CALL TO ORDER

Joint Meeting of the City Council, Community Services District, City as Successor Agency for the Community Redevelopment Agency, Housing Authority and the Board of Library Trustees - actions taken at the Joint Meeting are those of the Agency indicated on each Agenda item.

PLEDGE OF ALLEGIANCE

INVOCATION

Pastor Festus Anwuli from Christ Dominion Ministries International.

ROLL CALL

INTRODUCTIONS

**PUBLIC COMMENTS ON ANY SUBJECT ON THE AGENDA AND NOT ON THE
AGENDA UNDER THE JURISDICTION OF THE CITY COUNCIL**

Those wishing to speak should complete and submit a BLUE speaker slip to the Sergeant-at-Arms. There is a three-minute time limit per person. All remarks and questions shall be addressed to the presiding officer or to the City Council.

JOINT CONSENT CALENDARS (SECTIONS A-E)

All items listed under the Consent Calendars, Sections A, B, C, D, and E are considered to be routine and non-controversial, and may be enacted by one motion unless a member of the City Council, Community Services District, City as Successor Agency for the Community Redevelopment Agency, Housing Authority or the Board of Library Trustees requests that an item be removed for separate action. The motion to adopt the Consent Calendars is deemed to be a separate motion by each Agency and shall be so recorded by the City Clerk. Items withdrawn for report or discussion will be heard after public hearing items.

A. CONSENT CALENDAR-CITY COUNCIL

- A.1. ORDINANCES - READING BY TITLE ONLY - THE MOTION TO ADOPT AN ORDINANCE LISTED ON THE CONSENT CALENDAR INCLUDES WAIVER OF FULL READING OF THE ORDINANCE.

Recommendation: Waive reading of all Ordinances.

- A.2. MINUTES - CITY COUNCIL - REGULAR MEETING - SEP 7, 2021 6:00 PM

Recommendation: Approve as submitted.

- A.3. MINUTES - CITY COUNCIL - REGULAR MEETING - OCT 5, 2021 6:00 PM

Recommendation: Approve as submitted.

- A.4. CANCELLATION OF NOVEMBER 2 CITY COUNCIL MEETING (Report of: City Clerk)

Recommendation: That the City Council:

Confirm cancellation of November 2, 2021, City Council Regular Meeting.

- A.5. PAYMENT REGISTER- AUGUST 2021 (Report of: Financial & Management Services)

Recommendation:

1. Receive and file the Payment Register.

- A.6. COVID-19 PANDEMIC RESOLUTIONS EXTENDING THE LOCAL STATE OF EMERGENCY AND CERTAIN EMERGENCY MEASURES (RESO. NO. 2021-XX) (Report of: Financial & Management Services)

Recommendations:

That the City Council adopt Resolution No. 2021-XX Extending the Local State of Emergency and Certain Emergency Measures related to the Local, State and National Declarations of a State of Emergency related to the COVID-19 Pandemic.

A.7. AUTHORIZATION TO AWARD A CONSTRUCTION CONTRACT TO ALL AMERICAN ASPHALT FOR THE HEACOCK STREET PEDESTRIAN AND BICYCLE FACILITY ENHANCEMENTS NEAR GREGORY LANE, PROJECT NO. 801 0076 (Report of: Public Works)

Recommendations:

1. Award a construction contract to All American Asphalt for the Heacock Street Pedestrian and Bicycle Facility Enhancements Near Gregory Lane project and authorize the City Manager to execute a contract with All American Asphalt in the amount of \$395,254.00 for the construction of the project, funded by the SCAG Article 3 Fund (2800) and DIF Arterial Streets (3301);
2. Authorize the issuance of a Purchase Order to All American Asphalt, in the amount of \$434,779 (\$395,254.00 bid amount plus a 10% contingency) when the contract has been signed by all parties; and
3. Authorize the Public Works Director/City Engineer to execute any subsequent change orders to All American Asphalt contract, but not exceeding the total contingency of \$39,525, subject to the approval of the City Attorney.

A.8. ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP) GRANT FUNDING (Report of: Public Works)

Recommendations:

1. Accept the Local Road Safety Plan (LRSP) grant funding of up to \$138,600 for development of a LRSP, which is a citywide systematic evaluation of roadway safety;
2. Authorize the Public Works Director to execute the Master Agreement and Program Supplement Agreement (Agreement No 08-5441S21) with Caltrans;
3. Amend the Fiscal Year 2021/22 & 2022/23 Adopted Capital Improvement Plan to include the Local Roadway Safety Plan for Moreno Valley (Project No. 810 0020); and
4. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

A.9. AUTHORIZATION TO AWARD AN AGREEMENT TO FEHR & PEERS FOR THE LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY (PROJECT NO. 810 0020) (Report of: Public Works)

Recommendations:

1. Award an Agreement for Professional Consultant Services to Fehr & Peers to provide a Local Road Safety Plan for Moreno Valley and authorize the City Manager to execute the agreement with Fehr & Peers in the amount of \$153,382;
2. Authorize the issuance of a Purchase Order to Fehr & Peers, in the amount of \$153,382 when the agreement has been signed by all parties using LRSP grant funding and the General Fund (Funds 2301 and 1010); and
3. Authorize the Public Works Director to execute any subsequent related amendments to the Agreement with Fehr & Peers, not to exceed the agreement amount, subject to the approval by the City Attorney.

A.10. AUTHORIZE SUBMISSION OF THE GRANT FUNDING APPLICATION FOR THE CALTRANS SUSTAINABLE TRANSPORTATION PLANNING GRANT - MASTER PLAN OF ELECTRIC VEHICLE CHARGING STATIONS (Report of: Public Works)

Recommendation:

1. Authorize the Public Works Director/City Engineer to submit a Caltrans Sustainable Transportation Planning Grant application for developing a master plan of Electric Vehicle infrastructure

A.11. ACCEPT AND RECEIVE A GRANT AWARD FROM THE CALIFORNIA STATE LIBRARY, CALIFORNIA LIBRARY LITERACY SERVICES PROGRAM (Report of: Parks & Community Services)

Recommendations:

1. Accept and receive a grant award from the California State Library in the amount of \$30,000 from the California Library Literacy Services program;
2. Authorize the City Manager to process a budget amendment and appropriation in the amount of \$30,000 in FY21/22 and FY22/23; and
3. Authorize the City Manager to accept, receive, and appropriate California Library Literacy Services program grant funds in subsequent fiscal years, as this is an on-going grant program;

4. Authorize the Library Director to submit yearly reporting and application documents for the California Library Literacy Services program, to secure on-going funding; and
5. Authorize and designate the Library Director to accept California Library Literacy Services program on-going funds.

B. CONSENT CALENDAR-COMMUNITY SERVICES DISTRICT

- B.1. ORDINANCES - READING BY TITLE ONLY - THE MOTION TO ADOPT AN ORDINANCE LISTED ON THE CONSENT CALENDAR INCLUDES WAIVER OF FULL READING OF THE ORDINANCE.

Recommendation: Waive reading of all Ordinances.

- B.2. MINUTES - REGULAR MEETING OF SEPTEMBER 7, 2021 6:00 PM (See A.2)

Recommendation: Approve as submitted.

- B.3. MINUTES - REGULAR MEETING OF OCTOBER 5, 2021 6:00 PM (See A.3)

Recommendation: Approve as submitted.

- B.4. AUTHORIZATION TO AWARD A CONSTRUCTION CONTRACT TO MUSCO SPORTS LIGHTING, LLC FOR SPORTS LIGHTING AT EL POTRERO PARK, (PROJECT NO. 807 0059) (Report of: City Manager)

Recommendations:

1. Award a construction contract to Musco Sports Lighting, LLC for sports lighting at El Potrero Park in substantial conformance with the attached contract, in the amount of \$749,782, funded by Park Improvement funds (Fund 3015);
2. Authorize the issuance of a Purchase Order for Musco Sports Lighting, LLC in the amount of \$824,761 (bid amount plus a 10% contingency) when the contract has been signed by all parties;
3. Authorize the Executive Director to execute any subsequent change orders to the contract, but not exceeding the total contingency of \$74,979, subject to the approval of the City Attorney;
4. Approve Musco Sports Lighting, LLC as the sole source for procurement and installation of the proposed lights and associated equipment;
5. Amend the Fiscal Year 2021/22 & 2022/23 Adopted Capital Improvement Plan to transfer the "Sports Field Lighting Upgrade at Various Park Sites" project from Parks - Unfunded to Parks - Partially Funded; and

6. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

B.5. DECLARING INTENTION TO ANNEX CERTAIN PARCELS INTO COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) OF THE MORENO VALLEY COMMUNITY SERVICES DISTRICT AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN (RESO. NO. CSD 2021-___, CSD 2021-___, CSD 2021-___, CSD 2021-___, CSD 2021-___, AND CSD 2021-___) (Report of: Financial & Management Services)

Recommendations:

1. PUBLIC COMMENTS ON ANY SUBJECT ON THE AGENDA OR NOT ON THE AGENDA UNDER THE JURISDICTION OF THE CITY COUNCIL

Fred Banuelos

1. Attended the meeting to see how things were done.
2. Stated he wanted to help the Council make the City better.
3. Introduced himself, provided his history as a resident of Moreno Valley. Stated he lived in District 4.

Ed Delgado

1. Requested 13 seconds of silence for the fallen soldiers in Afghanistan.
2. Stated he was a candidate for District 2 and provided his resume, qualifications, and vision for Moreno Valley.

Angel Lopez-Ramirez

1. Stated his qualifications for his candidacy for the District 2 council race.
2. Stated his concerns with SB9 and SB10.
3. Reported the vandalism of four different campaign signs. The candidates worked together and were able to redisplay the signs.

Bob Palomarez

1. Thanked Fire and Police for their great work.
2. Welcomed Mr. Banuelos.
3. Stated he was offended by the remarks made by Council Member Marquez that two of the Council Members were on the take or received money for their campaigns.

Tom Jerele Sr.

