thirty (30) days after providing such notice, provide Buyers' Agent with a plan or report, including the report (at Seller's sole cost and expense) of a Licensed Professional Engineer with respect to any operational problem related to the Facility if reasonably requested by Buyers' Agent that demonstrates in detail reasonably acceptable to Buyers' Agent, that the material adverse effect or event of default by Seller or the operator under the O&M Agreement has been mitigated or cured, or will be mitigated or cured within a reasonable period or within the cure periods provided therefor (and listing, in detail, the actions that Seller has taken, is taking, or proposes to take with respect to such condition or event), or that such material adverse effect or event of default by Seller or the operator under the O&M Agreement will not have a material adverse effect on the performance of Seller under this Agreement. A failure to provide such plan or report within thirty (30) days, or to diligently undertake any of the actions set forth under such plan or report, will be deemed a failure by Seller to perform under Section 13.1(b).

Section 12.6 Covenants of Seller to Provide Quarterly Attestations. Seller shall provide to Buyers' Agent on January 1, April 1, July 1 and October 1 of each Contract Year a certificate executed by an authorized officer of Seller certifying that the representations and warranties set forth in Section 12.2 of this Agreement remain true and correct as of the date of such certificate, and that there exists no event of default by Seller or any event that, after notice or with the passage of time or both, would constitute a Default hereunder; *provided*, that (i) with respect to any attestation with respect to the representation and warranty set forth in Section 12.2(f), Seller may include a disclosure schedule with any such attestation in order to make such representation true and (ii) with respect to any attestation as to any representation and warranty set forth in Section 12.2(h), Seller may update such attestation and Schedule 12.2(h) in order to account for any mergers, transfers, consolidations, assignments, restructurings, or similar transactions to the extent that such transactions either (A) do not constitute a Change of Control or (B) have been consented to by Buyers.

Section 12.7 Covenants of Seller related to Intellectual Property. Seller shall timely obtain all patents, rights to patents, trademarks, copyrights and licenses necessary for the performance by Seller of its obligations under this Agreement.

Section 12.8 Covenants of Seller related to Security Documents.

(a) As a condition precedent to the achievement of the Site Control Milestone Date, Seller shall, and shall cause LandCo LLC to, execute and deliver to Buyers the Security Documents, which shall, as applicable: (i) grant Buyers the right of entry and possession and the power of sale with respect to all right, title and interest that Seller has or may later acquire with respect to (1) any and all personal property and real property interests that make up the Facility, the Facility Site and the Roadway and Transmission and Roadway Site, (2) water rights and mineral rights, if any, (3) buildings, structures, improvements, machinery, equipment, and fixtures, (4) development rights associated with the Facility, (5) awards and payments resulting from the exercise of eminent domain or any public or private taking, (6) approvals, consents, waiver, exemptions, variances, franchises, permits and other authorizations for the Facility, and (7) all other rights and interests of every nature in any of the property described in (1) through

(7) above, including personal property (collectively, the "***Property***"); (ii) assign to Buyers all of Seller's or LandCo LLC's right, title and interest in and to all rents, receipts, revenues, profits, royalties, income and benefits derived from the Property; (iii) authorize Buyers to file such financing statements and other documents as may be required to establish and perfect Buyers' lien and security interest in the Property; (iv) grant Buyers the right, among others, to appoint a receiver and to take possession of, construct, manage or operate the Property; (v) permit Buyers to cure any breach or default of Seller or LandCo, LLC; (vi) permit Buyers to foreclose the lien established by the security interest upon the Property, or any part thereof, by any proceedings appropriate under applicable law, including to bid at any foreclosure or other sale of the Property, or to cause the Property to be sold; and (vii) allow Buyers to dictate the application of the proceeds from any such sale of all or any portion of the Property, and the application any rents, royalties, or proceeds.

(b) Seller shall ensure that, except as permitted pursuant to the Facility Lender Consent, the ratio of Facility Debt to Facility Costs at all times following the Term Conversion Date shall not exceed the highest ratio of Facility Debt to Facility Costs in place as of or at any time prior to the Term Conversion Date.

ARTICLE XIII
DEFAULT; TERMINATION AND REMEDIES; PERFORMANCE DAMAGE

Section 13.1 Default. Each of the following events or circumstances shall constitute a "***Default***" by the responsible Party (the "***Defaulting Party***"):

(a) **Payment Default**. Failure by a Party to make any payment under this Agreement when and as due (other than payments disputed in good faith) that is not cured within thirty (30) days after receipt of notice thereof from the other Party (which amount shall include payment of interest from the due date at the Interest Rate);

(b) **Performance Default**. Failure by a Party to perform any of its material duties or obligations under this Agreement (other than any failure for which a sole remedy is provided in this Agreement and any failure which is separately listed as a Default of Seller under this Section 13.1) that is not cured within thirty (30) days after receipt of notice thereof from the other Party; *provided* that if such failure cannot be cured within such thirty (30) day period despite reasonable commercial efforts and such failure is not a failure to make a payment when due, such Party shall have up to sixty (60) additional days to cure.

(c) **Breach of Representation and Warranty.** Any representation, warranty, certification, or other statement made by a Party or Seller Party in this Agreement or any Ancillary Document, or in the case of Seller, made in a quarterly certification delivered pursuant to Section 12.6, is materially false or inaccurate at the time made; *provided* that no Default shall exist if such falsity or inaccuracy is remedied within thirty (30) days after receipt of notice thereof from another Party.

(d) **Bankruptcy**. Bankruptcy of any Buyer (which shall only be a Default with respect to such Bankrupt Buyer) or Seller.

(e) **Performance Security Failure**. The failure of Seller to maintain or replace the Performance Security in compliance with Section 5.7.

(f) **Insurance Default**. The failure of Seller to maintain and provide acceptable evidence of the required Insurance for the required period of coverage as set forth in Appendix F that is not cured within five (5) Business Days after receipt of notice of such failure from Buyers.

(g) **Fundamental Change**. Except as permitted by Section 14.7, (i) a Party makes an assignment of its rights or delegation of its obligations under this Agreement or the Option Agreement, or (ii) a Change in Control occurs (whether voluntary or by operation of law).

(h) **Site Control Document Default**. Either (i) Seller breaches any of its obligations under Section 12.4, which breach is not cured within ten (10) days after receipt of notice thereof from Buyers' Agent, other than a breach of Seller's obligations under Section 12.4(c), which shall immediately trigger a Default hereunder, or (ii) so long as LandCo LLC is an Affiliate of Seller, LandCo LLC breaches its obligations under the Land Option Agreement and such breach is not cured within the time periods set forth in the Land Option Agreement.

(i) **Purchase Option/Land Option Agreement Default.** The failure of Seller to execute and deliver both the Option Agreement and the Land Option Agreement by the Site Control Milestone Date (as may be extended pursuant to Section 3.6(b)).

(j) **Security Interest Default**. At any time after the effective date of the Security Documents, (i) Seller or, so long as LandCo LLC is an Affiliate of Seller, LandCo LLC, breaches any of its obligations under the Security Documents to which it is a party, (ii) any of the Security Documents fails to be in full force and effect, (iii) any Buyer ceases to have a valid and perfected Lien in the collateral purported to be covered by any of the Security Documents, or (iv) Seller, or so long as LandCo LLC is an Affiliate of Seller, LandCo LLC, or any other Person contests the validity or enforceability of any of the Security Documents or any provision thereof in writing or denies that it has any further liability thereunder.

Section 13.2 Default Remedy.

(a) If any Buyer is in Default for nonpayment, subject to any duty or obligation under this Agreement, Seller may continue to provide services to such Defaulting Buyer, and shall continue to provide services with respect to the non-Defaulting Buyers, pursuant to its obligations under this Agreement; *provided* that nothing in this Section 13.2(a) shall affect Seller's rights and remedies set forth in this Section 13.2. Seller's continued service to a Defaulting Buyer shall not act to relieve such Defaulting Buyer of any of its duties or obligations under this Agreement.

(b) Notwithstanding any other provision herein, if any Default has occurred and is continuing, the affected Party may, whether or not the dispute resolution procedure set forth in Section 14.3 has been invoked or completed, bring an action in any court of competent jurisdiction as set forth in Section 14.13 seeking injunctive relief in accordance with applicable rules of civil procedure.

(c) Except as expressly limited by this Agreement, if a Default has occurred and is continuing and a Buyer is the Defaulting Party, Seller may without further notice exercise any rights and remedies provided herein or otherwise available at law or in equity with respect to such Buyer, including a partial termination of this Agreement with respect to the Defaulting Buyer pursuant to Section 13.4; *provided* that the non-Defaulting Buyer (or Buyers, as applicable), shall have the opportunity, upon the termination of this Agreement with respect to such Defaulting Buyer or Buyers, to take over such Defaulting Buyer's or Buyers' portion of the Buyers' Percentage of Facility Output. No failure of Seller to exercise, and no delay in exercising, any right, remedy or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise by Seller of any other right, remedy or power hereunder preclude any other or future exercise of any right, remedy or power.

(d) Except as expressly limited by this Agreement, if a Default has occurred and is continuing and Seller is the Defaulting Party, each Buyer may without further notice exercise any rights and remedies provided for herein, or otherwise available at law or equity, including (i) application of all amounts available under the Performance Security against any amounts then payable by Seller to Buyers under this Agreement, (ii) exercise of the Project Purchase Option as provided in the Option Agreement, and (iii) withdrawal from or termination of this Agreement pursuant to Section 13.4. No failure of any Buyer to exercise, and no delay in exercising, any right, remedy or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise by any Buyer of any right, remedy or power hereunder preclude any other or future exercise of any right, remedy or power by such Buyer.

Section 13.3 Cure Rights of Facility Lender. In connection with any financing or refinancing of the Facility, Buyers' Agent shall in good faith negotiate and agree upon a consent to collateral assignment of this Agreement that is commercially reasonable and customary in the industry for limited or non-recourse project financing transactions and in form and substance reasonably satisfactory to Buyers' Agent, which consent shall include, among other things, provisions permitting reasonable extensions of the cure periods for Defaults hereunder to permit the Facility Lender to cure any Default prior to Buyers' termination of this Agreement, and each Buyer shall be obligated to enter into such consent (such consent, the "***Facility Lender Consent***"). The Facility Lender Consent shall provide the Facility Lender or its agent notice of the occurrence of any Default described in Section 13.1 and the opportunity to cure any such default. Seller shall pay Buyers up to an aggregate amount of Fifty Thousand Dollars ($50,000) for the reasonable costs and expenses incurred by Buyers arising (a) in connection with the negotiation of the Facility Lender Consent (including reasonable attorneys' fees and expenses) for a transaction or related series of transactions, or (b) to enable any transaction or series of related transactions pursuant to Section 14.7(d).

Section 13.4 Termination for Default.

(a) In the event of a Default by any Buyer, each Party that is not a Defaulting Party, as the context requires (each, a "***Non-Defaulting Party***") may, for so long as the Default is continuing and, to the extent permitted by applicable law, without limiting any other rights or remedies available to each Non-Defaulting Party under this Agreement, by notice from any Non-Defaulting Party to the Defaulting Party (a "***Termination Notice***") (i) establish a date, which shall be no earlier than the date of such notice and no later than twenty (20) days after the date of

such notice ("***Early Termination Date***") on which this Agreement shall terminate with respect to such Buyer, and (ii) Seller may withhold any payments due to such Defaulting Buyer in respect of this Agreement. Any non-Defaulting Buyer, or Buyers, shall have the right to agree in writing to assume the Defaulting Buyer's or Buyers' portion of the Buyers' Percentage of Facility Output and pay the Contract Price for such Buyer's or Buyers' portion of the Buyers' Percentage of Facility Output set forth on Appendix M, in which case this Agreement shall continue and such non-Defaulting Buyer(s) may assume the Buyers' Percentage of Facility Output from the Defaulting Buyer.

(b) In the event of a Default by Seller, each Buyer, as a Non-Defaulting Party may, for so long as the Default is continuing and, to the extent permitted by applicable law, without limiting any other rights or remedies available to each Non-Defaulting Party under this Agreement, (i) establish by delivery of a Termination Notice an Early Termination Date on which such Non-Defaulting Buyer may withdraw, without penalty to such Non-Defaulting Buyer, from this Agreement or, upon the mutual agreement of the Buyers, this Agreement shall terminate, and (ii) withhold any payments due Seller in respect of this Agreement; *provided*, that upon the occurrence of any Default of the type described in Section 13.1(h) (but only arising due to a breach under Section 12.4(f)), this Agreement shall automatically terminate, without notice or other action by any Party as if an Early Termination Date had been declared immediately prior to such event.

(c) If an Early Termination Date has been designated, each Non-Defaulting Party shall calculate in a commercially reasonable manner its Gains, Losses and Costs resulting from the termination of this Agreement and the resulting Termination Payment. The Gains, Losses and Costs relating to the Products that would have been required to be delivered under this Agreement had it not been terminated shall be determined by comparing the amounts each Buyer would have paid for the Products under this Agreement to the equivalent quantities and relevant market prices, either quoted by one or more bona fide third party offers, or which are reasonably expected by each Buyer to be available in the market under a replacement contract for this Agreement covering the same products and having a term equal to the Remaining Term at the date of the Termination Notice, adjusted to account for differences in transmission, if any. To ascertain the market prices of a replacement contract, each Non-Defaulting Party may consider, among other valuations, quotations from dealers in Energy contracts and bona fide third party offers. Each Non-Defaulting Party shall not be required to enter into any such replacement agreement in order to determine its Gains, Losses and Costs or the Termination Payment.

(d) For purposes of each Non-Defaulting Party's determination of its Gains, Losses and Costs and the Termination Payment, it shall be presumed, regardless of the facts, that Seller would have sold, and each Buyer would have purchased, each day during the Remaining Term (i) Facility Energy in an amount equal to the Assumed Daily Deliveries, (ii) the Environmental Attributes associated therewith, and (iii) all other components of the Products. The "***Assumed Daily Deliveries***" shall be an amount equal to the greater of (A) the quotient of the Guaranteed Generation divided by 365, and (B) the average daily amount of Facility Energy during the Delivery Term, if any.

(e) Each Non-Defaulting Party shall notify the Defaulting Party of the Termination Payment, which notice shall include a written statement explaining in reasonable detail the calculation of such amount. The Defaulting Party shall, within ten (10) Business Days after receipt of such notice, pay the Termination Payment to each Non-Defaulting Party, together with interest accrued at the Interest Rate from the Early Termination Date until paid.

(f) If the Defaulting Party disagrees with the calculation of the Termination Payment and the Parties cannot otherwise resolve their differences, the calculation of the Termination Payment shall be submitted to the dispute resolution process provided in Section 14.3. Following resolution of the dispute, the Defaulting Party shall pay the full amount of the Termination Payment (if any) as determined by such resolution as and when required, but no later than thirty (30) days following the date of such resolution, together with all interest, at the Interest Rate, that accrued from the Early Termination Date until the date the Termination Payment is paid.

(g) For purposes of this Agreement:

(i) "***Gains***" means, with respect to a Party, an amount equal to the present value of the economic benefit (exclusive of Costs), if any, resulting from the termination of its obligations under this Agreement, determined in a commercially reasonable manner;

(ii) "***Losses***" means, with respect to a Party, an amount equal to the present value of the economic loss (exclusive of Costs), if any, resulting from the termination of its obligations under this Agreement, determined in a commercially reasonable manner;

(iii) "***Costs***" means, with respect to a Party, brokerage fees, commissions and other similar transaction costs and expenses reasonably incurred or in entering into new arrangements which replace this Agreement, excluding attorneys' fees, if any, incurred in connection with enforcing its rights under this Agreement. Each Party shall use reasonable efforts to mitigate or eliminate its Costs.

(iv) In no event shall a Party's Gains, Losses or Costs include any penalties or similar charges imposed by any Non-Defaulting Party.

(v) The Present Value Rate shall be used as the discount rate in all present value calculations required to determine Gains, Losses and Costs.

(h) At the time for payment of any amount due under this Section 13.4, each Party shall pay to any other Party, as applicable, all additional amounts, if any, payable by it under this Agreement (including any amounts withheld pursuant to Section 13.4(a)(ii) above).

ARTICLE XIV
MISCELLANEOUS

Section 14.1 Authorized Representative. Each Party shall designate an authorized representative who shall be authorized to act on its behalf with respect to those matters contained

herein (each an "***Authorized Representative***"), which shall be the functions and responsibilities of such Authorized Representatives. Each Party may also designate an alternate who may act for the Authorized Representative. Within thirty (30) days after execution of this Agreement, each Party shall notify the other Party of the identity of its Authorized Representative, and alternates if designated, and such Party shall promptly notify the other Party of any subsequent changes in such designation. The Authorized Representatives shall have no authority to alter, modify, or delete any of the provisions of this Agreement.

Section 14.2 Notices. With the exception of billing invoices pursuant to Section 11.2(a) hereof, all notices, requests, demands, consents, approvals, waivers and other communications which are required under this Agreement shall be (a) in writing (regardless of whether the applicable provision expressly requires a writing), (b) deemed properly sent if delivered in person or sent by facsimile transmission, reliable overnight courier, or sent by registered or certified mail, postage prepaid to the persons specified in Appendix J, and (c) deemed delivered, given and received on the date of delivery, in the case of facsimile transmission, or on the date of receipt or rejection in the case of registered or certified mail. In addition to the foregoing, the Parties may agree in writing at any time to deliver notices, requests, demands, consents, waivers and other communications through alternate methods, such as electronic mail.

Section 14.3 Dispute Resolution.

(a) In the event of any claim, controversy or dispute between the Parties arising out of or relating to or in connection with this Agreement (including any dispute concerning the validity of this Agreement or the scope and interpretation of this Section 14.3) (a "***Dispute***"), any Party (the "***Notifying Party***") may deliver to the other Parties (the "***Recipient Party***") notice of the Dispute with a detailed description of the underlying circumstances of such Dispute (a "***Dispute Notice***"). The Dispute Notice shall include a schedule of the availability of the Notifying Party's senior officers (having a title of senior vice president (or its equivalent) or higher) duly authorized to settle the Dispute during the thirty (30) day period following the delivery of the Dispute Notice.

(b) The Recipient Party shall, within five (5) Business Days following receipt of the Dispute Notice, provide to the Notifying Party a parallel schedule of availability of the Recipient Party's senior officers (having a title of senior vice president (or its equivalent) or higher) duly authorized to settle the Dispute. Following delivery of the respective senior officers' schedules of availability, the senior officers of the Parties shall meet and confer as often as they deem reasonably necessary during the remainder of the thirty (30) day period in good faith negotiations to resolve the Dispute to the satisfaction of each Party.

(c) In the event a Dispute is not resolved pursuant to the procedures set forth in Sections 14.3(a) and (b) by the expiration of the thirty (30) day period set forth in Section 14.3(a), then a Party may pursue any legal remedy available to it in accordance with the provisions of Section 14.12 and Section 14.3 of this Agreement.

(d) In addition to the Dispute Resolution process set forth in this Section 14.3, the Parties shall comply with California law governing claims against public entities and presentment of such claims.

Section 14.4 Further Assurances; Change in Electric Market Design.

(a) Each Party agrees to execute and deliver all further instruments and documents, and take all further action not inconsistent with the provisions of this Agreement that may be reasonably necessary to effectuate the purposes and intent of this Agreement.

(b) If a change in the CAISO Tariff renders this Agreement or any provisions hereof incapable of being performed or administered, then any Party may request that Buyers' Agent and Seller enter into negotiations to make the minimum changes to this Agreement necessary to make this Agreement capable of being performed and administered, while attempting to preserve to the maximum extent possible the benefits, burdens, and obligations set forth in this Agreement as of the Effective Date. Upon delivery of such a request, Buyers' Agent and Seller shall engage in such negotiations in good faith. If Buyers' Agent and Seller are unable, within sixty (60) days after delivery of such request, to agree upon changes to this Agreement or to resolve issues relating to changes to this Agreement, then any Party may submit issues pertaining to changes to this Agreement to the dispute resolution process set forth in Section 14.3. Notwithstanding the foregoing, a change in cost shall not in and of itself be deemed to render this Agreement or any of the provisions hereof incapable of being performed or administered, or constitute, or form the basis of, a Force Majeure.

Section 14.5 No Dedication of Facilities. Any undertaking by one Party to the other Parties under any provisions of this Agreement shall not constitute the dedication of the Facility or any portion thereof of any Party to the public or to the other Party or any other Person, and it is understood and agreed that any such undertaking by any Party shall cease upon the termination of such Party's obligations under this Agreement.

Section 14.6 Force Majeure.

(a) A Party shall not be considered to be in Default in the performance of any of its obligations under this Agreement when and to the extent such Party's performance is prevented by a Force Majeure that, despite the exercise of due diligence, such Party is unable to prevent or mitigate, *provided* the Party has given a written detailed description of the full particulars of the Force Majeure to the other Party promptly after becoming aware thereof (and in any event within fourteen (14) days after becoming aware of the claimed Force Majeure event) (the "***Force Majeure Notice***"), which notice shall include information with respect to the nature, cause and date and time of commencement of such event, and the anticipated scope and duration of the delay. The Party providing such Force Majeure Notice shall be excused from fulfilling its obligations under this Agreement until such time as the Force Majeure has ceased to prevent performance or other remedial action is taken, at which time such Party shall promptly notify the other Party of the resumption of its obligations under this Agreement. If Seller is unable to deliver, or any Buyer is unable to receive, Facility Energy due to a Force Majeure, then such Buyer shall have no obligation to pay Seller for Facility Energy not delivered or received by reason thereof. The foregoing provisions shall not excuse any obligation of Seller with respect to

Shortfall Energy (and Replacement Product, as applicable) arising prior to the occurrence of any Force Majeure event. In no event shall any Party be obligated to compensate the other Parties or any other Person for any losses, expenses or liabilities sustained as a consequence of any Force Majeure.

(b) The term "***Force Majeure***" means any act of God (including fire, flood, earthquake, storm, lightning strike, tornado, volcanic eruption, hurricane or other natural disaster), labor disturbance, strike or lockout, act of the public enemy, war (declared or undeclared), insurrection, riot, explosion, terrorist activities or any order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities that (i) prevents one Party from performing any of its obligations under this Agreement, (ii) could not reasonably be anticipated as of the date of this Agreement, (iii) is not within the reasonable control of, or the result of negligence, willful misconduct, breach of contract, intentional act or omission or wrongdoing on the part of the affected Party (or any subcontractor or Affiliate of that Party, or any Person under the control of that Party or any of its subcontractors or Affiliates, or any Person for whose acts such subcontractor or Affiliate is responsible), and (iv) by the exercise of due diligence the affected Party is unable to overcome or avoid or cause to be avoided; *provided*, nothing in clause (iv) above shall be construed so as to require a Party to accede or agree to any provision not satisfactory to it in order to settle and terminate a strike or labor dispute in which it may be involved. Any Party rendered unable to fulfill any of its obligations by reason of a Force Majeure shall exercise due diligence to remove such inability with reasonable dispatch within a reasonable time period and mitigate the effects of the Force Majeure. The relief from performance shall be of no greater scope and of no longer duration than is required by the Force Majeure. Without limiting the generality of the foregoing, a Force Majeure does not include any of the following (each an "***Unexcused Cause***"): (1) any requirement to meet an RPS Law or any change (whether voluntary or mandatory) in any RPS Law, or other Change in Law, that may affect the value of the Products; (2) events arising from the failure by Seller to construct, operate or maintain the Facility in accordance with this Agreement; (3) any increase of any kind in any cost; (4) delays in or inability of a Party to obtain financing or other economic hardship of any kind; (5) Seller's ability to sell any Facility Energy at a price in excess of those provided in this Agreement; (6) curtailment or other interruption of any Transmission Service; (7) failure of third parties to provide goods or services essential to a Party's performance; (8) Facility or equipment failure of any kind; (9) any changes in the financial condition of any Buyer, Seller, the Facility Lender or any subcontractor or supplier affecting the affected Party's ability to perform its obligations under this Agreement; or (10) the failure of the Tehachapi Renewable Transmission Project to be completed, unless such failure is itself caused by an act of God or a natural disaster.

(c) Any Buyer may withdraw from this Agreement if (i) a Force Majeure event occurs that diminishes the production of the Facility by more than fifty percent (50%) of the Applicable Contract Capacity for a period of eighteen (18) consecutive months, or (ii) the Facility is damaged and thereby rendered inoperable and an independent engineer that is mutually acceptable to the Parties determines that the Facility cannot be repaired or replaced within a period not to exceed twenty four (24) months following the date of the occurrence of the Force Majeure event.

(d) Any withdrawal from or termination of this Agreement under Section 14.6(c) shall be "no-fault" and no Party shall have any liability or obligation to any other Parties

arising out of such withdrawal or termination. Notwithstanding the foregoing, upon any such withdrawal or termination, as applicable, Seller shall pay each withdrawing or terminating Buyer for any and all amounts hereunder that may be owing, including for any existing Shortfall Energy or other outstanding payments due in the ordinary course that occurred prior to the termination. Each withdrawing or terminating Buyer shall return to Seller its portion of the Performance Security (less any amounts drawn by such Buyer in accordance with this Agreement). The exercise by a Buyer of its right to withdraw from or terminate the Agreement shall not render such withdrawing or terminating Buyer liable for any losses or damages incurred by Seller whatsoever.

Section 14.7 Assignment of Agreement.

(a) Except as set forth in this Section 14.7, no Party may assign any of its rights, or delegate any of its obligations, under this Agreement or the Option Agreement without the prior written consent of the other Parties, such consent not to be unreasonably withheld. Any Change in Control (whether voluntary or by operation of law) shall be deemed an assignment and shall require the prior written consent of Buyers' Agent, which consent shall not be unreasonably withheld. Concurrently with any reorganization, financing transaction, or other transactions constituting any Change in Control (whether voluntary or by operation of law) in which Seller merges, consolidates or takes any other action with any Person and ceases to exist, the successor entity to Seller shall execute a written assumption agreement in favor of Buyers pursuant to which any such successor entity shall assume all of the obligations of Seller under this Agreement and the Option Agreement and agree to be bound by all the terms and conditions of this Agreement and the Option Agreement, as applicable. In connection with any Change in Control in which Seller remains party to this Agreement and the Option Agreement, at Buyers' request, Seller shall deliver an estoppel certificate to Buyers' Agent confirming that this Agreement and the Option Agreement remain in full force and effect. Seller shall (i) use commercially reasonable efforts to provide Buyers' Agent with not less than ninety (90) days' prior written notice, but shall in no event provide less than forty five (45) days' prior written notice (other than a Change in Control that is involuntary or by operation of law, for which Seller shall provide as much advance notice as possible, but for which no advance notice is required hereunder), of (x) any proposed transaction which would constitute a Change in Control, and (y) Bankruptcy of any Seller Party, and (ii) provide written notice to Buyers' Agent of any other transaction or series of transactions with respect to the sale, transfer or disposition of RE Holdings or any parent entity holding directly or indirectly at least fifty percent (50%) of the equity ownership or the power to control the management and policies of any RE Holdings Entity.

(b) Any Buyer may assign this Agreement, the Option Agreement, and the Land Option Agreement, without the consent of Seller or the other Buyers to a Qualified Buyer Assignee. Notwithstanding the foregoing, in connection with any such assignment, such Qualified Buyer Assignee shall execute a written assumption agreement in favor of Seller pursuant to which any such Qualified Buyer Assignee shall assume all the obligations of such Buyer under this Agreement, the Option Agreement, and the Land Option Agreement, and agree to be bound by all the terms and conditions of this Agreement, the Option Agreement, and the Land Option Agreement, thereby relieving the assignor Buyer from its duties and obligations hereunder and thereunder. Any modifications or amendments to this Agreement, the Option

Agreement, or the Land Option Agreement to accommodate the technical requirements of such Qualified Buyer Assignee (including as they relate to transmission and scheduling) shall require the consent of Seller, which consent shall not be unreasonably withheld.

(c) Seller shall not sell or transfer the Facility to any Person other than a Person to whom Seller assigns this Agreement and the Option Agreement in accordance with this Section 14.7, without the prior written consent of Buyers and otherwise subject to compliance with the Right of First Offer set forth in Section 14.25. Any purported sale or transfer in violation of this Section 14.7(c) shall be null and void and of no force or effect.

(d) Buyers' consent shall not be required in connection with the collateral assignment or pledge of (i) this Agreement or the Option Agreement to any Facility Lender or (ii) all or a portion of the membership interests in Seller or any Affiliate of Seller to any Facility Lender, in each case for the purpose of financing the Facility; *provided, however,* that (1) the terms of such financing and the documentation relating thereto shall comply with the applicable terms and conditions of this Agreement and the Option Agreement, as applicable, and (2) in connection with any such assignment or pledge and the exercise of remedies by any Facility Lender, the Facility Lender acknowledges and agrees to be bound by the requirement the Facility be operated and maintained by a Qualified Operator. Seller shall provide each Buyer with ninety (90) days' prior notice of any such collateral assignment or pledge. Notwithstanding the foregoing or anything else expressed or implied herein to the contrary, Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of all or any portion of the Products (not including the proceeds thereof) to any Facility Lender. To facilitate Seller's obtaining of financing for the Facility, each Buyer agrees to provide the Facility Lender Consent. Seller shall reimburse, or shall cause the Facility Lender to reimburse, each Buyer for the incremental direct expenses incurred by each such Buyer in the preparation, negotiation, execution or delivery of the Facility Lender Consent and any documents requested by Seller or the Facility Lender, and provided by a Buyer, pursuant to this Section 14.7(d).

(e) In no event shall any Buyer be liable to any Facility Lender for any claims, losses, expenses or damages whatsoever other than liability a Buyer may have to Seller under this Agreement or the Option Agreement, as applicable. In the event of any foreclosure, whether judicial or nonjudicial, or any deed in lieu of foreclosure, in connection with any deed of trust, mortgage, or other similar Lien, Facility Lender shall be bound by the covenants and agreements of Seller in this Agreement and the Option Agreement; *provided, however,* that until the Person who acquires title to the Facility executes and delivers to each Buyer a written assumption of Seller's obligations under this Agreement in form and substance acceptable to Buyers, such Person shall not be entitled to any of the benefits of this Agreement; *provided further,* that each Buyer's rights under the Option Agreement upon a Default of Seller under this Agreement shall be subject to the senior rights of the Facility Lender to exercise its remedies under any financing security documents, including any sale or transfer of the Facility by Facility Lender to a third party purchaser, so long as such third party purchaser shall in writing acknowledge and agree to assume all of the rights and obligations of Seller, including with respect to the Option Agreement and Buyers' rights arising under Section 14.25. Any sale or transfer of all or any portion of the Facility by any Facility Lender shall be made only to an entity that is a Qualified Transferee.

(f) Seller shall pay Buyers an aggregate amount up to Fifty Thousand Dollars ($50,000) for the reasonable costs and expenses incurred by Buyers (i) in connection with any review or preparation by Seller of any documentation in respect of any consents required in connection with entering into any set of Shared Facilities Agreements, (ii) any dispositions, assignments or Changes in Control (including reasonable attorneys' fees and expenses) hereunder pursuant to a transaction or related series of transactions, and (iii) pursuant to Section 13.3.

Section 14.8 Ambiguity. The Parties acknowledge that this Agreement was jointly prepared by them, by and through their respective legal counsel, and any uncertainty or ambiguity existing herein shall not be interpreted against a Party on the basis that the Party drafted the language, but otherwise shall be interpreted according to the application of the rules on interpretation of contracts.

Section 14.9 Attorney Fees & Costs. Both Parties agree that in any action to enforce the terms of this Agreement that each Party shall be responsible for its own attorney fees and costs. Each of the Parties to this Agreement was represented by its respective legal counsel during the negotiation and execution of this Agreement.

Section 14.10 Voluntary Execution. The Parties acknowledge that they have read and fully understand the content and effect of this Agreement and that the provisions of this Agreement have been reviewed and approved by their respective counsel. The Parties further acknowledge that they have executed this Agreement voluntarily, subject only to the advice of their own counsel, and do not rely on any promise, inducement, representation or warranty that is not expressly stated herein.

Section 14.11 Entire Agreement; Amendments. This Agreement (including all Appendices) contains the entire understanding concerning the subject matter herein and supersedes and replaces any prior negotiations, discussions or agreements between the Parties, or any of them, concerning that subject matter, whether written or oral, except as expressly provided for herein. This is a fully integrated document. Each Party acknowledges that no other party, representative or agent, has made any promise, representation or warranty, express or implied, that is not expressly contained in this Agreement that induced the other Party to sign this document. This Agreement may be amended or modified only by an instrument in writing signed by each Party.

Section 14.12 Governing Law. This Agreement was made and entered into in the County of Los Angeles, California and shall be governed by, interpreted and enforced in accordance with the laws of the State of California, without regard to conflict of law principles.

Section 14.13 Venue. All litigation arising out of, or relating to this Agreement, shall be brought in a state or federal court in the County of Los Angeles in the State of California. The Parties irrevocably agree to submit to the exclusive jurisdiction of such courts in the State of California and waive any defense of forum non conveniens.

Section 14.14 Execution in Counterparts. This Agreement may be executed in counterparts and upon execution by each signatory, each executed counterpart shall have the

same force and effect as an original instrument and as if all signatories had signed the same instrument. Any signature page of this Agreement may be detached from any counterpart of this Agreement without impairing the legal effect of any signature thereon, and may be attached to another counterpart of this Agreement identical in form hereto by having attached to it one or more signature pages.

Section 14.15 Effect of Section Headings. Section headings appearing in this Agreement are inserted for convenience only and shall not be construed as interpretations of text.

Section 14.16 Waiver; Available Remedies. The failure of any Party to this Agreement to enforce or insist upon compliance with or strict performance of any of the terms or conditions hereof, or to take advantage of any of its rights hereunder, shall not constitute a waiver or relinquishment of any such terms, conditions or rights, but the same shall be and remain at all times in full force and effect. Except to the extent this Agreement provides an exclusive remedy for a breach, nothing contained herein shall preclude any Party from seeking and obtaining any available remedies hereunder, including recovery of damages caused by the breach of this Agreement and specific performance or injunctive relief, or any other remedy given under this Agreement or now or hereafter existing in law or equity or otherwise as a court of competent jurisdiction may deem just and proper to enforce this Agreement or to prevent any violation hereof. The rights granted herein are cumulative.

Section 14.17 Relationship of the Parties. This Agreement shall not be interpreted to create an association, joint venture or partnership among the Parties hereto or to impose any partnership obligation or liability upon such Party. No Party shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as an agent or representative of, the other Parties.

Section 14.18 Third Party Beneficiaries. Except as otherwise expressly provided in this Agreement, this Agreement shall not be construed to create rights in, or to grant remedies to, any third party as a beneficiary of this Agreement or any duty, obligation or undertaking established herein.

Section 14.19 Indemnification; Damage or Destruction; Insurance; Condemnation; Limit of Liability.

(a) Seller undertakes and agrees to indemnify and hold harmless each Buyer, SCPPA's Participating Members, and each Buyer's respective commissioners, officers, agents, employees, advisors, and Authorized Representatives (collectively, "***Indemnitees***") and, at the option of Buyers' Agent, to defend such Indemnitees from and against any and all suits and causes of action, claims, charges, damages, demands, judgments, civil fines and penalties, or losses of any kind or nature whatsoever, for death, bodily injury or personal injury to any person, including Seller's employees and agents, or third persons, or damage or destruction to any property of a Party or third persons, in any manner arising by reason of any breach of this Agreement by Seller, any failure of any representation, warranty or guarantee to be true in all material respects, the negligent acts, errors, omissions or willful misconduct incident to the performance of this Agreement on the part of Seller, or any of Seller's officers, agents,

employees, or subcontractors of any tier, except to the extent caused by the gross negligence or willful misconduct of any such Indemnitee.

(b) Subject to Section 14.6, in the event of any damage or destruction of the Facility or any part thereof, the Facility or such part thereof shall be diligently repaired, replaced or reconstructed by Seller so that the Facility or such part thereof shall be restored to substantially the same general condition and use as existed prior to such damage or destruction, unless a different condition or use is approved by Buyers' Agent. Proceeds of Insurance with respect to such damage or destruction maintained as provided in this Agreement shall be applied to the payment for such repair, replacement or reconstruction of the damage or destruction.

(c) Throughout the Agreement Term, Seller shall immediately notify Buyers' Agent of the institution of any administrative proceeding in connection with the condemnation or other taking of the Facility, or any portion thereof, as well as the occurrence of any hearing associated therewith. Buyers' Agent may participate in any such proceeding and Seller shall deliver to Buyers' Agent all instruments necessary or required by Buyers' Agent to permit such participation. Without Buyers' Agent' prior written consent, Seller (i) shall not agree to any compensation or award, and (ii) shall not take any action or fail to take any action which would cause the compensation to be determined. All awards and compensation for the taking or purchase in lieu of condemnation of the Facility, or any portion thereof shall be applied toward the repair, restoration, reconstruction or replacement of the Facility.

(d) EXCEPT TO THE EXTENT INCLUDED IN THE LIQUIDATED DAMAGES, INDEMNIFICATION OBLIGATIONS RELATED TO THIRD PARTY CLAIMS, OR OTHER SPECIFIC CHARGES EXPRESSLY PROVIDED FOR HEREIN, IN NO EVENT SHALL ANY PARTY OF, IN THE CASE OF ANY BUYER, ITS INDEMNITEES, BE LIABLE FOR SPECIAL, INCIDENTAL, EXEMPLARY, INDIRECT, PUNITIVE OR CONSEQUENTIAL DAMAGES, LOST PROFITS OR OTHER COSTS, BUSINESS INTERRUPTION DAMAGES RELATED TO OR ARISING OUT OF A PARTY'S PERFORMANCE OR NON-PERFORMANCE OF THIS AGREEMENT, WHETHER BASED ON OR CLAIMED UNDER STATUTE, CONTRACT, TORT (INCLUDING SUCH PARTY'S OWN NEGLIGENCE) OR ANY OTHER THEORY OF LIABILITY AT LAW OR IN EQUITY. IF NO REMEDY OR MEASURE OF DAMAGES IS EXPRESSLY PROVIDED HEREIN, THE OBLIGOR'S LIABILITY SHALL BE LIMITED TO DIRECT DAMAGES ONLY.

(e) To the extent any damages required to be paid hereunder are liquidated, the Parties acknowledge that the damages are difficult or impossible to determine, and that the liquidated damages constitute a reasonable approximation of the anticipated harm or loss. It is the intent of the Parties that the limitations herein imposed on remedies and the measure of damages be without regard to the cause or causes of such damages, including the negligence of any Party, whether such negligence be sole, joint, contributory, concurrent, or active or passive. The Parties hereby waive any right to contest such payments as an unreasonable penalty.

Section 14.20 Severability. In the event any of the terms, covenants or conditions of this Agreement, or the application of any such terms, covenants or conditions, shall be held invalid, illegal or unenforceable by any court having jurisdiction, all other terms, covenants and

conditions of this Agreement and their application not adversely affected thereby shall remain in force and effect, *provided* that the remaining valid and enforceable provisions materially retain the essence of the Parties' original bargain.

Section 14.21 Confidentiality.

(a) Each Party agrees, and shall use reasonable efforts to cause its parent, subsidiary and Affiliates, and its and their respective directors, officers, employees and representatives, as a condition to receiving confidential information hereunder, to keep confidential, except as required by law, all documents, data (including operating data provided in connection with the scheduling of energy pursuant to Article VII or otherwise pursuant to this Agreement), drawings, studies, projections, plans and other written information that relate to economic benefits to, or amounts payable by, any Party under this Agreement, and with respect to documents that are clearly marked "Confidential" at the time a Party shares such information with the other Party ("***Confidential Information***"). The provisions of this Section 14.21 shall survive and shall continue to be binding upon the Parties for a period of one (1) year following the date of termination or expiration of this Agreement. Notwithstanding the foregoing, information shall not be considered Confidential Information if such information (i) is disclosed with the prior written consent of the originating Party, (ii) was in the public domain prior to disclosure or is or becomes publicly known or available other than through the action of the receiving Party in violation of this Agreement, (iii) was lawfully in a Party's possession or acquired by a Party outside of this Agreement, which acquisition was not known by the receiving Party to be in breach of any confidentiality obligation, or (iv) is developed independently by a Party based solely on information that is not considered confidential under this Agreement.

(b) Either Party may, without violating this Section 14.21, disclose matters that are made confidential by this Agreement:

(i) to its counsel, accountants, auditors, advisors, other professional consultants, credit rating agencies, actual or prospective, co-owners, investors, purchasers, lenders, underwriters, contractors, suppliers, and others involved in construction, operation, and financing transactions and arrangements for a Party or its subsidiaries or Affiliates;

(ii) to governmental officials and parties involved in any proceeding in which a Party is seeking a Permit, certificate, or other regulatory approval or order necessary or appropriate to carry out this Agreement; and

(iii) to governmental officials or the public as required by any law, regulation, order, rule, order, ruling or other Requirement of Law, including oral questions, discovery requests, subpoenas, civil investigations or similar processes and laws or regulations requiring disclosure of financial information, information material to financial matters, and filing of financial reports; and

(iv) with respect to SCPPA and PWRPA, to any of their respective members from time to time.

(c) If a Party is requested or required, pursuant to any applicable law, regulation, order, rule, ruling or other Requirement of Law, discovery request, subpoena, civil investigation or similar process to disclose any of the Confidential Information, such Party shall provide prompt written notice to the other Party of such request or requirement so that at such other Party's expense, such other Party can seek a protective order or other appropriate remedy concerning such disclosure.

(d) Notwithstanding the foregoing or any other provision of this Agreement, Seller acknowledges that each Buyer is subject to disclosure as required by the California Public Records Act, Cal. Govt. Code §§ 6250 et seq. ("***CPRA***") and the Ralph M. Brown Act, Cal. Govt. Code §§ 54950 et seq. ("***Brown Act***"). Confidential Information of Seller provided to any Buyer pursuant to this Agreement shall become the property of such Buyer, and Seller acknowledges that such Buyer shall not be in breach of this Agreement or have any liability whatsoever under this Agreement or otherwise for any claims or causes of action whatsoever resulting from or arising out of such Buyer copying or releasing to a third party any of the Confidential Information of Seller pursuant to CPRA or Brown Act; *provided* that each Buyer shall (i) provide notice to Seller prior to any such disclosure in accordance with Section 14.21(c), (ii) endeavor, in good faith, not to disclose any of Seller's "trade secrets" or "engineering plans" and (iii) support, to the extent in compliance with such Buyer's rights and obligations under applicable laws, Seller in its efforts to obtain a protective order or other appropriate remedy with respect to the disclosure of operating data from the Facility or any engineering drawings, project plans, technical specifications or other similar information regarding the Facility.

(e) Notwithstanding the foregoing or any other provision of this Agreement, any Buyer may record, register, deliver and file all such notices, statements, instruments and other documents as may be necessary or advisable to render fully valid, perfected and enforceable under all applicable law the credit support contemplated by this Agreement and the Ancillary Documents, and the rights, Liens and priorities of Buyers with respect to such credit support.

(f) If any Buyer receives a CPRA request for Confidential Information of Seller, and such Buyer determines that such Confidential Information is subject to disclosure under CPRA, then such Buyer shall notify the other Buyers and Seller of the request and its intent to disclose the documents. Such Buyer, as required by CPRA, shall release such documents unless Seller timely obtains a court order prohibiting such release. If Seller, at its sole expense, chooses to seek a court order prohibiting the release of Confidential Information pursuant to a CPRA request, then Seller undertakes and agrees to defend, indemnify and hold harmless such Buyer and the Indemnitees from and against all suits, claims, and causes of action brought against such Buyer or any Indemnitees for such Buyer's refusal to disclose Confidential Information of Seller to any person making a request pursuant to CPRA. Seller's indemnity obligations shall include, but are not limited to, all actual costs incurred by such Buyer and any Indemnitees, and specifically including costs of experts and consultants, as well as all damages or liability of any nature whatsoever arising out of any suits, claims, and causes of action brought against such Buyer or any Indemnitees, through and including any appellate proceedings. Seller's obligations to Buyers and all Indemnitees under this indemnification provision shall be due and payable on a Monthly, on-going basis within thirty (30) days after each submission to

Seller of Buyers' invoices for all fees and costs incurred by any Buyer and all Indemnitees, as well as all damages or liability of any nature.

(g) Each Party acknowledges that any disclosure or misappropriation of Confidential Information by such Party in violation of this Agreement could cause the other Party or their Affiliates irreparable harm, the amount of which may be extremely difficult to estimate, thus making any remedy at law or in damages inadequate. Therefore each Party agrees that the non-breaching Party shall have the right to apply to any court of competent jurisdiction for a restraining order or an injunction restraining or enjoining any breach or threatened breach of this Agreement and for any other equitable relief that such non-breaching Party deems appropriate. This right shall be in addition to any other remedy available to the Parties in law or equity, subject to the limitations set forth in Section 14.19(d).

Section 14.22 Mobile-Sierra. Notwithstanding any provision of this Agreement, no Party shall seek, nor shall they support any third party in seeking, to prospectively or retroactively revise the rates, terms or conditions of service of this Agreement through application or complaint to FERC pursuant to the provisions of Section 205, 206 or 306 of the Federal Power Act, or any other provisions of the Federal Power Act, absent prior written agreement of the Parties. Further, absent the prior agreement in writing by the Parties, the standard of review for changes to the rates, terms or conditions of this Agreement proposed by a Party, a non-party or the FERC acting *sua sponte* shall be the "public interest" application of the "just and reasonable" standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956), and clarified by Morgan Stanley Capital Group, Inc. v. Public Util. Dist. No. 1 of Snohomish, 554 U.S. 527 (2008).

Section 14.23 Taxpayer Identification Number (TIN). Seller declares that its authorized TIN is 27-0176702. No payment will be made under this Agreement without a valid TIN.

Section 14.24 Service Contract. The Parties intend that this Agreement will qualify as a "service contract" as such term is used in Section 7701(e) of the United States Internal Revenue Code of 1986.

Section 14.25 Right of First Offer.

(a) Buyers shall have a "***Right of First Offer***" (or "***ROFO***") to purchase all or any portion of the Facility and related assets (as further defined in the Option Agreement, the "***Facility Assets***") following any offer by Seller to sell such Facility Assets (a "***Facility Assets Sale***") in accordance with the provisions of this Section 14.25.

(b) Prior to Seller commencing the negotiation of a Facility Assets Sale, Seller shall provide notice to Buyers' Agent of Seller's intention to sell the Facility Assets (a "***Proposed Sale Notice***"). Upon receipt of such Proposed Sale Notice, Buyers' Agent shall have forty-five (45) days in which to provide notice to Seller indicating whether one or more Buyers is interested in negotiating with Seller to purchase the Facility Assets (a "***Proposed Purchase Notice***").

(c) If Buyers' Agent does not provide a Proposed Purchase Notice to Seller indicating Buyers interest in negotiating the purchase of the Facility Assets from Seller, then Seller shall, subject to the requirements of Section 14.7(c), be free to consummate a Facility Assets Sale to any party; *provided,* that (A) any such Facility Assets Sale shall include the assignment and transfer of this Agreement and the Option Agreement to such transferee and the assumption by such transferee of all of Seller's obligation under this Agreement and the Option Agreement, (B) require a written assumption agreement in favor of Buyers pursuant to which such buyer of the Facility Assets shall agree to assume all of the obligations of Seller under this Agreement and the Option Agreement and agree to be bound by all the terms and conditions of this Agreement and the Option Agreement, and (C) if the Facility Assets Sale is not consummated within eighteen (18) months following the date of the Proposed Sale Notice, then Seller must provide another Proposed Sale Notice hereunder (and repeat the offer process set forth in this Section 14.25) before consummating any such Facility Assets Sale.

(d) If Buyers' Agent provides a Proposed Purchase Notice, then the Parties shall undertake, for a period up to sixty (60) days from the date of the Proposed Purchase Notice, to determine if the Parties are able to reach mutual agreement on the terms and conditions of a Facility Assets Sale to Buyers, which shall include a written offer of price delivered by Buyers' Agent. If the Parties are unable to agree upon such terms and conditions within sixty (60) days, then, subject to the requirements of Section 14.7(c), Seller shall be free to consummate a Facility Assets Sale to any party, *provided* that if the sale is not consummated within eighteen (18) months following the date of the expiration of such sixty (60) day negotiation period with Buyers, Seller must provide another Proposed Sale Notice hereunder (and go through the ROFO process hereunder) before consummating any Facility Assets Sale; *provided further* that any such Facility Assets Sale shall (A) include the assignment and transfer of this Agreement and the Option Agreement to such transferee and the assumption by such transferee of all of Seller's obligation under this Agreement and the Option Agreement, (B) include a written assumption agreement in favor of Buyers pursuant to which such buyer of the Facility Assets shall agrees assume all of the obligations of Seller under this Agreement and the Option Agreement and agree to be bound by all the terms and conditions of this Agreement and the Option Agreement, and (C) not be on terms and conditions that are materially, or in the aggregate materially, more favorable to such buyer than those made in the last offer by Buyers to Seller during such sixty (60) day negotiation period, including that the price for such Facility Assets shall be not be less than the last amount offered in writing by Buyers to Seller.

(e) The ROFO shall not apply to any sale-leaseback or similar financing of the Facility by Seller or to any sale by any Facility Lender in connection with the exercise of Facility Lender remedies under the financing security documents.

[Remainder of Page Intentionally Left Blank]

Each Buyer and Seller were represented by legal counsel during the negotiation and execution of this Agreement and the Parties have executed this Agreement as of the dates set forth below, effective as of the Effective Date.

APPENDIX A
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

CONTRACT PRICE

1. Test Energy. The Contract Price for the Products associated with Test Energy is equal to 75% of the applicable Contract Price set forth in Section 2 of this Appendix A.

2. Facility Energy or Replacement Product. The Contract Price for the Products associated with all Facility Energy and Replacement Product other than Excess Energy is the Fixed Rate.

3. Excess Energy. The Contract Price for Products associated with Excess Energy is equal to 75% of applicable the Contract Price set forth in Section 2 of this Appendix A.

APPENDIX B-1
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

FACILITY, PERMITS AND OPERATOR

1. Name of Facility: RE Astoria 2

2. Owner: RE Astoria 2 LLC

3. Operator: *[To be designated after Effective Date]*

4. Type of Facility: Photovoltaic Solar

5. Applicable Contract Capacity: (a) 65 MW, from the Commercial Operation Date until and including December 31, 2021, and (b) at least 75MW, from January 1, 2022 until the expiration of the Agreement Term, in each case, as measured by the sum of the inverter nameplate capacity of the Facility

6. Equipment: Solar Photovoltaic

7. Expected Commercial Operation Date: 12/31/2016

8. Site: South of Patterson Rd. and North of Avenue A, between 195 Street West and 205th Street West, Kern County CA. The Site includes, but is not limited to, the following APNs:

#	APN	#	APN
1	261-213-25	15	261-213-53
2	261-213-51	16	261-213-54

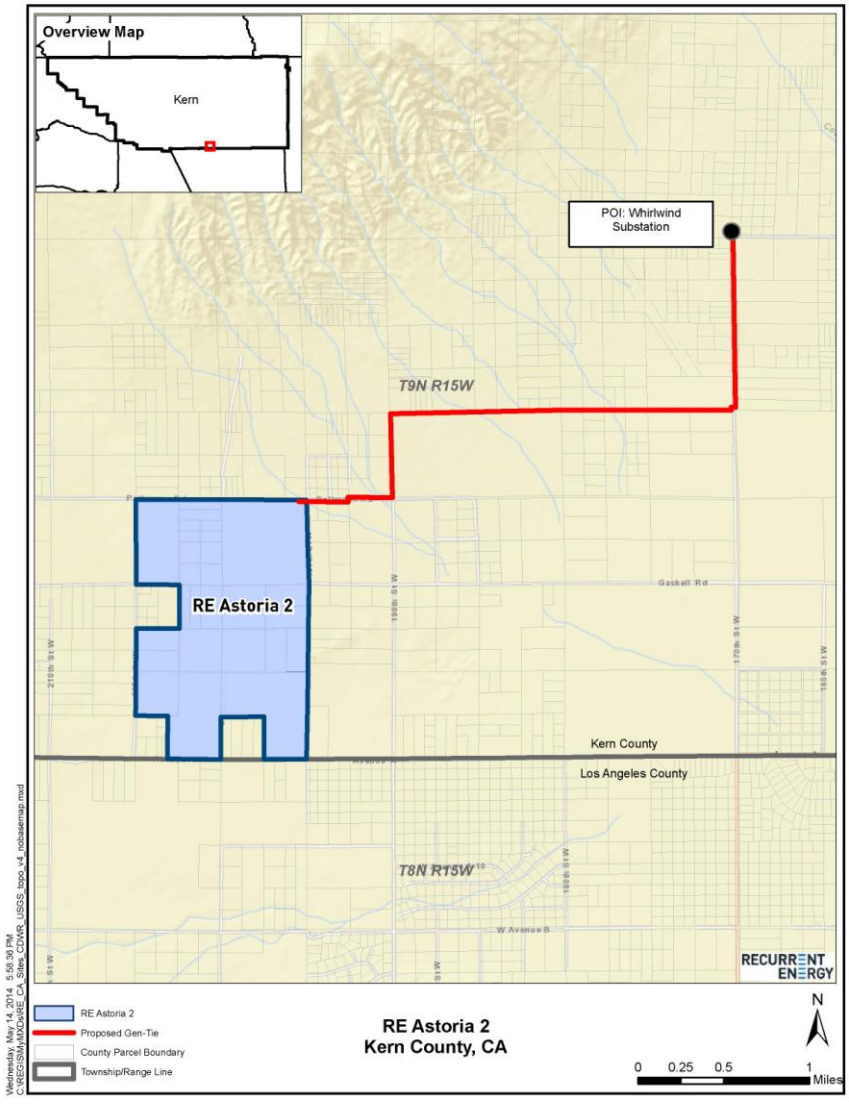
MAP OF THE FACILITY



APPENDIX C
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

ANNUAL CONTRACT QUANTITY

Contract Year	Annual Contract Quantity, MWh
0	Year 0 ACQ
1	202,329
2	201,317
3	200,311
4	199,309
5	198,312
6	227,678
7	226,540
8	225,407
9	224,280
10	223,159
11	222,043
12	220,933
13	219,828
14	218,729
15	217,635
16	216,547
17	215,464
18	214,387
19	213,315
20	212,248

"***Year 0 ACQ***" means the Annual Contract Quantity for Contract Year 0 (which shall be the stub Contract Year that occurs between the Commercial Operation Date and December 31 of the year in which the Commercial Operation Date is achieved), based on the actual Commercial Operation Date of the Facility, calculated on the basis of the following formula:

Year 0 ACQ = 202,329 MWh * Annual Adjustment (as defined below)

"***Annual Adjustment***" means the percentage, expressed as a decimal, of annual production of Energy by the Facility for Contract Year 0, based on the actual Commercial Operation Date of the Facility and the Annual Production Breakdown table below:

Annual Production Breakdown

Month	Days in Month	Percent Annual Production in Month
January	31	5.47%
February	28	5.74%
March	31	8.64%
April	30	9.28%
May	31	10.67%
June	30	11.24%
July	31	11.07%
August	31	10.44%
September	30	9.25%
October	31	7.58%
November	30	5.66%
December	31	4.96%

Sample Calculation:

Assuming the Commercial Operation Date for the Facility is November 15, 2016, the Year 0 ACQ would be calculated as follows:

Annual Adjustment = (November Percent Annual Production * Days Operational in November / Total Days in November) + December Percent Annual Production

Annual Adjustment = (5.66% * 15/30) + 4.96% = 7.79%

Year 0 ACQ = 202,329 MWh * 7.79% = 15,761 MWh

FORM OF ATTESTATION

_____(Seller)_____ Environmental Attribute Attestation and Bill of Sale

_____ ("***Seller***") hereby sells, transfers and delivers to the SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY, a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the California Joint Exercise of Powers Act ("the ***Act***"), California Government Code section 6500 et seq. ("***SCPPA***"), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act ("***PWRPA***"), the CITY OF CORONA, a California city ("***Corona***"), the CITY OF MORENO VALLEY, a California city ("***Moreno Valley***"), the CITY OF RANCHO CUCAMONGA, a California city ("***Rancho Cucamonga***") and the CITY OF LODI, a California city ("***Lodi***," together with Corona, Moreno Valley, Rancho Cucamonga, SCPPA and PWRPA, "***Buyers***") the Environmental Attributes and Environmental Attribute Reporting Rights associated with the generation from the Facility described below:

Facility name and location:

Fuel Type: Capacity (MW):_____ Operational Date:
As applicable: CEC Reg. no. ___ Energy Admin. ID no. ____ Q.F. ID no. ___

Dates	MWhs generated
_____ 20__	_____
_____ 20__	_____
_____ 20__	_____

in the amount of one Environmental Attribute or its equivalent for each MWh generated.

Seller further attests, warrants and represents as follows:

i) the information provided herein is true and correct;

ii) its sale to Buyers is its one and only sale of the Environmental Attributes and associated Environmental Attribute Reporting Rights referenced herein;

iii) the Facility generated and delivered to the grid the Energy in the amount indicated as undifferentiated Energy; and

iv) Seller owns the Facility and each of the Environmental Attributes and Environmental Attribute Reporting Rights associated with the generation of the indicated Energy for delivery to the grid have been generated and sold by the Facility.

This serves as a bill of sale, transferring from Seller to Buyers all of Seller's right, title and interest in and to the Environmental Attributes and Environmental Attribute Reporting Rights associated with the generation of the Energy for delivery to the grid.

FORM OF LETTER OF CREDIT

IRREVOCABLE, UNCONDITIONAL, AND CLEAN STANDBY LETTER OF CREDIT NO. _____

Applicant:

[_____]

Beneficiary:

[INSERT]

Amount:
Expiration Date:
Expiration Place:

Ladies and Gentlemen:

We hereby issue our Irrevocable, Unconditional and Clean Standby Letter of Credit in favor of the beneficiary by order and for the account of the applicant which is available at sight for USD $XX,XXX,XXX by sight payment upon presentation to us at our office at **[bank's address]**,[1] of: (i) your written demand for payment containing the text of Exhibit I, (ii) your signed statement containing the text of Exhibit II and, (iii) the original of this Letter of Credit and all amendments (or photocopy of the original for partial drawings) (the "Documents"). Drawings may be presented via fax to _____. The original Letter of Credit and documents are to be sent via overnight courier to our address indicated above.

A presentation under this Letter of Credit may be made only on a day, and during hours, in which such office is open for business, and payments can be effected via wire transfer (a "Business Day"). Partial drawing of funds shall be permitted under this Letter of Credit, and this Letter of Credit shall remain in full force and effect with respect to any continuing balance; *provided* that the Available Amount shall be reduced by the amount of each such drawing.

[1] **Note to Issuer**: The Letter of Credit must be payable in U.S. dollars within the continental U.S.
Note to Seller: Bank to have office for presentment in California to allow for in person presentment by Buyers

Upon presentation to us of your Documents in conformity with the foregoing, we will, on the third (3rd) succeeding Business Day after such presentation, irrevocably and without reserve or condition except as otherwise stated herein, make payment hereunder in the amount set forth in the demand. Payment shall be made to your order by deposit to your account at the bank designated by you in the demand in immediately available funds. We agree that if, on the Expiration Date, the office specified above is not open for business by virtue of an interruption of the nature described in the "Uniform Customs and Practices for Documentary Credits," (2007 Revision) of the International Chamber of Commerce Publication No. 600 (the "Uniform Customs") Article 36, this Letter of Credit will be duly honored if the specified Documents are presented by you within thirty (30) days after such office is reopened for business.

Provided that the presentation on this Letter of Credit is made on or prior to the Expiration Date and the applicable Documents as set forth above conform to the requirements of this Letter of Credit, payment hereunder shall be made regardless of: (a) any written or oral direction, request, notice or other communication now or hereafter received by us from the Applicant or any other person except you, including without limitation any communication regarding fraud, forgery, lack of authority or other defect not apparent on the face of the documents presented by you, but excluding solely a written order issued by a court, which order specifically orders us not to make such payment; (b) the solvency, existence or condition, financial or other, of the Applicant or any other person or property from whom or which we may be entitled to reimbursement for such payment; and (c) without limiting clause (b) above, whether we are in receipt of or expect to receive funds or other property as reimbursement in whole or in part for such payment.

We agree that the time set forth herein for payment of any demand(s) for payment is sufficient to enable us to examine such demand(s) and the related Documents(s) referred to above with care so as to ascertain that on their face they appear to comply with the terms of this credit and that if such demand(s) and Document(s) on their face appear to so comply, failure to make any such payment within such time shall constitute dishonor of such demand(s).

This Letter of Credit shall terminate upon the earliest to occur of (i) our receipt of a notice in the form of Exhibit IV hereto signed by an authorized officer of Beneficiary, accompanied by this Letter of Credit for cancellation, (ii) our close of business at our aforesaid office on the Expiration Date, or if the Expiration Date is not a Business Day, then on the next Business Day.

It is a condition of this Letter of Credit that it shall be deemed automatically extended without amendment for one (1) year from the Expiration Date, or any future expiration date, unless at least thirty (30) calendar days prior to the Expiration Date (or any future expiration date), we send you notice by registered mail, return receipt requested or overnight courier at your address herein stated or such other address of which you notify us in advance in writing that we elect not to consider this Letter of Credit extended for any such additional period.

We may, in our sole discretion, increase or decrease the stated amount of this Letter of Credit, and the Expiration Date may be extended, by an amendment to this Letter of Credit in the form of Exhibit III signed by us. Any such amendment for decrease shall become effective only upon acceptance by your signature on a hard copy amendment.

You shall not be bound by any written or oral agreement of any type between us and the Applicant or any other person relating to this credit, whether now or hereafter existing.

We hereby engage with you that your demand(s) for payment in conformity with the terms of this Letter of Credit will be duly honored as set forth above. All fees and other costs associated with the issuance of and any drawing(s) against this Letter of Credit shall be for the account of the Applicant. All of the rights of the Beneficiary set forth above shall inure to the benefit of your successors by operation of law. In this connection, in the event of a drawing made by a party other than the Beneficiary, such drawing must be accompanied by the following signed certification and copy of document proving such successorship:

"The undersigned does hereby certify that [drawer] is the successor by operation of law to **[**the SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY][the POWER AND WATER RESOURCES POOLING AUTHORITY][the CITY OF LODI][the CITY OF CORONA][the CITY OF MORENO VALLEY][the CITY OF RANCHO CUCAMONGA], as beneficiary named in [name of bank] Letter of Credit No. _____."

Except so far as otherwise expressly stated herein, this Letter of Credit is subject to the Uniform Customs. As to matters not governed by the Uniform Customs, this Letter of Credit shall be governed by and construed in accordance with the laws of the State of California. Any litigation arising out of, or relating to this Letter of Credit, shall be brought in a State or Federal court in the County of **[_____]** in the State of California. The Parties irrevocably agree to submit to the exclusive jurisdiction of such courts in the State of California and waive any defense of *forum non conveniens*.

This Letter of Credit sets forth in full our undertaking, and such undertaking shall not in any way be modified, amended, amplified or limited by reference to any document, instrument or agreement referred to herein, except for Exhibit I, II, III and IV hereto and the notices referred to herein; and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except as otherwise provided in this paragraph.

Communications with respect to this Letter of Credit shall be in writing and shall be addressed to us at the address referred to above, and shall specifically refer to this Letter of Credit no. _____.

In the event of a failure by us to honor the terms and conditions of this Letter of Credit, we agree to be responsible for reasonable attorneys' fees incurred by you in any action brought to enforce our obligations hereunder.

Yours faithfully,

(name of issuing bank)

APPENDIX F
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

INSURANCE

I. GENERAL REQUIREMENTS

As a condition to the Effective Date, Seller shall furnish Buyers' Agent evidence of coverage from insurers acceptable to Buyers' Agent and in a form acceptable to the risk management section of the project manager for each Buyer or acceptable to Buyers' Agent for this purpose. Such insurance shall be maintained by Seller at Seller's sole cost and expense.

Such insurance shall not limit or qualify the liabilities and obligations of Seller assumed under this Agreement. Buyers shall not by reason of its inclusion under these policies incur liability to the insurance carrier for payment of premium for these policies.

Any insurance carried by any Buyer which may be applicable shall be deemed to be excess insurance and Seller's insurance is primary for purposes under this Agreement despite any conflicting provision in Seller's policies to the contrary.

Such insurance shall not be canceled or reduced in coverage or amount without first giving thirty (30) days' prior notice thereof (ten (10) days for non-payment of premium) by registered mail to Buyers' Agent: Executive Director, Southern California Public Power Authority, 1160 Nicole Court, Glendora, CA 91740.

Should any portion of the required insurance be on a "Claims Made" policy, Seller shall, at the policy expiration date following completion of work, provide evidence that the "Claims Made" policy has been renewed or replaced with the same limits, terms and conditions of the expiring policy, or that an extended discovery period has been purchased on the expiring policy at least for the contract under which the work was performed.

II. SPECIFIC COVERAGES REQUIRED

A. Commercial Automobile Liability

Seller shall provide Commercial Automobile Liability insurance which shall include coverages for liability arising out of the use of owned (if applicable), non-owned, and hired vehicles for performance of the work by Seller or its officers, agents, or employees, as required, to be licensed under the California or any other applicable state vehicle code. The Commercial Automobile Liability insurance shall have not less than $1,000,000.00 combined single limit per occurrence and shall apply to all operations of Seller.

The Commercial Automobile Liability policy shall include each Buyer, its members, and their officers, agents, and employees while acting within the scope of their employment, as additional insureds with Seller, and shall insure against liability for death, bodily injury, or property damage resulting from the performance of this Agreement by Seller or its officers, agents, or employees. The evidence of insurance shall be a form acceptable to Buyer's risk management agent.

B. Commercial General Liability

Seller shall provide Commercial General Liability insurance with Blanket Contractual Liability, Independent Contractors, Broad Form Property Damage, Premises and Operations, Products and Completed Operations, fire, Legal Liability and Personal Injury coverages included. Such insurance shall provide coverage for total limits actually arranged by Seller, but not less than $10,000,000.00 combined single limit per occurrence. Should the policy have an aggregate limit, such aggregate limits should not be less than double the Combined Single Limit. Umbrella or Excess Liability coverages may be used to supplement primary coverages to meet the required limits. Evidence of such coverage shall be a form acceptable to each Buyer's risk management agent, and shall provide for the following:

1. Include each Buyer and its officers, agents, and employees as additional insureds with the Named Insured for the activities and operations of Seller and its officers, agents, or employees under this Agreement.

2. Severability-of-Interest or Cross-Liability Clause such as: "The policy to which this endorsement is attached shall apply separately to each insured against whom a claim is made or suit is brought, except with respect to the limits of the company's liability."

3. A description of the coverages included under the policy.

C. Excess Liability

Seller may use an Umbrella or Excess Liability Coverage to meet coverage limits specified in this Agreement. Seller shall require the carrier for Excess Liability to properly schedule and to identify the underlying policies on an endorsement to the policy

acceptable to each Buyer's risk management agent. Such policy shall include, as appropriate, coverage for Commercial General Liability, Commercial Automobile Liability, Employer's Liability, or other applicable insurance coverages.

D. Workers' Compensation/Employer's Liability Insurance

Seller shall provide Workers' Compensation insurance covering all of Seller's employees in accordance with the laws of any state in which the work is to be performed and including Employer's Liability insurance and a Waiver of Subrogation in favor of each Buyer. The limit for Employer's Liability coverage shall be not less than $1,000,000.00 each accident and shall be a separate policy if not included with Workers' Compensation coverage. Evidence of such insurance shall be a form of Buyer Special Endorsement of insurance or on an endorsement to the policy acceptable to Buyer's risk management agent. Workers' Compensation/Employer's Liability exposure may be self-insured *provided* that Buyers' Agent is furnished with a copy of the certificate issued by the state authorizing Seller to self-insure. Seller shall notify Buyers' Agent by receipted delivery as soon as possible of the state withdrawing authority to self-insure.

APPENDIX G
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

QUALITY ASSURANCE PROGRAM

Seller shall implement a Quality Assurance ("Q/A") Program to ensure that the performance of the Facility fulfills the Requirements. The Q/A Program shall provide assurance that the Facility will comply with the Requirements and the manufacturers' or suppliers' requirements for successful operation of the Facility.

Quality at Seller

Seller believes that quality is the unit of measure for assessing fulfillment of project goals. A quality project meets or exceeds the contract requirements and accepted standards of professional and industry practice. Furthermore, high quality projects are those that address client and societal needs more successfully than "low" quality projects. While this may seem like a straightforward definition, the process to ensure quality is much more involved and includes quality management, quality planning, quality control, quality assurance, a quality system, and total quality management.

"Quality assurance" refers to a process that reduces the potential for error throughout the phases of a project. On projects with a Q/A Program, the chances of producing a poor quality deliverable are substantially reduced. Quality control procedures are an integral part of quality assurance. Historically, industry has used the term "quality control" to indicate a checking procedure for verifying the quality of deliverables. This checking commonly occurs at the end of the process, long after an error may have been made and compounded by subsequent work. While quality control checks at the end of a project are an essential exercise, scheduled periodic reviews at each phase of project conceptual and final design are integral to Seller's Q/A Program. In addition, quality maintenance which meets or exceeds manufacturers' or suppliers' requirements and best industry practices must be an integral part of Seller's Q/A Program.

The Quality Management Process

The surest way to achieve satisfactory quality is to adhere to a proven quality process. The term "quality" most accurately refers to a project's ability to satisfy needs when considered as a whole and each part of the process meets or exceeds the standards of Prudent Utility Practices.

Seller's project management team is responsible for proactively planning and directing the quality of the work process, services, and deliverables. Seller's project management team targets the following areas to monitor quality:

1) A written Q/A Manual.
2) Independent engineering review of the entire project process, from design review through Commercial Operation.
3) A written maintenance manual for the Facility for the duration of the commercial operation that complies with the maintenance manuals of the manufacturers and suppliers from whom Seller has purchased equipment and/or material and best industry practices.

Q/A Manual

The idea of a Q/A manual is to incorporate quality assurance in all areas of project execution. Seller has found that quality needs to be institutionalized into the project process, not only in the budgeting process, but everywhere. For example, specific tasks and duties need to be allocated to specific individuals; roles and interface points need to be clearly defined; individual assignments need to be realistic; special attention needs to be paid to complex areas within projects; schedules need to be realistic and achievable; and lastly the work culture needs to be enjoyable and open so that employees are empowered to react quickly to symptoms of quality problems before they actually manifest.

Seller's quality program shall be documented in a Quality Assurance manual (the "Q/A Manual"). The form and the format of the Q/A Manual shall be developed by Seller, but must comply with Prudent Utility Practices and follow manufacturers' and suppliers' recommendations without deviation. The content of the Q/A Manual shall provide written descriptions of policies, procedures and methodology to accomplish a quality project. Seller shall submit three (3) copies of the Q/A Manual within ninety (90) days after the Effective Date to Buyers' Agent. The Q/A Manual shall be kept current by Seller throughout the term of this Agreement through the submittal of revisions, as appropriate, by Seller to any Buyer or any Buyer's Authorized Representative.

The Q/A Manual shall describe the authority and the responsibility of the Persons in charge of the Q/A Program and inspection activities. Furthermore, it shall provide the plan and strategy for quality control and review during the construction period. The Q/A Manual shall strive, at a minimum, to define control procedures or methods to assure the following:

(a) The design documents, drawings, specifications, Q/A procedures, records, inspection procedures and purchase documents are maintained to be current, accurate and in compliance with all applicable law.

(b) The purchased materials, equipment and services comply with the Requirements.

(c) The materials received at the site are inspected for compliance with specifications.

(d) The subcontracted work is adequately inspected by third parties as necessary.

(e) Proper methods are employed for the qualification of personnel who are performing work for the construction of the Facility.

(f) Proper documentation, control and disposition of nonconforming equipment and materials is maintained.

(g) Proper records are kept and available following project completion to ensure accurate documentation of as-built conditions.

(h) Detailed and complete plan for maintenance and operation during commercial operations consistent with manufacturers' and suppliers' recommendations and best industry practices.

Conceptual Design Review

Seller has a team of professionals who develop and review conceptual design. The team consists of specialists in land-use and planning, permitting, meteorology, engineering, construction, project management, and finance. A preliminary site plan is developed in order to assess the solar resource, project constructability, site access, cultural and biological impact, land use restrictions, and landowner requirements. At this stage, the site plan is reviewed, modified as necessary, and used to begin the permitting and public review process. The site plan may be further modified based on comments received during the permitting and public review process. Subsequent to this phase, final third party engineering will commence.

Final Engineering Design

Third party engineering firms, licensed to practice in the state in which the project is to be constructed, will commence the detailed design necessary for the permitting and construction of the Facility. Each firm will have its own quality assurance and quality control procedures, however, Seller and a third party independent engineer will review the final work products to ensure conformance with this Agreement. When Seller and third party independent engineer have completed a multiple phase review process, and all comments have been addressed, the design is considered final and ready for construction permitting.

During the final engineering design process, geotechnical studies will be finalized as needed. If existing subsurface conditions are different from anticipated, the design may be modified to account for any variances. Any changes of this nature will be documented in as-built design drawings and approved in advance by Seller.

Quality Assurance at the Construction Site

Seller will hire a third party general contractor to construct the project. The contractor will be required to have a quality assurance program implemented by its own staff, and utilizing third party inspectors as necessary. The primary areas of focus are assuring conformance of construction to design drawings, conformance of materials to specifications, and to ensure prudent industry standards and best practices are being utilized. The contractor will be required to provide third party inspection and testing as necessary. The contractor will also be required to maintain a set of drawings during the course of construction, which will be used to document any changes to the design documents. Proposed project changes would be reviewed and approved in the field by Seller's construction management team prior to implementation.

The contractor will provide the required oversight and training of its installation crew to ensure the construction of the facility meets their quality guidelines. As necessary, equipment suppliers will have technical advisors on site to inspect, advise, and sign off on installation means and methods. In addition, Seller will have its own construction management team on site consisting of a construction manager and quality inspectors who will observe performance of all areas of the work and ensure compliance with design documents and Q/A procedures. The contractor and appropriate equipment suppliers will commission the generating facility per prudent industry standards, equipment specifications, and utility requirements. Prior to construction completion, a punchlist will be developed by the contractor, Seller, Seller's representatives, and third party independent engineer. This punchlist is maintained by the contractor, and is signed off by Seller upon completion of all punchlist items. Lastly, the independent engineer will perform periodic audits during construction to oversee critical items, confirm construction progress, and provide independent reporting and assessments to the project stakeholders.

Following completion of the project, the contractor will be required to provide to Seller as-built design drawings, record of all testing documentation, and final permit approvals. This documentation will be maintained at the project site during operations of the Facility.

Quality Assurance During Commercial Operations

Seller shall supply a Quality Assurance Plan for Buyers' Agent's review and approval no less than sixty (60) days prior to the anticipated Commercial Operation Date. Upon receipt of Quality Assurance Plan, Buyers' Agent shall provide written approval, such approval not to be unreasonably withheld, or comment within ten (10) Business Days.

MILESTONE SCHEDULE

Key Milestones are designated with a *

No.	Guaranteed Date	Milestone Description	Daily Liquidated Damages/Other Remedy
1.	Ten (10) days after the Effective Date	Delivery by Seller of all certificates and other documents required to establish that the Insurance is in full force and effect	
2.	Ten (10) days after the Effective Date	Delivery to Buyers' Agent of Enforceability Opinion	
3.	Ninety (90) days after the Effective Date	Delivery to Buyers' Agent of a CEC pre-certification form duly approved by the CEC	
4.	Complete	Delivery by Seller of an executed Generator Interconnection Agreement	
5.	July 31, 2014	Delivery by Seller of evidence reasonably satisfactory to Buyers that Seller has made all then-required financial security postings for CAISO studies and transmission network upgrades for Full Capacity Deliverability Status	
6.	August 31, 2015	Seller has entered into a Subcontract for the engineering, procurement,	

No.	Guaranteed Date	Milestone Description	Daily Liquidated Damages/Other Remedy
		and construction of the Facility that satisfies the requirements set forth in this Agreement and has delivered a copy of such Subcontract to Buyers' Agent (with confidential or proprietary information redacted at Seller's reasonable discretion)	
7.	September 30, 2015	*Site Control Milestone Date, including provision by Seller of the Security Documents, and execution and delivery of Option Agreement and Land Option Agreement	$4,000 per day
8.	September 30, 2015	*Seller has obtained all Permits set forth on Appendix B-1 (which shall be final and non-appealable), excluding all Permits not yet required for Seller's development and construction of the Facility but that are reasonably expected to be obtained in due course	$4,000 per day
9.	September 30, 2015	Seller has delivered to Buyers' Agent true, correct, and complete copies of all documents relating to the environmental condition of the Site in form, scope, and substance reasonably satisfactory to Buyers, including any Phase I	

No.	Guaranteed Date	Milestone Description	Daily Liquidated Damages/Other Remedy
		Environmental Site Assessment prepared relative to the Site	
10.	September 30, 2015	Seller has delivered to Buyers' Agent a copy of Seller's policy of title insurance in form reasonably satisfactory to Buyers' Agent; provided that in connection with Buyers' Agent's review of such policy (i) any policy that has been approved by the Facility Lender shall be deemed to be reasonably to Buyers' Agent, and (ii) any deficiencies or defects in such policy that would not reasonably be expected to a have material adverse impact on the development, construction or operation of the Facility shall not be grounds for Buyers' Agent to reject such policy.	
11.	September 30, 2015	Closing of Project Financing, if applicable	
12.	October 1, 2015	*Construction Start Date	$5,000 per day

APPENDIX J
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

AUTHORIZED REPRESENTATIVES;
BUYERS AND SELLER BILLING, NOTIFICATION AND SCHEDULING CONTACT INFORMATION

1. **Authorized Representative.** The initial Authorized Representatives of Buyers and Seller pursuant to Section 14.1 are as follows:

If to Buyers:

Southern California Public Power Authority
1160 Nicole Court
Glendora, CA 91740
Attention: Executive Director
Telephone: (626) 793-9364
Facsimile: (626) 704-9461
Email: bcarnahan@scppa.org, shomer@scppa.org, knguyen@scppa.org

Power & Water Resources Pooling Authority
3514 W. Lehman Road
Tracy, CA 95304-9336
Attention: Kent Palmerton
Telephone: (916) 483-5368
Facsimile: (916) 489-3537
Email: kent@wkpalmerton.com

Lodi Electric Utility
Elizabeth Kirkley, Director
1331 S. Ham Lane
Lodi, CA 95242
Telephone: (209) 333-6828
Facsimile: (209) 333-6839
Email: ekirkley@lodi.gov
If by e-mail, copy to: mprice@lodi.gov

City of Corona
755 Public Safety Way
Corona, CA 92880
Attention: Jonathan Daly
Email: Jonathan.Daly@ci.corona.ca.us

Telephone: (951) 736-2232

OPTION AGREEMENT

This OPTION AGREEMENT is entered into as of this ____ day of _____, 20__ (the "***Effective Date***"), by and among RE ASTORIA 2 LLC ("***Seller***"), a limited liability company organized and existing under the laws of the State of Delaware, SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY ("***SCPPA***"), a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the California Joint Exercise of Powers Act (California Government Section 6500 *et seq*.), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act ("***PWRPA***"), the CITY OF LODI, a California municipal corporation organized and existing under the laws of the State of California ("***Lodi***"), the CITY OF CORONA, a California municipal corporation organized and existing under the laws of the State of California ("***Corona***"), the CITY OF MORENO VALLEY, a California municipal corporation organized and existing under the laws of the State of California ("***Moreno Valley***"), and the CITY OF RANCHO CUCAMONGA, a California municipal corporation organized and existing under the laws of the State of California ("***Rancho Cucamonga***"). SCPPA, PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga are each referred to herein as a "***Buyer***," and together as "***Buyers.***" Buyers are referred to (collectively) and Seller is referred to (individually) in this Agreement as a "***Party***" and together as the "***Parties***."

RECITALS

WHEREAS, Seller and Buyers have entered into that certain Power Purchase Agreement dated _____, 2014 (the "***PPA***"), relating to the purchase by Buyers of (a) until December 31, 2021, the Facility Energy, Capacity Rights and associated Environmental Attributes (each as defined in the PPA and collectively defined therein as the "***Products***") generated by 65 MW (AC) of a 75 MW (AC) solar photovoltaic facility to be developed, constructed, owned and operated by Seller in Kern County, California (the "***Facility***," as further defined in the PPA), and (b) from and after January 1, 2022, all of the Products from the Facility; and

WHEREAS, Seller desires to grant to Buyers, and Buyers wish to have, an option, exercisable at various times as set forth herein, to purchase the Facility Assets (as defined herein) on the terms and subject to the conditions set forth in this Agreement.

NOW, THEREFORE, in consideration of the foregoing Recitals, which are incorporated herein, Buyers entering into the PPA, and the agreements herein and in the other Operative Documents (as defined herein) and in reliance upon the representations and warranties therein and herein, Buyers and Seller, intending to be legally bound, hereby agree as follows:

ARTICLE I
DEFINITIONS

1.1 Definitions. Except as otherwise expressly provided herein, capitalized terms used in this Agreement, including in its ***Recitals***, ***Schedules*** and ***Exhibits***, shall have the

meanings given in ***Exhibit 1.1***. Capitalized terms used herein but not defined in ***Exhibit 1.1*** shall have their meanings ascribed thereto in the PPA.

1.2 Rules of Interpretation. Except as otherwise expressly provided herein, the rules of interpretation set forth in the PPA shall apply to this Agreement.

ARTICLE II
OPTION TO PURCHASE; CLOSING

2.1 Option to Purchase. Seller hereby grants Buyers an option, on the terms and conditions set forth in this Agreement, to purchase all of Seller's right, title and interest in and to the Facility Assets, but not the Excluded Assets, and to assume the Assumed Liabilities, but not the Excluded Liabilities, on and subject to the terms and conditions set forth in this Agreement (the "***Project Purchase Option***"). The Project Purchase Option may only be exercised with respect to all of Seller's right, title and interest in and to the Facility Assets, and not with respect to only a portion thereof.

2.2 Exercise of Project Purchase Option. Buyers may exercise the Project Purchase Option in accordance with the provisions set forth in Section 2.4 at any time:

(a) during the six (6) month period commencing on the date that is eighteen (18) months prior to the tenth (10th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the tenth (10th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(b) during the six (6) month period commencing on the date that is eighteen (18) months prior to the fifteenth (15th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the fifteenth (15th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(c) during the six (6) month period commencing on the date that is eighteen (18) months prior to the twentieth (20th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the twentieth (20th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(d) during the sixty (60) day period commencing on the date on which a Termination Notice is provided by each Buyer to Seller, and each Buyer has exercised its remedies pursuant to Section 13.2(d) of the PPA (in which case the Closing Date shall be the date designated by the Tentative Exercising Buyers (as defined below) that is no later than the date that is nine (9) months following delivery by such Tentative Exercising Buyers of the Purchase Option Exercise Notice), subject to the terms and conditions of this Article II, Article VII, and Article VIII).

Each opportunity of Buyers to exercise the Project Purchase Option set forth in Sections 2.2(a) through (d) above shall be referred to herein as a "***Purchase Option Opportunity***."

Seller acknowledges that Buyers have no obligation to exercise the Project Purchase Option and that Buyers may decline to exercise the Project Purchase Option for any or no reason, as Buyers deem appropriate in their sole discretion.

2.3 Environmental Review. Seller acknowledges and agrees that the sale of the Facility Assets could potentially be subject to environmental review pursuant to CEQA and the National Environmental Policy Act of 1969.

2.4 Tentative Exercise Notice. Buyers shall exercise the Project Purchase Option (if at all) by Buyer's Agent delivering to Seller a written notice of exercise (the "***Purchase Option Tentative Exercise Notice***") signed by one or more Buyers (each, a "***Tentative Exercising Buyer***" and collectively, the "***Tentative Exercising Buyers***") within the periods of time specified in Section 2.2. Within sixty (60) days after it receives a Purchase Option Tentative Exercise Notice (the "***Schedule Delivery Date***"), Seller will deliver to Buyers' Agent the following, dated as of the Schedule Delivery Date: ***Schedule 3.3*** (Real Property Matters); ***Schedule 3.4*** (Seller's Consents); ***Schedule 3.5*** (Certain Excluded Assets); ***Schedule 3.7*** (Environmental Matters); ***Schedule 3.8*** (Liabilities); ***Schedule 3.9*** (Tax Matters); ***Schedule 3.10*** (Compliance with Laws); ***Schedule 3.11*** (Litigation); ***Schedule 3.12*** (Assumed Contracts); ***Schedule 3.13*** (Intellectual Property); ***Schedule 3.15*** (Non-Environmental Permits); ***Schedule 3.17*** (Employee Matters); ***Schedule 3.18*** (Shared Facilities); and ***Schedule 3.19*** (General Matters) (collectively, the "***Seller Disclosure Schedules***"), each of which shall be applicable to the Facility and shall list, as required, any qualifications required to make the representations in Article III true and correct, and Buyers' Agent will deliver to Seller, dated as of the Schedule Delivery Date, ***Schedule 4.3*** (Exercising Buyers' Consents and, together with the Seller Disclosure Schedules, the "***Disclosure Schedules***").

2.5 Tentative Purchase Price; Exercise Notice.

(a) The Tentative Purchase Price shall be determined in accordance with ***Exhibit 2.5*** following the later to occur of: (i) the delivery of the Seller Disclosure Schedules, and (ii) the Schedule Delivery Date.

(b) After the Disclosure Schedules have been delivered and the Tentative Purchase Price has been determined pursuant to Section 2.5(a) and prior to the Purchase Option Exercise Deadline, the Tentative Exercising Buyers shall collectively elect, in their sole discretion, either to (i) withdraw their exercise of the Project Purchase Option with respect to the applicable Purchase Option Opportunity by delivering written notice thereof to Seller, or (ii) continue with the exercise the Project Purchase Option by delivering written notice to Seller thereof, which notice shall designate the applicable Closing Option (the "***Purchase Option Exercise Notice***"). The delivery of a Purchase Option Exercise Notice by one or more Tentative Exercising Buyers shall constitute a binding and irrevocable commitment by such Tentative Exercising Buyers exercising the Project Purchase Option (each, an "***Exercising Buyer***" and collectively, the "***Exercising Buyers***") to purchase, and shall create a binding obligation of Seller to sell the Facility Assets as specified herein (subject to Seller's obligation to deliver any Breach Notice in accordance with Section 5.7 and the satisfaction or waiver of each of the conditions to Closing set forth in Article VII and Article VIII) by the applicable Closing Date. If for

any reason the Tentative Exercising Buyers deliver a Purchase Option Tentative Notice but do not deliver a Purchase Option Exercise Notice, such Tentative Exercising Buyers shall reimburse Seller for the reasonable costs and expenses incurred by Seller in connection with the preparation of the Seller Disclosure Schedules for such Purchase Option Opportunity (including reasonable attorneys' fees and expenses) in an aggregate amount up to Fifty Thousand Dollars ($50,000).

(c) If Buyers (i) withdraw their exercise of the Project Purchase Option pursuant to Section 2.5(b)(i) or (ii) fail to timely deliver either a Purchase Option Tentative Exercise Notice or Purchase Option Exercise Notice with respect to any Purchase Option Opportunity within the deadlines therefor under Sections 2.4 or 2.5, respectively, then Buyers' right to exercise the Project Purchase Option with respect to such Purchase Option Opportunity shall expire and shall no longer be effective, but such expiration shall not affect Buyers' right to exercise any Project Purchase Option with respect to any future Purchase Option Opportunity.

2.6 Memorandum of Option. Concurrently with the execution of this Agreement, the Parties shall execute and acknowledge a memorandum of option in form and substance acceptable to Buyers, and Seller shall record such memorandum in the Official Records of Kern County, California. Buyers shall be responsible for payment of all fees and Taxes associated with such recording.

2.7 Closing. In the event Buyers deliver a Purchase Option Exercise Notice, the closing of the purchase and sale of the Facility Assets (the "***Closing***") shall occur at 11:59 p.m., local time on the Closing Date (subject to the satisfaction or waiver of each of the conditions to Closing set forth in Article VII and Article VIII). The Closing shall be held at the offices of SCPPA in Glendora, California, or such other location in California that Buyers' Agent may designate in a timely notice to Seller, unless the Parties otherwise agree. All events at the Closing shall be deemed to occur simultaneously, unless otherwise provided herein. In the event the Closing has not occurred by the designated Closing Date in respect of a Purchase Option Opportunity because of the failure of any of the conditions to Closing set forth in Article VII and Article VIII to be satisfied by such designated Closing Date, then either Exercising Buyers, acting collectively, or Seller, upon written notice to Exercising Buyers and without liability, may terminate the Project Purchase Option with respect to such Purchase Option Opportunity, and such Purchase Option Opportunity shall expire and shall no longer be effective, but such termination shall not effect Buyers' right to exercise any Project Purchase Option with respect to any future Purchase Option Opportunity; provided that a Party cannot terminate any Project Purchase Option with respect to a Purchase Option Opportunity if the failure of the Closing to occur is the result of the failure on the part of such Party to perform its obligations under this Agreement.

2.8 NO ADDITIONAL WARRANTIES. OTHER THAN THE REPRESENTATIONS AND WARRANTIES EXPLICITLY SET FORTH IN THIS AGREEMENT, NO OTHER REPRESENTATIONS OR WARRANTIES, WHETHER EXPRESS OR IMPLIED, SHALL BE GIVEN OR DEEMED GIVEN AS TO THE FACILITY OR THE FACILITY ASSETS AT THE TIME OF SELLER'S SALE OF THE FACILITY

ASSETS TO BUYER FOLLOWING THE EXERCISE OF THE PROJECT PURCHASE OPTION.

2.9 Assumed Liabilities. At the Closing, each Exercising Buyer shall assume, and agree to pay for, perform, fulfill and discharge from and after the Closing, its proportionate share, based on the applicable percentage of the Facility Assets to be purchased by such Exercising Buyer, of all liabilities and obligations relating to the Facility Assets or the Business arising or occurring after the Closing Date other than the Excluded Liabilities (collectively, the "***Assumed Liabilities***").

2.10 Excluded Liabilities. Anything in this Agreement to the contrary notwithstanding, no Exercising Buyer shall assume, and shall not be deemed to have assumed, and shall have no liability with respect to (whether asserted before or after the Closing and regardless of whether the same or the basis therefor may have been disclosed to any Exercising Buyer by Seller or otherwise be known to any Exercising Buyer), any of the following liabilities or obligations of Seller (all such unassumed liabilities and obligations referred to in this Agreement as the "***Excluded Liabilities***"):

(a) Any liability or obligation of Seller in respect of Taxes attributable to Facility Assets for taxable periods ending on or prior to the Closing, including any supplemental tax liability related to activity or state of facts at the Facility conducted on or before the Closing that arises after the Closing, except that each Exercising Buyer will be obligated to pay its prorated portion of current property taxes as provided below and all property taxes related to any periods beginning after the Closing;

(b) Any liability or obligation of Seller relating to the Facility Assets or the Business, including arising out of Seller's ownership and operation of the Facility Assets, arising or occurring prior to the Closing;

(c) Any liability or obligation of Seller arising out of Seller's ownership and operation of any assets other than the Facility or any business other than the Business at any time;

(d) Any liability or obligation of Seller arising from a breach by Seller, or any event, circumstance or condition occurring or existing prior to the Closing that, with notice or lapse of time, constitutes or results in a breach by Seller under this Agreement, the PPA (including the Ancillary Documents), or any of the Operative Documents;

(e) Any liability or obligation of Seller under any Contract (including with respect to any contractors or subcontractors thereunder) other than an Assumed Contract or a Permit other than a Transferred Permit;

(f) Any liability or obligation under any Assumed Contract or a Transferred Permit to the extent such liability or obligation arises from or relates to any breach by Seller of any provision of any of such Assumed Contracts or Transferred Permits prior to the Closing;

(g) Any liability or obligation of Seller with respect to the employment or termination of any employee or group of employees by Seller, or the terms thereof, whether union or nonunion, whether the liability or obligation calls for performance or observance before or after the Closing and whether the liability or obligation arises from a collective bargaining agreement, pension trust fund plan, or other agreement or arrangement to which Seller is a party or by which Seller is bound (whether oral or written and whether express or implied in fact or in law) or any past practice or custom or otherwise, it being understood and agreed that after the Closing, Exercising Buyers will specify the terms on which employment is offered to any individual to whom Exercising Buyers, in their sole discretion, choose to offer employment and will not be bound by any term of employment in effect at or at any time prior to the Closing;

(h) Any liability or obligation of Seller for pension fund payments or unfunded pension fund liabilities;

(i) Any liability or obligation arising from or associated with any of the Excluded Assets;

(j) Any liability or obligation of Seller or its Affiliates arising out of or related to any claim or loss against Seller or its Affiliates or any third-party claims or losses which adversely affects the Facility Assets and which shall have been asserted prior to the Closing or to the extent the basis of which shall have arisen exclusively prior to the Closing;

(k) Any liability or obligation of Seller or its Affiliates to a third party arising from any indemnification claim, injury to or death of any person or damage to or destruction of any property (and including workers' compensation claims, discrimination, wrongful discharge, or unfair labor practice), whether based on negligence, breach of warranty, strict liability, enterprise liability or any other legal or equitable theory arising from actions by, for or on behalf of Seller or its Affiliates arising prior to the Closing; and

(l) Any liability or obligation of Seller or its Affiliates representing Facility Debt incurred by Seller or its Affiliates or Liens or encumbrances other than Closing Permitted Encumbrances.

Seller agrees to pay or otherwise discharge, or cause the payment or discharge, of all Excluded Liabilities prior to the Closing, and shall provide Buyers' Agent with evidence thereof that is reasonably satisfactory to Buyers' Agent.

2.11 Schedule Updating; Final Purchase Price.

(a) No later than the date that is thirty (30) days prior to the designated Closing Date (the "***Updated Schedule Delivery Date***"), Seller shall have provided Buyers' Agent with updated Seller Disclosure Schedules and such Seller Disclosure Schedules, as may be further updated by Seller from time to time prior to the Closing, shall be used as the final Seller Disclosure Schedules for purposes of its representation and warranties made under Article III as of the Closing; *provided, however,* that if after the Updated Schedule Delivery Date, an event or circumstance occurs or exists that

requires additional updates to the Seller Disclosure Schedules, Seller shall deliver such updates to Exercising Buyers as soon as practicable, and Exercising Buyers may, at their option, extend the Closing Date on day-for-day basis for the period of time between the Updated Schedule Delivery Date and the date on which such updates were delivered to Exercising Buyers, and the Parties shall make any adjustments to the Purchase Price as may be required to account for such updates in accordance with ***Exhibit 2.5***.

(b) At the Closing, upon the terms and subject to the conditions set forth herein, Exercising Buyers shall, in exchange for the sale, transfer, assignment, conveyance and delivery of the Facility Assets by Seller, and the assumption by Exercising Buyers of the Assumed Liabilities in accordance with this Agreement, pay Seller the Final Purchase Price determined in accordance with ***Exhibit 2.5***. Such Final Purchase Price shall be paid by Exercising Buyers by one or more wire transfers of immediately available funds to an account designated in writing by Seller. Exercising Buyers shall prepare and Buyers' Agent shall deliver an allocation of the Purchase Price (and all other capitalized costs) among the Facility Assets in accordance with Code §1060 and the U.S. Department of Treasury regulations thereunder (and any similar provision of state, local, or non-U.S. law, as appropriate). If Seller disagrees with respect to any aspect of the allocation, Exercising Buyers and Seller shall use reasonable efforts to resolve such disagreement within sixty (60) days after delivery by Buyers' Agent of the allocation. Exercising Buyers and Seller shall report, act and file Tax Returns (including Internal Revenue Service Form 8594) in all respects and for all purposes consistent with the allocation as agreed to by the Parties or otherwise determined in accordance with this Section 2.11(b). Seller shall timely and properly prepare, execute, file and deliver all such documents, forms and other information as Buyers' Agent may reasonably request to prepare such allocation. Neither any Exercising Buyer nor Seller shall take any position (whether in audits, tax returns or otherwise) that is inconsistent with such allocation unless required to do so by applicable Law.

2.12 Proration. Without limiting each Exercising Buyer's obligation to pay its proportionate share of the Transfer Taxes under Section 2.13, Exercising Buyers and Seller agree that any items normally prorated, including those listed below, relating to the Business and the Facility Assets, shall be prorated as of the Closing, with Seller being liable to the extent such items relate to periods on or prior to the Closing Date, and Exercising Buyers being liable to the extent such items relate to periods after the Closing with, to the extent practicable, a cash settlement on the Closing:

(a) personal property and real estate Taxes, assessments and other charges, if any, by the applicable municipality, on the basis of the applicable municipality's fiscal year, on or with respect to the Business;

(b) rent, Taxes and other items payable by or to Seller under any of the Assumed Contracts which are associated with the Facility Assets;

(c) any Permit, registration, compliance, assurance fees or other fees with respect to any Transferred Permit comprising part of the Facility Assets; and

(d) sewer rents and charges for water, telephone, electricity and other utilities.

In connection with the prorations referred to in this Section 2.12, in the event that actual amounts for such items are not available on the Closing Date, the proration shall be based upon the actual Taxes or fees for the preceding year (or appropriate period) for which actual Taxes or fees are available and such Taxes or fees shall be re-prorated upon the request of Seller, on the one hand, or Exercising Buyers, on the other hand, within sixty (60) days of the date that the actual amounts become available. Seller and Exercising Buyers agree to furnish each other with such documents and other records as may be reasonably requested in order to confirm all adjustment and proration calculations made pursuant to this Section 2.12.

2.13 Closing Costs; Transfer Taxes and Fees. Exercising Buyers shall be solely liable for, and each shall pay its proportionate share (based on the applicable percentage of the Facility Assets to be purchased by such Exercising Buyer) of, and Seller shall be solely liable and shall pay its share of, all (i) recording, documentary and transfer Taxes and any sales, use or other Taxes imposed on such Party by reason of the transfer of the Facility Assets as provided hereunder (excluding Taxes imposed on or measured by the net income or profits of Seller), and any deficiency, interest or penalty asserted with respect thereto, under applicable Laws ("***Transfer Taxes***"), and (ii) except as set forth in Section 2.3 and Section 2.12, all transaction costs incurred by it in connection with the exercise of the Project Purchase Option and the Closing (including the costs and expenses of its outside legal counsel and advisors). Each Party shall provide the other Parties with evidence satisfactory to the other Parties that such Transfer Taxes have been paid. The Parties acknowledge that a Party's obligation to collect Taxes from another Party on whom such Taxes are imposed shall not constitute an actual imposition of such Taxes on the collecting Party.

2.14 Decommissioning and Other Costs. Unless a Closing occurs pursuant to the exercise by Buyers of the Project Purchase Option, Buyers shall not be responsible for any cost of decommissioning or demolition of the Facility or any environmental or other liability associated with such decommissioning or demolition, without regard to the timing or cause of such decommissioning or demolition.

2.15 Closing Obligations. At the Closing: (a) Seller will deliver (or will have delivered) to Buyers' Agent each of the certificates, instruments, documents and agreements referred to in Article VII to be provided by Seller on or prior to the Closing, and (b) each Exercising Buyer will deliver (or will have delivered) to Seller (i) its proportionate share of the Final Purchase Price, and (ii) each of the certificates, instruments, documents and agreements referred to in Article VIII to be provided by an Exercising Buyer on or prior to the Closing.

2.16 Bulk Sales Law. Unless waived by Exercising Buyers, Seller shall, prior to the Closing, comply with the requirements of sellers under any applicable bulk sales law.

ARTICLE III
REPRESENTATIONS AND WARRANTIES OF SELLER

Upon the exercise of the Project Purchase Option, Seller represents and warrants to Exercising Buyers as follows as of the Schedule Delivery Date and the Closing Date, and, with

respect to Sections 3.1 and 3.2, the Effective Date (with the understanding that, following the Schedule Delivery Date, Seller shall have the right, until it delivers final Seller Disclosure Schedules as provided in Section 2.11(a), to update any information contained in the Seller Disclosure Schedules if the occurrence of events or the discovery of new information makes the revision of such Seller Disclosure Schedules necessary, subject to a Purchase Price adjustment as set forth in ***Exhibit 2.5*** and the limitations on the effect of such revisions set forth in Section 2.11(a)):

3.1 Organization and Good Standing. Seller is a limited liability company duly organized, validly existing and in good standing under the laws of its state of organization and is qualified to do business in the State of California, and has the legal power and authority to own or to hold its interests in properties, to carry on its Business as now being conducted and to enter into and perform its obligations under this Agreement and each of the Operative Documents to which Seller is a party.

3.2 Authority; Absence of Conflict or Breach. The sale of the Facility Assets and the execution, delivery and performance by Seller of this Agreement and each of the Operative Documents executed and delivered by Seller in connection with such sale have been duly authorized by all necessary limited liability company action on the part of Seller and the direct or indirect owners of any interest in Seller and do not require any consent or approval other than those which have already been obtained or otherwise as disclosed in the Seller Disclosure Schedules. This Agreement and each of the Operative Documents to which Seller is a party constitutes the legal, valid and binding obligation of Seller, enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors' rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law. The execution and delivery of this Agreement and each of the Operative Documents to which Seller is a party, the consummation of the sale of the Facility Assets and the fulfillment of and compliance with the provisions of this Agreement and the Operative Documents to which Seller is a party do not conflict with or constitute a breach of or a default under, any of the terms, conditions or provisions of any Requirements of Law, or any Organizational Documents, agreement, deed of trust, mortgage, loan agreement, other evidence of indebtedness or any other agreement or instrument to which Seller is a party or by which it or any of its property is bound, or result in a breach of or a default under any of the foregoing or result in or require the creation or imposition of any Lien upon any of the properties or assets of Seller, except as contemplated hereby.

3.3 Real Property Matters

(a) ***Schedule 3.3(a)*** contains a true, correct and complete list of any Contracts, including the Site Control Documents, that provide Seller with any rights in or to real property ("***Real Property Contracts***"), including rights in the nature of leases, easements, licenses, rights of way, franchise agreements, restrictive covenants, purchase agreements, agreements to relinquish or limit surface access rights with regards to minerals, options to purchase or lease, or applications for or bids to Governmental Authorities with respect to any of the foregoing interests in real property (collectively, "***Real Property Interests***"), as well as leases (including farm and grazing leases) and other agreements that grant or

purport to grant, or reserve or purport to reserve, to third parties, interests in or to the land which is subject to Real Property Interests ("***Third Party Property Interests***"). True, correct and complete copies of the Real Property Contracts have been delivered to Buyers' Agent. Seller holds no Real Property Interests other than those that are set forth in such Real Property Contracts. Except as set forth in ***Schedule 3.3(a)***, neither Seller, nor to Seller's Knowledge, any counterparty thereto, is in default in any material respect of any obligation with respect to the Real Property Contracts. Except as set forth in ***Schedule 3.3(a)***, each of the Real Property Interests granted by a Real Property Contract provides legal, valid, and enforceable rights in favor of Seller and constitutes a legal, valid and binding obligation of Seller and, to Seller's Knowledge, of the other parties thereto. True, correct and complete copies of all title reports, surveys, mineral reports for any severed minerals (including any evaluation as to feasibility or likelihood of mineral extraction and any separate chain of title for severed minerals), material records searches (for any governmental records not included in any title reports) and exception documents referenced in such reports, policies, or searches have been delivered to Buyers' Agent.

(b) Except as set forth in ***Schedule 3.3(b)***, Seller has not received any written notice of any appropriation, condemnation or like proceeding, or of any violation of any applicable zoning or land use law, regulation or rule or other law, Order, regulation, rule or requirement relating to or affecting any of the Real Property Interests.

(c) Except as set forth in ***Schedule 3.3(c)***, Seller has not previously severed any mining, mineral or water rights from any of the Real Property Interests and has disclosed to Exercising Buyers any information regarding any severed mining, mineral or water rights affecting the Real Property Interests.

(d) Except as set forth in ***Schedule 3.3(d)***, other than with respect to the Real Property Contracts or Permits, Seller has not received any written notice that any agreements with any Governmental Authority or public or private utility affect the Real Property Interests.

(e) None of the Real Property Interests has been designated as Border Zone Property under the provisions of California Health and Safety Code, Sections 25220 et seq. or any regulation adopted in accordance therewith, and to Seller's Knowledge, there has been no occurrence or condition on any real property adjoining any of the Real Property Interests that is reasonably likely to cause such Real Property Interest or any part thereof to be designated as border zone property.

3.4 Consents. Except as set forth in ***Schedule 3.4,*** other than those that have been obtained or filed, no Consent of, or registration, qualification or filing with any Person, including any Governmental Authority, is required for the sale of the Facility Assets or the execution and delivery by Seller of this Agreement or any of the Operative Documents to which it is a party or in order for Seller to perform its obligations hereunder or thereunder.

3.5 Assets of the Business. Except as set forth in ***Schedule 3.5***, the Facility Assets constitute all of the assets, properties, rights, material privileges, claims and Contracts of every kind and nature, real or personal, tangible or intangible, absolute or contingent, wherever located,

owned or used (including those necessary to access and utilize any common use facilities) comprising the Facility as owned and historically operated by Seller prior to the Closing.

3.6 Title to Facility Assets. On the Schedule Delivery Date, Seller has good (and with respect to real property, marketable) title to the Facility Assets, free and clear of all Liens, except for the Purchase Option Permitted Encumbrances. Upon the Closing, Exercising Buyers will acquire good (and with respect to the Real Property Interests, marketable) title to the Facility Assets free and clear of all Liens, except for Closing Permitted Encumbrances.

3.7 Environmental. Except as set forth in ***Schedule 3.7***, and except as not having (or not reasonably likely to have) a Material Adverse Effect:

(a) To Seller's Knowledge, there are no threatened, pending or outstanding Agency Actions concerning the Facility or the Premises with respect to Environmental Laws applicable to Seller, the Facility, the Premises, or Seller's ownership, operation and use of the Facility. Seller is, and at all times has been, and has owned and operated (or its designee has operated) the Facility and the Premises, in compliance with all applicable Environmental Laws. There are no writs, injunctions, decrees, Orders or judgments outstanding, or, to Seller's Knowledge, any notices, actions, suits, Proceedings or investigations outstanding, pending or threatened, relating to (i) Seller's compliance with any Environmental Laws with respect to any of the Facility Assets, the Premises, or any other asset owned or used by Seller or in which it has or had an interest, or (ii) the Release of any Hazardous Substances at the Premises.

(b) All Permits required by Environmental Laws and necessary for the operation of the Facility as currently configured and as historically operated by Seller have been obtained and are currently in effect; Seller's operations at the Premises and in connection with the Facility Assets are in compliance in all material respects with all the requirements of such Permits; and, to Seller's Knowledge, Seller is not subject to any pending notice of violation from any Governmental Authority or from any other Person alleging that Seller has committed any act, or failed to act, in any manner or under any circumstance that would preclude continued operation of the Facility Assets, including the Premises, under any Permits.

(c) Each of the Facility Assets and Seller is in material compliance with all Environmental Laws.

(d) To Seller's Knowledge, there are currently no circumstances or conditions existing on the Premises that could reasonably be expected to prevent or adversely interfere with Seller's compliance with Environmental Laws in connection with the Facility Assets and use of the Premises.

(e) Hazardous Substances have not been generated, used, treated or stored on, or transported by or on behalf of Seller to or from any of the Premises in violation of Environmental Laws.

(f) There is no asbestos contained in or forming any part of any building, building component, structure or other asset that is part of the Facility Assets, and no

asbestos is or has been stored, disposed of or otherwise been present at the Premises or on or in any of the Facility Assets. Seller does not have any liability arising from asbestos in connection with the use, operation, renovation or demolition of any of the Facility Assets.

(g) There has been no Release or threatened Release of Hazardous Substances by Seller or any party under the reasonable control of Seller, and, to Seller's Knowledge, there has been no Release or threatened Release of Hazardous Substances by any other party, at, on, under or from any of the Premises or at, on, under or from any property adjoining any of the Premises, other than in compliance with applicable Environmental Laws or as has previously been remediated in accordance with applicable Environmental Laws.

(h) In connection with its ownership and operation of the Facility Assets, Seller has disposed of all hazardous or toxic wastes, including those containing any Hazardous Substances, in compliance with all applicable Environmental Laws, and Seller has not received any written notice or demand letter from any Person claiming Seller may be liable for any on- or off-site Release or threatened Release of Hazardous Substances.

(i) There are not now, and, to Seller's Knowledge, never have been, any aboveground or underground storage tanks or PCB-containing transformers or equipment located at the Premises.

(j) Seller has provided Buyers' Agent with all material written reports, surveys, studies, correspondence, investigations, tests and environmental sampling and analyses (whether commissioned by Seller or otherwise) that are in Seller's custody or control concerning the wildlife, cultural resources, natural resources and the environmental condition of any of the Facility Assets, Hazardous Substances at, in, upon or under the Premises, or Seller's compliance with applicable Environmental Laws in the operation of the Facility or the use of the Facility Assets, except to the extent such documents are subject to attorney-client privilege or conflict with any confidentiality obligations to which Seller is bound.

(k) Seller has not received any written request for information or any written notification that it is a potentially responsible party under CERCLA or any similar state Environmental Law, including any such request or notification relating directly or indirectly to any of the Facility Assets, and none of the Premises is proposed to be listed or is listed on the National Priorities List under CERCLA or any similar state Environmental Law requiring environmental investigation or cleanup.

3.8 No Undisclosed Liabilities. Seller has no liabilities (absolute, accrued, contingent or otherwise) in excess of One Hundred Twenty-Five Thousand Dollars ($125,000) in the aggregate, except for (a) those set forth in ***Schedule 3.5***, ***Schedule 3.7***, ***Schedule 3.8***, ***Schedule 3.9***, ***Schedule 3.10***, or ***Schedule 3.11***, (b) those otherwise disclosed in writing to Exercising Buyers or explicitly set forth in any of the Assumed Contracts or Transferred Permits, (c) those constituting Excluded Liabilities, or (d) those disclosed in the Financial Statements.

3.9 Taxes. Any Liens for Taxes are set forth in ***Schedule 3.9.***

(a) There are no Liens for Taxes on any of the Facility Assets, except for (i) as of the Schedule Delivery Date, Purchase Option Permitted Encumbrances, and (ii) as of the Closing Date, Closing Permitted Encumbrances.

(b) The Facility Assets do not include any equity interest in any corporation or other entity.

(c) Seller has filed or caused to be filed with the appropriate Governmental Authorities all Tax Returns and reports relating to Seller required to be filed as of the Closing Date, all such Tax Returns were correct and complete in all material respects and all Taxes of Seller due and payable have been paid whether or not shown to be due on such Tax Returns and reports.

(d) Seller has not received any written notice from any Governmental Authority of, and has no other Knowledge of, any outstanding claims or assessments with respect to any Tax relating to the Facility Assets and, to Seller's Knowledge, no such claim is pending or being asserted against Seller or with respect to any of the Facility Assets.

(e) Seller has no Knowledge of any proposed tax assessment against the Facility Assets that is not being actively contested by it in good faith and by appropriate proceedings.

(f) Seller has timely paid all Taxes shown to be due on such Tax Returns, all Tax assessments received, and all Taxes that have or may become due under applicable Law with respect to all periods or portions thereof ending on or prior to the Closing Date.

(g) Seller is not a party to any pending Tax audit, investigation, action or Proceeding with any Governmental Authority, and, to Seller's Knowledge, there is no threatened audit, investigation, action or Proceeding by any Governmental Authority with respect to any of the Facility Assets. Seller has not received written notice of any claim by any Governmental Authority in any jurisdiction where it does not file Tax Returns or pay Taxes that it is or may be subject to Tax by that jurisdiction.

(h) Seller has timely withheld and timely paid all Taxes that are required to have been withheld and paid by it in connection with amounts paid or owing to any employee, independent contractor, creditor or other Person.

3.10 Compliance With Laws. Except as set forth in ***Schedule 3.10***, Seller is in compliance with all Laws applicable to the Facility Assets and operation and use of the Facility, except as would not have a Material Adverse Effect.

3.11 Litigation. Except as set forth in ***Schedule 3.11***:

(a) There are no Proceedings pending or, to Seller's Knowledge, threatened against Seller which could result, or have resulted in (i) the institution of legal proceedings to prohibit or restrain the operation of the Facility or any portion thereof, or the consummation of the transactions contemplated hereby, or (ii) a claim for damages

for which any Exercising Buyer could be liable or that could place any Lien or other encumbrance on the Facility Assets;

(b) There are no existing Orders, writs, injunctions, judgments or decrees of any court, arbitrator, tribunal or other Governmental Authority issued against Seller which could result, or have resulted in (i) the institution of legal proceedings to prohibit or restrain the operation of the Facility or any portion thereof, or the consummation of the transactions contemplated hereby, or (ii) a claim for damages for which any Exercising Buyer could be liable or that could place any Lien or other encumbrance on the Facility Assets.

3.12 Assumed Contracts. Seller has delivered or made available to Buyers' Agent true and complete copies of all Contracts. Except as set forth in ***Schedule 3.12***, all Assumed Contracts are in full force and effect, and neither Seller, nor any other party thereto, is in default under or in breach of any of them, nor does any event or condition exist that after notice or lapse of time or both could constitute a default thereunder or breach thereof on the part of Seller or any other party thereto (except for defaults, events of default and other events as to which requisite waivers have been, or prior to the Closing will have been, obtained). No approval, consent, or waiver of or by any Person that has not already been obtained is needed in order that the Assumed Contracts continue in full force and effect following the consummation of the transactions contemplated by this Agreement, and no Assumed Contract includes any provision, the effect of which may be to terminate (or give rise to a right of termination under) such Assumed Contract, or to give rise to, enlarge, or accelerate any obligations of Seller thereunder, or to give additional rights to any other Person, upon or by reason of the consummation of the transactions contemplated by this Agreement.

3.13 Intellectual Property.

(a) Except as set forth in ***Schedule 3.13***, Seller is the licensee of, or has such rights under the patents, patent applications, inventions, improvements, computer programs, computer applications, operating programs, other programs and software, including system documentation and instructions, engineering, construction and other drawings (other than drawings not needed for the operation, maintenance or repair of the Facility), designs, technology, know-how, trade secrets, trademarks, trademark applications, trade names, copyrights and other proprietary rights and proprietary information (to the extent any of the foregoing are necessary to operate and maintain the Facility in substantially the same manner as it has been operated and maintained during the Operations Period, collectively, the "***Intellectual Property Assets***"). Except as set forth in ***Schedule 3.13***, Seller has not received written notice that any of the Intellectual Property Assets infringes on or conflicts with the intellectual property of others. Seller has the right to use the Intellectual Property Assets in connection with its ongoing operation and maintenance of the Facility.

(b) Except as set forth in ***Schedule 3.13***, there have been no claims, and, to Seller's Knowledge, there is no basis for any claim, challenging the scope, validity or enforceability of any of the Intellectual Property Assets. Except as set forth in ***Schedule 3.13***, there are no instances where it has been held, or to Seller's Knowledge,

claimed or alleged, whether directly or indirectly, and, to Seller's Knowledge, there is no basis upon which such a claim may be made, that any activity of Seller relating to the ownership, operation or maintenance of the Facility, infringes or may infringe upon, is in violation of, or misappropriates, any rights of a third party.

(c) ***Schedule 3.13*** lists the software used in connection with the operation of the Facility as of the Schedule Delivery Date, including control room operating system software, all of which shall, except as set forth in ***Schedule 3.13***, remain available at the Facility for use by Exercising Buyers.

3.14 Brokers or Finders. Neither Seller nor any of its officers, directors, employees, shareholders or Affiliates has employed or made any agreement with any broker, finder or similar agent or any Person which will result in the obligation of any Exercising Buyer or any of their Affiliates to pay any finder's fee, brokerage fees or commission or similar payment in connection with the transactions contemplated hereby.

3.15 Permits. Except as set forth in ***Schedule 3.15***, all non-environmental Permits currently required by Law and necessary for the operation of the Facility as configured and historically operated by Seller have been obtained, are currently in effect, are final and non-appealable, and are transferrable to Exercising Buyers without the requirement of any third-party Consent. Seller's operations at the Premises and in connection with the Facility Assets are in compliance in all material respects with all of the requirements of such Permits. As of the Closing, Seller is not in possession of, and, to Seller's Knowledge, there is no reasonable basis for the issuance of, any written notice of violation or other notification from any Governmental Authority or from any other Person alleging that Seller has committed any act, or failed to act, in any manner or under any circumstance that could preclude continued operation of the Facility Assets, including the Premises, by Exercising Buyers under any of the Permits. Seller has made available to Exercising Buyers complete and correct copies of each Permit, together with all amendments thereto. No suspension, cancellation of termination of any Permit is threatened or imminent.

3.16 Investment Company Act. Seller is not an "investment company" or a company "controlled" by an "investment company" within the meaning of the Investment Company Act.

3.17 Employees and Employee Benefit Plans. Except as set forth in ***Schedule 3.17***, Seller does not have and has never had any employees, and Seller does not maintain or contribute to, and has not ever maintained or contributed to, any pension, profit-sharing, deferred compensation, bonus, stock, option, share, appreciation right, severance, group or individual health, dental, medical, life, insurance, survivor benefit or similar plan, policy or arrangement for the benefit of any director, officer, consultant or employee, whether active or terminated, of Seller.

3.18 No Shared Facilities. Except as set forth on ***Schedule 3.18***, there are no shared facilities (including control rooms, interties, buildings, or rights of way) required for the use or operation of the Facility or all or any portion of the Facility Assets.

3.19 General Representation. Except as set forth on ***Schedule 3.19***, no representation or warranty made by Seller, its agents and representatives in this Agreement or any of the Operative Documents or in any certificate or other agreement delivered by Seller to Buyers' Agent in connection with the transactions contemplated hereby or thereby contains any untrue statement of a material fact, or, to Seller's Knowledge, omits to state a material fact necessary in order to make the statements contained herein, in light of the circumstances in which they were made, not misleading. All material information contained in the Provided Materials is materially consistent with the information which has been used by Seller in the management of the Business and also with what has been or will be reported to Seller's management, equity holders and the Facility Lender in connection with the Business.

ARTICLE IV
REPRESENTATIONS AND WARRANTIES OF BUYERS

Each Exercising Buyer represents and warrants to Seller as follows as of the Closing Date:

4.1 Organization. Such Exercising Buyer is, (i) with respect to SCPPA and PWRPA, a validly existing California joint powers authority or (ii) with respect to Corona, Lodi, Moreno Valley and Rancho Cucamonga, a validly existing California municipal corporation, and has the legal power and authority to own its properties, to carry on its business as now being conducted and to enter into this Agreement, and to carry out the transactions contemplated hereby and thereby, and to perform and carry out all covenants and obligations on its part to be performed under and pursuant to this Agreement.

4.2 Authority; Binding Nature. The purchase of the Facility Assets and the execution, delivery and performance by such Exercising Buyer of this Agreement and each of the Operative Documents executed by such Exercising Buyers and delivered by Buyers' Agent in connection with such purchase have been duly authorized by all necessary action on the part of each Exercising Buyer; provided that further authorizations from each Exercising Buyer will be required for such Exercising Buyer to exercise the Project Purchase Option. This Agreement and each of the Operative Documents to which each Exercising Buyer is a party constitute the legal, valid and binding obligation of such Exercising Buyer enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors' rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law. The execution and delivery of this Agreement and each of the Operative Documents to which each Exercising Buyer is a party, the consummation of the purchase of the Facility Assets and the fulfillment of and compliance with the provisions of this Agreement and each of the Operative Documents to which such Exercising Buyer is a party do not and will not conflict with or constitute a breach of or a default under, any of the terms, conditions or provisions of any Requirements of Law, or any Organizational Documents, agreement, deed of trust, mortgage, loan agreement, other evidence of indebtedness or any other agreement or instrument to which such Exercising Buyer is a party or by which it or any of its property is bound, or result in a breach of or a default under any of the foregoing.

4.3 Consents. Except as set forth in ***Schedule 4.3***, other than those that have been obtained or filed, no Consent of, or registration, qualification or filing with any Person, including any Governmental Authority, is required for the purchase of the Facility Assets or the execution and delivery by such Exercising Buyer of any of the Operative Documents to which it is a party or in order for such Exercising Buyer to perform its obligations hereunder.

4.4 Brokers or Finders. Neither such Exercising Buyer, nor any of its members, officers, directors, or employees, has employed or made any agreement with any broker, finder or similar agent or any Person which will result in the obligation of Seller or any of its Affiliates to pay any finder's fee, brokerage fees, or commission or similar payment in connection with the transactions contemplated hereby.

4.5 Litigation. There are no Proceedings pending, or to such Exercising Buyer's knowledge, threatened, against such Exercising Buyer which could materially and adversely affect its ability to perform its obligations with respect to the purchase of the Facility Assets pursuant to the Project Purchase Option.

4.6 Buyers' Agent. Buyers' Agent has been appointed as the agent for Buyers pursuant to an agreement among Buyers, a true and correct copy of which has been furnished to Seller, for the purposes of administering this Agreement and the transactions contemplated hereunder. Buyers' Agent has the power and authority to take such actions, grant such consents, and bind Buyers with respect to the matters provided for in this Agreement in a manner consistent with the term and conditions set forth in this Agreement.

ARTICLE V
COVENANTS OF SELLER PRIOR TO CLOSING DATE

5.1 Access to Materials. Prior to the Schedule Delivery Date, Seller will furnish to Buyers all information required to be furnished pursuant to Section 3.7(j). Between the Schedule Delivery Date and the Closing Date (or such earlier date upon which the applicable Purchase Option Opportunity has been declined, expired or is no longer in effect, or when the Agreement has terminated) (such period, the "***Applicable Diligence Period***"), upon reasonable advance notice, Seller will (a) afford Buyers and their Representatives (and the Qualified Appraiser) full and complete access during normal business hours to the Facility and to Seller's personnel, Assumed Contracts, Transferred Permits, Books and Records, properties and other documents and data (provided that Buyers shall observe, and shall cause its Representatives to observe, all of Seller's security protocols), (b) furnish Buyers and Buyers' Representatives (and the Qualified Appraiser) with copies of all such Assumed Contracts, Transferred Permits, Books and Records, and other existing documents and data in Seller's possession or to which Seller has access with respect to the Facility or pertaining to the design of the Facility (including, without limitation, design schematics, blueprints or other similar documents) and other Facility Assets as any Buyer or the Qualified Appraiser may reasonably request, and (c) furnish Buyers and their Representatives (and the Qualified Appraiser) with such additional financial, operating, and other data and information of or pertaining to the Business in Seller's possession or to which Seller has access as any Buyer and its representatives (and the Qualified Appraiser) may reasonably request (all such Assumed Contracts, Transferred Permits, Books and Records, documents, data and information required to be furnished by Seller under this Section 5.1 shall

hereinafter be referred to as "***Provided Materials***"). Buyers shall have the right to diligently review the Provided Materials. To the extent any Provided Materials are (i) subject to confidentiality, non-disclosure or similar agreements in favor of third parties whose consent to disclose cannot be obtained by the Closing (ii) legally-privileged information of Seller, or (iii) concerning any alleged dispute or pending litigation, investigation or Proceeding involving Seller or its Affiliates that is protected by or subject to the attorney-client privilege, or (iv) restricted by an agreement entered into in connection with such dispute, litigation, investigation or Proceeding or an order entered by any court, such Provided Materials shall be redacted as necessary to allow for disclosure to Buyers and the Qualified Appraiser.

5.2 Investigations. During the Applicable Diligence Period, upon reasonable advance notice (but not less than twenty-four (24) hours), Seller shall afford each Buyer and its Representatives (and the Qualified Appraiser), with reasonable access to the Facility Assets for the purpose of inspecting the same, to conduct any performance tests or physical inspections or otherwise (including to conduct a Phase 1 environmental site assessment), during normal business hours and in such manner so as not to materially disturb or interfere with the normal operations of the Facility Assets, provided that each Buyer (or each Exercising Buyer, as applicable) shall indemnify Seller for any damage to the Facility Assets, suits and causes of action, claims, charges, damages, demands, judgments, civil fines and penalties, or losses of any kind or nature whatsoever, for death, bodily injury or personal injury to any person, including Seller's employees and agents, or third persons, or damage or destruction to any property of Seller or third persons, incurred in connection with such investigations.

5.3 Financial Statements. On the Schedule Delivery Date, Seller will deliver to Buyers' Agent unaudited balance sheets and unaudited statements of income and cash flow of Seller for the three (3) most recent fiscal years of Seller, prepared in material compliance with GAAP and certified by an officer of Seller. From and after the Schedule Delivery Date, as soon as available and in any event during the Applicable Diligence Period or the end of each fiscal quarter of Seller, Seller will provide Buyers' Agent with unaudited statements of income and cash flow for such quarter, setting forth in comparative form figures for the corresponding period of the preceding fiscal year, accompanied by a certificate signed by an authorized officer of Seller stating that such financial statements present fairly the financial condition of Seller and that the same have been prepared in material compliance with GAAP. Seller will also deliver to Buyers' Agent copies of all financial statements or other financial information delivered to any Facility Lender during the Applicable Diligence Period contemporaneously with the delivery thereof to such Facility Lender; provided that Seller shall have the right to redact financial information provided to any such Facility Lender unrelated to the Facility. The financial statements required to be provided by Seller to Buyers' Agent under this Section are collectively referred to as the "***Financial Statements***."

5.4 Operation of the Business. During the Applicable Diligence Period, Seller will conduct its Business with respect to the Facility in all material respects in accordance with the ordinary course of business consistent with past practices and Prudent Utility Practices.

5.5 Disposition of Assets. During the Applicable Diligence Period, unless required by any Material Contract existing prior to the Schedule Delivery Date, Seller shall not (a) sell or otherwise dispose of or encumber (other than Purchase Option Permitted Encumbrances) any of

the Facility Assets or any other property or assets which are primarily related to the operation, maintenance and use of the Facility (other than sales, leases, transfers or dispositions in the ordinary course of business consistent with past practice and Prudent Utility Practices), or (b) except as may be required by their terms, and except in the ordinary course of business consistent with past practice, modify, subordinate, amend, terminate, cancel, sever or surrender, or permit or suffer the modification, subordination, amendment, termination, cancellation, severance or surrender of any Assumed Contract, Transferred Permit or Warranties, without the prior written approval of Buyers.

5.6 Required Approvals. As promptly as practicable following Buyers' Agent's delivery of the Purchase Option Exercise Notice until the end of the Applicable Diligence Period, Seller will make, and thereafter diligently pursue during the Applicable Diligence Period, all registrations, qualifications or filings to be identified in ***Schedule 3.4*** or necessary or appropriate to obtain all the Consents therein identified.

5.7 Notification. During the Applicable Diligence Period, Seller shall give prompt notice (each notice, a "***Breach Notice***") to Buyers' Agent of the occurrence or non-occurrence of any event, change, effect or development of any kind which would or might cause (a) any representation or warranty of Seller contained in any Operative Document or this Agreement to be untrue or incorrect in any material respect on the date such representation or warranty is to be made, (b) a Material Adverse Effect, or (c) a breach of any of Seller's covenants under this Agreement or any Operative Document. Each Breach Notice must include a detailed description of the event, change, effect, development or failure and a description of the action Seller has taken and proposes to take with respect thereto. The delivery of, or the failure to deliver, a Breach Notice will not be deemed to (i) modify any representation or warranty hereunder, (ii) modify any condition set forth in Article VII, or (iii) limit or otherwise affect the remedies available hereunder to Buyers.

5.8 Reasonable Efforts. Following Buyers' Agent's delivery of the Purchase Option Exercise Notice and until the end of the Applicable Diligence Period, Seller will, or will cause its Affiliates to use all commercially reasonable efforts to satisfy the conditions in Article VII and Article VIII to be performed by Seller or such Affiliates.

5.9 Waivers of Claims. During the Applicable Diligence Period, Seller shall not cancel or compromise any debt or claim, or waive or release any material right relating to the Facility Assets and the Assumed Liabilities.

5.10 Additional Contracts. Any Contract entered into by Seller during the Applicable Diligence Period shall be considered an Excluded Liability unless Exercising Buyers agree in writing to include such Contract as an Assumed Contract.

5.11 Transitional Services. At the option of Exercising Buyers, during the period between Buyers' Agent's delivery of the Purchase Option Tentative Exercise Notice until the earliest to occur of (a) Buyers' Agent's delivery of the Purchase Option Exercise Notice, (b) the Purchase Option Exercise Deadline, (c) termination of the relevant Purchase Option Opportunity, or (d) termination of this Agreement, Exercising Buyers and Seller shall negotiate in good faith an agreement for transition operation and maintenance services from Seller to upon terms and

conditions to be mutually agreed upon by both Parties, in form and substance consistent with Exhibit 5.11.

ARTICLE VI
COVENANTS OF TENTATIVE EXERCISING BUYERS PRIOR TO CLOSING DATE

6.1 Notification. During the Applicable Diligence Period, each Tentative Exercising Buyer (and following the delivery of a Purchase Option Exercise Notice, each Exercising Buyer), shall give prompt notice to Seller of the occurrence or non-occurrence of any event, change, effect or development of any kind which would or might cause (a) any representation or warranty of such Tentative Exercising Buyer or Exercising Buyer contained in any Operative Document or this Agreement to be untrue or incorrect in any material respect on the date such representation or warranty is to be made, or (b) a breach of such Tentative Exercising Buyer's or Exercising Buyer's covenants under this Agreement or any Operative Document. Each Breach Notice must include a detailed description of the event, change, effect, development or failure and a description of the action such Tentative Exercising Buyer or Exercising Buyer has taken and proposes to take with respect thereto. The delivery of a Breach Notice will not be deemed to (i) modify any representation or warranty hereunder, (ii) modify any condition set forth in Article VIII, or (iii) limit or otherwise affect the remedies available hereunder to Seller.

6.2 Required Approvals. As promptly as practicable following Buyers' Agent's delivery of the Purchase Option Exercise Notice and until the end of the Applicable Diligence Period, each Exercising Buyer will make, and thereafter during the Applicable Diligence Period pursue, all registrations, qualifications or filings identified in ***Schedule 4.3*** or necessary or appropriate to obtain any Consent therein identified, consistent with and based upon Seller's acknowledgement and agreement in Section 2.3, and Seller shall provide assistance to Exercising Buyers in connection therewith.

6.3 Reasonable Efforts. Following Buyers' Agent's delivery of the Purchase Option Exercise Notice until the end of the Applicable Diligence Period, each Exercising Buyer will use reasonable efforts to cause the conditions to be performed by such Exercising Buyer in Article VII and Article VIII to be satisfied.

ARTICLE VII
CONDITIONS PRECEDENT TO EXERCISING BUYERS' OBLIGATION TO CLOSE

Each Exercising Buyer's obligation to purchase the Facility Assets and to take the other actions required to be taken by such Exercising Buyer at the Closing Date is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be collectively waived by Exercising Buyers in their sole discretion, in whole or in part):

7.1 Accuracy of Representations. All of the representations and warranties of Seller in this Agreement and the other Operative Documents qualified by materiality shall be true and correct as so qualified on and as of Closing date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date). Each of the representations and warranties made by Seller in this Agreement and not qualified by materiality shall be true and correct on and as of the Closing date as though made on and as of such date,

except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date).

7.2 Seller's Performance. All of the covenants and obligations that Seller is required to perform or to comply with pursuant to this Agreement or any of the other Operative Documents at or prior to the Closing (considered collectively), and each of these covenants and obligations (considered individually), must have been duly performed and complied with in all material respects.

7.3 Consents. Each of the Consents identified in ***Schedule 3.4*** and ***Schedule 4.3*** must have been obtained and must be in full force and effect.

7.4 Additional Seller Documents. Seller shall deliver each of the following documents to Buyers' Agent:

(a) an opinion of Seller's counsel, dated the Closing Date, addressed to each Exercising Buyer with respect to the sale of the Facility Assets pursuant to this Agreement and related matters in form and substance acceptable to Buyers' Agent;

(b) a written certificate, in form and substance satisfactory to Buyers' Agent, executed and delivered by Seller by its authorized officer, certifying that each of the conditions specified in Sections 7.1, 7.2 and 7.3 have been satisfied;

(c) one or more Bill of Sale documents, dated as of the Closing Date, in form and substance reasonably acceptable to Buyers' Agent (collectively, the "***Bill of Sale***"**)**, and executed by Seller by its authorized officer;

(d) agreements and related documentation effective to transfer to Exercising Buyers the Transferred Permits, the Assumed Contracts, the Real Property Contracts, and any other Facility Assets (together with the Bills of Sale, the "***Asset Assignment Documents***"), executed by Seller by its authorized officer;

(e) an irrevocable commitment by a title company acceptable to Buyers' Agent to issue an extended coverage owner's policy of title insurance based upon a recent ALTA survey, including such endorsements as Exercising Buyers may reasonably require, insuring Exercising Buyers in the amount of the Final Purchase Price, that title to the Premises (in fee, leasehold and/or easement, as applicable) is vested in Exercising Buyers, subject only to those exceptions that are Closing Permitted Encumbrances;

(f) confirmation in writing by Seller that any existing operations and maintenance agreement with respect to the Facility shall terminate upon the Closing Date (unless (i) Exercising Buyers elect to assume such agreement, in which case such agreement shall be deemed an Assumed Contract or (ii) the operations and maintenance provider under the operations and maintenance agreement will be providing transition services in connection with the services to be provided by Seller pursuant to a transition services agreement entered into in accordance with Section 5.11, in which case such operations and maintenance agreement shall terminate upon the termination of the transition services agreement);

(g) duly executed pay-off letters for the release or termination of all Liens securing Facility Debt that acknowledge repayment in full of such Facility Debt (unless Exercising Buyers otherwise agree in writing that any such Liens shall not be released or terminated); and

(h) such other documents as Buyers' Agent may reasonably request for the purpose of (i) evidencing the accuracy of any of Seller's representations and warranties, (ii) evidencing the performance by Seller of, or the compliance by Seller with, any covenant or obligation required to be performed or complied with by Seller, including under Section 2.3, or (iii) evidencing the satisfaction of any condition referred to in this Article VII.

7.5 Litigation. No Proceeding shall have been instituted or any other action taken or Law or Environmental Law enacted, promulgated or deemed applicable by any Governmental Authority or by any other Person and, at what would otherwise have been the Closing Date, remain pending, to delay, restrain or prohibit any part of the transactions contemplated by this Agreement or to seek any divestiture or to revoke or suspend any Permit by reason of any or all of the transactions contemplated by this Agreement; nor shall any Governmental Authority have notified any Party or any of their respective Affiliates that consummation of any part of the transactions contemplated by this Agreement would constitute a violation of the Laws or Environmental Laws of any jurisdiction or that it intends to commence a Proceeding to restrain or prohibit any part of the transactions contemplated by this Agreement or to require such divestiture, revocation or suspension; unless, in any such case, such Governmental Authority or other Person shall have withdrawn such notice and abandoned such Proceeding, action, Law or Environmental Law to the satisfaction of Exercising Buyers.

7.6 Liens. Title to the Facility Assets shall be free and clear at the Closing of all Liens other than Closing Permitted Encumbrances. Following the Schedule Delivery Date and prior to the determination of the Tentative Purchase Price, Buyers' Agent shall provide Seller with a written notice setting forth Buyers' Agent's approval of any Liens with respect to the Facility Assets that Buyers' Agent expressly approves for inclusion as Closing Permitted Encumbrances.

7.7 No Material Adverse Effect. During the Applicable Diligence Period, no action shall have been taken or omitted and no event shall have occurred or be threatened which has had or could reasonably be expected to result in a Material Adverse Effect.

7.8 Final Purchase Price. All adjustments to the Tentative Purchase Price required under Section 3 of ***Exhibit 2.5*** shall have been made, including any adjustments required as a result of updates to the Seller Disclosure Schedules delivered by Seller pursuant to Section 2.11(a).

7.9 Disclosure Schedules. During the Applicable Diligence Period, none of Seller's updates to the Seller Disclosure Schedules delivered pursuant to Section 2.11 individually or in the aggregate, materially or adversely modify or amend any of Seller's representations and warranties, as determined by Exercising Buyers, in their sole discretion.

ARTICLE VIII
CONDITIONS PRECEDENT TO SELLER'S OBLIGATION TO CLOSE

Seller's obligation to sell the Facility Assets and to take the other actions required to be taken by Seller at the Closing Date is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by Seller in its sole discretion, in whole or in part):

8.1 Accuracy of Representations. Each Exercising Buyer's representations and warranties in this Agreement and the other Operative Documents qualified by materiality shall be true and correct as so qualified on and as of Closing date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date). Each of the representations and warranties made by each Exercising Buyer in this Agreement and not qualified by materiality shall be true and correct on and as of the Closing Date as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date).

8.2 Exercising Buyers' Performance.

(a) All of the covenants and obligations that each Exercising Buyer is required to perform or to comply with pursuant to this Agreement or any of the other Operative Documents at or prior to the Closing (considered collectively), and each of these covenants and obligations (considered individually), must have been performed and complied with.

(b) Each Exercising Buyer must have paid its proportionate share (based on the applicable percentage of the Facility Assets to be purchased by such Exercising Buyer) of the Final Purchase Price to Seller.

8.3 Consents. Each of the Consents identified in ***Schedule 3.4*** and ***Schedule 4.3*** must have been obtained and must be in full force and effect.

8.4 Additional Buyers Documents. Buyers' Agent shall deliver each of the following documents to Seller:

(a) one or more legal opinions with respect to the enforceability and due authorization by each Exercising Buyer of this Agreement;

(b) a Bill of Sale and other Asset Assignment Documents executed by Exercising Buyers; and

(c) such other documents as Seller may reasonably request for the purpose of (i) evidencing the accuracy of any Exercising Buyer's representations and warranties, (ii) evidencing the performance by any Exercising Buyer of, or the compliance by such Exercising Buyer with, any covenant or obligation required to be performed or complied with by such Exercising Buyer, or (iii) evidencing of the satisfaction of any condition referred to in this Article VIII.

8.5 Litigation. No Proceeding shall have been instituted or any other action taken or Law or Environmental Law enacted, promulgated or deemed applicable by any Governmental Authority or by any other Person and, at what would otherwise have been the Closing Date, remain pending to delay, restrain or prohibit any material part of the transactions contemplated by this Agreement; nor shall any Governmental Authority have notified any Party or any of their respective Affiliates that consummation of any part of the transactions contemplated by this Agreement would constitute a violation of the Laws or Environmental Laws of any jurisdiction or that it intends to commence a Proceeding to restrain or prohibit any part of the transactions contemplated by this Agreement, unless, in any such case, such Governmental Authority or other Person shall have withdrawn such notice and abandoned such Proceeding, action, Law or Environmental Law to the satisfaction of Seller.

ARTICLE IX
MUTUAL COVENANTS, TAXES AND OTHER MATTERS

9.1 Tax Matters. Seller, at its own expense, will file, to the extent required by applicable Law, all necessary Tax Returns and other documentation with respect to its portion of any Transfer Taxes, and, if required by applicable Law, Seller will join in the execution of any such Tax Returns or other documentation and will take such positions in such returns as are reasonably requested by Buyers' Agent.

(a) With respect to Taxes to be prorated in accordance with Section 2.12 only, each Exercising Buyer shall prepare and timely file all Tax Returns required to be filed by such Exercising Buyer with respect to the Facility Assets, if any, and shall duly and timely pay all such Taxes, whether imposed on any Exercising Buyer or Seller, shown to be due on such Tax Returns. Each Exercising Buyer's preparation of any such Tax Returns shall be subject to Seller's approval, which approval shall not be unreasonably withheld. Exercising Buyers shall make such Tax Returns available for Seller's review and approval no later than fifteen (15) Business Days prior to the due date for filing such Tax Return. Within ten (10) Business Days after receipt of such Tax Return, Seller shall pay to Exercising Buyers Seller's proportionate share (based on the applicable percentage of the Facility Assets to be purchased by such Exercising Buyer) of the amount shown as due on such Tax Return, determined in accordance with Section 2.12.

(b) Each Exercising Buyer and Seller shall provide each other with such assistance as may reasonably be requested by any other Party in connection with the preparation of any Tax Return, any audit or other examination by any taxing authority, or any judicial or administrative Proceeding relating to liability for Taxes, and each will retain and provide the requesting Party with any records or information which may be relevant to such return, audit or examination, Proceedings or determination. Each Party will take any and all commercially reasonable steps, act in good faith, and cooperate fully, to permit the other Parties to comply with its obligations and secure its rights to indemnification hereunder.

(c) Seller will be entitled to any refunds or credits of Taxes relating to the Facility Assets for the period on or prior to the Closing Date (and such refunds and credits shall be Excluded Assets), and Exercising Buyers shall be entitled to such refunds

or credits of Taxes relating to the Facility Assets for the period on and after the Closing Date. Each Exercising Buyer and Seller will promptly notify and forward to the other Parties the amounts of any such refunds or credits received by such Party, but to which another Party is entitled, within sixty (60) days after receipt thereof.

(d) After the Closing, Buyers' Agent will notify Seller in writing, within thirty (30) days after their receipt, of any correspondence, notice or other communication from a taxing authority or any representative thereof, of any pending or threatened tax audit, or any pending or threatened Proceeding that involves Taxes relating to the Facility Assets for the period prior to the Closing, and furnish Seller with copies of all correspondence received from any taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Facility Assets for the period prior to the Closing. After the Closing, Seller will notify Buyers' Agent in writing, within thirty (30) days after its receipt, of any correspondence, notice or other communication from a taxing authority or any representative thereof, of any pending or threatened tax audit, or any pending or threatened judicial or administrative Proceeding that involves Taxes relating to the Facility Assets for the period after the Closing, and furnish Buyers' Agent with copies of all correspondence received from any taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Facility Assets for the period after the Closing.

(e) Notwithstanding any provision of this Agreement to the contrary, with respect to any claim for refund, audit, examination, notice of deficiency or assessment or any Proceeding that involves Taxes relating to the Facility Assets (collectively, "***Tax Claim***"), each Exercising Buyer and Seller will reasonably cooperate with one another in prosecuting and/or contesting any Tax Claim, including making available original books, records, documents and information for inspection, copying and, if necessary, introduction of evidence at any such Tax Claim contest or Proceeding and making employees available on a mutually convenient basis to provide additional information or explanation of any material provided hereunder with respect to such Tax Claim or to testify at Proceedings relating to such Tax Claim. Seller will control all Proceedings taken in connection with any Tax Claim that pertains entirely to any period prior to the Closing, and Buyers' Agent will control all Proceedings taken in connection with any Tax Claim that pertains to any period commencing after the Closing, and Seller and Buyers' Agent will jointly control all Proceedings taken in connection with any Tax Claim pertaining to any period commencing prior to and ending after the Closing; provided, however, that Buyers' Agent may request that Seller take any action reasonably necessary to remove any Liens on the Facility Assets relating to any Tax Claim that pertains to the period prior to or including the Closing. Buyers' Agent shall have no right to settle or otherwise compromise any Tax Claim which pertains entirely to the period prior to the Closing; Seller shall have no right to settle or other compromise any Tax Claim which pertains entirely to the period after the Closing and neither Buyers' Agent nor Seller shall have the right to settle or otherwise compromise any Tax Claim which pertains to the period both prior to and after the Closing without the other's prior written consent, which consent shall not be unreasonably withheld or delayed.

9.2 Seller Cooperation Post-Closing. To the extent consistent with the transition services agreement to be executed in connection with Section 5.11, Seller agrees that, for a period of two (2) years after the Closing, it will use good faith efforts to respond to inquiries from Buyers' Agent relating to the Facility or the Facility Assets.

9.3 Risk of Loss.

(a) If, during the Applicable Diligence Period, all or any material portion of the Facility is damaged or destroyed in whole or in part or becomes subject to or threatened with any condemnation or eminent domain proceeding (the "***Affected Portion***"), the Tentative Purchase Price shall be reduced by an amount that is equal to the greater of the (i) fair market value of the Affected Portion (such value to be determined as of the date immediately prior to such damage, destruction or actual or threatened condemnation or eminent domain proceeding) or (ii) the cost of repair of the Affected Portion, as determined by the Qualified Appraiser(s); provided, that if Seller elects to repair the Affected Portion, the Tentative Purchase Price shall be adjusted to reflect any reasonable increase in the value of the Facility based on the performance of such repairs. For the avoidance of doubt, any insurance proceeds shall belong to Seller, subject to application in accordance with the requirements of the Facility Debt.

(b) If, during the Applicable Diligence Period, all or any portion of the Facility is damaged or destroyed in whole or in part or becomes subject to or threatened with any condemnation or eminent domain proceeding, such that it cannot reasonably be expected (as determined by the Qualified Appraiser(s)) that, (i) in the case of damage or destruction, the Facility will be fully repaired within sixty (60) days after the Closing Date or (ii) in the case of a condemnation or eminent domain proceeding, such condemnation or eminent domain proceeding would have a Material Adverse Effect, then each Exercising Buyer may, in its sole discretion, elect to withdraw from the Project Purchase Option with respect to the relevant Purchase Option Opportunity, and such Purchase Option Opportunity shall expire and shall no longer be effective with respect to such Exercising Buyer and, should all Exercising Buyers withdraw from the Project Purchase Option with respect to such Purchase Option Opportunity, such withdrawal shall not affect any Buyer's right to exercise any Project Purchase Option with respect to any future Purchase Option Opportunity, or elect to terminate this Agreement.

9.4 Liabilities.

(a) From and after Closing, Exercising Buyers shall assume, shall pay, perform and discharge when due, and, as between Exercising Buyers and Seller, shall be solely responsible for, the Assumed Liabilities. Seller shall have no liability or obligation for the Assumed Liabilities from and after the Closing Date.

(b) Except for the Assumed Liabilities, Exercising Buyers shall not assume by virtue of this Agreement or the transactions contemplated by this Agreement, and Exercising Buyers shall have no liability under this Agreement for, the Excluded Liabilities.

ARTICLE X
TERM AND TERMINATION

10.1 Term. This Agreement shall become effective when it is executed by each of the Parties and delivered to the other Parties and the term of this Agreement shall continue for the Agreement Term (including the survival periods of those provisions with survivability under Section 2.3 of the PPA), or such other period as may be provided for in this Agreement, unless terminated earlier as provided in Section 10.2, or as provided elsewhere under this Agreement; *provided* that (a) the term of this Agreement shall in any event extend up to and including the Closing so long as Buyers shall be entitled under the terms of this Agreement to exercise their Project Purchase Option and (b) the provisions of this Agreement shall survive any Closing or termination of this Agreement as set forth in Section 10.3(b) and Section 11.1.

10.2 Termination Events. This Agreement may, by notice given prior to the Closing, be terminated:

(a) by any Buyer, in which event, such Buyer shall, without penalty to such Buyer, withdraw from its participation in this Agreement and this Agreement shall be terminated with respect to such Buyer, upon (i) a failure by Seller to perform any of its duties or obligations under this Agreement when and as due which is not cured to the reasonable satisfaction of such Buyer by the earlier of the Closing Date or the date that is thirty (30) days after receipt of written notice thereof from such Buyer, or (ii) an inaccuracy in any material respect of any representation, warranty, certification or other statement made by Seller or in any other document contemplated hereby or in any Operative Document at any time given by Seller in writing pursuant hereto or thereto, or in connection herewith or therewith at the time made or deemed to be made; *provided*, that, Exercising Buyers shall remain obligated to purchase all of the Facility Assets;

(b) by Seller upon (i) a failure by any Buyer to perform any of its duties or obligations under this Agreement when and as due which is not cured to the reasonable satisfaction of Seller (either by such Defaulting Buyer or any other Buyer) by the earlier of the Closing Date or the date that is thirty (30) days after receipt of written notice thereof from Seller, or (ii) an inaccuracy in any material respect of any representation, warranty, certification or other statement made by any Buyer herein or in any other document contemplated hereby or in any Operative Document at any time given by a Buyer in writing pursuant hereto or thereto, or in connection herewith or therewith at the time made or deemed to be made; *provided*, that, so long as the non-Defaulting Buyer or Buyers, as applicable, are able to purchase all of the Facility Assets, such termination of the Defaulting Buyer shall not affect the performance of any other Parties to this Agreement;

(c) either (i) by Exercising Buyers, if satisfaction of any of the conditions in Article VII has become impossible due to an event outside of Seller's reasonable control despite the exercise of due care and diligence (and in no event through the failure of Seller to comply with its obligations under this Agreement) and Exercising Buyers have not previously waived such condition; or (ii) by Seller, if satisfaction of any of the conditions in Article VIII has become impossible due to an event outside of Exercising

Buyers' reasonable control despite the exercise of due care and diligence (and in no event through the failure of Exercising Buyers to comply with their obligations under this Agreement) and Seller has not previously waived such condition on or before the Closing Date; or

(d) by (i) Seller, if a Default by all Buyers shall have occurred under the PPA and the PPA is terminated prior to or concurrently with this Agreement, (ii) Seller with respect to a Buyer, if a Default by such Buyer shall have occurred under the PPA and the PPA is partially terminated with respect to such Buyer, (iii) either Buyers, collectively, or Seller, individually, in the event that the PPA shall fail to be in full force and effect in accordance with its terms for any reason, or (iv) either Buyers, collectively, or Seller, individually, if any Buyer, Seller, or Seller Affiliate shall contest the validity or enforceability of the PPA or any Ancillary Document (as defined in the PPA) or any provision thereof in writing or deny that it has any further liability thereunder.

10.3 Effect of Termination.

In the event of termination of this Agreement:

(a) Upon a request from a Party, the other Parties will redeliver all documents, work papers and other material relating to the transactions contemplated hereby or by the other Operative Documents, whether obtained before or after the execution hereof, and each Party will withdraw any applications for approval of transfer of Permits and surrender any Permits already transferred, as necessary;

(b) The provisions of Article XII shall survive and continue in full force and effect;

(c) No Party shall have any liability or further obligation to the other Parties, except as stated in Sections 10.3(a) and (b), and except for any breach of representation, warranty or obligation arising under this Agreement or otherwise occurring prior to the proper termination of this Agreement. The foregoing provisions shall not limit or restrict the availability of specific performance or other injunctive relief to the extent that specific performance or such other relief would otherwise be available to a Party hereunder; and

(d) The PPA shall remain in full force and effect in accordance with its terms.

ARTICLE XI
LIMITATION OF LIABILITY

11.1 Survival of Representations, Etc. The representations, warranties, covenants, and agreements, and indemnities of the Parties contained herein shall survive the consummation of the transactions contemplated hereby for a period of two (2) years following the Closing Date other than representations, warranties, covenants, and agreements, and indemnities of Seller arising in connection with Section 3.1 and Section 3.2, which shall survive until the expiration of the applicable statute of limitation, in any event, without regard to any investigation made by any of the Parties or the fact that the damaged Party had knowledge of any misrepresentation or

breach of warranty or covenant at the time of Closing or at any other time. The expiration of any representation and warranty provided herein shall not affect the rights of a Party in respect of a Claim made by such Party with specificity and in a writing received by the other Parties prior to the expiration of such survival period.

11.2 Limitation of Liability. Notwithstanding anything contained in this Agreement to the contrary, in no event shall Seller's aggregate liability under this Agreement or any Operative Document to Buyers under any theory of liability (whether contract, tort, strict liability or otherwise) exceed one hundred percent (100%) of the Final Purchase Price, provided that the foregoing limitation shall not apply (A) to the extent based upon a breach of any representation or warranty made in Sections 3.1, 3.2, 3.4, or 3.9, or (B) to claims, written demands, actions, legal proceedings (in law or in equity) or arbitration, or Losses resulting from Buyer Third Party Indemnity Claims, or from Hazardous Substances that were present at or on the Premises on or prior to the Closing Date or that were released by Seller or any other person for whose conduct Seller is responsible at any time on or prior to the Closing Date.

11.3 Deductible. If the Closing occurs, no Party shall have any liability or obligation to the other Parties for breach of any representation or warranty under this Agreement or any Operative Document unless the aggregate amount for which such Party would be liable hereunder or thereunder, as applicable, but for this provision, exceeds an amount equal to one-half percent (0.5%) of the Final Purchase Price (the "***Deductible Amount***"), in which event such Party shall be liable for the aggregate amount of Losses; *provided* that individual claims of Five Thousand Dollars ($5,000) or less shall not be aggregated for purposes of calculating either the Deductible Amount and, *provided* further, that the Deductible Amount shall not apply, or be used in calculating whether the Deductible Amount has been met, in the event of (a) claims for indemnification arising under any of the items enumerated under (A) or (B) of Section 11.2 above, or (b) Seller Third Party Indemnity Claims.

ARTICLE XII
GENERAL PROVISIONS

12.1 Indemnification. As of the Closing and subject to Article 11:

(a) Seller, from and after the Closing Date, shall indemnify, defend and hold harmless each Exercising Buyer, their respective boards of directors, the officers and employees of each, the members of any Exercising Buyer (including, with respect to SCPPA, any Participating Member), and all of their respective commissioners, officers, agents, employees, advisors, and representatives (collectively, the "***Buyer Indemnitees***") from and against any Losses incurred by any of them that arise out of or result from (i) the breach of any of Seller's (1) representations and warranties contained in this Agreement or in any other agreement, instrument or other document delivered in connection herewith, as of the date when made, or (2) agreements, covenants or other obligations contained in this Agreement or in any other agreement, instrument or other document delivered in connection herewith, (ii) any and all taxes (or the nonpayment thereof) of Seller that are due and payable with respect to any period of time prior to the Closing Date, (iii) Excluded Liabilities or Excluded Assets, and (iv) any claims made by third parties (other than any Buyer Indemnitee) against any Buyer Indemnitee arising

with respect to injury or death, or loss or damage to, or loss of use of property of such third party prior to the Closing Date caused by the negligence, gross negligence, or willful misconduct of Seller ("***Buyer Third Party Indemnity Claims***").

(b) Each Exercising Buyer, from and after the Closing Date, shall indemnify, defend and hold harmless Seller, any RE Holdings Entity, and its and their officers, employees, agents, partners, or members (collectively, the "***Seller Indemnitees***") and the other Exercising Buyers (and each such other Exercising Buyer's Buyer Indemnitees) from and against any Losses that are caused by (i) the breach by such Exercising Buyer of any of its (1) representations and warranties contained in this Agreement, or (2) agreements, covenants or obligations contained in this Agreement; (ii) Assumed Liabilities of such Exercising Buyer; (iii) any claims made by third parties (other than any Seller Indemnitee) against any Seller Indemnitee or other Exercising Buyer (or its Buyer Indemnitees) arising with respect to injury or death, or loss or damage to, or loss of use of property of such third party after the Closing Date caused by the negligence, gross negligence, or willful misconduct of such Exercising Buyer ("***Seller Third Party Indemnity Claims***"); and (iv) any and all taxes (or the nonpayment thereof) of such Exercising Buyer that are due and payable with respect to any period of time arising from and after the Closing Date.

(c) Each Party shall promptly notify the other Parties of any action, suit, proceeding, demand, or breach (a "***Claim***") with respect to which such Party claims indemnification; *provided, however*, that failure of such Party to give such notice shall not relieve indemnifying Party of its obligations under this Section 12.1. If such Claim relates to any action, suit, proceeding, or demand instituted by a third party (a "***Third Party Claim***"), upon receipt of such notice, the indemnifying Party or Parties may assume the defense of such Third Party Claim, and in the case of such an assumption, such indemnifying Party or Parties shall have the authority, with consent of the indemnified Party (such consent not to be unreasonably withheld, conditioned or delayed), to negotiate, compromise, and settle such Third Party Claim, *provided*:

(i) each indemnifying Party confirms in writing, without qualification of any kind, that it is obligated to indemnify and defend the Buyer Indemnitees or Seller Indemnitees, as applicable, with respect to such Third Party Claim;

(ii) such indemnifying Party or Parties have selected counsel to handle the defense that is reasonably acceptable to the indemnified Party; and

(iii) such indemnifying Party or Parties establish to the reasonable satisfaction of the indemnified Party that they have (and will continue to have) adequate financial resources to defend, satisfy and discharge such action or claim.

(d) The indemnified Party shall retain the right to participate in the defense of any Third Party Claim, the defense of which has been assumed by the indemnifying Party or Parties pursuant hereto, but the indemnified Party shall bear and shall be solely responsible for its own costs and expenses in connection with such participation. In the event any indemnifying Party shall fail or not be able to assume the defense of any Third

Party Claim, then the indemnified Party shall control the defense and settlement thereof at the indemnifying Party or Parties' cost and expense, and any judgment on or settlement of such Third Party Claim shall be conclusive and binding on the indemnifying Parties for all purposes.

(e) The provisions of this Section 12.1 shall not be construed so as to relieve any insurer of its obligation to pay any insurance proceeds in accordance with the terms and conditions of valid and collectible insurance policies.

(f) No individual Representative of any Party shall be personally liable for any losses under the provisions contained in this Section 12.1. Except as set forth in Section 12.1(e), nothing herein shall relieve any Party of any liability to make any payment expressly required to be made by such Party pursuant to this Agreement.

12.2 Expenses. Except as otherwise expressly provided in this Agreement, each Party will bear its respective expenses incurred in connection with the preparation, execution, and performance of this Agreement and the transactions contemplated by this Agreement, including all fees and expenses of agents, representatives, counsel, and accountants. The Parties agree that, in any action to enforce the terms of this Agreement, each Party shall be responsible for its own attorney fees and costs. Each of the Parties was represented by its respective legal counsel during the negotiation and execution of this Agreement.

12.3 Ambiguity. The Parties acknowledge that this Agreement was jointly prepared by them, by and through their respective legal counsel, and any uncertainty or ambiguity existing herein shall not be interpreted against any Party on the basis that the Party drafted the language, but otherwise shall be interpreted in accordance with ***Exhibit 1.1***, Section 1.2, and according to the application of the rules on interpretation of contracts.

12.4 Voluntary Execution. The Parties acknowledge that they have read and fully understand the content and effect of this Agreement and that the provisions of this Agreement have been reviewed and approved by their respective counsel. The Parties further acknowledge that they have executed this Agreement voluntarily, subject only to the advice of their own counsel, and do not rely on any promise, inducement, representation or warranty that is not expressly stated herein.

12.5 Notices. All notices, requests, demands, consents, waivers, and other communications which are required or may be given under this Agreement shall be in writing (regardless of whether the applicable provision expressly requires a writing) and shall be deemed to have been duly given when given in the manner set forth in Section 14.2 of the PPA.

12.6 Entire Agreement; Amendments.

(a) This Agreement (including all Schedules and Exhibits) and the PPA contain the entire understanding concerning the subject matter herein and supersede and replace any prior negotiations, discussions or agreements between the Parties concerning that subject matter, whether written or oral, except as expressly provided for herein. Each Party acknowledges that no other party, representative or agent has made any promise, representation or warranty, express or implied, that is not expressly contained in

this Agreement or the other documents of even date herewith between the Parties that induced the other Parties to sign this document.