1. Stated that the State of the City was a great event, staff did a tremendous job.
2. Praised the Public Works Division for their great work and presentation at the Chamber meeting.
3. Commended the Valley View High School cheerleaders for their resilience.
4. Stated that the vandalism on political signs had been an ongoing issue and recommended that candidates pool their money and contract a security guard to protect their signs.

Louise Palomarez

1. Agreed with Bob Palomarez' comments.
2. Stated she was outraged at what happened in Temecula to the Valley View High School cheerleaders.
3. Stated that Council Member Marquez was supporting Council Member Cabrera for Mayor.
4. Praised Mayor Gutierrez, Mayor Pro Tem Baca, and City staff for the great work they were doing.

- 5. Supported the approval of the General Plan Amendment.
- 6. Congratulated Angel Lopez-Ramirez for his candidacy; however, he did not state any plans for increasing jobs in Moreno Valley or to move the City forward.
- 7. Stated she would support the candidate that wanted to create jobs, was aligned with the Mayor's agenda, and wanted to move the City forward not backward.
- 8. Stated that Mayor Gutierrez leaving for the County seat would be a great loss for the City. However, she would support him, the police and fire departments.

JOINT CONSENT CALENDARS (SECTIONS A-E)

RESULT: APPROVED [UNANIMOUS]
MOVER: David Marquez, Council Member
SECONDER: Ulises Cabrera, Council Member
AYES: Dr. Yxstian A. Gutierrez, David Marquez, Ulises Cabrera

A. CONSENT CALENDAR-CITY COUNCIL

- A.1. ORDINANCES - READING BY TITLE ONLY - THE MOTION TO ADOPT AN ORDINANCE LISTED ON THE CONSENT CALENDAR INCLUDES WAIVER OF FULL READING OF THE ORDINANCE.

Recommendation: Waive reading of all Ordinances.

- A.2. City Council - Regular Meeting - Jun 15, 2021 6:00 PM

Recommendation: Approve as submitted.

- A.3. COUNCIL DISCRETIONARY EXPENDITURE REPORTS FOR FISCAL YEAR 2020/2021 FROM JULY 1, 2020 THROUGH JUNE 30, 2021 (Report of: City Clerk)

Recommendation:

- 1. Receive and file the Fiscal Year 2020/2021 Council Discretionary Expenditure Report for July 1, 2020 through June 30, 2021.

- A.4. MAYORAL APPOINTMENT TO THE PARKS, COMMUNITY SERVICES, AND TRAILS COMMITTEE (Report of: City Clerk)

Council Member Marquez congratulated and thanked the teen member in attendance.

Recommendation:

- 1. Receive and confirm the Mayoral appointment as follows:

PARKS, COMMUNITY SERVICES AND TRAILS COMMITTEE

<u>Name</u>	<u>Position</u>	<u>Term</u>
Rylee Peak	Teen Member	Ending 09/07/23

- A.5. Amendment to Public Facilities Fee Credit and Entitlement Fund Agreement with SP/CCI LLC to extend the agreement for five years (AGMT. NO. 2021-182) (Report of: Community Development)

Recommendations: That the City Council:

1. Approve the Amendment to the Public Facilities Fee Credit and Entitlement Fund Agreement with SP/CCI, LLC for Acquisition of Parcels APN 478-120-003 & -004 (“Agreement”); and
2. Authorize the City Manager to execute the Agreement in the form attached hereto and authorize the Community Development Director to approve any minor changes to the Agreement that may be necessary and subsequent documents required to effectuate the intent of the Agreement, subject to the approval of the City Attorney.

- A.6. AUTHORIZATION TO AWARD AN AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES TO HR GREEN PACIFIC, INC. FOR CITYWIDE PAVEMENT REHABILITATION PROGRAM PROJECTS (AGMT. NO. 2021-183) (Report of: Public Works)

Council Member Cabrera thanked the staff for this item and for the forward planning.

Recommendations:

1. Award an Agreement for Professional Consultant Services to HR Green Pacific, Inc. to provide design related services for citywide pavement rehabilitation program projects in the amount of \$534,479.40;
2. Authorize the City Manager to execute the agreement with HR Green Pacific, Inc., subject to the approval by the City Attorney;
3. Authorize the issuance of a Purchase Order to HR Green Pacific, Inc. in the amount of \$534,479.40 when the agreement has been signed by all parties using State Gas Tax and SB1/RMRA State Gas Tax funds (Funds 2000 and 2000A);
4. Authorize the Public Works Director/City Engineer to execute any subsequent related amendments to the agreement with HR Green Pacific, Inc., not to exceed the Purchase Order amount, subject to the approval by the City Attorney; and
5. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

A.7. APPROVAL OF A REIMBURSEMENT AGREEMENT WITH EASTERN MUNICIPAL WATER DISTRICT FOR FUTURE ROAD REPAIRS AND IMPROVEMENTS (Report of: Public Works)

Recommendation:

1. Approve the Reimbursement Agreement (“Agreement”) with Eastern Municipal Water District for road repair and improvement substantially to form; and
2. Authorize the City Manager to make minor changes to the draft Agreement if necessary and execute the Agreement, in substantial conformance with the attached, and other subsequent documents and instruments related to the Agreement as necessary, to include amendments, subject to the approval of the City Attorney.

A.8. ADOPT RESOLUTION NO. 2021-61 ACCEPTING EASEMENTS OVER PORTIONS OF BRADSHAW CIRCLE FOR PUBLIC UTILITY PURPOSES ONLY (Report of: Public Works)

Recommendations:

1. Adopt Resolution No. 2021-61, a resolution of the City Council of the City of Moreno Valley, California, accepting easements over portions of Bradshaw Circle, specifically, Lots B, C, and D of Parcel Map 11496 for public utility purposes only; and
2. Direct the City Clerk to certify the acceptance of said dedication and cause said certification to be recorded in the Office of the Recorder of the County of Riverside together with said Resolution.

A.9. PAYMENT REGISTER - JULY 2021 (Report of: Financial & Management Services)

Recommendation:

1. Receive and file the Payment Register.

A.10. LIST OF PERSONNEL CHANGES (Report of: Financial & Management Services)

Recommendation:

1. Ratify the list of personnel changes as described.

A.11. RECEIPT OF QUARTERLY INVESTMENT REPORT FOR THE QUARTER ENDED JUNE 30, 2021 (Report of: Financial & Management Services)

Recommendation:

1. Receive and file the Quarterly Investment Report for quarter ended June 30, 2021, in compliance with the City's Investment Policy.

A.12. COVID-19 PANDEMIC RESOLUTIONS EXTENDING THE LOCAL STATE OF EMERGENCY AND CERTAIN EMERGENCY MEASURES (RESO. NO. 2021-62) (Report of: Financial & Management Services)

Recommendations:

That the City Council adopt Resolution No. 2021-62 Extending the Local State of Emergency and Certain Emergency Measures related to the Local, State and National Declarations of a State of Emergency related to the COVID-19 Pandemic.

A.13. AUTHORIZATION TO AWARD AGREEMENT FOR PROFESSIONAL CONSULTANT SERVICES TO RSG, INC. ("RSG") FOR AFFORDABLE COMPLIANCE MONITORING INCLUDING SB341 REPORTING REQUIREMENTS (AGMT. NO. 2021-185) (Report of: Financial & Management Services)

Recommendations:

1. Approve the Agreement for Professional Consultant Services with RSG, Inc. ("RSG") to provide Affordable Housing Compliance Monitoring including SB341 Reporting Requirement for 3 years, with an option to extend the agreement for an additional 2-year term.
2. Authorize the City Manager to execute the Agreement for Professional Consultant Services with RSG, Inc. ("RSG").
3. Authorize the issuance of purchase orders for service beginning once the Agreement has been fully executed in the not-to-exceed (NTE) amount of \$236,625.
4. Authorize the City Manager to execute any subsequent related Amendments to the Agreement, including the authority to authorize associated Purchase Orders in accordance with the terms of the Agreement, subject to the approval of the City Attorney.

- A.14. ACCEPT THE U.S. DEPARTMENT OF THE TREASURY EMERGENCY RENTAL ASSISTANCE PROGRAM PART 2 (ERAP2) FUNDS. (RESO. NO. 2021-63 & AMEND. NO. 2021-25-01) (Report of: Financial & Management Services)

Council Member Cabrera thanked Assistant City Manager Mohan and City Manager Lee for this item that assisted with the community's hardships.

Recommendations:

1. Adopt Resolution No. 2021-63, a Resolution of the City Council of the City of Moreno Valley, California Authorizing Participation in the State Rental Assistance Program 2 in the amount of \$6,032,832.
2. Accept the U.S. Department of the Treasury Direct Allocation of Emergency Rental Assistance Program Part 2 ("ERAP2") funds in the amount of \$5,012,189, and receive any additional redirected funding from ERAP as recommended by the California Department of Housing and Community Development (HCD).
3. Authorize the amendment (AMEND. NO. 2021-25-01) of the existing consulting agreement with Willdan Financial Services ("WFS") to include administration support for ERAP2 for an additional amount of \$75,000, as approved by the City Attorney.
4. Authorize a budget amendment as set forth in the fiscal impact section.
5. Authorize the City Manager to execute an agreement with United Way of Inland Valleys and the County of Riverside, and allocate ERAP2 funding to expedite direct assistance to our community.