(b) This Agreement may be amended or modified only by an instrument in writing signed by each Party.

12.7 Further Assurances. The Parties agree to furnish upon request to the other Parties such further information, to execute and deliver to the other Parties such other documents, and to do such other acts and things, all as the other Parties may reasonably request for the purpose of carrying out the intent of this Agreement and the other Operative Documents, including in the case of Seller, to assist any Exercising Buyer in pursuing and obtaining any Consents or Permits required to be obtained in the name of such Exercising Buyer after the Closing Date.

12.8 Waiver. The failure of a Party to enforce or insist upon compliance with or strict performance of any of the terms or conditions hereof, or to take advantage of any of its rights hereunder, shall not constitute a waiver or relinquishment of any such terms, conditions or rights, but the same shall be and remain at all times in full force and effect.

12.9 Severability. In the event all or part of any of the terms, covenants or conditions of this Agreement, or the application of any such terms, covenants or conditions, shall be held invalid, illegal or unenforceable by any court having jurisdiction, all other terms, covenants and conditions of this Agreement and their application not adversely affected thereby shall remain in force and effect; provided, however, that the remaining valid and enforceable provisions materially retain the essence of the Parties' original bargain.

12.10 Consequential or Punitive Damages. No Party shall be liable to the other Parties for special, incidental, exemplary, indirect, punitive or consequential damages arising out of a Party's performance or non-performance under this Agreement, whether based on or claimed under contract, tort (including such Party's own negligence) or any other theory at law or in equity, including damages for lost revenues, income or profits.

12.11 Equitable Remedies. The Parties acknowledge that money damages may not be an adequate remedy for violations of this Agreement by Seller and that Buyers may, in their sole discretion, seek and obtain from a court of competent jurisdiction specific performance or injunctive or such other equitable relief as such court may deem just and proper to enforce this Agreement or to prevent any violation hereof. The Parties hereby waive any objection to specific performance or injunctive or other equitable relief.

12.12 Time of Essence. With regard to all dates and time periods set forth or referred to in this Agreement, time is of the essence.

12.13 Governing Law. This Agreement shall be interpreted, governed by, and construed under the laws of the State of California without consideration of conflicts of law principles. The venue for any litigation relating to this Agreement shall be in the County of Los Angeles and each Party hereby waives any objections on the basis of *forum non-conveniens* or otherwise with respect to the venue of any such action being heard in such counties.

12.14 Execution in Counterparts. This Agreement may be executed in counterparts and upon execution by each signatory, each executed counterpart shall have the same force and effect as an original instrument and as if all signatories had signed the same instrument. Any signature page of this Agreement may be detached from any counterpart of this Agreement without impairing the legal effect of any signature thereon, and may be attached to another counterpart of this Agreement identical in form hereto by having attached to it one or more signature pages.

12.15 Relationship of the Parties. This Agreement shall not be interpreted to create an association, joint venture or partnership between the Parties or to impose any partnership obligation or liability upon either such Party. No Party shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as an agent or representative of, the other Parties.

12.16 Third Party Beneficiaries. This Agreement shall not be construed to create rights in, or to grant remedies to, any third party as a beneficiary of this Agreement or any duty, obligation or undertaking established herein.

12.17 Provisions of PPA. The provisions of Section 1.2 ("Rules of Interpretation"), Section 12.8(b) ("Covenants of Seller related to Security Documents"), Section 14.3 ("Dispute Resolution"), Section 14.7 ("Assignment of Agreement"), Section 14.21 ("Confidentiality") and Section 14.22 ("Mobile-Sierra") of the PPA are incorporated herein in their entirety, *mutatis mutandis*.

12.18 Security Position. The rights of Buyers under this Agreement shall be subordinate to the rights of the Facility Lender, but prior and superior to any other Person that subsequently acquires an interest in the Facility.

12.19 Exhibits and Schedules. The Exhibits and Schedules referred to in and attached to this Agreement are incorporated herein in full by this reference. To the extent that the terms and conditions of an Exhibit or Schedule conflict with the terms and conditions of the main body of this Agreement, the terms and conditions of the main body of this Agreement shall control.

12.20 Relationship with PPA; Right of First Offer. Except as otherwise specifically stated herein, this Agreement is independent of the PPA and, as a separate agreement, shall survive the amendment or modification of the PPA, except as otherwise provided herein. In the event of a conflict between this Agreement and the PPA, this Agreement shall control. Notwithstanding the foregoing, this Agreement shall not be deemed to limit Buyers' Right of First Offer set forth in the PPA.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the Parties have executed and delivered this Agreement as of the date first written above.

EXHIBIT 1.1
to
ASTORIA 2 OPTION AGREEMENT
dated as of _____, 2014

DEFINITIONS; RULES OF INTERPRETATION

"***Affected Portion***" shall have the meaning ascribed to it in Section 9.3(a).

"***Affiliate***" means, as to any Person, any other Person that, directly or indirectly, is in control of, is controlled by or is under common control with, such Person, or is a director or officer of such Person or of an Affiliate of such Person. As used in this Agreement, "control" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of management, policies or activities of a Person, whether through ownership of voting securities, by contract or otherwise.

"***Agency Action***" means any notice of violation, complaint, order, consent, consent agreement, assessment of a fine or penalty or other similar demand for action brought by a Governmental Authority having the requisite authority and jurisdiction to bring such action.

"***Agreement***" means this Option Agreement.

"***Applicable Diligence Period***" shall have the meaning ascribed to it in Section 5.1.

"***Asset Assignment Documents***" shall have the meaning ascribed to it in Section 7.4(d).

"***Assumed Contracts***" means all of Seller's rights under the Contracts to which Seller is a party or to which the Facility is subject that are assigned to and assumed by Exercising Buyers as set forth in ***Schedule 3.12***.

"***Assumed Liabilities***" shall have the meaning ascribed to it in Section 2.9.

"***Bill of Sale***" means the document described in Section 7.4(c).

"***Books and Records***" means, to the extent relating to any period of time prior to the Closing, (a) all books, records, purchasing records, lists, files and papers in the possession of Seller or its agents pertaining to the Facility Assets and the Facility, and all records and lists concerning suppliers to and personnel of the Facility or Taxes with respect thereto; (b) all ledgers, and reports, plans, drawings, maps, photographs, technical manuals and operating records of every kind maintained by Seller with respect to the Facility, whether in hard copy or electronic format; and (c) all software used by Seller primarily in connection with the operation of the Facility, in each case to the extent transferable; provided that Books and Records may include inextricable information or data unrelated to the Facility, in which case such information or data may be redacted.

"***Breach Notice***" shall have the meaning ascribed to it in Section 5.7.

"***Business***" means the business of owning and operating the Facility.

"***Buyer***" and "***Buyers***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Buyer Indemnitees***" shall have the meaning ascribed to it in Section 12.1(a).

"***Buyers' Agent***" means the agent appointed by Buyers pursuant to a written agreement among Buyers and Buyers' Agent for the purpose of administering this Agreement and the transactions contemplated hereunder on behalf of Buyers, which agent may be modified from time to time, subject to the representation and warranty in Section 4.6, by written agreement among Buyers with notice thereof to Seller. As of the date of this Agreement, Buyers' Agent shall be SCPPA.

"***Buyer Third Party Indemnity Claims***" has the meaning set forth in Section 12.1(a).

"***CEQA***" means the California Environmental Quality Act.

"***CERCLA***" means the federal Comprehensive Environmental Response, Compensation and Liability Act.

"***Claim***" shall have the meaning ascribed to it in Section 12.1(c).

"***Closing***" shall have the meaning ascribed to it in Section 2.7.

"***Closing Date***" means the date on which the Closing is required to take place, as set forth in Section 2.2.

"***Closing Permitted Encumbrances***" means any Purchase Option Permitted Encumbrances other than those (i) that secure any form of Facility Debt or any other monetary obligation (other than Liens for Taxes not yet due), (ii) arising under subsection (f) (other than Liens imposed or asserted by Buyers) under the definition of "Purchase Option Permitted Encumbrances," and (iii) otherwise accepted by Buyers' Agent in writing.

"***Code***" means the Internal Revenue Code of 1986.

"***Commercial Operation Date***" shall have the meaning ascribed to it in the PPA.

"***Consent***" means any approval, consent, ratification, waiver, license, permit, certification, registration or other authorization (including any Governmental Approval).

"***Contract***" means any agreement, arrangement, lease, commitment, sales order, purchase order, indenture, mortgage, right, warrant or instrument, which provides for ownership or operation of the Facility and is intended to, or purports to be, or is required to be binding and enforceable as contemplated under this Agreement, other than the Permits.

"***Corona***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Deductible Amount***" shall have the meaning ascribed to it in Section 11.3.

"***Disclosure Schedules***" shall have the meaning ascribed to it in Section 2.4.

"***Effective Date***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Environment***" includes (a) the navigable waters, the contiguous zone, and the ocean waters of which the natural resources are under the exclusive management authority of the United States under the Magnuson-Stevens Fishery Conservation and Management Act and (b) any other surface water, ground water, drinking water supply, stream sediments, soil, land surface or subsurface strata, or ambient air, plant and animal life, and any other environmental medium or natural resource within the United States, or a foreign nation or under jurisdiction of the United States or a foreign nation.

"***Environmental Law***" means any applicable current or future treaty, constitution, law, statute, ordinance, rule, Order, decree, regulation or other directive which is legally binding and has been enacted, issued or promulgated by any Governmental Authority that imposes liability for or standards of conduct or compliance or other requirements or obligations concerning protection of health, or safety (in each case, to the extent relating to exposure to Hazardous Substances), natural resources or the Environment and includes all Hazardous Substances Law.

"***Excluded Assets***" means, notwithstanding any other provision of this Agreement, the following assets:

(a) cash, certificates of deposit and other bank deposits, treasury bills and other cash equivalents or other investments, on hand or in bank accounts, and all of Seller's bank accounts, intercompany accounts and accounts receivable;

(b) accounts and notes receivable relating to the period prior to the Closing Date, including amounts owing under the PPA;

(c) all of Seller's rights under the PPA and any other Contract between Seller and Buyers for the sale of Facility Energy or Capacity Rights from the Facility;

(d) any Contract between Seller and its Affiliates, other than for on-going operations and maintenance of the Facility;

(e) any Contract that is not an Assumed Contract and any Permit that is not a Transferred Permit;

(f) any computers not used primarily in connection with the Facility, any communication or data network systems not used primarily in connection with the Facility, and any other equipment not reasonably required to operate the Facility;

(g) all refunds or credits, if any, of Taxes due to or from Seller and (i) accrued prior to the Closing or (ii) which otherwise cannot be assigned by Law;

(h) all corporate, financial and tax records of Seller which (i) do not relate in whole or in part to the Facility, (ii) relates solely to any Excluded Asset, (iii) relates solely to any Excluded Liability, (iv) relates to the organization, existence, capitalization or debt financing of Seller, (v) relates to information about Seller or its Affiliates

pertaining to energy or project evaluation methodologies, economic evaluation of the Facility Assets (other than the Financial Statements), energy or natural gas price curves or projections or other economic predictive models, or (vi) do not constitute Books and Records;

(i) all rights to claims, refunds or adjustments against Buyers or any other third parties arising out of the period prior to the Closing Date;

(j) Seller's insurance policies; and

(k) the assets identified as "Excluded Assets" in ***Schedule 3.5***.

"***Excluded Liabilities***" shall have the meaning ascribed to it in Section 2.10.

"***Exercising Buyer***" or "***Exercising Buyers***" shall have the meanings ascribed in Section 2.5(b).

"***Facility***" shall have the meaning ascribed to it in the recitals to this Agreement.

"***Facility Assets***" means the following assets (excluding those assets constituting Excluded Assets) associated with the 75 MW (AC) Facility:

1. the Premises;
2. all Assumed Contracts;
3. all Fixtures and Equipment;
4. all Books and Records;
5. all Transferred Permits;
6. all Intellectual Property Assets;
7. all Supplies;
8. all Transmission Assets;
9. all Warranties;
10. all Real Property Interests; and
11. all other assets, properties, rights, privileges, claims and Contracts of every kind and nature, real or personal, tangible or intangible, absolute or contingent, wherever located, owned or used (including those necessary to access to utilize any common use facilities), comprising the Facility.

"***Facility Debt***" means, measured as of the applicable measurement date, any payment obligations of Seller in connection with borrowed money, including (a) principal of and premium and interest on indebtedness, (b) fees, charges, penalties, and expenses related to indebtedness, (c) amounts due upon acceleration or in connection with prepayment or restructuring of indebtedness, and (d) swap or interest rate hedging breakage costs.

"***Facility Lender***" means any lender or Tax Equity Investor providing senior or subordinated construction, interim or long-term debt or equity financing or refinancing for or in connection with the development, construction, purchase, installation or operation of all or part of the Facility, including any Tax Equity Transaction, providing financing or refinancing for the Facility or purchasing equity ownership interests of Seller and/or its Affiliates, and any trustee or

agent acting on their behalf, and any Person providing interest rate protection agreements to hedge any of the foregoing debt obligations.

"***Fair Market Value***" shall mean, with respect to a particular time of calculation, the amount a willing buyer would pay for the Facility Assets and all rights and interests associated therewith, in an arm's-length transaction, to a willing seller under no compulsion to sell on the applicable Closing Date, taking into account all relevant facts and circumstances relating to the Facility Assets (including the assumption that the Land Lease will remain in place for the term thereof, assuming all extensions in the Land Lease are exercised), the Excluded Assets, the Assumed Liabilities, the Excluded Liabilities and the Disclosure Schedules, as of the Closing Date, and assuming that the Facility is able to generate revenue for the then-remaining Agreement Term at a price per MWh equal to the Contract Price set forth in the PPA and thereafter for the remaining useful life of the Facility Assets at a price per MWh equal to the then fair market price for Energy, Capacity Rights, Environmental Attributes and other Products generated by the Facility (except in the case that Buyers are exercising their Project Purchase Option as a result of an Event of Default of Seller under the PPA, in which case the Energy, Capacity Rights, Environmental Attributes and other Products generated by the Facility will be assumed to be sold at their fair market value price as of the Closing Date for the remaining useful life of the Facility Assets), as determined in accordance with ***Exhibit 2.5***.

"***Final Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.5***.

"***Financial Statements***" shall have the meaning ascribed to it in Section 5.3.

"***Fixtures and Equipment***" means the fixtures, equipment (including solar panels, control rooms and other auxiliaries, furniture, office equipment, communications equipment, fixtures, furnishings, machinery, vehicles, computers, air conditioning ventilation and heating equipment and control stations) but excluding any Supplies, and other tangible personal property located on the Premises and owned or used by Seller in connection with the operation of the Facility.

"***GAAP***" means generally accepted accounting principles that are consistent with the principles promulgated or adopted by the Financial Accounting Standards Board and its predecessors in effect for the applicable period of Seller.

"***Governmental Approval***" means any Consent issued, granted, given, or otherwise made available by or under the authority of any Governmental Authority or pursuant to any Law or Environmental Law.

"***Hazardous Substances***" means any hazardous or toxic substance, material or waste that is regulated by or forms the basis of liability now or hereafter under, any Hazardous Substances Law, including any material, substance or waste that is (a) defined as a "hazardous waste," "hazardous material," "hazardous substance," "extremely hazardous waste," "restricted hazardous waste," "pollutant," "contaminant," "hazardous constituent," "special waste," "toxic substance" or other similar term or phrase under any Environmental Law, (b) petroleum or any fraction or by-product thereof, asbestos, polychlorinated biphenyls (PCB's), or any radioactive substance.

"***Hazardous Substances Law***" means any applicable current or future treaty, constitution, law, statute, ordinance, rule, Order, decree, regulation or other directive which is legally binding and has been enacted, issued or promulgated by any Governmental Authority that imposes liability for or standards of conduct or compliance concerning the generation, distribution, use, treatment, storage, disposal, cleanup, transport or handling of Hazardous Substances, including, the Federal Water Pollution Control Act, the Resource Conservation and Recovery Act of 1976, CERCLA, the Toxic Substances Control Act, the Oil Pollution Act, the Safe Drinking Water Act, and the Occupational Safety and Health Act of 1970 (to the extent that it relates to the handling of and exposure to hazardous or toxic materials or similar substances).

"***Intellectual Property Assets***" shall have the meaning ascribed to it in Section 3.13(a).

"***Investment Company Act***" means the Investment Company Act of 1940.

"***Knowledge***" means the actual, current knowledge after due inquiry of any officer of, or any other agent, employee or representative of a Party of any fact, circumstance or condition.

"***Law***" means any Order, and any federal, state, local, or foreign law, statute, regulation, rule, code or ordinance enacted, adopted, issued or promulgated by any Governmental Authority, but excluding Environmental Laws.

"***Land Documents***" means the real property leases and easements for the Site that together establish Site Control.

"***Lien***" means any mortgage, deed of trust, lien, security interest, retention of title or lease for security purposes, pledge, charge, encumbrance, equity, attachment, claim, easement, right of way, covenant, condition or restriction, leasehold interest, purchase right or other right of any kind, including an option, of any other Person in or with respect to any real or personal property.

"***Lodi***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Losses***" means claims, charges, damages, demands, judgments, civil fines and penalties, or losses.

"***Material Adverse Effect***" means a material adverse affect on (a) Seller, (b) the Facility, (c) the business, condition (financial or otherwise), results of operations or prospects of the Business, or (d) the Facility Assets.

"***Maximum Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.5***.

"***Minimum Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.5***.

"***Moreno Valley***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***National Priorities List***" means the list of national priorities among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the

United States and its territories and that guides the Environmental Protection Agency in determining which sites warrant further investigation.

"***Operations Period***" means the six (6) month period of time prior to the delivery by Buyers' Agent of the Purchase Option Exercise Notice.

"***Operative Documents***" means each of the agreements, instruments, certificates and other documents executed and delivered by a Party under this Agreement in connection with the performance and consummation of the transaction contemplated by this Agreement.

"***Order***" means any final, non-appealable award, decision, injunction, judgment, order, ruling, subpoena, or verdict entered, issued, made, or rendered by any court, administrative agency, or other Governmental Authority, or by any arbitrator.

"***Organizational Documents***" means as applicable, (a) the articles or certificate of incorporation and the bylaws of a corporation; (b) any charter or similar document adopted or filed in connection with the creation, formation, or organization of a Person; (c) the certificate of organization and the operating agreement of a limited liability company; and (d) any amendment to any of the foregoing.

"***Party***" and "***Parties***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Permit***" means any permit, license, franchise, concession, consent, authorization, approval, registration, filing or similar act of or made with any Governmental Authority that are used by or necessary to operate the Facility.

"***Person***" means any individual, corporation (including any non-profit corporation), general or limited partnership, limited liability company, joint venture, estate, trust, association, organization, labor union, or other entity or Governmental Authority.

"***PPA***" shall have the meaning ascribed to it in the Recitals.

"***Premises***" means the fee, leasehold, easement and other Real Property Interests held by Seller in connection with the ownership or operation of the Facility, including under the Land Documents, together with all buildings, improvements, structures and fixtures thereon owned by Seller, and all easements, privileges, rights-of-way, lands underlying any adjacent streets or roads, appurtenants, licenses and other rights owned by Seller pertaining to or accruing to the benefit of such property.

"***Proceeding***" means any action, order, writ, judgment or decree outstanding, arbitration, audit, hearing, investigation, claim, litigation, or suit (whether civil, criminal, regulatory, administrative, investigative, or informal) commenced, brought, conducted, or heard by or before, or otherwise involving, any Person.

"***Products***" shall have the meaning ascribed to it in the Recitals.

"***Project Purchase Option***" shall have the meaning ascribed to it in Section 2.1.

"***Provided Materials***" shall have the meaning ascribed to it in Section 5.1.

"***Purchase Option Exercise Deadline***" means a period of one hundred twenty (120) days after the determination of the Fair Market Value for the applicable Purchase Option Opportunity.

"***Purchase Option Exercise Notice***" shall have the meaning ascribed to it in Section 2.5(b).

"***Purchase Option Opportunity***" shall have the meaning ascribed to it in Section 2.2.

"***Purchase Option Permitted Encumbrances***" means (a) any Lien approved by Buyers' Agent in a writing or set forth in ***Schedule 3.6***; (b) Liens for Taxes not yet due or for Taxes being contested in good faith by appropriate proceedings, so long as either (i) such proceedings do not involve a substantial risk of the sale, forfeiture, loss or restriction on the use of the Facility or any part thereof, or (ii) a bond or other security reasonably acceptable to Buyers' Agent has been posted or provided in such manner and amount as to assure Exercising Buyers that any Taxes determined to be due will be promptly paid in full when such contest is determined; (c) zoning, building codes and other land use laws regulating the use or occupancy of the Premises or the activities conducted thereon which are imposed by any Governmental Authority having jurisdiction over the Premises; (d) suppliers', vendors', mechanics', workman's, repairman's, employees' or other like Liens arising in the ordinary course of business for work or service performed, or materials furnished in connection with, the Facility for amounts the payment of which is either not yet delinquent or is being contested in good faith by appropriate proceedings, so long as either (i) such proceedings do not involve a substantial risk of the sale, forfeiture, loss or restriction on use of the Facility or any part thereof, or (ii) a bond or other security reasonably acceptable to Buyers' Agent has been posted or provided in such manner and amount as to assure Exercising Buyers that any amounts determined to be due will be promptly paid in full when such contest is determined; (e) easements, rights of way, use rights, exceptions, encroachments, reservations, restrictions, conditions or limitations which do not materially impair the Premises affected thereby for the purpose for which title was acquired or materially interfere with or impair the operation of the Facility Assets; (f) the fee owner's interest in the Premises (if such fee owner is different than Seller); (g) any mortgage, pledge, security interest, encumbrance, lien (statutory or other) or conditional sale agreement on or affecting the landowner's interest in the Premises that does not have a material adverse effect upon Seller's rights or obligations under the Land Documents or for which the beneficiary of any of the foregoing has agreed not to disturb Seller's interest in the Land Documents through a customary recognition, non-disturbance, and attornment agreement or other agreement of similar effect; (h) the terms and conditions of the Land Documents; and (i) Liens created or reserved pursuant to or contemplated by the PPA, this Agreement or any Performance Security under the PPA.

"***Purchase Option Tentative Exercise Notice***" shall have the meaning ascribed to it in Section 2.4.

"***PWRPA***" shall have the meaning ascribed to it in the first paragraph of this Agreement, and shall include any and all of its members, as may be modified from time to time.

"***Qualified Appraiser***" means a nationally recognized, California-licensed appraiser, which shall (a) be qualified to appraise independent electric generating businesses, (b) have been engaged in the appraisal or business valuation and consulting business for a period of not less than five (5) years, and (c) not be associated with Seller, any Buyer or any of their respective Affiliates.

"***Rancho Cucamonga***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Real Property Contracts***" means any Contracts, including the Land Documents, that provide Seller with any rights in or to real property.

"***Real Property Interests***" means rights in the nature of leases, easements, licenses, rights of way, franchise agreements, restrictive covenants, purchase agreements, agreements to relinquish or limit surface access rights with regards to minerals, options to purchase or lease, or applications for or bids to Governmental Authorities with respect to, any of the Real Property Contracts.

"***Release***" means any physical release, spill, emission, leaking, pumping, injection, deposit, disposal, discharge, dispersal, dumping, leaching or migration of Hazardous Substances in the Environment, including the movement of Hazardous Substances through or in the Environment, including the Premises.

"***Representative***" means, with respect to a particular Person, any director, officer, employee, agent, consultant, advisor, or other representative of such Person, including legal counsel, accountants, and financial advisors.

"***Requirements of Law***" means all Laws, Permits (including those pertaining to electrical, building, zoning, and occupational safety and health requirements) and Environmental Laws.

"***Schedule Delivery Date***" shall have the meaning ascribed to it in Section 2.4.

"***SCPPA***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Seller***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Seller Disclosure Schedules***" shall have the meaning ascribed to it in Section 2.4.

"***Seller Indemnitees***" has the meaning set forth in Section 12.1(b).

"***Seller Third Party Indemnity Claims***" has the meaning set forth in Section 12.1(b).

"***Supplies***" means those supplies, inventories and spare parts on the Premises or otherwise dedicated to the Facility as of the Closing Date.

"***Tax Claim***" shall have the meaning ascribed to it in Section 9.1(e).

"***Tax Return***" means any return, report, information return or other document (including any related or supporting information) required to be supplied to any authority with respect to Taxes.

"***Taxes***" means all taxes, charges, fees, levies, penalties or other similar assessments imposed by any United States federal, state or local, or foreign taxing authority, including, income, excise, property, sales, use, transfer, franchise, payroll, withholding, social security or other taxes, including any interest, penalties or additions attributable thereto.

"***Tentative Exercising Buyer***" and "***Tentative Exercising Buyers***" shall have the meanings ascribed to them in Section 2.4.

"***Tentative Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.5***.

"***Third Party Claim***" shall have the meaning ascribed to it in Section 12.1(c).

"***Transferred Permits***" means all Permits other than those Permits that will not be transferred to Exercising Buyers as of the Closing.

"***Transfer Taxes***" shall have the meaning ascribed to it in Section 2.13.

"***Transmission Assets***" means the fixtures, equipment (including transformers and switchgear) and other tangible property interests owned by Seller and required for the transmission of Energy to the Point of Delivery.

"***Treasury***" means the regulations issued by the U.S. Department of Treasury under the Internal Revenue Code.

"***Updated Schedule Delivery Date***" shall have the meaning ascribed to it in Section 2.11(a).

"***Warranties***" means all rights of Seller under or pursuant to all third-party warranties, representations and guarantees made by manufacturers and suppliers in connection with the Facility Assets or services furnished to Seller pertaining to the Facility or affecting the Facility Assets.

EXHIBIT 2.5
to
ASTORIA 2 OPTION AGREEMENT
dated as of _____, 2014

PURCHASE PRICE

1. The "***Tentative Purchase Price***" shall be an amount equal to the Fair Market Value, as determined in accordance with this ***Exhibit 2.5***.

2. Within fifteen (15) days following the Schedule Delivery Date, Seller and the Tentative Exercising Buyers shall meet and attempt to agree on the Tentative Purchase Price based on the Seller Disclosure Schedules delivered by Seller. If Seller and the Tentative Exercising Buyers are unable to agree on the Tentative Purchase Price within thirty (30) days after the Schedule Delivery Date, Seller and the Tentative Exercising Buyers shall, within fourteen (14) additional days, jointly select a Qualified Appraiser. If Seller and the Tentative Exercising Buyers cannot agree on a Qualified Appraiser within such fourteen (14) day period, then Seller and Buyers' Agent shall each select an independent recognized appraiser within fourteen (14) days after the conclusion of such period, which independent appraisers shall, within fourteen (14) days of being selected by Buyers' Agent and Seller, agree upon and appoint a third Qualified Appraiser to perform the appraisal. If the two selected appraisers cannot agree on a third Qualified Appraiser within such fourteen (14) day period, then either Seller or Buyers' Agent may apply to the American Arbitration Association to make such an appointment within fourteen (14) days after such application. The appraisal shall be completed within thirty (30) days of the appointment of the Qualified Appraiser.

3. The Tentative Purchase Price shall be adjusted from time to time by the amount (as determined by Seller and the Tentative Exercising Buyers in good faith, or absent their mutual agreement, by the Qualified Appraiser using the same methodology set forth in paragraph 2 above) necessary to take into account (i) any differences between the Seller Disclosure Schedules originally delivered to Buyers' Agent on the Schedule Delivery Date and any updated Seller Disclosure Schedules delivered to Buyers' Agent from time to time prior to Closing, (ii) any item or omission in a Seller Disclosure Schedule that is not resolved to the reasonable satisfaction of Tentative Exercising Buyers, (iii) any differences in Facility Assets, Excluded Assets, Assumed Liabilities or Excluded Liabilities from the Schedule Delivery Date to the Closing, (iv) the inability of Seller to satisfy any of the Exercising Buyers' Closing Conditions set forth in Article VII, (v) damage or destruction of all or a material portion of the Facility or any real or threatened condemnation or eminent domain proceeding as described under Section 9.3(a) of the Agreement, or (vi) following the delivery of a Breach Notice, the event or circumstance described in such Breach Notice.

4. The "***Final Purchase Price***" amount to be paid by Exercising Buyers at the Closing shall be an amount equal to the greater of (a) the Tentative Purchase Price, or (b) the Minimum Purchase Price (as defined below); provided that in the event that (i) the Tentative Purchase Price is at any time greater than the Maximum Purchase Price (as defined

below), then any Exercising Buyer, upon written notice to Seller and the other Buyers, may, without liability, withdraw from the Project Purchase Option with respect to the relevant Purchase Option Opportunity, and such Purchase Option Opportunity shall expire and shall no longer be effective with respect to such Exercising Buyer and, should all Exercising Buyers withdraw from the Project Purchase Option with respect to such Purchase Option Opportunity, such withdrawal shall not affect any Buyer's right to exercise any Project Purchase Option with respect to any future Purchase Option Opportunity.

5. The "***Minimum Purchase Price***" and the "***Maximum Purchase Price***" shall be as follows, corresponding to the applicable Purchase Option Opportunity for which Exercising Buyers have exercised their Project Purchase Option:

Purchase Option Opportunity	**Minimum Purchase Price**	**Maximum Purchase Price**
10th Contract Year	$190,000,000	$228,000,000
15th Contract Year	$205,000,000	$246,000,000
20th Contract Year	$235,000,000	$282,000,000
Event of Default under PPA	The aggregate amount of the Facility Debt immediately prior to Closing, if any. Otherwise, $0.00.	None.

EXHIBIT 5.11
to
ASTORIA 2 OPTION AGREEMENT
dated as of _____, 2014

FORM OF TRANSITION SERVICES AGREEMENT

This **TRANSITION SERVICES AGREEMENT** (this "Agreement") is entered into on [•], 20__ (the "Effective Date"), by and among RE ASTORIA 2 LLC ("Seller"), a limited liability company organized and existing under the laws of the State of Delaware, **[**the SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY, a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the California Joint Exercise of Powers Act ("the Act"), California Government Code section 6500 et seq. ("SCPPA"), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act ("PWRPA"), the CITY OF CORONA, a California city ("Corona"), the CITY OF MORENO VALLEY, a California city ("Moreno Valley"), the CITY OF RANCHO CUCAMONGA, a California city ("Rancho Cucamonga") and the CITY OF LODI, a California city ("Lodi"). SCPPA, PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga are each referred to herein as a "Buyer," and together as "Buyers."**]**[1] Each Buyer and Seller is referred to individually in this Agreement as a "Party" and together as the "Parties."

W I T N E S S E T H:

WHEREAS, the Parties have entered into that certain Option Agreement, dated as of _____, 2014 (the "Option Agreement"), pursuant to which, among other things, Seller has agreed to sell, transfer, assign, convey and deliver to Buyers, and Buyers have agreed to purchase, receive and assume from Seller, the Facility Assets (as defined in the Option Agreement), upon the terms and subject to the conditions set forth in the Option Agreement; and

WHEREAS, Section 5.11 of the Option Agreement provides that Seller or its Affiliates will provide Buyers with transitional operation and maintenance services; and

WHEREAS, Buyers hereby request that Seller (or its Affiliates) perform certain transitional operation and maintenance services for a period of time following the Closing Date to facilitate the transition of the operations of the Facility to Buyers; and

WHEREAS, Seller is willing to provide, or cause its Affiliates to provide, such services to Buyers subject to the terms and conditions set forth herein;

NOW, THEREFORE, in consideration of the premises and the covenants set forth herein and the benefits to be derived herefrom, the Parties hereby agree as follows:

[1] *To revised prior to execution to refer to Exercising Buyers only.*

ARTICLE I
DEFINED TERMS

Capitalized terms used in this Agreement shall have (unless provided elsewhere in this Agreement) the meanings given to such terms in the Option Agreement and as set forth below:

"Services" means the services that are listed on Schedule 1 attached hereto; provided, however, that the term "Services" shall not include the services listed under the heading "Excluded Services" on Schedule 1 attached hereto.

ARTICLE II
DESCRIPTION OF SERVICES

2.1 Seller's Undertakings. The purpose of this Agreement is to enable Buyers to receive the Services from Seller or Seller's Affiliates on an interim basis in order to permit Buyers the opportunity to obtain alternate sources of supply of such Services prior to the expiration of the Initial Term, or if extended, the Extension Term (as such terms are defined in Section 3.1 below). Seller agrees to provide, or to cause the provision through its Affiliates of, the Services to Buyers during the Initial Term and each Extension Term in accordance with the terms and conditions of this Agreement and all Requirements of Law, in a professional, workmanlike manner, subject to the applicable Laws and in a manner that is substantially the same as the manner in which such Services were performed prior to the date of this Agreement.

2.2 Resources Committed. Seller shall provide the Services set forth on Schedule 1; provided that Seller shall not be required to provide any services to Buyers that neither Seller nor its Affiliates previously provided and/or performed in connection with the ownership of the Facility Assets prior to the Closing. Nothing herein shall require Seller to install equipment, acquire licenses, expand any systems or services or expend any resources beyond the level provided by Seller and its Affiliates prior to the Closing. In connection with the performance of the Services, Seller may, at its sole cost and expense: (a) subcontract with a non-Affiliate and/or personnel of a non-Affiliate to perform any portion of the Services to be performed hereunder; (b) utilize personnel who are employees of Affiliates of Seller; or (c) subcontract work to Affiliates of Seller; provided that all such personnel and subcontractors shall be fully qualified to perform the applicable Services pursuant to the terms and conditions of this Agreement and Buyers shall have consented in writing to such personnel and subcontracts, such consent not to be unreasonably withheld or delayed.

2.3 Limitations. EXCEPT AS PROVIDED IN SECTION 2.1 AND SECTION 2.2 NEITHER SELLER NOR ANY OF ITS AFFILIATES MAKES ANY REPRESENTATION, WARRANTY OR GUARANTY, EXPRESS OR IMPLIED OF ANY KIND CONCERNING THE SERVICES AND ANY RESULTS OR WORK PRODUCT. SELLER AND ITS AFFILIATES SPECIFICALLY MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NONE SHALL BE IMPLIED AND ALL OTHER REPRESENTATIONS, WARRANTIES OR GUARANTIES, WRITTEN OR ORAL, EXPRESSED OR IMPLIED ARE EXCLUDED.

ARTICLE III
TERM AND TERMINATION

3.1 Term. The initial term of this Agreement (the "Initial Term") shall commence as of the Closing Date and shall continue in effect for a maximum of six (6) months; provided, however, that this Agreement may be extended upon the mutual agreement of Buyers' Agent and Seller for additional periods, not to exceed two (2) months following the expiration of the Initial Term (each such two (2) month extension, an "Extension Term" and collectively with the Initial Term, the "Term") if (a) Buyers' Agent provides written notice not less than thirty (30) days prior to the expiration of the Initial Term of (i) the Services that Buyers desire to receive during the Extension Term and (ii) the number of months during the Extension Term for which they desire to receive such Services and (b) Buyers are in compliance with all of their obligations under this Agreement at the time Seller receives a notice of Buyers' Agent's intent to extend this Agreement for an Extension Term.

3.2 Termination of Entire Agreement. Notwithstanding anything herein or elsewhere to the contrary, this Agreement may be terminated and the transactions contemplated hereby abandoned, at any time, upon the occurrence of any of the following events or conditions:

(a) upon the mutual written agreement of the Parties to terminate this Agreement;

(b) by Seller, upon any Buyers' breach of any obligation under this Agreement (including any Buyer's failure to pay Seller amounts owing hereunder) which breach is not remedied to Seller's reasonable satisfaction by such Buyer or any other Buyer within fifteen (15) days after notice to Buyers of such breach, or, if such breach is not capable of rectification within fifteen (15) days, if such Buyer or Buyers have not promptly commenced to rectify the breach within such fifteen (15)-day period and are not proceeding diligently to rectify the breach; provided, however, that such right to continue to rectify a breach shall end upon expiration of this Agreement; or

(c) by Buyers, upon Seller's breach of any obligation under this Agreement and such breach is not remedied to Buyers' Agent's reasonable satisfaction within fifteen (15) days after notice to Seller of such breach or if such breach is not capable of rectification within fifteen (15) days, if Seller has not promptly commenced to rectify the breach within such fifteen (15)-day period and is not proceeding diligently to rectify the breach; provided, however, that such right to continue to rectify a breach shall end upon expiration of this Agreement.

In the event of termination of this Agreement pursuant to this Section 3.2, no Party will have any further liability or obligation hereunder, except that any such termination will not affect (i) the provisions of Section 4.1, Article V and Article VI, which will survive any such termination, or (ii) the rights and obligations of the Parties accruing prior to such termination.

3.3 Termination of Particular Service. Notwithstanding anything herein or elsewhere to the contrary, Buyers' Agent shall have the right, upon thirty (30) days written notice to Seller, to terminate this Agreement as to any Service listed on Schedule 1. Upon the effectiveness of the termination of any particular Service, Seller shall no longer be required to provide such

Service to Buyers, and Buyers shall incur no additional obligations to pay Seller the fee associated with the provision of such Service, other than obligations that have accrued prior to the termination of such Service, including, without limitation, any third-party fees, penalties or other payments related to the termination by Seller of such Service.

3.4 Termination Procedures. Upon any termination of this Agreement (in whole or in part), each Party shall cooperate with the other Parties as reasonably necessary to assist Buyers in transferring responsibility for the provision of the terminated Service(s) to Buyers (or any third party as designated in writing by Buyers' Agent).

ARTICLE IV
FEES, BILLING, AND PAYMENT

4.1 Compensation. Each Buyer shall, in accordance with Section 4.2, (a) pay Seller in proportionate share of the fees set forth on Schedule 1 attached hereto for the provision of each particular Service provided under this Agreement, and (b) except as set forth in Section 3.3 above, reimburse Seller for any incidental, out-of-pocket expenses reasonably incurred by Seller or Seller's Affiliates in connection with performing the Services. All amounts paid by Buyers to Seller hereunder shall be paid in full without any deduction or withholding for taxes or any other fees or expenses.

4.2 Billing and Payment. After the end of each calendar month, Seller shall send to Buyers' Agent invoices, setting forth a description of the Services provided during the prior calendar month and identifying the fees that are to be paid. Each Buyer shall pay to Seller its proportionate share of the amounts due and payable on each such invoice within sixty (60) days after its receipt thereof. If any Buyer in good faith disputes any portion of an invoice, and Buyers' Agent notifies Seller in writing of the nature and basis of such good faith dispute within thirty (30) days after such disputing Buyers' receipt of such invoice, such Buyer shall have the right to withhold payment of the disputed portion, and such Buyer shall only pay its proportionate share of the undisputed portion. Seller shall be entitled to a late fee on any undisputed amounts, and any amounts not disputed in good faith by any Buyer due hereunder that remain unpaid following the date due hereunder at the rate of one percent (1%) per month.

4.3 Access. During the Term, Buyers will provide Seller, Seller's Affiliates, and their respective authorized representatives, at each such Person's sole risk, reasonable access (during regular business hours and upon reasonable prior notice), to Buyers and their employees, representatives (including Buyer's Agent), facilities and books and records as Seller, Seller's Affiliates and their respective authorized representatives may reasonably request in order to provide the Services; provided, that (i) Buyers shall have the right to have a representative present for any communication with employees or representatives of any Buyer; (ii) such access and activities incidental thereto shall be undertaken in accordance with applicable Laws and Buyers' generally applicable policies and procedures; and (iii) Buyers shall have the right to impose reasonable restrictions and requirements for safety purposes. Buyers grant to Seller and its representatives access to the Facility for a period of thirty (30) days after the expiration or termination of this Agreement so that Seller may demobilize its work force, including the removal of its personal property that was brought to the Facility by Seller to provide the Services.

4.4 Records Retention. Each Party shall retain all records relating to this Agreement for so long as required by any Governmental Authority having jurisdiction.

ARTICLE V
RELEASE

5.1 Indemnity. Subject to Section 5.2, Seller undertakes and agrees to indemnify and hold harmless each Buyer, SCPPA's Participating Members, and each Buyer's respective commissioners, officers, agents, employees, advisors, authorized representatives, and assigns and successors in interest (collectively, "Indemnitees") and, at the option of Buyers, to defend such Indemnitees from and against any and all suits and causes of action, claims, charges, damages, demands, judgments, civil fines and penalties, or losses of any kind or nature whatsoever, for death, bodily injury or personal injury to third persons, or damage or destruction to any property of third persons, in any manner arising by reason of any breach of this Agreement by Seller, the negligent acts, errors, omissions or willful misconduct incident to the performance of this Agreement on the part of Seller, or any of Seller's officers, agents, employees, or subcontractors of any tier, except to the extent caused by the gross negligence or willful misconduct of any such Indemnitee.

5.2 Limitation of Liability. Seller's liability to Buyers in connection with its performance of the Services hereunder, regardless of whether such liability arises in contract, tort or otherwise, shall not exceed the total amount invoiced under Section 4.2 hereof for all the Services actually provided hereunder during the term of this Agreement, determined in accordance with Schedule 1 hereto; provided that the foregoing limitation shall not apply to the liabilities that arise from the negligence, gross negligence or willful misconduct of Seller. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT TO THE CONTRARY, IN NO EVENT SHALL A PARTY, OR ANY OF THEIR AFFILIATES, HAVE ANY LIABILITY HEREUNDER TO THE OTHER PARTIES OR ITS AFFILIATES IN RESPECT OF ANY INCIDENTAL, SPECIAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES, LOSSES, OR EXPENSES ARISING OUT OF, OR IN CONNECTION WITH, THIS AGREEMENT OR THE PERFORMANCE OR NONPERFORMANCE OF SERVICES HEREUNDER.

ARTICLE VI
RELATIONSHIP OF PARTIES

This Agreement is not intended to and shall not be construed as creating a joint venture, partnership, agency or other association within the meaning of the common law or under the laws of the state in which any Party is incorporated, organized, or conducting business. Except for the obligations arising from the authorized activities of Seller as described herein, no Party shall be responsible for the obligations or actions of any other Party, each Party being severally responsible only for its obligations and actions arising hereunder. It is the intent of the Parties that with respect to performing the Services, the Seller and its Affiliates are independent contractors, and shall provide the Services in accordance with the reasonable instructions provided by authorized representatives of Buyers, subject to the provisions of this Agreement.

ARTICLE VII
FORCE MAJEURE

7.1 Force Majeure Event. No Party shall be liable to any other Party for its failure or delay in performing its obligations hereunder (other than its obligation to pay money) due to any contingency beyond such Party's reasonable control and not due to the negligence of such Party (a "force majeure event") including, without limitation, acts of God, fires, floods, wars, acts of war, sabotage, terrorism, accidents, labor disputes (whether or not such disputes are within the power of the Party to settle), shortages, governmental laws, ordinances, rules or regulations.

7.2 Notice of Force Majeure Event. Any Party affected by a force majeure event will give notice to the other Parties as promptly as practicable of the nature and probable duration of the force majeure event as well as of the anticipated termination of such force majeure event. The Party affected by force majeure will use commercially reasonable efforts to remove the force majeure event and, in the case of Seller, to resume the performance of the Services as soon as reasonably practicable after such removal.

ARTICLE VIII
CONFIDENTIALITY

This Agreement is subject to the terms and conditions of Section 12.17 of the Option Agreement, which incorporates the assignment and confidentiality provisions as set forth in that certain Power Purchase Agreement between the Parties (the "***PPA***").

ARTICLE IX
MISCELLANEOUS

9.1 Operational Coordination. Buyers' Agent designates [_____] as Buyers' representative[s] for purposes of operational coordination under this Agreement. Seller designates [_____] as Seller's representative[s] for purposes of operational coordination under this Agreement. A Party may change its designee for purposes of this Section 9.1 by providing notice thereof to the other Parties in accordance with this Section.

9.2 Expenses. Except as otherwise expressly provided in this Agreement, each Party will bear its respective expenses incurred in connection with the preparation, execution, and performance of this Agreement and the transactions contemplated by this Agreement, including all fees and expenses of agents, representatives, counsel, and accountants. The Parties agree that, in any action to enforce the terms of this Agreement, each Party shall be responsible for its own attorney fees and costs. Each of the Parties was represented by its respective legal counsel during the negotiation and execution of this Agreement.

9.3 Ambiguity. The Parties acknowledge that this Agreement was jointly prepared by them, by and through their respective legal counsel, and any uncertainty or ambiguity existing herein shall not be interpreted against a Party on the basis that the Party drafted the language, but otherwise shall be interpreted in accordance with Exhibit 1.1 to the Option Agreement and according to the application of the rules on interpretation of contracts.

9.4 Voluntary Execution. The Parties acknowledge that they have read and fully understand the content and effect of this Agreement and that the provisions of this Agreement have been reviewed and approved by their respective counsel. The Parties further acknowledge that they have executed this Agreement voluntarily, subject only to the advice of their own counsel, and do not rely on any promise, inducement, representation or warranty that is not expressly stated herein.

9.5 Notices. All notices, requests, demands and other communications which are required or may be given under this Agreement shall be in writing (regardless of whether the applicable provision expressly requires a writing) and shall be deemed to have been duly given when given in the manner set forth in Section 14.2 of the PPA.

9.6 Waiver. The failure of any Party to this Agreement to enforce or insist upon compliance with or strict performance of any of the terms or conditions hereof, or to take advantage of any of its rights hereunder, shall not constitute a waiver or relinquishment of any such terms, conditions or rights, but the same shall be and remain at all times in full force and effect. Except to the extent this Agreement provides an exclusive remedy for a breach, nothing contained herein shall preclude any Party from seeking and obtaining any available remedies hereunder, including recovery of damages caused by the breach of this Agreement and specific performance or injunctive relief, or any other remedy given under this Agreement or now or hereafter existing in law or equity or otherwise as a court of competent jurisdiction may deem just and proper to enforce this Agreement or to prevent any violation hereof. The rights granted herein are cumulative.

9.7 Severability. In the event any of the terms, covenants or conditions of this Agreement, or the application of any such terms, covenants or conditions, shall be held invalid, illegal or unenforceable by any court having jurisdiction, all other terms, covenants and conditions of this Agreement and their application not adversely affected thereby shall remain in force and effect, *provided* that the remaining valid and enforceable provisions materially retain the essence of the Parties' original bargain.

9.8 Dispute.

(a) In the event of any claim, controversy or dispute between the Parties arising out of or relating to or in connection with this Agreement (including any dispute concerning the validity of this Agreement or the scope and interpretation of this Section 9.8) (a "Dispute"), any Party (the "Notifying Party") may deliver to the other Parties (each, a "Recipient Party") notice of the Dispute with a detailed description of the underlying circumstances of such Dispute (a "Dispute Notice"). The Dispute Notice shall include a schedule of the availability of the Notifying Party's senior officers (having a title of senior vice president or utility director (or the equivalent) or higher) duly authorized to settle the Dispute during the thirty (30) day period following the delivery of the Dispute Notice.

(b) Each Recipient Party shall, within five (5) Business Days following receipt of the Dispute Notice, provide to the Notifying Party a parallel schedule of availability of such Recipient Party's senior officers (having a title of senior vice

president or utility director (or the equivalent) or higher) duly authorized to settle the Dispute. Following delivery of the respective senior officers' schedules of availability, the senior officers of the Parties shall meet and confer as often as they deem reasonably necessary during the remainder of the thirty (30) day period in good faith negotiations to resolve the Dispute to the satisfaction of each Party.

(c) In the event a Dispute is not resolved pursuant to the procedures set forth in Sections 9.8(a) and (b) by the expiration of the thirty (30) day period set forth in Section 9.8(b), then a Party may pursue any legal remedy available to it in accordance with the provisions of Section 9.9 of this Agreement.

(d) In addition to the Dispute Resolution process set forth in this Section 9.8, the Parties shall comply with California law governing claims against public entities and presentment of such claims.

9.9 Governing Law; Venue. This Agreement was made and entered into in the City of Glendora and shall be governed by, interpreted and enforced in accordance with the laws of the State of California, without regard to conflict of law principles. All litigation arising out of, or relating to this Agreement, shall be brought in a state or federal court in the County of Los Angeles in the State of California. The Parties irrevocably agree to submit to the exclusive jurisdiction of such courts in the State of California and waive any defense of *forum non conveniens*.

9.10 No Third Party Beneficiaries. This Agreement shall not be construed to create rights in, or to grant remedies to, any third party as a beneficiary of this Agreement or any duty, obligation or undertaking established herein.

9.11 Counterparts. This Agreement may be executed in counterparts and upon execution by each signatory, each executed counterpart shall have the same force and effect as an original instrument and as if all signatories had signed the same instrument. Any signature page of this Agreement may be detached from any counterpart of this Agreement without impairing the legal effect of any signature thereon, and may be attached to another counterpart of this Agreement identical in form hereto by having attached to it one or more signature pages.

9.12 Entire Agreement; Amendments. This Agreement (including Schedule 1 hereto), the Option Agreement, and the PPA contain the entire understanding concerning the subject matter herein and supersede and replace any prior negotiations, discussions or agreements between the Parties concerning that subject matter, whether written or oral, except as expressly provided for herein. Each Party acknowledges that no other party, representative or agent has made any promise, representation or warranty, express or implied, that is not expressly contained in this Agreement or the other documents of even date herewith between the Parties that induced the other Parties to sign this document. This Agreement may be amended or modified only by an instrument in writing signed by each Party.

9.13 Headings. The headings of Articles and Sections contained in this Agreement have been inserted for convenience of reference only and shall not be deemed to be a part of or to affect in any way the meaning or interpretation of this Agreement.

[SIGNATURE PAGE FOLLOWS]

The Parties hereto have caused this Agreement to be executed and delivered as of the date first set forth above by their duly authorized representatives.

SCHEDULE 1
to Transition Services Agreement
RE Astoria 2 LLC

SERVICES

A. **Seller's Services.**

Following the Closing Date, during the Initial Term and, if applicable, each Extension Term, Seller shall perform (or shall cause its Affiliates to perform) the following Services:

1. Access, Information and Training. Seller shall provide each Buyer, Buyers' Agent, and each Buyer's representatives, agents, employees and personnel (collectively, "Buyers' Personnel") with access, information and training as may be reasonably required so that the transfer of the duties and responsibilities of Seller cause as little disruption as possible to the Facility.
2. System Monitoring. Seller shall conduct system monitoring or assist Buyers' Personnel with conducting system monitoring, including, as applicable, continued upkeep and operation of any operations center that monitors project metrics or hosts SCADA activities, retrieval and storage of performance data and remote or on-Premises monitoring and support.
3. Preventative and Scheduled Maintenance. Seller shall perform (or cause to be performed) or assist Buyers' Personnel with performing maintenance of the Facility Assets, which may include, but are not limited to, the following duties:
    - Regular inspection, repair and functional testing of Facility components, including, as necessary, of photovoltaic modules, mounting systems, combiner boxes and fuse boxes, inverter shelters, power conversion station performers, switchgear and other components.
    - Regular inspection, repair and functional testing of inverters in compliance with, and to ensure continued coverage under, any applicable warranties.
    - Regular inspection and repair, adjustment or cleaning, in accordance with manufacturers' recommendations, of filters, cable connections, warning labels, paint and exterior, operators and handles, weather stripping, relays, transistors and other items.
    - Visual inspection of the Facility and the Premises and correction of undesirable conditions, including fencing, shading, vegetation, animal damage, erosion, corrosion and discolored panels.
    - Inspection and correction of loose electrical connections and ground connections.
    - Training regarding Seller's or Seller's Affiliate's Quality Assurance Program (as defined in the Power Purchase Agreement between the Parties), and provision of and training regarding Seller's operation and maintenance plan and related records.

- Maintain records of service history and information and training regarding such maintenance.
- Maintenance and testing of sensors and meters.

4. Emergency Response. Seller shall assist Buyers' Personnel with providing responses to emergency events that reduce or halt power production and with performing unscheduled repairs. Seller shall provide, and provide training regarding, any documents, plans or protocols Seller has developed in relation to such events.
5. Warranty Management. Seller shall assist Buyers' Personnel with verifying and enforcing all warranties applicable to the Facility Assets.
6. Spare Parts Inventory Management. Seller shall assist Buyers' Personnel with maintaining spare parts inventories for the Facility and documentation related to the usage and location of spare parts. Seller shall assist Buyers' Personnel in determining appropriate quantities of inventory and with the procurement of goods and materials that Buyers will need for continued operating and maintenance of the Facility.
7. Performance Reporting. Seller shall continue to generate or assist Buyers' Personnel with generating appropriate reports from Facility data.
8. Compliance with Requirements. Seller shall comply with, assist Buyers' Personnel in complying with, and provide information and training regarding compliance with all applicable permits (including Transferred Permits), Operative Documents, Assumed Contracts, warranties, and other requirements applicable to the Facility Assets.
9. Data Transfer. Seller shall transfer the historical project maintenance data in a digital format, which format shall be consistent with Prudent Utility Practices and mutually agreed by the Parties prior to the Closing Date.

B. **Excluded Services.**

[Seller and Buyers shall mutually agree on any Excluded Services on or before the Closing Date.]

C. **Fees for Services.**

[Seller and Buyers shall mutually agree on fees for Services on or before the Closing Date.]

LAND OPTION AGREEMENT AND AGREEMENT TO ASSIGN SITE CONTROL DOCUMENTS

This LAND OPTION AGREEMENT AND AGREEMENT TO ASSIGN SITE CONTROL DOCUMENTS (the "***Agreement***") is entered into as of this ____ day of _____, 20__ ("***Effective Date***"), by and among RE ASTORIA 2 LANDCO LLC ("***Seller***"), a limited liability company organized and existing under the laws of the State of Delaware, SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY ("***SCPPA***"), a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the California Joint Exercise of Powers Act (California Government Section 6500 *et seq*.) (the "***Act***"), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act ("***PWRPA***"), the CITY OF LODI, a California municipal corporation organized and existing under the laws of the State of California ("***Lodi***"), the CITY OF CORONA, a California municipal corporation organized and existing under the laws of the State of California ("***Corona***"), the CITY OF MORENO VALLEY, a California municipal corporation organized and existing under the laws of the State of California ("***Moreno Valley***"), and the CITY OF RANCHO CUCAMONGA, a California municipal corporation organized and existing under the laws of the State of California ("***Rancho Cucamonga***"). SCPPA, PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga are each referred to herein as a "***Buyer***," and together as "***Buyers.***" Buyers are referred to (collectively) and Seller is referred to (individually) in this Agreement as a "***Party***" and together they are referred to as the "***Parties***."

RECITALS

WHEREAS, RE Astoria 2 LLC ("***Project Seller***") and Buyers entered into that certain Power Purchase Agreement (the "***PPA***"), relating to the purchase by Buyers of (a) until December 31, 2021, the Facility Energy, Capacity Rights and associated Environmental Attributes (each as defined in the PPA and collectively defined therein as the "***Products***") generated by 65 MW (AC) out of a 75 MW (AC) solar photovoltaic facility to be developed, constructed, owned and operated by Seller in Kern County, California, and (b) from and after January 1, 2022, all of the Products;

WHEREAS, Project Seller and Buyers have entered into that certain Option Agreement as of even date herewith (the "***Project Option Agreement***"), relating to Buyers' option to purchase the Facility Assets (as defined in the Project Option Agreement);

WHEREAS, Seller is a party to the Site Control Documents pursuant to which Seller has acquired the option to purchase the real property described therein, collectively consisting of approximately 840 acres of land located in Kern County, California (the "***Real Property***") pursuant to the Assignment and Assumption Agreements by and between Seller and SiteCo LLC, a Delaware limited liability company and Affiliate of Seller, and listed in Appendix R (collectively, the "***Affiliate Assignments***"). A memorandum of each such Affiliate Assignment or Site Control Document shall have been recorded by Seller as of the Effective Date and Seller shall have delivered a copy of such recorded document to Buyer's Agent promptly after recordation of the same;

WHEREAS, the PPA requires Project Seller to obtain Site Control (as defined in the PPA), which in turn requires Seller to exercise its options to purchase the Real Property under the Site Control Documents on or before the Site Control Milestone Date as defined and described in the PPA;

WHEREAS, Project Seller and Seller shall, in order for Project Seller to achieve Site Control under the PPA, enter into a land lease (the "***Land Lease***"), pursuant to which Seller plans to lease to Project Seller, and Project Seller plans to lease from Seller, the Real Property on the terms and conditions contained in the Land Lease; and

WHEREAS, Seller desires to grant to Buyers, and Buyers wish to have, an option, exercisable at various times as set forth herein, to purchase the Real Property (as defined herein) on the terms and subject to the conditions set forth in this Agreement.

NOW, THEREFORE, in consideration of the foregoing Recitals, which are incorporated herein, Buyers entering into the PPA, and the agreements herein and in the other Operative Documents (as defined herein) and in reliance upon the representations and warranties therein and herein, Buyers and Seller, intending to be legally bound, hereby agree as follows:

ARTICLE I
DEFINITIONS

1.1 Definitions. Except as otherwise expressly provided herein, capitalized terms used in this Agreement, including in its ***Recitals***, ***Schedules*** and ***Exhibits***, shall have the meanings given in ***Exhibit 1.1***. Capitalized terms used herein but not defined in ***Exhibit 1.1*** shall have their meanings ascribed thereto in the PPA.

1.2 Rules of Interpretation. Except as otherwise expressly provided herein, the rules of interpretation set forth in the PPA shall apply to this Agreement.

1.3 Incorporation of Recitals. The recitals to this Agreement are hereby incorporated into and made a part of this Agreement.

ARTICLE II
OPTION CONSIDERATION; ASSIGNMENT OF SITE CONTROL DOCUMENTS; GRANT OF SECURITY INTEREST; OPTION TO PURCHASE; CLOSING

2.1 Option Consideration. On the Effective Date, as consideration for the grant of the option hereunder, Buyers shall pay to Seller the amount of One Hundred Dollars ($100).

2.2 Assignment of Site Control Documents. Until Seller has purchased the Real Property pursuant to the Site Control Documents, at any time following (a) a Default by Project Seller under the PPA, or a default by either Seller or SiteCo LLC under any of the Affiliate Assignments, (b) a failure by Seller to perform any of its duties or obligations under this Agreement or any of the Affiliate Assignments when and as due, which failure is not cured to the reasonable satisfaction of Buyers by the date that is thirty (30) days after receipt of notice thereof from Buyers' Agent, or (c) any ruling by a court of law that any of the Affiliate Assignments are not valid or enforceable (each, a "***Seller Default***"), Buyers may require Seller to assign, at

Seller's cost and expense, all of its right, title and interest in, to and under the Site Control Documents to Buyers pursuant to an assignment agreement in the form attached hereto as ***Exhibit 2.2*** (the "***Assignment Document***") by delivering notice to Seller of Buyers' demand to take such assignment of the Site Control Documents (the "***Assignment Demand***"). Following an Assignment Demand, Buyers and Seller shall execute the Assignment Document within thirty (30) days after Seller's receipt of the Assignment Demand and, upon execution and delivery of the Assignment Document by the Parties, this Agreement shall terminate and shall be null and void and of no further force or effect except to the extent of any provisions of this Agreement which expressly survive any termination hereof. The Assignment Document may be recorded by Buyers in the Official Records of Kern County, California, in Buyers' sole discretion, and Buyers shall be responsible for payment of all fees associated with such recording.

2.3 Security Interest. To secure the full and complete performance of the obligations of Seller under Section 2.2 above, Seller hereby grants to Buyers a first priority security interest in all of Seller's right, title and interest in and to the Site Control Documents ("***Collateral***"). Seller shall file in the appropriate offices at Seller's cost any financing statements, and amendments, continuation statements, and other instruments related thereto, to perfect and maintain the security interest in the Collateral granted in this Agreement. Seller shall, from time-to-time, promptly execute and deliver all further instruments and documents, and take all further actions that may be reasonably necessary or that Buyers may reasonably request in order to perfect and protect the pledge granted or intended to be granted hereby or to enable Buyers to exercise its rights and remedies hereunder with respect to the pledge of the Collateral, and Seller hereby authorizes Buyers to file such further instruments and documents, including any additional financing statements, or amendments and continuation statements thereof, as Buyers reasonably deem necessary to perfect, maintain, or foreclose on the pledge granted herein as collateral for a contractual right under the Uniform Commercial Code as adopted by the State of California. If Seller fails to comply with the obligations under Section 2.2, then Buyers shall have, in addition to the rights and remedies set forth in this Agreement, all of the rights and remedies of a Secured Party under Article 9 of the California Uniform Commercial Code or other applicable law with respect to such pledge, all of which rights and remedies shall, to the full extent permitted by law, be cumulative. Upon any foreclosure by Buyers of the pledge granted herein, Seller shall assign to Buyers all of Seller's right, title, and interest in and to the Site Control Documents. Such assignment, if any, shall constitute an assignment of all or substantially all of Seller's assets. Seller represents that the pledge granted in this Section 2.3 is not an assignment and is not subject to the assignment terms of the Site Control Documents. If, at any time, it is determined that the pledge granted herein violates any term or condition of the Site Control Documents, this Section 2.3 shall be deemed to be void and ineffective for all purposes and shall be treated as if never included in this Agreement, and, in such event, the Parties shall work together in good faith to accomplish the intended benefit of the grant of the security interest pursuant to this Section 2.3, during which time no Seller Default shall have occurred, notwithstanding anything to the contrary contained in Section 2.2. If the Parties are unable to accomplish the intended benefit of the grant of the security interest as required by the immediately preceding sentence, Seller may (a) elect to exercise its option to purchase the Real Property hereunder, in which event no Seller Default shall have occurred, notwithstanding anything to the contrary contained in Section 2.2, and the terms and conditions of Section 2.2 and Section 2.3 will be void and of no force or effect, or (b) elect not to exercise its option to

purchase the Real Property hereunder, in which event the terms and conditions of Section 2.2 will apply.

2.4 Option to Purchase. Seller hereby grants Buyers an option, on the terms and conditions set forth in this Agreement, to purchase all of Seller's right, title and interest in and to the Real Property, but not the Excluded Assets, and to assume the Assumed Liabilities, but not the Excluded Liabilities, on and subject to the terms and conditions set forth in this Agreement (the "***Land Purchase Option***"). The Land Purchase Option may only be exercised with respect to all of Seller's right, title and interest in and to the Real Property, and not with respect to only a portion thereof.

2.5 Exercise of Land Purchase Option. Buyers may exercise the Land Purchase Option in accordance with the provisions set forth in Section 2.7 concurrently with Buyers' exercise of the Project Purchase Option:

(a) during the six (6) month period commencing on the date that is eighteen (18) months prior to the tenth (10th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the tenth (10th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(b) during the six (6) month period commencing on the date that is eighteen (18) months prior to the fifteenth (15th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the fifteenth (15th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(c) during the six (6) month period commencing on the date that is eighteen (18) months prior to the twentieth (20th) anniversary of the Commercial Operation Date (in which case the Closing Date shall be on the twentieth (20th) anniversary of the Commercial Operation Date, subject to the terms and conditions of this Article II, Article VII, and Article VIII); or

(d) during the sixty (60) day period commencing on the date on which a Termination Notice is provided by each Buyer to Project Seller, and each Buyer has exercised its remedies pursuant to Section 13.2(d) of the PPA (in which case the Closing Date shall be the date designated by Buyers that is no later than the date that is nine (9) months following delivery by Buyers of the Purchase Option Exercise Notice, subject to the terms and conditions of this Article II, Article VII, and Article VIII).

Each opportunity of Buyers to exercise the Land Purchase Option set forth in Sections 2.5(a) through (d) above shall be referred to herein as a "***Purchase Option Opportunity***."

Seller acknowledges that Buyers have no obligation to exercise the Land Purchase Option and that Buyers may decline to exercise the Land Purchase Option for any or no reason, as Buyers deem appropriate in their sole discretion.

2.6 Environmental Review. Seller acknowledges and agrees that the sale of the Real Property could potentially be subject to environmental review pursuant to CEQA and the National Environmental Policy Act of 1969; provided that any environmental reviews requested by any of the Buyers or required because of any of the Buyers' status as a public agency, in each case, in connection with the exercise of the Land Purchase Option, shall be performed by such Buyer and any costs and expenses incurred in connection with the same shall be borne by such Buyer.

2.7 Tentative Exercise Notice. Buyers shall exercise the Land Purchase Option (if at all) by Buyer's Agent delivering to Seller a written notice of exercise (the "***Purchase Option Tentative Exercise Notice***") signed by one or more Buyers or any combination of Buyers (each such Buyer, a "***Tentative Exercising Buyer***" and collectively, the "***Tentative Exercising Buyers***") within the periods of time specified in Section 2.5.

(a) Disclosure Schedules. Within sixty (60) days after it receives a Purchase Option Tentative Exercise Notice (the "***Schedule Delivery Date***"), Seller will deliver to Buyers' Agent the following, dated as of the Schedule Delivery Date: ***Schedule 3.3*** (Real Property Matters); ***Schedule 3.4*** (Seller's Consents); ***Schedule 3.5*** (Certain Excluded Assets); ***Schedule 3.7*** (Environmental Matters); ***Schedule 3.8*** (Liabilities); ***Schedule 3.9*** (Tax Matters); ***Schedule 3.10*** (Compliance with Laws); ***Schedule 3.11*** (Litigation); ***Schedule 3.12*** (Assumed Contracts); ***Schedule 3.13*** (Intellectual Property); ***Schedule 3.15*** (Non-Environmental Permits); ***Schedule 3.17*** (Employee Matters); ***Schedule 3.18*** (Shared Facilities); and ***Schedule 3.19*** (General Matters) (collectively, the "***Seller Disclosure Schedules***"), each of which shall be applicable to the Real Property and shall list, as required, any qualifications required to make the representations in Article III true and correct, and Buyers' Agent will deliver to Seller, dated as of the Schedule Delivery Date, ***Schedule 4.3*** (Buyers' Consents) (together with the Seller Disclosure Schedules, the "***Disclosure Schedules***").

(b) Title Review. Within thirty (30) days after Tentative Exercising Buyers deliver a Purchase Option Tentative Exercise Notice, Tentative Exercising Buyers shall order (and shall deliver or cause to be delivered to Seller promptly upon receipt), at Tentative Exercising Buyers' expense, a current commitment for extended coverage title insurance from the Title Company insuring Exercising Buyers in the amount of the Final Purchase Price, together with legible copies of all documents listed as exceptions therein, and a current certificate of taxes due with respect to the Real Property, on the current standard form of commitment for an extended ALTA Owner's Policy (collectively, the "***Title Commitment***"). Tentative Exercising Buyers shall cause the Title Company to promptly provide copies of any amendments or modifications of the Title Commitment to Seller prior to Closing.

(c) Survey Review. Within thirty (30) days after Tentative Exercising Buyers deliver a Purchase Option Tentative Exercise Notice, Tentative Exercising Buyers shall order, at Tentative Exercising Buyers' expense (and shall deliver or cause to be delivered to Seller and the Title Company promptly upon receipt) an ALTA/ACSM land and improvements survey plat prepared by a surveyor licensed in the State of California containing the description of the Real Property and location of all improvements and

encroachments thereon, including any improvements, fence locations and easements, rights of way and roadways adjacent to the Real Property, in a form sufficient to enable the Title Company to issue the Title Policy in compliance with Section 7.4(f), certified to Exercising Buyers, Seller, and the Title Company (the "***Survey***"). Tentative Exercising Buyers shall provide copies of any amendments or modifications of the Survey to Seller and the Title Company promptly following Tentative Exercising Buyers' receipt thereof.

(d) Title Defects and Objections. Tentative Exercising Buyers will have until sixty (60) days after the last to be received of the Title Commitment and the Survey to notify Seller of any objections to any items identified in the Title Commitment or on the Survey. Seller will have up to forty-five (45) days after receipt of Tentative Exercising Buyers' objections ("***Seller's Cure Period***") to elect, at its reasonable discretion, to cure all items to which Tentative Exercising Buyers have objected, cause such items to be modified in a manner which is reasonably satisfactory to Tentative Exercising Buyers or to advise Tentative Exercising Buyers that Seller does not intend to cure such items. If any item objected to by Tentative Exercising Buyers in such sixty (60) day period is not curable within Seller's Cure Period, Seller shall (a) have such additional time to cure such item(s) as may be reasonably necessary; provided, that in no event shall the additional time to cure exceed ninety (90) days after the expiration of the initial sixty (60) day cure period, so long as Seller commences such cure within Seller's Cure Period and diligently pursues the same to completion prior to the Closing or, (b) at Seller's cost may elect to obtain one or more endorsements to the Title Commitment, in a form reasonably acceptable to Tentative Exercising Buyers, providing title insurance protection with regard to any objections raised by Tentative Exercising Buyers. If Seller fails to respond with its election prior to the expiration of Seller's Cure Period, fails to cure to the satisfaction of Tentative Exercising Buyers any objection by Tentative Exercising Buyers of which Seller has been given notice in accordance with this Section 2.7(d), or elects not to cure any items to which Tentative Exercising Buyers have objected, then Tentative Exercising Buyers may, in their sole discretion (i) withdraw their Purchase Option Tentative Exercise Notice with respect to the applicable Purchase Option Opportunity by delivering notice thereof to Seller, or (ii) approve any items previously objected to and continue with the exercise of the Land Purchase Option in accordance with the terms of Section 2.8 below by delivering notice to Seller thereof. Tentative Exercising Buyers shall have ten (10) days after receipt of any amendment to the Title Commitment or Survey to object to such amendments in the same manner as Buyers can make objections to the initial Title Commitment or Survey under this Section 2.7(d). Anything above to the contrary notwithstanding, Seller shall cause all financing, judgment, mechanics, and tax liens to be removed as title exceptions prior to or concurrently with the Closing. If Tentative Exercising Buyers fail to elect either option (i) or option (ii) above to Seller prior to the Purchase Option Exercise Deadline, Tentative Exercising Buyers shall be deemed to have elected to proceed under option (ii) above, in which case all matters not objected to by Tentative Exercising Buyers or not cured by Seller shall be deemed to be approved by Tentative Exercising Buyers.

2.8 Tentative Purchase Price; Exercise Notice.

(a) The Tentative Purchase Price shall be determined in accordance with ***Exhibit 2.8*** following the later to occur of: (i) the delivery of the Seller Disclosure Schedules, and (ii) the Schedule Delivery Date.

(b) After the Disclosure Schedules have been delivered and the Tentative Purchase Price has been determined pursuant to Section 2.8(a) and prior to the Purchase Option Exercise Deadline, one or more Tentative Exercising Buyers may elect, in their sole discretion, either to (i) withdraw their exercise of the Land Purchase Option with respect to the applicable Purchase Option Opportunity by delivering written notice thereof to Seller, or (ii) continue with the exercise of the Land Purchase Option (each such exercising Tentative Exercising Buyer, an "***Exercising Buyer***," and collectively, such exercising Tentative Exercising Buyers, "***Exercising Buyers***") by delivering written notice to Seller thereof, which notice shall designate the applicable Closing Option (the "***Purchase Option Exercise Notice***"). The delivery of a Purchase Option Exercise Notice by Exercising Buyers shall constitute a binding and irrevocable commitment by Exercising Buyers to purchase, and shall create a binding obligation of Seller to sell, the Real Property as specified herein (subject to Seller's obligation to deliver any Breach Notice in accordance with Section 5.8 and the satisfaction or waiver of each of the conditions to Closing set forth in Article VII and Article VIII) by the applicable Closing Date. If for any reason Tentative Exercising Buyers deliver the Purchase Option Tentative Notice but do not provide the Purchase Option Exercise Notice, such Tentative Exercising Buyers shall reimburse Seller for the reasonable costs and expenses incurred by Seller in connection with the preparation of the Seller Disclosure Schedules (including reasonable attorneys' fees and expenses) in an aggregate amount up to Fifty Thousand Dollars ($50,000).

(c) If Buyers (i) withdraw their exercise of the Land Purchase Option pursuant to Section 2.8(b)(i) or (ii) fail to timely deliver either a Purchase Option Tentative Exercise Notice or Purchase Option Exercise Notice with respect to any Purchase Option Opportunity within the deadlines therefor under Sections 2.7 or 2.8, respectively, then Buyers' right to exercise the Land Purchase Option with respect to such Purchase Option Opportunity shall expire and shall no longer be effective, but such expiration shall not affect Buyers' right to exercise any Land Purchase Option with respect to any future Purchase Option Opportunity.

2.9 Recordation. Concurrently with Seller's acquisition of a fee interest in any portion of the Real Property, Seller shall (a) deliver to Buyers' Agent a copy of the deed by which Seller acquired a fee interest in such portion of the Real Property, and (b) the Parties shall execute and acknowledge a memorandum of option in form and substance acceptable to Buyers, and Seller shall record such memorandum in the Official Records of Kern County, California. Buyers shall be responsible for payment of all fees and Taxes associated with such recording.

2.10 Deed of Trust. Concurrently with the closing of the acquisition of a fee interest in the Real Property, the Parties shall execute and record a deed of trust pursuant to which Seller shall grant Buyers a lien and security interest in the Real Property to secure Buyer's ability to acquire the Real Property from Seller in accordance with this Agreement or any damages incurred by Buyers as a result of a default by Seller under, this Agreement, in form and

substance reasonably acceptable to Buyers, which shall be subordinate to any mortgage or deed of trust of any Land Lender, and Buyers shall execute a subordination and nondisturbance agreement reasonably satisfactory to Buyers and Land Lender evidencing such subordination. Buyers shall be responsible for payment of all fees and Taxes associated with such recording. In the event the same is reasonably requested by Project Seller or any Facility Lender (as defined in the Project Option Agreement) at any time, Buyers shall execute and deliver a nondisturbance agreement to Project Seller or such Facility Lender substantially in the form attached hereto as ***Exhibit 2.10*** (a "***Nondisturbance Agreement***") and made a part hereof, pursuant to which Buyers shall agree not to disturb the Land Lease in connection with Buyers' exercise of any rights or remedies that may be available to Buyers under the deed of trust granted to Buyers pursuant to this Section 2.10; provided that, if such Facility Lender requires any reasonable changes to the Nondisturbance Agreement, Buyers shall not unreasonably object to any such changes.

2.11 Closing. In the event any Buyers deliver a Purchase Option Exercise Notice, the closing of the purchase and sale of the Real Property (the "***Closing***") shall occur at 11:59 p.m., local time on the Closing Date (subject to the satisfaction or waiver of each of the conditions to Closing set forth in Article VII and Article VIII). The Closing shall be held at the offices of the Title Company by delivery of all closing documents into escrow. All events at the Closing shall be deemed to occur simultaneously, unless otherwise provided herein. In the event the Closing has not occurred by the designated Closing Date in respect of a Purchase Option Opportunity because of the failure of any of the conditions to Closing set forth in Article VII and Article VIII to be satisfied by such designated Closing Date, then either Exercising Buyers (in the case of the conditions set forth in Article VII), acting collectively, or Seller (in the case of the conditions set forth in Article VIII), upon written notice to the other Parties and without liability, may terminate the Land Purchase Option with respect to such Purchase Option Opportunity, and such Purchase Option Opportunity shall expire and shall no longer be effective, but such termination shall not affect Buyers' right to exercise any Land Purchase Option with respect to any future Purchase Option Opportunity; provided that a Party cannot terminate any Land Purchase Option with respect to a Purchase Option Opportunity if the failure of the Closing to occur is the result of the failure on the part of such Party to perform its obligations under this Agreement.

2.12 NO ADDITIONAL WARRANTIES. OTHER THAN THE REPRESENTATIONS AND WARRANTIES EXPLICITLY SET FORTH IN THIS AGREEMENT, NO OTHER REPRESENTATIONS OR WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY, SHALL BE GIVEN OR DEEMED GIVEN AS TO THE REAL PROPERTY AT THE TIME OF SELLER'S SALE OF THE REAL PROPERTY TO BUYER FOLLOWING THE EXERCISE OF THE LAND PURCHASE OPTION.

2.13 Assumed Liabilities. At the Closing, each Exercising Buyer shall assume, and agree to pay for, perform, fulfill and discharge from and after the Closing, its proportionate share of all liabilities and obligations relating to the Real Property or the Assumed Contracts arising or occurring after the Closing Date other than the Excluded Liabilities (collectively, the "***Assumed Liabilities***").

2.14 Excluded Liabilities. Anything in this Agreement to the contrary notwithstanding, no Exercising Buyer shall assume, and shall not be deemed to have assumed, and shall have no liability with respect to (whether asserted before or after the Closing and regardless of whether the same or the basis therefor may have been disclosed to any Exercising Buyer by Seller or otherwise be known to any Exercising Buyer), any of the following liabilities or obligations of Seller (all such unassumed liabilities and obligations referred to in this Agreement as the "***Excluded Liabilities***"):

(a) Any liability or obligation of Seller in respect of Taxes attributable to the Real Property for taxable periods ending on or prior to the Closing, including any supplemental tax liability related to activity or state of facts at the Real Property conducted on or before the Closing that arises after the Closing, except that each Exercising Buyer will be obligated to pay its prorated portion of current property taxes as provided below and all property taxes related to any periods beginning after the Closing;

(b) Any liability or obligation of Seller relating to the Real Property, including arising out of Seller's ownership and use of the Real Property, arising or occurring prior to the Closing;

(c) Any liability or obligation of Seller arising out of Seller's ownership and operation of any assets other than the Real Property at any time;

(d) Any liability or obligation of Seller arising from a breach by Seller, or any event, circumstance or condition occurring or existing prior to the Closing that, with notice or lapse of time, constitutes or results in a breach by Seller under this Agreement, the PPA (including the Ancillary Documents), or any of the Operative Documents;

(e) Any liability or obligation of Seller under any Contract (including with respect to any contractors or subcontractors thereunder) other than an Assumed Contract or a Permit other than a Transferred Permit;

(f) Any liability or obligation under any Assumed Contract or a Transferred Permit to the extent such liability or obligation arises from or relates to any breach by Seller of any provision of any of such Assumed Contracts or Transferred Permits prior to the Closing;

(g) Any liability or obligation of Seller with respect to the employment or termination of any employee or group of employees by Seller, or the terms thereof, whether union or nonunion, whether the liability or obligation calls for performance or observance before or after the Closing and whether the liability or obligation arises from a collective bargaining agreement, pension trust fund plan, or other agreement or arrangement to which Seller is a party or by which Seller is bound (whether oral or written and whether express or implied in fact or in law) or any past practice or custom or otherwise, it being understood and agreed that after the Closing, Exercising Buyers will specify the terms on which employment is offered to any individual to whom Exercising Buyers, in their sole discretion, choose to offer employment and will not be bound by any term of employment in effect at or at any time prior to the Closing;

(h) Any liability or obligation of Seller for pension fund payments or unfunded pension fund liabilities;

(i) Any liability or obligation arising from or associated with any of the Excluded Assets;

(j) Any liability or obligation of Seller or its Affiliates arising out of or related to any claim or loss against Seller or its Affiliates or any third-party claims or losses which adversely affects the Real Property and which shall have been asserted prior to the Closing or to the extent the basis of which shall have arisen exclusively prior to the Closing;

(k) Any liability or obligation of Seller or its Affiliates to a third party arising from any indemnification claim, injury to or death of any person or damage to or destruction of any property (and including workers' compensation claims, discrimination, wrongful discharge, or unfair labor practice), whether based on negligence, breach of warranty, strict liability, enterprise liability or any other legal or equitable theory arising from actions by, for or on behalf of Seller or its Affiliates arising prior to the Closing; and

(l) Any liability or obligation of Seller or its Affiliates representing Land Debt incurred by Seller or its Affiliates or Liens or encumbrances other than Closing Permitted Encumbrances.

Seller agrees to pay or otherwise discharge, or cause the payment or discharge, of all Excluded Liabilities prior to the Closing, and shall provide Buyers' Agent with evidence thereof that is reasonably satisfactory to Buyers' Agent.

2.15 Schedule Updating; Final Purchase Price.

(a) No later than the date that is thirty (30) days prior to the designated Closing Date (the "***Updated Schedule Delivery Date***"), Seller shall have provided Buyers' Agent with updated Seller Disclosure Schedules and such Seller Disclosure Schedules, as may be further updated by Seller from time to time prior to the Closing, shall be used as the final Seller Disclosure Schedules for purposes of its representation and warranties made under Article III as of the Closing; *provided, however,* that if after the Updated Schedule Delivery Date, an event or circumstance occurs or exists that requires additional updates to the Seller Disclosure Schedules, Seller shall deliver such updates to Exercising Buyers as soon as practicable, and Exercising Buyers may, at their option, extend the Closing Date on day-for-day basis for the period of time between the Updated Schedule Delivery Date and the date on which such updates were delivered to Exercising Buyers, and the Parties shall make any adjustments to the Purchase Price as may be required to account for such updates in accordance with ***Exhibit 2.8***.

(b) At the Closing, upon the terms and subject to the conditions set forth herein, Exercising Buyers shall, in exchange for the sale, transfer, assignment, conveyance and delivery of the Real Property by Seller, and the assumption by Exercising Buyers of the Assumed Liabilities in accordance with this Agreement, pay

Seller the Final Purchase Price determined in accordance with ***Exhibit 2.8***. Such Final Purchase Price shall be paid by Exercising Buyers by one or more wire transfers of immediately available funds to an account designated in writing by Seller.

2.16 Proration. Without limiting each Exercising Buyer's obligation to pay its proportionate share of the Transfer Taxes under Section 2.17, Exercising Buyers and Seller agree that any items normally prorated, including those listed below, relating to the Real Property, the Assumed Contracts, or the Assumed Liabilities, shall be prorated as of the Closing, with Seller being liable to the extent such items relate to periods on or prior to the Closing Date, and Exercising Buyers being liable to the extent such items relate to periods after the Closing with, to the extent practicable, a cash settlement on the Closing:

(a) personal property and real estate Taxes, assessments and other charges, if any, by the applicable municipality, on the basis of the applicable municipality's fiscal year, on or with respect to the Real Property, the Assumed Contracts, or the Assumed Liabilities;

(b) rent, Taxes and other items payable by or to Seller under any of the Assumed Contracts which are associated with the Real Property;

(c) any Permit, registration, compliance, assurance fees or other fees with respect to any Transferred Permit comprising part of the Real Property; and

(d) sewer rents and charges for water, telephone, electricity and other utilities.

In connection with the prorations referred to in this Section 2.16, in the event that actual amounts for such items are not available on the Closing Date, the proration shall be based upon the actual Taxes or fees for the preceding year (or appropriate period) for which actual Taxes or fees are available and such Taxes or fees shall be re-prorated upon the request of Seller, on the one hand, or Exercising Buyers, on the other hand, within sixty (60) days of the date that the actual amounts become available. Seller and Exercising Buyers agree to furnish each other with such documents and other records as may be reasonably requested in order to confirm all adjustment and proration calculations made pursuant to this Section 2.16.

2.17 Closing Costs; Transfer Taxes and Fees. Exercising Buyers shall be solely liable for and shall pay their respective proportionate shares of, and Seller shall be solely liable and shall pay its share of, all (i) recording, documentary and transfer Taxes and any sales, use or other Taxes imposed on such Party by reason of the transfer of the Real Property as provided hereunder (excluding Taxes imposed on or measured by the net income or profits of Seller), and any deficiency, interest or penalty asserted with respect thereto, under applicable Laws ("***Transfer Taxes***"), and (ii) except as set forth in Section 2.6 and Section 2.16, all transaction costs incurred by it in connection with the exercise of the Land Purchase Option and the Closing (including the costs and expenses of its outside legal counsel and advisors) except for closing and escrow fees charged by the Title Company, which shall be shared fifty percent (50%) by Buyers, and fifty percent (50%) by Seller. Each Party shall provide the other Parties with evidence satisfactory to the other Parties that such Transfer Taxes have been paid. The Parties acknowledge that a Party's obligation to collect Taxes from another Party on whom such Taxes

are imposed shall not constitute an actual imposition of such Taxes by a Taxing Authority on the collecting Party.

2.18 Closing Obligations. At the Closing: (a) Seller will deliver (or will have delivered) to Buyers' Agent each of the certificates, instruments, documents and agreements referred to in Article VII to be provided by Seller on or prior to the Closing, and (b) each Exercising Buyer will deliver (or will have delivered) to Seller (i) its proportionate share of the Final Purchase Price, and (ii) each of the certificates, instruments, documents and agreements referred to in Article VIII to be provided by an Exercising Buyer on or prior to the Closing.

ARTICLE III
REPRESENTATIONS AND WARRANTIES OF SELLER

Upon the exercise of the Land Purchase Option, Seller represents and warrants to Exercising Buyers as follows as of the Schedule Delivery Date and the Closing Date, and, with respect to Sections 3.1 and 3.2, the Effective Date (with the understanding that, following the Schedule Delivery Date, Seller shall have the right, until it delivers final Seller Disclosure Schedules as provided in Section 2.15(a), to update any information contained in the Seller Disclosure Schedules if the occurrence of events or the discovery of new information makes the revision of such Seller Disclosure Schedules necessary, subject to a Purchase Price adjustment as set forth in ***Exhibit 2.8*** and the limitations on the effect of such revisions set forth in Section 2.15(a)):

3.1 Organization and Good Standing. Seller is a limited liability company duly organized, validly existing and in good standing under the laws of its state of organization and is qualified to do business in the State of California, and has the legal power and authority to own or to hold its interests in properties, to carry on its business as now being conducted and to enter into and perform its obligations under this Agreement and each of the Operative Documents to which Seller is a party.

3.2 Authority; Absence of Conflict or Breach. The sale of the Real Property and the execution, delivery and performance by Seller of this Agreement and each of the Operative Documents executed and delivered by Seller in connection with such sale have been duly authorized by all necessary limited liability company action on the part of Seller and the direct or indirect owners of any interest in Seller and do not require any consent or approval other than those which have already been obtained or otherwise as disclosed in the Seller Disclosure Schedules. This Agreement and each of the Operative Documents to which Seller is a party constitutes the legal, valid and binding obligation of Seller, enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors' rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law. The execution and delivery of this Agreement and each of the Operative Documents to which Seller is a party, the consummation of the sale of the Real Property and the fulfillment of and compliance with the provisions of this Agreement and the Operative Documents to which Seller is a party do not conflict with or constitute a breach of or a default under, any of the terms, conditions or provisions of any Requirements of Law, or any Organizational Documents, agreement, deed of trust, mortgage, loan agreement, other evidence

of indebtedness or any other agreement or instrument to which Seller is a party or by which it or any of its property is bound, or result in a breach of or a default under any of the foregoing or result in or require the creation or imposition of any Lien upon any of the properties or assets of Seller, except as contemplated hereby.

3.3 Real Property Matters.

(a) ***Schedule 3.3(a)*** contains a true, correct and complete list of any Contracts, including the Land Documents and the Land Lease, that provide Seller with any rights in or to real property ("***Real Property Contracts***"), including rights in the nature of leases, easements, licenses, rights of way, franchise agreements, restrictive covenants, purchase agreements, agreements to relinquish or limit surface access rights with regards to minerals, options to purchase or lease, or applications for or bids to Governmental Authorities with respect to any of the foregoing interests in real property (collectively, "***Real Property Interests***"), as well as leases (including farm and grazing leases), and other agreements in the possession of Seller, or of which Seller has Knowledge, that grant or purport to grant, or reserve or purport to reserve, to third parties, interests in or to the land which is subject to Real Property Interests, including grants of mineral and any other surface or access rights to third parties ("***Third Party Property Interests***"). True, correct and complete copies of the Real Property Contracts have been delivered to Buyers' Agent. Seller holds no Real Property Interests other than those that are set forth in such Real Property Contracts. Except as set forth in ***Schedule 3.3(a)***, neither Seller, nor to Seller's Knowledge, any counterparty thereto, is in default in any material respect of any obligation with respect to the Real Property Contracts. Except as set forth in ***Schedule 3.3(a)***, each of the Real Property Interests granted by a Real Property Contract provides legal, valid, and enforceable rights in favor of Seller and constitutes a legal, valid and binding obligation of Seller and, to Seller's Knowledge, of the other parties thereto. True, correct and complete copies of all title reports, surveys, mineral reports for any severed minerals (including any evaluation as to feasibility or likelihood of mineral extraction and any separate chain of title for severed minerals), material records searches (for any governmental records not included in any title reports) and exception documents referenced in such reports, policies, or searches have been delivered to Buyers' Agent.

(b) Except as set forth in ***Schedule 3.3(b)***, Seller has not received any written notice of any appropriation, condemnation or like proceeding, or of any violation of any applicable zoning or land use law, regulation or rule or other law, Order, regulation, rule or requirement relating to or affecting any of the Real Property Interests.

(c) Except as set forth in ***Schedule 3.3(c)***, Seller has not previously severed any mining, mineral or water rights from any of the Real Property Interests and has disclosed to Exercising Buyers any information regarding any severed mining, mineral or water rights affecting the Real Property Interests.

(d) Except as set forth in ***Schedule 3.3(d)***, other than with respect to the Real Property Contracts or Permits, Seller has not received any written notice that any agreements with any Governmental Authority or public or private utility affect the Real Property Interests.

3.4 Consents. Except as set forth in ***Schedule 3.4,*** other than those that have been obtained or filed, no Consent of, or registration, qualification or filing with any Person, including any Governmental Authority, is required for the sale of the Real Property or the execution and delivery by Seller of this Agreement or any of the Operative Documents to which it is a party or in order for Seller to perform its obligations hereunder or thereunder.

3.5 Assets of the Business. Except as set forth in ***Schedule 3.5***, the Real Property constitutes all of the assets, properties, rights, material privileges, claims and Contracts of every kind and nature, real or personal, tangible or intangible, absolute or contingent, wherever located, owned or used (including those necessary to access and utilize any common use facilities) comprising the Real Property as owned and historically operated by Seller prior to the Closing.

3.6 Title. Immediately prior to the Closing, Seller has fee, good, and marketable title to the Real Property, free and clear of all Liens, except for the Purchase Option Permitted Encumbrances. Upon the Closing, Exercising Buyers will acquire good and marketable fee title to the Real Property free and clear of all Liens, except for Closing Permitted Encumbrances.

3.7 Environmental. Except as set forth in ***Schedule 3.7***, and except as not having (or not reasonably likely to have) a Material Adverse Effect:

(a) To Seller's Knowledge, there are no threatened, pending or outstanding Agency Actions concerning the Real Property with respect to Environmental Laws applicable to Seller, the Real Property, or Seller's ownership and use of the Real Property. Seller is, and at all times has been, and has owned and used the Real Property, in compliance with all applicable Environmental Laws. There are no writs, injunctions, decrees, Orders or judgments outstanding, or, to Seller's Knowledge, any notices, actions, suits, Proceedings or investigations outstanding, pending or threatened, relating to (i) Seller's compliance with any Environmental Laws with respect to any of the Real Property or any other asset owned or used by Seller or in which it has or had an interest in connection with the Real Property, or (ii) the Release of any Hazardous Substances at the Real Property.

(b) All Permits required by Environmental Laws and necessary for the use of the Real Property have been obtained and are currently in effect. Seller's use/occupation of the Real Property are in compliance in all material respects with all the requirements of such Permits; and, to Seller's Knowledge, Seller is not subject to any pending notice of violation from any Governmental Authority or from any other Person alleging that Seller has committed any act, or failed to act, in any manner or under any circumstance that would preclude continued use of the Real Property under any Permits.

(c) Seller has delivered to Buyers' Agent all written reports, written notices or written inquiries from any Governmental Authority that are in Seller's possession relating to the Environmental Conditions at, upon or beneath the Real Property regardless of whether such Environmental Conditions were caused by or arose from Seller's ownership or use of the Real Property, except to the extent (i) such reports, notices or inquiries constitute communications from Seller's counsel to Seller that are subject to attorney-

client privilege, or (ii) the provision of such reports, notices or inquiries would conflict with any confidentiality obligations to which Seller is bound.

(d) Each of the Real Property and Seller is in material compliance with all Environmental Laws. To Seller's Knowledge, there are no circumstances, conditions or proposed regulations that could reasonably be expected to prevent or substantially interfere with Exercising Buyers' compliance with Environmental Laws in connection with Exercising Buyers' ownership or use of the Real Property in the foreseeable future in a manner consistent with Seller's ownership or use of the Real Property during the Agreement Term under the PPA.

(e) To Seller's Knowledge, there are currently no circumstances or conditions existing on the Real Property that could reasonably be expected to prevent or adversely interfere with Seller's compliance with Environmental Laws in connection with Seller's ownership and use of the Real Property.

(f) Hazardous Substances have not been generated, used, treated or stored on, or transported by or on behalf of Seller to or from the Real Property in violation of Environmental Laws.

(g) There is no asbestos contained in or forming any part of any building, building component, structure or other asset that is part of the Real Property, and no asbestos is or has been stored, disposed of or otherwise been present at the Real Property. Seller does not have any liability arising from asbestos in connection with the ownership, use, or renovation of the Real Property.

(h) There has been no Release or threatened Release of Hazardous Substances by Seller or any party under the reasonable control of Seller, and, to Seller's Knowledge, there has been no Release or threatened Release of Hazardous Substances by any other party, at, on, under or from the Real Property or at, on, under or from any property adjoining part of the Real Property, other than in compliance with applicable Environmental Laws or as has previously been remediated in accordance with applicable Environmental Laws.

(i) In connection with its ownership of the Real Property, Seller has disposed of all hazardous or toxic wastes, including those containing any Hazardous Substances, in compliance with all applicable Environmental Laws, and Seller has not received any written notice or demand letter from any Person claiming Seller may be liable for any on- or off-site Release or threatened Release of Hazardous Substances.

(j) There are not now, and, to Seller's Knowledge, never have been, any aboveground or underground storage tanks or PCB-containing transformers or equipment located at the Real Property.

(k) Seller has provided Buyers' Agent with all material written reports, surveys, studies, correspondence, investigations, tests and environmental sampling and analyses (whether commissioned by Seller or otherwise) that are in Seller's custody or

control concerning the wildlife, cultural resources, natural resources and the environmental condition of the Real Property, Hazardous Substances in, on and under the Real Property, or Seller's compliance with applicable Environmental Laws in the ownership or use of the Real Property, except to the extent such documents are subject to attorney-client privilege or conflict with any confidentiality obligations to which Seller is bound.

(l) Seller has not received any written request for information or any written notification that it is a potentially responsible party under CERCLA or any similar state Environmental Law, including any such request or notification relating directly or indirectly to the Real Property, and none of the Real Property is proposed to be listed or is listed on the National Priorities List under CERCLA or any similar state Environmental Law requiring environmental investigation or cleanup.

3.8 No Undisclosed Liabilities. Seller has no liabilities (absolute, accrued, contingent or otherwise) in excess of One Hundred Twenty-Five Thousand Dollars ($125,000) in the aggregate, except for (a) those set forth in ***Schedule 3.5***, ***Schedule 3.7***, ***Schedule 3.8***, ***Schedule 3.9***, ***Schedule 3.10***, or ***Schedule 3.11***, (b) those otherwise disclosed in writing to Exercising Buyers or explicitly set forth in any of the Assumed Contracts or Transferred Permits, or (c) those constituting Excluded Liabilities.

3.9 Taxes. Any Liens for Taxes are set forth in ***Schedule 3.9.***

(a) There are no Liens for Taxes on the Real Property, except for (i) as of the Schedule Delivery Date, Purchase Option Permitted Encumbrances, and (ii) as of the Closing Date, Closing Permitted Encumbrances.

(b) Seller has filed or caused to be filed with the appropriate Governmental Authorities all Tax Returns and reports relating to Seller required to be filed as of the Closing Date, all such Tax Returns were correct and complete in all material respects and all Taxes of Seller due and payable have been paid whether or not shown to be due on such Tax Returns and reports.

(c) Seller has not received any written notice from any Governmental Authority of, and has no other Knowledge of, any outstanding claims or assessments with respect to any Tax relating to the Real Property and, to Seller's Knowledge, no such claim is pending or being asserted against Seller or with respect to the Real Property.

(d) Seller has no Knowledge of any proposed tax assessment against the Real Property that is not being actively contested by it in good faith and by appropriate proceedings.

(e) Seller has timely paid all Taxes shown to be due on such Tax Returns, all Tax assessments received, and all Taxes that have or may become due under applicable Law with respect to all periods or portions thereof ending on or prior to the Closing Date.

(f) Seller is not a party to any pending Tax audit, investigation, action or Proceeding with any Governmental Authority, and, to Seller's Knowledge, there is no

threatened audit, investigation, action or Proceeding by any Governmental Authority with respect to the Real Property. Seller has not received written notice of any claim by any Governmental Authority in any jurisdiction where it does not file Tax Returns or pay Taxes that it is or may be subject to Tax by that jurisdiction.

(g) Seller has timely withheld and timely paid all Taxes that are required to have been withheld and paid by it in connection with amounts paid or owing to any employee, independent contractor, creditor or other Person.

3.10 Compliance With Laws. Except as set forth in ***Schedule 3.10***, (a) Seller is in compliance with all Laws applicable to the Real Property and ownership and use of the Real Property, except as would not have a Material Adverse Effect and (b) there are no condemnations or similar proceedings applicable to the Real Property.

3.11 Litigation. Except as set forth in ***Schedule 3.11***:

(a) There are no Proceedings pending or, to Seller's Knowledge, threatened against Seller which could result, or have resulted in (i) the institution of legal proceedings to prohibit or restrain the ownership or use of the Real Property or any portion thereof, or the consummation of the transactions contemplated hereby, or (ii) a claim for damages for which any Exercising Buyer could be liable or that could place any Lien or other encumbrance on the Real Property;

(b) There are no existing Orders, writs, injunctions, judgments or decrees of any court, arbitrator, tribunal or other Governmental Authority issued against Seller which could result, or have resulted in (i) the institution of legal proceedings to prohibit or restrain the ownership or use of the Real Property or any portion thereof, or the consummation of the transactions contemplated hereby, or (ii) a claim for damages for which any Exercising Buyer could be liable or that could place any Lien or other encumbrance on the Real Property.

3.12 Assumed Contracts. Seller has delivered or made available to Buyers' Agent true and complete copies of all Contracts. Except as set forth in ***Schedule 3.12***, all Assumed Contracts are in full force and effect, and neither Seller, nor any other party thereto, is in default under or in breach of any of them, nor does any event or condition exist that after notice or lapse of time or both could constitute a default thereunder or breach thereof on the part of Seller or any other party thereto (except for defaults, events of default and other events as to which requisite waivers have been, or prior to the Closing will have been, obtained). No approval, consent, or waiver of or by any Person that has not already been obtained is needed in order that the Assumed Contracts continue in full force and effect following the consummation of the transactions contemplated by this Agreement, and no Assumed Contract includes any provision, the effect of which may be to terminate (or give rise to a right of termination under) such Assumed Contract, or to give rise to, enlarge, or accelerate any obligations of Seller thereunder, or to give additional rights to any other Person, upon or by reason of the consummation of the transactions contemplated by this Agreement.

3.13 Intellectual Property.

(a) Except as set forth in ***Schedule 3.13***, Seller is the licensee of, or has such rights under the patents, patent applications, inventions, improvements, computer programs, computer applications, operating programs, other programs and software, including system documentation and instructions, engineering, construction and other drawings (other than drawings not needed for the Real Property), designs, technology, know-how, trade secrets, trademarks, trademark applications, trade names, copyrights and other proprietary rights and proprietary information (to the extent any of the foregoing are necessary to own and use the Real Property in substantially the same manner as it has been owned and used by Seller, collectively, the "***Intellectual Property Assets***"). Except as set forth in ***Schedule 3.13***, Seller has not received written notice that any of the Intellectual Property Assets infringes on or conflicts with the intellectual property of others. Seller has the right to use the Intellectual Property Rights in connection with its ongoing ownership and use of the Real Property.

(b) Except as set forth in ***Schedule 3.13***, there have been no claims, and, to Seller's Knowledge, there is no basis for any claim, challenging the scope, validity or enforceability of any of the Intellectual Property Assets. Except as set forth in ***Schedule 3.13***, there are no instances where it has been held, or to Seller's Knowledge, claimed or alleged, whether directly or indirectly, and, to Seller's Knowledge, there is no basis upon which such a claim may be made, that any activity of Seller relating to the ownership and use of the Real Property, infringes or may infringe upon, is in violation of, or misappropriates, any rights of a third party.

(c) ***Schedule 3.13*** lists the software used in connection with the ownership or use of the Real Property as of the Schedule Delivery Date, including control room operating system software, all of which shall, except as set forth in ***Schedule 3.13***, remain available at the Real Property for use by Exercising Buyers.

3.14 Brokers or Finders. Neither Seller nor any of its officers, directors, employees, shareholders or Affiliates has employed or made any agreement with any broker, finder or similar agent or any Person which will result in the obligation of any Exercising Buyer or any of their Affiliates to pay any finder's fee, brokerage fees or commission or similar payment in connection with the transactions contemplated hereby.

3.15 Permits. Except as set forth in ***Schedule 3.15***, all non-environmental Permits currently required by Law and necessary for the ownership and use of the Real Property have been obtained, are currently in effect, are final and non-appealable, and are transferrable to Exercising Buyers without the requirement of any third-party Consent. Seller's ownership of the Real Property and use thereof are in compliance in all material respects with all of the requirements of such Permits. As of the Closing, Seller is not in possession of, and, to Seller's Knowledge, there is no reasonable basis for the issuance of, any written notice of violation or other notification from any Governmental Authority or from any other Person alleging that Seller has committed any act, or failed to act, in any manner or under any circumstance that could preclude continued ownership and use of the Real Property by Exercising Buyers under any of the Permits. Seller has made available to Exercising Buyers complete and correct copies of each Permit, together with all amendments thereto. No suspension, cancellation of termination of any Permit is threatened or imminent.

3.16 Investment Company Act. Seller is not an "investment company" or a company "controlled" by an "investment company" within the meaning of the Investment Company Act.

3.17 Employees and Employee Benefit Plans. Except as set forth in ***Schedule 3.17***, Seller does not have and has never had any employees, and Seller does not maintain or contribute to, and has not ever maintained or contributed to, any pension, profit-sharing, deferred compensation, bonus, stock, option, share, appreciation right, severance, group or individual health, dental, medical, life, insurance, survivor benefit or similar plan, policy or arrangement for the benefit of any director, officer, consultant or employee, whether active or terminated, of Seller.

3.18 No Shared Facilities. Except as set forth on ***Schedule 3.18***, there are no shared facilities (including control rooms, interties, buildings, or rights of way) required for the ownership or use of the Real Property.

3.19 General Representation. Except as set forth on ***Schedule 3.19***, no representation or warranty made by Seller, its agents and representatives in this Agreement or any of the Operative Documents or in any certificate or other agreement delivered by Seller to Buyers' Agent in connection with the transactions contemplated hereby or thereby contains any untrue statement of a material fact, or, to Seller's Knowledge, omits to state a material fact necessary in order to make the statements contained herein, in light of the circumstances in which they were made, not misleading. All material information contained in the Provided Materials is materially consistent with the information which has been used by Seller in the management of the Real Property and also with what has been or will be reported to Seller's management, equity holders and the Land Lender.

ARTICLE IV
REPRESENTATIONS AND WARRANTIES OF BUYERS

Each Exercising Buyer represents and warrants to Seller as follows as of the Closing Date:

4.1 Organization. Such Exercising Buyer is, (i) with respect to SCPPA and PWRPA, a validly existing California joint powers authority or (ii) with respect to Lodi, Corona, Moreno Valley and Rancho Cucamonga, a validly existing California municipal corporation, and has the legal power and authority to own its properties, to carry on its business as now being conducted and to enter into this Agreement, and to carry out the transactions contemplated hereby and thereby, and to perform and carry out all covenants and obligations on its part to be performed under and pursuant to this Agreement.

4.2 Authority; Binding Nature. The purchase of the Real Property and the execution, delivery and performance by such Exercising Buyer of this Agreement and each of the Operative Documents executed by such Exercising Buyer and delivered by Buyers' Agent in connection with such purchase have been duly authorized by all necessary action on the part of each Exercising Buyer; provided that further authorizations from each Exercising Buyer will be required for such Exercising Buyer to exercise the Land Purchase Option. This Agreement and each of the Operative Documents to which each Exercising Buyer is a party constitute the legal,

valid and binding obligation of such Exercising Buyer enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization or similar laws relating to or affecting the enforcement of creditors' rights generally or by general equitable principles, regardless of whether such enforceability is considered in a proceeding in equity or at law. The execution and delivery of this Agreement and each of the Operative Documents to which each Exercising Buyer is a party, the consummation of the purchase of the Real Property and the fulfillment of and compliance with the provisions of this Agreement and each of the Operative Documents to which such Exercising Buyer is a party do not and will not conflict with or constitute a breach of or a default under, any of the terms, conditions or provisions of any Requirements of Law, or any Organizational Documents, agreement, deed of trust, mortgage, loan agreement, other evidence of indebtedness or any other agreement or instrument to which such Exercising Buyer is a party or by which it or any of its property is bound, or result in a breach of or a default under any of the foregoing.

4.3 Consents. Except as set forth in ***Schedule 4.3***, other than those that have been obtained or filed, no Consent of, or registration, qualification or filing with any Person, including any Governmental Authority, is required for the purchase of the Real Property or the execution and delivery by such Exercising Buyer of any of the Operative Documents to which it is a party or in order for such Exercising Buyer to perform its obligations hereunder.

4.4 Brokers or Finders. Neither such Exercising Buyer, nor any of its members, officers, directors, or employees, has employed or made any agreement with any broker, finder or similar agent or any Person which will result in the obligation of Seller or any of its Affiliates to pay any finder's fee, brokerage fees, or commission or similar payment in connection with the transactions contemplated hereby.

4.5 Litigation. There are no Proceedings pending, or to such Exercising Buyer's knowledge, threatened, against such Exercising Buyer which could materially and adversely affect its ability to perform its obligations with respect to the purchase of the Real Property pursuant to a Purchase Option Exercise Notice.

4.6 Buyers' Agent. Buyers' Agent has been appointed as the agent for Buyers pursuant to an agreement among Buyers, a true and correct copy of which has been furnished to Seller, for the purposes of administering this Agreement and the transactions contemplated hereunder. Buyers' Agent has the power and authority to take such actions, grant such consents, and bind Buyers with respect to the matters provided for in this Agreement in a manner consistent with the term and conditions set forth in this Agreement.

ARTICLE V
COVENANTS OF SELLER PRIOR TO CLOSING DATE

5.1 Access to Materials. Prior to the Schedule Delivery Date, Seller will furnish to Buyers all information required to be furnished pursuant to Section 3.7(k). Between the Schedule Delivery Date and the Closing Date (or such earlier date upon which the applicable Purchase Option Opportunity has been declined, expired or is no longer in effect, or when the Agreement has terminated) (such period, the "***Applicable Diligence Period***"), upon reasonable advance notice, Seller will (a) afford Buyers and their Representatives (and the Qualified

Appraiser) full and complete access during normal business hours to the Real Property and to Seller's personnel, Assumed Contracts, Transferred Permits, Books and Records, properties and other documents and data (provided that Buyers shall observe, and shall cause its Representatives to observe, all of Seller's security protocols), (b) furnish Buyers and Buyers' Representatives (and the Qualified Appraiser) with copies of all such Assumed Contracts, Transferred Permits, Books and Records, and other existing documents and data in Seller's possession or to which Seller has access with respect to the Real Property as any Buyer or the Qualified Appraiser may reasonably request, and (c) furnish Buyers and their Representatives (and the Qualified Appraiser) with such additional financial and other data and information of or pertaining to the Real Property in Seller's possession or to which Seller has access as any Buyer and its representatives (and the Qualified Appraiser) may reasonably request (all such Assumed Contracts, Transferred Permits, Books and Records, documents, data and information required to be furnished by Seller under this Section 5.1 shall hereinafter be referred to as "***Provided Materials***"). Buyers shall have the right to diligently review the Provided Materials. To the extent any Provided Materials are (i) subject to confidentiality, non-disclosure or similar agreements in favor of third parties whose consent to disclose cannot be obtained by the Closing (ii) legally-privileged information of Seller, or (iii) concerning any alleged dispute or pending litigation, investigation or Proceeding involving Seller or its Affiliates that is protected by or subject to the attorney-client privilege, or (iv) restricted by an agreement entered into in connection with such dispute, litigation, investigation or Proceeding or an order entered by any court, such Provided Materials shall be redacted as necessary to allow for disclosure to Buyers and the Qualified Appraiser.

5.2 Investigations. During the Applicable Diligence Period, upon reasonable advance notice (but not less than twenty-four (24) hours), Seller shall afford each Buyer and its Representatives (and the Qualified Appraiser), with reasonable access to the Real Property for the purpose of inspecting the same, to conduct any tests or physical inspections or otherwise (including to conduct a Phase 1 environmental site assessment), during normal business hours and in such manner so as not to materially disturb or interfere with the normal use of the Real Property, provided that each Buyer (or each Exercising Buyer, as applicable) shall indemnify Seller for any damage to the Real Property, suits and causes of action, claims, charges, damages, demands, judgments, civil fines and penalties, or losses of any kind or nature whatsoever, for death, bodily injury or personal injury to any person, including Seller's employees and agents, or third persons, or damage or destruction to any property of Seller or third persons, directly incurred in connection with such investigations.

5.3 Site Control Documents.

(a) Seller shall (i) not encumber, terminate, cancel, sever or surrender, or permit or suffer the subordination, encumbrance, termination, cancellation, severance or surrender of, or modify, change, amend or assign the Site Control Documents in a way that could, individually or in the aggregate, have a material adverse effect on Tentative Buyers or Exercising Buyers (including Tentative Buyers or Exercising Buyers', as applicable, ability to exercise the Land Purchase Option and take possession of the Real Property), the Real Property, or Seller's performance of its obligations under this Agreement, without the prior consent of Tentative Buyers or Exercising Buyers, (ii) provide to Buyers' Agent copies of any proposed amendments or modifications to the Site Control Documents and obtain Buyers' Agent's approval (which approval shall not be

unreasonably withheld, conditioned, or delayed) prior to execution and delivery of any such amendments or modifications by Seller, (iii) at all times keep, perform, observe and comply with, or cause to be kept, performed, observed and complied with, all covenants, agreements, conditions and other provisions required to be kept, performed, observed and complied with by or on behalf of Seller from time to time pursuant to the Site Control Documents, and Seller shall not do or permit anything to be done, the doing of which, or refrain from doing anything, the omission of which, would materially impair the rights of Seller under the Site Control Documents, or could be grounds for any seller thereunder to terminate any of the Site Control Documents, and (iv) give Buyers' Agent immediate notice of (a) any default or of any event which, with the giving of notice or passage of time, or both, could become a default under any of the Site Control Documents, or of the receipt by Seller of any notice from any seller thereunder regarding any default, or (b) the commencement or threat of any action or proceeding or arbitration pertaining to the Site Control Documents (and Tentative Buyers or Exercising Buyers, as applicable, at their option and at their sole cost and expense, may take any action but shall not be obligated to take any action from time to time deemed necessary or desirable by Tentative Buyers or Exercising Buyers to cure, in whole or in part, any default by Seller under the Site Control Documents) and Seller shall deliver to Buyers' Agent, immediately upon service or delivery thereof on, to or by Seller, a copy of each petition, summons, complaint, notice of motion, order to show cause and other pleading or paper, however designated, which shall be served or delivered in connection with any such action, proceeding or arbitration.

(b) In the event that a petition under the Bankruptcy Code shall be filed by or against Seller, Seller absolutely, irrevocably, and unconditionally grants and assigns to Buyer's Agent the sole and exclusive right to designate and direct Seller's assumption and assignment, or rejection, of any Site Control Document or the Land Lease pursuant to Section 365 of the Bankruptcy Code, and Seller agrees that any such election, if made by Seller or Seller's trustee without the prior consent of Buyer's Agent shall be void at inception and of no force or effect. Buyer's Agent shall have the right, but not the obligation, to instruct Seller or Seller's trustee on behalf of Tentative Exercising Buyers or Exercising Buyers, as applicable, as to such assumption and assignment or rejection of any Site Control Document or the Land Lease, and Seller shall, or shall cause Seller's trustee to, comply with such instructions.

5.4 Seller's Purchase of Real Property. Seller shall deliver evidence of Seller's purchase of the Real Property under the Site Control Documents, promptly upon the purchase thereof, but in no event later than the Site Control Milestone Date specified in the PPA.

5.5 Seller's Assets. Seller represents and warrants to Buyers that, as of the Effective Date, the Site Control Documents are the only assets held by Seller. Until Seller exercises its option to purchase the Real Property under the Site Control Documents, the Site Control Documents will constitute all or substantially all of the assets of Seller.

5.6 Operation of the Business. During the Applicable Diligence Period, Seller will conduct its business with respect to the Real Property in all material respects in accordance with the ordinary course of business consistent with past practices and Prudent Utility Practices.

5.7 Required Approvals. As promptly as practicable following Buyers' Agent's delivery of the Purchase Option Exercise Notice until the end of the Applicable Diligence

Period, Seller will make, and thereafter diligently pursue during the Applicable Diligence Period, all registrations, qualifications or filings to be identified in ***Schedule 3.4*** or necessary or appropriate to obtain all the Consents therein identified.

5.8 Notification. During the Applicable Diligence Period, Seller shall give prompt notice (each notice, a "***Breach Notice***") to Buyers' Agent of the occurrence or non-occurrence of any event, change, effect or development of any kind which would or might cause (a) any representation or warranty of Seller contained in any Operative Document or this Agreement to be untrue or incorrect in any material respect on the date such representation or warranty is to be made, (b) a Material Adverse Effect, or (c) a breach of any of Seller's covenants under this Agreement or any Operative Document. Each Breach Notice must include a detailed description of the event, change, effect, development or failure and a description of the action Seller has taken and proposes to take with respect thereto. The delivery of, or the failure to deliver, a Breach Notice will not be deemed to (i) modify any representation or warranty hereunder, (ii) modify any condition set forth in Article VII, or (iii) limit or otherwise affect the remedies available hereunder to Buyers.

5.9 Reasonable Efforts. Following Buyers' Agent's delivery of the Purchase Option Exercise Notice and until the end of the Applicable Diligence Period, Seller will, or will cause its Affiliates to use all commercially reasonable efforts to satisfy the conditions in Article VII and Article VIII to be performed by Seller or such Affiliates.

5.10 Waivers of Claims. During the Applicable Diligence Period, Seller shall not cancel or compromise any debt or claim, or waive or release any material right relating to the Real Property and the Assumed Liabilities.

5.11 Additional Contracts. Any Contract entered into by Seller during the Applicable Diligence Period shall be considered an Excluded Liability unless Exercising Buyers agree in writing to include such Contract as an Assumed Contract.

5.12 Liens; Changes in Zoning. During the Applicable Diligence Period, Seller shall not consent to, or cause, the placement of any Liens on the Land, or a rezoning of the Land, without Tentative Exercising Buyers' or Exercising Buyers', as applicable at the time of such request for consent, prior consent, such consent not to be unreasonably withheld, conditioned, or delayed.

ARTICLE VI
COVENANTS OF BUYERS PRIOR TO CLOSING DATE

6.1 Notification. During the Applicable Diligence Period, each Buyer (and following the delivery of a Purchase Option Exercise Notice, each Exercising Buyer) shall give prompt notice to Seller of the occurrence or non-occurrence of any event, change, effect or development of any kind which would or might cause (a) any representation or warranty of such Buyer or Exercising Buyer contained in any Operative Document or this Agreement to be untrue or incorrect in any material respect on the date such representation or warranty is to be made, or (b) a breach of such Buyer's or Exercising Buyer's covenants under this Agreement or any Operative Document. Each Breach Notice must include a detailed description of the event,

change, effect, development or failure and a description of the action such Buyer or Exercising Buyer has taken and proposes to take with respect thereto. The delivery of a Breach Notice will not be deemed to (i) modify any representation or warranty hereunder, (ii) modify any condition set forth in Article VIII, or (iii) limit or otherwise affect the remedies available hereunder to Seller.

6.2 Required Approvals. As promptly as practicable following Buyers' Agent's delivery of the Purchase Option Exercise Notice and until the end of the Applicable Diligence Period, each Exercising Buyer will make, and thereafter during the Applicable Diligence Period pursue, all registrations, qualifications or filings identified in ***Schedule 4.3*** or necessary or appropriate to obtain any Consent therein identified, consistent with and based upon Seller's acknowledgement and agreement in Section 2.6, and Seller shall provide assistance to Exercising Buyers in connection therewith.

6.3 Reasonable Efforts. Following Buyers' Agent's delivery of the Purchase Option Exercise Notice until the end of the Applicable Diligence Period, each Exercising Buyer will use reasonable efforts to cause the conditions to be performed by such Exercising Buyer in Article VII and Article VIII to be satisfied.

ARTICLE VII
CONDITIONS PRECEDENT TO BUYERS' OBLIGATION TO CLOSE

Each Exercising Buyer's obligation to purchase the Real Property and to take the other actions required to be taken by such Exercising Buyer at the Closing Date is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be collectively waived by Exercising Buyers in their sole discretion, in whole or in part):

7.1 Accuracy of Representations. All of the representations and warranties of Seller in this Agreement and the other Operative Documents qualified by materiality shall be true and correct as so qualified on and as of Closing date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date). Each of the representations and warranties made by Seller in this Agreement and not qualified by materiality shall be true and correct on and as of the Closing date as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date).

7.2 Seller's Performance. All of the covenants and obligations that Seller is required to perform or to comply with pursuant to this Agreement or any of the other Operative Documents at or prior to the Closing (considered collectively), and each of these covenants and obligations (considered individually), must have been duly performed and complied with in all material respects.

7.3 Consents. Each of the Consents identified in ***Schedule 3.4*** and ***Schedule 4.3*** must have been obtained and must be in full force and effect.

7.4 Additional Seller Documents. Seller shall deliver each of the following documents to Buyers' Agent:

(a) an opinion of Seller's counsel, dated the Closing Date, addressed to each Exercising Buyer with respect to (i) the due authorization of Seller to enter into the sale of the Real Property pursuant to this Agreement and (ii) the enforceability of this Agreement;

(b) a written certificate, in form and substance satisfactory to Buyers' Agent, executed and delivered by Seller by its authorized officer, certifying that each of the conditions specified in Sections 7.1, 7.2 and 7.3 have been satisfied;

(c) a grant deed with special warranty covenants (the "***Deed***") in a form reasonably acceptable to Exercising Buyers and executed by Seller, conveying fee title to the Real Property to Exercising Buyers, subject only to the Closing Permitted Encumbrances;

(d) agreements and related documentation effective to transfer to Exercising Buyers the Transferred Permits, the Assumed Contracts and the Real Property Contracts (together with the Deed, the "***Asset Assignment Documents***"), executed by Seller by its authorized officer;

(e) such affidavits or certificates as may be required by the Title Company to remove all liens, including mechanics' or materialmen's liens, as exceptions to the Title Policy;

(f) an irrevocable commitment by the Title Company to issue and deliver an ALTA Owner's Policy (the "***Title Policy***"), insuring Exercising Buyers' fee title to the Real Property consistent with the Title Commitment, providing "gap" coverage, deleting standard exceptions including (i) the standard survey exception, (ii) the standard exception regarding parties in possession, (iii) the standard exception regarding easements and other Liens not of public record, and (iv) the standard exception regarding materialmen's liens, endorsing over arbitration and creditors' rights exceptions, if necessary, and subject only to taxes and assessments for the year in which the Closing occurs and subsequent years, and any other matters approved by Tentative Exercising Buyers in accordance with Section 2.7(d), and any encumbrances upon the Real Property caused by Tentative Exercising Buyers, which matters and encumbrances shall be deemed Purchase Option Permitted Encumbrances.

(g) duly executed pay-off letters for the release or termination of all Liens securing Land Debt that acknowledge repayment in full of such Land Debt (unless Exercising Buyers otherwise agree in writing that any such Liens shall not be released or terminated); and

(h) such other documents as Buyers' Agent may reasonably request for the purpose of (i) evidencing the accuracy of any of Seller's representations and warranties, (ii) evidencing the performance by Seller of, or the compliance by Seller with, any covenant or obligation required to be performed or complied with by Seller, including under Section 2.6, or (iii) evidencing the satisfaction of any condition referred to in this

Article VII; and such other customary documents as the Title Company may require in order to issue the Title Policy to Exercising Buyers.

7.5 Litigation. No Proceeding shall have been instituted or any other action taken or Law or Environmental Law enacted, promulgated or deemed applicable by any Governmental Authority or by any other Person and, at what would otherwise have been the Closing Date, remain pending, to delay, restrain or prohibit any part of the transactions contemplated by this Agreement or to seek any divestiture or to revoke or suspend any Permit by reason of any or all of the transactions contemplated by this Agreement; nor shall any Governmental Authority have notified any Party or any of their respective Affiliates that consummation of any part of the transactions contemplated by this Agreement would constitute a violation of the Laws or Environmental Laws of any jurisdiction or that it intends to commence a Proceeding to restrain or prohibit any part of the transactions contemplated by this Agreement or to require such divestiture, revocation or suspension; unless, in any such case, such Governmental Authority or other Person shall have withdrawn such notice and abandoned such Proceeding, action, Law or Environmental Law to the satisfaction of Exercising Buyers.

7.6 Liens. Title to the Real Property shall be free and clear at the Closing of all Liens other than Closing Permitted Encumbrances.

7.7 No Material Adverse Effect. During the Applicable Diligence Period, no action shall have been taken or omitted and no event shall have occurred or be threatened which has had or could reasonably be expected to result in a Material Adverse Effect.

7.8 Final Purchase Price. All adjustments to the Tentative Purchase Price required under Section 3 of ***Exhibit 2.8*** shall have been made, including any adjustments required as a result of updates to the Seller Disclosure Schedules delivered by Seller pursuant to Section 2.15(a).

7.9 Disclosure Schedules. During the Applicable Diligence Period, none of Seller's updates to the Seller Disclosure Schedules delivered pursuant to Section 2.11, individually or in the aggregate, materially or adversely modify or amend any of Seller's representations and warranties, as determined by Exercising Buyers, in their sole discretion.

ARTICLE VIII
CONDITIONS PRECEDENT TO SELLER'S OBLIGATION TO CLOSE

Seller's obligation to sell the Real Property and to take the other actions required to be taken by Seller at the Closing Date is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by Seller in its sole discretion, in whole or in part):

8.1 Accuracy of Representations. Each Exercising Buyer's representations and warranties in this Agreement and the other Operative Documents qualified by materiality shall be true and correct as so qualified on and as of Closing date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date). Each of the representations and warranties made by each Exercising Buyer in this

Agreement and not qualified by materiality shall be true and correct on and as of the Closing Date as though made on and as of such date, except to the extent such representations and warranties expressly relate to an earlier date (in which case as of such earlier date).

8.2 Exercising Buyers' Performance.

(a) All of the covenants and obligations that each Exercising Buyer is required to perform or to comply with pursuant to this Agreement or any of the other Operative Documents at or prior to the Closing (considered collectively), and each of these covenants and obligations (considered individually), must have been performed and complied with.

(b) Each Exercising Buyer must have paid to Seller its proportionate share of (i) the Final Purchase Price, and (ii) the premium for the Title Policy, including the price associated with any additional endorsements obtained for the Title Policy that Exercising Buyers may require (except for the endorsements to be obtained by Seller pursuant to Section 7.4(f)).

8.3 Consents. Each of the Consents identified in ***Schedule 3.4*** and ***Schedule 4.3*** must have been obtained and must be in full force and effect.

8.4 Additional Buyers Documents. Buyers' Agent shall deliver each of the following documents to Seller:

(a) the Asset Assignment Documents executed by Exercising Buyers; and

(b) such other documents as Seller may reasonably request for the purpose of (i) evidencing the accuracy of any Exercising Buyer's representations and warranties, (ii) evidencing the performance by any Exercising Buyer of, or the compliance by such Exercising Buyer with, any covenant or obligation required to be performed or complied with by such Exercising Buyer, or (iii) evidencing of the satisfaction of any condition referred to in this Article VIII.

8.5 Litigation. No Proceeding shall have been instituted or any other action taken or Law or Environmental Law enacted, promulgated or deemed applicable by any Governmental Authority or by any other Person and, at what would otherwise have been the Closing Date, remain pending to delay, restrain or prohibit any material part of the transactions contemplated by this Agreement; nor shall any Governmental Authority have notified any Party or any of their respective Affiliates that consummation of any part of the transactions contemplated by this Agreement would constitute a violation of the Laws or Environmental Laws of any jurisdiction or that it intends to commence a Proceeding to restrain or prohibit any part of the transactions contemplated by this Agreement, unless, in any such case, such Governmental Authority or other Person shall have withdrawn such notice and abandoned such Proceeding, action, Law or Environmental Law to the satisfaction of Seller.

ARTICLE IX
MUTUAL COVENANTS, TAXES AND OTHER MATTERS

9.1 Tax Matters. Seller, at its own expense, will file, to the extent required by applicable Law, all necessary Tax Returns and other documentation with respect to its portion of any Transfer Taxes, and, if required by applicable Law, Seller will join in the execution of any such Tax Returns or other documentation and will take such positions in such returns as are reasonably requested by Buyers' Agent.

(a) With respect to Taxes to be prorated in accordance with Section 2.16 only, each Exercising Buyer shall prepare and timely file all Tax Returns required to be filed by such Exercising Buyer with respect to the Real Property, if any, and shall duly and timely pay all such Taxes, whether imposed on any Exercising Buyer or Seller, shown to be due on such Tax Returns. Each Exercising Buyer's preparation of any such Tax Returns shall be subject to Seller's approval, which approval shall not be unreasonably withheld. Exercising Buyers shall make such Tax Returns available for Seller's review and approval no later than fifteen (15) Business Days prior to the due date for filing such Tax Return. Within ten (10) Business Days after receipt of such Tax Return, Seller shall pay to Exercising Buyers Seller's proportionate share of the amount shown as due on such Tax Return, determined in accordance with Section 2.16.

(b) Each Exercising Buyer and Seller shall provide each other with such assistance as may reasonably be requested by any other Party in connection with the preparation of any Tax Return, any audit or other examination by any taxing authority, or any judicial or administrative Proceeding relating to liability for Taxes, and each will retain and provide the requesting Party with any records or information which may be relevant to such return, audit or examination, Proceedings or determination. Each Party will take any and all commercially reasonable steps, act in good faith, and cooperate fully, to permit the other Parties to comply with its obligations and secure its rights to indemnification hereunder.

(c) Seller will be entitled to any refunds or credits of Taxes relating to the Real Property for the period on or prior to the Closing Date (and such refunds and credits shall be Excluded Assets), and Exercising Buyers shall be entitled to such refunds or credits of Taxes relating to the Real Property for the period on and after the Closing Date. Each Exercising Buyer and Seller will promptly notify and forward to the other Parties the amounts of any such refunds or credits received by such Party, but to which another Party is entitled, within sixty (60) days after receipt thereof.

(d) After the Closing, Buyers' Agent will notify Seller in writing, within thirty (30) days after their receipt, of any correspondence, notice or other communication from a Taxing authority or any representative thereof, of any pending or threatened Tax audit, or any pending or threatened Proceeding that involves Taxes relating to the Real Property for the period prior to the Closing, and furnish Seller with copies of all correspondence received from any Taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Real Property for the period prior to the Closing. After the Closing, Seller will notify Buyers' Agent in writing, within thirty (30)

days after its receipt, of any correspondence, notice or other communication from a Taxing authority or any representative thereof, of any pending or threatened Tax audit, or any pending or threatened judicial or administrative Proceeding that involves Taxes relating to the Real Property for the period after the Closing, and furnish Buyers' Agent with copies of all correspondence received from any Taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Real Property for the period after the Closing.

(e) Notwithstanding any provision of this Agreement to the contrary, with respect to any claim for refund, audit, examination, notice of deficiency or assessment or any Proceeding that involves Taxes relating to the Real Property (collectively, "***Tax Claim***"), each Exercising Buyer and Seller will reasonably cooperate with one another in prosecuting and/or contesting any Tax Claim, including making available original books, records, documents and information for inspection, copying and, if necessary, introduction of evidence at any such Tax Claim contest or Proceeding and making employees available on a mutually convenient basis to provide additional information or explanation of any material provided hereunder with respect to such Tax Claim or to testify at Proceedings relating to such Tax Claim. Seller will control all Proceedings taken in connection with any Tax Claim that pertains entirely to any period prior to the Closing, and Buyers' Agent will control all Proceedings taken in connection with any Tax Claim that pertains to any period commencing after the Closing, and Seller and Buyers' Agent will jointly control all Proceedings taken in connection with any Tax Claim pertaining to any period commencing prior to and ending after the Closing; provided, however, that Buyers' Agent may request that Seller take any action reasonably necessary to remove any Liens on the Real Property relating to any Tax Claim that pertains to the period prior to or including the Closing. Buyers' Agent shall have no right to settle or otherwise compromise any Tax Claim which pertains entirely to the period prior to the Closing; Seller shall have no right to settle or other compromise any Tax Claim which pertains entirely to the period after the Closing and neither Buyers' Agent nor Seller shall have the right to settle or otherwise compromise any Tax Claim which pertains to the period both prior to and after the Closing without the other's prior written consent, which consent shall not be unreasonably withheld or delayed.

9.2 Risk of Loss.

(a) If, during the Applicable Diligence Period, all or any material portion of the Real Property is damaged or destroyed in whole or in part or becomes subject to or threatened with any condemnation or eminent domain proceeding (the "***Affected Portion***"), the Tentative Purchase Price shall be reduced by an amount that is equal to the greater of the (i) the amount by which the fair market value of the Real Property was reduced by such damage, destruction or actual or threatened condemnation or eminent domain proceeding or (ii) the cost of repair of the Affected Portion, in either case, as determined by the Qualified Appraiser(s); provided, that if Seller repairs the Affected Portion prior to the Closing Date to the reasonable satisfaction of Buyer, the Fair Market Value shall be adjusted to the Fair Market Value at the time immediately prior to the occurrence of the Material Casualty Event. For the avoidance of doubt, any insurance

proceeds shall belong to Seller, subject to its payment of any deductible and application in accordance with the requirements of the Land Debt.

(b) If, during the Applicable Diligence Period, all or any portion of the Real Property is damaged or destroyed in whole or in part or becomes subject to or threatened with any condemnation or eminent domain proceeding, such that it cannot reasonably be expected (as determined by the Qualified Appraiser(s)) that, (i) in the case of damage or destruction, the Real Property will be fully repaired within sixty (60) days after the Closing Date or (ii) in the case of a condemnation or eminent domain proceeding, such condemnation or eminent domain proceeding would have a Material Adverse Effect, then each Exercising Buyer may, in its sole discretion, elect to withdraw from the Land Purchase Option with respect to the relevant Purchase Option Opportunity and such Purchase Option Opportunity shall expire and shall no longer be effective with respect to such Exercising Buyer, and should all Exercising Buyers withdraw from such Purchase Option Opportunity, such withdrawal shall not affect any Buyer's right to exercise any future Purchase Option Opportunity, or elect to terminate this Agreement. Subject to the terms and conditions of Article VII and Article VIII, if any Exercising Buyer withdraws in accordance with the immediately preceding sentence (each, a "***Withdrawing Exercising Buyer***"), the non-withdrawing Exercising Buyers shall be responsible for the Withdrawing Exercising Buyers' proportionate share of the Purchase Price, and the Withdrawing Exercising Buyer shall have no rights under this Agreement.

9.3 Liabilities.

(a) From and after Closing, Exercising Buyers shall assume, shall pay, perform and discharge when due, and, as between Exercising Buyers and Seller, shall be solely responsible for, the Assumed Liabilities. Seller shall have no liability or obligation for the Assumed Liabilities from and after the Closing Date.

(b) Except for the Assumed Liabilities, Exercising Buyers shall not assume by virtue of this Agreement or the transactions contemplated by this Agreement, and Exercising Buyers shall have no liability under this Agreement for, the Excluded Liabilities.

ARTICLE X
TERM AND TERMINATION

10.1 Term. This Agreement shall become effective when it is executed by each of the Parties and delivered to the other Parties and the term of this Agreement shall continue for the Agreement Term (including the survival periods of those provisions with survivability under Section 2.3 of the PPA), or such other period as may be provided for in this Agreement, unless terminated earlier as provided in Section 10.2, or as provided elsewhere under this Agreement; *provided* that (a) the term of this Agreement shall in any event extend up to and including the Closing so long as Buyers shall be entitled under the terms of this Agreement to exercise their Land Purchase Option and (b) the provisions of this Agreement shall survive any Closing or termination of this Agreement as set forth in Section 10.3(b) and Section 11.1.

10.2 Termination Events. This Agreement may, by notice given prior to the Closing, be terminated:

(a) by any Buyer, in which event, such Buyer shall, without penalty to such Buyer, withdraw from its participation in this Agreement and this Agreement shall be terminated with respect to such Buyer, upon (i) a failure by Seller to perform any of its duties or obligations under this Agreement when and as due which is not cured to the reasonable satisfaction of such Buyer by the earlier of the Closing Date or the date that is thirty (30) days after receipt of written notice thereof from such Buyer, or (ii) an inaccuracy in any material respect of any representation, warranty, certification or other statement made by Seller or in any other document contemplated hereby or in any Operative Document at any time given by Seller in writing pursuant hereto or thereto, or in connection herewith or therewith at the time made or deemed to be made;

(b) by Seller upon (i) a failure by any Buyer to perform any of its duties or obligations under this Agreement when and as due which is not cured to the reasonable satisfaction of Seller (either by such Defaulting Buyer or any other Buyer) by the earlier of the Closing Date or the date that is thirty (30) days after receipt of written notice thereof from Seller, or (ii) an inaccuracy in any material respect of any representation, warranty, certification or other statement made by any Buyer herein or in any other document contemplated hereby or in any Operative Document at any time given by a Buyer in writing pursuant hereto or thereto, or in connection herewith or therewith at the time made or deemed to be made; *provided*, that, so long as the non-Defaulting Buyer or Buyers, as applicable, are able to purchase the Real Property, such termination of the Defaulting Buyer shall not affect the performance of any other Parties to this Agreement;

(c) either (i) by Exercising Buyers, if satisfaction of any of the conditions in Article VII has become impossible due to an event outside of Seller's reasonable control despite the exercise of due care and diligence (and in no event through the failure of Seller to comply with its obligations under this Agreement) and Exercising Buyers have not previously waived such condition; or (ii) by Seller if satisfaction of any of the conditions in Article VIII has become impossible due to an event outside of Exercising Buyers' reasonable control despite the exercise of due care and diligence (and in no event through the failure of Exercising Buyers to comply with their obligations under this Agreement) and Seller has not previously waived such condition on or before the Closing Date; or

(d) by (i) Seller, if a Default by all Buyers shall have occurred under the PPA and the PPA is terminated prior to or concurrently with this Agreement, (ii) Seller with respect to a Buyer, if a Default by such Buyer shall have occurred under the PPA and the PPA is partially terminated with respect to such Buyer, (iii) either Buyers, collectively, or Seller, individually, in the event that the PPA shall fail to be in full force and effect in accordance with its terms for any reason, or (iv) either Buyers, collectively, or Seller, individually, if any Buyer, Seller or Affiliate of Seller shall contest the validity or enforceability of the PPA or any Ancillary Document (as defined in the PPA) or any provision thereof in writing or deny that it has any further liability thereunder.

10.3 Effect of Termination.

In the event of termination of this Agreement:

(a) Upon a request from a Party, the other Parties will redeliver all documents, work papers and other material relating to the transactions contemplated hereby or by the other Operative Documents, whether obtained before or after the execution hereof, and each Party will withdraw any applications for approval of transfer of Permits and surrender any Permits already transferred, as necessary;

(b) The provisions of Article XII shall survive and continue in full force and effect;

(c) No Party shall have any liability or further obligation to the other Parties, except as stated in Sections 10.3(a) and (b), and except for any breach of representation, warranty or obligation arising under this Agreement or otherwise occurring prior to the proper termination of this Agreement. The foregoing provisions shall not limit or restrict the availability of specific performance or other injunctive relief to the extent that specific performance or such other relief would otherwise be available to a Party hereunder; and

(d) The PPA shall remain in full force and effect in accordance with its terms.

ARTICLE XI
LIMITATION OF LIABILITY

11.1 Survival of Representations, Etc. The representations, warranties, covenants, and agreements, and indemnities of the Parties contained herein shall survive the consummation of the transactions contemplated hereby for a period of two (2) years following the Closing Date, other than representations, warranties, covenants, and agreements, and indemnities of Seller arising in connection with Section 3.1 and Section 3.2, which shall survive until the expiration of the applicable statute of limitation, in any event, without regard to any investigation made by any of the Parties or the fact that the damaged Party had knowledge of any misrepresentation or breach of warranty or covenant at the time of Closing or at any other time. The expiration of any representation and warranty provided herein shall not affect the rights of a Party in respect of a Claim made by such Party with specificity and in a writing received by the other Parties prior to the expiration of such survival period.

11.2 Limitation of Liability. Notwithstanding anything contained in this Agreement to the contrary, in no event shall Seller's aggregate liability under this Agreement or any Operative Document to Buyers under any theory of liability (whether contract, tort, strict liability or otherwise) exceed one hundred percent (100%) of the Final Purchase Price, provided that the foregoing limitation shall not apply (A) to the extent based upon a breach of any representation or warranty made in Sections 3.1, 3.2, 3.3, 3.4, 3.7, 3.13 or 3.17, or (B) to claims, written demands, actions, legal proceedings (in law or in equity) or arbitration, or Losses resulting from Buyer Third Party Indemnity Claims, or from Hazardous Substances that were present at or on

the Real Property on or prior to the Closing Date or that were released by Seller or any other person for whose conduct Seller is responsible at any time on or prior to the Closing Date.

11.3 Deductible. If the Closing occurs, no Party shall have any liability or obligation to the other Parties for breach of any representation or warranty under this Agreement or any Operative Document unless the aggregate amount for which such Party would be liable hereunder or thereunder, as applicable, but for this provision, exceeds an amount equal to one-half percent (0.5%) of the Final Purchase Price (the "***Deductible Amount***"), in which event such Party shall be liable for the aggregate amount of Losses; *provided* that individual claims of Five Thousand Dollars ($5,000) or less shall not be aggregated for purposes of calculating either the Deductible Amount and, *provided* further, that the Deductible Amount shall not apply, or be used in calculating whether the Deductible Amount has been met, in the event of (a) claims for indemnification arising under any of the items enumerated under (A) or (B) of Section 11.2 above, or (b) Seller Third Party Indemnity Claims.

ARTICLE XII
GENERAL PROVISIONS

12.1 Indemnification. As of the Closing and subject to Article 11:

(a) Seller, from and after the Closing Date, shall indemnify, defend and hold harmless each Exercising Buyer, their respective boards of directors, the officers and employees of each, the members of any Exercising Buyer (including, with respect to SCPPA, any Participating Member), and all of their respective commissioners, officers, agents, employees, advisors, and representatives (collectively, the "***Buyer Indemnitees***") from and against any Losses incurred by any of them that arise out of or result from (i) the breach of any of Seller's (1) representations and warranties contained in this Agreement or in any other agreement, instrument or other document delivered in connection herewith, as of the date when made, or (2) agreements, covenants or other obligations contained in this Agreement or in any other agreement, instrument or other document delivered in connection herewith, (ii) any and all taxes (or the nonpayment thereof) of Seller that are due and payable with respect to any period of time prior to the Closing Date, (iii) Excluded Liabilities or Excluded Assets, and (iv) any claims made by third parties (other than any Buyer Indemnitee) against any Buyer Indemnitee arising with respect to injury or death, or loss or damage to, or loss of use of property of such third party prior to the Closing Date caused by the negligence, gross negligence, or willful misconduct of Seller ("***Buyer Third Party Indemnity Claims***"); provided, however, that before making a Buyer Third Party Indemnity Claim based on any misrepresentation or inaccuracy of Seller's representations in Section 3.6 with respect to Seller's title to the Real Property, Buyer shall have exhausted its remedies with respect to the Title Policy delivered to Buyer pursuant to Section 7.4(f).

(b) Each Exercising Buyer, from and after the Closing Date, shall indemnify, defend and hold harmless Seller, any RE Holdings Company, and its and their officers, employees, agents, partners, or members (collectively, the "***Seller Indemnitees***") and the other Exercising Buyers (and each such Exercising Buyer's Buyer Indemnitees) from and against any Losses that are caused by (i) the breach by such Exercising Buyer of any of

its (1) representations and warranties contained in this Agreement, or (2) agreements, covenants or obligations contained in this Agreement; (ii) Assumed Liabilities of such Exercising Buyer; (iii) any claims made by third parties (other than any Seller Indemnitee) against any Seller Indemnitee or other Exercising Buyer (or its Buyer Indemnitees) arising with respect to injury or death, or loss or damage to, or loss of use of property of such third party after the Closing Date caused by the negligence, gross negligence, or willful misconduct of such Exercising Buyer ("***Seller Third Party Indemnity Claims***"); and (iv) any and all taxes (or the nonpayment thereof) of such Exercising Buyer that are due and payable with respect to any period of time arising from and after the Closing Date.

(c) Each Party shall promptly notify the other Parties of any action, suit, proceeding, demand, or breach (a "***Claim***") with respect to which such Party claims indemnification; *provided, however*, that failure of any Party to give such notice shall not relieve any of the indemnifying Parties of their obligations under this Section 12.1. If such Claim relates to any action, suit, proceeding, or demand instituted by a third party (a "***Third Party Claim***"), upon receipt of such notice, the indemnifying Party may assume the defense of such Third Party Claim, and in the case of such an assumption, the Indemnifying Party shall have the authority, with consent of the indemnified Parties (such consent not to be unreasonably withheld, conditioned or delayed), to negotiate, compromise, and settle such Third Party Claim, *provided*:

(i) each indemnifying Party confirms in writing, without qualification of any kind, that it is obligated to indemnify and defend the applicable Buyer Indemnitees or Seller Indemnitees, as applicable, with respect to such Third Party Claim;

(ii) such indemnifying Party or Parties shall have selected counsel to handle the defense that is reasonably acceptable to the indemnified Party; and

(iii) such indemnifying Party or Parties establishes to the reasonable satisfaction of the indemnified Party that it has (and will continue to have) adequate financial resources to defend, satisfy and discharge such action or claim.

(d) The indemnified Party or Parties shall retain the right to participate in the defense of any Third Party Claim, the defense of which has been assumed by the indemnifying Party or Parties pursuant hereto, but each indemnified Party or Parties shall bear and shall be solely responsible for its own costs and expenses in connection with such participation. In the event the indemnifying Party or Parties shall fail or not be able to assume the defense of any Third Party Claim, then the indemnified Party or Parties, as applicable, shall control the defense and settlement thereof at the indemnifying Party's or Parties' cost and expense, and any judgment on or settlement of such Third Party Claim shall be conclusive and binding on the indemnifying Party or Parties for all purposes.

(e) The provisions of this Section 12.1 shall not be construed so as to relieve any insurer of its obligation to pay any insurance proceeds in accordance with the terms and conditions of valid and collectible insurance policies.

(f) No individual Representative of any Party shall be personally liable for any losses under the provisions contained in this Section 12.1. Except as set forth in Section 12.1(e), nothing herein shall relieve any Party of any liability to make any payment expressly required to be made by such Party pursuant to this Agreement.

12.2 Expenses. Except as otherwise expressly provided in this Agreement, each Party will bear its respective expenses incurred in connection with the preparation, execution, and performance of this Agreement and the transactions contemplated by this Agreement, including all fees and expenses of agents, representatives, counsel, and accountants. The Parties agree that, in any action to enforce the terms of this Agreement, each Party shall be responsible for its own attorney fees and costs. Each of the Parties was represented by its respective legal counsel during the negotiation and execution of this Agreement.

12.3 Ambiguity. The Parties acknowledge that this Agreement was jointly prepared by them, by and through their respective legal counsel, and any uncertainty or ambiguity existing herein shall not be interpreted against any Party on the basis that the Party drafted the language, but otherwise shall be interpreted in accordance with ***Exhibit 1.1***, Section 1.2, and according to the application of the rules on interpretation of contracts.

12.4 Voluntary Execution. The Parties acknowledge that they have read and fully understand the content and effect of this Agreement and that the provisions of this Agreement have been reviewed and approved by their respective counsel. The Parties further acknowledge that they have executed this Agreement voluntarily, subject only to the advice of their own counsel, and do not rely on any promise, inducement, representation or warranty that is not expressly stated herein.

12.5 Notices. All notices, requests, demands, consents, waivers, and other communications which are required or may be given under this Agreement shall be in writing (regardless of whether the applicable provision expressly requires a writing) and shall be deemed to have been duly given when given in the manner set forth in Section 14.2 of the PPA.

12.6 Entire Agreement; Amendments.

(a) This Agreement (including all Schedules and Exhibits) and the PPA contain the entire understanding concerning the subject matter herein and supersede and replace any prior negotiations, discussions or agreements between the Parties concerning that subject matter, whether written or oral, except as expressly provided for herein. Each Party acknowledges that no other party, representative or agent has made any promise, representation or warranty, express or implied, that is not expressly contained in this Agreement or the other documents of even date herewith between the Parties that induced the other Parties to sign this document.

(b) This Agreement may be amended or modified only by an instrument in writing signed by each Party.

12.7 Further Assurances. The Parties agree to furnish upon request to the other Parties such further information, to execute and deliver to the other Parties such other documents, and to

do such other acts and things, all as the other Parties may reasonably request for the purpose of carrying out the intent of this Agreement and the other Operative Documents, including in the case of Seller, to assist any Exercising Buyer in pursuing and obtaining any Consents or Permits required to be obtained in the name of such Exercising Buyer after the Closing Date.

12.8 Waiver. The failure of a Party to enforce or insist upon compliance with or strict performance of any of the terms or conditions hereof, or to take advantage of any of its rights hereunder, shall not constitute a waiver or relinquishment of any such terms, conditions or rights, but the same shall be and remain at all times in full force and effect.

12.9 Severability. In the event all or part of any of the terms, covenants or conditions of this Agreement, or the application of any such terms, covenants or conditions, shall be held invalid, illegal or unenforceable by any court having jurisdiction, all other terms, covenants and conditions of this Agreement and their application not adversely affected thereby shall remain in force and effect; provided, however, that the remaining valid and enforceable provisions materially retain the essence of the Parties' original bargain.

12.10 Consequential or Punitive Damages. No Party shall be liable to the other Parties for special, incidental, exemplary, indirect, punitive or consequential damages arising out of a Party's performance or non-performance under this Agreement, whether based on or claimed under contract, tort (including such Party's own negligence) or any other theory at law or in equity, including damages for lost revenues, income or profits.

12.11 Equitable Remedies. The Parties acknowledge that money damages may not be an adequate remedy for violations of this Agreement by Seller and that Buyers may, in their sole discretion, seek and obtain from a court of competent jurisdiction specific performance or injunctive or such other equitable relief as such court may deem just and proper to enforce this Agreement or to prevent any violation hereof. The Parties hereby waive any objection to specific performance or injunctive or other equitable relief.

12.12 Time of Essence. With regard to all dates and time periods set forth or referred to in this Agreement, time is of the essence.

12.13 Governing Law. This Agreement shall be interpreted, governed by, and construed under the laws of the State of California without consideration of conflicts of law principles. The venue for any litigation relating to this Agreement shall be in the County of Los Angeles and each Party hereby waives any objections on the basis of *forum non-conveniens* or otherwise with respect to the venue of any such action being heard in such counties.

12.14 Execution in Counterparts. This Agreement may be executed in counterparts and upon execution by each signatory, each executed counterpart shall have the same force and effect as an original instrument and as if all signatories had signed the same instrument. Any signature page of this Agreement may be detached from any counterpart of this Agreement without impairing the legal effect of any signature thereon, and may be attached to another counterpart of this Agreement identical in form hereto by having attached to it one or more signature pages.

12.15 Relationship of the Parties. This Agreement shall not be interpreted to create an association, joint venture or partnership between the Parties or to impose any partnership obligation or liability upon either such Party. No Party shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as an agent or representative of, the other Parties.

12.16 Third Party Beneficiaries. This Agreement shall not be construed to create rights in, or to grant remedies to, any third party as a beneficiary of this Agreement or any duty, obligation or undertaking established herein.

12.17 Provisions of PPA. The provisions of Section 1.2 ("Rules of Interpretation"), Section 14.3 ("Dispute Resolution"), Section 12.8(b) ("Covenants of Seller related to Security Documents"), Section 14.7 ("Assignment of Agreement") and Section 14.21 ("Confidentiality") of the PPA are incorporated herein in their entirety, *mutatis mutandis*, provided, however, that in such incorporation the term "Option Agreement" shall mean this Agreement, the term "Seller" shall mean Seller, the term "Facility Debt" shall mean Land Debt, the term "Facility Lender" shall mean Land Lender, and the term "Party" shall include Seller.

12.18 First Priority Interests. The rights of Buyers under this Agreement shall be prior and superior to the rights of the Land Lender, and prior and superior to any other Person that subsequently acquires an interest in the Real Property.

12.19 Exhibits and Schedules. The Exhibits and Schedules referred to in and attached to this Agreement are incorporated herein in full by this reference. To the extent that the terms and conditions of an Exhibit or Schedule conflict with the terms and conditions of the main body of this Agreement, the terms and conditions of the main body of this Agreement shall control.

12.20 Relationship with PPA; Right of First Offer. Except as otherwise specifically stated herein, this Agreement is independent of the PPA and, as a separate agreement, shall survive the amendment or modification of the PPA, except as otherwise provided herein. In the event of a conflict between this Agreement and the PPA, this Agreement shall control. Notwithstanding the foregoing, this Agreement shall not be deemed to limit Buyers' Right of First Offer set forth in the PPA or any rights of any Buyer under the Project Purchase Option.

12.21 Right of First Offer.

(a) Buyers shall have a "***Right of First Offer***" (or "***ROFO***") to purchase all of the Real Property following any offer by Seller to sell such Real Property (a "***Real Property Sale***") in accordance with the provisions of this Section 12.21.

(b) Prior to Seller commencing the negotiation of a Real Property Sale, Seller shall provide notice to Buyers' Agent of Seller's intention to sell the Real Property (a "***Proposed Sale Notice***"). Upon receipt of such Proposed Sale Notice, Buyers' Agent shall have forty-five (45) days in which to provide notice to Seller indicating whether one or more Buyers is interested in negotiating with Seller to purchase the Real Property (a "***Proposed Purchase Notice***").

(c) If Buyers' Agent does not provide a Proposed Purchase Notice to Seller indicating Buyers interest in negotiating the purchase of the Real Property from Seller, then Seller shall be free to consummate a Real Property Sale to any party; *provided*, that any such Real Property Sale shall (A) include the assignment and transfer of this Agreement to such transferee and the assumption by such transferee of all of Seller's obligation under this Agreement, (B) require a written assumption agreement in favor of Buyers pursuant to which such buyer of the Real Property shall agree to assume all of the obligations of Seller under this Agreement and agree to be bound by all the terms and conditions of this Agreement, and (C) if the Real Property Sale is not consummated within eighteen (18) months following the date of the Proposed Sale Notice, then Seller must provide another Proposed Sale Notice hereunder (and repeat the offer process set forth in this Section 12.21) before consummating any such Real Property Sale.

(d) If Buyers' Agent provides a Proposed Purchase Notice, then the Parties shall undertake, for a period up to sixty (60) days from the date of the Proposed Purchase Notice, to determine if the Parties are able to reach mutual agreement on the terms and conditions of a Real Property Sale to one or more Buyers, which shall include a written offer of price delivered by Buyers' Agent. If the Parties are unable to determine that a mutual agreement can be reached within sixty (60) days, then Seller shall be free to consummate a Real Property Sale to any party, *provided* that if the sale is not consummated within eighteen (18) months following the date of the expiration of such sixty (60) day negotiation period with Buyers, Seller must provide another Proposed Sale Notice hereunder (and go through the ROFO process hereunder) before consummating any Real Property Sale; *provided further* that any such Real Property Sale shall (A) include the assignment and transfer of this Agreement to such transferee and the assumption by such transferee of all of Seller's obligation under this Agreement, (B) include a written assumption agreement in favor of Buyers pursuant to which such buyer of the Real Property shall agree to assume all of the obligations of Seller under this Agreement and agree to be bound by all the terms and conditions of this Agreement, and (C) not be on terms and conditions that are, individually, materially, or in the aggregate, materially, more favorable to such buyer than those made in the last offer by Buyers to Seller during such sixty (60) day negotiation period, including that the price for such Real Property shall be not be less than the last amount offered in writing by Buyers to Seller.

(e) The ROFO shall not apply to any sale-leaseback or similar financing of the Real Property by Seller or to any sale by any Land Lender in connection with the exercise of Land Lender remedies under the financing security documents and in accordance with the terms and conditions thereof.

12.22 Assignment of Agreement; Change in Control.

(a) Except as set forth in this Section 12.22, neither Seller nor any Buyer may assign any of its rights, or delegate any of its obligations, under this Agreement without the prior consent of the other Parties, such consent not to be unreasonably withheld, conditioned, or delayed. Any Change in Control (whether voluntary or by operation of law) shall be deemed an assignment and shall require the prior consent of Buyers, which consent shall not be unreasonably withheld, conditioned, or delayed. Concurrently with any reorganization, financing transaction, or other transactions constituting any Change in Control (whether

voluntary or by operation of law) in which Seller merges, consolidates or takes any other action with any Person and ceases to exist, the successor entity to Seller shall execute a written assumption agreement in favor of Buyers pursuant to which any such successor entity shall assume all of the obligations of Seller under this Agreement and agree to be bound by all the terms and conditions of this Agreement. In connection with any Change in Control in which Seller remains a Party, at Buyers' request, Seller shall deliver an estoppel certificate to Buyers' Agent confirming that this Agreement remains in full force and effect. Seller shall (i) provide Buyers with ninety (90) days' prior notice of any proposed voluntary transaction which could constitute a Change in Control and (ii) provide notice to Buyers of (x) any transaction or series of transactions with respect to the sale, transfer or disposition of any RE Holdings Company or any parent entity holding directly or indirectly at least fifty percent (50%) of the equity ownership or the power to control the management and policies of any RE Holdings Company and (y) any Bankruptcy of any RE Holdings Company.

(b) In the event that Buyers assign the Project Option Agreement and the PPA to a third party, and only in such event, Buyers may assign this Agreement without the consent of Seller to such third party, so long as such third party is rated (i) "A3" or higher by Moody's and "A-" or higher by S&P, if such third party is rated by both Moody's and S&P or equivalent ratings by any other credit rating agency of recognized national standing, or (ii) "A3" or higher by Moody's or "A-" or higher by S&P if such third party is rated by either S&P or Moody's or equivalent ratings by any other credit rating agency of recognized national standing; provided, that in connection with any such assignment any such assignee shall execute a written assumption agreement in favor of Seller pursuant to which any such assignee shall assume all the obligations of Buyers under this Agreement and agree to be bound by all the terms and conditions of this Agreement; provided, further, that any modifications or amendments to this Agreement to accommodate the technical requirements of such assignee (including as they relate to transmission and scheduling) shall require the consent of Seller, which shall not be unreasonably withheld, conditioned, or delayed.

(c) Seller shall not sell or transfer the Real Property to any Person other than a Person to whom Seller assigns this Agreement in accordance with this Section 12.22, without the prior consent of Buyers an assumption in writing of such assignee of all of the obligations of Seller under this Agreement, and an agreement to be bound thereby, and otherwise subject to compliance with the Right of First Offer set forth in Section 12.22. Any purported sale or transfer in violation of this Section 12.22(c) shall be null and void and of no force or effect.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the Parties have executed and delivered this Agreement as of the date first written above.

EXHIBIT 1.1
to
LAND OPTION AGREEMENT AND AGREEMENT TO ASSIGN SITE CONTROL DOCUMENTS
dated as of _____, 2014

DEFINITIONS; RULES OF INTERPRETATION

"***Affected Portion***" shall have the meaning ascribed to it in Section 9.2(a).

"***Affiliate***" means, as to any Person, any other Person that, directly or indirectly, is in control of, is controlled by or is under common control with, such Person, or is a director or officer of such Person or of an Affiliate of such Person. As used in this Agreement, "control" shall mean the possession, directly or indirectly, of the power to direct or cause the direction of management, policies or activities of a Person, whether through ownership of voting securities, by contract or otherwise.

"***Affiliate Assignments***" shall have the meaning ascribed to it in the recitals to this Agreement.

"***Agency Action***" means any notice of violation, complaint, order, consent, consent agreement, assessment of a fine or penalty or other similar demand for action brought by a Governmental Authority having the requisite authority and jurisdiction to bring such action.

"***Agreement***" means this Land Option Agreement and Agreement to Assign Site Control Documents.

"***Applicable Diligence Period***" shall have the meaning ascribed to it in Section 5.1.

"***Asset Assignment Documents***" shall have the meaning ascribed to it in Section 7.4(c).

"***Assignment Demand***" shall have the meaning ascribed to it in Section 2.2.

"***Assignment Document***" shall have the meaning ascribed to it in Section 2.2.

"***Assumed Contracts***" means all of Seller's rights under the Contracts to which Seller is a party or to which the Real Property is subject that are assigned to and assumed by Exercising Buyers as set forth in ***Schedule 3.12***.

"***Assumed Liabilities***" shall have the meaning ascribed to it in Section 2.13.

"***Books and Records***" means, to the extent relating to any period of time prior to the Closing, (a) all books, records, purchasing records, lists, files and papers in the possession of Seller or its agents pertaining to the Real Property, and all records and lists concerning suppliers to and personnel of the Real Property or Taxes with respect thereto; and (b) all ledgers, and reports, plans, drawings, maps, photographs with respect to the Real Property, whether in hard copy or electronic format, in both cases to the extent transferable; provided that Books and

Records may include inextricable information or data unrelated to the Real Property, in which case such information or data may be redacted.

"***Breach Notice***" shall have the meaning ascribed to it in Section 5.8.

"***Business Day***" means any calendar day that is not a Saturday, a Sunday, or a day on which commercial banks are authorized or required to be closed in Los Angeles, California, or New York, New York.

"***Buyer***" and "***Buyers***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Buyer Indemnitees***" shall have the meaning ascribed to it in Section 12.1(a).

"***Buyers' Agent***" means the agent appointed by Buyers pursuant to a written agreement among Buyers and Buyers' Agent for the purpose of administering this Agreement and the transactions contemplated hereunder on behalf of Buyers, which agent may be modified from time to time, subject to the representation and warranty in Section 4.6, by written agreement among Buyers with notice thereof to Seller. As of the date of this Agreement, Buyers' Agent shall be SCPPA.

"***CEQA***" means the California Environmental Quality Act.

"***CERCLA***" means the federal Comprehensive Environmental Response, Compensation and Liability Act.