- A.15. APPROVE THE SMOKE & CARBON MONOXIDE ALARM GIVEAWAY/REBATE PILOT STARTER RESIDENTIAL PROGRAM (AGMT. NO. 2021-186) (Report of: Financial & Management Services)

Recommendations:

1. Approve the smoke & carbon monoxide alarm giveaway/rebate pilot starter residential program;
2. Authorize the City Manager to implement the smoke & carbon monoxide alarm giveaway/rebate pilot starter residential program;
3. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

- A.16. APPROVE AND EXECUTE THE AGREEMENT WITH MUSCO SPORTS LIGHTING, LLC, FOR SPORTS LIGHTING UPGRADES AT MORRISON PARK, PROJECT NO. 807 0057-3015, AND BUDGET APPROPRIATION (Report of: Parks & Community Services)

Recommendations:

1. Approve the Agreement for the sports lighting upgrades at Morrison Park with Musco Sports Lighting, LLC;
2. Authorize the Executive Director to execute the Agreement for sports lighting upgrades at Morrison Park with Musco Sports Lighting, LLC, and issuance of the Purchase Order for construction after the Agreement has been fully executed;
3. Authorize the Executive Director to execute any subsequent related Extensions or Amendments to the Agreement within the authorized funding, subject to the approval of the City Attorney;
4. Approve Musco Sports Lighting, LLC, as the sole source for procurement and installation of the proposed lights and associated equipment.

H. ITEMS REMOVED FROM CONSENT CALENDARS FOR DISCUSSION OR SEPARATE ACTION - NONE

I. REPORTS

I.1. CITY COUNCIL REPORTS - NONE

I.2. CITY MANAGER'S REPORT

(Informational Oral Presentation - not for Council action)

City Manager Lee reminded the residents that all of the City's cooling centers were open. He also announced the El Grito event scheduled for September 15, 2021 from 5:00 to 10:00 p.m. at the Amphitheatre, and invited everyone to this free event.

CLOSING COMMENTS AND/OR REPORTS OF THE CITY COUNCIL, COMMUNITY SERVICES DISTRICT, CITY AS SUCCESSOR AGENCY FOR THE COMMUNITY REDEVELOPMENT AGENCY, HOUSING AUTHORITY, PUBLIC FINANCING AUTHORITY, AND THE BOARD OF LIBRARY TRUSTEES.

Council Member Marquez

1. Provided the meaning for his yellow lapel ribbon, the ribbon represented the safe extraction and return of all Americans in Afghanistan. He offered to provide the yellow ribbons to whomever would want one.
2. Announced the First Annual Moreno Valley Construction Job Fair at the CRC from 9:00 a.m. to 1:00 p.m. He encouraged residents of Moreno Valley to attend.
3. Stated he had been receiving calls and texts on the after school traffic. He also read the next door posts from the parents that were upset that the police officers were citing them. Stated police officers were there to protect the children.

4. Stated with pride that the Moreno Beach overpass would begin construction. Asked the businesses and residents for patience during the 18-month process.
5. Set the record straight on the public comments made about him and the gas station owner. Council Member Marquez stated that the speaker lied, he did not know the gas station owner, he did not interfere with the Planning Commission ever, and that he had only attended one Planning Commission meeting the first week he was on the Council. He had not received \$10,000 from developers for his campaign. He funded his campaign. He further stated that Mr. Palomarez owed him \$1,000 and had not paid him yet.
6. Congratulated the staff for the great work that they had been doing.

Council Member Cabrera

1. Announced that the R-Cap reopened last week, he along with Mayor Gutierrez, and City staff were present.
2. Stated he had a ride along with the C-BAT Team that morning and they encountered some homeless people.
3. Commended the Valley View High School cheerleaders for their positive reactions to the bad behavior they received in Temecula.
4. Reported that three young boys assaulted a street cart vendor in his district and took all his money. He thanked the Sheriff's Department for the arrest of the perpetrators.
5. Invited everyone to attend the El Grito event on Wednesday, September 15, 2021.
6. Sent his condolences to the families of the 13 Marines that lost their lives in Afghanistan. Requested that the meeting be adjourned in the memory of the 13 Marines along with all the lives that had been lost in Afghanistan.

Mayor Gutierrez

1. Urged everyone to follow the COVID safety protocols especially with the Delta variant surge. Urged people to get vaccinated.
2. Reminded everyone of the El Grito Event on September 15, 2021 from 5:00 p.m. to 10:00 p.m. at the Amphitheatre. The event also Celebrated Hispanic Heritage Month and would have bands, food, and a fun zone for the kids.
3. The State of the City event was well attended. He thanked the City staff and media team for all their work on the event.
4. Announced and invited everyone to the Job Fair on September 17, 2021.
5. Reminded everyone that the City was the largest and first city in the county to have a community workforce agreement which provided for local hire on public projects.
6. Stated that the M was lit to honor the 13 Marines lost in Afghanistan and other individuals.

ADJOURNMENT

There being no further business to come before the City Council, Mayor Gutierrez adjourned the meeting at 6:51 p.m. in the memory of the 13 service members and the Moreno Valley College Founding President, Dr. Richard Tworek.

ABSENT:	Victoria Baca	

PUBLIC COMMENTS ON THE AGENDA AND ON ANY SUBJECT NOT ON THE AGENDA UNDER THE JURISDICTION OF THE CITY COUNCIL

Fred Banuelos

1. Stated opposition to Measure G.
2. Expressed disagreement toward SB1 and its apportionments. Urged residents to demand a larger revenue percentage.

Robert Palomarez

1. Congratulated the Police and Fire Department members who were honored during special presentations; acknowledged the hard work they do.
2. Claimed Corey Jackson wanted to remove Police Officers from Moreno Valley schools.
3. Alleged Council Member Cabrera made previous statements about defunding the Police.
4. Remarked to Council Member Marquez that he is still awaiting a call from his attorney.

Angel Lopez-Ramirez

1. Stated his candidacy for District 2.
2. Commended the City Council for continuing Item No. F.1.
3. Bemoaned the rising cost of housing and its effects on seniors and Veterans. Encouraged the City Council to consider affordable housing developments.

Louise Palomarez

1. Agreed with the comments made by Bob Palomarez.
2. Critical of some of the endorsements for District 2 candidate Keri Then.
3. Challenged the notion that Mikey Garcia was a backer of Council Member Cabrera's run for Mayor.
4. Praised Mayor Gutierrez.

Recommendation:

1. Ratify the list of personnel changes as described.

- A.7. PURSUANT TO A LANDOWNER PETITION, ANNEX CERTAIN PARCEL(S) INTO COMMUNITY FACILITIES DISTRICT NO. 2014-01 (MAINTENANCE SERVICES) - AMENDMENT NO. 60 (RESO. NO. 2021-65) (Report of: Financial & Management Services)

Recommendation:

1. Acting as the legislative body of Community Facilities District No. 2014-01 (Maintenance Services), adopt Resolution No. 2021-65, a Resolution of the City Council of the City of Moreno Valley, California, ordering the annexation of territory to City of Moreno Valley Community Facilities District No. 2014-01 (Maintenance Services) and approving the amended map for said District (Amendment No. 60) (24771 Nandina, located on the south side of Nandina Ave., west of Perris Blvd.).

- A.8. ACCEPTANCE OF THE FISCAL YEAR 2020 STATE HOMELAND SECURITY PROGRAM (SHSP) GRANT AWARD (Report of: Fire Department)

Recommendation:

1. Accept the Fiscal Year 2020 State Homeland Security Program (SHSP) grant award of \$24,223 from the Riverside County Emergency Management Department.
2. Authorize a budget adjustment of \$24,223 to the Emergency Management Grant fund (2503) revenue and expenditure accounts.

A.9. SB 1205 FY 2020/2021 State Mandate Inspections (RESO. NO. 2021-66)
(Report of: Fire Department)

1. Approve Resolution No. 2021-66, acknowledging receipt of a report made by the Fire Chief of the Moreno Valley Fire Department regarding the inspection of certain occupancies requiring annual inspections in such occupancies pursuant to sections 13146.2 and 13146.3 of the California Health and Safety Code. Staff recommends this alternative.

A.10. PEN16-0095 (TRACT 36760) – APPROVAL OF MAINTENANCE AGREEMENT BY AND BETWEEN THE CITY OF MORENO VALLEY AND LEGACY PARK COMMUNITY ASSOCIATION FOR THE TRACT LOCATED ON THE EAST SIDE OF INDIAN STREET BETWEEN GENTIAN AVENUE AND SANTIAGO DRIVE. (AGMT. NO. 2021-204) DEVELOPER – MERITAGE HOMES OF CALIFORNIA, INC. (Report of: Public Works)

Recommendations:

1. Approve the Maintenance Agreement by and between the City of Moreno Valley and Legacy Park Community Association;
2. Authorize the City Manager to execute the Maintenance Agreement with Legacy Park Community Association; and
3. Authorize the City Clerk to transmit the executed Maintenance Agreement to the Riverside County Recorder's Office for recordation.

A.11. APPROVE THE SECOND AMENDMENT TO THE AGREEMENT FOR PROFESSIONAL CONSULTANT SERVICES WITH MICHAEL BAKER INTERNATIONAL FOR THE INDIAN STREET / CARDINAL AVENUE BRIDGE (OVER LATERAL A), PROJECT NO. 802 0004 (AGMT. NO. 2020-186-02) (Report of: Public Works)

Recommendations:

1. Approve the Second Amendment to the Agreement for Professional Consultant Services with Michael Baker International, to perform Environmental Clearance, Right of Way Documentation, and Bridge and Roadway Design for the Indian Street / Cardinal Avenue Bridge (Over Lateral A) project, funded with Arterial Developer Impact Fee (DIF) funds;
2. Authorize the City Manager to execute the Second Amendment to Agreement for Professional Consultant Services with Michael Baker International, subject to the approval by the City Attorney;

3. Authorize an amendment to the existing Purchase Order with Michael Baker International in the amount of up to but not to exceed \$650,000.00 once the Agreement has been signed by all parties; and
4. Authorize the Public Works Director to execute any subsequent related amendments to the Agreement for Professional Consultant Services with Michael Baker International, not to exceed the total Purchase Order amount, subject to approval by the City Attorney.