"***Change in Control***" means the occurrence, whether in a single transaction or in a series of related transactions, of any one or more of the following: (i) a merger or consolidation of Seller or any RE Holdings Company with or into any other Person or any other reorganization in which the members of Seller or any RE Holdings Company immediately prior to such consolidation, merger, or reorganization, own less than fifty percent (50%) of the equity ownership of the surviving entity or cease to have the power to control the management and policies of the surviving entity immediately after such consolidation, merger, or reorganization, (ii) any transaction or series of related transactions in which in excess of fifty percent (50%) of the equity ownership of Seller or any RE Holdings Company, or the power to control the management and policies of Seller or any RE Holdings Company is transferred to another Person, (iii) a sale, lease, or other disposition of all or substantially all of the assets of Seller or any RE Holdings Company, (iv) the dissolution or liquidation of Seller or any RE Holdings Company, or (v) any transaction or series of related transactions that has the substantial effect of any one or more of the foregoing.

"***Claim***" shall have the meaning ascribed to it in Section 12.1(c).

"***Closing***" shall have the meaning ascribed to it in Section 2.11.

"***Closing Date***" means the date on which the Closing is required to take place, as set forth in Section 2.5.

"***Closing Permitted Encumbrances***" means any Purchase Option Permitted Encumbrances other than those (i) that secure any form of Land Debt or any other monetary obligation (other than Liens for Taxes not yet due), and (ii) otherwise accepted by Buyers' Agent in writing.

"***Code***" means the Internal Revenue Code of 1986.

"***Collateral***" shall have the meaning ascribed to it in Section 2.3.

"***Commercial Operation Date***" shall have the meaning ascribed to it in the PPA.

"***Consent***" means any approval, consent, ratification, waiver, license, permit, certification, registration or other authorization (including any Governmental Approval).

"***Contract***" means any agreement, arrangement, lease, commitment, sales order, purchase order, indenture, mortgage, right, warrant or instrument, which provides for ownership of the Real Property and is intended to, or purports to be, or is required to be binding and enforceable as contemplated under this Agreement, other than the Permits.

"***Corona***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Deductible Amount***" shall have the meaning ascribed to it in Section 11.3.

"***Deed***" shall have the meaning ascribed to it in Section 7.4(e).

"***Disclosure Schedules***" shall have the meaning ascribed to it in Section 2.7.

"***Effective Date***" shall have the meaning ascribed to it in the preamble to this Agreement.

"***Environment***" includes (a) the navigable waters, the contiguous zone, and the ocean waters of which the natural resources are under the exclusive management authority of the United States under the Magnuson-Stevens Fishery Conservation and Management Act and (b) any other surface water, ground water, drinking water supply, stream sediments, soil, land surface or subsurface strata, or ambient air, plant and animal life, and any other environmental medium or natural resource within the United States, or a foreign nation or under jurisdiction of the United States or a foreign nation.

"***Environmental Conditions***" means the presence of Hazardous Substances which have been Released into the Environment or the presence of Hazardous Substances that could reasonably be expected to pose a threat of Release of Hazardous Substances into the Environment.

"***Environmental Law***" means any applicable current or future treaty, constitution, law, statute, ordinance, rule, order, decree, regulation or other directive which is legally binding and has been enacted, issued or promulgated by any Governmental Authority that imposes liability for or standards of conduct or compliance or other requirements or obligations concerning protection of health, or safety (in each case, to the extent relating to exposure to Hazardous Substances), natural resources or the Environment and includes all Hazardous Substances Law.

"***Excluded Assets***" means, notwithstanding any other provision of this Agreement, the following assets:

(d) cash, certificates of deposit and other bank deposits, treasury bills and other cash equivalents or other investments, on hand or in bank accounts, and all of Seller's bank accounts, intercompany accounts and accounts receivable;

(e) accounts and notes receivable relating to the period prior to the Closing Date, including amounts owing under the PPA;

(f) any Contract between Seller and its Affiliates;

(g) any Contract that is not an Assumed Contract and any Permit that is not a Transferred Permit;

(h) any computers not used primarily in connection with the Real Property, any communication or data network systems not used primarily in connection with the Real Property, and any other equipment not reasonably required to operate the Real Property;

(i) all refunds or credits, if any, of Taxes due to or from Seller and (i) accrued prior to the Closing or (ii) which otherwise cannot be assigned by Law;

(j) all corporate, financial and tax records of Seller which (i) do not relate in whole or in part to the Real Property, (ii) relates solely to any Excluded Asset, (iii) relates solely to any Excluded Liability, (iv) relates to the organization, existence, capitalization or debt financing of Seller, (v) relates to information about Seller or its Affiliates pertaining to energy or project evaluation methodologies, economic evaluation of the Real Property, energy or natural gas price curves or projections or other economic predictive models, or (vi) do not constitute Books and Records;

(k) all rights to claims, refunds or adjustments against Buyers or any other third parties arising out of the period prior to the Closing Date;

(l) Seller's insurance policies; and

(m) the assets identified as "Excluded Assets" in ***Schedule 3.5***.

"***Excluded Liabilities***" shall have the meaning set forth in Section 2.14.

"***Exercising Buyer***" or "***Exercising Buyers***" shall have the meaning ascribed to them in Section 2.8(b).

"***Fair Market Value***" shall mean, with respect to a particular time of calculation, the amount a willing buyer would pay for the Real Property and all rights and interests associated therewith, in an arm's-length transaction, to a willing seller under no compulsion to sell on the applicable Closing Date, taking into account all relevant facts and circumstances relating to the Real Property, the Excluded Assets, the Assumed Liabilities, the Excluded Liabilities and the

Disclosure Schedules, as of the Closing Date, and assuming the Land Lease will remain in place for the term thereof (assuming all extensions in the Land Lease are exercised).

"***Final Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.8***.

"***GAAP***" means generally accepted accounting principles that are consistent with the principles promulgated or adopted by the Financial Accounting Standards Board and its predecessors in effect for the applicable period of Seller.

"***Governmental Approval***" means any Consent issued, granted, given, or otherwise made available by or under the authority of any Governmental Authority or pursuant to any Law or Environmental Law.

"***Governmental Authority***" means any federal, state, local, foreign or other governmental, regulatory or administrative agency, court, commission, department, board, or other governmental subdivision, legislature, rulemaking board, tribunal, or other governmental authority.

"***Hazardous Substances***" means any hazardous or toxic substance, material or waste that is regulated by or forms the basis of liability now or hereafter under, any Hazardous Substances Law, including any material, substance or waste that is (a) defined as a "hazardous waste," "hazardous material," "hazardous substance," "extremely hazardous waste," "restricted hazardous waste," "pollutant," "contaminant," "hazardous constituent," "special waste," "toxic substance" or other similar term or phrase under any Environmental Law, (b) petroleum or any fraction or by-product thereof, asbestos, polychlorinated biphenyls (PCB's), or any radioactive substance.

"***Hazardous Substances Law***" means any applicable current or future treaty, constitution, law, statute, ordinance, rule, order, decree, regulation or other directive which is legally binding and has been enacted, issued or promulgated by any Governmental Authority that imposes liability for or standards of conduct or compliance concerning the generation, distribution, use, treatment, storage, disposal, cleanup, transport or handling of Hazardous Substances, including, the Federal Water Pollution Control Act, the Resource Conservation and Recovery Act of 1976, CERCLA, the Toxic Substances Control Act, the Oil Pollution Act, the Safe Drinking Water Act, and the Occupational Safety and Health Act of 1970 (to the extent that it relates to the handling of and exposure to hazardous or toxic materials or similar substances).

"***Intellectual Property Assets***" shall have the meaning ascribed to it in Section 3.13(a).

"***Investment Company Act***" means the Investment Company Act of 1940.

"***Knowledge***" means the actual, current knowledge after due inquiry of any officer of, or any other agent, employee or representative of a Party of any fact, circumstance or condition.

"***Law***" means any Order, and any federal, state, local, or foreign law, statute, regulation, rule, code or ordinance enacted, adopted, issued or promulgated by any Governmental Authority, but excluding Environmental Laws.

"***Land Debt***" means the obligations of Seller secured by a Lien of a Land Lender, including (a) principal of, premium and interest on indebtedness, (b) fees, expenses or penalties on indebtedness, (c) amounts due upon acceleration, or in connection with prepayment or restructuring of indebtedness, or (d) swap or interest rate hedging breakage costs.

"***Land Documents***" means the real property leases and easements for the Real Property that together establish control of the same by Seller.

"***Land Lease***" shall have the meaning ascribed to it in the Recitals.

"***Land Lender***" means any lender providing debt or equity financing or refinancing for or in connection with the Real Property.

"***Land Purchase Option***" shall have the meaning ascribed to it in Section 2.4.

"***Lien***" means any mortgage, deed of trust, lien, security interest, retention of title or lease for security purposes, pledge, charge, encumbrance, equity, attachment, claim, easement, right of way, covenant, condition or restriction, leasehold interest, purchase right or other right of any kind, including an option, of any other Person in or with respect to any real or personal property.

"***Lodi***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Losses***" means claims, charges, damages, demands, judgments, civil fines and penalties, or losses.

"***Material Adverse Effect***" means a material adverse effect on (a) Seller, (b) the Real Property, or (c) the business, condition (financial or otherwise), results of operations or prospects of the Real Property.

"***Maximum Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.8***.

"***Minimum Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.8***.

"***Moreno Valley***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***National Priorities List***" means the list of national priorities among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States and its territories and that guides the Environmental Protection Agency in determining which sites warrant further investigation.

"***Nondisturbance Agreement***" shall have the meaning ascribed to it in Section 2.10.

"***Operative Documents***" means each of the agreements, instruments, certificates and other documents executed and delivered by a Party under this Agreement in connection with the performance and consummation of the transaction contemplated by this Agreement.

"***Order***" means any final, non-appealable award, decision, injunction, judgment, order, ruling, subpoena, or verdict entered, issued, made, or rendered by any court, administrative agency, or other Governmental Authority, or by any arbitrator.

"***Organizational Documents***" means as applicable, (a) the articles or certificate of incorporation and the bylaws of a corporation; (b) any charter or similar document adopted or filed in connection with the creation, formation, or organization of a Person; (c) the certificate of organization and the operating agreement of a limited liability company; and (d) any amendment to any of the foregoing.

"***Party***" and "***Parties***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Permit***" means any permit, license, franchise, concession, consent, authorization, approval, registration, filing or similar act of or made with any Governmental Authority that are used by or necessary to operate the Real Property.

"***Person***" means any individual, corporation (including any non-profit corporation), general or limited partnership, limited liability company, joint venture, estate, trust, association, organization, labor union, or other entity or Governmental Authority.

"***PPA***" shall have the meaning ascribed to it in the Recitals.

"***Proceeding***" means any action, order, writ, judgment or decree outstanding, arbitration, audit, hearing, investigation, claim, litigation, or suit (whether civil, criminal, regulatory, administrative, investigative, or informal) commenced, brought, conducted, or heard by or before, or otherwise involving, any Person.

"***Project Option Agreement***" shall have the meaning ascribed to it in the Recitals.

"***Project Seller***" shall have the meaning ascribed to it in the Recitals.

"***Provided Materials***" shall have the meaning ascribed to it in Section 5.1.

"***Purchase Option Exercise Deadline***" means a period of one hundred twenty (120) days after the determination of the Fair Market Value for the applicable Purchase Option Opportunity.

"***Purchase Option Exercise Notice***" shall have the meaning ascribed to it in Section 2.8(b).

"***Purchase Option Opportunity***" shall have the meaning ascribed to it in Section 2.5.

"***Purchase Option Permitted Encumbrances***" means (a) any Lien approved by Buyers' Agent in a writing or set forth in ***Schedule 3.6***; (b) Liens for Taxes not yet due or for Taxes being contested in good faith by appropriate proceedings, so long as either (i) such proceedings do not involve a substantial risk of the sale, forfeiture, loss or restriction on the use of the Real Property or any part thereof, or (ii) a bond or other security reasonably acceptable to Buyers' Agent has been posted or provided in such manner and amount as to assure Exercising Buyers

that any Taxes determined to be due will be promptly paid in full when such contest is determined; (c) zoning, building codes and other land use laws regulating the use or occupancy of the Real Property or the activities conducted thereon which are imposed by any Governmental Authority having jurisdiction over the Real Property; (d) suppliers', vendors' mechanics', workman's, repairman's, employees' or other like Liens arising in the ordinary course of business for work or service performed, or materials furnished in connection with, the Real Property for amounts the payment of which is either not yet delinquent or is being contested in good faith by appropriate proceedings, so long as either (i) such proceedings do not involve a substantial risk of the sale, forfeiture, loss or restriction on the use of the Real Property or any part thereof, or (ii) a bond or other security reasonably acceptable to Buyers' Agent has been posted or provided in such manner and amount as to assure Exercising Buyers that any amounts determined to be due will be promptly paid in full when such contest is determined, (e) easements, rights of way, use rights, exceptions, encroachments, reservations, restrictions, conditions or limitations which do not materially impair the use of the Real Property affected thereby for the purpose for which title was acquired or materially interfere with, including those items identified in the Title Commitment or on the Survey that are not objected to, are deemed acceptable to, or are waived by, Buyers pursuant to Section 2.7(d); (f) the terms and conditions of the Land Documents; and (g) Liens created or reserved pursuant to or contemplated by the PPA, this Agreement or any Performance Security under the PPA.

"***Purchase Option Tentative Exercise Notice***" shall have the meaning ascribed to it in Section 2.7.

"***PWRPA***" shall have the meaning ascribed to it in the first paragraph of this Agreement, and shall include any and all of its members, as may be modified from time to time.

"***Qualified Appraiser***" means a nationally recognized, California Licensed Certified General Real Estate Appraiser, which shall (a) be qualified to appraise land substantially similar to the Real Property in location, size, and intended use, (b) have been engaged in the appraisal or business valuation and consulting business for a period of not less than ten (10) years, and (c) not be associated with Seller, any Buyer or any of their respective Affiliates.

"***Rancho Cucamonga***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***RE Holding Companies***" means Recurrent Energy Portfolio Holdings, LLC, Recurrent Energy US Holdings, LLC, and Recurrent Energy LandCo LLC.

"***Real Property***" shall have the meaning ascribed to it in the Recitals.

"***Real Property Contracts***" shall have the meaning ascribed to it in Section 3.3(a).

"***Real Property Interests***" shall have the meaning ascribed to it in Section 3.3(a).

"***Release***" means any physical release, spill, emission, leaking, pumping, injection, deposit, disposal, discharge, dispersal, dumping, leaching or migration of Hazardous Substances in the Environment, including the movement of Hazardous Substances through or in the Environment, including the Premises.

"***Representative***" means, with respect to a particular Person, any director, officer, employee, agent, consultant, advisor, or other representative of such Person, including legal counsel, accountants, and financial advisors.

"***Requirements of Law***" means all Laws, Permits (including those pertaining to electrical, building, zoning, and occupational safety and health requirements) and Environmental Laws.

"***Schedule Delivery Date***" shall have the meaning ascribed to it in Section 2.7.

"***SCPPA***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Seller***" shall have the meaning ascribed to it in the first paragraph of this Agreement.

"***Seller's Cure Period***" shall have the meaning ascribed to it in Section 2.7(d).

"***Seller Default***" shall have the meaning ascribed to it in Section 2.2.

"***Seller Disclosure Schedules***" shall have the meaning ascribed to it in Section 2.7.

"***Seller Indemnitees***" has the meaning set forth in Section 12.1(b).

"***Seller Third Party Indemnity Claims***" has the meaning set forth in Section 12.1(b).

"***Site Control Documents***" means the documents listed on Appendix R.

"***Survey***" shall have the meaning ascribed to it in Section 2.7(c).

"***Tax Claim***" shall have the meaning ascribed to it in Section 9.1(e).

"***Tax Return***" means any return, report, information return or other document (including any related or supporting information) required to be supplied to any authority with respect to Taxes.

"***Taxes***" means all taxes, charges, fees, levies, penalties or other similar assessments imposed by any United States federal, state or local, or foreign taxing authority, including, income, excise, property, sales, use, transfer, franchise, payroll, withholding, social security or other taxes, including any interest, penalties or additions attributable thereto.

"***Tentative Purchase Price***" shall have the meaning ascribed to it in ***Exhibit 2.8***.

"***Third Party Claim***" shall have the meaning ascribed to it in Section 12.1(c).

"***Third Party Property Interests***" shall have the meaning ascribed to it in Section 3.3(a).

"***Title Commitment***" shall have the meaning ascribed to it in Section 2.7(b).

"***Title Company***" means a title company acceptable to Buyers. The following title companies (including, but not limited to, any subsidiary thereof) are deemed reasonably

acceptable to Buyers: First American Financial Corporation, Stewart Title Guaranty Company, Old Republic National Title Insurance Company, or Fidelity National Title Group.

"***Title Policy***" shall have the meaning ascribed to it in Section 7.4(f).

"***Transferred Permits***" means all Permits other than those Permits that will not be transferred to Exercising Buyers as of the Closing.

"***Transfer Taxes***" shall have the meaning ascribed to it in Section 2.17.

"***Treasury***" means the regulations issued by the U.S. Department of Treasury under the Internal Revenue Code.

"***Updated Schedule Delivery Date***" shall have the meaning ascribed to it in Section 2.15(a).

ASSIGNMENT AND ASSUMPTION AGREEMENT

(OPTION AGREEMENT FOR THE PURCHASE AND SALE OF REAL PROPERTY, APN [__], KERN COUNTY, CALIFORNIA)

THIS ASSIGNMENT AND ASSUMPTION AGREEMENT (this "Assignment Agreement"), dated as of [__], is entered into by and between RE ASTORIA 2 LANDCO LLC, a Delaware limited liability company ("Assignor"), and [__], a [__] ("Assignee").

RECITALS

Pursuant to the terms of this Assignment Agreement, Assignor desires to assign to Assignee, and Assignee desires to accept the assignment from Assignor of, all rights, duties, obligations, title and interest of Assignor in, to and under the [__] dated as of [__], by and between Assignor and [__] (collectively, the "Assigned Agreement").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises and agreements set forth herein, the parties hereby agree as follows:

1. Assignment. Assignor hereby transfers, conveys and assigns to Assignee all of Assignor's rights, duties, obligations, title and interest in, to and under the Assigned Agreement, and Assignee hereby accepts the transfer, conveyance and assignment of all of Assignor's rights, duties, obligations, title and interest in, to and under the Assigned Agreement.

2. Assumption. Assignee hereby agrees to assume, pay, perform and discharge, as and when due, all of the obligations and liabilities of Assignor under the Assigned Agreement, and Assignee agrees to be bound by all of the terms and conditions of the Assigned Agreement.

3. Amendment. This Assignment Agreement may not be amended or altered except by a written instrument executed by Assignor and Assignee.

4. Successors and Assigns. This Assignment Agreement shall be binding upon and shall inure to the benefit of Assignor and Assignee and their respective successors and permitted assigns.

5. Counterparts. This Assignment Agreement may be signed in any number of counterparts and each counterpart shall represent a fully executed original as if signed by all parties.

6. Governing Law. This Assignment Agreement shall be governed by, and construed and interpreted in accordance with, the laws of the State of California.

7. Documentation. Each party shall execute and deliver such additional instruments, agreements, and documents and take such other actions as the other party may reasonably require in order to carry out the intent and purpose of this Assignment Agreement.

8. Severability. If any term or provision of this Assignment Agreement shall be held invalid or unenforceable, the remainder of this Assignment Agreement shall not be affected.

9. No Third Party Beneficiaries. This Assignment Agreement is solely for the benefit of Assignor and Assignee and their successors and permitted assigns and no right or cause of action shall accrue by reason hereof for the benefit of any third party not a party hereto.

IN WITNESS WHEREOF, the parties hereto have caused this Assignment Agreement to be executed and delivered as of the day and year first written above.

EXHIBIT 2.8
to
LAND OPTION AGREEMENT AND AGREEMENT TO ASSIGN SITE CONTROL DOCUMENTS
dated as of _____, 2014

PURCHASE PRICE

1. The "***Tentative Purchase Price***" shall be an amount equal to the Fair Market Value, as determined in accordance with this ***Exhibit 2.8***.

2. Within fifteen (15) days following the Schedule Delivery Date, Seller and each Exercising Buyer shall meet and attempt to agree on the Tentative Purchase Price based on the Seller Disclosure Schedules delivered by Seller. If the Parties are unable to agree on the Tentative Purchase Price within thirty (30) days after the Schedule Delivery Date, the Parties shall, within fourteen (14) additional days, jointly select a Qualified Appraiser. If the Parties cannot agree on a Qualified Appraiser within such fourteen (14) day period, then Seller and Buyers' Agent shall each select an independent recognized appraiser within fourteen (14) days after the conclusion of such period, which independent appraisers shall, within fourteen (14) days of being selected by Buyers' Agent and Seller, agree upon and appoint a third Qualified Appraiser to perform the appraisal. If the two selected appraisers cannot agree on a third Qualified Appraiser within such fourteen (14) day period, then either Seller or Buyers' Agent may apply to the American Arbitration Association to make such an appointment within fourteen (14) days after such application. The appraisal shall be completed within thirty (30) days of the appointment of the Qualified Appraiser.

3. The Tentative Purchase Price shall be adjusted from time to time by the amount (as determined by the Parties in good faith, or absent their mutual agreement, by the Qualified Appraiser using the same methodology set forth in paragraph 2 above) necessary to take into account (i) any differences between the Seller Disclosure Schedules originally delivered to Buyers' Agent on the Schedule Delivery Date and any updated Seller Disclosure Schedules delivered to Buyers' Agent from time to time prior to Closing, (ii) any item or omission in a Seller Disclosure Schedule that is not resolved to the reasonable satisfaction of Exercising Buyers, (iii) any differences in Real Property, Excluded Assets, Assumed Liabilities or Excluded Liabilities from the Schedule Delivery Date to the Closing, (iv) the inability of Seller to satisfy any of the Buyers' Closing Conditions set forth in Article VII, (v) damage or destruction of all or a material portion of the Facility or any real or threatened condemnation or eminent domain proceeding as described under Section 9.2(a) of the Agreement, or (vi) following the delivery of a Breach Notice, the event or circumstance described in such Breach Notice.

4. The "***Final Purchase Price***" amount to be paid by Exercising Buyers at the Closing shall be an amount equal to the greater of (a) the Tentative Purchase Price, or (b) the Minimum Purchase Price (as defined below); provided that in the event that (i) the Tentative Purchase Price is at any time greater than the Maximum Purchase Price (as defined below), then any Exercising Buyer, upon written notice to Seller and the other Buyers,

may, without liability, withdraw from the Land Purchase Option with respect to the relevant Purchase Option Opportunity, and such Purchase Option Opportunity shall expire and shall no longer be effective with respect to such Exercising Buyer and, should all Exercising Buyers withdraw from the Land Purchase Option with respect to such Purchase Option Opportunity, such withdrawal shall not affect any Buyer's right to exercise any Land Purchase Option with respect to any future Purchase Option Opportunity.

5. The "***Minimum Purchase Price***" and the "***Maximum Purchase Price***" shall be as follows, corresponding to the applicable Purchase Option Opportunity for which Exercising Buyers have exercised their Land Purchase Option:

Purchase Option Opportunity	**Minimum Purchase Price**	**Maximum Purchase Price**
10th Contract Year	$13,123,756	$15,748,507
15th Contract Year	$14,636,574	$17,563,889
20th Contract Year	$16,656,999	$19,988,399
Event of Default under PPA	The aggregate amount of the Land Debt immediately prior to Closing, if any. Otherwise, $0.00.	None.

NON-DISTURBANCE AND ATTORNMENT AGREEMENT

THIS NON-DISTURBANCE AND ATTORNMENT AGREEMENT (this "Agreement") is entered into as of _____ _____, 2014, by and among RE ASTORIA 2 LANDCO LLC, a Delaware limited liability company ("Owner"); RE ASTORIA 2 LLC, LLC**,** a Delaware limited liability company ("Lessee"); SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY ("SCPPA"), a joint powers agency and a public entity organized under the laws of the State of California and created under the provisions of the California Joint Exercise of Powers Act (California Government Section 6500 *et seq.*) (the "Act"), the POWER AND WATER RESOURCES POOLING AUTHORITY ("PWRPA"), a joint powers authority and a public entity organized under the laws of the State of California and created under the provisions of the Act, the CITY OF LODI ("Lodi"), a California municipal corporation organized and existing under the laws of the State of California, the CITY OF CORONA ("Corona"), a California municipal corporation organized and existing under the laws of the State of California, the CITY OF MORENO VALLEY ("Moreno Valley"), a California municipal corporation organized and existing under the laws of the State of California, and the CITY OF RANCHO CUCAMONGA ("Rancho Cucamonga"), a California municipal corporation organized and existing under the laws of the State of California (SCPPA, PWRPA, Lodi, Corona, Moreno Valley, and Rancho Cucamonga, collectively, "Fee Secured Party") and _____, as Collateral Agent for the [Secured Parties] (as defined in the Credit Agreement (defined below)) (together with its successors and permitted assigns and in such capacity, "Collateral Agent").

R E C I T A L S:

A. Owner and Lessee entered into a Land Lease dated as of _____ (the "Lease") [as evidenced by the certain Memorandum of Land Lease dated as of _____ and recorded on _____ as Book _____, Page _____ of the real property records of Kern County, California (the "Official Records"), which Lease covers certain real property located in Kern County, California (the "Property"), for the development, construction and operation by Lessee of a solar energy project (the "Project") pursuant to the terms of the Lease.

B. Fee Secured Party is the beneficiary of a Deed of Trust executed by Owner in favor of _____, as Trustee, for the benefit of Fee Secured Party, dated as of _____

and recorded on _____ as Book _____, Page _____ of the Official Records (as the same may have been or may hereafter be amended, modified, renewed, extended or replaced, collectively, the "Deed of Trust").

C. _____, a _____ _____ ("Borrower"), is entering into that certain [Credit Agreement] dated as of _____ (as amended, amended and restated, supplemented, or otherwise modified from time to time, the "Credit Agreement"), with Lessee and the other guarantors party thereto (the "Guarantors"), the financial institutions party thereto (the "Leasehold Lenders") and _____, as Administrative Agent (together with its successors and assigns in such capacity, the "Administrative Agent"), pursuant to which the Leasehold Lenders have agreed to make loans to Borrower on the terms and conditions set forth therein, which loans will be secured by a leasehold deed of trust ("Leasehold DOT") granted by Lessee for the benefit of Collateral Agent.

.

A G R E E M E N T:

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Non-Disturbance.

(a) Fee Secured Party hereby agrees that so long as Lessee is not in default under the Lease beyond any applicable notice, cure, or grace period, (i) Lessee's possession and occupancy of the Property and Lessee's rights and privileges under the Lease shall not be disturbed by Fee Secured Party or any assignee or successor-in-interest to Fee Secured Party and (ii) Fee Secured Party shall not join Lessee as party to any action or proceeding brought as a result of a default by Owner under the Deed of Trust or any other document associated with the Deed of Trust, unless such joinder is required in order to complete the action or proceeding, in which case Fee Secured Party shall pay all costs or expenses incurred by Lessee in connection with having been so joined. Without limiting the generality of the foregoing, if Owner's interest in the Lease is acquired by Fee Secured Party, whether by purchase and sale, foreclosure, deed in lieu of foreclosure, or in any other way, action, or proceeding, or by any assignee or successor to Fee Secured Party, including, without limitation, any purchaser at a foreclosure sale, (i) Lessee's rights and interest under the Lease shall continue in full force and effect otherwise subject to the terms of the Lease and (ii) Collateral Agent and the Secured Parties shall have all the rights and benefits of a Leasehold Mortgagee described in Section 8 of the Lease; and the foregoing right, interests, and benefits of Lessee, Collateral Agent and the Secured Parties shall not by operation of law or otherwise be terminated or disturbed, except in accordance with the Lease. In the event the Collateral Agent or any of the Secured Parties acquire Lessee's interest in the Lease or the by foreclosure, deed in lieu of foreclosure, or otherwise, Fee Secured Party shall recognize the Collateral Agent or the Secured Parties as having all rights of Lessee under the Lease and under this Agreement.

(b) If Owner's interest in the Lease is acquired by Fee Secured Party, whether by purchase and sale, foreclosure, deed in lieu of foreclosure, or in any other way, action, or proceeding,

or by any assignee or successor to Fee Secured Party, including, without limitation, any purchaser at a foreclosure sale, Fee Secured Party, Fee Secured Party's assignees, or successors-in-interest, or the purchaser at the foreclosure sale shall take the Property subject to the Lease and shall be bound by all of the undischarged obligations of Owner under the Lease occurring after such foreclosure or other action; provided, however, that Fee Secured Party shall not be bound by any obligation to pay for any damages caused by Owner under the Lease, shall not be obligated cure or pay for any uncureable defaults of Owner under the Lease, shall not be obligated to pay for any allowances or other amounts under the Lease owed to Lessee prior to the date of such foreclosure or other action, shall not be bound by any amendments to the Lease not received by Fee Secured Party prior to the date of such foreclosure or other action nor consented to by the Fee Secured Party, and shall not be bound by any prepayment of rent more than one month in advance

(c) Fee Secured Party hereby agrees to give to Lessee and Collateral Agent copies of all notices of Owner's default(s) under the Deed of Trust concurrently with Fee Secured Party giving any such notice of default to Owner. Each of Owner and Lessee hereby agrees to give to Fee Secured Party copies of all notices of either Lessee's or Owner's default(s) under the Lease concurrently with either Owner or Lessee giving any such notice of default to Lessee or Owner. Lessee and Collateral Agent shall have the right at their respective option, but not the obligation, to remedy any Owner default under the Deed of Trust, or to cause any default of Owner under the Deed of Trust to be remedied. Fee Secured Party shall accept performance by Lessee or Collateral Agent of any term, covenant, condition, or agreement to be performed by Owner under the Deed of Trust with the same force and effect as though performed by Owner.

(d) Fee Secured Party hereby agrees that it has no interest in and to the Project, or any equipment, improvements, or fixtures owned or installed by Lessee or its affiliates, successors, assigns, or transferees on the Property leased to Lessee relating to the Project, whether real, personal, or mixed, and that any equipment, improvements, or fixtures owned or installed by Lessee or its affiliates, successors, assigns, or transferees on the Property leased to Lessee relating to the Project shall remain the property of Lessee and shall be removable by Lessee at any time, subject to the terms and conditions of the Lease. Further, Fee Secured Party agrees, pursuant to the terms and conditions contained herein, that its only interest in the Lease is as a lender of Owner and any interest it has in the Lease is fully subordinate to Lessee's and Leasehold Mortgagee's respective interest therein under the terms of the Lease.

2. Attornment.

(a) If the interest of Owner in the Lease is acquired by Fee Secured Party, whether by purchase and sale, foreclosure, deed in lieu of foreclosure, or in any other way, action, or proceeding, or by any assignee or successor to Fee Secured Party, including, without limitation, any purchaser at a foreclosure sale, Lessee shall attorn to Fee Secured Party, or its successors and assigns, said attornment to be effective and self-operative immediately upon Fee Secured Party's or its successor's or assign's succeeding to the interests of Owner in the Lease without the execution of any other instruments on the part of any party hereto.

(b) Owner hereby irrevocably authorizes and directs Lessee, upon receipt from Fee Secured Party of written notice the Fee Secured Party has acquired Owner's fee interest in the

Property, to pay all rents and other monies payable by Lessee under the Lease to or as directed by Fee Secured Party. Owner irrevocably releases Lessee from any liability to Owner for all payments so made. Lessee agrees that, upon receipt of such notice, it will pay all monies then due and becoming due from Lessee under the Lease to or as directed by Fee Secured Party, notwithstanding any provision of the Lease to the contrary. Such payments shall continue until Fee Secured Party directs Lessee otherwise in writing.

3. General Provisions.

(a) Any notice or other required communication hereunder shall be in writing and may be given by delivering in person, reliable overnight courier, or mailing the same by registered or certified mail, return receipt requested, addressed to the intended party at its address as set forth below. Any party may designate a new address by notice in writing to the other parties. Any notice given in accordance herewith shall be effective on the date of receipt or rejection in the case of reliable overnight courier or registered or certified mail.

_____

(b) This Agreement shall be binding upon, and inure to the benefit of, the successors and assigns of each of the parties hereto. The term "Fee Secured Party" shall include the respective holders from time to time of the Deed of Trust, and the terms "Owner" and "Lessee" shall include the successors, assignees, or holders from time to time of the landowner's interest in the

Property, and the successors, assignees, or holders from time to time of the Lessee's interest in the Lease.

(c) Each party shall, from time to time, take such actions, execute such documents and agreements, and provide such certificates as any other party may reasonably request to carry out and fulfill the transactions, and permit the exercise and performance of the rights and obligations, as are contemplated hereunder, and to effectuate the purpose and intent of this Agreement.

(d) This Agreement shall be governed by, and construed under, the laws of the State of California. This Agreement may not be amended or modified except by an agreement in writing signed by the all of the parties hereto. Each party may freely assign its rights and obligations hereunder. If any action or proceeding is brought by any party against any other party arising from or relating to this Agreement, the prevailing party shall be entitled to recover its reasonable costs and attorneys' fees. This Agreement may be executed in any number of counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument.

(e) This Agreement may be recorded in the real property records of Kern County, California.

(f) All references to the Collateral Agent contained herein refer to the Collateral Agent not acting in its individual capacity but solely as Collateral Agent acting at the written direction of the Secured Parties.

[signatures on following pages]

IN WITNESS WHEREOF, the parties have executed this Non-Disturbance Agreement as of the day and year first above written.

5. Option Agreement for the Purchase and Sale of Real Property, dated as of January 30, 2013, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-250-45, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

6. Option Agreement for the Purchase and Sale of Real Property, dated as of July 16, 2013, by and between SiteCo LLC and [Redacted Third Party], relating to parcel APN 261-250-47, as assigned by the Assignment and Assumption of Option Agreement for Purchase

and Sale of Real Property dated as of January 1, 2014, by and between [Redacted Third Party] and [Redacted Third Party], as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

7. Option Agreement for the Purchase and Sale of Real Property, dated as of January 30, 2013, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-250-48, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

8. Option Agreement for the Purchase and Sale of Real Property, dated as of October 9, 2013, by and between SiteCo, LLC and Randal Gardner, relating to parcel APN 261¬ 250-28, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

9. Option Agreement for the Purchase and Sale of Real Property, dated as of February 12, 2014, by and between SiteCo, LLC and Trini Holdings, LLC, relating to parcel APN 261-213-11, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

10. Option Agreement for the Purchase and Sale of Real Property, dated as of November 8, 2013, by and between SiteCo, LLC and Mark F. Bramlette, relating to parcel APN 261-213-19, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

11. Option Agreement for the Purchase and Sale of Real Property, dated as of November 4, 2011, by and between SiteCo, LLC and The Lansing Companies, LLC, relating to parcel APN 261-211-06, as amended by that certain First Amendment to Option Agreement for the Purchase and Sale of Real Property dated as of May 11, 2012, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

12. Option Agreement for the Purchase and Sale of Real Property, dated as of July 6, 2011, by and between SiteCo, LLC and Zeneida A. Houchen, relating to parcel APN 261-213-50 (subsequently split into APN 261-213-53 and APN 261-213-54), as amended by that certain First Amendment to Option Agreement for the Purchase and Sale of Real Property dated as of April 17, 2014, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

13. Option Agreement for the Purchase and Sale of Real Property, dated as of May 29, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-12, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy,

LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

14. Option Agreement for the Purchase and Sale of Real Property, dated as of June 25, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-28, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

15. Option Agreement for the Purchase and Sale of Real Property, dated as of June 25, 2012 by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-29, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

16. Option Agreement for the Purchase and Sale of Real Property, dated as of August 13, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcels APN 261-230-30, APN 261-230-31, APN 261-230-32, and APN 261-230-33, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

17. Option Agreement for the Purchase and Sale of Real Property, dated as of April 8, 2014, by and between SiteCo, LLC and Mei-Ling Properties I LLC, relating to parcel APN 261-250-27, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

18. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Richard Ong, relating to parcel APN 261-230-38, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

19. Option Agreement for the Purchase and Sale of Real Property, dated as of May 14, 2014, by and between SiteCo, LLC and Richard Ong, Patricia Gee and Thomas Ong, Sr., relating to parcel APN 261-230-39, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

20. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Thomas Ong and Teresa H. Ong, relating to parcel

APN 261-230-40, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

21. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Gary Gee and Patricia L. Gee, as Trustees of the Gary Gee and Patricia L. Gee Family Trust, relating to parcel APN 261-230-41, as assigned to Seller pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and Seller dated May 20, 2014.

[RESERVED]

APPENDIX Q
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

LAND LEASE

[See attached]

LAND LEASE

THIS LAND LEASE (this "Agreement") is entered into as of [_____], 2014 ("Effective Date") by and between RE ASTORIA 2 LANDCO LLC, a Delaware limited liability company ("Owner"), and RE ASTORIA 2 LLC, a Delaware limited liability company ("Lessee"). Owner and Lessee are sometimes herein together referred to as the "Parties" and individually as a "Party". For good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Owner and Lessee hereby agree as follows:

1. Definitions. The following terms shall have the following meanings when capitalized in this Agreement:

1.1. ["Adjacent Owner"] See Section 3.2.

1.2. "Addresses"

"Owner's Address"

RE ASTORIA 2 LANDCO LLC
c/o Recurrent Energy LandCo LLC
300 California Street, 7th Floor
San Francisco, California 94104
Attention: Judith Hall – Office of the General Counsel
Telephone: (415) 675-1500
Facsimile: (415) 675-1501

with a copy to:
RE ASTORIA 2 LANDCO LLC
c/o Recurrent Energy LandCo LLC
300 California Street, 7th Floor
San Francisco, California 94104
Attention: Seth Israel, Vice President, Real Estate and Early Development
Telephone: (415) 675-1500
Facsimile: (415) 675-1501

"Lessee's Address"

RE ASTORIA 2 LLC
c/o Recurrent Energy Development Holdings, LLC
300 California Street, 7th Floor
San Francisco, California 94104
Attention: Judith Hall – Office of the General Counsel
Telephone: (415) 675-1500
Facsimile: (415) 675-1501

with a copy to:
RE ASTORIA 2 LLC
c/o Recurrent Energy Development Holdings, LLC
300 California Street, 7th Floor

		San Francisco, California 94104 Attention: Seth Israel, Vice President, Real Estate and Early Development Telephone: (415) 675-1500 Facsimile: (415) 675-1501
1.3.	"Approved Rating"	See Section 4.2.
1.4.	"Calendar Quarter"	See Section 5.2.
1.5.	"COD Notice"	See Section 4.1.
1.6.	"Commercial Operation"	The condition existing when the applicable Solar Power Facilities are mechanically complete and operating in accordance with their manufacturing specifications and net electricity is regularly generated, delivered and sold (excluding start-up and testing of the Solar Power Facilities) by the Solar Power Facilities to PPA Buyers (as defined below) as agreed to by Lessee and such PPA Buyers.
1.7.	"Commercial Operation Date"	The date on which Commercial Operation of the Solar Power Facilities is achieved as evidenced by a confirmatory letter or similar notice from the purchasers of generated electricity to Lessee.
1.8.	"Construction Period"	The period commencing on the Effective Date and ending the day immediately preceding the Commercial Operation Date.
1.9.	"CUP"	See Section 6.4.
1.10.	"Damages"	See Section 7.3(c).
1.11.	"Decommissioning Period"	See Section 11.8(a).
1.12.	"Drillpad Access Easement Areas"	See Section 7.2.
1.13.	"Drillpads"	See Section 7.2.
1.14.	["Easement Grantee"]	See Section 3.1.
1.15.	"Event of Default"	See Section 9.1.
1.16.	"Extended Period"	See Section 4.2.
1.17.	"Extension Conditions"	See Section 4.2.

1.18.	"First Extended Period"	See Section 4.2.
1.19.	["Gen-Tie Easement"]	See Section 3.1.
1.20.	"Hazardous Substance"	See Section 6.1.
1.21.	"Indemnified Party" and "Indemnified Parties"	See Section 7.3(c).
1.22.	"Initial Period"	The period commencing on the Commercial Operation Date and expiring on the date that is twenty (20) years following the Commercial Operation Date.
1.23.	["Joint Facilities Easement Agreement"]	See Section 3.3.
1.24.	"Law"	See Section 6.1.
1.25.	"Lessee's Hazardous Substances"	See Section 6.1.
1.26.	"Lessee's Project Obligations"	See Section 4.2.
1.27.	"Lessee's Taxes"	See Section 6.2.
1.28.	"Letter of Credit"	See Section 11.8(c).
1.29.	"Lodi"	See Section 8.2.
1.30.	"Monitoring Equipment"	See Section 2.1(b).
1.31.	"Mortgagee"	See Section 8.1.
1.32.	"Operations"	See Section 2.2.
1.33.	"Permitted Successor and Assign(s)"	See Section 11.3.
1.34.	"Permitting Authority"	Kern County ("County"), State of California.
1.35.	"PPA"	See Section 8.2.
1.36.	"PPA Buyers"	See Section 8.2.
1.37.	["Preserve Documents"]	See Section 6.3.
1.38.	"Project Purchase Option"	See Section 8.2.
1.39.	"Property"	That certain real property located in the County consisting of approximately [840] acres, described in

		Exhibit A to this Agreement and incorporated herein by this reference.
1.40.	"PWRPA"	See Section 8.2.
1.41.	"Removal Security"	See Section 11.8(c).
1.42.	"Renewable Energy"	See Section 2.1(b).
1.43.	"Rent"	During the Construction Period and the Initial Period, annual rental equal to Seven Hundred Fifty Thousand Dollars and No/100 ($750,000.00). During the Extended Periods, if any, a commencing annual rental equal to One Million One Hundred Ninety Thousand Dollars and No/100 ($1,190,000.00), which shall be increased thereafter as follows: on each succeeding January 1 following the commencement of the First Extended Period (each, an "Adjustment Date"), the amount of annual rent shall be equal to the amount of annual rent in effect on the date immediately preceding the Adjustment Date as increased by two and one-half percent (2.5%]. During the Term, the annual rental shall be divided by four (4) and paid quarterly to Owner. See Sections 5.1 and 5.2.
1.44.	"Responsible Party"	See Section 7.3(b).
1.45.	"SCPPA"	See Section 8.2.
1.46.	"Second Extended Period"	See Section 4.2.
1.47.	"Security Deposit"	See Section 5.3.
1.48.	"Solar Power Facilities"	See Section 2.1(b).
1.49.	"State"	California.
1.50.	"Term"	The period of time commencing on the Effective Date and continuing through the Initial Period, as such Term may be extended in accordance with Section 4.2.
1.51.	"Third Extended Period"	See Section 4.2.
1.52.	"Title Company"	See Section 7.3(d).
1.53.	"Transmission Facilities"	See Section 2.1(b).

2. Grant of Lease.

2.1. Owner hereby leases to Lessee, and Lessee hereby leases from Owner the Property, and Owner further grants and conveys to Lessee the exclusive occupancy of the Property for the Term, together with the following rights.

(a) Lessee shall have the exclusive right to evaluate, develop and use solar energy resources found on, about, over and around the Property (such energy resources collectively referred to as the "Renewable Energy Resources"), together with the exclusive right to the free and unobstructed insolation and flow of the Renewable Energy Resources on, about, over and across the Property.

(b) Lessee shall have the exclusive right to use the Property for: (a) using, converting, maintaining, and capturing the Renewable Energy Resources on, above, over, through and across the Property ("Renewable Energy"); (b) developing the Renewable Energy; (c) collecting, distributing, transmitting, and selling the energy output from the Renewable Energy; and (d) engaging in any other uses reasonably related to the development of the Renewable Energy, including, without limitation, the development, erection, installation, construction, improvement, reconstruction, enlargement, removal, relocation, replacement and repowering, and the use, maintenance, repair and operation, of the following: (i) a weather station and solar radiation and solar energy monitoring devices and other weather measurement devices, monitoring and recording equipment and facilities with respect to the Renewable Energy Resources, including, without limitation, the establishment at Lessee's sole discretion of a land-based or satellite-based high speed Internet connection and/or a meter for the load at the Property (collectively, "Monitoring Equipment"); (ii) solar energy collection cells, photovoltaic panels, concentrating solar technology equipment, mirrors, lenses and other facilities related to the harnessing of sunlight for photovoltaic or solar thermal electric generation, together with mounting substrates or supports and their associated structure and foundations; (iii) underground and/or overhead distribution, collection and transmission lines; underground and/or overhead control, communications and radio relay systems and telecommunications equipment; energy storage facilities; interconnection and/or switching facilities, circuit breakers, transformers; utility lines and installations, cables, wires, fiber, conduit, footings, foundations, towers, poles, crossarms, guy lines and anchors, and any related or associated improvements, fixtures, facilities, appliances, machinery and equipment ("Transmission Facilities"); and (iv) any other improvements, fixtures, facilities, appliances, machinery and equipment, whether temporary or permanent, that are related to or associated with any of the foregoing items (clauses (i) – (iv), collectively referred to as the "Solar Power Facilities"); (v) filming and recording (including a webcam showing site activities on the Internet) any aspect of the Property, the Solar Power Facilities and/or Lessee's Operations for measuring the energy output, publicity, marketing, security, research or educational purposes associated with development of Renewable Energy Resources or Lessee's Operations, and (vi) implementing, operating and maintaining security appropriate to the facility, which may include (but shall not be limited to): video monitoring, night-vision monitoring, motion detection, and on-site security personnel. Notwithstanding anything to the contrary herein, Lessee shall be entitled to determine the size, type, manufacturer and exact location of the Solar Power Facilities to be located upon the Property in its sole discretion.

(c) Subject to the provisions of Paragraph 7.2, Lessee shall have the non-exclusive right to remove, trim, prune, top or otherwise control the growth of any tree, shrub, plant or other vegetation; dismantle, demolish, and remove any improvement, structure, impediment, wall, fence or other object, on the Property, including, without limitation, anything that could obstruct, interfere with or impair the Solar Power Facilities or the intended uses of the Property by Lessee under this

Agreement; and excavating, grading, leveling and otherwise modifying the land, all in Lessee's sole discretion as Lessee may deem desirable or necessary in connection with Lessee's intended uses of the Property under this Agreement.

(d) Water Rights. Lessee shall be responsible at its sole cost and expense to obtain any water necessary for the construction, operation and maintenance of the Solar Power Facilities from offsite sources and shall comply with all applicable Laws (as hereinafter defined) in connection therewith. Lessee acknowledges that there is no onsite water resource available on the Property for its use.

(e) Entry by Owner. Owner shall have the right upon reasonable prior notice to Lessee (which may be by e-mail or telephone) to enter the Property and to inspect it to determine if Lessee is in compliance with its obligations under this Agreement. Lessee shall have the right, but not the obligation, to have a representative accompany Owner during any such entry. The foregoing notwithstanding, no prior notice shall be required in the event of an emergency, as reasonably determined by Owner; provided however, Owner shall provide prompt notice after such entry, which shall include an explanation of the emergency and the results of the inspection.

2.2. All of the uses and purposes permitted Lessee under this Agreement, including, without limitation, use of the Property, are referred to herein collectively as "Operations." Lessee shall be required to obtain the prior written consent of Owner, which may be withheld in its sole and absolute discretion, to use the Property for any uses other than its Operations as described herein.

3. Easements.

3.1. [Owner's Grant of Easement. Owner shall grant one or more [____ foot (__')] non-exclusive access and utility easements (collectively, the "Gen-Tie Easement") to [_____] (the "Easement Grantee"), at no cost to such party, near the [_____] and [_____] border(s) of the [Property]. Such Gen-Tie Easement shall be substantially in the form attached hereto as Exhibit B, with such changes agreed to by Lessee. Lessee expressly acknowledges and agrees that Lessee accepts the Property subject to the Gen-Tie Easement.]

3.2. [Shared Fence Easement Agreement. Owner hereby agrees to enter into a Shared Fence Easement Agreement, substantially in the form attached hereto as Exhibit C, with such changes agreed to by Lessee. Lessee expressly acknowledges and agrees that Lessee accepts the Property subject to such Shared Fence Easement Agreement. The Shared Fence Easement Agreement attached hereto as Exhibit C grants a non-exclusive ten foot (10') wide easement to Lessee over a portion of land owned by [_____] (the "Adjacent Owner"), an affiliate of Owner as of the Effective Date, located immediately east of the Property (as more particularly described therein).]

3.3. [Joint Facilities Easement Agreement. Owner hereby agrees to enter into a Joint Facilities Easement Agreement, substantially in the form attached hereto as Exhibit D, with such changes agreed to by Lessee, for the benefit of [Easement Grantee] (the "Joint Facilities Easement Agreement"). Lessee expressly acknowledges and agrees that Lessee accepts the Property subject to such Joint Facilities Easement Agreement.]

3.4. [Access/Crossing Agreements. Lessee hereby acknowledges and agrees that it may need to enter into separate agreements with the County and third-party easement holders to permit portions of the Solar Power Facilities to cross over or under any public rights-of-way and private

easements. Lessee shall be responsible for obtaining any such separate agreements, provided, however that Owner, at Lessee's request, shall reasonably cooperate with Lessee's efforts to enter into such agreements, including, without limitation, signing any agreements as the owner of the Property at no out-of-pocket cost to Owner so long as such agreements do not create any liability on the part of Owner.]

3.5. [Dedication/Preservation. Owner agrees that it has or shall dedicate or preserve the following rights-of-way and public access easements in full compliance with the terms and conditions set forth in the CUP (defined below) and [insert other approvals which may require dedications/preservations]: (i) [insert right of way areas]. The location and form of such agreements dedicating such rights-of-way shall be acceptable to the County. Lessee accepts the Property subject to such dedications and preservations and agrees to comply with all of the terms, conditions, covenants and restrictions set forth in any agreement with the County relating to the use of such rights-of-way.]

3.6. [Easements for Lessee's Benefit. INCLUDE ANY SPECIFIC EASEMENTS]

3.7. [Easements for Public Utilities. Upon Lessee's request, Owner agrees that it shall grant easements across the Property for the benefit of the local public electric utility for purposes of ingress and egress, constructing a substation, overhead and underground utility lines, communication lines and other related facilities for interconnection purposes to the substation or other point of interconnection in connection with the Solar Power Facilities, and for operation, maintenance and repair thereof, in locations and using a form reasonably agreed to by Owner for a term that extends through the expiration of the Decommissioning Period, or as otherwise required by the local public electric utility. Owner shall not be entitled to any additional compensation for any such granted easements.]

4. Term.

4.1. COD; Commencement of Initial Period. Lessee shall obtain a confirmatory letter or similar notice from the PPA Buyers to Lessee confirming the Commercial Operation Date (the "COD Notice") and shall deliver a copy of the COD Notice to Owner on the later to occur of: (i) the date that is thirty (30) days after the Commercial Operation Date or (ii) five (5) days after its receipt of the COD Notice. The Parties agree to execute and record a supplemental memorandum of this Agreement setting forth the expiration date of the Term within ninety (90) days after the later to occur of the Commercial Operation Date or receipt of the COD Notice.

4.2. Extensions. Lessee shall have the right to extend the Term for up to three (3) additional periods for the following terms: (a) a period of five (5) years (the "First Extended Period"); (b) a period of five (5) years (the "Second Extended Period"); and (c) a period equal to (4) years and eleven (11) months, less the Construction Period (the "Third Extended Period") (each an "Extended Period"), provided that any such extension shall only be effective if the following conditions (the "Extension Conditions") are met both at the time Lessee exercises such extension and at the time such Extension Period commences: (i) there shall be no Event of Default by Lessee (and no breach of this Agreement by Lessee which by the giving of notice and the lapse of any cure period without cure would become an Event of Default), and (ii) Lessee meets the Underwriting Requirement (as hereinafter defined) (provided, however, that Lessee does not need to meet the Underwriting Requirement if Lessee is one or more of the PPA Buyers). The Underwriting Requirement shall mean any one of the following: (1) Lessee holds a current long-term senior unsecured debt rating of at least BBB+ by S&P or Baa1 by Moody's (an "Approved Rating"); (2) Lessee has provided to Owner either a guarantee of Lessee's

obligations under this Agreement and of its obligations with respect to the Solar Power Facilities (including its obligations set forth in Section 11.8) (collectively, "Lessee's Project Obligations") by a party that holds an Approved Rating or some other comparable security, all in a form and in an amount reasonably acceptable to Owner; or (3) Lessee has provided to Owner reasonably satisfactory evidence of a contracted revenue stream benefitting Lessee that is reasonably acceptable to Owner that demonstrates its ability to meet Lessee's Project Obligations. Lessee must notify Owner in writing at least ninety (90) days prior to the expiration of the Initial Period or the then-current Extended Period if Lessee elects to extend into an Extended Period. Owner agrees to notify Lessee in writing of its approval or disapproval of the items set forth in (ii) above within thirty (30) days after receiving all such information and receiving a written request from Lessee requesting such a written response. Lessee may exercise more than one Extended Period at one time (for example, Lessee may elect prior to the expiration of the Initial Period to extend the Term for the First Extended Period and the Second Extended Period or for all three (3) of the Extended Periods), which extensions shall be subject to the Extension Conditions as set forth above. The Parties agree to execute and record a supplemental memorandum of this Agreement within ninety (90) days after the exercise of an extension of the Term by an Extended Period setting forth the new expiration date of the Term. If Lessee fails to exercise any of the Extended Periods as and when required hereunder, or if Lessee fails to meet the Extension Conditions at the times specified above, Lessee shall have no further right to exercise such Extended Period or any subsequent Extended Period under this Agreement. During any Extended Period, Lessee shall continue to pay Rent as set forth in Sections 5.1 and 5.2.

4.3. Total Term. The Parties' express intent is to not trigger any property tax reassessment or deemed change of ownership of the Property. Accordingly, in no event shall the Term exceed thirty-four (34) years and eleven (11) months, and in the event the overall Term would exceed or be construed to exceed such maximum, the Third Extended Period (as hereinafter defined) shall automatically be deemed reduced and adjusted to a period such that the total Term does not exceed thirty-four (34) years and eleven (11) months (or the maximum number of years and months to avoid a property tax reassessment or deemed change of ownership of the Property, if less).

5. Payments to Owner.

5.1. Rent. Beginning on the Effective Date and continuing throughout the Term, Lessee shall timely pay, without notice, demand or offset, the Rent as described in Section 1.43 to Owner, in quarterly portions in advance.

5.2. Time When Rent is Paid. Rent shall be payable in quarterly installments, in advance. Such quarterly installments of the Rent shall be due and payable to Owner by Lessee on or before the date that is five (5) days after the beginning of the applicable Calendar Quarter, and the first installment of the Rent shall be due and payable to Owner by Lessee on or before the date that is five (5) days after the Effective Date of this Agreement, such amount shall be prorated from the Effective Date through the end of the applicable Calendar Quarter. For the purposes of this Agreement, a "Calendar Quarter" shall mean January 1 through March 31, April 1 through June 30, July 1 through September 30 and October 1 through December 31. The amount of rent for any partial acre and any partial period shall be prorated (using a ninety (90) day calendar quarter for any partial quarter). If any installment of rent owing to Owner under this Agreement is not received by Owner by the tenth (10th) day after such rent is due, Lessee shall pay a late charge equal to two percent (2%) of such rent due; provided, however, that the payment of such charge shall be excused one time in each successive twelve (12) month period during the Term of this Agreement if the installment at issue is paid by the thirtieth (30th) day after such rent is

due. All rent shall be paid to Owner at the address set forth in Section 1.1 above or at such other place as Owner has notified Lessee in writing.

5.3. Security Deposit. Upon the due date for the first payment of quarterly Rent, Lessee shall deposit with Owner the additional sum of One Hundred Eighty Seven Thousand Five Hundred Dollars and No/100 ($187,500) which shall be the "Security Deposit" and which shall be held by Owner as security for the faithful performance by Lessee of its obligations under this Agreement. If an "Event of Default" (as defined below) by Lessee shall have occurred and be continuing with respect to any of the provisions of this Agreement, including those relating to the payment of rent, then Owner may (but is not obligated to and without limiting or waiving any other rights or remedies Owner may have) use, apply or retain all or any part of the Security Deposit for the payment of any Rent or any other sum in default, or for the payment of any other amount Owner may spend or become obligated to spend by reason of Lessee's default and/or to compensate Owner for any loss of damage that Owner may suffer by reason of Lessee's default. If any portion of the Security Deposit is so used or applied, Lessee shall, within ten (10) days following demand, deposit such cash with Owner as necessary to restore the Security Deposit to the original amount. Lessee hereby waives the provisions of California Civil Code Section 1950.7 or any future law regarding the holding and uses of a Security Deposit and agrees the provisions of this Agreement shall apply in lieu thereof. Owner shall have no obligation to pay Lessee any interest on the Security Deposit. Within thirty (30) days following the expiration or earlier termination of this Agreement and Lessee's surrender of the Property in the condition required by this Agreement (including, without limitation, as required pursuant to Section 11.8 below) and full performance of all other obligations of Lessee under this Agreement, Owner shall return the Security Deposit to Lessee, less only those amounts which Owner is entitled to deduct therefrom as provide for herein.

6. Lessee's Covenants. Lessee covenants to Owner as follows:

6.1. Compliance with Law. Lessee shall comply with all valid federal, state or local laws, ordinances, rules, regulations and statutes of any governmental agency and any covenants, conditions or restrictions related to the Property included in any recorded agreement encumbering the Property (including, without limitation, those matters of record identified in the Preliminary Title Report described in Section 6.3 below, and any documents recorded pursuant to Section 3 above) (each, a "Law"), including Laws relating to the presence, release or threat of release of any material defined or regulated as a pollutant, contaminant, solid waste, or hazardous or toxic substance, material or waste under any Law (a "Hazardous Substance"), applicable to Lessee's Operations on the Property, subject to Lessee's right to contest the same, as provided in Section 6.5 below. Except for any Hazardous Substance contained in products used by Lessee in de minimis quantities for ordinary cleaning, maintenance, repair and improvements, and operating purposes in compliance with Law, and those normally contained in the make-up of the Solar Power Facilities as of the date of this Agreement, Lessee shall not permit or cause any party to bring any Hazardous Substance upon the Property, and Lessee shall not transport, store, use, generate, manufacture or release any Hazardous Substance in or about the Property without Owner's prior written consent, not to be unreasonably withheld, conditioned or delayed (collectively, "Lessee's Hazardous Substances").

6.2. Payment of Taxes. Lessee shall be responsible for and timely pay before delinquency any real or personal property taxes, assessments, liens, levies, charges or fees levied against (a) the Solar Power Facilities (or any portion thereof), (b) improvements made to the Property by Lessee in connection with the installation and operation of the Solar Power Facilities, and (c) the Property to

the extent that any increase in real property taxes are attributable to Lessee's Operations (collectively, "Lessee's Taxes"). Owner shall be responsible for, and shall pay when due, any property taxes levied or assessed by any governmental authority upon the Property or against Owner's ownership of the Property and any other monetary obligations associated with the Property (excluding Lessee's Taxes or any other obligations relating, directly or indirectly, to Lessee's Operations or the Solar Power Facilities); subject to Owner's right to contest the same in a manner that does not jeopardize Lessee's rights hereunder. If Lessee is not separately billed for Lessee's Taxes, Owner shall promptly deliver a copy of the tax statement received by Owner and Lessee shall pay any Lessee's Taxes prior to delinquency.

6.3. Condition of Title. Lessee has obtained a leasehold owner's policy of title insurance issued by [_____], dated as of the Effective Date, and a copy of all underlying documents referenced therein. Lessee represents that it has reviewed these materials and is familiar with their contents. Other than as shown in the leasehold owner's policy and other than as permitted in Section 3 above and Section 8 below, Owner shall not further encumber the Property or Owner's fee interest therein with any liens, encumbrances or other exceptions to title that would interfere with Lessee's use of the Property, result in damage to the Solar Power Facilities or otherwise materially and adversely affect the Solar Power Facilities. [Lessee acknowledges that the Property is subject to the California Land Conservation Act of 1965 (commonly known as the Williamson Act) and the Farmland Security Zone Contract No. [_____] (collectively, the "Preserve Documents"). Lessee shall comply with all terms, conditions, covenants and restrictions included in and related to the Preserve Documents. If any non-renewal or cancellation of the Preserve Documents is required for Lessee to use the Property as intended, the Lessee shall pursue such non-renewal or cancellation and pay any associated fees or penalties at its sole cost and expense and any increase in real property taxes resulting from a cancellation or non-renewal. Owner shall reasonably cooperate to provide any ministerial documentation, including signing any document required to be signed by Owner in its role as fee owner of the Property, in order to process such non-renewal or cancellation sought by Lessee.

6.4. Compliance with Permits. Lessee, at its sole cost and expense, shall be responsible for obtaining, satisfying and complying with all of the terms, conditions, covenants and restrictions of all permits and related agreements and documents issued in connection with Property and/or in connection with Lessee's Operations, including, without limitation, those included in (1) the conditions of approval included in the Kern County Conditional Use Permit Number [_____] as approved by Planning Commission Resolution No. [_____] and adopted on [_____, 20__], as may be amended (the "CUP") (which includes, among other conditions, an obligation to implement and satisfy the mitigation monitoring and reporting plan attached thereto), and (2) any permits issued by any State or federal agencies.

6.5. Liens. Lessee shall keep Owner's interest in the Property free and clear of all liens and claims of liens for labor and services performed on, and materials, supplies and equipment furnished in connection with, Lessee's Operations on the Property, subject to Lessee's right to contest such liens and claims, as provided below. Owner shall have the right to post notices of non-responsibility on the Property related to the labor and services performed on and materials, supplies and equipment furnished in connection with the Lessee's Operations on the Property, and Lessee shall provide to Owner at least thirty (30) days' prior written notice of the commencement of any construction on the Property, or any portion thereof, in order to enable Owner to timely post such notices of non-responsibility. Lessee shall have the right to contest the legal validity or application of any such Law (pursuant to Section 6.1 above), the legal validity or amount of any such tax (for which it is responsible pursuant to Sections 6.2 and 6.3 above), and/or the legal validity or amount of any such liens and claims

for which it is responsible under this Agreement, as applicable, and may institute such proceedings as it considers necessary, provided that Lessee shall provide Owner with written notice of Lessee's intention to contest any lien within twenty (20) days after the recording of any lien or at least ten (10) business days prior to the delinquency of such tax, assessment, charge or other item, as the case may be, such contest shall be prosecuted to a final conclusion as speedily as reasonably possible, and Lessee shall bear all expenses in pursuing such contest or proceeding. Notwithstanding the foregoing, Lessee shall, within fifteen (15) business days following receipt of Owner's written demand therefor, pay, bond over or otherwise cause the release of any mechanic's lien, materialmen's lien or other lien filed against the Property; provided that the foregoing shall not apply to any lien in favor of Mortgagee as defined in Section 8. If such liens are filed and not released within such fifteen (15) business day period, Owner may, without waiving its rights and remedies based on that breach by Lessee and without releasing Lessee from any of its obligations, cause such liens to be released by any means it shall deem proper, including payment in satisfaction of the claim giving rise to such liens. Lessee shall pay to Owner at once, within thirty (30) days after notice to Lessee, any sum paid by Owner to remove such liens, together with interest at ten percent (10%) per annum from the date of such payment by Owner until paid by Lessee. In addition, if contesting a tax for which it is responsible under Sections 6.2 and 6.3, Lessee shall pay the full amount of such tax prior to delinquency to avoid any and all penalties that could be levied against Owner, liens against any portion of the Property, or any other adverse actions that could be taken against Owner or the Property for failure to pay such tax.

6.6. Liability Insurance. Lessee agrees to maintain commercial general liability insurance covering its Operations on the Property and to name Owner as an additional insured. Such coverage shall have a minimum coverage amount of One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) in the aggregate, except that such amount may be provided as part of a blanket policy covering other properties. Lessee shall also maintain worker's compensation in accordance with federal and statutory requirements. In addition, if applicable, Lessee shall obtain and maintain automobile liability insurance and such other liability coverage and in such amounts as may be reasonably required by Owner from time to time. Lessee shall increase insurance coverage limits at least every five (5) years as required to reasonably reflect commercially reasonable increases in insurance coverages for similar uses on similar properties in the State, as reasonably determined by Owner and Lessee after consultation with their respective insurance consultants. If this Agreement is assigned to PPA Buyers (as defined in Section 8.2), Lessee may provide the insurance coverage required under this Section 6.6 by a program of "self-insurance", provided that (i) the self-insurance program, in the reasonable judgment of Owner, provides adequate, enforceable, sufficiently funded and long-term coverage for the risks to be insured against, (ii) Lessee's net worth and financial standing is sufficient, in the reasonable judgment of Owner, to support the self-insurance program, and (iii) such program of self-insurance shall otherwise provide Owner with the same rights and privileges to which Owner is otherwise entitled under the terms of this Section 6.6 when there is a third-party insurer. Lessee shall provide to Owner all documents (including without limitation such financial statements of Lessee as may be requested by Owner from time to time) that are necessary to permit a complete review and analysis of the self-insurance program. This right to self-insure is personal to PPA Buyers, only applies if this Agreement is assigned to PPA Buyers, and shall not inure to the benefit of any other lessee under this Agreement, or to any successor, assign or subtenant of PPA Buyers.

6.7. Property Insurance. During the Term, Lessee shall maintain all risk property insurance, in an amount not less than ninety percent (90%) of replacement cost covering all Solar Power Facilities, which may be included within a blanket policy covering other properties. Such property insurance shall include a replacement cost endorsement, providing protection against any peril included within the

classification fire and extended coverage, vandalism, malicious mischief, and such other additional perils as covered in a "cause of loss-special form" standard insurance policy to the extent applicable to property similar to the Solar Power Facilities.

6.8. Certificates of Insurance. All insurance required to be carried by Lessee hereunder shall be issued by responsible insurance companies which are rated by Best Insurance Reports as B:VII or better and licensed or authorized to do business in the State of California. Each general liability policy shall name Owner and mortgagees of Owner as an additional insured and be obtained on an occurrence basis. Each policy shall contain a separation of insureds condition. Lessee's insurance shall be primary and non-contributing with respect to any policies carried by Owner and any coverage carried by Owner shall be excess insurance for Owner's interest only. A copy of each paid up policy (authenticated by the insurer) or certificate of the insurer evidencing the existence and amount of each insurance policy required hereunder shall be delivered to Owner as soon as practicable after the Effective Date (but in all events prior to any entry onto the Property by Lessee), and thereafter, within fifteen (15) days after any demand by Owner therefor. Owner may, at any time and from time to time, inspect and/or copy any insurance policies required to be maintained by Lessee hereunder, if such policies are available to Lessee. No such policy shall be cancelable, materially changed or reduced in coverage except after thirty (30) days' written notice to Owner and Owner's lender (except that ten (10) days' notice shall be sufficient in the case of cancellation for non-payment of premium). Lessee shall furnish Owner with an insurance binder evidencing renewal within ten (10) days after the expiration thereof and with new certificates of insurance for any such policy within thirty (30) days after such renewal. Lessee agrees that if Lessee does not take out and maintain such insurance, Owner may (but shall not be required to), after ten (10) days' written notice to Lessee, procure said insurance on Lessee's behalf and charge the Lessee the premiums plus any reasonable costs incurred by Owner in connection therewith, which shall be payable upon demand.

6.9. Waiver of Subrogation. To the extent of any and all property insurance maintained, or required to be maintained, by either Owner or Lessee in any way connected with the Property, Owner and Lessee hereby waive on behalf of their respective insurance carriers any right of subrogation that may exist or arise as against the other Party to this Agreement. Owner and Lessee shall either endeavor to cause the insurance companies issuing their property insurance policies with respect to the Property to waive any subrogation rights that the companies may have against Lessee and Owner, respectively, or add the other Party as a named insured under its respective property insurance policy.

6.10. Maintenance; Repair; Operations. Lessee shall, at its sole cost and expense, maintain, repair and replace the Property and the Solar Power Facilities in a clean, safe and operational condition and in compliance with all Laws. Lessee shall also maintain the Property (whether within the perimeter fence or not), including the landscaping, to prevent debris, weeds and other noxious plants, dust and trash from becoming an unreasonable nuisance on the Property. In conducting the Operations (including construction and power generation), Lessee shall use commercially reasonable efforts to minimize excessive noise or dust released from the Property. Lessee acknowledges that Owner shall have absolutely no obligation to maintain the Property or any Solar Power Facilities.

6.11. Authority. The execution and delivery of this Agreement by Lessee and the performance and observance of its terms have all been authorized by all necessary actions of Lessee. The person(s) executing this Agreement on behalf of Lessee have been duly authorized to execute and deliver this Agreement on behalf of Lessee and have the power to bind Lessee to perform the terms of this Agreement. Lessee is duly organized, validly existing, in good standing in the state of its

incorporation or formation, and has all requisite power and authority to lease the Property and conduct business in the State.

7. Condition of Property and Covenants.

7.1. Condition of Property. Except as otherwise disclosed in writing by Owner to Lessee prior to the Effective Date, Owner makes the following representations and warranties to Lessee, all of which shall be true, correct and complete as of the Effective Date (and, as of the effective date of an assignment by Lessee to PPA Buyers pursuant to the Project Purchase Option, as such terms are defined in Section 8.2):

(a) Authority. The execution and delivery of this Agreement by Owner and the performance and observance of its terms have all been authorized by all necessary actions of Owner. The person(s) executing this Agreement on behalf of Owner have been duly authorized to execute and deliver this Agreement on behalf of Owner and have the power to bind Owner to perform the terms of this Agreement. Owner is duly organized, validly existing, in good standing in the state of its formation, and has all requisite power and authority to lease the Property and conduct business in the State. Owner is not the subject of any: (a) legal administrative, arbitral or other proceedings, claims, actions or governmental or regulatory investigations of any kind or nature that could be reasonably expected to impact the Property; or (b) bankruptcy, insolvency or probate proceedings.

(b) Quiet Enjoyment; No Interference; Exclusive Rights. Owner warrants, subject to the provisions of Section 7.2, that Lessee shall peaceably hold and enjoy the Property and any and all other rights granted by this Lease for the entire Term without hindrance, interruption, suit, trouble or interference of any kind by Owner or any other person or entity claiming (whether at law or in equity) by, through or under Owner, so long as an Event of Default by Lessee does not exist and is continuing.

(c) Title; Hazardous Substances; Third Party Rights. To Owner's knowledge, Owner has lawful title to the Property. Owner has not stored, handled, or disposed of Hazardous Substances on the Property. To Owner's knowledge and except as disclosed in the title policy referenced in Section 6.3, there are no circumstances or commitments to third parties that may damage, impair or otherwise affect the Solar Power Facilities or its construction, installation or function in any material respect.

7.2. Property "As Is". Except as expressly set forth in this Agreement, Lessee shall lease the Property and take any related easements on an "As Is" basis, and this Agreement shall be subject to all matters of public record as of the Effective Date and all items which may be shown on a survey as of the Effective Date. Without limitation, Lessee hereby acknowledges that [_____] acre drillpad(s) in such areas identified on Exhibit E attached hereto and made a part hereof (collectively, the "Drillpads") have been reserved for the benefit of the mineral rights owners and/or mineral rights lessees, along with an access easement in such area(s) described and depicted on Exhibit E attached hereto and made a part hereof (the "Drillpad Access Easement Areas"). Lessee's placement of any improvements on such Drillpad and Drillpad Access Easement Areas (including, without limitation, any Solar Power Facilities) shall be at Lessee's sole risk and Owner shall have no responsibility or liability in connection therewith.

7.3. Parties' Rights and Covenants.

(a) Solar Power Facilities. Owner shall not: (i) interfere with or impair the free, unobstructed and natural availability, accessibility, flow, frequency, or direction of any Renewable Energy Resources upon, over or across the Property, the operation of the Solar Power Facilities, or the lateral or subjacent support for any of the Solar Power Facilities; (ii) engage in any other activity on the Property or any property adjacent to the Property that is owned or controlled by Owner or any affiliate of Owner that might interrupt or cause a decrease in the output or efficiency of the Solar Power Facilities; or (iii) subject to Section 7.2, require the relocation or removal of any of the Solar Power Facilities during the Term.

(b) Hazardous Substances. Each Party (the "Responsible Party") shall comply with, and shall indemnify the Indemnified Parties (as defined below) against any obligations imposed under or violation of, any Law relating to the generation, manufacture, storage, use, release or threatened release, disposal, transportation or presence of any Hazardous Substance on or under the Property by the Responsible Party, except for a violation of applicable Law by an Indemnified Party (as defined below) resulting directly from any release of Hazardous Substances by an Indemnified Party. Indemnified Parties shall have no liability or responsibility under this Agreement, and, without limiting the generality of Section 7.3(b) hereof, the Responsible Party shall hold the Indemnified Parties harmless and defend the Indemnified Parties from, and reimburse the Indemnified Parties for, any and all loss, costs, liability, damage and expense (including, without limitation, reasonable attorneys' fees and costs), incurred in connection with or arising from, Hazardous Substances located on or within the Property resulting from the Responsible Party's acts or omissions. These indemnifications shall survive the termination of this Agreement. Each Party shall immediately notify the other Party in writing should it discover or be informed of the presence or any threatened release or presence of any Hazardous Substance on the Property. Lessee has had the following environmental studies prepared on the Property: [_____]. Lessee represents that it has reviewed and is familiar with all of the matters contained in these studies. If Lessee's use of the Property (including, without limitation, its construction activities) triggers any obligations imposed under any Law related to Hazardous Substances, Lessee shall promptly and completely comply with such Laws at it sole cost and expense.

(c) Indemnification. Each Party shall indemnify, defend (with counsel reasonably acceptable to the other), protect and hold harmless the other and the other's members, partners, Mortgagees (as defined below), officers, employees, agents and contractors (each of the other Party and each of the parties listed shall be referred to as an "Indemnified Party" and, together collectively, shall be referred to as the "Indemnified Parties") from and against any and all loss, claims, demands, costs, injuries, damages, expenses and liabilities, including fines, penalties, court costs and fees of lawyers, accountants and other professionals and experts reasonably incurred by a Party, whether incurred through settlement or otherwise, in each case whether arising before or after the termination of this Lease ("Damages"), resulting from or arising out of (a) any of its Operations or activities on the Property; (b) any negligent act or negligent failure to act by it or any other party engaged in doing work for it; (c) its breach of this Agreement; or (e) the failure to be true of any representation or warranty made by it in this Agreement. This indemnification shall survive the termination of this Agreement. This indemnification shall not apply to Damages claimed by an Indemnified Party to the extent such Damages are caused by any negligent act or omission on the part of such Indemnified Party, or any breach of this Agreement by such Indemnified Party.

(d) Ownership of Renewable Energy and Attributes; Tax Credits and Incentives. Owner hereby acknowledges and agrees that Lessee has the exclusive right to harness the Renewable Energy Resources on, around, about or at the Property and Lessee is the exclusive owner of

all Renewable Energy and related economic benefits generated by the Solar Power Facilities, including, but not limited to, any real property tax rebates or abatements, any carbon credits, any production, energy or investment tax credits, incentives, allowances and other entitlements associated with the development, construction, ownership or operation of the Solar Power Facilities, rebate payments, green tags, renewable energy credits, or tradable renewable certificates, and any other federal, state and/or local tax benefits attributable to the Solar Power Facilities, whether in effect as of the date of this Agreement or as may come into effect in the future.

(e) Title Insurance. Owner shall reasonably cooperate with the title insurance company ("Title Company"), if any, selected by Lessee to issue title insurance insuring (a) Lessee's leasehold and easement interests in the Property, and/or (b) any mortgage encumbering such leasehold and easement interests, including without limitation, executing and delivering such title affidavits and such other documents reasonably required by the Title Company.

8. Encumbrances; Mortgagee Protections; PPA Protections.

8.1 Mortgagee Protections. Lessee shall have the right at any time and from time to time, in connection with obtaining financing for Lessee's Solar Power Facilities or Operations on the Property, to mortgage, encumber or pledge (including by mortgage, deed of trust or personal property security instrument) to any Mortgagee, without the consent of Owner, all or any part of Lessee's rights and/or interests under this Agreement and/or in any Solar Power Facilities. Lessee shall also have the right at any time and from time to time, in connection with the Power Purchase Agreement entered into between Lessee and PPA Buyers (as defined in Section 8.2), to grant a security interest in all or any part of Lessee's rights and/or interests under this Agreement and/or in any Solar Power Facilities to PPA Buyers. Lessee shall promptly provide written notice to Owner of any such mortgage, encumbrance or pledge. Owner shall have the right at any time and from time to time to mortgage, encumber or pledge (including by mortgage, deed of trust or personal property security instrument) to any Mortgagee, without the consent of Lessee, all or any part of Owner's rights and interests under this Agreement and in the Property. As used herein, the term "Mortgagee" means any financial institution or other person or entity that from time to time provides secured financing to a Party, collectively with any security or collateral agent, indenture trustee, loan trustee or participating or syndicated lender, and their respective representatives, successors and assigns. Each Party agrees, within ten (10) business days of receiving a written request from the other Party, to execute an agreement with a Mortgagee requiring it to send such Mortgagee written notice of any default by the other Party under this Agreement, giving such Mortgagee the right to cure such default until such Mortgagee has completed foreclosure, and preventing it from terminating this Agreement unless such default remains uncured after foreclosure has been completed and including such other reasonable terms as may be requested by the Mortgagee. In addition, Lessee agrees to subordinate this Agreement to the interest of any Mortgagee taking a security interest in Owner's interest in the Property subject to such Mortgagee's agreement not to disturb Lessee's Operations on the Property and use of the Property as long as there is no Event of Default by Lessee, and Lessee agrees to deliver to Owner an agreement setting forth such subordination in recordable form within ten (10) business days of receiving a written request from Owner therefor. Each Party hereby consents to the recordation of the interest of any such Mortgagee in the official records of the County. Upon the termination of any mortgage, deed of trust or personal property security instrument, Mortgagee shall promptly record a release or reconveyance of the Property.

8.2 PPA Protections. Owner recognizes that Lessee has entered into: (1) a power purchase agreement with Southern California Public Power Authority ("SCPPA"), the Power and Water Resources

Pooling Authority ("PWRPA"), and the City of Lodi, a California municipal corporation ("Lodi," and together with SCPPA and PWRPA, "PPA Buyers") for the purchase and sale of energy generated from the Solar Power Facilities (the "PPA") and (2) a purchase option agreement in which Owner granted PPA Buyers an option to purchase all of its assets relating to the Solar Power Facilities, including its interest under this Agreement (the "Project Purchase Option"). Notwithstanding anything to the contrary in this Agreement, Owner: (i) consents to the grant of a security interest to PPA Buyers in all or any part of Lessee's rights and/or interests under this Agreement and/or in any Solar Power Facilities, (ii) agrees that PPA Buyers are third party beneficiary of the representations, warranties, and covenants of Owner under this Agreement, and that PPA Buyers have all of the rights and benefits of Lessee under, and the ability to enforce, this Agreement, (iii) consents to Lessee's grant of the Project Purchase Option and assignment of this Agreement to PPA Buyers following the exercise of the Project Purchase Option, (iv) agrees that PPA Buyers shall have an additional period of thirty (30) days following the expiration of Lessee's cure period afforded pursuant to Section 9.1 to step in and cure any breach or default by Lessee under this Agreement prior to termination thereof, and (v) agrees to deliver to PPA Buyers upon a request therefor an estoppel certificate certifying (A) whether this Agreement has been supplemented, amended, assigned, or subleased, and if so, the substance and manner thereof, (B) the validity and force and effect of this Agreement, (C) the existence of any default thereunder, (D) the commencement and expiration dates of this Agreement, (E) the rights of PPA Buyers under the Project Purchase Option and this Agreement, and (F) any other matters as may be reasonably requested by PPA Buyers.

9. Defaults.

9.1. Lessee Default. Each of the following events shall constitute an event of default ("Event of Default") by Lessee and shall permit Owner to terminate this Agreement and/or pursue all other appropriate remedies available at law or equity:

(a) The failure or omission by Lessee to pay amounts required to be paid hereunder when due, and such failure or omission has continued for thirty (30) days after written notice from Owner; or

(b) The failure or omission by Lessee to observe, keep or perform any other material term, agreement or condition set forth in this Agreement, and such failure or omission has continued for thirty (30) days (or such longer period of time as may reasonably be required to cure such failure or omission, if such failure or omission cannot reasonably be cured within a thirty (30) day period) after written notice from Owner; or

(c) (i) The making by Lessee of any general assignment for the benefit of creditors, (ii) the filing by or against Lessee of a petition to have Lessee adjudged a bankrupt or a petition for reorganization or arrangement under any law relating to bankruptcy (unless, in the case of a petition filed against the Lessee, the same is dismissed within sixty (60) days), (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Agreement, where possession is not restored to Lessee within ninety (90) days, or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Agreement where such seizure is not discharged within sixty (60) days; or

(d) An assignment, subletting or other transfer in violation of Section 11.3 hereof; or

(e) The repeated failure or omission by Lessee to observe, keep or perform the same material term, agreement or condition set forth in this Agreement within the applicable cure period set forth in this Section 9.1 on more than three (3) occasions in any five (5) year period.

9.2. Owner Default. Each of the following events shall constitute an Event of Default by Owner and shall permit Lessee to terminate this Agreement and/or pursue all other appropriate remedies available at law or equity:

(a) The failure or omission by Owner to pay amounts required to be paid hereunder when due, and such failure or omission has continued for thirty (30) days after written notice from Lessee;

(b) The failure or omission by Owner to observe, keep or perform any other material term, agreement or condition set forth in this Agreement, and such failure or omission has continued for thirty (30) days (or such longer period of time as may reasonably be required to cure such failure or omission, if such failure or omission cannot reasonably be cured within a thirty (30) day period) after written notice from Lessee;

(c) The repeated failure or omission by Owner to observe, keep or perform the same material term, agreement or condition set forth in this Agreement within the applicable cure period set forth in this Section 9.2 on more than three (3) occasions in any five (5) year period.

9.3. Right to Cure. At any time after a Party fails to perform any covenant or provision of this Agreement within the applicable cure period provided for in Sections 9.1 and 9.2, after notice to the defaulting Party, the other Party (or, in the case of a default by Lessee, PPA Buyers) may, but are not obligated to, cure such failure at the defaulting Party's cost, in which case the non-defaulting Party shall not have the right to terminate this Agreement if they (or the PPA Buyers, as applicable) so elect(s) to undertake such cure. If a Party or PPA Buyers, as applicable, at any time, by reason of such failure by the other Party, pays any sum or does any act, the reasonable, ascertainable and verifiable sum paid by such Party plus the reasonable, ascertainable and verifiable cost of performing such act shall be due by the defaulting Party to the curing Party or PPA Buyers, as applicable. Such amount if due from Lessee to Owner shall be additional Rent due immediately on written demand by Owner to Lessee along with evidence of the foregoing expenditures. No such payment or act shall constitute a waiver of default or of any remedy for default or render the curing Party or PPA Buyers, as applicable, liable for any loss or damage resulting from any such act.

10. Condemnation.

Should title to or possession of all of the Property be taken in condemnation proceedings or by inverse condemnation by a governmental agency, governmental body or private party under the exercise of the right of eminent domain, or should a partial taking render the remaining portion of the Property unsuitable for Lessee's use (as reasonably determined by Lessee), then this Agreement shall terminate upon such vesting of title or taking of possession. All payments (including severance damages) made on account of any total taking, partial taking or any threatened taking shall be deposited promptly with an independent third-party escrow company mutually agreed upon by the Parties. Owner shall be entitled to all portions of the award for any total or partial taking, except for any portion of the award that is attributable to the following, which shall be paid to Lessee: (a) any removal and relocation costs of the Solar Power Facilities; (b) any loss of or damage to any Solar Power Facilities; (c) the loss of use of the Property by Lessee; and (d) Lessee's lost profits, including, but not limited to,

lost revenues and damages under Lessee's power purchase agreement. Lessee shall have the right to participate in any settlement proceedings, and Owner shall not enter into any binding settlement agreement without the prior written consent of Lessee, which consent shall not be unreasonably withheld. In the event that title to or possession of part of the Property is taken in condemnation proceedings and this Agreement remains in effect, then there shall be an equitable reduction in the Rent.

11. Miscellaneous.

11.1. Ownership of Solar Power Facilities. Owner agrees that all Solar Power Facilities installed or placed on any portion of the Property by Lessee and its Permitted Successors and Assigns, whether real, personal or mixed, shall remain the property of Lessee and shall be removable by Lessee at any time, subject to Section 11.8 below. Notwithstanding the manner in which the Solar Power Facilities may be installed on the Property, or that the Solar Power Facilities may be regarded as "fixtures" or "accessions" under applicable laws, Owner acknowledges and agrees that the Solar Power Facilities shall not become a part of the real property comprising the Property, and Owner shall have no ownership interest in the Solar Power Facilities, and Owner hereby waives and disclaims any such interest. The Solar Power Facilities may not be sold, leased, assigned, mortgaged, pledged or otherwise alienated or encumbered by Owner with Owner's fee or leasehold interest to the Property. Without limiting the generality of the foregoing, Owner hereby waives any statutory or common law lien or security interest that it might otherwise have in or to the Solar Power Facilities or any part thereof; and Owner agrees that, notwithstanding the occurrence of an Event of Default under the Agreement beyond all applicable notice and cure periods (including those granted to Mortgagee), Lessee or Mortgagee (or its designee) may remove the Solar Power Facilities from the Property free and clear of any such Owner's lien or interest.

11.2. Force Majeure - Delays. Notwithstanding any other provision in this Agreement to the contrary, except for any obligation to make any payment to the Owner herein, if performance of any act required to be performed by Lessee under this Agreement is in whole or in part prevented or delayed by reason of any act of God, strike, lock-out, labor trouble, inability to secure materials, restrictive Laws, or any other cause, event or circumstance not the fault of Lessee, then Lessee, upon giving notice to Owner, shall be excused from such performance to the extent of and for the duration of such prevention, restriction or delay.

11.3. Assignments and Subleases. Except as hereinafter provided, and as provided in Section 8, this Agreement shall not be assignable by Lessee, nor shall Lessee sublease any part of the Property or allow any other party to use the Property, without the prior written consent of Owner, which consent shall not be unreasonably withheld or delayed. In addition, each of the following events (whether occurring in a single transaction or series of transactions) shall be deemed an assignment of this Agreement and shall require Owner's prior written consent, which consent shall not be unreasonably withheld or delayed: (1) any sale, assignment, issuance, transfer or change of fifty percent (50%) or more of the equity interests (whether stock, partnership interests, membership interests or otherwise) in Lessee or in the parent of Lessee, or (2) any change in the power to direct the operations of Lessee or Lessee's parent (including, without limitation, by a change in equity ownership, by contract, or by consolidation, merger, acquisition or reorganization). Notwithstanding the foregoing, Lessee shall be expressly permitted to assign this Agreement or sublease the Property without the prior written consent of Owner (but upon ten (10) days prior written notice to Owner except as to (d) below, for which written notice shall be provided to Owner promptly after such assignment or sublease) to: (a) any party that has

an Approved Rating (as defined in Section 4.2) as of the effective date of such assignment or sublease; (b) any party whose obligations under the assignment or sublease have been guaranteed to Owner by a third party that holds an Approved Rating or some other comparable security has been provided to Owner, all in a form and in an amount reasonably acceptable to Owner; (c) any party who has provided to Owner reasonably satisfactory evidence of a contracted revenue stream benefitting such assignee or sublessee that is reasonably acceptable to Owner and demonstrates its ability to meet its obligations under the assignment or sublease; (d) any Mortgagee, its successors or assigns, or any purchaser in any foreclosure sale; or (e) PPA Buyers. The leasehold interest, easements and the other rights of Lessee hereunder shall inure to the benefit of Lessee and its successors, assigns, permittees, licensees, and sublessees permitted hereunder (each, a "Permitted Successor and Assign" and collectively, "Permitted Successors and Assigns"). The burdens of the leasehold interest, easements and other rights contained in this Agreement shall run with and against the Property and shall be a charge and burden thereon for the duration of this Agreement and shall be binding upon and against Owner and its successors, assigns, permittees, licensees, lessees, employees, and agents. Neither an assignment or subletting or use of the Property by any person other than Lessee, nor the collection of rent by Owner from any person other than Lessee, shall be deemed a waiver of any of the provisions of this Section 11.3 or release Lessee from its obligation to comply with the provisions of this Agreement. No permitted assignment or subletting by Lessee shall be effective until there has been delivered to Owner a fully executed counterpart of the assignment or sublease which expressly provides that the Permitted Successor and Assign will comply with all of the provisions of this Agreement, and Owner may enforce this Agreement directly against such Permitted Successor and Assign. Any assignment or subletting in violation of this Section 11.3 shall be void and shall constitute an Event of Default under this Agreement.

11.4. No Severance of Solar Rights. Except as otherwise provided in this Agreement, no interest in any resource located on the Property and associated with the production or potential production of energy from solar power on the Property has been or will be severed from the surface estate.

11.5. No "Subordination" or Encumbrance of Fee. In no event shall Owner be required to subordinate or encumber its fee title interest in the Property or any part thereof or interest therein in connection with any encumbrance or hypothecation hereunder.

11.6. Runs With the Land. Subject only to termination as provided in this Agreement the leases and easements and any restrictions in this Agreement shall run with the land affected and shall be binding on, and inure to the benefit of, Owner and its successors and assigns and Lessee and Permitted Successors and Assigns.

11.7. Notices. All notices or other communications required or permitted hereunder, including notices to Mortgagees, shall, unless otherwise provided herein, be in writing, and shall be (a) personally delivered, (b) delivered by reputable overnight courier, (c) sent by registered or certified mail, return receipt requested and postage prepaid, or (d) transmitted by facsimile telecopy, with a copy sent on the same day by one of the other permitted methods of delivery, sent addressed to Owner at Owner's Address, to Lessee at Lessee's Address and to a Mortgagee at such Mortgagee's address as from time to time provided to Owner. Notices personally delivered shall be deemed given the day so delivered. Notices given by overnight courier shall be deemed given on the first business day following the mailing date. Notices mailed as provided herein shall be deemed given on the third business day following the mailing date. Notices transmitted by facsimile shall be deemed given upon receipt so long

as a copy is sent on the same day by one of the other permitted methods of delivery. Notice of change of address shall be given by written notice in the manner detailed in this Section 11.7.

11.8. Surrender of Property; Decommissioning.

(a) Decommissioning Period. Upon the expiration or earlier termination of this Agreement (whether or not following an Event of Default), Lessee shall peaceably and quietly leave, surrender and return the Property to Owner. Lessee agrees and hereby covenants to dismantle and remove all Solar Power Facilities owned or installed by Lessee or its affiliates on the Property (but not including any improvements in use by the grantees of any easements granted pursuant to Section 3.2 above) within six (6) months after the date of such expiration or earlier termination (the "Decommissioning Period"), and shall restore the Property to a condition, to the extent practical, and generally consistent with the conditions that existed as of the Effective Date, for agricultural uses (including, without limitation, Lessee shall remove all fixtures, equipment and non-agricultural roads, restore all compacted soil to its condition on the Effective Date, and otherwise restore the soil and the Property to the condition as existed on the Effective Date, except any improvements that have been publicly dedicated and accepted by the County); and Lessee shall have a continuing license to enter the Property for such purposes during the Decommissioning Period.

(b) Permitting Authority's Decommissioning Requirements. In addition to the terms of this Agreement, Lessee shall otherwise comply with any requirements of the CUP respecting the decommissioning and reclamation obligations for the Property, if any, and which may be imposed by the Permitting Authority at any time during the Term of this Agreement and the Decommissioning Period (including, without limitation, the posting of any letter of credit, performance bond or other security backing Lessee's decommissioning and reclamation obligations). Lessee shall pay any fees and expenses imposed, charged or incurred during the Term of this Agreement and the Decommissioning Period by the Permitting Authority in connection with the decommissioning and reclamation of the Property.

(c) Security Deposit. Lessee shall deliver to Owner, as security for the removal of the Solar Power Facilities and the restoration of the Property to the condition required under Section 11.8(a) above, one or more letters of credit (each, a "Letter of Credit") or other security, in form reasonably satisfactory to Owner (collectively, the "Removal Security") in the following amounts and in accordance with the following schedule: (a) [x] Dollars ($[x]) shall be delivered on or before the eighteenth (18th) anniversary of the Commercial Operation Date (or, if the Term has been extended pursuant to Section 4.2, on or before the first day of the twenty-fourth (24th) month preceding the expiration of the Term as so extended), and (b) [x] Dollars ($[x]) shall be delivered on or before the nineteenth (19th) anniversary of the Commercial Operation Date (or, if the Term has been extended pursuant to Section 4.2, on or before the first day of the twelfth (12th) month prior to the expiration of the Term as so extended) (such that [x] Dollars ($[x]) shall be funded on or before such date).

(d) Letter of Credit. The Letter of Credit shall be for an initial term of one (1) year, and shall be continuously renewed, extended, or replaced so that it remains in effect for the remaining Term and Decommissioning Period of this Agreement or until Lessee has completed the removal of the Solar Power Facilities and restoration of the Property in accordance with the provisions of this Agreement, whichever occurs later. Each increase in the Removal Security shall be evidenced by an amendment to the Letter of Credit which increases the amount of the then-issued Letter of Credit to the required percentage of the Removal Security set forth in Section 11.8(c) above, or by a new Letter of Credit in an amount equal to the total required percentage of the Removal Security set forth in Section

11.8(c) above. Owner shall be authorized under the Letter of Credit to make one or more drawings thereon upon certification to the issuing bank of (i) the Lessee's failure to perform its obligation to remove the Solar Power Facilities and restore the Property in accordance with the provisions of this Agreement within thirty (30) days after Owner has provided Lessee written notice to Lessee of such failure, or (ii) the Lessee's failure, within thirty (30) days after Owner has provided Lessee written notice to Lessee of such failure, to commence to perform its obligation to remove the Solar Power Facilities and restore the Property in accordance with the provisions of this Agreement within seven (7) months after the expiration or earlier termination of the Term, or (iii) the Lessee's failure to renew the Letter of Credit within thirty (30) days prior to the expiration thereof. Lessee shall notify Owner in writing upon the completion of Lessee's decommissioning and reclamation obligations, and upon receipt of such notice, Owner shall have the right to inspect the Property to confirm that the Property has been restored to the condition required under Section 11.8(a) above. The Removal Security will be returned to Lessee within thirty (30) days after Owner's confirmation that the Property has been restored to the condition required under Section 11.8(a) above. If providing a Letter of Credit to Owner shall be commercially impracticable, the Removal Security may be provided by Lessee, as reasonably approved by Owner, by one of the following methods:

(i) Performance Bond. Lessee may provide the Removal Security through a Performance Bond issued by a surety registered with the State of California Insurance Commissioner and is, at the time of delivery of the bond, on the authorized insurance provider list published by the Insurance Commissioner. The Performance Bond shall be for a term of one (1) year, shall be continuously renewed, extended, or replaced so that it remains in effect for the remaining Term and Decommissioning Period of this Agreement or until Lessee has removed the Solar Power Facilities and restored the Property, whichever occurs later. In order to ensure continuous renewal of the Performance Bond with no lapse, each Performance Bond shall be required to be extended or replaced at least one month in advance of its expiration date. Failure to secure such renewal or extension shall constitute an Event of Default by Lessee under this Agreement; or

(ii) Cash. Lessee may provide the Removal Security in cash, which shall be held by an escrow agent reasonably acceptable to Lessee and Owner pursuant to an escrow agreement among such escrow agent, Owner and Lessee (the terms of which shall be reasonably agreed to by such parties) which shall permit the investment of the cash in investments reasonably approved by Owner and shall provide for the interest on such investments to be paid to Lessee so long as there is no continuing Event of Default by Lessee hereunder. Lessee shall pay all costs of the escrow agent for such escrow.

(e) Exercise of Extended Periods. Notwithstanding the foregoing, if Lessee exercises its right to extend the Term of this Agreement pursuant to Section 4.2 (and Lessee has satisfied the Extension Conditions at the time of such exercise), any Removal Security previously posted by Lessee with Owner may be removed or shall be returned to Lessee, as applicable (since Lessee is only obligated to maintain such Removal Security with Owner during the last twenty-four (24) months of the Term as so extended). Lessee shall then be obligated to deliver the Removal Security in the amounts and time periods based on the new expiration of the Term as set forth in Section 11.8(c) above (i.e. [x] Dollars ($[x]) no later than the first day of the twenty-fourth (24^{th}) month preceding the expiration of the Term as so extended, which amount shall be increased to [x] Dollars ($[x]) no later than the first day of the twelfth (12^{th}) month preceding the expiration of the Term as so extended).

(f) No Limitation of Liability. Notwithstanding anything set forth in this Section 11.8, Lessee acknowledges and agrees that the Removal Security required to be posted by Lessee as set forth herein is security for Lessee's performance of its obligations under this Section 11.8, and that the amount of the Removal Security is not a limit on Lessee's liability for its obligations under this Section 11.8, and Lessee shall remain liable to Owner for the complete performance of Lessee's obligations under this Section 11.8 and for any costs incurred in connection with the restoration of the Property in accordance with this Section 11.8 in excess of the Removal Security. Subject to Section 8 above and the terms of any agreement with a Mortgagee as required therein, if Lessee abandons the Property and fails to restore the Property to the condition required under Section 11.8(a) above, or fails to complete the restoration of the Property to the condition required under Section 11.8(a) above prior to the expiration of the Decommissioning Period, in addition to any other rights and remedies that Owner may have under this Agreement, at Owner's election, any and all fixtures and equipment remaining on the Property shall become the property of Owner. Owner shall have the right to enter the Property and remove, recycle and/or sell any and all fixtures and equipment located on the Property, in which event Owner shall have the sole right to any proceeds in connection with such fixtures and equipment.

(g) The obligations under this Section 11.8 shall survive the expiration or earlier termination of this Agreement.

11.9. Estoppel Certificates. Each Party agrees that it shall, at any time and from time to time during the Term of this Agreement and within fifteen (15) business days after a written request by the other Party, execute, acknowledge and deliver to the requesting Party a written statement certifying that this Agreement is unmodified and in full force and effect (or modified and stating the modifications), the dates to which the payments and any other charges have been paid, and that there are no defaults existing (or that defaults exist and stating the nature of such defaults), and stating such other facts as the requesting Party may reasonably provide. The failure of a Party to deliver any such certificate within such time shall be conclusive upon such Party that this Agreement is unmodified and in full force and effect, all payments to such Party are current, there are no defaults existing, and such other facts are true and correct.

11.10. No Waiver. No waiver of any right under this Agreement shall be effective for any purpose unless it is in writing and is signed by the Party possessing the right, nor shall any such waiver be construed to be a waiver of any subsequent right, term or provision of this Agreement.

11.11. Brokerage Commissions. Each of Owner and Lessee represent to the other that such Party has not incurred, directly or indirectly, any liability on behalf of the other Party for the payment by the other Party of any real estate brokerage commission, finder's fee or other compensation to any agent, broker or finder in connection with this Agreement. Owner and Lessee do each hereby agree to indemnify, defend and hold the other Party harmless from and against any claim for any brokerage commissions, finder's fees or other compensation claimed to be due and owing by reason of the indemnifying Party's activities

11.12. Entire Agreement. This Agreement, together with its attached exhibits, contains the entire agreement between the Parties with respect to the subject matter hereof, and any prior or contemporaneous agreements, discussions or understandings, written or oral (including any options or agreements for leases and/or easements previously entered into by the Parties with respect to all or any portion of the Property), are superseded by this Agreement and shall be of no force or effect. No

addition or modification of any term or provision of this Agreement shall be effective unless set forth in writing and signed by each of the Parties.

11.13. Governing Law. The terms and provisions of this Agreement shall be interpreted in accordance with the Laws of the State applicable to contracts made and to be performed within such State and without reference to the choice of law principles of such State or any other state.

11.14. Interpretation. The Parties agree that the terms and provisions of this Agreement embody their mutual intent and that such terms and conditions are not to be construed more liberally in favor of, or more strictly against, either Party.

11.15. Partial Invalidity. Should any term or provision of this Agreement, or the application thereof to any person or circumstance, to any extent, be invalid or unenforceable, the remainder of this Agreement or the application of such term or provision to persons or circumstances other than those to which it is held invalid or unenforceable, shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by Law.

11.16. WAIVER OF RIGHT TO JURY TRIAL. TO THE EXTENT PERMITTED BY LAW, EACH OF THE PARTIES KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED ON THIS AGREEMENT, OR ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT AND ANY AGREEMENT CONTEMPLATED TO BE EXECUTED IN CONJUNCTION HEREWITH, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY HERETO. EACH OF THE PARTIES TO THIS AGREEMENT WAIVES ANY RIGHT TO CONSOLIDATE ANY ACTION IN WHICH A JURY TRIAL HAS BEEN WAIVED WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT OR HAS NOT BEEN WAIVED. THIS PROVISION IS A MATERIAL INDUCEMENT TO EACH OF THE PARTIES FOR ENTERING INTO THIS AGREEMENT. NOTWITHSTANDING THE FOREGOING, IF THIS AGREEMENT IS ASSIGNED TO PPA BUYERS, THIS PROVISION AND THE WAIVER INCLUDED HEREIN SHALL HAVE NO FORCE OR EFFECT AND THE PARTIES SHALL NOT BE BOUND BY ITS TERMS. IF THIS AGREEMENT IS SUBSEQUENTLY ASSIGNED BY PPA BUYERS TO ANOTHER PARTY, THEN THE PARTIES SHALL AGAIN BE BOUND BY ITS TERMS.

11.17. Counterparts; Facsimiles. This Agreement may be executed, and any memorandum thereof recorded, in two or more counterparts, each of which shall be deemed an original and all of which, when taken together, shall constitute one and the same instrument. Each Party shall be entitled to rely upon executed copies of this Agreement transmitted by facsimile to the same and full extent as the originals.

11.18. Attorneys' Fees. The prevailing party in any action or proceeding for the enforcement, protection, or establishment of any right or remedy under this Agreement or for the interpretation of this Agreement shall be entitled to recover its reasonable attorneys' fees and costs in connection with such action or proceeding from the non-prevailing party.

11.19. Time. Time is of the essence in connection with all provisions of this Agreement where time is a factor, provided, however, should the date for payment or performance required under this Agreement fall on a non-business day (i.e., Saturday, Sunday or any other day on which national banks in San Francisco, California are not open for business), then the date required for payment or performance under this Agreement shall be extended to the first business day following the non-business day on which such payment or performance was required.

11.20. Memorandum. The Parties shall execute and record a memorandum of this Agreement in the form attached to this Agreement as Exhibit F. The Parties shall execute an amendment to the memorandum in each instance as reasonably requested by the other Party, or if this Agreement expires or is terminated, Lessee shall execute and deliver a quit-claim in recordable form relinquishing all of its right, title and interest in and to this Agreement.

11.21. Other General Provisions. The covenants contained herein are made solely for the benefit of the Parties, and shall not be construed as benefiting any person or entity who is not a Party to this Agreement. Neither this Agreement nor any agreements or transactions contemplated hereby shall be interpreted as creating any partnership, joint venture, association or other relationship between the Parties, other than that of landlord and tenant with respect to this Agreement. The use of the neuter gender includes the masculine and feminine, and the singular number includes the plural, and vice versa, whenever the context so requires. The terms "include", "includes" and "including", as used herein, are without limitation. Captions and headings used herein are for convenience of reference only and do not define, limit or otherwise affect the scope, meaning or intent hereof.

MEMORANDUM OF
LAND LEASE

THIS MEMORANDUM OF LAND LEASE ("Memorandum") is made and entered into as of _____, 20__, by and between RE ASTORIA 2 LANDCO LLC, a Delaware limited liability company ("Owner"), and RE ASTORIA 2 LLC, a Delaware limited liability company ("Lessee").

WHEREAS:

A. On the date hereof (the "Effective Date"), the Parties have entered into a Land Lease (the "Agreement") which by its terms grants to Lessee a solar energy project lease for: renewable energy development and related rights; transmission lines and facilities; monitoring and studying of solar radiation, solar energy and gathering of other meteorological data; and access on, over, and across certain land which is more particularly described in Exhibit A attached to this Memorandum and incorporated by this reference (the "Property");

B. The term of the Agreement commences on the Effective Date and continues for a period of twenty (20) years following the Commercial Operation Date (as defined in the Agreement) (unless earlier terminated). Lessee shall have the right to extend the term of the Agreement for two (2) additional five (5) year periods and one (1) additional period of four (4) years and eleven (11) months less the number of days between the Effective Date and the Commercial Operation Date (such that the total term of the Agreement, if fully extended, does not extend beyond the date that is thirty-four (34) years and eleven (11) months following the Effective Date).

C. The Parties desire to enter into this Memorandum of Land Lease which is to be recorded in order that third parties may have notice of the interests of Lessee in the Property and of the existence of the lease and rights granted to Lessee in the Property as part of the Agreement.

NOW, THEREFORE, in consideration of the rents and covenants provided in the Agreement to be paid and performed by Lessee, Owner hereby grants to Lessee those certain rights of use on, over, under and across the Property on the terms and conditions set forth in the Agreement. All of the terms, conditions, provisions and covenants of the Agreement are hereby incorporated into this Memorandum by reference as though fully set forth herein, and the Agreement and this Memorandum shall be deemed to constitute a single instrument or document. Without limiting the generality of the foregoing, Owner hereby grants to Lessee the exclusive right to evaluate, develop and use solar energy found on, about, above, over, through and across the Property (such energy sources herein, the "Renewable Energy Resources"), together with the exclusive right to the free and unobstructed insolation and flow of the Renewable Energy Resources over the entirety of the horizontal space and the entirety of the vertical air space lying above the surface of the Property as set forth in the Agreement, including, without limitation, the exclusive right to: (i) evaluate, develop, use, convert, maintain and capture energy from the Renewable Energy Resources on, about, over and around the Property ("Renewable Energy"); (ii) develop the Renewable Energy; (iii) collect, distribute, transmit and sell the energy output from the Renewable Energy; and (iv) engage in any other uses of the Property related to the development of the Renewable Energy.

Should there be any inconsistency between the terms of this Memorandum and the Agreement, the terms of the Agreement shall prevail.

IN WITNESS WHEREOF, the Parties have executed this Memorandum of Land Lease as of the date set forth above.

12. Option Agreement for the Purchase and Sale of Real Property, dated as of February 12, 2014, by and between SiteCo, LLC and Trini Holdings, LLC, relating to parcel APN 261-213-11, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

13. Option Agreement for the Purchase and Sale of Real Property, dated as of November 8, 2013, by and between SiteCo, LLC and Mark F. Bramlette, relating to parcel APN 261-213-19, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

14. Option Agreement for the Purchase and Sale of Real Property, dated as of November 4,

2011, by and between SiteCo, LLC and The Lansing Companies, LLC, relating to parcel APN 261-211-06, as amended by that certain First Amendment to Option Agreement for the Purchase and Sale of Real Property dated as of May 11, 2012, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

15. Option Agreement for the Purchase and Sale of Real Property, dated as of July 6, 2011, by and between SiteCo, LLC and Zeneida A. Houchen, relating to parcel APN 261-213-50 (subsequently split into APN 261-213-53 and APN 261-213-54), as amended by that certain First Amendment to Option Agreement for the Purchase and Sale of Real Property dated as of April 17, 2014, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

16. Option Agreement for the Purchase and Sale of Real Property, dated as of May 29, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-12, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

17. Option Agreement for the Purchase and Sale of Real Property, dated as of June 25, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-28, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

18. Option Agreement for the Purchase and Sale of Real Property, dated as of June 25, 2012 by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcel APN 261-230-29, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

19. Option Agreement for the Purchase and Sale of Real Property, dated as of August 13, 2012, by and between SiteCo, LLC and Brooklyn Troy, LLC, relating to parcels APN 261-230-30, APN 261-230-31, APN 261-230-32, and APN 261-230-33, as assigned by the Assignment and Assumption of Option Agreement for Purchase and Sale of Real Property dated as of January 1, 2014, by and between Brooklyn Troy, LLC and The Lansing Companies, LLC, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

20. Option Agreement for Easement, dated as of November 14, 2013, by and between SiteCo, LLC and Richard W. Rauen a Successor Trustee of the Richard W. Rauen and Frances Rauen Family Trust dated February 14, 1991, relating to parcel APN 261-241-03, as assigned to RE Astoria LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria LLC dated May 20, 2014.

21. Option Agreement for the Purchase and Sale of Real Property, dated as of April 8, 2014, by and between SiteCo, LLC and Mei-Ling Properties I LLC, relating to parcel APN 261-250-27, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

22. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Richard Ong, relating to parcel APN 261-230-38, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

23. Option Agreement for the Purchase and Sale of Real Property, dated as of May 14, 2014, by and between SiteCo, LLC and Richard Ong, Patricia Gee and Thomas Ong, Sr., relating to parcel APN 261-230-39, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

24. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Thomas Ong and Teresa H. Ong, relating to parcel APN 261-230-40, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

25. Option Agreement for the Purchase and Sale of Real Property, dated as of May 12, 2014, by and between SiteCo, LLC and Gary Gee and Patricia L. Gee, as Trustees of the Gary Gee and Patricia L. Gee Family Trust, relating to parcel APN 261-230-41, as assigned to RE Astoria 2 LandCo LLC pursuant to that certain Assignment and Assumption Agreement between SiteCo, LLC and RE Astoria 2 LandCo LLC dated May 20, 2014.

<u>Unexecuted Agreed Site Control Documents</u>

1. Grant of Transmission Easement, by and between RE Astoria 2 LLC and [Redacted Third Party].

2. Grant of Transmission Easement, by and between RE Astoria 2 LLC and [Redacted Third Party].

3. Grant of Transmission Easement, by and between RE Astoria 2 LLC and [Redacted Third Party].

4. Shared Facilities Agreement, by and among RE Astoria 2 LLC and [Redacted Third Parties].

Additional Site Control Documents

1. Land Lease, by and between RE Astoria 2 LLC and RE Astoria 2 LandCo LLC.

2. Shared Fence Easement Agreement, by and between RE Astoria 2 LLC, RE Astoria LLC and _____ LandCo LLC.

3. Shared Facilities Agreement (for shared switchyard & gen-tie), by and among RE Astoria LLC, RE Astoria 2 LLC and [__].

4. Co-Tenancy Agreement (for shared switchyard & gen-tie), by and among RE Astoria LLC, RE Astoria 2 LLC and [__].

5. Joint Facilities Easement Agreement by and among RE Astoria 2 LLC, RE Astoria 2 LandCo LLC and [Redacted Third Parties].

6. One or more Access and Utility Easement Agreement(s) by and among RE Astoria 2 LLC, _____ LandCo LLC and [Redacted Third Parties].

Assignment of Effective Date Site Control Documents

1. Assignment Agreement between RE Astoria LLC and RE Astoria 2 LLC, assigning a portion of RE Astoria LLC's rights in the Effective Date Site Control Documents to RE Astoria 2 LLC.

SCHEDULE 6.5
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

SAMPLE CALCULATION OF CONTRACT PRICE

Fixed Rate: Section 6.5(a)(i)

If the CAISO Settlement Price = $25 / MWh, and:

Facility Energy = 7 MWh
Buyers' Percentage of Facility Output = 8.0%
Fixed Rate = $64 / MWh

Then, the amount payable to Seller = 7 MWh * 8.0% * ($64 / MWh – $25 / MWh) = $21.84

Fixed Rate: Section 6.5(a)(ii)

If the CAISO Settlement Price = -$25 / MWh, and:

The current Settlement Interval is an Initial Negative Interval, and:

Facility Energy = 7 MWh
Buyers' Percentage of Facility Output = 8.0%
Fixed Rate = $64 / MWh

Then the amount payable to Seller = 7 MWh * 8.0% * $64 / MWh = $35.84

Fixed Rate: Section 6.5(a)(iii)

If the CAISO Settlement Price = -$25 / MWh, and:

The current Settlement Interval is not an Initial Negative Interval, and:

Facility Energy = 7 MWh
Buyers' Percentage of Facility Output = 8.0%
Fixed Rate = $64 / MWh

Then the amount payable to Seller = 7 MWh * 8.0% * ($64 / MWh – (-25 / MWh)) = $49.84

SCHEDULE 10.3
TO POWER PURCHASE AGREEMENT,
DATED AS OF _____, 2014
BETWEEN BUYERS
AND
RE ASTORIA 2 LLC

SAMPLE CALCULATION OF RA DEFICIENCY AMOUNT

Example, for illustrative purposes only:

If:

- Commercial Operation Date = December 31, 2016
- Date Full Capacity Deliverability Status is achieved = June 30, 2017
- Net Qualifying Capacity, June 2017 = 32.53 MW
- Qualifying Capacity, June 2017 = 56.38 MW (from the CAISO NQC Solar Factors for June 2014 as shown below.)
- RA Value = $1,650 per MW of Applicable Contract Capacity per month
- Applicable Contract Capacity = 65 MW
- Percentage of Facility Output = 26.67%
- Solar NQC Factor = Monthly NQC as provided by the CAISO. The 2014 solar factors are:

Solar					NQC MW
Month	2010	2011	2012	CY 2014 Solar Factor	75
1	0.0039	0.0090	0.0125	0.84%	0.632894
2	0.0472	0.0873	0.1049	7.98%	5.986052
3	0.1558	0.1766	0.2260	18.61%	13.96092
4	0.5086	0.5821	0.7149	60.19%	45.13946
5	0.7666	0.5991	0.8378	73.45%	55.0861
6	0.8610	0.8753	0.8657	86.74%	65.05176
7	0.7931	0.8731	0.8781	84.81%	63.60863
8	0.8014	0.8567	0.7853	81.45%	61.08406
9	0.6806	0.7396	0.8034	74.12%	55.58927
10	0.4132	0.5596	0.4322	46.83%	35.12367
11	0.1211	0.0723	0.0009	6.48%	4.858566
12	0.0427	0.0357	0.0030	2.71%	2.034833

Then:

- Partial RA Factor = 32.53 MW/ 56.38 MW = 0.58
- RA Shortfall Period is January 1, 2017 through August 31, 2017
- RA Shortfall Months are January 2017 through August 2017

And:

- RA Deficiency Amount for June 2017 =

- $1,650 / MW / month * 65 MW * 86.74% * 26.67% * (1.0 – 0.58) = $10,420.51
- RA Deficiency Amount for January 2017 (for a Net Qualifying Capacity of 0 MW) = $1,650 / MW / month * 65 MW * 0.84% * 26.67% * (1.0 – 0) = $240.27

ASTORIA 2 SOLAR PROJECT
BUYERS JOINT PROJECT AGREEMENT

PARTIES

This Buyers Joint Project Agreement (this "***Agreement***") dated as of the day of , 2014 by and among the SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY, a joint powers agency and a public entity organized under the laws of the State of California ("***SCPPA***"), the POWER AND WATER RESOURCES POOLING AUTHORITY, a joint powers authority and public entity organized under the laws of the State of California ("***PWRPA***"), the CITY OF LODI, a municipal corporation ("***Lodi***"), the CITY OF CORONA, a municipal corporation (**"*Corona*"**), the CITY OF MORENO VALLEY, a municipal corporation (**"*Moreno Valley*"**), and the CITY OF RANCHO CUCAMONGA, a municipal corporation (**"*Rancho Cucamonga*"**). SCPPA, PWRPA, CORONA, MORENO VALLEY and RANCHO CUCAMONGA are each sometimes referred to as a "***Buyer***" or a "***Party,***" and collectively as "***Buyers***" or "***Parties***."

RECITALS

In connection with the development and acquisition of their respective long-term renewable energy generation resources, including energy generated by facilities employing solar energy based technologies, the Buyers have identified a potential photovoltaic based solar generation resource to be developed by RE Astoria 2 LLC, an affiliate of Recurrent Energy, LLC.

The Buyers have participated in negotiations for and are entering into the Power Purchase Agreement, dated , 2014 with RE Astoria 2 LLC (the "***Power Purchase Agreement***") for the development of a 75MW photovoltaic solar generation facility, including inverter and collection system infrastructure and related transmission and other facilities, to be located in Kern County, California (the "***Astoria 2 Solar Project***") and for the purchase by each of the Buyers of energy output of the Astoria 2 Solar Project and the associated rights and benefits thereof. The Power Purchase Agreement provides for the initial sale to the Buyers of 65 MW of the 75MW capacity of the Astoria 2 Solar Project and for the sale to the Buyers of the full 75 MW capacity of Astoria 2 Solar Project commencing January 1, 2022. The Power Purchase Agreement also provides, among others, for an acquisition alternative under which the Buyers are entitled to exercise an option to purchase the Astoria 2 Solar Project.

The Power Purchase Agreement includes provisions for SCPPA to act as Buyers' Agent, on its own behalf and for and on behalf of PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga in certain circumstances as provided in the Power Purchase Agreement, and each of the Buyers intends by this Agreement to provide the manner and means to coordinate the exercise of certain of the Buyers' rights and activities with respect to the Astoria 2 Solar Project and to authorize Buyers' Agent to provide such approvals, determinations, responses and other actions under the Power Purchase Agreement on behalf of the Buyers in order to carry out the applicable terms thereof and realize the related benefits thereunder.

1. AGREEMENT

For and in consideration of the premises and the mutual covenants and agreements hereinafter set forth and other good and valuable consideration, it is agreed by and among the Parties as follows:

2. DEFINITIONS

The meaning of capitalized terms in this Agreement not otherwise defined in context shall be as defined in Section 1.1 of the Power Purchase Agreement, which is incorporated herein by this reference.

3. BUYERS' AGENT AUTHORIZATION

3.1 In accordance with the terms and conditions of this Agreement, PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga hereby appoint and authorize SCPPA to act as the Buyers' Agent on their behalf, and SCPPA agrees to act as Buyers' Agent on its own behalf, in each case for the purpose of carrying out the duties and responsibilities of Buyers' Agent under the Power Purchase Agreement, the Option Agreement and the Land Option Agreement (collectively, the "Power Purchase and Option Agreements"), as provided in Section 5 and pursuant to Section 7 of this Agreement. SCPPA hereby accepts such appointment as Buyers' Agent and agrees to act as Buyers' Agent for and on behalf of PWRPA, Lodi, Corona, Moreno Valley and Rancho Cucamonga as well as on its own behalf, all as provided in this Agreement. Unless replaced by unanimous agreement among the Buyers, SCPPA shall serve as Buyers' Agent under

the Power Purchase and Option Agreements as provided in this Agreement throughout the Agreement Term.

3.2 In carrying out its responsibilities under the Power Purchase and Option Agreements pursuant to the terms of this Agreement, Buyers' Agent shall in all material respects observe all applicable laws, rules and regulations.

4. ESTABLISHMENT AND AUTHORIZATION OF BUYERS' JOINT PROJECT COMMITTEE

4.1 The Buyers Joint Project Committee is hereby established and authorized to act on behalf of each of the Buyers for the purposes of (a) providing coordination among the Buyers in carrying out certain collective actions as set forth in this Section 4, and (b) providing the manner and means for achieving agreement among the Buyers with respect to such collective actions.

4.2 The Buyers Joint Project Committee shall consist of representatives (each a "***Joint Committee Representative***") as follows: (a) a Joint Committee Representative from PWRPA, (b) a Joint Committee Representative from Lodi, (c) a Joint Committee Representative from Corona, (d) a Joint Committee Representative from Moreno Valley, (e) a Joint Committee Representative from Rancho Cucamonga, (f) a Joint Committee Representative from each of the five SCPPA Participating Members, and (g) a non-voting Joint Committee Representative from SCPPA. Each such Joint Committee Representative shall be entitled to cast a vote (a "***Joint Committee Vote***") as follows:

(i) The Joint Committee Representative from PWRPA shall be entitled to cast its Joint Committee Vote equal to the Joint Committee Vote Percentage for PWRPA as set forth in Appendix A, as revised pursuant to Section 4.4;

(ii) The Joint Committee Representative from Lodi shall be entitled to cast its Joint Committee Vote equal to the Joint Committee Vote Percentage for Lodi as set forth in Appendix A, as revised pursuant to Section 4.4;

(iii) The Joint Committee Representative from Corona shall be entitled to cast its Joint Committee Vote equal to the Joint Committee Vote Percentage for Corona as set forth in Appendix A, as revised pursuant to Section 4.4

(iv) The Joint Committee Representative from Moreno Valley shall be entitled to cast its Joint Committee Vote equal to the Joint Committee Vote Percentage for Moreno Valley as set forth in Appendix A, as revised pursuant to Section 4.4

(v) The Joint Committee Representative from Rancho Cucamonga shall be entitled to cast its Joint Committee Vote equal to the Joint Committee Vote Percentage for Rancho Cucamonga as set forth in Appendix A, as revised pursuant to Section 4.4

(vi) Each SCPPA Participating Member shall be entitled to cast a Joint Committee Vote which shall be equal to the Joint Committee Vote

Percentage for such SCPPA Participating Member as set forth in Appendix A, as revised pursuant to Section 4.4.

The Parties hereto acknowledge and the SCPPA Participating Members have been advised that, as set forth in Appendix A, starting on January 1, 2022 their respective Joint Committee Vote Percentages as then in effect are to be adjusted as provided in Appendix A due to the increase in the Applicable Contract Capacity under the Power Purchase Agreement from 65 MW to at least 75 MW.

4.3 SCPPA's non-voting Joint Committee Representative shall be the chairperson ("***Chairperson***") of the Buyers Joint Project Committee.

4.4 Commencing on January 21, 2022, the Joint Committee Vote Percentage set forth in Appendix A (i) for PWRPA shall be adjusted as necessary to equal PWRPA's Buyers Percentage of Facility Output as then in effect under the Power Purchase Agreement, (ii) for Lodi shall be adjusted as necessary to equal Lodi's Buyers Percentage of Facility Output as then in effect under the Power Purchase Agreement, (iii) for Corona shall be adjusted as necessary to equal Corona's Buyers Percentage of Facility Output as then in effect under the Power Purchase Agreement, (iv) for Moreno Valley shall be adjusted as necessary to equal Moreno Valley's Buyers Percentage of Facility Output as then in effect under the Power Purchase Agreement, (v) for Rancho Cucamonga shall be adjusted as necessary to equal Rancho Cucamonga's Buyers Percentage of Facility Output as then in effect under the Power Purchase Agreement, and (vi) for

each of the SCPPA Participating Members shall be adjusted to equal such SCPPA Participating Member's Applicable MW Share as then in effect under the Power Purchase Agreement. Prior to January 1, 2022, the Buyers Joint Committee Vote Percentage of each such Buyer shall be adjusted as necessary to reflect changes in such Buyer's Applicable MW Share then in effect. Appendix A shall be revised to provide for any and all such adjustments and such revised Appendix A shall become Appendix A of this Agreement in replacement of the prior Appendix A.

4.5 Each of the Buyers and, upon direction of SCPPA, each of the SCPPA Participating Members shall, within 30 days after the Parties have entered into this Agreement, give notice, each to the other, of its Joint Committee Representative on the Buyers Joint Project Committee. An alternate Joint Committee Representative may be appointed to act on behalf of any Joint Committee Representative by similar written notice in the absence of the regular Joint Committee Representative. An alternate Joint Committee Representative may attend all meetings of the Buyers Joint Project Committee but may vote only if the Joint Committee Representative entitled to vote and for whom she/he serves as an alternate is absent. Upon any SCPPA Participating Member providing its written proxy to SCPPA, SCPPA's Joint Committee Representative serving as Chairperson shall be authorized in the absence of such SCPPA Participating Member to vote by proxy for such SCPPA Participating Member on the Buyers Joint

Project Committee. Such a proxy shall be valid only for the meeting for which it is given.

4.6 The Chairperson shall be responsible for calling and presiding over meetings of the Buyers Joint Project Committee. The Chairperson shall promptly call a meeting of the Buyers Joint Project Committee at the request of any Joint Committee Representative in a manner and to the extent permitted by law. For the purpose of conducting meetings, a quorum shall exist so long as the Chairperson, together with the Joint Committee Representatives entitled to cast Joint Committee Votes (including any SCPPA vote by proxy) aggregating at least 70% of the total of Joint Committee Votes shall be present. The conducting of Buyers Joint Project Committee meetings, including voting at such meetings, may be by assembled meeting or by telephone or video conferencing, or by any combination thereof, to the extent permitted by law.

4.7 Unless all of the Buyers shall determine otherwise, the actions of the Buyers Joint Project Committee shall require the votes of at least five (5) Joint Committee Representatives having Joint Committee Votes (including any SCPPA vote by proxy), aggregating at least seventy per cent (70 %) of the total of the Joint Committee Votes.

5. RESPONSIBILITIES OF BUYERS JOINT PROJECT COMMITTEE

5.1 The Buyers Joint Project Committee shall be responsible for determining by a vote of its Joint Committee Votes as provided in Section 4.6 of this Agreement and directing the action to be taken or not taken by the Buyers'

Agent with respect to the following matters under the Power Purchase and Option Agreements:

(i) The determination of the Major Maintenance Blockout pursuant to Section 4.4(a) of the Power Purchase Agreement.

(ii) Approval of any Lien (other than Permitted Encumbrances) on any portion of the Facility or any related property or assets under Section 5.5 of the Power Purchase Agreement.

(iii) Consent to any Change in Control pursuant to Section 14.7(a) of the Power Purchase Agreement.

(iv) Providing the Proposed Purchase Notice to Seller pursuant to Section 14.25(b) of the Power Purchase Agreement.

(v) Providing administrative services relating to Buyers' rights or obligations or Buyers' Agent actions under the Power Purchase Agreement.

(vi) Any other matter or matters with respect to which any action is to be taken or not taken by Buyers' Agent pursuant to the Power Purchase Agreement or the Option Agreement which the Buyers Joint Project Committee shall have determined to be subject to its Joint Committee Vote as provided in this Section 5.1.

5.2 Each of the Buyers agrees that the vote of the Buyers Joint Project Committee with respect to each of the matters under Section 5.1 of this Agreement shall be determinative as to such matter and shall constitute the

agreement of the Buyers as to such matter for purposes of the Power Purchase and Option Agreements.

6. BUYERS JOINT ACTION

6.1 Any action provided for under the Power Purchase Agreement or this Agreement to be taken or agreed to by the Buyers collectively, including without limitation, the exercise of the Project Purchase Option for the purchase of the Facility under the Option Agreement by one or more Buyers or the purchase of the Facility by one or more Buyers pursuant to the Right of First Offer under Section 14.25 of the Power Purchase Agreement, together with the termination of the Power Purchase Agreement, shall be agreed to by the Buyers pursuant to the separate authorization of such action by each Buyer.

6.2 In the event that Buyers collective action pertains to the exercise of the Project Purchase Option under the Option Agreement for the purchase of the Facility or the purchase of the Facility pursuant to the Right of First Offer under Section 14.25 of the Power Purchase Agreement, the authorization of such action shall include, in addition to the termination of the Power Purchase Agreement, the following:

(i) In the event that each Buyer agrees to purchase a percentage ownership interest in the Facility equal to its Buyer Percentage Facility Output, the Buyers will enter into a joint ownership and operation agreement with respect to the Facility;

(ii) In the event that one or more Buyers agree to purchase ownership interests in the Facility, and the other Buyer or Buyers determine to continue its or their purchase of Facility Energy, Capacity Rights and associated products, services and attributes (the "Facility Output") with respect to the Facility or otherwise determine to terminate its or their participation in the Astoria 2 Solar Project, the Buyer (if only one) that agrees to purchase the Facility will proceed with its purchase of the Facility, and the Buyers (if two or more) that agree to purchase the Facility will enter into a joint ownership and operation agreement providing for the purchase by each such Buyer of an ownership interest in the Facility, and the Buyer or Buyers that determine to retain its or their Facility Output with respect to the Facility will enter into an agreement or agreements for the purchase by such Buyer or Buyers of its or their respective proportionate shares of the Facility Output in accordance with its or their respective Buyer Percentage of Facility Output, which agreement or agreements shall be on terms and conditions that are substantially similar to those in the Power Purchase Agreement, including with respect to price and the remainder of the term; and

(iii) In the event of the purchase of the Facility by two or more Buyers, unless otherwise determined by the Buyers purchasing the Facility, such a joint ownership and operation agreement shall provide that

the Buyers purchasing ownership interests in the Facility shall do so as tenants in common.

7. RESPONSIBILITIES OF BUYERS' AGENT; PAYMENT OF COSTS

7.1 Buyers' Agent shall have and carry out the following duties and responsibilities under this Agreement:

(i) Buyers' Agent shall comply with the vote of the Buyers Joint Project Committee with respect to each matter as provided under Section 5 of this Agreement and shall take or not take such action, as applicable, under the Power Purchase Agreement or the Option Agreement with respect to such matter in accordance with such vote of the Buyers Joint Project Committee.

(ii) Buyers' Agent shall, in accordance with a determination by Buyers' Agent as to compliance with Prudent Utility Practices, take (or not take) such actions as are reposed in Buyers' Agent pursuant to the Power Purchase Agreement or the Option Agreement, other than the actions with respect to the matters to be determined by vote of the Buyers Joint Project Committee as provided under Section 5 of this Agreement.

(iii) Buyers' Agent shall promptly provide the Buyers Joint Project Committee and each of the Joint Committee Representatives with any information that may materially affect or which shall have materially affected the matters referred to in Section 5 or in this Section 7 of this Agreement, and shall provide the Parties with

copies of material notices, studies, reports, and other materials received by Buyers' Agent from the Seller pursuant to the Power Purchase Agreement or the Option Agreement. Buyers' Agent shall provide the Parties with copies of all such notices , studies, reports, and other materials upon reasonable request of a Party.

(iv) Buyers' Agent shall arrange for and provide to the Buyers Joint Project Committee any available studies, supplies or services as requested by the Buyers Joint Project Committee in connection with its consideration of any of the matters referred to in Section 5 of this Agreement.

(v) Buyers' Agent, in performing its activities under this Agreement and the Power Purchase and Option Agreements may use its own employees, equipment and facilities or arrange and contract for the performance thereof by other entities.

(vi) Buyers' Agent shall prepare and submit to the Buyers Joint Project Committee its estimates of costs to be incurred in connection with its performance of activities as Buyers' Agent as provided in Section 5 or pursuant to this Section 7 of this Agreement and under the Power Purchase and Option Agreements.

(vii) Buyers' Agent shall furnish upon request by the Buyers Joint Project Committee or any Joint Committee Representative any other reasonable assistance or services and any information

reasonably available pertaining to the matters to be considered by the Buyers Joint Project Committee.

(viii) In performing its activities and responsibilities as provided in Section 5 or pursuant to this Section 7 of this Agreement and under the Power Purchase and Option Agreements, Buyers' Agent shall comply in all material respects with any and all applicable laws and regulations.

7.2 From time to time, and at such times (not more than monthly) as the Buyers' Agent shall determine, Buyers' Agent shall submit to each Buyer a request and requisition for payment by such Buyer of its proportionate share equal to its Buyer Percentage of Facility Output of costs and expenses incurred, or to be incurred, by the Buyers' Agent. Each Buyer shall pay or cause to be paid the amount of such request and requisition within 30 days after receipt thereof. If a Party fails to pay any such request or requisition when due, interest shall accrue, to the extent permitted by law, at a rate equal to the Interest Rate as defined in the Power Purchase Agreement until payment is made. At such reasonable times as shall be requested by a Buyer or Buyers, the books and cost records of the Buyers' Agent relevant to its costs and expenses shall be subject to audit by or on behalf of such Buyer or Buyers, at such Buyer or Buyers' sole cost and expense.

7.3 Buyers' Agent shall not receive any profit for performance of activities under this Agreement, the Power Purchase Agreement or the Option

Agreement, except that Buyers' Agent shall be permitted to recoup any reasonable costs and expenses associated with the performance of such activities under the Power Purchase Agreement, the Option Agreement and hereunder.

8. LIABILITY

8.1 The Parties agree that neither any Buyer or the Buyers' Agent nor any of their respective past, present or future directors, officers, employees, board members, agents, attorneys or advisors (collectively, the "***Released Parties***"), shall be liable to any other of the Released Parties for any and all claims, demands, liabilities, obligations, losses, damages (whether direct, indirect or consequential), penalties, fines, actions, loss of profits, judgments, orders, suits, costs, expenses (including attorneys' fees and expenses) or disbursements of any kind or nature whatsoever in law, equity or otherwise suffered by any Released Party as a result of the action or inaction, or performance or non-performance, by any of the Released Parties under this Agreement, the Power Purchase Agreement or the Option Agreement (excluding gross negligence or willful misconduct which, unless otherwise agreed by the Parties, is to be determined and established by a court of competent jurisdiction in a final, nonappealable order). Each Party shall release each of the other Released Parties from any claim or liability that such Party may have cause to assert as a result of any action or inaction, or performance or non-performance, by the Released Parties under this Agreement, the Power Purchase Agreement or

the Option Agreement (excluding gross negligence or willful misconduct which, unless otherwise agreed by the Parties, is to be determined and established by a court of competent jurisdiction in a final, nonappealable order). Notwithstanding the foregoing, no such action or inaction, or performance or non-performance, by any of the Released Parties shall relieve any Party from its respective obligations under this Agreement, the Power Purchase Agreement or the Option Agreement, including such Party's obligation to make payments required under this Agreement, the Power Purchase Agreement or the Option Agreement. In no event shall the provisions of this Section 8.1 be construed so as to relieve the Buyers' Agent from any obligation under this Agreement, the Power Purchase Agreement or the Option Agreement. It is also hereby recognized and agreed that no officers, employees, board members, agents, attorneys or advisors of any of the Released Parties shall be individually liable in respect of any undertakings by any of the Released Parties under this Agreement, the Power Purchase Agreement or the Option Agreement.

8.2 The exculpation provision set forth in Section 8.1 hereof shall apply to all types of claims or actions including, but not limited to, claims or actions based on contract or tort. Notwithstanding the foregoing, a Party may protect and enforce its rights under this Agreement by a suit or suits in equity for specific performance of any obligation or duty of any other Party, and Buyers' Agent may enforce by any legal means its right to payment for its costs in accordance with the terms of this Agreement.

9. RELATIONSHIP OF THE PARTIES

9.1 The covenants, obligations and liabilities of the Parties are intended to be several and not joint or collective and nothing herein contained shall ever be construed to create an association, joint venture, trust, partnership or other legal entity, or to impose a trust or partnership covenant, obligation or liability on or with regard to any of the Parties. Each Party shall be individually responsible for its own covenants, obligations and liabilities under this Agreement.

10. INDEMNITY AND RELATED MATTERS

10.1 SCPPA in its capacity as Buyers' Agent under this Agreement shall be entitled to indemnification from the Buyers as set forth herein. To the extent permitted by law, each Buyer shall, proportionately in accordance with its Buyer Percentage of Facility Output, indemnify and hold harmless the Buyers' Agent and its officers, employees, agents, attorneys and advisors, past, present or future, when acting for the Buyers' Agent (collectively, "***Buyers' Agent Indemnitees***"), from and against any and all claims, demands, liabilities, obligations, losses, damages (whether direct, indirect or consequential), penalties, actions, loss of profits, judgments, orders, suits, costs, expenses (including attorneys' fees and expenses) or disbursements of any kind or nature whatsoever in law, equity or otherwise (collectively, "***Losses***") arising by reason of any actions, inactions, errors or omissions of Buyers' Agent incident to the performance of this Agreement (including negligent acts or omissions and

excluding gross negligence or willful misconduct which, unless otherwise agreed by the Parties, is to be determined and established by a court of competent jurisdiction in a final, nonappealable order) on the part of Buyers' Agent Indemnitees. At Buyers' Agent's option, one or more Buyers shall defend Buyers' Agent Indemnitees from and against any and all Losses. If one or more Buyers, with the Buyers' Agent's consent, shall defend any Buyers' Agent Indemnitee, the Buyers' Agent shall approve the selection of counsel, and the Buyers' Agent shall further approve any settlement or disposition, such approval not to be unreasonably withheld. For the avoidance of doubt, all payments as and for indemnification by the Buyers under this Section 10.1, together with any other amount payable by the Buyers under this Section 10.1, shall constitute the individual costs of the Buyers under this Agreement.

10.2 For purposes of this Agreement, the rights, entitlements, obligations and liabilities of SCPPA, as Buyers' Agent under this Agreement and the Power Purchase and Option Agreements shall not apply to or otherwise be affected by, and shall be deemed and interpreted to be legally separate from, the rights, entitlements, obligations, and liabilities of SCPPA as a Buyer under this Agreement and the Power Purchase and Option Agreements.

11. DISPUTES

11.1 Dispute or Claim. Any action, claim or dispute which any Party may have against another Party or Parties arising out of or relating to this Agreement

or the transactions contemplated hereunder, or the breach, termination or validity thereof ("Dispute") shall be submitted in writing to the other Parties. The written submission of any Dispute shall include a concise statement of the question or issue in dispute together with a statement listing the relevant facts and documentation that support the claim.

11.2 Good Faith Resolution. The Parties agree to cooperate in good faith to attempt to achieve an expeditious resolution of such a Dispute. Pending resolution of such Dispute, unless otherwise provided for under this Agreement, the Parties shall proceed diligently with the performance of their respective obligations pursuant to the terms of this Agreement.

11.3 Informal Negotiation. The Parties shall first attempt in good faith to resolve any Dispute through informal negotiations by the Joint Committee Representatives.

11.4 Arbitration. In the event the Parties are unable to resolve the Dispute through informal negotiations as described above, the Parties may elect to pursue the mediation of the Dispute by a mutually agreeable mediator. If the Parties so choose the parties may elect to voluntarily pursue arbitration pursuant to the rules of the Judicial Arbitration and Mediation Service (JAMS) or American Arbitration Association (AAA), or any other method chosen by the Parties, subject to the express prior written agreement of both Parties. Such written agreement may include the guidelines agreed upon by the Parties to be followed by the Parties in such arbitration or dispute resolution prior to the commencement of such arbitration. No

Party shall be obligated to pursue arbitration over any other method of dispute resolution.

11.5 Litigation Rights. In the event the Parties are unable to satisfactorily resolve the Dispute within 30 days from the receipt of notice of the Dispute, subject to any extensions of time as may be mutually agreed upon in writing, or any arbitration or other agreement, any Party may initiate litigation in a court of law with jurisdiction located in Los Angeles County, California, which shall be the exclusive venue to litigate disputes.

11.6 No Attorneys Fees. In the event any action is brought at law or in equity in any court or through any alternative dispute resolution process to enforce any provision of this Agreement, or for damages by reason of any alleged breach of this Agreement, the Parties mutually agree that each Party to this Agreement shall bear its own attorneys fees and costs.

12. GOVERNING LAW

This Agreement was made and entered into in the State of California and shall be governed by, interpreted and enforced in accordance with the laws of the State of California, without regard to conflict of law principles.

13. REPRESENTATION AND NOTICES

13.1 The Parties acknowledge that each Party was represented by counsel in the negotiation and execution of this Agreement, and any uncertainty or ambiguity in this Agreement shall not be interpreted against a Party on the basis that the Party drafted the language, but shall be interpreted according to the application of the rules on interpretation of contracts.

13.2 Any notice, demand, requisition or request shall be in writing and shall be deemed properly served, given or made if delivered in person or sent by registered or certified mail, postage prepaid, to the persons specified below:

14. SEVERABILITY.

In case any one or more of the provisions of this Agreement shall for any reason be held to be illegal or invalid by a court of competent jurisdiction, it is the intention of each of the Parties hereto that such illegality or invalidity shall not affect any other provision hereof, but this Agreement shall be construed and enforced as if such illegal or invalid provision had not been contained herein unless a court holds that the provisions are not separable from all other provisions of this Agreement.

15. AMENDMENTS

The Parties acknowledge and agree that any amendment to this Agreement shall be in writing and duly executed by the Parties.

IN WITNESS WHEREOF, the Parties hereto have duly caused this Agreement to be executed on their respective behalves by their duly authorized representatives.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E. Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: APPROVAL OF SECOND AMENDMENT TO THE CONFIRMATION FOR SCHEDULING AND SETTLEMENT SERVICES WITH NOBLE AMERICAS ENERGY SOLUTIONS

RECOMMENDED ACTION

Recommendations:

1. Approve the Second Amendment to the Confirmation for Scheduling and Settlement Services with Noble Americas Energy Solutions.

2. Authorize the City Manager to execute the Amendment

SUMMARY

All electric utilities in the State are required to submit daily schedules of their electric load to the California Independent System Operator (CAISO), the agency responsible for the operation of the State's power grid. Noble Americas Energy Solutions submits these schedules on behalf of MVU. At the end of each month, Noble analyzes the CAISO charges associated with the daily schedules, and "settles" these charges" with the CAISO.

This report recommends approval of an Amendment that extends the Scheduling and Settlement Services provided by Noble Americas Energy Solutions for an additional two years.

DISCUSSION

In 2009, a RFP for Scheduling and Settlement Services was issued; Noble Americas Energy Solutions was the low bid and the City executed a Confirmation for those services with Noble. The existing Confirmation expires on June 30, 2014. Because of the recent execution of several power and capacity agreements with multiple suppliers, it was the desire of staff to maintain scheduling and settlement services with the existing vendor.

Staff was able to negotiate the following with Noble Americas Energy Solutions in exchange for a two-year extension of the Confirmation:

- A reduction in the premium paid for energy purchased of $0.20 per MWh, which is estimated to save the utility approximately $2,200 per month.

- The addition of two services for no additional charge:

    - The use of a software that will assist staff in managing risks inherent in purchasing energy in the spot market, and also generating reports regarding market prices, trend analyses, weather forecasts, and usage analysis. In addition, this service will provide regulatory and legislative updates pertinent to the utility. The cost of this service typically averages $0.50 - $0.75 per MWh, which is approximately $5,500 per month for a client the size of MVU.

    - Qualified Reporting Entity Services – Noble Americas Energy Solutions will work with MVU staff to register large solar systems that are installed within MVU's service territory with the Western Renewable Energy Generation Information System (WREGIS), the agency responsible for tracking renewable generation in the State. The cost of this service is approximately $500.00.

- The monthly service fee will increase from $7,500 per month to $7,750 per month in FY 14/15 and to $8,000 per month in FY 15/16.

The Purchasing Division is in agreement with the extension provided that a RFP will be conducted prior to expiration of the Confirmation in June 2016.

ALTERNATIVES

1. Approve the Second Amendment to the Confirmation for Scheduling and Settlement Services with Noble Americas Energy Solutions. Staff recommends this alternative.
2. Do not approve the Second Amendment to the Confirmation for Scheduling and Settlement Services with Noble Americas Energy Solutions. Staff does not

recommend this alternative. *The City could potentially pay more for scheduling, settlement, and risk mitigation services*.

FISCAL IMPACT

The costs associated with scheduling and settlement services are currently paid out of operating revenues, and are part of purchased power costs.

Description	Fund	GL Account No.	Type (Rev/Exp)	FY 14/15 Budget	Proposed Adjustments	FY 14/15 Amended Budget
Purchased Power	6010	6010-70-80-45510-710110	Exp	$9,316,046	0	$9,316,046

CITY COUNCIL GOALS

POSITIVE ENVIRONMENT

The reduction in fees for scheduling and settlement services contributes to the positive financial stability of the utility and helps to foster a positive environment in the community.

ATTACHMENTS

Attachment 1 – Second Amendment to the Confirmation for Scheduling and Settlement Services

Prepared By:
Jeannette Olko
Electric Utility Division Manager

Department Head Approval:
Ahmad R. Ansari, P.E.
Public Works Director/City Engineer

This page intentionally left blank.

SECOND AMENDMENT to the
CONFIRMATION FOR SCHEDULING & SETTLEMENT SERVICES AND
DAY AHEAD INDEX ELECTRICITY
Between Noble Americas Energy Solutions LLC ("Seller")
And
City of Moreno Valley (Moreno Valley Utility) ("Buyer")
As of December 22, 2009 ("Confirmation Date")
Amendment Effective Date: June 10, 2014

This Second Amendment ("Amendment") is made and entered into by and between Seller and Buyer in accordance with the terms of the Master Power Purchase and Sale Agreement between Buyer and Seller dated February 10, 2004 (the "Agreement"). Effective upon the Amendment Effective Date, Buyer and Seller hereby agree to amend that certain Confirmation for Scheduling & Settlement Services and Day Ahead Index Electricity between Buyer and Seller dated as of December 22, 2009, as amended by the Amendment to the Confirmation for Scheduling & Settlement Services and Day Ahead Index Electricity dated as of May 22, 2013 (the "Original Confirmation").

For good and sufficient consideration, including the mutual covenants set forth in this Amendment, all of the following terms, conditions, covenants and representations set forth in this Amendment are hereby incorporated by reference as part of the Original Confirmation, which together shall hereafter constitute the "Confirmation."

I. The Original Confirmation is hereby amended as follows:

A. Section 1 is deleted in its entirety and replaced with the following:

"**1. PRODUCT.** The Contract Price(s) for Electricity set forth in this Confirmation include each component in the table set forth below that is indicated by an [X], which are referred to herein collectively as "Electricity."

ELECTRICITY:	
(Generation Components)	
☒	Electric Energy
(Other)	
☒	Scheduling Coordinator Services
☒	Settlement Services
☒	PowerFolio Services
☒	Qualified Reporting Entity (QRE) Services

Scheduling Coordinator Services includes:
Physical bidding and scheduling of interval usage with the applicable scheduling authority
Physical scheduling of term and spot supply contracts with scheduling authority
Ancillary services bidding and scheduling

Settlement Services includes:
Settlement reconciliation with bilateral suppliers
Reconciliation with the applicable Transmission Provider for energy
Settlement reconciliation detail (Shadow Settlement) to Buyer

PowerFolio Services includes:
Those services more fully described in the Schedule for PowerFolio Services attached hereto as Exhibit A, under the terms and conditions set forth therein and made a part hereof

Qualified Reporting Entity (QRE) Services includes:
Those services more fully described in the Qualified Reporting Entity Services Schedule attached hereto as Exhibit B, under the terms and conditions set forth therein and made a part hereof"

B. Section 2 is amended by deleting the table of Delivery Periods in its entirety and replacing it with the following:

Initial Delivery Period (Start Date – End Date)	January 1, 2010 – December 31, 2011
Renewal Delivery Period 1	January 1, 2012 – December 31, 2012
Renewal Delivery Period 2	January 1, 2013 – December 31, 2013
Renewal Delivery Period 3	January 1, 2014 – June 30, 2014

Renewal Delivery Period 4	July 1, 2014 – June 30, 2015
Renewal Delivery Period 5	July 1, 2015 – June 30, 2016

C. Section 4.1 is amended by deleting the table therein in its entirety and replacing it with the following:

Index Price (in $/MWh)	Adder (in $/MWh)	Monthly Service Fee
CAISO Day Ahead Locational Marginal Price for the Delivery Point as published at www.caiso.com	$0.85 (Jan 10 – Jun 14) $0.65 (Jul 14 – Jun 16)	Jan 10 – Dec 10 = $6,500 Jan 11 – Dec 11 = $6,750 Jan 12 – Dec 12 = $7,000 Jan 13 – Dec 13 = $7,250 Jan 14 – Jun 14 = $7,500 Jul 14 – Jun 15 = $7,750 Jul 15 – Jun 16 = $8,000

D. Exhibit A and Exhibit B to this Amendment shall be incorporated into the Confirmation, respectively, as Exhibit A and Exhibit B thereto.

II. All capitalized terms used, but not defined, in this Amendment shall have the meanings set forth in the Agreement and Confirmation. As modified by this Amendment, the Confirmation shall remain in full force and effect.

III. This Amendment may be executed in counterparts, each of which shall be an original and all of which taken together shall constitute one and the same agreement. The Parties agree that if, a copy of this Amendment is executed by a Party and transmitted to the other Party by facsimile, the copy received shall be deemed for all legal purposes to be an original executed by the transmitting Party.

IN WITNESS WHEREOF, the authorized representatives of the Parties have executed this Amendment as of the Amendment Effective Date.

For SELLER:
NOBLE AMERICAS ENERGY SOLUTIONS LLC

By: _____

Title: _____

For BUYER:
CITY OF MORENO VALLEY (MORENO VALLEY UTILITY)

By: _____

Title: _____

Exhibit A

Schedule for PowerFolio Services
Reference:
MASTER POWER PURCHASE AND SALE AGREEMENT
Between Noble Americas Energy Solutions LLC ("Seller")
And City of Moreno Valley (Moreno Valley Utility) ("Buyer")
As of February 10, 2004 ("Effective Date")

Confirmation Date: December 22, 2009
Schedule Date: June 24, 2014

This Schedule for PowerFolio Services (the "Schedule") supplements the attached Confirmation ("Confirmation") under the Master Power Purchase and Sale Agreement referred to above ("Agreement"). As supplemented by this Schedule, all existing terms and conditions set forth in the Agreement and Confirmation shall remain in full force and effect. This Schedule shall apply to Buyer's Facilities that are governed by the attached Confirmation ("Buyer's Portfolio"). Capitalized terms not otherwise defined in this Schedule shall have the meanings set forth in the Agreement or the attached Confirmation. The Parties hereby agree to the following terms and conditions.

1. Service Overview

   The PowerFolio service is designed to facilitate a collaborative process between Seller and Buyer to manage the electricity requirements associated with Buyer's Portfolio. This service includes analysis of electricity cost risk associated with Buyer's Portfolio, strategy development, administration and support. The PowerFolio service includes monthly reporting on usage, costs, and hedge position as well as monthly cost forecast of Buyer's Portfolio. Seller will develop and present strategies to Buyer to assist in the management of electricity cost risk associated with Buyer's Portfolio.

2. PowerFolio Service

   Portfolio Analysis: Seller will review Buyer's electricity usage, hedged and incremental volumes, and consumption forecast for Buyer's Portfolio to provide a statistical and graphical portfolio analysis. Buyer data gathered may include the following:
   - Usage demand breakout for each supply delivery point :
   - Historical consumption;
   - Current contract status;
   - Current procurement procedure; and
   - Muni load expansion forecast.

   Portfolio Management Reporting: Standard reporting may include the following:
   - Market Reporting
     - Market Report
       - Market Price Movement
       - Trend Analyses
       - Weather forecast
     - Regulatory Update
       - Update on certain regulatory and legislative developments

   - Portfolio Reporting - Monthly Reports of Key Performance Indicators
     - Usage Analysis - actual vs. contract, % volumetric deviation, consumption charts, costs incurred from usage imbalance
     - Open Position Summary – hedged, day-ahead index, and un-hedged volumes and % hedged in tabular and graphical formats
     - Price Outcome Summary – shows the contribution of fixed price volumes, index volumes, adder components, and taxes to the invoiced monthly price and performance to Buyer defined benchmarks (i.e. YOY, default tariff, budget, etc.)
     - Weighted average fixed price vs. average day-ahead index and average real-time index prices
     - Key Performance Indicator and Budget Analysis Report

   Assessment of Buyer's Risk Profile and Market View: Buyer and Seller will work together to define program constraints and/or business rules of engagement (i.e. term limits, min/max volumetric percentages, risk limits, etc.). Customer defined inputs may include procedures for setting budgets or cost targets for current and future years.

Hedging Strategy Development: Seller will work with Buyer to structure a measurable and systematic electricity procurement strategy that incorporates Buyer's goals and constraints in meeting the electricity requirements associated with Buyer's Portfolio. The Hedging Strategy may incorporate a layered hedging approach, trigger and stop losses open orders, or other product Buyer elects to execute. Buyer and Seller will use modeling tools that provide on-going scenario analysis with a "line-of-sight" into the expected, best, and worst case outcomes of a given strategy. Hedging Strategy will be implemented based upon mutual agreement of the Buyer and Seller. Characteristics of the standard Hedging Strategy model may include:

- **Volumetric Hedging targets**
  - Developed based on Buyer's business rules and objectives
  - Allows for volumetric sensitivity to a market outlook
  - Seller can provide a historic analysis depicting the "what-if" for each control region
- **Scenario Analysis depicting the best/worst case outcomes of the strategy**
  - Calculation is based on price volatility and volumetric commitments
  - Analysis to provide a Value @ Risk (VaR) computation, defined to a customer specified confidence interval
- **Sensitivity Adjustment**
  - Based on Buyer's commitment at the defined triggers and stop-losses
- **Stand Alone Cash Flow @ Risk**
  - Risk assessment by zone
- **Quarterly portfolio review call**
  - Quarterly call to review results reports, forecast updates, and risk valuation as it relates to effectiveness of strategy, market development and potential impacts
- **OPTIMIZATION**
  - Calculates the most efficient hedge percentages to achieve budgetary and/or risk limit objective.
- **Trend Query**
  - Dynamic analysis of historical, real time, and forward market price movement
    - Includes wholesale power, natural gas, heat rates, and coal indices.

The Parties acknowledge that certain reports and analysis tools are provided via a password protected web-based portal.

3. DISCLAIMER

THE PRICES, STRUCTURES, STRATEGIES, MARKET DATA OR OTHER INFORMATION ("INFORMATION") PROVIDED PURUSANT TO THIS SCHEDULE ARE INTENDED FOR INFORMATION PURPOSES ONLY. NO RECOMMENDATION AS TO THE VALUE OF, OR ADVISABILITY OF TRADING, ANY COMMODITY WAS INTENDED OR IS TO BE IMPLIED BY PROVIDING THIS INFORMATION, AND NO REPRESENTATION IS MADE THAT THE INFORMATION PROVIDED IS SUITABLE FOR ANY PARTICULAR PURPOSE OR USE, OR FREE FROM ERROR. BY PROVIDING THE INFORMATION, SELLER IS NOT ACTING AS YOUR "COMMODITY TRADING ADVISOR" UNDER THE COMMODITY EXCHANGE ACT. ANY COMMODITY STRATEGY OR DECISION EXERCISED OR MADE AT ANY TIME BY THE RECIPIENT IS AT ITS SOLE DISCRETION, RESPONSIBILITY AND RISK, REGARDLESS OF WHETHER OR NOT SUCH STRATEGY OR DECISION IN ANY WAY IS BASED ON, DERIVED FROM OR OTHERWISE RELIES UPON THE INFORMATION.

Exhibit B

QUALIFIED REPORTING ENTITY SERVICES SCHEDULE

This Qualified Reporting Entity Services Schedule (this "Schedule") is entered into by and between Noble Americas Energy Solutions LLC ("NES") and City of Moreno Valley (Moreno Valley Utility) ("Counterparty"; NES and Counterparty may be referred to individually herein as "Party" and collectively as "Parties") as of May 5, 2014, with reference to the following:

WHEREAS, NES and Counterparty are parties to the Transaction set forth in the Confirmation dated December 22, 2009, as amended, and NES has agreed to provide QRE Services as partial consideration associated with the Transaction; and

WHEREAS, Counterparty represents to NES that it owns or otherwise has the rights to all or part of the non-energy attributes of the generation from that certain electric generation facility more particularly described on Exhibit A hereto (the "Facility"), or other rights respecting the Facility itself enabling it to lawfully enter hereinto; and

WHEREAS, the Western Renewable Energy Generation Information System ("WREGIS") is a system used to track quantities of renewable energy generation generated by electric generating facilities pursuant to WREGIS Terms of Use ("TOU"); and

WHEREAS, WREGIS requires that each Facility have a designated Qualified Reporting Entity ("QRE"); and

WHEREAS, Counterparty is an Account Holder in WREGIS and wishes to register the Facility with WREGIS; and

WHEREAS, Counterparty wishes to retain NES to act as its WREGIS-defined QRE for the Facility.

NOW THEREFORE, in consideration of the mutual promises herein contained, the Parties agree as follows:

1. Definitions; Rules of Construction.

1.1. Initially capitalized terms used and not otherwise defined herein are defined in the Operating Rules or in Attachment 1 of the WREGIS TOU.

1.2. "Affiliate" means, with respect to any entity, each entity that directly or indirectly controls, is controlled by, or is under common control with, such designated entity, with "control" meaning the possession, directly or indirectly, of the power to direct management and policies, whether through the ownership of voting securities or by contract or otherwise.

1.3. "Business Day" means a day of the week other than Saturday, Sunday, or a federal holiday.

1.4. "Electric System Authority" means each of NERC, WECC, WREGIS, an RTO, a regional or sub-regional reliability council or authority, and any other similar council, corporation, organization or body of recognized standing with respect to the operations of the electric system in the WECC region.

1.5. "FERC" means the Federal Energy Regulatory Commission.

1.6. "Facility" is defined in the recitals to this Schedule.

1.7. "Monthly Generation Extract File" means a data file that contains generation Data from Counterparty's Points of Metering and conforms to the characteristics and requirements set forth in the WREGIS Interface Control Document for Qualified Reporting Entities.

1.8. "NERC" means the North American Electric Reliability Corporation.

1.9. "Points of Metering" means the points at which electric generation is measured.

1.10. "QRE" means a WREGIS-defined Qualified Reporting Entity.

1.11. "Renewable" is defined in Section 2 of the WREGIS Operating Rules.

1.12. "Requirements of Law" means any applicable federal, state and local law, statute, regulation, rule, code or ordinance enacted, adopted, issued or promulgated by any federal, state, local or other governmental authority or regulatory body (including those pertaining to electrical, building, zoning, environmental and occupational safety and health requirements).

1.13. "Settlement Estimation Procedures" means a calculation based on standard utility estimation rules using algorithms developed and approved by NES.

1.14. "Wholesale Generation Also Serving On-Site Loads" is defined in Section 2 of the WREGIS Operating Rules.

1.15. "WECC" means the Western Electricity Coordinating Council.

1.16. "WREGIS" means the Western Renewable Energy Generation Information System.

1.17. "WREGIS Certificate" or "Certificate" means "Certificate" as defined by the WREGIS Operating Rules.

1.18. "WREGIS Operating Rules" means the operating rules and requirements adopted by WREGIS, including the TOU.

1.19. General Rules of Interpretation. Unless otherwise required by the context in which any term appears, (a) the singular includes the plural and vice versa; (b) references to "Articles," "Sections," "Schedules," "Annexes," "Appendices" or "Exhibits" are to articles, sections, schedules, annexes, appendices or exhibits hereof; (c) all references to a particular entity or an electricity market price index include a reference to such entity's or index's successors; (d) "herein," "hereof" and "hereunder" refer to this Schedule as a whole; (e) all accounting terms not specifically defined herein shall be construed in accordance with generally accepted accounting principles consistently applied; (f) the masculine includes the feminine and neuter and vice versa; (g) "including" means "including, without limitation" or "including, but not limited to"; (h) all references to a particular law or statute mean that law or statute as amended from time to time; and (i) the word "or" is not necessarily exclusive.

1.20. Compliance with Requirements of Law. Counterparty agrees to conduct itself and operate the Facility or cause the Facility to be operated in accordance with all Requirements of Law and all requirements of all applicable Electric System Authorities.

2. Term and Termination.

2.1. This Schedule shall be effective during the term of the Transaction Confirmation.

3. QRE Services.

3.1. Conditions to QRE Services. NES will, on the terms set forth herein, serve as a QRE for the Facility so long as the Facility meets the definition of Renewable and is equipped with meters that meet all applicable WREGIS requirements.