A.12. AUTHORIZATION TO AWARD A PROFESSIONAL CONSULTANT SERVICES AGREEMENT TO TRANSTECH ENGINEERS, INC. FOR THE STATE ROUTE 60/ REDLANDS BOULEVARD INTERCHANGE IMPROVEMENTS, PROJECT NO. 801 0064 (AGMT. NO. 2021-205) (Report of: Public Works)

Recommendations:

1. Award an Agreement for Professional Consultant Services to Transtech Engineers, Inc. to perform professional services for the Project Approval and Environmental Document (PA/ED) Phase for State Route 60/Redlands Blvd Interchange Improvements project , funded by Transportation Uniform Mitigation Fee (TUMF) Program funds;
2. Authorize the issuance of a Purchase Order to Transtech Engineers, Inc., in the amount of \$2,536,589 when the contract has been signed by all parties;
3. Authorize the City Manager to execute the contract with Transtech Engineers, Inc., subject to the approval by the City Attorney; and
4. Authorize the Public Works Director to execute any subsequent related amendments to the Agreement for Professional Consultant Services with Transtech Engineers, Inc., not to exceed the total Purchase Order amount, subject to the approval by the City Attorney

A.13. AUTHORIZE A PURCHASE ORDER TO ONESOURCE DISTRIBUTORS FOR THE PURCHASE OF EMERGENCY STOCK FOR MORENO VALLEY UTILITY (MVU) (Report of: Public Works)

Recommendations:

1. Authorize a Purchase Order to OneSource Distributors for the purchase of various electrical items used for emergency response by Moreno Valley Utility, funded by MVU's operating fund; and
2. Authorize the purchase of various electrical items as needed for emergency response in an amount not to exceed a total of \$250,000 for fiscal year 2021/2022.

A.14. APPROVE THE 2022 ANNUAL SYSTEM RESOURCE ADEQUACY PLAN FOR MORENO VALLEY UTILITY (Report of: Public Works)

Recommendations:

1. Approve the Annual System Resource Adequacy Plan (“Plan”) for calendar year 2022 and authorize the City Manager to make minor adjustments to the Plan as necessary to meet State requirements; and
2. Authorize filing of the 2022 Annual System Resource Adequacy Plan with the California Independent System Operator (CAISO) in compliance with Section 40 of its tariff.

A.15. ADOPTION OF A RESOLUTION AUTHORIZING THE ACCEPTANCE OF THE REAL PROPERTY DONATION FOR APN 487-370-015 LOCATED ON THE WEST SIDE OF MORRISON STREET, NORTH OF COTTONWOOD AVENUE (RESO. NO. 2021-67) (Report of: Public Works)

Recommendation:

1. Adopt Resolution No. 2021-67 authorizing the acceptance of real property and allowing the City Manager to execute all documents necessary for the transaction of the real property donation of parcel APN 487-370-015

A.16. AUTHORIZE THE AWARD OF PROFESSIONAL SERVICES AGREEMENTS TO ACCO, F.M. THOMAS, AND HASCO FOR HEATING, VENTILATION, AND AIR-CONDITIONING (HVAC) SERVICES AT CITY FACILITIES AND SITES (AGMT. NOS. 2021-206, 207, and 208) (Report of: Public Works)

Recommendations:

1. Award a five-year contract to ACCO for a total not-to-exceed amount of \$800,000 for professional heating, ventilation, air conditioning, and related equipment maintenance and repair; and authorize the City Manager to execute contracts in conformance with the attached Agreement using fund 7310, Facilities Maintenance;
2. Award a five-year contract to F.M. Thomas and a five-year contract with HASCO each for a total not-to-exceed amount of \$100,000 for professional heating, ventilation, air conditioning, and related equipment maintenance and repair; and authorize the City Manager to execute contracts in conformance with the attached Agreements using fund 7310, Facilities Maintenance;

3. Authorize the issuance of annual purchase orders for ACCO, F.M. Thomas, and HASCO on an as needed basis each year of the Agreement term subject to funds available in the City Council approved Operating Budget; and
4. Authorize the Director of Public Works/City Engineer to execute any amendments, purchase orders and/ or change orders not-to-exceed the authorized amounts, contingent upon approved budget and approval of the City Attorney.

B. CONSENT CALENDAR-COMMUNITY SERVICES DISTRICT

I. REPORTS

I.1. CITY COUNCIL REPORTS

(Informational Oral Presentation - not for Council action)

March Joint Powers Commission (JPC) - Mayor Gutierrez

Mayor Gutierrez reported the following:

Tonight, I'm providing updates from the March Joint Powers Commission meeting held on September 22nd. The Commission heard a report by Southern California Gas on their commitment to net zero greenhouse gas emissions by 2045. We also heard an update about the Meridian Park developments.

Finally, we approved an amended Truck Route Ordinance that channels trucks away from residential areas in Riverside and Moreno Valley.

Riverside County Habitat Conservation Agency (RCHCA) - None

Riverside County Transportation Commission (RCTC) - None

Riverside Transit Agency (RTA) - None

Western Riverside Council of Governments (WRCOG) - Mayor Gutierrez

Mayor Gutierrez reported the following:

Items covered at the WRCOG Executive Committee meeting on October 4, 2021 include:

The Executive Committee recommended that WRCOG staff begin work on a Transportation Uniform Mitigation Fee (TUMF) Nexus Study update. The TUMF Program relies on a Nexus Study to draw a connection between the needs of the Program and the TUMF Program Fee Schedule. The last update was completed in 2017.

Western Riverside County Regional Conservation Authority (RCA) - Council Member Marquez

Council Member Marquez reported the following:

Items covered at the RCA Board of Directors meeting on October 4, 2021 include:

Moreno Valley's MSHCP fee collection totaled \$114,642.00 (35 residential permits) for the month of September 2021.

School District/City Joint Task Force - None

I.2. CITY MANAGER'S REPORT

(Informational Oral Presentation - not for Council action)

City Manager Lee clarified that the City receives close to \$4 million from SB1 money. He commended the Mayor and City Council members for attending the League of California Cities in Sacramento and their work in helping to defeat a controversial resolution. He thanked the Mayor and City Council on the approval of the MoVal S.A.F.E.R. program.

CLOSING COMMENTS AND/OR REPORTS OF THE CITY COUNCIL, COMMUNITY SERVICES DISTRICT, CITY AS SUCCESSOR AGENCY FOR THE COMMUNITY REDEVELOPMENT AGENCY, HOUSING AUTHORITY, PUBLIC FINANCING AUTHORITY, AND THE BOARD OF LIBRARY TRUSTEES.

Council Member Marquez

1. Urged residents to proceed with caution on the Moreno Beach Drive overpass as construction has commenced.
2. Recounted an encounter he had at the LOCC Annual Conference.
3. Requested a status update of the establishment of a commercial Police patrol vehicle.
City Manager Lee reported that due to the shortage of chips the provider is unable to fill the order.
Council Member Marquez asked Chief Salisbury if the County could lend the City a commercial unit.
Chief Salisbury explained that the County has not purchased any commercial enforcement vehicles.
4. Welcomed Fire Chief Park.

Council Member Cabrera

1. Welcomed Fire Chief Park.
2. Refuted the claim that he had called for defunding the Police.
3. Attended the Jamil Dada Character Excellence awards on October 1st.
4. Attended the Building Industry Association event on September 30th.
5. Announced that he was elected to serve on the Executive Board of the Latino Caucus for the League of California Cities.
6. Encouraged residents to take advantage of the MoVal S.A.F.E.R. program by completing an application for a free smoke detector.
7. Expressed his excitement for the delivery of his first child with his wife.

Mayor Gutierrez

1. Participated in the dedication of Weston Park on September 25th with Kawhi Leonard.
2. Amazed by the youth who attended the Jamil Dada event on October 1st.
3. Announced that the City prevailed in the inaugural Mayor's Golf Cup Tournament that occurred on October 4th.
4. Toured the U.S. Veterans facility and welcomed Dennis McDonough, Secretary of Veteran Affairs.
5. Reminded residents of the upcoming Day of the Dead event on October 29th.

ADJOURNMENT

There being no further business to come before the City Council, Mayor Gutierrez adjourned the meeting at 6:39 p.m.

Submitted by:

Pat Jacquez-Nares, CMC & CERA
 City Clerk
 Secretary, Moreno Valley Community Services District
 Secretary, City as Successor Agency for the Community
 Redevelopment Agency of the City of Moreno Valley
 Secretary, Moreno Valley Housing Authority
 Secretary, Board of Library Trustees
 Secretary, Public Finance Authority

Approved by:

Dr. Yxstian A. Gutierrez
 Mayor
 City of Moreno Valley
 President, Moreno Valley Community Services District
 Chairperson, City as Successor Agency for the Community
 Redevelopment Agency of the City of Moreno Valley
 Chairperson, Moreno Valley Housing Authority
 Chairperson, Board of Library Trustees
 Chairperson, Public Financing Authority

Report to City Council

TO: Mayor and City Council

FROM: Pat Jacquez-Nares, City Clerk

AGENDA DATE: October 19, 2021

TITLE: CANCELLATION OF NOVEMBER 2 CITY COUNCIL MEETING

RECOMMENDED ACTION

Recommendation: That the City Council:

Confirm cancellation of November 2, 2021, City Council Regular Meeting.

SUMMARY

Historically, the City Council's first regular meetings scheduled in November, which have fallen on an official election date, have been cancelled or adjourned due to a lack of a quorum.

DISCUSSION

Since the first regular City Council meetings in November have historically not taken place if they fell on an election date, staff is requesting confirmation regarding whether this year's regular meeting should be simply cancelled in advance so that the public may be notified in advance, rather than learning after they may show up for the meeting that the meeting will not take place due to a lack of a quorum. A cancellation will also allow staff to make the necessary adjustments to calendaring and noticing certain public hearings which involve a considerable amount of time and effort since some public hearing notices have to be published at least ten days in advance of the public hearings, and notices have to be sent to record property owners, numerous public agencies and other interested parties. Moreover, since the City Council meetings commence as early as 5:30 p.m., they occur before the polls are officially closed.

Notice of cancellation of the meeting will be posted and distributed in advance in the same manner as the regular meeting agendas are posted and distributed.

FISCAL IMPACT

None at this time.