3.2. Compensation to NES. NES will provide QRE services to Counterparty during the term of the Transaction Confirmation at a monthly reporting fee of zero United States Dollars (US$0.00). In the event WREGIS, WECC, or any other entity with the ability or jurisdiction to modify the QRE reporting process requires a change that materially increases the costs to NES of providing QRE services, NES may pass those costs to the Counterparty by increasing the monthly reporting fee. NES will use best efforts to provide Counterparty with prior notice before billing Counterparty for such increased costs. The fees set forth herein relate to NES serving as a QRE for Counterparty pursuant to the terms of this

Schedule. The necessary metering is a prerequisite for this service and is not covered in the fees described above.

3.3. Points of Metering. The Points of Metering that NES will use are set forth in Exhibit A. At all times prior to the expiration of the Transaction Confirmation, there shall be no more than five (5) Points of Metering subject to this Schedule. Counterparty certifies that all Points of Metering listed in Exhibit A measure data only from the Facility that meet the definition of Renewable. Counterparty shall notify NES at least thirty (30) Business Days prior to making any proposed material changes to the Points of Metering. Following such notification, the Parties will decide whether such changes are mutually acceptable. If such changes are not mutually acceptable, either Party may terminate this Schedule.

3.4. Audit. Counterparty shall provide NES with reasonable access to the Facility to read the Points of Metering for internal audit purposes only and as reasonably required by NES.

3.5. Expenses. Counterparty shall bear all costs and expenses relating to all metering or other equipment installed to accommodate the Facility.

3.6. Reporting. Counterparty hereby grants to NES sole and exclusive permission and authority to report Data, as defined in WREGIS's Interface Control Document for Qualified Reporting Entities and Attachment 1 of the WREGIS TOU, in a Monthly Generation Extract File to WREGIS and warrants and represents that neither Counterparty nor any other person or entity acting on behalf of Counterparty has granted, or will hereafter grant during the term hereof any similar data reporting authority or permission to any other QRE or WREGIS Account Holder or to any other party or Agent for use in WREGIS, or any other energy tracking system, for the Facility.

3.6.1. Monthly Generation Extract File. Once a month NES shall submit a Monthly Generation Extract File to WREGIS on Counterparty's behalf, which will conform to the characteristics and data requirements set forth in the WREGIS Interface Control Document for Qualified Reporting Entities.

3.6.2. Reporting Cycle. NES shall submit the Monthly Generation Extract File to WREGIS no sooner than the last business day of each month for Data collected from the Points of Metering during the previous month, or previous portion of the month. NES shall submit such data no later than the end of the calendar month following the end date of the Data being reported.

3.6.3. Adjustments. After NES submits the Monthly Generation Extract File to WREGIS, any information contained in the Monthly Generation Extract File shall be final for purposes of WREGIS reporting, subject only to the adjustment procedures set forth in the WREGIS Operating Rules, which shall be Counterparty's responsibility to inform NES if any adjustments are necessary.

3.7. Obligations of Counterparty. Counterparty shall report and provide to NES accurate and complete generation Data information for the Facility. Counterparty shall send the Data information for WREGIS to NES in a format and in compliance with any protocols which NES may specify to Counterparty in accordance with this Schedule or otherwise. Counterparty has a continuing duty to immediately notify NES, if and when any generation Data information has been sent in error or ceases to be truthful, accurate, or complete and to supply the corrected data as soon as practical, but not later than five (5) Business Days from the date Counterparty discovers that discrepancy in the Data information.

3.8. WREGIS Fees. Counterparty is solely responsible for the payment directly to WREGIS of any and all WREGIS fees and costs that are required to register the Facility and Counterparty is responsible for the payment directly to WREGIS of all other WREGIS fees incident to the reporting of generation Data to WREGIS. Counterparty acknowledges and agrees that NES shall have no obligation to advance or make payment of WREGIS fees or costs on Counterparty's behalf. Upon request by NES made if NES has received such a request from WREGIS or any regulator or third party, Counterparty shall provide NES with evidence of payment of WREGIS fees and costs; failure to provide such information to NES, upon request, shall constitute an Event of Default under this Schedule.

3.9. WREGIS Accounts. Counterparty will be solely responsible to make arrangements and registrations and for entering into any such agreements that are necessary to establish transfer of Certificates directly to proper Accounts or Subaccounts of Counterparty. Counterparty agrees that such arrangements shall preclude the need for NES to act as custodian of such Certificates or to be responsible in any way to hold such Certificates in any Account or Subaccount of NES or bear any responsibility, possession, obligation, or risk of loss with respect to Certificates created, held, or owned, with respect to the Facility. Counterparty acknowledges that, pursuant to Section 11 of the WREGIS TOU, any generation Data that NES, acting as a QRE, provides to WREGIS shall reside in WREGIS and Counterparty will have no control over such data's use other than that provided for under the WREGIS TOU.

3.10. Obligations of NES. NES shall specify for Counterparty the protocols, reporting frequency, data file formats, and communication protocols for reporting generation Data, as necessary. NES shall timely report to WREGIS Counterparty Data information as specified in the most current WREGIS Interface Control Document for Qualified Reporting Entities. NES shall not use or disclose Counterparty generation Data for any other purpose than reporting the Data to WREGIS, except as may be required by law, the California Energy Commission, any other state, federal, municipal or other regulator or governmental authority with jurisdiction over NES or any of its assets, or a court of competent jurisdiction or as required under the terms of an existing agreement between the Parties. In the event that NES receives a request for Counterparty generation Data for any purpose other than reporting the Data to WREGIS, NES shall promptly notify Counterparty and shall provide Counterparty with sufficient opportunity to seek a protective order to prevent or limit disclosure of the Data prior to providing the Data. Notwithstanding the foregoing, NES shall not be responsible for handling, account administration, transfer, evidence of, or any determination of Counterparty Certificate ownership or any other obligations for Certificates of Counterparty with regard to Certificates; and Counterparty shall bear all responsibility for such handling, account administration, evidence of, or any determination of Counterparty Certificate ownership and all other obligations pertaining to creation and ownership of such Certificates.

3.11. Measurement.

3.11.1. Meter Data. Counterparty authorizes NES to provide Counterparty's meter data directly to WREGIS in the form of the Monthly Generation Extract File. In accordance with Section 3.7, Counterparty will provide NES with data from the Points of Metering listed in Exhibit A. All such data is considered Data which Counterparty has created and submitted to WREGIS, notwithstanding that NES, rather than Counterparty, submits it in the form of the Monthly Generation Extract File to WREGIS.

3.11.2. Wholesale Generation Also Serving On-Site Loads. If Counterparty has any Wholesale Generation Also Serving On-Site Loads (as defined in Section 1 above), such Facility will need to have the on-site load generation metered (and registered) separately from the generation that is supplied to the grid, in accordance with the WREGIS Operating Rules. Otherwise, NES will not report any data from such Facility. If such Facility exists, it must be specified in Exhibit A.

3.11.3. Estimates. When meter readings are not available due to meter hardware failure or data that is determined to be invalid due to meter malfunction or calibration or configuration error, to the extent deemed by NES to be appropriate and permitted pursuant to WREGIS TOU, NES will, if possible, rely on readings from redundant meters. If readings from redundant meters are not possible, NES will estimate and report meter data according to NES' Settlement Estimation Procedures.

3.11.4. Responsibility. Counterparty is solely responsible for the data created and submitted to NES, acting as a QRE, to forward to WREGIS.

3.12. Regulatory Requirements. NES may release information provided by Counterparty hereunder, or gathered by NES in connection herewith, to comply with any regulatory requirements applicable to NES or if requested by a NES regulator or if required by any other federal law or court order or Requirements of Law.

3.13. Grant by Counterparty. Counterparty hereby grants to, permits, and authorizes NES the following:

3.13.1. NES is hereby authorized to communicate and transact with WREGIS as Counterparty's sole and exclusive reporting source of generation Data for the Facility, and WREGIS is hereby authorized to communicate and transact directly with NES regarding any generation Data issues for the Facility relating to NES' QRE responsibilities under this Schedule. NES is hereby authorized to act on behalf of Counterparty with respect to the services to be performed by NES pursuant to this Schedule, but only to the extent that NES has lawful, contractual access to WREGIS.

3.13.2. NES is hereby authorized to provide WREGIS with all generation Data for the Facility that WREGIS requires, including, but not limited to, data required for preparation of required reports and billing.

3.13.3. NES is authorized to undertake all actions which are reasonable and necessary to carry out the obligations set forth in the subsections above.

3.13.4. Counterparty retains all other rights and responsibilities and all other obligations to WREGIS.

4. Indemnity and Hold Harmless.

4.1. To the extent permitted by Requirements of Law, each Party hereby indemnifies and agrees to hold the other Party ("Indemnified Party"), its officers, employees, agents, or representatives, harmless against and from any and all losses, fines, penalties, claims, demands, liabilities, actions, or suits of any nature whatsoever (including legal costs and attorney's fees, both at trial and on appeal, whether or not suit is brought) (collectively, "Liabilities") to the extent arising out of or resulting from Indemnified Party's performance hereunder, excepting only to the extent such Liabilities are caused by the gross negligence or willful misconduct of Indemnified Party. With respect to NES, this includes liability arising from: the data contained in the Monthly Generation Extract File, or any other financial injury, or damage to persons or property.

4.2. NOTWITHSTANDING ANY OTHER PROVISION OF THIS SCHEDULE, COUNTERPARTY ASSUMES FULL RESPONSIBILITY AND RISK OF LOSS RESULTING FROM COUNTERPARTY'S (1) FAILURE TO SEND DATA IN A FORMAT SPECIFIED BY NES, (2) FAILURE TO USE PROTOCOLS SPECIFIED BY NES OR (3) SENDING OF ERRONEOUS, UNTRUTHFUL, INACCURATE, AND/OR INCOMPLETE GENERATION DATA TO NES OR THE SENDING OF ERRONEOUS, UNTRUTHFUL, INACCURATE, AND/OR INCOMPLETE DATA BY NES TO WREGIS. IN NO EVENT SHALL EITHER PARTY BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, EXEMPLARY, OR OTHER INDIRECT LOSS OR DAMAGES RESULTING FROM ANY BREACH OF THIS SCHEDULE, WHETHER CAUSED BY THE NEGLIGENCE OR INTENTIONAL ACTIONS OF SUCH PARTY (AND/OR ITS CONTRACTORS, AGENTS, AND EMPLOYEES), REGARDLESS OF WHETHER SUCH CLAIM FOR DAMAGES IS BASED IN CONTRACT, TORT, STRICT LIABILITY, UNDER ANY INDEMNITY OR OTHERWISE. IN NO EVENT SHALL NES BE LIABLE FOR ANY LOSS OR HARM SUFFERED BY COUNTERPARTY OR ANY THIRD PARTY DUE TO ANY ACTION OR INACTION BY NES TAKEN HEREUNDER THAT CAUSES A FACILITY TO LOSE ANY CREDENTIALS, REGISTRATION OR QUALIFICATION UNDER THE RENEWABLE PORTFOLIO STANDARD OR SIMILAR LAW OF ANY STATE OR OTHER JURISDICTION.

4.3. THIS SECTION SHALL SURVIVE ANY TERMINATION OF THIS SCHEDULE, WHETHER SUCH TERMINATION IS BY NES OR COUNTERPARTY, AND WHETHER OR NOT SUCH TERMINATION IS ON ACCOUNT OF AN EVENT OF DEFAULT.

5. Further Counterparty Obligations.

5.1. PTCs. Counterparty shall bear all risks, financial and otherwise throughout the term, associated with Counterparty's or the Facility's eligibility to receive production tax credits ("PTCs") or qualify for accelerated depreciation for Counterparty's accounting, reporting or tax purposes.

5.2. Further Assurances. At NES' request, the Parties shall execute such documents and instruments as may be reasonably required to effect the essential intent and purposes hereof.

5.3. Station Service. Counterparty shall be responsible for arranging and obtaining, at its sole risk and expense, any station service required by the Facility.

5.4. Costs of Ownership and Operation. Without limiting the generality of any other provision hereof, Counterparty shall be solely responsible for paying or cause to be paid when due (a) all costs of owning and operating the Facility in compliance with existing and future Requirements of Law and the terms and conditions hereof, and (b) all taxes and charges (however characterized) now existing or hereinafter imposed on or with respect to the Facility, its operation, or on or with respect to emissions or other environmental impacts of the Facility, including any such tax or charge (however characterized) to the extent payable by a generator of such energy or renewable energy certificates.

5.5. Data Request. In the event that NES receives a request for information provided by Counterparty hereunder, or gathered by NES in connection herewith, other than for reporting the Data to WREGIS, NES shall promptly notify Counterparty and shall provide Counterparty with sufficient opportunity to seek a protective order to prevent or limit disclosure of the Data prior to providing the Data. Counterparty shall, promptly upon written request from NES, either notify NES of its intent to limit or prevent disclosure of the Data, or provide NES with Data reasonably required for information requests from any governmental authorities, state or federal agency intervener or any other party achieving intervener status in any rate proceeding or other proceeding before any governmental authority. Counterparty shall use best efforts to respond to NES sufficiently in advance to enable NES to review it and meet any submission deadlines.

5.6. Additional Information. Counterparty shall provide to NES such other information respecting Counterparty or the Facility as NES may, from time to time, reasonably request which NES requires to perform its services under this Schedule.

5.7. No Dedication. Nothing herein shall be construed to create any duty to, any standard of care with reference to, or any liability to any person not a Party hereto.

6. Events of Default; Remedies.

6.1. Additional Event of Default. In addition to the Events of Default set forth in the Master Power Purchase and Sale Agreement between NES and Counterparty dated February 10, 2004, each of the following shall also be an "Event of Default" for the purposes of this Schedule:

6.1.1 Counterparty fails to report generation Data information to NES for the Facility or Counterparty fails to send the data in a format and use the protocols specified by NES as determined by NES to be required to meet the requirements of the WREGIS Operating Rules;

6.1.2 Counterparty is delinquent in payment to WREGIS of any WREGIS fees for registration or maintenance of Accounts or Subaccounts, which payment impairs the ability of NES to report generation Data information to WREGIS regarding the Facility, which delinquency continues for a period of thirty (30) days;

6.1.3 Counterparty fails to comply with a request by NES to provide evidence of payment of WREGIS fees pertaining to the Facility; or

6.1.4 Counterparty knowingly or intentionally falsifies or misrepresents any Data information, or other information required by WREGIS.

IN WITNESS WHEREOF, the Parties have executed this Schedule by their duly authorized representatives as of the date first above written.

Report to City Council

TO: Mayor and City Council

FROM: Suzanne Bryant, City Attorney

AGENDA DATE: June 24, 2014

TITLE: AUTHORIZATION FOR THE CITY MANAGER TO SIGN THE THIRD AMENDMENT TO THE SETTLEMENT AGREEMENT AND MUTUAL RELEASE FOR THE RIVERSIDE SUPERIOR COURT CASE ENTITLED RADOS, ET AL. V. CITY OF MORENO VALLEY

RECOMMENDED ACTION

Recommendation:

1. Authorize the City Manager to sign the Third Amendment to the Settlement Agreement in the case Rados, et al. v. City of Moreno Valley (Riverside Superior Court Case No. RIC 425623).

SUMMARY

Amending the Settlement Agreement between Rados and the City will extend the freeze on Development Fees for the industrial component of the project (because of the time effect the CEQA case had). The Amendment is consistent with the Council's economic development goals and will extend the Agreement to June 2, 2017.

DISCUSSION

On February 5, 2005, Rados initiated a lawsuit about the City Council's denial of the Planning Commission's approval of Plot Plan PA 03-0014. In 2007, a settlement agreement was entered into which acknowledged that Rados has submitted an alternative application for the land use. The agreement was extended while the application and approval was pending. Paragraph 3 of the settlement agreement provides as follows:

> **Development Fees for the Proposed Project.** As to both the Northerly Property and the Southerly Property, City agrees to apply and impose all development impact fees ("Development Impact Fees") subject to City's control at the rates and structures in effect at the time the City Council denied the Project on November 23, 2004. The rates and structures of such Development Impact Fees shall remain in place and be fixed for a period of 3 years from the date of the City's last discretionary approval associated with the Proposed Project, from and after which time the then existing rates and structures shall be applicable. Current components of City "Development Impact Fees" are: Police Facilities, Fire Facilities, City Hall Facilities. Animal Shelter, Corporate Yard Facilities, Maintenance Equipment, Arterial Streets, Traffic Signals, Interchange Improvements, Library Facilities and Materials, Parks Land, "Quimby" fees, Park Improvements, and Community and Recreational Facilities. Fees that are not included within the definition of Development Impact Fees are: (1) City processing fees (such as fees charged for plan checks, building permits, grading permits, etc.), (2) development impact fees that are not under the City's control or jurisdiction, and (3) impact or mitigation fees imposed by the City pursuant to a regional mitigation program such as the Multi Species Conservation Habitat Plan fee and Transportation Uniform Mitigation Fee.

In July 2009, the Planning Commission approved the industrial component of the new application. Thereafter, "Residents for a Livable Moreno Valley" appealed the Planning Commission's approval to the Council. In January 2010, the Council denied the appeal of "Residents for a Livable Moreno Valley" and approved the industrial component. In February 2010, "Residents for a Livable Moreno Valley" filed a CEQA lawsuit against the City and Rados. In July 2010, the City approved the residential component. In May 2011, "Residents" and Rados settled the CEQA lawsuit.

The City and Rados entered into the First Amendment to Settlement Agreement which clarified that the three year freeze on Development Impact Fees for the industrial component would run from June 2, 2011, which was when the CEQA lawsuit was dismissed. Accordingly, the three year freeze on the industrial component expires in 2014. This proposed Third Amendment would extend the freeze on Development Impact Fees for the industrial component for an additional three years. The Council authorized the Second Amendment last year which extended the freeze on the residential component of the project.

ALTERNATIVES

Amending the Settlement Agreement will extend the expiration date to June 2, 2017. Staff recommends this option.

Not amending the Settlement Agreement means the Agreement will have expired on June 2, 2014.

FISCAL IMPACT

No new fiscal impact to the City is contemplated by this amendment.

CITY COUNCIL GOALS

Positive Environment. Create a positive environment for the development of Moreno Valley's future.

THIRD AMENDMENT TO THE SETTLEMENT AGREEMENT AND MUTUAL RELEASE

THIS THIRD AMENDMENT TO THE SETTLEMENT AGREEMENT AND MUTUAL RELEASE ("Amendment") is made and entered into as of the last day of execution below, by and between the City of Moreno Valley, a municipal corporation organized and existing under the laws of the State of California ("City") and Rados Properties - California Land, LLC, a California Limited Liability ("Rados Properties"). The City and Rados Properties collectively are referred to herein as the "Parties."

RECITALS

A. On February 4, 2005, Alexander S. Rados, Walter S. Rados, Stephen S. Rados, Olivera Lynn and Sonja Doder initiated a lawsuit in the Riverside County Superior Court, State of California, entitled *Alexander S. Rados, et al. v. City of Moreno Valley*, Case No. RIC 425323 (the "Action") alleging causes of action for (1) petition for writ of mandate for administrative mandamus; and (2) inverse condemnation. The Action generally requests (1) a writ of mandate directing the City of Moreno Valley to rescind the City Council's denial of the Planning Commission's approval of Plot Plan number PA 03-0014, and (2) damages based upon an alleged regulatory taking.

B. On or about February 6, 2007, the City, on one hand, and Alexander S. Rados, Walter S. Rados, Stephen S. Rados, Olivera Lynn and Sonja Doder, on the other hand, entered into a SETTLEMENT AGREEMENT AND MUTUAL RELEASE, which acknowledged that Alexander S. Rados, Walter S. Rados, Stephen S. Rados, Olivera Lynn and Sonja Doder had submitted an alternative land use application for the property that was the subject of the Action. The land use application is described in the SETTLEMENT AGREEMENT AND MUTUAL RELEASE and is identified as the "Proposed Project." The Parties have entered into six extensions of the SETTLEMENT AGREEMENT AND MUTUAL RELEASE.

C. The Proposed Project included both residential and industrial components. The residential component consists of two parcels (APN 485-230-025, 026; Lots 20 and 21 of Riverside Alfalfa Acres) ("Northerly Property"). The industrial component consists of two groups of parcels -- one group where a single large industrial building is proposed (APNs 485-230-014 through 024; Lots 14 through 24 of Parcel Map 24314), and another group of parcels where a series of smaller industrial buildings is proposed (APNs 485-230-001 through 010; Lots 1 through 10 of Parcel Map 24314.) (The industrial parcels shall collectively be referred to herein as the "Southerly Property"). The residential component and the industrial component were the subject of two separate land use applications to the City.

D. Paragraph 3 of the SETTLEMENT AGREEMENT AND MUTUAL RELEASE provides as follows:

"**Development Fees for the Proposed Project**. As to both the Northerly Property and the Southerly Property, City agrees to apply and impose all development impact fees ("Development Impact Fees") subject to City's control at the rates and structures in effect at the time the City Council denied the Project on November 23, 2004. The rates and structures of such Development Impact Fees shall remain in place and be fixed for a period of 3 years from the date of the City's last discretionary approval associated with the Proposed Project, from and after which time the then existing rates and structures shall be applicable. Current components of City "Development Impact Fees" are: Police Facilities, Fire Facilities, City Hall Facilities, Animal Shelter, Corporate Yard Facilities, Maintenance Equipment, Arterial Streets, Traffic Signals, Interchange Improvements, Library Facilities and Materials, Park Land, "Quimby" fees, Park Improvements, and Community and Recreational Facilities. Fees that are not included within the definition of Development Impact Fees are: (1) City processing fees (such as fees charged for plan checks, building permits, grading permits, etc.), (2) development impact fees that are not under the City's control or jurisdiction, and (3) impact or mitigation fees imposed by the City pursuant to a regional mitigation program such as the Multi Species Conservation Habitat Plan fee and Transportation Uniform Mitigation Fee."

E. On or about September 16, 2008, Alexander S. Rados, Walter S. Rados, Stephen S. Rados, Olivera Lynn and Sonja Doder transferred their interest in the property that comprises the residential component to Rados Properties.

F. On or about July 23, 2009, the City's Planning Commission approved the industrial component. Thereafter, an entity called "Residents for a Liveable Moreno Valley" appealed the Planning Commission approval of the industrial component to the City's Council.

G. On or about January 26, 2010, the City denied Residents for a Liveable Moreno Valley and approved the industrial component.

H. On or about February 18, 2010, the Residents for a Liveable Moreno Valley filed suit under the California Environmental Quality Act ("CEQA"), challenging the City's approval of the industrial component. The lawsuit was designated as Riverside Superior Court case number RIC 10003334 (the "CEQA Action").

I. The CEQA action was dismissed pursuant to a settlement agreement on June 2, 2011.

J. Thereafter, CITY and City and Rados Properties entered into First Amendment to Settlement Agreement which clarified that the three year freeze on Development Impact Fees for the industrial component would run from June 2, 2011, when the CEQA Action was dismissed. Accordingly, the three year freeze on Development Impact Fees for the industrial component expires June 2, 2014.

K. The purpose of this THIRD AMENDMENT TO THE SETTLEMENT AGREEMENT AND MUTUAL RELEASE is to extend the freeze on Development Fees for the industrial component for an additional three (3) years.

AMENDMENT TO SETTLEMENT AGREEMENT

1. **Extension of Three Year Freeze on Development Impact Fees on Industrial Component**. The City and Rados Properties agree that, with respect to the industrial component of the revised project, the three (3) year freeze on Development Impact Fees from November 23, 2004, set forth in Paragraph 3 of the SETTLEMENT AGREEMENT AND MUTUAL RELEASE, is extended an additional three years to June 2, 2017. City and Rados Properties agree that this Amendment to Settlement Agreement will apply retroactively to extend the period of the freeze and Development Impact Fees in the event the City's approval and execution occur after June 2, 2014.

2. **Terms of original SETTLEMENT AGREEMENT AND MUTUAL RELEASE are incorporated by reference.** The City and Rados Properties agree that all recitals and operative provisions of the original SETTLEMENT AGREEMENT AND MUTUAL RELEASE and all six extensions, except those that are directly contradicted by this THIRD AMENDMENT to the SETTLEMENT AGREEMENT AND MUTUAL RELEASE, are incorporated herein by this reference and remain in full force and effect.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: PA04-0216 (PARCEL MAP 33275) – ADOPT THE RESOLUTION AUTHORIZING ACCEPTANCE OF THE PUBLIC IMPROVEMENTS AS COMPLETE AND ACCEPT THE PORTIONS OF CURTIS AVENUE AND GIFFORD AVENUE ASSOCIATED WITH THIS PROJECT INTO THE CITY'S MAINTAINED STREET SYSTEM

RECOMMENDED ACTION

Recommendations:

1. Adopt Resolution No. 2014-52. A Resolution of the City Council of the City of Moreno Valley, California, Authorizing the Acceptance of the Public Improvements as Complete within Project PA04-0216 (Parcel Map 33275) and Accepting the Portions of Curtis Avenue, and Gifford Avenue Associated with the Project into the City's Maintained Street System.

2. Authorize the City Engineer to exonerate the Deed of Trust submitted as security for the Faithful Performance and Material and Labor amounts for this project in one year when all clearances are received.

SUMMARY

This report recommends acceptance of the improvements associated with PA04-0216 (Parcel Map 33275) into the City's maintained street system and to provide exoneration of the deed of trust issued by the developer as security at the end of the guarantee and warranty period, subject to completion of any defective work during this period.

DISCUSSION

PA04-0216 (Parcel Map 33275) was a project to subdivide a parcel into four (4) single-family residential lots. The project was conditionally approved requiring construction of certain public improvements. The public improvements included asphalt, concrete, curb, gutter, sidewalk, driveway approaches, wheelchair ramp, signage, traffic signal and traffic signal modifications, bus turnout, street lights, water quality basins, storm drain, water, and sewer. Those improvements received on-going inspection during the construction process. Upon completion of the improvements, Public Works Department performed an inspection, and a punch list was generated. The required corrective actions have been completed, and the improvements are now eligible for acceptance into the City's maintained street system.

In accordance with the Streets and Highway Code, the method for acceptance of improvements, per Section 1806, (a), and (b), is by action of the governing body, by resolution. It is therefore appropriate to accept those improvements into the City's maintained street system. The developer submitted a deed of trust as security for the Faithful Performance amount of $102,000 and the Material and Labor amount of $51,000. Therefore, the City will retain the deed of trust as security for the one-year guarantee and warranty period. At the end of the guarantee and warranty period the deed of trust will be released by the City Engineer subject to completion of any defective work that may have appeared during this period.

ALTERNATIVES

1. Adopt the proposed Resolution authorizing the acceptance of the public improvements within PA04-0216 (Parcel Map 33275) as complete and accept the portions of Curtis Avenue and Gifford Avenue associated with the project into the City's maintained street system. Authorize the City Engineer to exonerate the Deed of Trust submitted as security for the Faithful Performance and Material and Labor amounts for this project in one year when all clearances are received. *The required improvements have been completed according to City of Moreno Valley Standards and therefore should be included in the City's maintained street system.*

2. Do not adopt the proposed Resolution authorizing the acceptance of the public improvements within PA04-0216 (Parcel Map 33275) as complete and accept the portions of Curtis Avenue and Gifford Avenue associated with the project into the City's maintained street system. Do not authorize the City Engineer to exonerate the Deed of Trust submitted as security for the Faithful Performance and Material and Labor amounts for this project in one year when all clearances are received. *The required improvements have been completed according to City of Moreno Valley Standards and therefore should be included in the City's maintained street system.*

FISCAL IMPACT

The acceptance of these street improvements into the City's maintained street system will create an additional fiscal impact to the street maintenance program of the City (Fund 2000-Gas Tax, Fund 2001-Measure "A", and Fund 2008-NPDES. Fund 2000 is restricted to the construction and maintenance of streets and roadways. Fund 2001 is restricted for transportation projects only for the purposes of construction, maintenance and operation of streets and roadways. The County Service Area (CSA) levy collected from property owners support current NPDES Permit programs and reduce the level of General Fund support necessary to remain in compliance with unfunded federal mandates, as administered by the State. Funds collected from the CSA 2008 annual levy are restricted for use only within the Storm Water Management program). Street maintenance costs over a 20 year period are estimated to average almost $12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

CITY COUNCIL GOALS

PUBLIC FACILTIES AND CAPTIAL PROJECTS:
Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

RESOLUTION NO. 2014-52

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, AUTHORIZING THE ACCEPTANCE OF THE PUBLIC IMPROVEMENTS AS COMPLETE WITHIN PROJECT PA04-0216 (PARCEL MAP 33275) AND ACCEPTING THE PORTIONS OF CURTIS AVENUE, AND GIFFORD AVENUE ASSOCIATED WITH THE PROJECT INTO THE CITY'S MAINTAINED STREET SYSTEM

WHEREAS, the City Engineer has determined that the public improvements constructed by Alfonso R. Guzman, Jose Guzman and Yamin Guzman on Curtis Avenue and Gifford Avenue associated with the project were constructed according to the approved plans on file with the City of Moreno Valley; and

WHEREAS, the City Engineer has determined that those improvements were inspected during construction and were completed in an acceptable manner; and

WHEREAS, the City Engineer has requested that the City Council authorize the acceptance of said public improvements as complete within project PA04-0216 (Parcel Map 33275) and accept the portions of Curtis Avenue and Gifford Avenue associated with the project into the City's maintained street system; and

WHEREAS, it is in accordance with Streets and Highway Code, Section 1806, (a) and (b), for City Council to perform this action by resolution.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS: that the public improvements within Project PA04-0216 (Parcel Map 33275) are complete, and the portions of Curtis Avenue and Gifford Avenue associated with the project are accepted into the City's maintained street system.

APPROVED AND ADOPTED this 24th day of June, 2014.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: PARCEL MAP 30882 ULTIMATE EUCALYPTUS IMPROVEMENTS – REDUCE FAITHFUL PERFORMANCE BOND AND ADOPT THE RESOLUTION AUTHORIZING ACCEPTANCE OF THE PUBLIC IMPROVEMENTS AS COMPLETE AND ACCEPTING THE PORTION OF EUCALYPTUS AVENUE ASSOCIATED WITH THIS PROJECT INTO THE CITY'S MAINTAINED STREET SYSTEM

RECOMMENDED ACTION

Recommendations:

1. Adopt Resolution No. 2014-53. A Resolution of the City Council of the City of Moreno Valley, California, Authorizing the Acceptance of the Public Improvements as Complete within Project Parcel Map 30882 Ultimate Eucalyptus Improvements and Accepting the Portion of Eucalyptus Avenue Associated with the Project into the City's Maintained Street System.

2. Authorize the City Engineer to execute the 90% reduction to the Faithful Performance Bond, exonerate the Material and Labor Bond in 90 days if there are no stop notices or liens on file with the City Clerk, and exonerate the final 10% of the Faithful Performance Bond in one year when all clearances are received.

SUMMARY

This report recommends acceptance of the improvements associated with Parcel Map 30882 (Ultimate Eucalyptus Avenue Improvements) into the City's maintained street system and to provide a 90% reduction to the Faithful Performance Bond, exonerate the Material and Labor Bond in 90 days if there are no stop notices or liens on file with the

City Clerk, and exonerate the final 10% warranty portion of the Faithful Performance Bond in one year, subject to completion of any defective work during this period.

DISCUSSION

Parcel Map 30882 is a project that was conditionally approved requiring construction of certain public improvements. The improvements were separated into two phases. Phase I included street improvements to Moreno Beach Drive, Eucalyptus Avenue and Trail Ridge Way. Phase II street improvements included the completion of Eucalyptus Avenue. The street improvements for phase II also included traffic signal modification, asphalt paving, curb, gutter, sidewalk, and storm drain.

Those improvements received on-going inspection during the construction process. Upon completion of the improvements, Public Works Department/Land Development performed an inspection, and a punch list was generated. The required corrective actions have been completed, and the improvements are now eligible for acceptance into the City's maintained street system.

In accordance with the Streets and Highway Code, the method for acceptance of improvements, per Section 1806, (a), and (b), is by action of the governing body, by resolution. It is therefore appropriate to accept those improvements into the City's maintained street system and to provide a 90% reduction to the Faithful Performance Bond of $289,000 issued by National Fire Insurance Company of Hartford. Ninety days after City Council approves the Faithful Performance Bond reduction, the Material and Labor Bond will be exonerated by the City Engineer provided there are no stop notices or liens on file with the City Clerk. The remaining 10% of the bond will be held for the one-year guarantee and warranty period. At the end of the guarantee and warranty period the bond will be released by the City Engineer subject to completion of any defective work that may have appeared during this period.

ALTERNATIVES

1. Adopt the proposed Resolution authorizing the acceptance of the public improvements within Parcel Map 30882 Ultimate Eucalyptus Improvements as complete and accept the portion of Eucalyptus Avenue associated with the project into the City's maintained street system. Authorize the City Engineer to execute the 90% reduction to the Faithful Performance Bond, exonerate the Material and Labor Bond in 90 days if there are no stop notices or liens on file with the City Clerk, and exonerate the final 10% of the Faithful Performance Bond in one year when all clearances are received. *The required improvements have been completed according to City of Moreno Valley Standards and therefore should be included in the City's maintained street system.*

2. Do not adopt the proposed Resolution authorizing the acceptance of the public improvements within Parcel Map 30882 Ultimate Eucalyptus Improvements as complete and accept the portion of Eucalyptus Avenue associated with the project into the City's maintained street system. Do not authorize the City

Engineer to execute the 90% reduction to the Faithful Performance Bond, exonerate the Material and Labor Bond in 90 days if there are no stop notices or liens on file with the City Clerk, and exonerate the final 10% of the Faithful Performance Bond in one year when all clearances are received. *The required improvements have been completed according to City of Moreno Valley Standards and therefore should be included in the City's maintained street system.*

FISCAL IMPACT

The acceptance of these street improvements into the City's maintained street system will create an additional fiscal impact to the street maintenance program of the City (Fund 2000-Gas Tax, Fund 2001-Measure "A", and Fund 2008-NPDES. Fund 2000 is restricted to the construction and maintenance of streets and roadways. Fund 2001 is restricted for transportation projects only for the purposes of construction, maintenance and operation of streets and roadways. The County Service Area (CSA) levy collected from property owners support current NPDES Permit programs and reduce the level of General Fund support necessary to remain in compliance with unfunded federal mandates, as administered by the State. Funds collected from the CSA 2008 annual levy are restricted for use only within the Storm Water Management program). Street maintenance costs over a 20 year period are estimated to average almost $12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

RESOLUTION NO. 2014-53

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, AUTHORIZING THE ACCEPTANCE OF THE PUBLIC IMPROVEMENTS AS COMPLETE WITHIN PROJECT PARCEL MAP 30882 ULTIMATE EUCALYPTUS IMPROVEMENTS AND ACCEPTING THE PORTION OF EUCALYPTUS AVENUE ASSOCIATED WITH THE PROJECT INTO THE CITY'S MAINTAINED STREET SYSTEM

WHEREAS, the City Engineer has determined that the public improvements constructed by Walmart Real Estate Business Trust, A Delaware Statutory Trust on the portion of Eucalyptus Avenue associated with the project were constructed according to the approved plans on file with the City of Moreno Valley; and

WHEREAS, the City Engineer has determined that those improvements were inspected during construction and were completed in an acceptable manner; and

WHEREAS, the City Engineer has requested that the City Council authorize the acceptance of said public improvements as complete within project Parcel Map 30882 Ultimate Eucalyptus Improvements and accept the portion of Eucalyptus Avenue associated with the project into the City's maintained street system; and

WHEREAS, it is in accordance with Streets and Highway Code, Section 1806, (a) and (b), for City Council to perform this action by resolution.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS: that the public improvements within Parcel Map 30882 Ultimate Eucalyptus Improvements are complete, and the portion of Eucalyptus Avenue associated with the project is accepted into the City's maintained street system.

APPROVED AND ADOPTED this 24th day of June, 2014.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E. Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: APPROVE THE FOURTH AMENDMENT TO AGREEMENT FOR PROJECT DBF/09 DETENTION BASIN WITH NATURE'S IMAGE INC.

RECOMMENDED ACTION

Recommendations:

1. Approve amendment to extend contract for project DBF/09 Detention Basin with Nature's Image Inc. to provide detention basin maintenance services, extend the agreement from July 1, 2014 to June 30, 2015 and increase agreement to a "not to exceed" cumulative amount of $130,736.00.

2. Authorize the City Manager to execute said Extension Agreement with Nature's Image, Inc. of Lake Forest, California.

3. Authorize the Purchasing Manager, on July 1, 2014, to issue a purchase order to Nature's Image, Inc. in the amount of: twenty three thousand, eight hundred and eighty-eight and 00/100 dollars ($23,888.00) for twelve months of basin maintenance service.

SUMMARY

This report recommends the approval of the amendment with Nature's Image Inc. to extend the contract to maintain the Detention Basin at the Centerpointe Business Park for an additional year with a budget of $23,888.

DISCUSSION

On April 26, 2010 the Land Development Division of the Public Works Department received a valid proposal from Nature's Image, Inc. in response to the Request for Proposal for DBF/09, maintenance of the Detention Basins, at the Centerpointe Business Park. Three extensions have been granted in fiscal years 2011/2012, 2012/2013 and 2013/2014. The cumulative amount to be expended will exceed staff's signature authority and requires City Council approval, per Purchasing, Ordinance 587, Chapter 3.12.200. This fourth extension will be the final extension granted.

The work performed under this contract is to furnish of all labor, material, and equipment necessary for the provision of flood control detention basins and appurtenant maintenance services located south of Brodiaea Avenue, west of Heacock Avenue, and north of Cactus Avenue as indicated in Attachment 1. The contractor will be required to: inspect sediment accumulation debris (dead vegetation and trash), erosion, structural elements during wet weather; clean debris; remove dead vegetation; spray herbicide; apply re-emergent; make adjustment or replacements as determined by annual wet weather inspections; provide general pest control services as requested, including but not limited to weeds, insects, and diseases.

All work will be performed in accordance with usual and customary flood control practices to achieve, and maintain structural soundness for the detention basins. The City will periodically inspect all the operations, work performed and methods or materials used.

ALTERNATIVES

1. Approve amendment to extend contract for project DBF/09 Detention Basin with Nature's Image Inc. to provide detention basin maintenance services, extend the agreement from July 1, 2014 to June 30, 2015 and increase agreement to a "not to exceed" cumulative amount of $130,736.00. Authorize the City Manager to execute said Extension Agreement with Nature's Image, Inc. of Lake Forest, California. Authorize the Purchasing Manager, on July 1, 2014, to issue a purchase order to Nature's Image, Inc. in the amount of: twenty three thousand, eight hundred and eighty-eight and 00/100 dollars ($23,888.00) for twelve months of basin maintenance service.

2. Do not approve amendment to extend contract for project DBF/09 Detention Basin with Nature's Image Inc. to provide detention basin maintenance services, extend the agreement from July 1, 2014 to June 30, 2015 and increase agreement to a "not to exceed" cumulative amount of $130,736.00. Do not authorize the City Manager to execute said Extension Agreement with Nature's Image, Inc. of Lake Forest, California. Do not authorize the Purchasing Manager, on July 1, 2014, to issue a purchase order to Nature's Image, Inc. in the amount of: twenty three thousand, eight hundred and eighty-eight and 00/100 dollars ($23,888.00) for twelve months of basin maintenance service.

FISCAL IMPACT

The funds allocated for the work performed approval of this agreement extension are acquired through the property tax roll each fiscal year and have been included into the fiscal year 2014/2015 operating budget for Public Works Department, Stormwater Program, Fund 2010-70-29-25804.

CITY COUNCIL GOALS

PUBLIC SAFETY:
Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.

PUBLIC FACILITIES AND CAPITAL PROJECTS:
Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

EXTENSION AGREEMENT
PROJECT NO. DBF/09
MAINTENANCE OF SERVICES OF DETENTION BASINS

THIS AGREEMENT is made and entered into by and between the City of Moreno Valley (hereafter, "City") and **Nature's Image, Inc.** (hereafter, "Contractor").

WHEREAS, the City and Contractor entered into an agreement dated October 18, 2010, referencing Project No. DBF/09 regarding maintenance services of detention basins (hereafter, "Agreement").

WHEREAS, pursuant to the terms of the Agreement, both parties wish to extend the Agreement by a period of twelve (12) months under the following additional terms:

1. The extension period shall commence on July 1, 2014 and shall terminate on June 30, 2015.

2. In accordance with 1(b) Exhibit D of the Agreement, this Extension shall be considered the fourth extension of the Agreement.

3. Notwithstanding paragraph 1(b) Exhibit C of the Agreement, for the period of this Extension and except where additional compensation is specifically provided for in the Agreement, the City will pay the Contractor for all work (labor, materials, supplies, equipment, etc.) performed under this Extension, one month in arrears, on the last day of the month for work satisfactorily performed the previous month. The total contract amount for the twelve (12) month extension period shall not exceed **TWENTY-THREE THOUSAND EIGHT HUNDRED EIGHTY-EIGHT AND 00/100 DOLLARS ($23,888.00).**

4. Except as set forth above, all other terms and conditions of the Agreement shall remain in full force and effect.

FAITHFUL PERFORMANCE BOND
PROJECT NO. DBF/09

DETENTION BASIN
MAINTENANCE

WHEREAS the City Council of the City of Moreno Valley, State of California, and **Nature's Image, Inc**., hereinafter designated as "Principal," have entered into an Agreement whereby Principal agrees to maintain certain designated public improvements, which said Agreement, dated October 18th, 2010, and identified as PROJECT NO. DBF/09 is hereby referred to, and made a part hereof; and

WHEREAS, said Principal is required under the terms of said Agreement to furnish a bond for the faithful performance of said Agreement,

NOW, THEREFORE, we, the Principal, and **The Ohio Causality Insurance Company** as Surety, are held and firmly bound unto the City of Moreno Valley , County of Riverside, in the penal sum of **Twenty-Three Thousand Eight Hundred Eighty-Eight and 00/100 ($ 23,888.00)** (words and figures) lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, successors, executors, and administrators, jointly and severally, firmly by these presents.

The conditions of this obligation are such that if the above-bounded Principal, his heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and provisions in said Agreement, and any alteration thereof made as therein provided on his or their part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and hold harmless the City of Moreno Valley, its officers, agents, and employees, as therein stipulated, then this obligation shall become null and void, otherwise it shall be and remain in full force, and effect.

As a part of the obligation secured hereby, and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by the City of Moreno Valley in successfully enforcing such obligation, all to be taxed as costs, and included in any judgment rendered.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Agreement or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Agreement or to the work or the specifications.

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above-named, on May 21st, 2014.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS – Section 12. Power of Attorney. Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts – SECTION 5. Surety Bonds and Undertakings. Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 21st day of May, 2014.

KNOW ALL MEN BY THESE PRESENTS,

THAT **Nature's Image, Inc.** as Principal, and **The Ohio Causality Insurance Company** , as Surety, as held firmly bound unto the City of Moreno Valley, in the just and full amount of **Twenty-Three Thousand Eight Hundred Eighty-Eight and 00/100 ($ 23,888.00)** (amount in words and figures), for the payment whereof, we hereby bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

Given under our hands and sealed with our seals this 21st day of May, 2014.

The condition of the foregoing obligation is such that,

WHEREAS, the above-named Principal is about to enter into a Contract with the City of Moreno Valley whereby said principal agrees to maintain the Detention Basin(s) at PROJECT NO. DBF/09, as provided in said Contract, which said Contract is hereby referred to and made a part hereof to the same extent as if the same were herein specifically set forth;

NOW, THEREFORE, if the said Principal or any subcontractor of said Principal shall fail to pay for any materials, provisions, provider of other supplies, or teams used in, upon, for or about the performance of said work contracted to be done, or for any work or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, the Surety will pay for the same in an amount not exceeding the sum hereinabove specified, and in case suit is brought hereon, a reasonable attorney's fee to be fixed by the Court, otherwise this bond shall be void and of no effect;

PROVIDED, that no amendment, change, extension of time, alteration, or addition to said Contract or Agreement, or of any feature or item or items or performance required therein or thereunder shall in any manner effect the obligation of the undersigned on or under this bond; and the surety does hereby waive notice of such amendment, limitation of time for bringing action on this bond by the City change, extension of time, alteration or addition to said Contract or Agreement, and of any feature or item or items of performance required herein or thereunder.

This bond shall inure to the benefit of any and all persons entitled to file claims under Sections 3181 through 3187 of the Civil Code of the State of California, and shall give right of action to such persons or their assigns in any suit brought upon this bond.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS – Section 12. Power of Attorney. Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts – SECTION 5. Surety Bonds and Undertakings. Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 21st day of May, 2014.

Report to City Council

TO: Mayor and City Council

FROM: John C. Terell, Community & Economic Development Director

AGENDA DATE: June 24, 2014

TITLE: 2013 ANNUAL REPORT OF THE PLANNING COMMISSION

RECOMMENDED ACTION

Recommendations:

1. **RECEIVE AND FILE** the 2013 Annual Report of the Planning Commission.

2. **AUTHORIZE** transmittal to the California State Office of Planning and Research in accordance with Government Code Section 65400(a)(2).

PLANNING COMMISSION RECOMMENDATION

The 2013 Annual Report was adopted by the Planning Commission on May 22, 2014 and is forwarded to the City Council in accordance with the California Government Code.

BACKGROUND

The Government Code mandates an annual Planning Commission report be presented to the legislative body (City Council) on the progress of the General Plan and its implementing mechanisms. The attached 2013 Annual Report of the Planning Commission provides the City Council with a report of the Planning Commission's actions and endeavors for the last year as required by the California Government Code.

DISCUSSION

In 2013, the Planning Commission held public hearings on nine applications to amend the Municipal Code and/or General Plan. In addition, the Commission acted upon 32 developer-initiated applications, which included Conditional Use Permits, Plot Plans, Developer Agreements and Tentative Tract Maps. The Planning Division staff also processed 676 administrative applications which include such projects and activities as new construction for minor development reviews (not within 300' of residential), sign permits, home occupation permits, and 637 plan check reviews.

FISCAL IMPACT

No fiscal impact.

NOTIFICATION

Posting of the City Council Agenda.

MAJOR ACCOMPLISHMENTS

MAJOR ACCOMPLISHMENTS

The Moreno Valley Planning Commission is committed to implementing the adopted General Plan, Development Code and Design Guidelines. The Development Code and Design Guidelines, combined with the adopted Landscape Development and Specifications, are the major tools to implement the General Plan.

The purpose of this Annual Report is to highlight significant accomplishments, summarize ongoing projects, and describe special studies that the Moreno Valley Planning Commission has been working on during the 2013 calendar year. A major function of this report is to acknowledge and evaluate the ongoing implementation of the General Plan. This report is prepared in accordance with Section 65040.5 of the California Government Code.

Major Accomplishments in 2013 were:

Major development projects reviewed by the Planning Commission in 2013 were as follows:

- PA12-0004 (Conditional Use Permit PUD), PA12-0005 (Tentative Tract Map PUD), PA12-0029 (Change of Zone), PA12-0030 (General Plan Amendment) and P12-129 (Variance) Tentative Tract Map 36436, Conditional Use Permit, Variance, Change of Zone and a General Plan Amendment to subdivide 43.52 acres into 159 single-family residential lots within a Planned Unit Development, modifying the zoning from Residential single-family10 (RS10), Residential 10 (R10) and Residential 15 (R15) multi-family to Residential 5 (R5) with lots ranging from 6,000 to 15,298 square feet and the General Plan Amendment to be consistent with the proposed development and the surrounding area and a Variance proposed for higher retaining walls due to the change in grade from the adjacent parcel to the east. Located south of Brodiaea Avenue to Cactus Avenue and east and west of the Quincy Channel.

- PA12-0024 (Plot Plan) and P13-007 (Variance) Plot Plan to construct a 7,453 square foot retail building located south of the existing CVS drug store in the Neighborhood Commercial (NC) zone; variance request for reduction in the required parking. Located at 36449 Perris Boulevard, south of John F. Kennedy (Parcel 4 of Parcel Map 36449).

- PA11-0028 (General Plan Amendment), PA11-0029 (Change of Zone), PA11-0030 (Municipal Code Amendment), PA12-0046 (General Plan Amendment), PA12-0047 (Change of Zone) The City of Moreno Valley used grant funds rewarded by SCAG's Compass Blueprint Program for the Alessandro Boulevard Corridor Demonstration Project. The project included rezoning areas along Alessandro Boulevard and northeast of Perris Boulevard and Iris Avenue to Residential 30 (R30), commercial rezoning of a parcel at the southwest corner of Perris Boulevard and Gentian Avenue and the creation of an overlay district, including parcels along Alessandro Boulevard that were identified suitable for inclusion in the mixed Use Overlay Districts in Phase I's Vision Plan. Citywide.

- PA12-0028 (Municipal Code Amendment) and P12-117 (Specific Plan Amendment) Amendment to update the Moreno Valley Industrial Area Specific Plan (SP 208) and zoning regulations contained in Title 9 of the City of Moreno Valley Municipal Code to include Emergency Shelters, Farm Worker Housing, and Single Room Occupancy Units (SRO); provided necessary consistency with the City of Moreno Valley's certified Housing Element.

- PA13-0006 (Plot Plan), PA13-0007 (Change of Zone), PA13-0008 (General Plan Amendment) and P13-029 (Variance) Plot Plan for a 141 unit affordable apartment project on an 8.5 acre parcel. The project includes eight apartment buildings, two clubhouses with tot lots and pools. Unit mix of 1 to 3 bedroom apartments ranging from 723 square feet to 1,301 square feet; change of zone required for development and general plan amendment from Neighborhood Commercial /R15 to R30 / open space to allow for higher density multiple family land uses and to protect the existing slopes and rock outcroppings. The proposed variance reduced the covered parking requirement from 2 spaces to 1 space per unit for the 3-bedroom units. Located at southeast corner of Alessandro Boulevard and Lasselle Street.

- PA13-0019 (Municipal Code Amendment) Amendment to update Municipal Code service station development standards to reduce service station restroom requirements allowing only one restroom for service stations with a customer service kiosk or convenience store under 500 square feet and two restrooms required for a convenience store or customer service kiosk 500 square feet and over. Citywide. ***(DENIED)***

- PA13-0009 (Conditional Use Permit) and P13-075 (Variance) Construction of a four island fueling station to include a 240 square foot kiosk with a Variance for a reduction in landscaping along the east property line. The site is in the Neighborhood Commercial (NC) zone and located at the northeast corner of Alessandro Boulevard and Indian Street.

- PA13-0023 (Conditional Use Permit) Conditional Use Permit for live entertainment within an existing restaurant to include karaoke and live music with dancing. The existing restaurant is in the Neighborhood Commercial (NC) zone. Located at 23040 Alessandro Boulevard.

- PA13-0027 (General Plan Amendment) 2014-2021 Housing Element Update. A public forum was held to obtain output from the community and for the Planning Commission to consider and comment on the 2014-2021 City of Moreno Valley Draft Housing Element Update. (***NO ACTION REQUIRED)***

- PA13-0002 (Tentative Parcel Map 35622) and P12-051 (Master Plot Plan) Tentative Parcel Map 36522 to combine 5 lots into one 9.5 acre parcel and a Master Plot Plan for current and future expansion of the existing church site; Master Plot Plan phased into 6 phases. The site is in the Office (O) and Residential 5 (R5) zones, located at the southeast corner of Perris Boulevard and Cottonwood Avenue.

- PA13-0003 (Municipal Code Amendment) SR-60 East Corridor Study includes economic and land use study information for vacant and underutilized parcels within four (4) sub-areas along the eastern portion of State Route 60 within the Moreno Valley City limits. ***(NO ACTION TAKEN)***

- PA13-0029 (Conditional Use Permit) Conditional Use Permit for a new 75 foot monopalm with 3 sector array, 4 panel antennas per sector and equipment shelter space. Located at 21250 Box Springs Road.

- PA13-0048 (Plot Plan) Plot Plan to build a 6,615 square foot automotive parts store in an existing retail center. Located at 23334 Sunnymead Boulevard.

- PA13-0041 (Plot Plan) Plot Plan for development of a 1,285 square foot medical office building on a 1.52 acre portion of an 18 acre site located adjacent to the Moreno Valley Community Hospital. Located at 27300 Iris Avenue, near the northwest corner of Iris Avenue and Oliver Street.

- PA13-0045 (Tentative Tract Map 36598) and P13-125 (Variance) Tentative Tract Map for an eight lot single-family residential subdivision; Variance to reduce minimum lot size and reduced side yard setbacks. Zone: Specific Plan 204 Village Residential (SP204VR). Located on south side of Myers Avenue, between Heacock and Indian Streets.

- PA13-0043 (Conditional Use Permit) Conditional Use Permit to build a 2,562 square foot fast food restaurant building with a drive-thru on a 36,680 square foot lot. Zone: Community Commercial (CC). Located at the northeast corner of Nason Street and Fir Avenue.

- PA12-0023 (Plot Plan) Plot Plan for the construction of a 400,130 square foot warehouse building, eliminate the existing truck storage facility on the southern portion of the site, the approved truck storage lot on the north portion of the site and the entitled 181,031 warehouse building (PA07-0167) on the southern portion of the site. Located in the Specific Plan 208 Industrial (I) zone which allows warehouse facilities; at the southwest corner of Perris Boulevard and San Michele Road.

Other Development Projects reviewed by the Planning Commission in 2013 as follow:

- P13-001 (Expanded Planning Review) Vacation of Mariposa Avenue east of Perris Boulevard approximately 1,950 feet. Located at the southeast corner of Perris Boulevard and Mariposa Avenue.

- P13-027 (Development Agreement Amendment) Amendment 4 to Development Agreement 102-89 regarding Tentative Tract Map 24203, to modify the terms of the agreement pertaining to the park site, and to extend the term of the agreement by five years. Located northeasterly of Pigeon Pass Road and Lawless Avenue.

- P13-085 (Expanded Planning Review) Vacation of Joy Street from Cactus Avenue to Brodiaea Avenue as conditioned by approved Plot Plan PA12-0020, LD45. Located at Joy Street, between Cactus Avenue to Brodiaea Avenue.

- P13-061 (Amended Conditional Use Permit) Amended Conditional Use Permit (PA05-0057) and Tract Map 32515 (PA04-0108) for a Planned Unit Development to remove the age restricted senior housing use requirement FROM an originally approved 174 lot detached clustered courtyard residential community on a 38.4 net-acre parcel of land in the Residential 5 (R5) land use district. Located at the northeast corner of Pigeon Pass Road and Old Lake Road.

- P10-088 (Amended Conditional Use Permit) Amended Conditional Use Permit for addition of a 7,725 square foot multi-purpose building adjacent to the existing building. Located within the Office Commercial (OC) zone at 25873 Alessandro Boulevard.

- P11-061 (Specific Plan Amendment) A Specific Plan Amendment to permit senior housing and conditionally permit hotels and assisted living facility uses within the existing Office Commercial land use district of the Towngate Specific Plan (SP200). Development and parking standards for the three uses as well as an update of existing handicap accessible parking standards. Located at the southwest corner of Bordiaea Avenue and Moreno Beach Drive.

- PA12-0032 (Conditional Use Permit) Conditional Use Permit for the sale of beer and wine in the existing Smoke n Cell Store. Located at 23031 Sunnymead Boulevard, Suite C.

GENERAL PLAN IMPLEMENTATION

GENERAL PLAN IMPLEMENTATION

The General Plan and the Development Code gives the City of Moreno Valley the tools necessary to guide the development of the City into the next century.

The Planning Commission held public hearings on amendments to the General Plan and the Development Code. The amendments were approved by the Planning Commission and forwarded to the City Council for their approval.

The following General Plan Amendments were recommended for approval by the Planning Commission in 2013:

- PA12-0004 (Conditional Use Permit PUD), PA12-0005 (Tentative Tract Map PUD), PA12-0029 (Change of Zone), PA12-0030 (General Plan Amendment) and P12-129 (Variance) Tentative Tract Map 36436, Conditional Use Permit, Variance, Change of Zone and a General Plan Amendment to subdivide 43.52 acres into 159 single-family residential lots within a Planned Unit Development, modifying the zoning from Residential single-family10 (RS10), Residential 10 (R10) and Residential 15 (R15) multi-family to Residential 5 (R5) with lots ranging from 6,000 to 15,298 square feet and the General Plan Amendment to be consistent with the proposed development and the surrounding area and a Variance proposed for higher retaining walls due to the change in grade from the adjacent parcel to the east. Located south of Brodiaea Avenue to Cactus Avenue and east and west of the Quincy Channel.

- PA11-0028 (General Plan Amendment), PA11-0029 (Change of Zone), PA11-0030 (Municipal Code Amendment), PA12-0046 (General Plan Amendment), PA12-0047 (Change of Zone) The City of Moreno Valley used grant funds rewarded by SCAG's Compass Blueprint Program for the Alessandro Boulevard Corridor Demonstration Project. The project included rezoning areas along Alessandro Boulevard and northeast of Perris Boulevard and Iris Avenue to Residential 30 (R30), commercial rezoning of a parcel at the southwest corner of Perris Boulevard and Gentian Avenue and the creation of an overlay district, including parcels along Alessandro Boulevard that were identified suitable for inclusion in the mixed Use Overlay Districts in Phase I's Vision Plan. Citywide.

- PA13-0006 (Plot Plan), PA13-0007 (Change of Zone), PA13-0008 (General Plan Amendment) and P13-029 (Variance) Plot Plan for a 141 unit affordable apartment project on an 8.5 acre parcel. Project to include eight apartment buildings, two clubhouses with tot lots and pools. Unit mix of 1 to 3 bedroom apartments ranging from 723 square feet to 1,301 square feet; change of zone required for development and general plan amendment from Neighborhood Commercial /R15 to R30 / open space to allow for higher density multiple family land uses and to protect the existing slopes and rock outcroppings. Site was previously graded under permit; proposed variance to reduce the covered parking requirement from 2 spaces to 1 space per unit for the 3-bedroom units. Located at southeast corner of Alessandro Boulevard and Lasselle Street.

- PA13-0027 (General Plan Amendment) 2014-2021 Housing Element Update. A public forum to obtain output from the community and for the Planning Commission to consider and comment on the 2014-2021 City of Moreno Valley Draft Housing Element Update. (***NO ACTION REQUIRED)***

BUDGET OFFICER	
CITY ATTORNEY	
CITY MANAGER	

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: PA08-0041 (P09-094, P10-088) – ACCEPT AGREEMENT AND SECURITY FOR PUBLIC IMPROVEMENTS. DEVELOPER – SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS DBA MORENO HILLS SDA CHURCH, RIVERSIDE, CA 92513

RECOMMENDED ACTION

Recommendations:

1. Accept the Agreement for Public Improvements and Securities for PA08-0041(P09-094, P10-088).

2. Authorize the Mayor to execute the Agreement.

3. Direct the City Clerk to forward the signed Agreement to the County Recorder's Office for recordation.

4. Authorize the City Engineer to execute any future time extension amendments to the agreement, subject to City Attorney approval, if the required public improvements are not completed within said timeframe.

SUMMARY

This report recommends approval of the agreement by the City of Moreno Valley and Southeastern California Conference of Seventh-Day Adventists DBA Moreno Hills SDA Church, to construct the required public improvements that are associated to PA08-0041 (P09-094, P10-088). The project is located on the South side of Alessandro Boulevard, West of Lasselle Street. The project is funded by Southeastern California Conference of Seventh-Day Adventists DBA Moreno Hills SDA Church.

DISCUSSION

On March 12, 2009 the City of Moreno Valley Planning Commission approved PA08-0041 as a proposed church within an existing building. The church will occupy all of the 5,368 square feet of the existing building. P09-094 (Phase II) and P10-088 (parking lot expansion) expand the existing building, and respectively add a parking lot to the south side of the property. The parcel size is 1.8 acres.

The developer of this project has completed an Agreement for Public Improvements. The developer agrees to perform and complete all of the required street improvements within twenty-four (24) months of the date the agreement is executed. The street improvements include, but are not limited to: asphalt, curb, gutter, sidewalk, and street lights. The City Engineer may execute any future amendments to the agreement, subject to City Attorney approval, if the required street improvements are not completed within said timeframe.

Accompanying the agreement is a Faithful Performance bond in the amount of $61,000 and a Material and Labor bond in the amount of $30,500 issued by The Hartford Fire Insurance Company.

ALTERNATIVES

1. Accept the Agreement for Public Improvements and Securities for PA08-0041 (P09-094, P10-088). Authorize the Mayor to execute the Agreement. Direct the City Clerk to forward the signed Agreement to the County Recorder's Office for recordation. Authorize the City Engineer to execute any future time extension amendments to the agreement, subject to City Attorney approval, if the required public improvements are not completed within said timeframe.

2. Do not accept the Agreement for Public Improvements and Securities for PA08-0041 (P09-094, P10-088). Do not authorize the Mayor to execute the Agreement. Do not direct the City Clerk to forward the signed Agreement to the County Recorder's Office for recordation. Do not authorize the City Engineer to execute any future time extension amendments to the agreement, subject to City Attorney approval, if the required public improvements are not completed within said timeframe.

FISCAL IMPACT

No fiscal impact is anticipated.

CITY COUNCIL GOALS

PUBLIC FACILITIES AND CAPITAL PROJECTS:
Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

NOTIFICATION

FOR
PROJECT NO. PA08-0041 (P09-094, P10-088)

This Agreement, made and entered into by and between the City of Moreno Valley , State of California , hereinafter called City, and **Southeastern California Conference of Seventh-day Adventists dba Moreno Hills SDA Church**, herein after called Developer, on the date the City signs this agreement.

WITNESSETH:

FIRST: Developer, for and in consideration of the approval by the City of the final map of that certain land division, or that certain other land development project, known as **PA08-0041 (P09-094, P10-088)** agrees, at Developer's own expense, to furnish all labor, equipment and material necessary, and within **TWENTY-FOUR (24)** months from the date this Agreement is executed, to perform and complete in a good and workmanlike manner, all of the required improvements in accordance with those improvement plans for said project which have been approved by the City Engineer, and are on file in the office of the City Engineer, and to do all work incidental thereto in accordance with the standards set forth in City ordinances and regulations, and pay all costs of engineering necessary in connection therewith, which are expressly made a part of this Agreement. All of the above required work shall be done under the inspection of and to the satisfaction of the City Engineer, and shall not be deemed complete until approved and accepted as complete by the City. Developer further agrees to guarantee the required improvements for a period of one year following acceptance by the City and during this one year period to repair and replace, to the satisfaction of the City Engineer, any defective work or labor done or defective materials furnished. Developer shall complete the improvements described in this paragraph pursuant to Section 66462, Government Code. Developer shall also complete any offsite improvements required as a condition of approval and with plans approved by the City Engineer at such time as the City acquires an interest in the land which will permit the improvements to be made, and the Developer waives the 120 day time limitation set forth in Section 66462.5, Government Code.

Security to guarantee the performance of this agreement shall be in the following amounts:

Faithful Performance security shall be in the sum of **SIXTY ONE THOUSAND AND NO/100** Dollars (*****$61,000.00*****). The estimated cost of said work and improvements, pursuant to the Preliminary Estimate of Cost labeled Exhibit A attached hereto.

Labor and Material security shall be in the sum of **THIRTY THOUSAND FIVE HUNDRED AND NO/100** Dollars (*****$30,500.00*****). The estimated cost securing payment of labor and materials is fifty (50) percent of the total cost estimate of the improvements.

Developer further agrees to guarantee the required improvements for a period of one year following acceptance by the City and during this one year period to repair and replace, to the satisfaction of the City Engineer, any defective work or labor done or defective materials furnished. Upon entering the warranty period, the City shall retain ten percent of the original faithful performance security. Developer reserves the right to substitute the form of security, in accordance with the Moreno Valley Municipal Code, at any time during the term of this agreement, subject to approval of the City Engineer and City Attorney.

SECOND: Developer agrees to file with City, prior to the date this Agreement is executed, a good and sufficient improvement security in an amount not less than the estimated cost of the work and improvements for the faithful performance of the terms and conditions of this Agreement, and good and sufficient security for payment of labor and materials in the amount prescribed by City ordinances and regulations to secure the claims to which reference is made in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California. Developer agrees to renew each and every said bond or bonds with good and sufficient sureties or increase the amounts of said bond or bonds, or both, within ten (10) days after being notified by the City Engineer that the sureties or amounts are insufficient. Notwithstanding any other provision herein, if Developer fails to take such action as is necessary to comply with said notice, he shall be in default of this Agreement unless all required improvements are completed within ninety (90) days of the date on which

the City Engineer notified the Developer of the insufficiency of said bonds. Developer reserves the right to substitute the form of security in accordance with the City's Municipal Code at anytime during the term of this agreement, subject to approval by the City Engineer and City Attorney.

THIRD: Developer agrees to pay to the City the actual cost of such inspection of the works and improvements as may be required by the City Engineer. Developer further agrees that, if suit is brought upon this Agreement or any bond guaranteeing the completion of the required improvements, all costs and reasonable expenses and fees incurred by the City in successfully enforcing such obligations shall be paid by Developer and guaranteed by the surety in addition to the face amount of the security, including reasonable attorney's fees, and that, upon entry of judgment, such costs, expenses and fees shall be taxed as costs and included in any judgment rendered.

FOURTH: City shall not, nor shall any officer or employee of City, except for its or their sole negligence, be liable or responsible for any accident, loss or damage happening or occurring to the works specified in this Agreement prior to the completion and approval thereof, nor shall City or any officer or employee thereof, be liable for any persons or property injured by reason of the nature of the work, or by reason of the acts or omissions of Developer, his agents or employees, in the performance of the work, and all of said liabilities are assumed by Developer. Developer agrees to protect, defend and hold harmless City and the officers and employees thereof from all loss, liability or claim because of, or arising out of the acts or omissions of Developer, his agents and employees, in the performance of this Agreement, or arising out of the use of any patent or patented article in the performance of this Agreement.

FIFTH: The Developer hereby grants to the City and/or to any authorized agent or employee of the City, the irrevocable permission to enter upon the lands of the above-referenced land division for the purpose of completing the improvements. This permission shall terminate in the event that the Developer has completed the work within the time specified or any extension thereof granted by the City.

SIXTH: Developer agrees at all times, up to the completion and acceptance of the improvements by the City, to give good and adequate warning to the traveling public of each and every dangerous condition caused by the construction of the improvements, and to protect the traveling public from such defective or dangerous conditions. The Developer shall keep all traveled ways that are a part of, or affected by the construction of this project free and clear of mud, dirt and debris and shall provide twice monthly street sweeping service. A copy of the contract for street sweeping service shall be provided to the City. The Developer's obligation under this provision shall be secured by the bonds securing performance of this Agreement.

SEVENTH: The Developer, his agents and employees, shall give notice to the City Engineer at least 48 hours before beginning any work and shall furnish said City Engineer all reasonable facilities for obtaining full information with respect to the progress and manner of work.

EIGHTH: If the Developer, or his agents or employees, neglects, refuses, or fails to prosecute the work with such diligence as to insure its completion within the specified time, or within such extensions of time as have been granted by the City, or if the Developer violates, neglects, refuses, or fails to perform satisfactorily any of the provisions of the plans and specifications, he shall be in default of this Agreement and notice in writing of such default shall be served upon him. The City Council shall have the power, on recommendation by the City Engineer, to terminate all rights of the Developer because of such default. The determination by the City Engineer of the question as to whether any of the terms of the Agreement or specifications have been violated, or have not been performed satisfactorily, shall be conclusive upon the Developer, and any and all parties who may have any interest in the Agreement or any portion thereof. The foregoing provisions of this section shall be in addition to all other rights and remedies available to the City under law.

NINTH: It is further agreed by and between the parties hereto, including the surety or sureties on the bonds securing this Agreement that, in the event it is deemed necessary to extend the time of completion of the work contemplated to be done under this Agreement, extensions of time **may** be granted by the City from time to time, either at its own option, or upon request of Developer, and such extensions shall in no way affect the validity of this Agreement or release the surety or sureties on said bonds, Developer further agrees to maintain the aforesaid bonds in full force and effect during the terms of this Agreement, including any extensions of time as may be granted therein.

TENTH: It is understood and agreed by the parties hereto that if any part, term or provision of this Agreement is by the courts held to be unlawful and void, the validity of the remaining portions shall not be affected and the rights and obligations of the parties shall be construed and enforced as if the Agreement did not contain the particular part, term or provision held to be invalid.

ELEVENTH: Any notice or notices required or permitted to be given pursuant to this Agreement shall be served on the other party by mail, postage prepaid, at the following addresses:

City:

City Engineer
P.O. Box 88005

INSTRUCTIONS FOR COMPLETING THIS FORM

Any acknowledgment completed in California must contain verbiage exactly as appears above in the notary section or a separate acknowledgment form must be properly completed and attached to that document. The only exception is if a document is to be recorded outside of California. In such instances, any alternative acknowledgment verbiage as may be printed on such a document so long as the verbiage does not require the notary to do something that is illegal for a notary in California (i.e. certifying the authorized capacity of the signer). Please check the document carefully for proper notarial wording and attach this form if required.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. he/she/~~they~~, is /~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
  - Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
  - Indicate title or type of attached document, number of pages and date.
  - Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document

Surety The Hartford Fire Insurance Company

Principal Southeastern California Conference of Seventh-day Adventists dba Moreno Hills SDA Church

Address One Hartford Plaza

Address P.O. Box 79990

City/Zip Hartford, CT 06115-1701

City/Zip Riverside, CA 92513-1990

WHEREAS, the City Council of the City of Moreno Valley, County of Riverside, State of California, and **SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS DBA MORENO HILLS SDA CHURCH,** (hereinafter designated as "Principal") have entered into, or are about to enter into the attached agreement whereby Principal agrees to install and complete the above-designated public improvements, relating to **PA08-0041 (P09-094, P10-088)**, which agreement is hereby referred to and made a part hereof; and,

WHEREAS, said principal is required under the terms of said agreement to furnish bond for the faithful performance of said agreement;

NOW, THEREFORE, we the Principal, and **The Hartford Fire Insurance Company**, as Surety, are held and firmly bound to the City of Moreno Valley in the penal sum of **SIXTY ONE THOUSAND AND NO/100** Dollars **(***$61,000.00***)**, lawful money of the United States, for the payment of which sum will and truly to be made, we bind ourselves, our heirs, successors, executors and administrator, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the above bonded Principal, his or its heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and provisions in the said agreement and any alteration thereof made as therein provided, on his or specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City of Moreno Valley, its officers, agents and employees, as therein stipulated, then this obligation shall become null and void; otherwise, it shall be and remain in full force and effect.

As part of the obligation secured hereby, and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by City in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

FAITHFUL PERFORMANCE BOND (Page 2 of 2)
PROJECT NO. PA08-0041 (P09-094, P10-088)

The surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the agreement or to the work to be performed thereunder or the specifications accompanying the same shall in anywise affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the agreement or to the work or to the specifications. Surety further stipulates and agrees that the provisions of Section 2845 of the Civil Code are not a condition precedent to Surety's obligations hereunder and are hereby waived by Surety.

When the work covered by the agreement is complete, the City Council of the City of Moreno Valley will accept the work and thereupon the amount of the obligation of this bond is reduced by 90%, with the remaining 10% held as security for the one-year maintenance period provided for in the agreement(s).

IN WITNESS WHEREOF, this instrument has been duly executed by the Principal and Surety above named on May 7, 2014.

WHEREAS, the City Council of the City of Moreno Valley, County of Riverside, State of California, and **SOUTHEASTERN CALIFORNIA CONFERENCE OF SEVENTH-DAY ADVENTISTS DBA MORENO HILLS SDA CHURCH,** (hereinafter designated as "Principal") have entered into, or are about to enter into the attached agreement whereby Principal agrees to install and complete the above-designated public improvements, relating to **PA08-0041 (P09-094, P10-088)**, which agreement is hereby referred to and made a part hereof; and,

WHEREAS, under the terms of said agreement, principal is required before entering upon the performance of the work, to file a good and sufficient payment bond with the City of Moreno Valley to secure the claims to which reference is made in Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the State of California.

NOW, THEREFORE, we the Principal, and the undersigned as corporate Surety, are held and firmly bound unto the City of Moreno Valley and all contractors, subcontractors, laborers, material persons and other persons employed in the performance of the aforesaid agreement and referred to in the aforesaid Civil Code in the sum of **THIRTY THOUSAND FIVE HUNDRED AND NO/100** Dollars **(***$30,500.00***)**, lawful money of the United States, for materials furnished or labor thereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, that said Surety will pay the same in an amount not exceeding the amount hereinabove set forth, also in case suit is brought upon this bond, will pay, in addition to the face amount hereof, costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by City in successfully enforcing such obligation, to be awarded and fixed by the court, and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code, so as to give a right of action to them or their assigns in any suit brought upon this bond.

MATERIAL AND LABOR BOND (Page 2 of 2)
PROJECT NO. PA08-0041(P09-094, P10-088)

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

The Surety hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the agreement or the specifications accompanying the same shall in any manner affect its obligation on this bond, and it does hereby waive notice of any such change, extension, alteration or addition. Surety further stipulates and agrees that the provision of Section 2845 of the Civil Code are not a condition precedent to the Surety's obligations hereunder and hereby waived by the Surety.

In witness whereof, this instrument has been duly executed by the Principal and Surety above named, on May 7, 2014.

Report to City Council

TO: Mayor and City Council

FROM: Richard Teichert, Chief Financial Officer

AGENDA DATE: June 24, 2014

TITLE: REVIEW GENERAL FUND COST ALLOCATION PLAN

RECOMMENDED ACTION

Recommendations:

1. Receive and file the proposed General Fund Cost Allocation Plan.

2. Authorize revenue and expenditure appropriations as identified within the Fiscal Impact section of this report.

SUMMARY

The City's Cost Allocation Plan is used to apportion administrative or indirect service costs to operating departments in an equitable manner. This allocation plan is updated periodically with the assistance of consultants with specific expertise in this area. This report will outline the updated Cost Allocation Plan to be used as part of the City budget process.

The consulting firm of NBS was retained by the City to analyze the City's cost allocation plan (CAP). The scope of the work was to develop an equitable methodology and framework for identifying and allocating the cost of providing a service. The City shall also receive an Excel based model to provide a method to update the study on an annual basis going forward.

A critical step in determining the full cost of a service is the allocation of the City's overhead or indirect costs. NBS has prepared a cost allocation plan (CAP) which allocated central service department costs, such as Finance, City Clerk, and City

Attorney to the City's operating departments. Once these overhead costs are identifiable to a particular department and program, the consultant is able to compute the corresponding indirect cost in relation to the direct cost of providing a specific service.

Furthermore, based upon the findings of the CAP, the consultant will also utilize the study findings to examine and develop an updated user fee schedule based upon the allocation of overhead costs. The development of the updated user fee study is currently in process and will be brought to Council at a later date.

DISCUSSION

A Cost Allocation Plan is an analytical tool through which a city can apportion administrative or indirect service costs to individual departments or cost centers within its organization. Allocated costs are typically termed "city-wide overhead". Most overhead/indirect service costs are those expenditures which provide support services or oversight to each department city-wide and typically include: legislative, managerial, financial, administrative, legal, personnel, technology, building and equipment use, and risk management activities. Allocated costs may also include services within non-administrative/support services departments that provide targeted benefit to specific departments. A general example of this would be specific skill sets from one department that actually exist to provide support to a department outside its own.

The methods for allocating costs within this analysis are described briefly below:

- An organizational analysis was conducted to identify entire departments or functions within departments city-wide which provide either overhead or indirect services broadly or specifically to departments outside their own. In addition to evaluating published data sources, NBS conferred with City staff on multiple occasions to identify and consider allocable overhead and indirect services across all City departments.

- Line-item expenditures in each support service budget unit were reviewed for their inclusion. For example, large one-time expenditures for capital outlay, transfers between funds, debt service, or special contract services were excluded. The resulting "allocable" expenditures are then linked to each overhead/indirect service identified through the organizational analysis to create allocable cost pools.

- An allocation factor was assigned to each cost pool. An allocation factor is a data set used as the basis for distributing overhead/indirect service costs to budget units receiving support or benefit from the cost pool. Allocation factors can include general data sets, such as employee count or budgeted expenditures in each department or estimates of how time is spent across departments and programs. Ultimately, the allocation factor should represent the actual or estimated workload of the function allocated or a reasonable and generally accepted means of apportioning benefit for the function allocated.

- Cost allocations were performed. Each cost pool was distributed across budget units following the distribution inherent in the selected allocation factor for each pool. This resulted in a total share of overhead/indirect service costs for each budget unit.

- Various outcomes were generated based on the total share of overhead/indirect service costs identified for each budget unit.

- The results of the cost allocation plan identify the full cost allocation. Additional adjustments are being proposed for implementation of the CAP to provide for a cost recovery level in-line with prior years. The level of cost recovery will continue to be examined on an annual basis as part of the budget adoption process.

The Cost Allocation Plan was developed based on operations and costs from FY 2012-13. Beyond expenditure information provided, original data sets were also developed by NBS to support the work of this study, including: estimated staff time at various levels of detail, and allocation statistics. To develop these data sets, NBS prepared questionnaires and conducted meetings and in-person and telephone interviews with individual departments. NBS and departmental management reviewed and questioned all responses to ensure the best possible set of data for the CAP.

FISCAL IMPACT

The implementation of the Cost Allocation Plan will result in an additional $18,796 being recovered by the General Fund for FY 2014/15. The Cost Allocation Plan model will be reviewed annually and any future impacts will be presented as part of the budget adoption process. The development of the Cost Allocation Plan will also provide an essential component of determining cost as the City reviews the current user fees and internal allocation of Internal Service Funds.

CITY COUNCIL GOALS

Revenue Diversification and Preservation. Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

COMMITTEES

The proposed General Fund Cost Allocation Plan was presented to the Finance Sub-Committee on June 5, 2014 and recommended for approval by the City Council.