NOTIFICATION

Indicate any outreach efforts made to elicit comments from parties with interest in the issue. Review comments that may have been made. Also, identify to whom copies of the report were sent so they could be informed about the agenda item.

Report to City Council

TO: Mayor and City Council

FROM: Brian Mohan, Assistant City Manager

AGENDA DATE: October 19, 2021

TITLE: PAYMENT REGISTER- AUGUST 2021

RECOMMENDED ACTION

Recommendation:

1. Receive and file the Payment Register.

SUMMARY

The Payment Register is an important report providing transparency of financial transactions and payments for City activity for review by the City Council and the residents and businesses in Moreno Valley. The report is posted to the City's website as soon as it is available. The report is included in the City Council agenda as an additional means of distributing the report.

The payment register lists in alphabetical order all checks and wires in the amount of \$25,000 or greater, followed by a listing in alphabetical order of all checks and wires less than \$25,000. The payment register also includes the fiscal year-to-date (FYTD) amount paid to each vendor.

Report to City Council

TO: Mayor and City Council

FROM: Brian Mohan, Assistant City Manager
Steve Quintanilla, Interim City Attorney

AGENDA DATE: October 19, 2021

TITLE: COVID-19 PANDEMIC RESOLUTIONS EXTENDING THE LOCAL STATE OF EMERGENCY AND CERTAIN EMERGENCY MEASURES (RESO. NO. 2021-XX)

RECOMMENDED ACTION

Recommendations:

That the City Council adopt Resolution No. 2021-XX Extending the Local State of Emergency and Certain Emergency Measures related to the Local, State and National Declarations of a State of Emergency related to the COVID-19 Pandemic.

SUMMARY

The Disaster Council recommends that the City Council adopt the attached Resolution Extending the Local State of Emergency and Certain Emergency Measures related to the Local, State and National Declarations of a State of Emergency related to the COVID-19 Pandemic.

The City Council initially declared a Local State of Emergency at its March 17, 2020 meeting and closed all City facilities to the public to minimize and mitigate the spread of the COVID-19 coronavirus.

DISCUSSION

On March 17, 2020, the City Council declared a Local State of Emergency in response to the COVID-19 Pandemic, which prompted the Disaster Council to convene. The Disaster Council consists of the Mayor, City Manager/Director of Emergency Services and the Fire Chief. The Disaster Council's purpose is to develop and recommend for adoption by the City Council emergency plans, mutual aid plans, agreements,

ordinances, resolutions and any necessary rules and regulations to implement the aforementioned.

Since the commencement of the Local State of Emergency, the City Council adopted via various resolutions and/or orders certain “Emergency Measures” related to the following:

- Declaring and Subsequently Extending the Existence of a Local State of Emergency due to the COVID-19 Pandemic;
- Approving the Pandemic Influenza Preparedness Plan;
- Ratifying, Adopting and Approving the Amended Closure Plan Regarding its Termination Date;
- Directing the City Disaster Council and/or City Manager/Emergency Services Director to Seek, Apply for and Accept any Financial Assistance, Grants, Reimbursements the City is Eligible to Receive Under any State or Federal Programs, Agencies or Offices including but not limited to the Governor’s Office of Emergency Services, the United States Department of Health and Human Services; Centers for Disease Control and Prevention and/or the Federal Emergency Management Agency;
- Authorizing the City Manager/Emergency Services Director to Obtain Vital Supplies, Equipment and Property Found Lacking and Needed for the Protection of Life and Property During the Local State of Emergency;
- Waiving the City Manager’s/Emergency Services Director’s Level of Procurement Signature Authority to Mitigate or Prevent the Spread and Transmission of COVID-19;
- Authorizing the City Manager/Emergency Services Director to Suspend the Purchasing Procedures Set Forth in Chapter 3.12 of the Municipal Code Related to the COVID-19 Virus Pandemic Emergency;
- Authorizing the City Manager/Emergency Director to Take any Directly Related and Immediate Action Required by the COVID-19 Virus Pandemic Emergency and Procure the Necessary Public Works Construction Contracts for those Purposes, Without Giving Notice for Bids to Let Contracts;
- Granting Qualified Immunity to Certain Medical Professionals and Veterinarians or Registered Veterinary Technicians Who Render Services During the City’s Local State of Emergency at the Express or Implied Request of the City Disaster Council, City Manager/Emergency Services Director and/or City Council;
- Imposing a Moratorium on Late Fees Related to the Nonpayment of Rent Due to Inability to Pay Related to COVID-19;
- Approving Provisions to Permit Expanded Outdoor Dining for Local Restaurants and Streamlining the Temporary Use Permit (TUP) Process and Instituting a Fee Waiver to Temporarily Allow Existing Restaurants to Expand Outdoor Seating Capacity on Private Property in Order to Implement Proper Social Distancing Measures;

- Authorizing the Operation of the State of California's Great Plates Delivered Program, Locally Known as Senior Eats, Reimbursing Local Restaurants for the Delivery of Hot Meals to Seniors;
- Approving Provisions to Allow for Temporary Outdoor Business Operations and Streamlining the Temporary Use Permit (TUP) process and Instituting a Fee Waiver to Temporarily Allow Existing Businesses to Conduct Outdoor Business Operations on Private Property in Order to Implement Proper Social Distancing Measures; and
- Adopting a Declaration of a Fiscal Emergency.

It is important to note that all of the above Emergency Measures are temporary. Each are set to terminate at such time that the Governor's State of Emergency is terminated by a subsequent proclamation of the Governor, a concurrent resolution of the State Legislature, or adoption of or change in previous State legislation, State Commission, CPUC, or other State Board that conflicts with any local Council approved resolutions, and the emergency measures are terminated by the City Council. Notwithstanding the foregoing, and in order to prevent inconsistencies, the Disaster Council or the City Council may suspend the effectiveness of any of the Emergency Measures in the event the President of the United States, the United States Congress, the Governor of the State of California, the California State Legislature or the Public Health Officer of the County of Riverside adopts legislation, a law, a regulation or order that supersedes any given Emergency Measure.

Notwithstanding the above, under the California Emergency Services Act, the City Council must review the need for continuing the existence of the Local State of Emergency at least once every 60 days until the City Council terminates the Local State of Emergency. Pursuant to the California Emergency Services Act, the City Council must terminate the Local State of Emergency at the earliest possible day that the conditions warrant.

RESOLUTION EXTENDING LOCAL EMERGENCY AND EMERGENCY MEASURES

In light of the foregoing, the Disaster Council recommends that the City Council adopt the attached Resolution that:

- Extends Declaration of the Existence of a Local State of Emergency due to the COVID-19 Pandemic;
- Reaffirms the Approval the Pandemic Influenza Preparedness Plan;
- Continues Directing the City Disaster Council and/or City Manager/Emergency Services Director to Seek, Apply for and Accept any Financial Assistance, Grants, Reimbursements the City is Eligible to Receive Under any State or Federal Programs, Agencies or Offices including but not limited to the Governor's Office of Emergency Services, the United States Department of Health and Human Services; Centers for Disease Control and Prevention and/or the Federal Emergency Management Agency;

- Continues to Authorize the City Manager/Emergency Services Director to Obtain Vital Supplies, Equipment and Property Found Lacking and Needed for the Protection of Life and Property During the Local State of Emergency;
- Continues to Waive the City Manager's/Emergency Services Director's Level of Procurement Signature Authority to Mitigate or Prevent the Spread and Transmission of COVID-19;
- Extends the Authorization of the City Manager/Emergency Services Director to Suspend the Purchasing Procedures Set Forth in Chapter 3.12 of the Municipal Code Related to the COVID-19 Virus Pandemic Emergency;
- Extends the Authorization of the City Manager/Emergency Director to Take any Directly Related and Immediate Action Required by the COVID-19 Virus Pandemic Emergency and Procure the Necessary Public Works Construction Contracts for those Purposes, Without Giving Notice for Bids to Let Contracts;
- Extends Granting Qualified Immunity to Certain Medical Professionals and Veterinarians or Registered Veterinary Technicians Who Render Services During the City's Local State of Emergency at the Express or Implied Request of the City Disaster Council, City Manager/Emergency Services Director and/or City Council;
- Extending the Provisions to Permit Expanded Outdoor Dining for Local Restaurants and Streamlining the Temporary Use Permit (TUP) Process and Instituting a Fee Waiver to Temporarily Allow Existing Restaurants to Expand Outdoor Seating Capacity on Private Property in Order to Implement Proper Social Distancing Measures;
- Extending the Provisions to Allow for Temporary Outdoor Business Operations and Streamlining the Temporary Use Permit (TUP) process and Instituting a Fee Waiver to Temporarily Allow Existing Businesses to Conduct Outdoor Business Operations on Private Property in Order to Implement Proper Social Distancing Measures;
- Continue to comply with AB 361 Revisions to the Brown Act; and
- Extending and Reaffirming the Declaration of a Fiscal Emergency.

Upon adoption of the attached Resolution, all of the above Emergency Measures will remain in full force and effect until such time that the Governor's State of Emergency is lifted either by the Governor, a joint resolution of the State Legislature, or adoption of or change in previous State legislation, State Commission, CPUC, or other State Board that conflicts with any local Council approved resolutions, and terminated by the City Council, which pursuant to the California Services Act, the City Council is obligated to terminate at the earliest possible day that the conditions warrant.

Extending the Existence of a Local Emergency due to the COVID-19 Pandemic

Under a prior order of the City Council, the City Manager/Emergency Services Director was directed to provide an update to the City Council every 60 days to determine whether the Local State of Emergency needs to remain in effect.

The Disaster Council has determined there remains a need to continue (extend) the City Council's declaration of the existence of a Local State of Emergency due to the ongoing

nature of the COVID-19 Pandemic, which continues to endanger the health and welfare of the residents and visitors of the City of Moreno Valley, as reflected in the guidance and related findings published by Riverside County Public Health Officer, the Governor's Office, the California Department of Public Health, the Centers of Disease Control and Prevention and the World Health Organization.

Pandemic Influenza Preparedness Plan

The Pandemic Influenza Preparedness Plan which was prepared under the direction and oversight of the Disaster Council, serves as the City's "Emergency Operations Plan." Pursuant to the Municipal Code, the Disaster Council is responsible for the development and maintenance of the City's Emergency Operations Plan, which must provide for the effective mobilization of all of the resources of the City, both public and private, to meet any conditions which may arise during the Local State of Emergency. It also provides for the organization, powers and duties and services of certain City employees, who all became "Disaster Workers" upon the adoption the Declaration of the Local State of Emergency. As Disaster Workers, some City employees may be assigned duties outside the scope of their regular job duties. The Plan also addresses issues such as telecommuting and financial tracking of emergency expenditures for purposes of qualifying for emergency assistance from Governor's Operations of Emergency Services and/or FEMA.

Waiving Limitation on City Manager's Purchasing Authority

Currently, the City Manager/Emergency Services Director has the discretion to purchase and procure certain materials, equipment, supplies and services, provided that no single transaction exceeds \$50,000 or \$75,000 for public works contracts. This emergency measure waives these dollar limitations only for those purchases and procurement of materials, equipment, supplies and services which are related to mitigating or preventing the spread and transmission of COVID-19. This emergency measure also ratified any and all purchases of equipment, supplies and other materials in response to the arrival of 195 individuals who may have been exposed to COVID-19 at March Air Reserve Base on or about January 29, 2020, and who were subjected to a mandatory 14-Day federal COVID-19 quarantine at the Base, without prior sufficient notice being provided to the City first

Suspending Purchasing Procedures

This Emergency Measure authorizes the City Manager/Emergency Services Director to suspend the purchasing procedures set forth in Chapter 3.12 "Purchasing" of the Municipal Code to procure the necessary equipment, services, and supplies in order to respond immediately and effectively to the COVID-19 Virus Pandemic Emergency. Suspension of the purchasing procedures essentially authorizes the City Manager/Emergency Services Director to approve the direct purchase of any supplies, materials, equipment or contractual services where immediate procurement is essential to prevent delays which may otherwise hinder the City's efforts to implement programs and provide services intended to prevent or mitigate the risk of spreading and

transmitting COVID-19. This also allows the City Manager/Emergency Services Director to suspend any requirements for preparing and publishing “Notices Inviting Bids,” soliciting prospective vendors and consultants via “Requests for Proposals” (RFPs) or “Request for Quotes,” awarding a contract or purchase to the “Lowest Responsible Bidder,” requiring “Bidder’s Security,” and implementing “Protest Procedures.”

Suspending Public Contract Bidding Requirements

This Emergency Measure allows for a temporary suspension of the competitive bidding process associated with public works contracts. Under the State’s Public Contract Code, such a temporary suspension is permitted during a State of Emergency. Basically, this authorizes the City Manager/Emergency Services Director to cause the repair or replacement of any public facility directly related to the COVID-19 Virus Pandemic Emergency, which requires immediate action without having to give notice for bids to let contracts as otherwise required under the Public Contract Code.

Obtaining Vital Supplies, Equipment and Property

This Emergency Measure authorizes the City Manager/Emergency Services Director or designee, for the duration of the Local State Emergency, to obtain vital supplies, equipment and property identified as lacking and necessary for the protection of life and property and to bind the City for the fair value thereof.

Application & Acceptance of State & Federal Emergency Aid

FEMA has announced that certain emergency protective measures taken by cities to respond to the COVID-19 emergency may be eligible for reimbursement. In addition, there may also be some emergency funding made available by the Health and Human Services or the Centers for Disease Control and Prevention for certain emergency protective measures, the City may implement. Such funding may be made available for costs associated with management, control and reduction of immediate threats to public health and safety, such as Emergency Operation Center costs, training specific to the declared event and disinfection of eligible public facilities, medical facility services and supplies, temporary medical facilities and/or enhanced medical/hospital capacity, use of specialized medical equipment, medical waste disposal, emergency medical transport, medical sheltering, etc. Moreover, it is expected that under the California Disaster Assistance Act, the State may be providing financial assistance for local costs such as, but not limited to, personnel costs, equipment costs, and the cost of supplies and materials used during disaster response activities; matching fund assistance for cost sharing required under federal disaster assistance programs; and indirect administrative costs and any other assistance deemed necessary by the Director of the Office of Emergency Services.

Granting Qualified Immunity to Medical Professionals and Veterinarians

This Emergency Measure authorizes the City Manager/Emergency Services Director, for the duration of the Local State of Emergency, to request, expressly or impliedly, the

services of certain medical professionals and facilities for purposes related to the Local State of Emergency. This applies to the services provided by any physician or surgeon (whether licensed in California or any other state), hospital, pharmacist, respiratory care practitioner, nurse, or dentist for purposes related to the COVID-19. Pursuant to the California Emergency Services Act, any physician or surgeon (whether licensed in California or any other state), hospital, pharmacist, respiratory care practitioner, nurse, or dentist who renders services during the Local State of Emergency at the express or implied request of the City Disaster Council, City Manager/Emergency Services Director and/or City Council shall have no liability for any injury sustained by any person by reason of such services, regardless of how or under what circumstances or by what cause those injuries are sustained; provided, however, that the immunity herein granted shall not apply in the event of a willful act or omission.

This Emergency Measure also applies to any veterinarian or registered veterinary technician who renders services during the Local State of Emergency at the express or implied request of the City Disaster Council, City Manager/Emergency Services Director and/or City Council. They too shall have no liability for any injury sustained by any animal by reason of those services, regardless of how or under what circumstances or by what cause those injuries are sustained; provided, however, that the immunity herein granted shall not apply in the event of a willful act or omission.

Providing For Expanded Restaurant Outdoor Seating

This Resolution continues to authorize the City Manager or designee to maintain the streamlined Temporary Use Permit (TUP) process and fee waiver to temporarily allow existing restaurants within the City to expand outdoor seating capacity on private property in order to implement proper social distancing measures. In association with this plan to facilitate operations for existing City restaurant businesses, staff has developed a checklist that provides applicants with a clear and simple understanding of the associated requirements. An over-the-counter approval process has also been made available.

Providing For Temporary Outdoor Business Operations

This Resolution also continues to authorize the City Manager to maintain the streamlined Temporary Use Permit (TUP) process and fee waiver to temporarily allow existing businesses to conduct outdoor operations within the City on private property in order to implement proper social distancing measures in accordance with applicable State guidelines. In association with this plan to facilitate operations for existing City businesses, staff developed a checklist that provides applicants a clear and simple understanding of the associated requirements. An over-the-counter approval process is also available.

Continue compliance of AB 361 Revisions to the Brown Act

On September 16, 2021, Governor Gavin Newsom signed into law AB 361 (Chapter 165, Statutes of 2021), enabling local public agencies to continue to use

teleconferencing without complying with certain Brown Act provisions. Then on September 20, 2021, Governor Newsom issued Executive Order N-15-21, delaying the full application of AB 361 (which would typically be effective immediately, as urgency legislation) until 11:59 pm October 1, 2021. These moves are the latest in a series of adjustments made to Brown Act rules for teleconference since the beginning of the COVID-19 pandemic. The City Council continues to impose and/or recommend measure to promote social distancing and therefore continued compliance of AB 361 will continue.

Continuing the Declaration of a Fiscal Emergency

It is difficult to predict with certainty the ultimate reduction in General Fund revenues caused by the COVID-19 Pandemic but the impact has been and likely will continue to be significant. Although the City has taken immediate actions to balance the budget for the best case scenario of a \$9.9 million shortfall in FY 2020/21, due to the ongoing impacts of the Governor's Executive Orders and the potential for additional State takeaways from local government in future State budget revisions or other actions, along with not receiving any financial support from either the State or the Federal Government, this situation may continue to create a severe economic crisis at the federal, state and local levels.

Continuing the Declaration of a Fiscal Emergency as a result of COVID-19 provides, in part, for the City Manager/Emergency Services Director to investigate and recommend further actions to mitigate the fiscal impact to the City's 2020/21 and 2021/22 Fiscal Year Budgets, including such measures relating to personnel costs, operations, reduction in service levels, or other measures deemed necessary and reasonable to minimize the accelerated and significant reduction to the General Fund budget and reserves.

The decision to declare a Fiscal Emergency was not made lightly. The City's immediate and significant loss of revenue due to COVID-19 is unprecedented and represents a sudden change of circumstances beyond the City's control and will ultimately draw down its General Fund reserves beyond a traditionally recommended level. Unlike the Great Recession of 2008-2011, where the City had an opportunity to implement cost saving measures over a longer period of time, the COVID-19 Local State of Emergency is immediate, severe and is highly likely going to extend through the next few fiscal years.

ALTERNATIVES

1. Adopt the recommended actions set forth within the staff report. This would allow the City Manager/Emergency Services Director to respond in a timely manner in time sensitive situations where delays may frustrate or impede the City's emergency efforts to abate or mitigate the spread and transmission of COVID-19.
2. Reject the recommended actions set forth within the staff report, which would impact the City's ability to respond in a timely manner in time sensitive situations

where delays may frustrate or impede on the City’s emergency efforts to abate or mitigate the spread and transmission of COVID-19 in a timely manner.