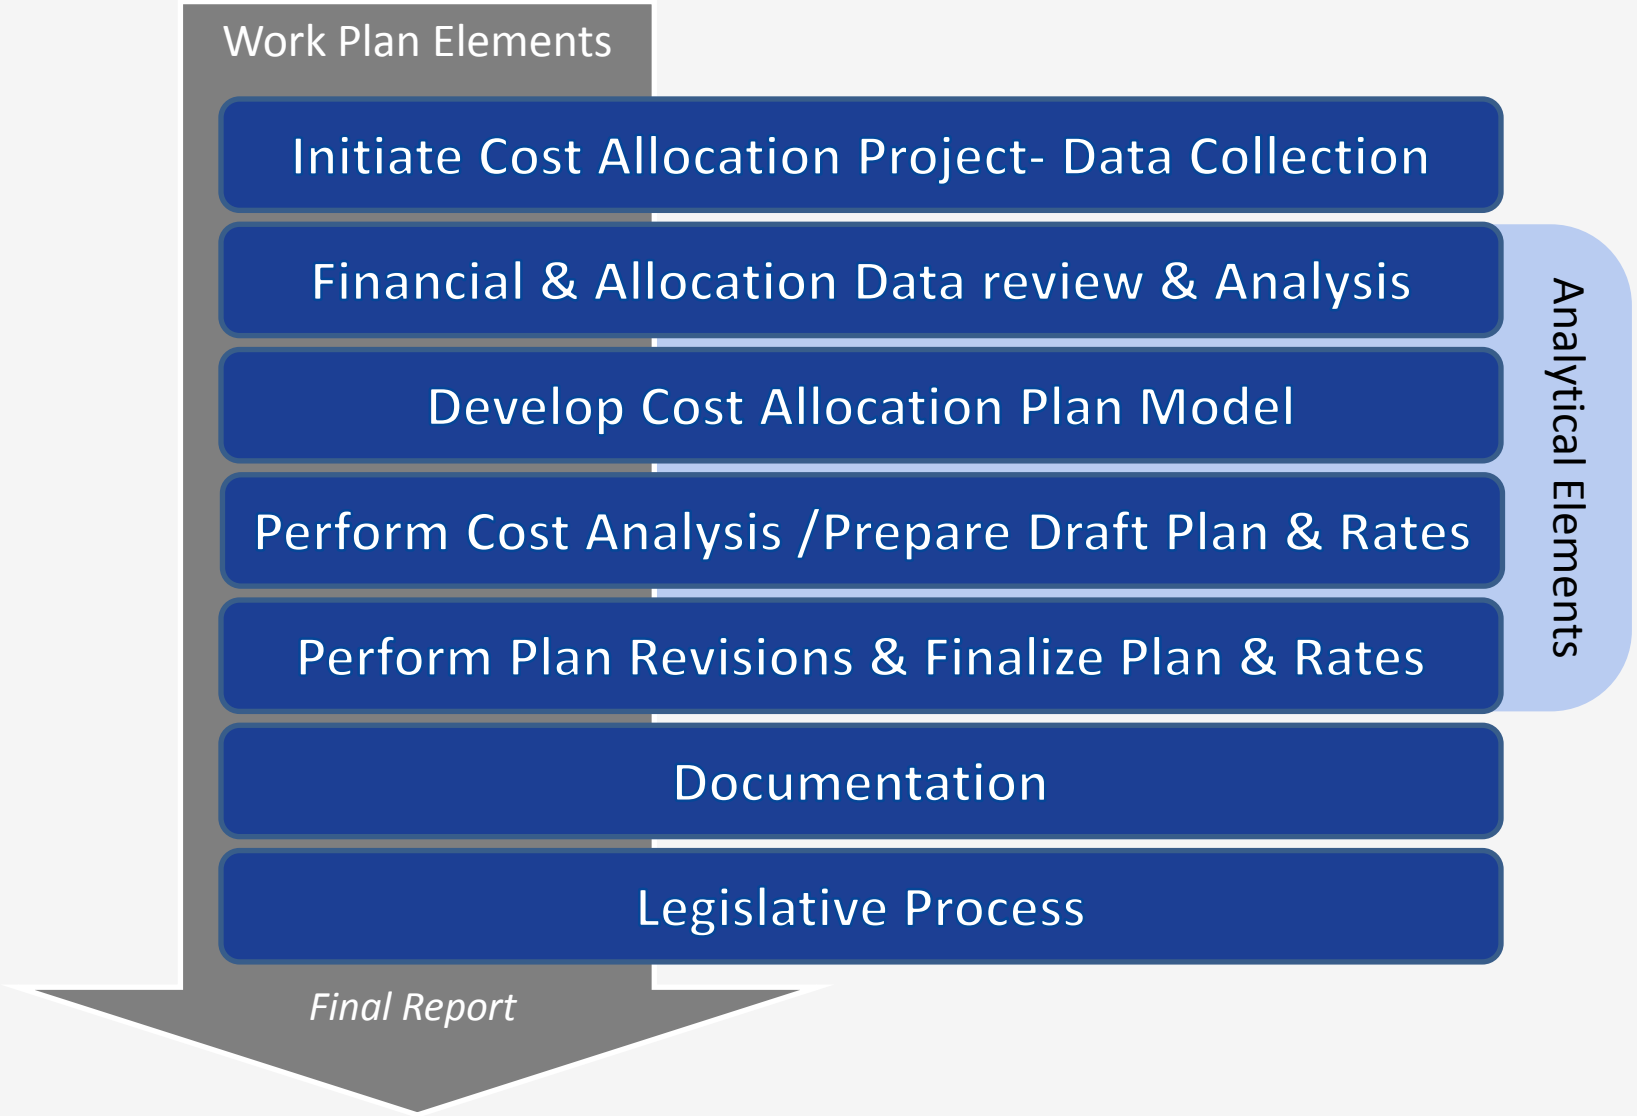
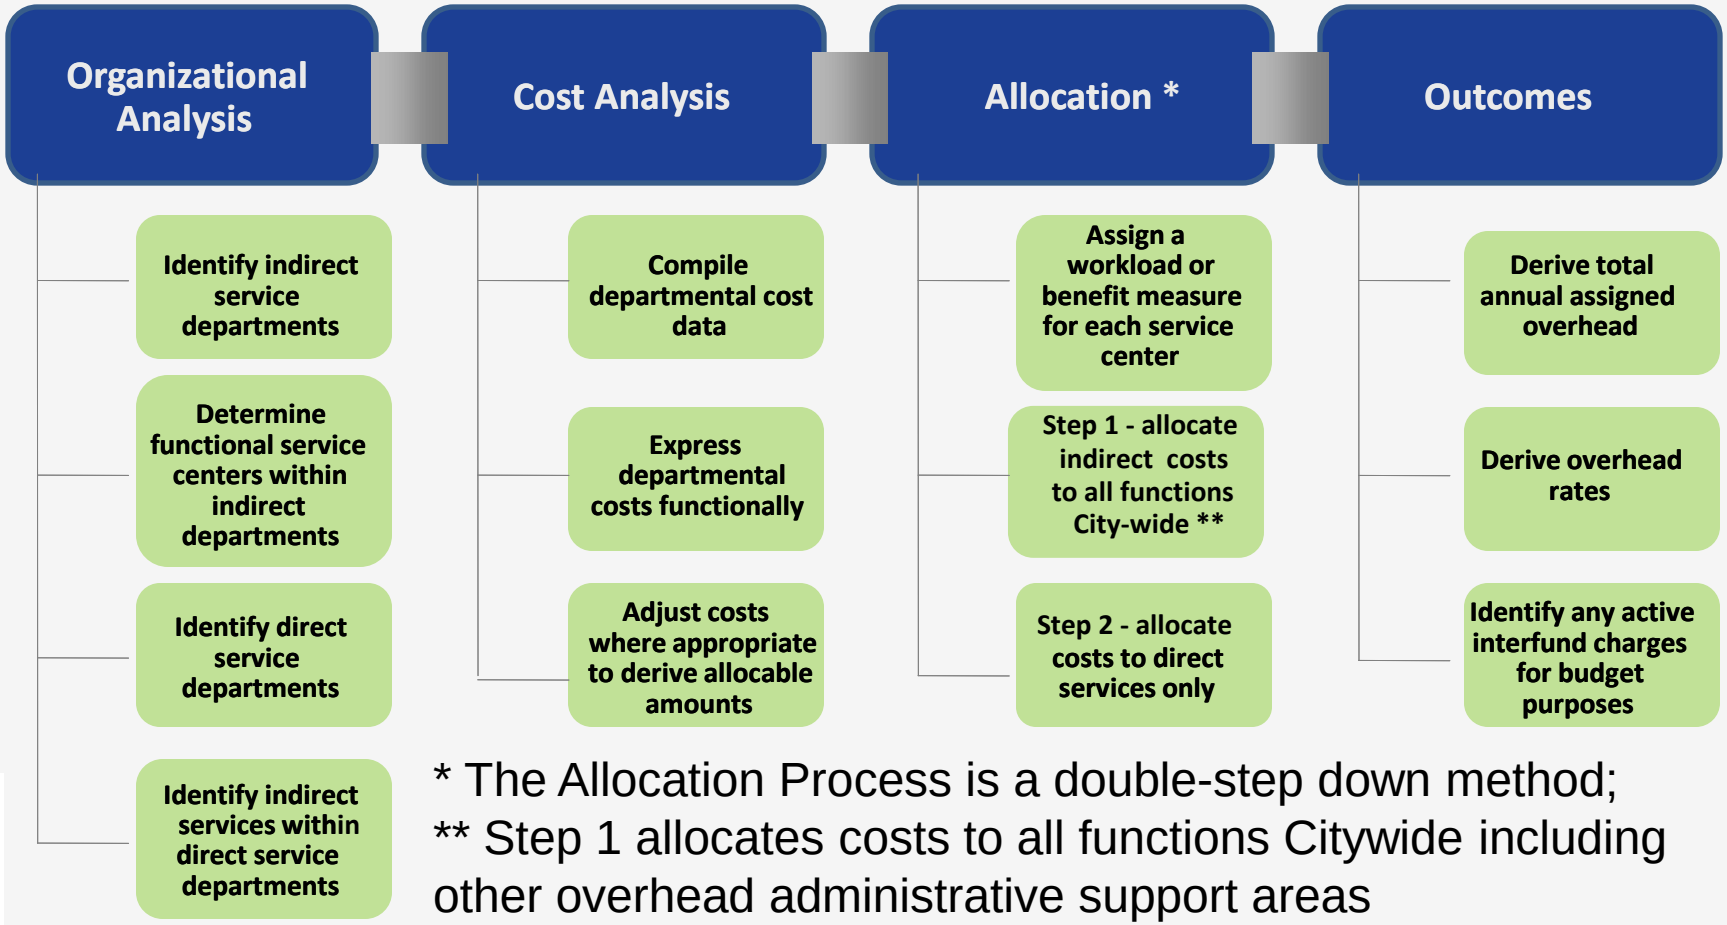
Cost Allocation Plan – Final Results
Full Cost Iteration

City Council Presentation
June 24, 2014

WORK PLAN OVERVIEW

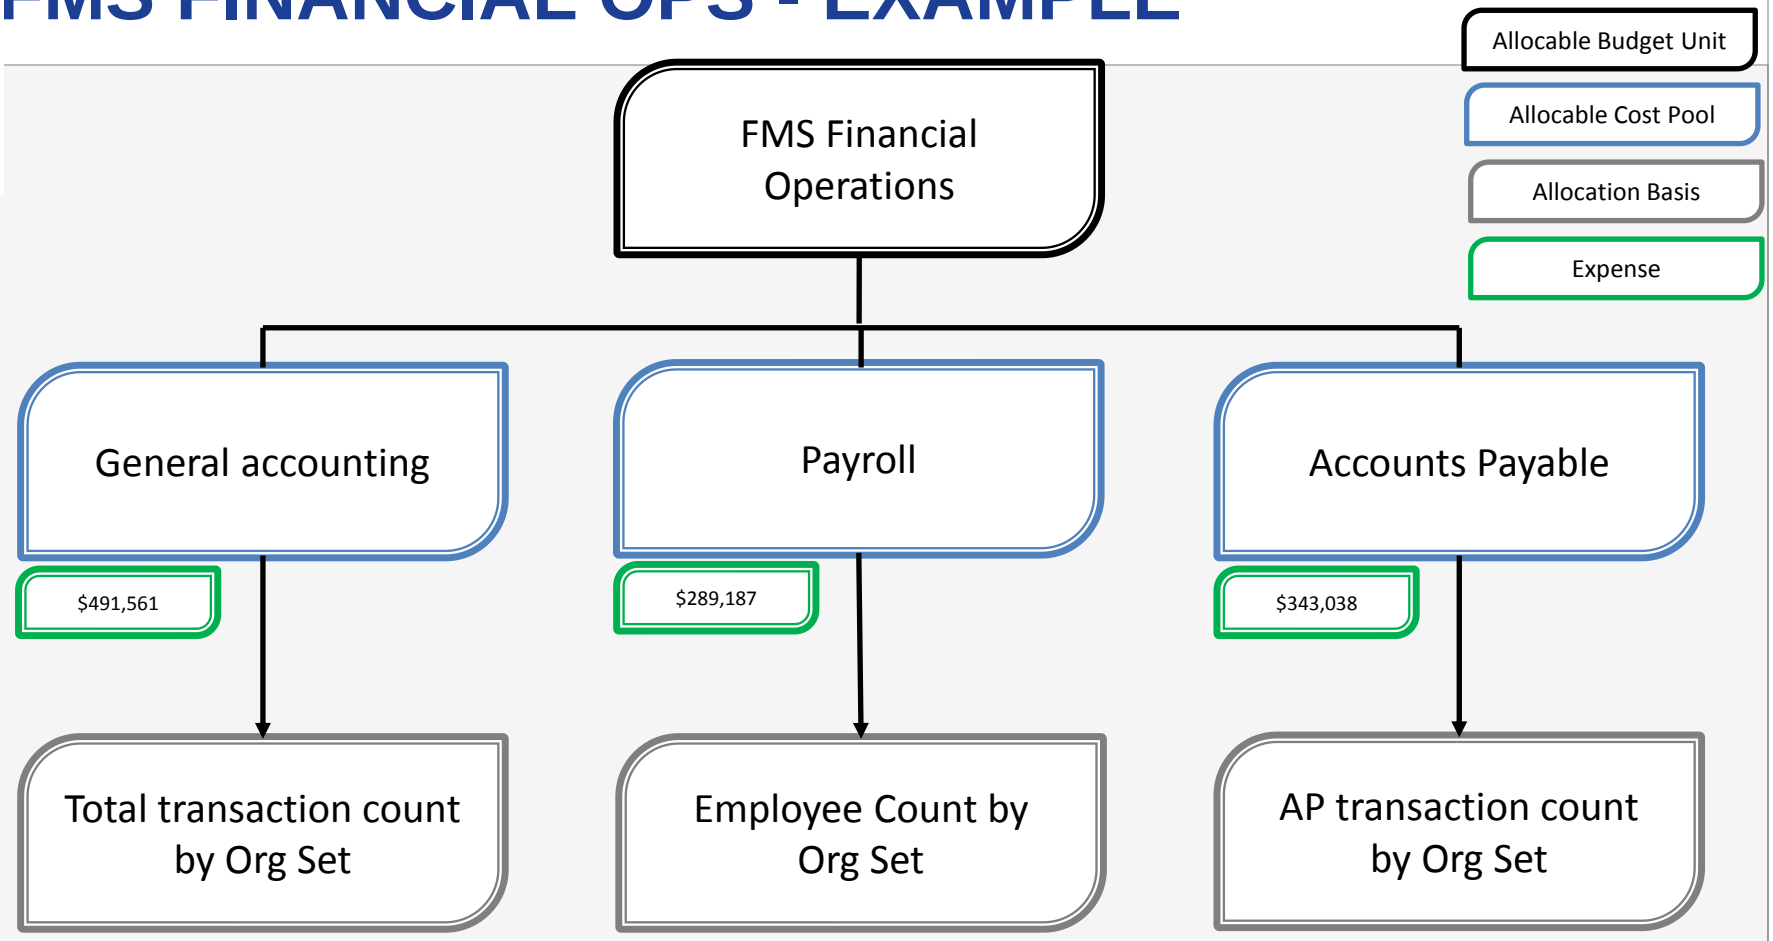


COST ALLOCATION PLAN PROCESS



* The Allocation Process is a double-step down method;
** Step 1 allocates costs to all functions Citywide including other overhead administrative support areas

FMS FINANCIAL OPS - EXAMPLE



1010-30-36 FMS- Financial Operations

Cost Allocation Plan: Purpose and Uses

1. *Defines Citywide overhead services costs*
2. *Allocates costs fairly and equitably to service providing departments*
3. *Costs are recovered through Utility, Special Revenue Funds, User and Regulatory Fees, and Other Agency Support, etc.*
4. *Indirect cost calculation used to prepare fully burdened hourly rates for purposes of full cost recovery in user fees, outside agency agreements or any other purpose.*

Outcomes from Full Cost Allocation Plan

City will not seek indirect reimbursement at this time. Offset with other revenues

City plans to seek indirect reimbursement

Fund	Resulting Allocations	% of Total
GF Operations; including Fire, Police, Community Economic Development, Library, Successor Agency and other grants	$12.7M	88%
Special Revenue Funds	$1.8M	12%
Total	**$14.5M**	**100.00%**

- Detail of Special Revenue Funds to be recovered is shown in next slide [$1.8M]

Final Results, Implications, and Considerations

Final Results (NBS):

- The Full Cost version of the Plan has been completed, reviewed and finalized
- Delivery of analytical models and final report – complete
- Final results for the Cost Allocation Plans represent the maximum amount recoverable.

Final Results, Implications, and Considerations

- Implementation:
  - Finance Sub-Committee: June 5
  - City Council: June 24
- Next Steps
  - Complete OMB A-87 model
  - Complete ICRP Model (Public Works)
  - Examine ISF allocations

Report to City Council

TO: Mayor and City Council

FROM: Jane Halstead, City Clerk, CMC

AGENDA DATE: JUNE 24, 2014

TITLE: CONFLICT OF INTEREST CODE – AGENCY REVIEW

RECOMMENDED ACTION

Recommendation:

1. That the City Council, as the code reviewing body of the City of Moreno Valley, direct each agency, which has adopted a Conflict of Interest Code pursuant to the provisions of the Political Reform Act of 1974 (Government Code §87100, et. seq.), to review its Conflict of Interest Code, and if a change is necessary, to submit its biennial report to the City Clerk no later than October 1, 2014.

SUMMARY

The California Government Code §87306.5 provides that by no later than July 1 of each even-numbered year, the code reviewing body (City Council) shall direct every local agency, which has adopted a Conflict of Interest Code in accordance with the Political Reform Act of 1974 (Government Code §87100, et. seq.) to review its Conflict of Interest Code and, if a change in its code is necessitated by changed circumstances, submit an amended Conflict of Interest Code in accordance with subdivision (a) of §87302 and §87303 to the code reviewing body.

The code is not effective until approved by the code reviewing body. Within 90 days after receiving any proposed amendments or revisions, the code reviewing body shall do one of the following: (a) approve the proposed code as submitted; (b) revise the proposed code and approve it as revised; or (c) return the proposed code to the agency for revision and resubmission within 60 days. The code reviewing body shall either approve the revised code or revise it and approve it. When an amendment is approved by the code reviewing body, it will be deemed adopted and will be promulgated by the agency.

Upon review of its code, if no change in the code is required, the local agency head (City Manager) shall submit a written statement to that effect to the code reviewing body no later than October 1 of the same year.

DISCUSSION

Attached to this report are the following documents provided by the Fair Political Practices Commission for each agency's consideration and use:

Biennial Notice

How to Review a Conflict of Interest Code

Upon receipt of any amendments to the Conflict of Interest Code, which may include the addition or deletion of any staff positions in the City, staff will present the appropriate resolutions for Council approval.

ALTERNATIVES

Not applicable. The biennial review by every local government agency of its conflict of interest is a statutory requirement. As code reviewing body, the City Council must direct each local agency, which has adopted such conflict of interest code, to review its code and determine whether any changes are necessary.

FISCAL IMPACT

There is no fiscal impact associated with the recommended action.

NOTIFICATION

Publication of the agenda.

2014 Local Agency Biennial Notice

Name of Agency: _____

Mailing Address: _____

Contact Person: _____ Phone No: _____

E-Mail: _____

Accurate disclosure is essential to monitor whether officials have conflicts of interest and to help ensure public trust in government. The biennial review examines current programs to ensure that the agency's code includes disclosure by those agency officials who make or participate in making governmental decisions.

This agency has reviewed its conflict of interest code and has determined that (check one box):

☐ **An amendment is required. The following amendments are necessary:**
(Mark all that apply.)

- ○ Include new positions (including consultants) that must be designated
- ○ Revise disclosure categories
- ○ Revise the titles of existing positions
- ○ Delete positions that no longer make or participate in making governmental decisions
- ○ Other *(describe)* _____

☐ **The code is currently under review by the code reviewing body.**

☐ **No amendment is required.** (If your code is more than five years old, amendments may be necessary.)

Verification

This agency's conflict of interest code accurately designates all positions that make or participate in the making of governmental decisions. The disclosure categories assigned to those positions accurately require the disclosure of all investments, business positions, interests in real property, and sources of income that may foreseeably be affected materially by the decisions made by those holding designated positions. The code includes all other provisions required by Government Code Section 87302.

_____ _____
Signature of Chief Executive Officer Date

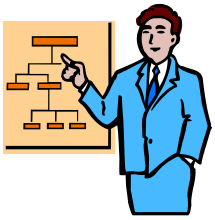
Complete and return this notice regardless of how recently your code was approved or amended. Please return this notice no later than **October 1, 2014**, or by the date specified by your agency, if earlier, to:
(PLACE RETURN ADDRESS OF THE CODE REVIEWING BODY HERE)

PLEASE DO NOT RETURN THIS FORM TO THE FPPC

This page intentionally left blank.

How to Review a Conflict-of-Interest Code[1]

Who is a Designated Employee?



Designate these Positions:

High level positions that have authority to vote on a matter, appoint a person, obligate or commit his or her agency to a course of action, or enter into any contractual agreement on behalf of his or her agency.

Mid-level positions that have authority to negotiate decisions on behalf of the agency, without significant substantive review; or

Positions that advise or make recommendations to the decision-maker by conducting research or an investigation, preparing or presenting a report, analysis or opinion that requires the exercise of judgment on the part of the employee and the employee is attempting to influence the decision.

Who Should Not be Designated?

A designated employee is an officer, employee, member, or consultant of an agency whose position is designated in the code because the position entails the making or participation in the making of governmental decisions that may foreseeably have a material effect on his or her financial interest. *(Government Code Section 82019.)*

Do Not Designate these Positions:

- Board of Supervisors
- Chief Administrative Officers
- District Attorneys
- County Counsels
- County Treasurers
- Planning Commissioners
- City Council Members
- Mayors
- City Managers
- City Attorneys
- City Treasurers
- Other city, county, and local agency public officials who manage public investments
- Solely clerical, ministerial, or manual positions
- Unsalaried members of boards or commissions that are solely advisory

Check Duty Statements Review Disclosure Categories

Review:

First, eliminate positions outlined above that are not designated employees.

Second, evaluate the remaining employees, committees, officers, or consultants. Top level management personnel are normally broad policy makers and should be designated. Beyond that, read duty statements and talk to supervisors. Each position should be analyzed to determine if it makes decisions. Be sure all positions that have authority to authorize contracts are designated.

Next, review the disclosure categories. Employees should only disclose economic interests that relate to their job. Do not assign the same disclosure to every position as jobs are different. The disclosure category assignments must adequately differentiate between positions.

Contact other cities or counties for examples and guidance. The FPPC also posts model disclosure categories on its website.

[1] This information sheet should not be used to determine whether an agency is required to adopt a conflict-of-interest code. Contact the FPPC for assistance in making that determination.

Technical Assistance Division

Should You Amend Your City's Conflict of Interest Code?

A conflict of interest code tells public officials, governmental employees, and consultants what financial interests they must disclose on their Statement of Economic Interests (Form 700). It is the basis for the transparency that California's Political Reform Act requires of public officials. But how do you know if your city's code is what it should be? And how do you go about amending it? The information below may help you with these issues.

THINGS TO THINK ABOUT ...

- Is your current code more than five years old?
- Have there been any substantial changes to your city's organizational structure since the last code was approved?
- Have any positions been eliminated or re-named since the last code was approved?
- Have any new positions been added to your agencies or departments since the last code was approved?
- Have there been any substantial changes in duties or responsibilities for any positions since the last code was approved?

If you answered yes to any of these questions, your city's conflict of interest code will likely need to be amended. The Biennial Notice must be completed and filed with the City Council no later than October 1, 2014. Within 90 days, any amendments to the conflict of interest code must be submitted to the City Council for approval. The conflict of interest code is not effective until it has been approved by the City Council.

If you have any questions, or you are still not sure if you should amend your city's conflict of interest code, please consider participating in a free webinar or a seminar at the FPPC. For more information, visit http://www.fppc.ca.gov/index.php?id=359.

Report to City Council

TO: Mayor and City Council

FROM: Richard Teichert, Chief Financial Officer

AGENDA DATE: June 24, 2014

TITLE: APPROVAL OF CREATION OF INTERNAL SERVICE FUND SUB-FUNDS FOR THE SEPARATION OF OPERATING, CAPITAL AND REPLACEMENT FUNDS AND THE TRANSFERS OF FUND BALANCES

RECOMMENDED ACTION

Recommendations:

1. Approve the creation of Fund 7220 Technology Assets and Capital Projects, Fund 7230 Technology Replacement Reserve, Fund 7320 Facilities Assets and Capital Projects, and Fund 7330 Facilities Replacement Reserve.

2. Approve the transfers of fund balances as set forth in the Fiscal Impact section from Fund 7510 Equipment Replacement Reserve.

SUMMARY

Government agencies utilize a fund-based accounting system to ensure accountability in expending funds which are restricted or limited to specific uses. The City sets up Internal Service Funds (ISF) to provide services to the General Fund and other funds on a cost-reimbursement basis. The City of Moreno Valley has previously created separate ISFs for the management of technology services and facilities maintenance. The proposed actions will provide an additional level of monitoring, accountability, and transparency for the technology services and facilities maintenance operations of the City.

DISCUSSION

The City has previously established separate Internal Service Funds ("ISFs") for the management of Technology Services (Fund 7210) and Facilities Maintenance (Fund 7310). Currently the adopted budgets for Funds 7210 and 7310 reflect financial activities related to the operation of these programs along with the appropriations and fund balances for equipment or facilities replacement and capital projects.

The creation of Fund 7220 Technology Assets and Capital Projects, Fund 7230 Technology Replacement Reserve, Fund 7320 Facilities Assets and Capital Projects, and Fund 7330 Facilities Replacement Reserve will provide for the breakout of appropriations among separate ISF funds for the management and monitoring of the unique activities related to operations, capital improvement expenditures, and the accumulation of replacement fund balances. As a result of the establishment of the new reserve funds, the fund balances and the use and replenishment of these funds can be easily monitored and separated from the normal day-to-day operation of the Technology and Facilities services within the current Funds 7210 and 7310, respectively. Additionally, the activities related to the management of assets and capital project activities can be separately monitored within the new Assets and Capital Projects funds.

Once fund balances have been transferred to Fund 7230 Technology Replacement Reserve and Fund 7330 Facilities Replacement Reserve, staff will continue to monitor the level of replacement funds to maintain within each fund and examine the necessary use of any funds. Any appropriations or use of these fund balances shall be brought back to City Council for later approval.

ALTERNATIVES

1. Approve the proposed recommendations for the creation of Fund 7220 Technology Assets and Capital Projects, Fund 7230 Technology Replacement Reserve, Fund 7320 Facilities Assets and Capital Projects, and Fund 7330 Facilities Replacement Reserve, along with the identified transfers of fund balances.

2. Do not adopt proposed recommendations.

FISCAL IMPACT

The current actions will provide for the transfer of existing fund balances into the newly created Funds committed as Replacement Reserves for Technology and Facilities. Any future use of these funds for replacement activities will be brought back to City Council for later approval.

Report to City Council

TO: Mayor and City Council

FROM: Chris Paxton, Administrative Services Director

AGENDA DATE: June 24, 2014

TITLE: AMENDMENT TO EXISTING CONTRACT WITH LIBRARY SYSTEMS AND SERVICES (LSSI)

RECOMMENDED ACTION

Recommendations:

1. Approve the amendment to City's current contract with LSSI to add information technology (IT) services.

2. Authorize the City Manager to sign the contract amendment.

3. Authorize the revenue and expenditure appropriations as identified within the Fiscal Impact section of this report.

SUMMARY

This report recommends that the City amend the current contract with LSSI to include the provision of all information technology support services for the library.

DISCUSSION

On June 25, 2013, the City Council approved a contract with Library Systems and Services (LSSI) to provide staffing and management of the City's library. This outsourcing agreement enhanced service hours by 25%, increased the purchase of library materials by 200%, expanded programming and will create cost savings of nearly $1.3 million over the life of the contract. The success of the LSSI contract has led to an exploration of additional services the firm might provide in order to further enhance service to the public and increase efficiency.

Historically, the City's Technology Services (TS) Division has provided information technology support for the library. This has remained true even after LSSI took over responsibility for operating and managing the library. While this arrangement has worked well, staff has continued to look for ways to more efficiently and cost-effectively serve the library's unique needs.

At the City's request, LSSI has submitted a proposal to provide all information technology support for the library including support for telephones and for computers donated by the Friends of the Library Group. In addition, LSSI will replace all hardware components (computers, servers, etc.) once they reach the end of their useful lifecycle or when the manufacturer's warranty expires. All hardware and software will be replaced over the remaining contract period. A full description of the LSSI scope of work is provided as Attachment A to the contract amendment.

LSSI currently provides technology services for all thirty-four Riverside County branch libraries. As its technology support staff is located in Riverside, LSSI guarantees a maximum response time of four hours. Because LSSI is an exclusive provider of library services, its technical staff offers specialized expertise in hardware and software issues related to library operations. This unique skillset affords increased efficiency and cost savings. LSSI also buys computers, software and supplies in bulk, which extends additional economies of scale to our library.

The proposed savings along with the total added costs (in addition to the existing contract) over the remaining years of the LSSI contract are:

	LSSI Contract Adjustment	Existing/Projected City Technology Service Charges	Proposed Savings
Contract Year 1 (FY 14/15)	$130,300	$214,400	$84,100
Contract Year 2 (FY 15/16)	$133,558	$214,400	$80,842
Contract Year 3 (FY 16/17)	$136,896	$214,400	$77,504
Contract Year 4 (FY 17/18)	$140,319	$214,400	$74,081
Total	**$541,073**	**$857,600**	**$316,527**

The Library shall receive an estimated savings of $316,527 over the four years for maintaining and operating our information technology infrastructure at the library. It includes the cost of all hardware, software and labor. The Technology Services Division budget will be adjusted to reflect the reduction in technology service charges and the Division will continue to examine and modify current operations to comply with the amended budget.

The Library has also historically received an annual transfer of $160,000 from the Community Services District (CSD) Zone A (Parks and Community Services) to support the availability of computers within the library. The CSD Zone A parcel taxes which support these activities currently do not have an approved annual inflation adjustment and has remained at $87.50 per parcel/dwelling unit since FY 1992/93. Due to these limited revenues and the ability to financially support these services, it is being proposed that the current transfer from CSD Zone A is replaced by a transfer from the City's General Fund. The Library will continue to review annual budgets and operations to determine if any additional savings will be available to reduce the General Fund transfers in the future.

ALTERNATIVES

1. Amend the existing contract with Library Systems and Services to provide information technology support for the Moreno Valley Public Library including replacement and maintenance of all software and hardware, with a target implementation date of July 1, 2014; and Authorize the City Manager to sign the amendment. *Staff recommends this alternative.*

2. Do not amend the City's contract with LSSI and continue to have the City's Technology Services Division provide technology support for the library, thereby forgoing the additional savings and efficiency associated with the change. *Staff does not recommend this option.*

FISCAL IMPACT

It is estimated that the contracting of the library technology support will result in a savings to the Library of approximately $316,527 over the next four years of the LSSI contract.

As stated above, the Technology Services Division budget will be adjusted to reflect the reduction in technology service charges and the Division will continue to examine and modify current operations to comply with the amended budget.

Richard Teichert
Chief Financial Officer

Concurred By:
Thomas M. DeSantis
Assistant City Manager

AMENDMENT

This Amendment made and entered into this ____ day of _____, 2014 between Library Systems & Services, LLC, a Maryland limited liability company with a mailing address of 12850 Middlebrook Road, Suite 400, Germantown, Maryland 20874 ("LSSI") and the City of Moreno Valley, with a mailing address of 14177 Frederick Street, Moreno Valley, California 92553 ("Customer").

The parties hereto are parties to a certain Library Administration and Operations Agreement dated July 24, 2013 (the "Agreement"). For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby amend the Agreement to provide additional services as follows:

1. Delete the text of Section 1(a) of the Agreement in its entirety and substitute therefor the following:

> LSSI will (i) during the term of this Agreement provide the labor and administrative services described on Schedule A; and (ii) commencing July 1, 2014 provide the labor and Information Technology (I.T.) services described on Schedule B (collectively, "Services").

2. Delete the text of Section 3(a) of the Agreement in its entirety and substitute therefor the following:

> LSSI shall provide the Services for the Charges (exclusive of any current or future taxes on services) set forth in Section E of Schedule A and Section L of Schedule B.

3. Delete the first sentence of Section 3(b) of the Agreement and substitute therefor the following:

> LSSI shall invoice Customer prior to each month's Services for the monthly amounts set forth in Section E of Schedule A and Section L of Schedule B.

4. Insert Attachment I attached hereto as a new Schedule B of the Agreement.

Intending to be legally bound, the parties have caused this Amendment to be executed by their duly authorized representatives.

ATTACHMENT I

SCHEDULE B
Information Technology Support

A. LSSI will provide I.T. support out of its offices in Riverside, CA. A maximum 4-hour response to any critical service calls, during normal business hours, will be provided.

B. LSSI will provide support for the computers donated by the Friends of the Library (FOL) Group in the Children's area used for Early Childhood Education and for the laptop purchased by the FOL Group that is used for the Summer Reading Program statistics. LSSI will also provide support for any additional or replacement computer equipment donated to the Library by the FOL group.

C. LSSI will replace all hardware components, once they have reached their end of useful life cycle, or when the manufacturer's maintenance warranty has expired, whichever occurs first. Initially, LSSI will replace all equipment that is currently out of warranty. Fifty-one of the 68 PCs, including servers, in the Library are currently out of warranty. All new equipment will be purchased with up to a 4-year maintenance warranty from the manufacturer.

D. Essentially, all the hardware and software in the Library will be replaced with new technology over the next four years, most of it during the first year.

E. The current telephone system in the Library will be retained and maintained by LSSI, unless it becomes less expensive to replace it. The phone numbers currently assigned to the Library will be retained.

F. LSSI may replace some hardware and software, which it feels will add functionality or improve the patron's experience and/or will be more efficient for LSSI to maintain.

G. LSSI will amortize the cost of any new software or hardware over the four years remaining in this Agreement. The title to all software and equipment purchased by LSSI will be transferred to the City at no cost at the end of the amortization period. If this Agreement is terminated by the City prior to June 30, 2018, the City shall pay LSSI for the unamortized cost of such items based on a four year life thereof.

H. There will be a transition period of approximately 30-days, during which the City's I.T. department and LSSI will need to work closely together to insure a smooth transition.

I. During the transition period there will be some downtime as software and hardware components are removed and replaced with new technology.

J. The full cooperation of the City's I.T. department will be critical during the transition period.

K. The City will continue to be responsible for any capital improvements or renovations in the Library.

L. LSSI's charges for the services described in this Schedule B are as follows:

Year	Annual Charge	Monthly Charge
FY '15	$130,300	$10,858.33
FY '16	$133,558	$11,129.83
FY '17	$136,896	$11,408.00
FY '18	$140,319	$11,693.25

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: AWARD TO PB LOADER CORPORATION FOR THE REPLACEMENT PURCHASE OF ONE ASPHALT PATCH TRUCK

RECOMMENDED ACTION

Recommendations:

1. Award to PB Loader Corporation of Fresno, CA, for the purchase of one 2015 Ford F-650 6.8L Triton V10 3-Valve Gasoline 362 HP @ 4750.

2. Authorize the Purchasing & Facilities Division Manager to issue a purchase order to PB Loader Corporation in the amount of $147,147.00.

SUMMARY

This report recommends approval to purchase a replacement asphalt patch truck for an existing 2001 Asphalt Patch Truck that has come to the end of its useful life (approximately 103,000 miles). This purchase is funded through Capital Equipment Replacement funds appropriated within and supplemented by Measure A Funds, and was approved in the FY 2013/14 – 2014/15 Operating Budget by the City Council on June 11, 2013.

DISCUSSION

The unit to be replaced is a Model 2001 Asphalt Patch Truck. It has exceeded its normal life cycle and is critical to street maintenance operations. This vehicle is in poor mechanical condition and requires expensive repairs due to years of use and wear and tear. Replacement for this vehicle is imperative to maintain street maintenance services. This purchase is a one-time expenditure from Measure A Funds. City Council approved an appropriation of $225,000 on June 11, 2013 for the replacement of an asphalt patch truck from account 2001-70-78-45311-660322.

Although other asphalt truck companies are available for competitive award, PB Loader is best suited for the City. The reasons this manufacturer is the best unit for the City is:

1. Equipment design and operation is one with which in-house Vehicle/Equipment staff has familiarity

2. The 2001 Asphalt Patch Truck which will be retained as an emergency, back-up vehicle

    a. Driver safety utilizing consistent and familiar brand of vehicle

    b. Parts and warranty repair consistency with a vendor that is of the same manufacturer

Per the Moreno Valley Municipal Code, Section 3.12.260, "Where advantageous for the City and to the extent consistent with state law, the City Manager may authorize the Financial & Administrative Services Director or the Purchasing Manager to purchase supplies, materials, equipment or contractual services through legal, competitively awarded contracts with or of other governmental jurisdictions or public agencies, including California Multiple Award Schedules (CMAS) commonly referred to as "piggybacking," without further contracting, solicitation or formal bidding as described in this chapter. (Ord. 624 § 1.7, 2003: Ord. 587 § 2.1 (part), 2001)".

The NJPA Cooperative Purchasing Agreement – Contract #113012-PBL, was competitively solicited and awarded to PB Loader Corporation, manufacturer of Pothole Patchers and Emulsion Systems, on February 20, 2013 and expires on February 20, 2015. The two other manufacturers included in this award are Falcon Asphalt Repair Equipment and Stepp Manufacturing. As previously indicated, PB Loader is the preferred vendor of the three manufacturers awarded due to brand consistency with the City's existing 2001 Asphalt Patch Truck. Staff believes the NJPA contract provides the most competitive pricing and highest quality equipment to the City, thereby offering the best value.

ALTERNATIVES

1. Award to PB Loader Corporation of Fresno, CA, for the purchase of one 2015 Ford F-650 6.8L Triton V10 3-Valve Gasoline 362 HP @ 4750; and authorize the Purchasing & Facilities Division Manager to issue a purchase order to PB Loader Corporation in the amount of $147,147.00. **(Staff recommends this alternative).**

2. Reject the award and purchase order in the amount of $147,147.00 to PB Loader Corporation for the purchase of one 2015 Ford F-650 6.8L Triton V10 3-Valve Gasoline 362 HP @ 4750 and direct staff on alternative actions. **(Staff does not recommend this alternative).**

FISCAL IMPACT

The City Council approved an appropriation of $225,000 on June 11, 2013 for the replacement of one asphalt patch truck from Measure A Funds. These funds are in account 2001-70-78-45311-660322. No additional appropriation is required.

CITY COUNCIL GOALS

Positive Environment. Create a positive environment for the development of Moreno Valley's future.

NOTICE OF AWARD TO PB LOADER CORPORATION

Request for Proposal #113012

ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES AND SUPPLIES

February 22, 2013

PB Loader Corporation
5778 W Barstow Avenue
Fresno, CA 93722

Dear J. Marcus Putnam:

Congratulations! You have been awarded an NJPA national contract for procurement of "Road Maintenance Equipment with Related Accessories, Services and Supplies" Your proposal was accepted, deemed responsive, evaluated and recommended for award by NJPA's Bid Evaluation Committee as a solution to meet our members' needs. The NJPA Board of Directors subsequently approved a national contract award to PB Loader Corporation at their monthly meeting on February 20, 2013.

This award means that you are now an "NJPA Awarded Contract Vendor" and are part of a select group of world-class vendors. Please find attached the signed NJPA Acceptance and Award, Form D.

Kelly McAllister will be your NJPA Contract Manager and will be contacting you soon to advise you on how the contract will be launched and maintained. Kelly's contact information is listed below:

Office Phone: 218-894-5468
Cell Phone: 218-894-6818
Email: Kelly.mcallister@njpacoop.org

Sincerely,

Gregg Meierhofer
Bids and Contracts Officer

CITY ATTORNEY	
CITY MANAGER	

Report to City Council

TO: Mayor and City Council

FROM: Thomas M. DeSantis, Assistant City Manager

AGENDA DATE: June 24, 2014

TITLE: WASTE MANAGEMENT OF THE INLAND EMPIRE FY 2014/2015 RATE ADJUSTMENT

RECOMMENDED ACTION

Recommendation:

1. Approve the Waste Management of the Inland Empire proposed Fiscal Year (FY) 2014/2015 Rate Adjustment.

SUMMARY

This report recommends approval of a proposed rate adjustment with Waste Management of the Inland Empire for FY 2014-2015.

Waste Management of the Inland Empire has had an exclusive agreement with the City of Moreno Valley for the collection, transportation, recycling, and disposal of solid waste since April of 1991. The terms and conditions of the original contract were renegotiated and adopted on July 1, 2008. As part of this agreement, the Contractor Service Rates are to be adjusted annually to reflect changes in the Consumer Price Index (CPI), disposal (e.g. tipping fees or tonnage increases), changes in service, and extraordinary costs. The combination of a CPI adjustment for FY 2014/2015 of 1.04%, a 1.15% increase in Riverside County tipping fees, and the decrease in household tonnage, results in a residential service rate increase of $0.15 per month, per home.

DISCUSSION

The franchise agreement with Waste Management of the Inland Empire stipulates that an annual CPI adjustment shall be made effective the first day of July of each calendar

year and other adjustments such as tipping fees, service costs, and extraordinary costs, shall be made effective as they occur. The agreement with Waste Management states that the CPI shall be derived by multiplying with service component (Waste Management's cost to provide service to Moreno Valley) by the percentage increased or decreased in the CPI for March of the immediate preceding year. The combination of a CPI adjustment for FY 2014/2015 of 1.04%, a 1.15% increase in Riverside County tipping fees, and the decrease in household tonnage, results in a residential service rate increase of $0.15 per month, per home.

This is inclusive of a $0.03 discount that has been applied to the disposal component to account for the 2014 estimated annual rebate amount for the bulky item program. This rebate is administered by the Riverside County Waste Management Department under a program initiated in 1999 that provides a rebate for waste service programs that include bulky item pick-up services. The net effect of the decreased pounds per household and bulky item rebate and the increased Riverside County tipping fees is a disposal component rate increase of $0.04 per month, per home.

Accordingly, with an increase in the disposal component of $0.04 per month, an increase in the residential service component of $0.17 per month, and a decrease in the green waste component of $0.06 per month, the new monthly residential rate reflects a total change of an increase of $0.15 and the new rate is $21.70.

Relative to commercial rates, the 1.15% increase in Riverside County tipping fees and the increase in commercial disposal tonnage results in a commercial disposal component rate increase of 2.50%. The service component continues to reflect bundled commercial trash/recycling service as directed by the City Council on June 26, 2013.

The bundled rates were developed to comply with Assembly Bill 341 (AB341). AB 341 requires businesses, public entities, and multi-family housing complexes to implement a recycling program. The recycling program was implemented on July 1, 2012. The goal of this legislation is to reduce commercial solid waste from landfills and reduce green house gas emissions.

The attached exhibit shows details of the proposed new fees for FY 2014/2015 for all classifications.

ALTERNATIVES

1. Approve the Waste Management of the Inland Empire proposed Fiscal Year (FY) 2014/2015 Rate Adjustment. *This would ensure compliance with the existing Waste Management Franchise Agreement.*

2. Do not approve the Waste Management of the Inland Empire proposed FY 2014/2015 Rate Adjustment. *This would result in potential non-compliance with the existing Waste Management Franchise Agreement and could result in Waste Management's inability to continue to perform their service as per the contract specifications.*

FISCAL IMPACT

The City receives a 12.13% franchise fee on all monies collected by Waste Management of the Inland Empire. Any increase or decrease in rates has a proportionate effect on revenues received by the City. Any decrease in the current rates would negatively affect the general fund.

CITY COUNCIL GOALS

Revenue Diversification and Preservation - Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

Community Image, Neighborhood Pride and Cleanliness - Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

Report to City Council

TO: Mayor and City Council

FROM: John C. Terell, Director of Community & Economic Development

AGENDA DATE: June 24, 2014

TITLE: RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY DECLARING ITS SUPPORT FOR AN ECONOMIC EXPANSION PROJECT IBANK FINANCING APPLICATION BY FAMILY SERVICE ASSOCIATION

RECOMMENDED ACTION

Recommendation:

1. Adopt Resolution No. 2014-54. A Resolution of the City Council of the City of Moreno Valley, California, Declaring its Support for an Economic Expansion Project to be implemented by Family Service Association and its Intent to Act as a Sponsor for Purposes of the Financing Application for such Project.

SUMMARY

Headquartered in Moreno Valley, Family Services Association (FSA) provides services to residents in Moreno Valley and throughout the Inland Empire. FSA is currently seeking to install energy efficient improvements to their four Moreno Valley facilities and one Riverside facility and to acquire a new facility in Nuevo. FSA is submitting an application to the California Infrastructure and Economic Development Bank (I-Bank) to fund these improvements and to refinance existing debt.

As a nonprofit organization, FSA is required by I-Bank's Project Selection Criteria to submit their financing application in conjunction with a public entity that acts as a sponsor. FSA has requested Moreno Valley's sponsorship, accomplished through approval of a Resolution of Support (Attachment A). Serving as FSA's sponsoring agency does not create a fiscal impact to the City of Moreno Valley (City) or obligate the City to providing any form of financial assistance to FSA's project. Staff recommends approval of a Resolution of Support that declares the City's intent to act as FSA's public entity sponsor for the purpose of seeking I-Bank financing.

DISCUSSION

Family Services Association was founded in 1953 and has grown to be one of the largest multi-service agencies in the region. FSA assists low income families through the following services:

- Child development
- Mental health
- Community / senior centers
- Senior nutrition
- Housing

To continue to provide these needed and economically impactful services, FSA seeks I-Bank financing to refinance existing debt, to enhance existing FSA facilities, and to expand services into Nuevo. FSA's facilities will receive energy efficient windows, roofing, LED Lighting, HVAC, low flow fixtures / irrigation systems, water permeable paving, solar, and ADA improvements. These energy efficient improvements are estimated to save FSA $136,702 annually.

Specific locations and improvements to be impacted by this financing include:

- Energy efficiency improvements to existing facilities in Moreno Valley:
  - Corporate headquarters on Box Springs Road,
  - Child development center on Hemlock Avenue,
  - Child development center on Olivewood Plaza, and
  - Central kitchen on Alessandro Boulevard that serves more than 259,000 meals annually to seniors in 13 jurisdictions.
- Energy efficiency improvements to an existing child development center on Magnolia Avenue in Riverside.
- Acquisition of a central kitchen / senior center in Nuevo, projected to serve more than 86,000 meals annually to seniors in 4 additional jurisdictions.

The financing amount requested of I-Bank is $9,583,000. The repayment term is 30 years and source of repayment funds will be FSA's operating cash flow. Loan collateral will include first trust deeds on all facilities to be improved / acquired. In terms of timing, FSA anticipates submitting the loan request to I-Bank in July 2014. Construction is expected to take up to 12 months and extend from September 2014 to August 2015.

ALTERNATIVES

1. Approve the proposed Resolution of Support for Family Services Association's I-Bank financing application. *Supporting FSA's I-Bank financing application expands services to Inland Empire families in need and improves energy efficiency in 5 FSA facilities without fiscally impacting Moreno Valley taxpayers.*
2. Decline to approve the proposed Resolution of Support for Family Services Association's I-Bank financing application.

FISCAL IMPACT

Approving the proposed Resolution of Support and serving as a sponsoring public entity for Family Services Association creates **NO FISCAL IMPACT** to the City's General Fund or any other City Fund.

CITY COUNCIL GOALS

Advocacy. Develop cooperative intergovernmental relationships and be a forceful advocate of City policies, objectives, and goals to appropriate external governments, agencies and corporations.

RESOLUTION NO. 2014-54

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS SUPPORT FOR AN ECONOMIC EXPANSION PROJECT TO BE IMPLEMENTED BY FAMILY SERVICE ASSOCIATION AND ITS INTENT TO ACT AS A SPONSOR FOR PURPOSES OF THE FINANCING APPLICATION FOR SUCH PROJECT

WHEREAS, the California Infrastructure and Economic Development Bank (the "I-Bank") was established and exists pursuant to the Bergeson-Peace Infrastructure and Economic Development Bank Act (California Government Code Section 63000 and following) (the "I-Bank Act"), for the purpose of, among other things, providing financial assistance to eligible infrastructure and economic expansion projects; and

WHEREAS, the Applicant ("Applicant") intends to submit an application for financing (the "Financing Application") under the I-Bank's Infrastructure State Revolving Fund Program ("ISRF Program") for the Proposed Project, as described more fully in Attachment A hereto (the "Project"); and

WHEREAS, the I-Bank's Amended and Restated Criteria, Priorities and Guidelines for the Selection of Projects for Financing under the ISRF Program, adopted on October 29, 2013 (the "Criteria"), establish requirements for the financing of projects under the ISRF Program; and

WHEREAS, for the ISRF Program, in instances such as this where the Applicant is a nonprofit organization, the Criteria require that the Financing Application for an Economic Expansion Project (as defined in the Criteria) be made in conjunction with a public entity, such as the City of Moreno Valley (the "City") acting as a sponsor ("Sponsor"); and

WHEREAS, the City desires to declare its support for the Project and indicates its intent to act as a Sponsor for purposes of the Financing Application.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. The above recitals are true and correct.

Section 2. Pursuant to this resolution ("Resolution"), the City Council declares its support for the Project and its intent to act as a Sponsor for purposes of the Financing Application.

Section 3. In furtherance of the foregoing, the City Council hereby authorizes the City Manager and his or her designees to cooperate with the I-Bank and the Applicant and their representatives to facilitate the Applicant's efforts to submit a completed Financing Application package to the I-Bank; provided, however, that the obligation of the City, if any, to provide any form of financial assistance to the Applicant or the Project shall not arise or be undertaken until and unless it is explicitly authorized by a subsequent resolution of the City Council.

Section 4. This Resolution shall take effect immediately upon its adoption.

APPROVED AND ADOPTED this 24th day of June, 2014.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E. Public Works Director/City Engineer

AGENDA DATE: June 24, 2014

TITLE: AUTHORIZE A CHANGE ORDER TO INCREASE THE PURCHASE ORDER WITH PACIFIC UTILITY INSTALLATION, INC. FOR SCE TIE-IN WORK TO MOVAL SOUTH 33 KV SUBSTATION – PROJECT NO. 805-0021-70-80

RECOMMENDED ACTION

Recommendations:

1. Authorize a Change Order to increase the existing Purchase Order with Pacific Utility Installation, Inc., the onsite contractor for the MOVAL South 33 kV Substation project by an additional $248,669.00.

2. Authorize the Public Works Director/City Engineer to execute a change order with Pacific Utility Installation, Inc.

SUMMARY

This report recommends approval of a change order with Pacific Utility Installation, Inc. for the dry utilities street work associated with the MOVAL South substation on Nandina Avenue west of Indian Street. As part of the interconnection requirement, Southern California Edison requires that MVU install electrical conduits in order to connect the MVU substation to SCE's 33kV facilities.

DISCUSSION

On April 8, 2014, the City Council awarded a contract for the MOVAL South Substation Project on Nandina Ave west of Indian St. and authorized the issuance of a Purchase

Order totaling $976,398.34 ($887,634.85 bid plus 10% contingency). The Construction Contract was awarded to Pacific Utility Installation, Incorporated.

An interconnection with SCE's 33kV facilities is required to energize MOVAL South substation. To preclude the costs associated with trenching in the concrete intersection at Nandina Ave and Indian St., MVU had requested that Southern California Edison approve an interconnection that used existing SCE conduits.

On May 13, 2014, SCE notified the City that this request was not approved.

The recommended Change Order will allow timely construction of the 33 kV substation needed to provide electric service to new customers in the south industrial area of the City. The Change Order will not delay completion of the project.

ALTERNATIVES

1. Approve and authorize the change order as presented in this staff report. This alternative will provide for the timely construction of the 33 kV substation needed to provide electric service to new customers in the south industrial area of the city. Staff recommends this alternative.

2. Do not approve and authorize the recommended actions as presented in this staff report. This alternative will result in the delay of the construction of the 33 kV substation, potentially impacting the provision of electric service to new customers in the south industrial area of the city. Staff does not recommend this alternative.

FISCAL IMPACT

Pacific Utility Installation, Incorporated's change order quote is $248,669.00, which exceeds the contingency amount of $88,763.49 for the original construction award. The dry utilities scope of work includes: grind, saw cut, remove and dispose asphalt and concrete, excavate trench, install conduits, slurry backfill, sidewalk repair, and street concrete repair.

This project is included in the Fiscal Year 2013/2014 Capital Improvement Plan Budget. The construction portion of the project will be funded with reimbursement of 2007 Lease Revenue Bond funds, and there is no impact to the General Fund. Staff is not requesting any additional appropriation at this time. The additional one-time cost is anticipated to be absorbed with operational savings in Fiscal Year 2014/2015.

TOTAL FUNDS FOR CONSTRUCTION PHASE:

Fiscal Year 2014/2015:
(Account No. 6020-70-80-80005-720199, Project No. 805 0021 70 80) $976,394.38
GL Account EXP
(Account No. 6010-70-80-45510-660610 ……..... $248,669.00
Total Budget $1,225,063.38

ESTIMATED CONSTRUCTION RELATED COSTS:

Contractor Construction Costs (includes Contingency) $976,394.38
Increase to Contractor's Purchase Order $248,669.00
Total Estimated Project Costs $1,225,063.38

PROJECT SCHEDULE

Completed Construction ..... Aug 2014

CITY COUNCIL GOALS

POSITIVE ENVIRONMENT:

Create a positive environment for economic development within the community. *The construction of the substation will expand MVU's electric distribution system, improving reliability and operational flexibility in serving customers.*

PUBLIC FACILITIES AND CAPITAL PROJECTS:

Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained. *The expansion of the MVU electric distribution system will foster a positive environment and potentially help contribute to the development of Moreno Valley's future.*

Pacific UTILITY INSTALLATION, INC.

June 6, 2014

City of Moreno Valley
John Goatcher
14331 Frederick St.,
Moreno Valley, CA 92553

Dear John,

Pacific Utility Installation is pleased to provide the following quotation for your consideration. This proposal is for the installation of dry utilities in

Mo Val Substation - Dry Utilities Street Work
Moreno Valley
Dry Utilities

This proposal was prepared using:

SCE Unapproved Plans

Unless otherwise specified, the following are terms of this Proposal and Contract: All permits, inspection and engineering fees are to be paid by you; compaction is to be obtained by flooding; all footage is to be measured upon completion; ground water, rock and/or exceptionally hard ground, if encountered will be at cost plus and/or renegotiated; and no resurfacing is included herein.

Any alteration or deviation from the above specifications involving extra cost of material or labor will only be executed upon written orders for same, and will become an extra charge over sum mentioned in this contract. All agreements must be made in writing.

All billing is net 30 days. We reserve the right to assess a service charge of 1½% per month on all past due billings. In the event either party institutes legal action hereto, the prevailing party shall be entitled to reasonable attorney's fees and costs. This proposal, upon acceptance, shall become a part of the contract for the above-described work.

Proposal pricing is valid for 30 days from date of quote

Thank You,

Bill Pfeifer

ACCEPTANCE **City of Moreno Valley**

You are hereby authorized to furnish all materials and labor required to complete the work mentioned in the above proposal, for which we agree to pay the amount mentioned in said proposal, and according to the terms thereof.

Report to City Council

TO: Mayor and City Council

FROM: Richard Teichert, Chief Financial Officer

AGENDA DATE: June 24, 2014

TITLE: PUBLIC HEARING REGARDING THE MAIL BALLOT PROCEEDINGS FOR ASSESSOR'S PARCEL NUMBERS (APNS) 297-220-012; and 292-242-014 BALLOTING FOR NPDES

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Conduct the Public Hearing and accept public testimony regarding the mail ballot proceedings for APNs 297-220-012; and 292-242-014 for approval of the National Pollutant Discharge Elimination System (NPDES) maximum annual rate.

2. Direct the City Clerk to tabulate the NPDES ballots for APNs 297-220-012; and 292-242-014.

3. Verify and accept the results of the mail ballot proceedings as identified on the Official Tally Sheet.

4. Receive and file with the City Clerk's office the Official Tally Sheet.

5. If approved, authorize and impose the NPDES maximum commercial/industrial regulatory rate to APNs 297-220-012; and 292-242-014.

SUMMARY

The action before the City Council is to conduct a Public Hearing to accept public testimony, tabulate the returned ballots, verify, and accept the results of the mail ballot proceedings for APNs 297-220-012; and 292-242-014. The NPDES rates collected from property owners support the current Permit programs and reduce the level of General Fund support necessary to remain in compliance with unfunded federal mandates, as

administered by the State. Funds collected from the NPDES rates are restricted for use only within the Stormwater Management program.

DISCUSSION

To comply with the 1972 Federal Clean Water Act, Land Development, a division of the Public Works Department, conditions new development projects to participate in the appropriate NPDES regulatory rate to fund federally mandated programs. The City Council adopted the residential regulatory rate on June 10, 2003, and the commercial/industrial regulatory rate on January 10, 2006.

New development projects are subject to the current NPDES Permit requirements for stormwater management as mandated by the Federal Clean Water Act. Public agencies are to obtain Permits to discharge urban stormwater runoff from municipally owned drainage facilities, including streets, highways, storm drains, and flood control channels. With funding support provided by property owners, the City annually inspects site design, source and treatment control Best Management Practices, monitors maintenance records for those on-site facilities, and performs annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements, as administered by the State.

J. Bunker, property owner of APN 297-220-012; and The Robert W. Marshall Trust, property owner of APN 292-242-014 (collectively the "Property Owners") have chosen to satisfy their Conditions of Approval to help support the NPDES program by approving the annual NPDES rate to be collected on the Riverside County property tax bill or as a monthly charge on a utility bill. Mail ballot proceedings are being conducted in compliance with Proposition 218, which requires that any new or proposed increase in property-related assessments, fees, or charges be submitted to Property Owners for approval. The Property Owners are given two opportunities to address the legislative body. These two opportunities are the Public Meeting on June 10, 2014 and the Public Hearing on June 24, 2014, when the results of the ballot proceeding will be announced.

Approval of the NPDES maximum commercial/industrial regulatory rate fulfills their Conditions of Approval. Provided the mail ballots are approved, the City will be authorized to annually levy the NPDES maximum commercial/industrial regulatory rate on the Riverside County property tax bill or as a monthly charge on a utility bill.

ALTERNATIVES

1. **Conduct the Public Hearing,** tabulate the ballots, verify, and accept the results of the mail ballot proceedings as identified on the Official Tally Sheet, receive and file with the City Clerk's office the Official Tally Sheet, and if approved, authorize and impose the NPDES maximum commercial/industrial regulatory rate to APNs 297-220-012; and 292-242-014. *This alternative will fulfill the 45-day noticing period and Public Hearing requirements as mandated by Proposition 218.*

2. **Open the Public Hearing and continue** the hearing to a future regular City Council meeting. *This alternative will fulfill the 45-day noticing period and Public Hearing requirements as mandated by Proposition 218. This alternative will not incur any additional costs for re-noticing.*

3. **Do not conduct the Public Hearing,** tabulate the ballots, verify, or accept the results of the mail ballot proceedings. *This alternative prohibits the property owner from satisfying their Conditions of Approval utilizing this funding mechanism.*

4. **Do not conduct the Public Hearing** at this time but reschedule it to a date certain, at a regular City Council meeting. *This alternative would require the 45-day noticing period to start over and cause additional costs to be incurred for re-noticing*.

FISCAL IMPACT

For fiscal year (FY) 2013/14, the NPDES annual regulatory rate for commercial properties is $223 per parcel. The NPDES rates collected from property owners support the current Permit programs and reduces the level of General Fund support necessary to remain in compliance with unfunded federal mandates, as administered by the State. **Funds collected from the NPDES rates are restricted for use only within the Stormwater Management program**.

CITY COUNCIL GOALS

Advocacy
Management of the stormwater will ensure that water pollutants are discharged in compliance with federal mandates and City policies.

Revenue Diversification and Preservation
The NPDES maximum commercial/industrial regulatory rate provides funding for program costs, which include maintenance and administration.

NOTIFICATION

The Property Owners were given the required 45-day noticing period to review the ballot documents. The documents included a notice to the property owner, map of the project area, NPDES ballot, instructions for marking and returning the ballot, and a postage-paid envelope for returning the ballot to the City Clerk. (See Attachments 1 and 2.)

Newspaper advertising for the June 10, 2014, Public Meeting and June 24, 2014, Public Hearing was published in The Press-Enterprise on May 29, 2014. Additionally, the Public Hearing notification was published on June 6 and again on June 13, 2014.

NOTICE TO PROPERTY OWNER-MAIL BALLOT PROCEEDING FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) MAXIMUM COMMERCIAL/INDUSTRIAL REGULATORY RATE FOR APN 297-220-012

******* OFFICIAL BALLOT ENCLOSED *******

Introduction

In November of 1996, California voters passed Proposition 218 ("The Right to Vote on Taxes Act"). As a result, any new or proposed increase in a property-related charge requires approval of the charge by the property owner of record. In compliance with Proposition 218 legislation, the City of Moreno Valley Special Districts Division is conducting a mail ballot proceeding to provide the owner of Assessor's Parcel Number (APN) 297-220-012 the opportunity to express support for or opposition to the approval of the NPDES Maximum Commercial/Industrial Regulatory Rate and services. Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding will fulfill the Conditions of Approval to provide a funding source for the NPDES program.

Background

The City shall provide the services necessary to meet mandates of the Federal Clean Water Act. The current NPDES Permit, as administered by the State, regulates the volume and amount of pollutants in stormwater runoff from all development types. NPDES Maximum Commercial/Industrial Regulatory Rate provides financial support for inspecting site design, source and treatment control Best Management Practices, monitoring maintenance records for those on-site facilities, and performing annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements, as administered by the State.

Services Provided

In compliance with the Federal Clean Water Act, the City of Moreno Valley shall annually inspect site design, source and treatment control Best Management Practices, verify monitoring and maintenance records for those on-site facilities, and perform annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements.

How is the Amount of the Charge Determined?

Each fiscal year (FY), the City of Moreno Valley shall determine the type of services necessary to comply with NPDES Permit requirements and levy the rate applicable for that service. The rate levied shall not exceed the rate previously approved by the property owner.

Proposed Charge

For FY 2013/14, the NPDES Maximum Commercial/Industrial Regulatory Rate is $223 per parcel. The total amount of the NPDES rates levied for FY 2013/14 for the program as a whole was $419,571.00.

Annual Adjustment

Beginning in FY 2014/15, the NPDES Maximum Commercial/Industrial Regulatory Rate will be subject to an annual adjustment based on the percentage change calculated for the previous year in the Los Angeles-Riverside-Orange County Regional Consumer Price Index for All Urban Consumers, as published by the Department of Labor's Bureau of Labor Statistics.

Duration of the Charge

Upon approval of the NPDES Maximum Commercial/Industrial Regulatory Rate, the annual levy amount will be assessed to APN 297-220-012 (and any division thereof) and shall be placed on the Riverside County property tax bill or included as a monthly charge on a utility bill. The NPDES Maximum Commercial/Industrial Regulatory Rate will be levied each following year at the proposed rate, which may include an annual inflation adjustment.

Public Hearing

To provide information concerning this mail ballot proceeding the City has scheduled one (1) Public Meeting and one (1) Public Hearing, which will be held at the **Moreno Valley City Hall Council Chamber located at 14177 Frederick Street, Moreno Valley.**

Public Meeting	**Public Hearing**
Tuesday, June 10, 2014 6:00 P.M. (Or As Soon Thereafter As The Matter May Be Called)	Tuesday, June 24, 2014 6:00 P.M. (Or As Soon Thereafter As The Matter May Be Called)

Tabulation of returned ballots will commence after the close of the Public Hearing. All ballots received shall be tabulated under the direction of the City Clerk in compliance with the current Policy For Conducting Mail Ballot Proceedings Policy #1.12.

Effect if Approval of the Charge is Approved

Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate will be confirmed if the ballot is marked in favor of the NPDES rate. Approving the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding will fulfill the Conditions of Approval to provide a funding source for the NPDES program.

Effect if Approval of the Charge is Not Approved

Not approving the NPDES Maximum Commercial/Industrial Regulatory Rate to meet federally mandated NPDES Permit requirements may result in noncompliance with the Conditions of Approval. If the returned valid ballot is marked opposing the NPDES rate, then the rate will not be levied on the property tax bill.

For More Information

If you have any questions about the proposed program, the annual rate, or about the mail ballot proceeding process, please contact Jennifer Terry, Management Analyst, Special Districts, a

Division of the Financial and Management Services Department, Monday through Thursday from 7:30 a.m. to 6:00 p.m. at 951.413.3505 or via email at JenniferT@moval.org.

Completing Your Ballot

The enclosed ballot shall be submitted to the City Clerk in support of or opposition to the proposed program and annual charge. Please follow the instructions listed below to complete and return your ballot. Procedures for the completion, return, and tabulation of the ballot are also on file in the City Clerk's office.

1. Mark the enclosed ballot in support of or opposition to the proposed program and annual rate **by placing a mark in the corresponding box.**
2. Sign your name on the ballot. Ballots received without signature(s) will be considered invalid *and will not be counted.*
3. Mail or personally deliver your completed ballot in a sealed envelope to the City Clerk's office, 14177 Frederick Street, Moreno Valley, California, 92553. For your convenience, a postage-paid envelope has been included for return of the ballot.
4. Ballot(s) must be **received** by the City Clerk prior to the close of the Public Hearing to be held on **Tuesday, June 24, 2014**, at the Moreno Valley City Hall Council Chamber. The Public Hearing will be held at 6:00 p.m. or as soon thereafter as the matter may be called. Ballots received after the close of the Public Hearing cannot be legally counted.

Ballot Marks

Appropriate ballot markings include any one of the following for either the YES/Approved or NO/Not Approved blank box:

A check mark substantially inside a box;

An X mark substantially inside a box;

A dot or oval mark substantially inside a box;

A completely shaded or filled mark substantially inside a box;

A line, single or dashed, or combination of lines, through the box area. Lines may be any one of the following marks: horizontal, vertical, or diagonal. The mark may either run from side to side or corner to corner. All valid lines must be substantially within the box area and not marking any part of another blank box on the ballot;

A circle around the box and/or associated clause; or

A square or rectangle around the box and/or associated clause.

Balloting marks shall not extend past one box area into any portion of another nor surround the perimeter or any portion of more than one box area. Markings that extend past one box area into any portion of another or surround the perimeter or any portion of more than one box area shall be considered invalid and not counted.

Ballot Mark Revisions (Changes): An error or desire to revise (change) a selection made on the ballot may be completed and returned any time **prior** to the conclusion of public testimony at the Public Hearing. **The revision must be initialed by the record owner(s) of property. Initials must be clearly printed and placed at the right top corner of the revised selection**.

COMMON INTEREST, COMMERCIAL, INDUSTRIAL AND QUASI-PUBLIC USE NPDES RATE SCHEDULE
Adopted by the City Council on January 10, 2006

LEVEL 1	LEVEL II
NPDES Administration	**Site Design, Source Control and Treatment Control BMPs Monitoring and Maintenance**
(Not covered by CSA 152) Costs associated with personnel, administration and management of the storm water management program. Administrative tasks include development and filing of various stormwater reports and data collection and management. Level I is levied on all parcels conditioned for the NPDES Rate Schedule.	Costs associated with stormwater and non-stormwater runoff monitoring, inspection of the project's site design, source control and treatment control BMPs; evaluation of site stormwater compliance activities, review of site-specific technical reports and treatment control BMP maintenance records.

NOTICE TO PROPERTY OWNER-MAIL BALLOT PROCEEDING FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) MAXIMUM COMMERCIAL/INDUSTRIAL REGULATORY RATE FOR APN 292-242-014

******* OFFICIAL BALLOT ENCLOSED *******

Introduction

In November of 1996, California voters passed Proposition 218 ("The Right to Vote on Taxes Act"). As a result, any new or proposed increase in a property-related charge requires approval of the charge by the property owner of record. In compliance with Proposition 218 legislation, the City of Moreno Valley Special Districts Division is conducting a mail ballot proceeding to provide the owner of Assessor's Parcel Number (APN) 292-242-014 the opportunity to express support for or opposition to the approval of the NPDES Maximum Commercial/Industrial Regulatory Rate and services. Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding will fulfill the Conditions of Approval to provide a funding source for the NPDES program.

Background

The City shall provide the services necessary to meet mandates of the Federal Clean Water Act. The current NPDES Permit, as administered by the State, regulates the volume and amount of pollutants in stormwater runoff from all development types. NPDES Maximum Commercial/Industrial Regulatory Rate provides financial support for inspecting site design, source and treatment control Best Management Practices, monitoring maintenance records for those on-site facilities, and performing annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements, as administered by the State.

Services Provided

In compliance with the Federal Clean Water Act, the City of Moreno Valley shall annually inspect site design, source and treatment control Best Management Practices, verify monitoring and maintenance records for those on-site facilities, and perform annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements.

How is the Amount of the Charge Determined?

Each fiscal year (FY), the City of Moreno Valley shall determine the type of services necessary to comply with NPDES Permit requirements and levy the rate applicable for that service. The rate levied shall not exceed the rate previously approved by the property owner.

Proposed Charge

For FY 2013/14, the NPDES Maximum Commercial/Industrial Regulatory Rate is $223 per parcel. The total amount of the NPDES rates levied for FY 2013/14 for the program as a whole was $419,571.00.

Annual Adjustment

Beginning in FY 2014/15, the NPDES Maximum Commercial/Industrial Regulatory Rate will be subject to an annual adjustment based on the percentage change calculated for the previous year in the Los Angeles-Riverside-Orange County Regional Consumer Price Index for All Urban Consumers, as published by the Department of Labor's Bureau of Labor Statistics.

Duration of the Charge

Upon approval of the NPDES Maximum Commercial/Industrial Regulatory Rate, the annual levy amount will be assessed to APN 292-242-014 (and any division thereof) and shall be placed on the Riverside County property tax bill or included as a monthly charge on a utility bill. The NPDES Maximum Commercial/Industrial Regulatory Rate will be levied each following year at the proposed rate, which may include an annual inflation adjustment.

Public Hearing

To provide information concerning this mail ballot proceeding the City has scheduled one (1) Public Meeting and one (1) Public Hearing, which will be held at the **Moreno Valley City Hall Council Chamber located at 14177 Frederick Street, Moreno Valley.**

Public Meeting	**Public Hearing**
Tuesday, June 10, 2014 6:00 P.M. (Or As Soon Thereafter As The Matter May Be Called)	Tuesday, June 24, 2014 6:00 P.M. (Or As Soon Thereafter As The Matter May Be Called)

Tabulation of returned ballots will commence after the close of the Public Hearing. All ballots received shall be tabulated under the direction of the City Clerk in compliance with the current Policy For Conducting Mail Ballot Proceedings Policy #1.12.

Effect if Approval of the Charge is Approved

Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate will be confirmed if the ballot is marked in favor of the NPDES rate. Approving the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding will fulfill the Conditions of Approval to provide a funding source for the NPDES program.

Effect if Approval of the Charge is Not Approved

Not approving the NPDES Maximum Commercial/Industrial Regulatory Rate to meet federally mandated NPDES Permit requirements may result in noncompliance with the Conditions of Approval. If the returned valid ballot is marked opposing the NPDES rate, then the rate will not be levied on the property tax bill.

For More Information

If you have any questions about the proposed program, the annual rate, or about the mail ballot proceeding process, please contact Jennifer Terry, Management Analyst, Special Districts, a

Division of the Financial and Management Services Department, Monday through Thursday from 7:30 a.m. to 6:00 p.m. at 951.413.3505 or via email at JenniferT@moval.org.

Completing Your Ballot

The enclosed ballot shall be submitted to the City Clerk in support of or opposition to the proposed program and annual charge. Please follow the instructions listed below to complete and return your ballot. Procedures for the completion, return, and tabulation of the ballot are also on file in the City Clerk's office.

1. Mark the enclosed ballot in support of or opposition to the proposed program and annual rate **by placing a mark in the corresponding box.**
2. Sign your name on the ballot. Ballots received without signature(s) will be considered invalid *and will not be counted.*
3. Mail or personally deliver your completed ballot in a sealed envelope to the City Clerk's office, 14177 Frederick Street, Moreno Valley, California, 92553. For your convenience, a postage-paid envelope has been included for return of the ballot.
4. Ballot(s) must be **received** by the City Clerk prior to the close of the Public Hearing to be held on **Tuesday, June 24, 2014**, at the Moreno Valley City Hall Council Chamber. The Public Hearing will be held at 6:00 p.m. or as soon thereafter as the matter may be called. Ballots received after the close of the Public Hearing cannot be legally counted.

Ballot Marks

Appropriate ballot markings include any one of the following for either the YES/Approved or NO/Not Approved blank box:

A check mark substantially inside a box;

An X mark substantially inside a box;

A dot or oval mark substantially inside a box;

A completely shaded or filled mark substantially inside a box;

A line, single or dashed, or combination of lines, through the box area. Lines may be any one of the following marks: horizontal, vertical, or diagonal. The mark may either run from side to side or corner to corner. All valid lines must be substantially within the box area and not marking any part of another blank box on the ballot;

A circle around the box and/or associated clause; or

A square or rectangle around the box and/or associated clause.

Balloting marks shall not extend past one box area into any portion of another nor surround the perimeter or any portion of more than one box area. Markings that extend past one box area into any portion of another or surround the perimeter or any portion of more than one box area shall be considered invalid and not counted.

Ballot Mark Revisions (Changes): An error or desire to revise (change) a selection made on the ballot may be completed and returned any time **prior** to the conclusion of public testimony at the Public Hearing. **The revision must be initialed by the record owner(s) of property. Initials must be clearly printed and placed at the right top corner of the revised selection.**

MORENO VALLEY
WHERE DREAMS SOAR

OFFICIAL MAIL BALLOT for
Assessor's Parcel Number (APN) 292-242-014

National Pollutant Discharge Elimination System (NPDES)
Maximum Commercial/Industrial Regulatory Rate

YES* — as property owner of APN 292-242-014, **I approve** the NPDES Maximum Commercial/Industrial Regulatory Rate and services. For fiscal year (FY) 2013/14, the NPDES Maximum Commercial/Industrial Regulatory Rate is $223 per parcel. Upon approval of the maximum regulatory rate, the annual levy amount shall be placed on the Riverside County property tax bill or included as a monthly charge on a utility bill. Beginning FY 2014/15, the maximum regulatory rate will be subject to an annual adjustment based on the percentage change calculated for the previous year in the Los Angeles-Riverside-Orange County Regional Consumer Price Index for All Urban Consumers, as published by the Department of Labor's Bureau of Labor Statistics. The City will annually inspect site design, source and treatment control Best Management Practices, verify monitoring and maintenance records for those on-site facilities, and perform annual inspections of the affected areas to ensure compliance with federally mandated NPDES Permit requirements, as administered by the State.

NO** — as property owner of APN 292-242-014, **I do not approve** the NPDES Maximum Commercial/Industrial Regulatory Rate and services. I understand that not approving the NPDES Maximum Commercial/Industrial Regulatory Rate to fund federally mandated NPDES Permit requirements may result in noncompliance with the project's Conditions of Approval. The NPDES maximum commercial/industrial regulatory rate will not be levied on the Riverside County property tax bill.

Report to City Council

TO: Mayor and City Council

FROM: Thomas M. DeSantis, Assistant City Manager

AGENDA DATE: June 24, 2014

TITLE: PUBLIC HEARING FOR DELINQUENT RESIDENTIAL SOLID WASTE ACCOUNTS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Approve placing the submitted list of delinquent solid waste accounts for the Fiscal Year (FY) 2014/2015 Riverside County property tax roll for collection.

2. Direct the City Clerk to file with the Riverside County Auditor a certified copy of Resolution No. 2012-55 and the list of delinquent solid waste accounts as required by Section 5473.4 of the California Health and Safety Code and Section 6.02.030 of the City of Moreno Valley Municipal Code.

SUMMARY

This report recommends that the Council convene a Public Hearing and consider staff recommendations to place the submitted list of delinquent solid waste accounts that are attached to this report on the FY 2014/2015 Riverside County property tax roll for collection.

Waste Management of the Inland Empire bills residential customers quarterly for solid waste services. Payments are made directly to Waste Management in advance for the following quarter. When a customer fails to make payment and the bill becomes more than sixty (60) days past due, the collection of the delinquent account is placed on the Riverside County property tax roll. This procedure was authorized by prior enactments of the City Council as reflected in Section 6.02.030 of the Moreno Valley Municipal

Code. The option to collect delinquent payments was negotiated as part of the franchise agreement.

DISCUSSION

The City Council approved the collection of delinquent solid waste accounts through the property tax roll process on March 1, 1993. Since that time, delinquent charges have been placed on property tax bills annually in June.

Waste Management of the Inland Empire has submitted a preliminary list of approximately 8,259 delinquent accounts. This delinquent list is to be placed on the FY 2014/2015 tax roll if approved by Council. An official copy of the list is available in the City Clerk's office for public viewing. The maximum charge to be placed on the tax roll is $2,276,986.81. Although Waste Management accepted payment on delinquent accounts until June 20, 2014, there may be some additional deletions to the list or minor adjustments to the amounts prior to final submittal to the Riverside County Auditor.

As part of the notification process, Waste Management has mailed a "Notice of Delinquent Account" to the affected property owners and account holders, informing them of the intent to place all delinquent charges on the tax roll. These notifications are mailed on a quarterly basis which is over and above the minimum notification requirements as per Section 5470 of the California Health and Safety Code and the Moreno Valley Municipal Code Section 6.02.030. A public posting of the Council's action, in accordance with Section 6066 of the Government Code, is all that is required by law.

Procedurally, in order to collect these delinquent charges on the County tax roll, the City must file with the County Auditor a certified copy of the proposed resolution along with the report as specified in California Health and Safety Code Section 5473.4 and Section 6.02.030 of the Moreno Valley Municipal Code.

ALTERNATIVES

1. Approve placing the submitted list of delinquent solid waste accounts attached to this report on the Fiscal Year (FY) 2014/2015 Riverside County property tax roll for collection and direct the City Clerk to file with the Riverside County Auditor a certified copy of the proposed resolution and a written report as prescribed by Section 6.02.030(e) of the Moreno Valley Municipal Code. *Staff recommends this alternative. This will ensure compliance with the franchise agreement and preserve the ability to avoid a net loss of revenue to the City of approximately $276,199 in franchise fees.*

2. Do not approve placing the submitted list of delinquent solid waste accounts attached to this report on the Fiscal Year (FY) 2014/2015 Riverside County property tax roll for collection and do not direct the City Clerk to file with the Riverside County Auditor a certified copy of the proposed resolution and a written

report as prescribed by Section 6.02.030(e) of the Moreno Valley Municipal Code. *Staff does not recommend this alternative as it will place the City in non-compliance of the franchise agreement, and could result in a net loss of revenue to the City of approximately $276,199 in franchise fees.*

FISCAL IMPACT

The City receives a 12.13% franchise fee for revenue generated from the collection of delinquent accounts at the time of collection. Placement of these delinquent charges on the County property tax roll will ensure the City receives the revenues due from this source which would be approximately $276,199. This amount is deposited into the general fund.

Solid waste services are exempt from Proposition 218, as stated in Section 6(c) Property Related Fees and Charges. This is because the obligation to pay does not arise due to the customer owning the property, it arises because the property is used in a way which generates trash, and the customer did not choose to legally self-haul. Furthermore, the fee is not an encumbrance on the property, although delinquent fees can become the subject of a judgment lien.

CITY COUNCIL GOALS

Revenue Diversification and Preservation - Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

Community Image, Neighborhood Pride and Cleanliness - Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

NOTIFICATION

A “Notice of Public Hearing” was published on June 10, 2014 and June 17, 2014, in The Press Enterprise in accordance with Section 6066 of the Government Code. A public posting of Council’s action will also be done in accordance with Section 6066 of the Government Code. In addition, Waste Management mailed payment requests to the attached accounts through a separate notice sent to property owners where the property could be identified as non-owner occupied. An official list of the submitted delinquent accounts is available in the City Clerk’s office. This list represents the maximum charges which can be placed on the property tax roll for FY 2014/2015.