FISCAL IMPACT

RESOLUTION NO. 2021-___

**A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF MORENO VALLEY, CALIFORNIA,
EXTENDING THE LOCAL STATE OF EMERGENCY AND CERTAIN EMERGENCY
MEASURES RELATED TO THE LOCAL, STATE AND NATIONAL DECLARATIONS
OF A STATE OF EMERGENCY RELATED TO THE COVID-19 PANDEMIC
AND EXTENDING THE DECLARATION OF A FISCAL EMERGENCY**

WHEREAS, on March 4, 2020, the Governor of the State of California proclaimed a State of Emergency to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19; and

WHEREAS, on March 7, 2020, Riverside County Public Health Officer Dr. Cameron Kaiser declared a Local Health Emergency; and

WHEREAS, on March 10, 2020, the Riverside County Board of Supervisors ratified the Local Health Emergency and activated the Medical Health Department Operations Center to better coordinate public messaging and planning among community partners as Riverside County officials prepare for the spread of COVID-19; and

WHEREAS, on March 11, 2020, the California Department of Public Health issued guidance that in order to protect public health and slow the rate of transmission of COVID-19, by recommending placing restrictions on gatherings of people and minimum social distancing of six feet; and

WHEREAS, on March 12, 2020, the Governor of the State of California issued Executive Order N-25-20 providing that all residents are to heed any orders and guidance of state and local public health officials, including but not limited to the imposition of social distancing measures, to control the spread of COVID-19 and that authorized local legislative bodies to hold public meetings via teleconferencing and to make public meetings accessible telephonically or otherwise electronically to all members of the public seeking to attend and to address the local legislative body, during the period in which local public officials impose or recommend measures to promote social distancing, including but not limited to limitations on public events; and

WHEREAS, on March 13, 2020, the President of the United States of America proclaimed and declared a National Emergency Concerning the Novel Coronavirus Disease (COVID-19) Outbreak and announced that the federal government would make emergency funding available to assist state and local governments in preventing the spread of and addressing the effects of COVID-19; and

WHEREAS, on March 17, 2020, the Governor issued Executive Order N-33-20 ordering that to protect public health, that all individuals living in the State of California stay home or at their place of residence (“Shelter in Place”) except as needed to maintain continuity of operations of the federal critical infrastructure sectors, as outlined at

<https://www.cisa.gov/critical-infrastructure-sectors>; and

WHEREAS, on March 17, 2020, the City Council declared a Local State of Emergency in response to the COVID-19 Pandemic, which prompted the Disaster Council to convene; and

WHEREAS, the Disaster Council consists of the Mayor, City Manager/Director of Emergency Services and the Fire Chief; and

WHEREAS, the Disaster Council's purpose is to develop and recommend for adoption by the City Council emergency plans, mutual aid plans, agreements, ordinances, resolutions and any necessary rules and regulations to implement the aforementioned; and

WHEREAS, since the commencement of the Local State of Emergency, the City Council adopted various temporary emergency measures related to the Local State of Emergency; and

WHEREAS, each of the temporary emergency measures were set to terminate at such time that the Governor's State of Emergency is terminated by a subsequent proclamation of the Governor or a concurrent resolution of the State Legislature, unless the emergency measures are terminated earlier by the City Council, but notwithstanding the foregoing, and in order to prevent inconsistencies, the Disaster Council or the City Council may suspend the effectiveness of any of the emergency measures in the event that the President of the United States, the United States Congress, the Governor of the State of California, the California State Legislature or the Public Health Officer of the County of Riverside adopts legislation, a law, a regulation or order that supersedes any given emergency measure; and

WHEREAS, notwithstanding the above, under the California Emergency Services Act, the City Council must review the need for continuing the existence of the Local State of Emergency at least once every 60 days until the City Council terminates the Local State of Emergency, and pursuant to the California Emergency Services Act, the City Council must terminate the Local State of Emergency at the earliest possible day that the conditions warrant; and

WHEREAS, the Disaster Council has determined there remains a need to continue (extend) the City Council's declaration of the existence of a Local State of Emergency due to the COVID-19 Virus Pandemic, which continues to endanger the health and welfare of the residents and visitors of the City of Moreno Valley, as reflected in the guidance and related findings published by Riverside County Public Health Officer, the Governor's Office, the California Department of Public Health, the Centers of Disease Control and Prevention and the World Health Organization; and

WHEREAS, on June 2, 2020, at a duly noticed regular meeting of the City Council, the City Council adopted Resolution No. 2020-41 extending certain g emergency

measures, as described in their respective adopting resolutions, until such time that the Governor's State of Emergency is lifted either by the Governor or a joint resolution of the State Legislature, unless terminated earlier by the City Council, which pursuant to the California Services Act, the City Council is obligated to terminate at the earliest possible day that the conditions warrant; and

WHEREAS, on June 2, 2020, at a duly noticed regular meeting of the City Council, the City Council adopted Resolution No. 2020-42, an emergency measure authorizing the City Manager/Emergency Director to set forth a streamlined Temporary Use Permit Process and fee waiver to temporarily allow existing restaurants to expand outdoor seating capacity in order to provide social distancing measures during the COVID-19 Pandemic; and

WHEREAS, on June 2, 2020, at a duly noticed regular meeting of the City Council, the City Council adopted Resolution No. 2020-43, unanimously determining and declaring the existence of a Fiscal Emergency within the City of Moreno Valley for the purpose of providing the City with the rights and authorities granted to the City Council, without limitation, under Article XIII C, section 2(b) of the California Constitution and Government Code section 3504.5, to ensure that the City has the resources and opportunities available to it that are necessary to preserve and protect public health, safety and welfare for the benefit of the City's residents, business owners, and visiting public; and

WHEREAS, on September 1, 2020, at a duly noticed regular meeting of the City Council, the City Council adopted Resolution No. 2020-61, an emergency measure authorizing the City Manager/Emergency Director to set forth a streamlined Temporary Use Permit Process and fee waiver to temporarily allow existing business operations to conduct outdoor use on private property in order to implement social distancing measures during the COVID-19 Pandemic; and

WHEREAS, on January 31, 2021, the Governor of the State of California signed Senate Bill 91, which extends the moratorium against evictions to June 30, 2021, extends the protections of "no cause" evictions, and makes financial assistance available to financially distressed qualifying landlords and tenants; and

WHEREAS, on February 11, 2021, the California Public Utilities Commission extended the customer protections that had been previously adopted, and directed energy, water and communications under CPUC jurisdiction to suspend customer disconnections for non-payments to June 30, 2021; and

WHEREAS in light of the foregoing, the Disaster Council recommends that the City Council adopt the another Resolution that extends the existence of a Local State of Emergency due to the COVID-19 Pandemic and extends certain emergency measures, and affirms the need to maintain the state of a Fiscal Emergency, previously adopted by the City Council pursuant to the findings set forth in the recitals contained and set forth in the resolutions adopting said emergency measures.

WHEREAS, the County of Riverside now aligns itself with the State's Orders as they now exist or may be issued or amended in the future.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY HERBY FINDS, ORDERS AND RESOLVES:

1. THAT the following Emergency Measures shall be extended and remain in full force and effect, as set forth below and described in their respective adopting resolutions, until such time that the Governor's State of Emergency is lifted either by the Governor, a joint resolution of the State Legislature, or adoption of or change in previous State legislation, State Commission, CPUC, or other State Board that conflicts with any local Council approved resolutions, and terminated by the City Council, which pursuant to the California Services Act, the City Council is obligated to terminate at the earliest possible day that the conditions warrant.
 - a. Declaration of the Existence of a Local State of Emergency due to the COVID-19 Pandemic;
 - b. Approval of the Pandemic Influenza Preparedness Plan;
 - c. Terminate Council approved Resolution 2020-17 Ratification, Adoption and Approval the Amended Closure Plan Regarding its Termination Date, effective June 1, 2021;
 - d. Directing the City Disaster Council and/or City Manager/Emergency Services Director to Seek, Apply for and Accept any Financial Assistance, Grants, Reimbursements the City is Eligible to Receive Under any State or Federal Programs, Agencies or Offices including but not limited to the Governor's Office of Emergency Services, the United States Department of Health and Human Services; Centers for Disease Control and Prevention and/or the Federal Emergency Management Agency;
 - e. Authorizing the City Manager/Emergency Services Director to Obtain Vital Supplies, Equipment and Property Found Lacking and Needed for the Protection of Life and Property During the Local State of Emergency;
 - f. Waiving the City Manager's/Emergency Services Director's Level of Procurement Signature Authority to Mitigate or Prevent the Spread and Transmission of COVID-19;
 - g. Authorizing the City Manager/Emergency Services Director to Suspend the Purchasing Procedures Set Forth in Chapter 3.12 of the Municipal Code Related to the COVID-19 Virus Pandemic Emergency;
 - h. Authorizing the City Manager/Emergency Director to Take any Directly Related and Immediate Action Required by the COVID-19 Virus Pandemic Emergency and Procure the Necessary Public Works Construction Contracts for those Purposes, Without Giving Notice for Bids to Let Contracts;

- i. Granting Qualified Immunity to Certain Medical Professionals and Veterinarians or Registered Veterinary Technicians Who Render Services During the City's Local State of Emergency at the Express or Implied Request of the City Disaster Council, City Manager/Emergency Services Director and/or City Council;
 - j. Maintaining Provisions to Permit Expanded Outdoor Dining for Local Restaurants and Streamlining the Temporary Use Permit (TUP) Process and Instituting a Fee Waiver to Temporarily Allow Existing Restaurants to Expand Outdoor Seating Capacity on Private Property in Order to Implement Proper Social Distancing Measures;
 - k. Maintaining Provisions to Permit Temporary Outdoor Business Operations and Streamlining the Temporary Use Permit (TUP) process and Instituting a Fee Waiver to Temporarily Allow Existing Businesses to Conduct Outdoor Business Operations on Private Property in Order to Implement Proper Social Distancing Measures;
 - l. Continue to comply with AB 361 Revisions to the Brown Act; and
 - m. Reaffirming the Declaration of a Fiscal Emergency.
2. THAT the economic downturn due to the impact of COVID-19 continues to create an unforeseen situation that poses a threat to the public health, safety and welfare which continues the need for immediate action since there continues to be substantial uncertainty as to whether the City's revenues in the next two years will be sufficient to cover the expenditures necessary to provide a service level consistent with public health and safety demands and expectations of the residents and businesses of the City of Moreno Valley, for the reasons set forth in Resolution No. 2020 - 43; and
3. THAT in light of the foregoing and the fact that the City's need for additional revenue is immediate and will likely continue for the remainder of this Fiscal Year 2020 and well into Fiscal Year 2021, the extension of the Declaration of Fiscal Emergency is necessary to ensure the City has the resources and opportunities necessary to preserve and protect public health, safety and welfare; and
4. THAT the City Council has determined that the purpose of adopting and implementing the above Emergency Measures to mitigate and/or abate the transmission of COVID-19, is to prevent harm to those who may violate any of the aforementioned Emergency Measures since any such violations may result in exposure to the COVID-19 which may lead to illness and death to the violator and those in the presence of the violator since there is no effective cure available; and
5. THAT the City Council has determined that the purpose of adopting and implementing and extending the aforementioned Emergency Measures, including extending the declaration of Fiscal Emergency, is to mitigate and/or abate the spread and transmission of COVID-19.; and
6. THAT a violation of any of the aforementioned Emergency Measures by any member of the public shall be subject to any and all other remedies,

civil, equitable or criminal, afforded to the City under any City, County, State and Federal laws or regulations; and

- 7. THAT any section, subdivision, subsection, sentence, clause, or phrase in this Resolution or its application to any person or circumstances, is for any reason held invalid, the validity of the remainder of this Resolution, or the application of such provision contained therein to other persons or circumstances, shall not be affected thereby; and
- 8. THAT the City Council hereby declares that it would have adopted this Resolution and each section, subdivision, subsection, sentence, clause, or phrase thereof, irrespective of the fact that one or more sections, subdivisions, subsections, sentences, clauses, or phrases, or the application thereof to any person or circumstance, be held invalid; and
- 9. THAT notwithstanding the foregoing, and in order to prevent inconsistencies, the City Council, Disaster Council or City Manager/Emergency Services Director may suspend the effectiveness of this Resolution in the event that the President of the United States, the United States Congress, the Governor of the State of California, the California State Legislature or the Public Health Officer of the County of Riverside adopts legislation, a law, a regulation or order that supersedes this Resolution.

Resolution No. 2021-
Date Adopted: September 7, 2021

Attachment: Pandemic Resolution 10.19.21 (5553 : COVID-19 PANDEMIC RESOLUTIONS EXTENDING THE LOCAL STATE OF EMERGENCY

Report to City Council

TO: Mayor and City Council

FROM: Michael Lloyd, Public Works Director/City Engineer

AGENDA DATE: October 19, 2021

TITLE: AUTHORIZATION TO AWARD A CONSTRUCTION CONTRACT TO ALL AMERICAN ASPHALT FOR THE HEACOCK STREET PEDESTRIAN AND BICYCLE FACILITY ENHANCEMENTS NEAR GREGORY LANE, PROJECT NO. 801 0076

RECOMMENDED ACTION

Recommendations:

1. Award a construction contract to All American Asphalt for the Heacock Street Pedestrian and Bicycle Facility Enhancements Near Gregory Lane project and authorize the City Manager to execute a contract with All American Asphalt in the amount of \$395,254.00 for the construction of the project, funded by the SCAG Article 3 Fund (2800) and DIF Arterial Streets (3301);
2. Authorize the issuance of a Purchase Order to All American Asphalt, in the amount of \$434,779 (\$395,254.00 bid amount plus a 10% contingency) when the contract has been signed by all parties; and
3. Authorize the Public Works Director/City Engineer to execute any subsequent change orders to All American Asphalt contract, but not exceeding the total contingency of \$39,525, subject to the approval of the City Attorney.

SUMMARY

This report recommends approval of a contract with All American Asphalt for the construction of the Heacock Street Pedestrian and Bicycle Facility Enhancements Near Gregory Lane project. This project is funded by a combination of SCAG Article 3 Fund (2800) and DIF Arterial Streets (3301).

DISCUSSION

The project consists of the roadway excavation and construction of missing curb, gutter, and sidewalk on the east side of Heacock Street near Gregory Lane. The project also includes the reconstruction of the curb return with a new ADA access ramp, the relocations of affected utility facilities, and new and re-established traffic striping and signing within the project limits, including the striping of a bicycle lane along the east side of Heacock Street.

The project was advertised for construction bids on August 31, 2021 and formal bidding procedures were followed in conformance with the Public Contract Code. Six (6) bids were received via the electronic bid management system, PlanetBids, on September 24, 2021 as follows:

<u>CONTRACTORS</u>	<u>Base Bid</u>
1. All American Asphalt	\$395,254.00
2. Onyx Paving Company, Inc.	\$411,000.00
3. I.E. General Engineering, Inc.	\$416,396.00
4. L.C. Paving and Sealing, Inc.	\$426,210.65
5. Hardy & Harper, Inc	\$440,000.00
6. Alfaro Communications Construction, Inc.	\$442,650.00

The lowest responsible bidder was determined by comparing the cumulative total for all base bid and additive alternate bid items as stipulated in the bidding documents. Staff has reviewed the bid by All American Asphalt and finds it to be the lowest responsive and responsible bidder in possession of a valid license and bid bond. No outstanding issues were identified through review of the references submitted by All American Asphalt in their bid. The bid tabulation form submitted contained no errors.

A contingency of 10% of the bid amount (\$39,525) is recommended to account for any changed field condition that may have occurred during the period between the completion of the engineering design work and construction start and any unforeseen conditions.

Approval of the recommended actions would support Objective 4 of the Momentum MoVal Strategic Plan: "Manage and maximize Moreno Valley's public Infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery."

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *This alternative allows the timely construction of the Heacock Street Pedestrian and Bicycle Facility Enhancements project.*
2. Do not approve and authorize the recommended actions as presented in this

staff report. *Staff does not recommend this alternative as it will delay the construction of the Heacock Street Pedestrian and Bicycle Facility Enhancements project.*

FISCAL IMPACT

This project is funded by SCAG Article 3 Fund (2800) and DIF Arterial Streets (3301). There is no impact to the General Fund.

FY21/22 PROJECT BUDGET:

SCAG Article 3	
(Acct No. 2800-70-77-80001-720199) (Proj No. 801 0076-2800-99)	\$507,170
DIF Arterial Streets	
(Acct No. 3301-70-77-80001-720199) (Proj No. 801 0076-3301-99)	\$25,257
Total	\$532,427

ESTIMATED PROJECT COSTS:

Construction (including 10% contingency)	\$434,779
Construction Material Testing and Geotechnical Services	\$35,000
Construction Survey Services	\$25,000
Project Administration and General Inspection*	\$20,000
Total	\$514,779

*Project administration and inspection will be provided by City staff

PROJECT SCHEDULE:

Construction..... Fall 2021 to Summer 2022

NOTIFICATION

Prior to construction, all utilities, adjacent property owners, business owners, law enforcement, fire department, and other emergency services responders in the area will be notified in a timely manner of the proposed construction.

CITY COUNCIL GOALS

Public Safety. Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.

Public Facilities and Capital Projects. Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

Community Image, Neighborhood Pride and Cleanliness. Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

CIP PROJECT NO. 801 0076

Agreement No. _____

AGREEMENT

**PROJECT NO. 801 0076
Heacock Street Pedestrian and Bicycle Facility Enhancements
Gregory Lane to 680 Feet South**

THIS Agreement, effective as of the date signed by the City of Moreno Valley by and between the City of Moreno Valley, a municipal corporation, County of Riverside, State of California, hereinafter called the "City" and **All American Asphalt**, hereinafter called the "Contractor."

That the City and the Contractor for the consideration hereinafter named, agree as follows:

1. CONTRACT DOCUMENTS. The Contract Documents consist of the following, which are incorporated herein by this reference:

- A. This Agreement
- B. Any and all Contract Change Orders and Construction Change Directives issued after execution of this Agreement
- C. Addenda Nos. 0 inclusive, issued prior to the Bid Deadline
- D. The bound Contract Documents that includes City Special Provisions, General Provisions, and Technical Provisions
- E. Standard Specifications for Public Works Construction ("Greenbook") – latest edition in effect at the Bid Deadline, as modified by the City Special Provisions
- F. Reference Specifications/Reference Documents other than those listed in paragraph 2, below
- G. Project Plans
- H. City Standard Plans
- I. Caltrans Standard Plans
- J. Governmental approvals, including, but not limited to, permits required for the Work
- K. Contractor's Labor and Materials Payment Bond (for reference only)
- L. Contractor's Faithful Performance Bond (for reference only)
- M. Contractor's Certificates of Insurance and Additional Insured Endorsements

In the event of conflict between any of the Contract Documents, the provisions placing a more stringent requirement on the Contractor shall prevail. The Contractor shall provide the better quality or greater quantity of Work and/or materials unless otherwise directed by City in writing. In the event none of the Contract Documents place a more stringent requirement or greater burden on the Contractor, the controlling provision shall be that which is found in the document with higher precedence in accordance with the above order of precedence.

2. REFERENCE DOCUMENTS. The following Reference Documents are not considered Contract Documents and are made available to the Contractor for informational purposes:

None

Standard Form of Agreement
00500-1

3. SCOPE OF WORK. The Contractor shall perform and provide all materials, tools, equipment, labor, and services necessary to complete the Work described in the Contract Documents, except as otherwise provided in the Plans, Standard Specifications, or City Special Provisions to be the responsibility of others.

4. PAYMENT.

4.1. Contract Price and Basis for Payment. In consideration for the Contractor's full, complete, timely, and faithful performance of the Work required by the Contract Documents, the City shall pay Contractor for the actual quantity of Work required under the Bid Items awarded by the City performed in accordance with the lump sum prices and unit prices for Bid Items, set forth the Bid Schedule submitted with the Bid. The sum of the unit prices and lump sum prices for the Base Bid Items awarded by the City is **Three Hundred Ninety Five Thousand Two Hundred Fifty Four and 00/100** Dollars (\$395,254) ("Contract Price"). It is understood and agreed that the quantities set forth in the Bid Schedule for which unit prices are fixed are estimates only and that City will pay and Contractor will accept, as full payment for these items of Work, the unit prices set forth in the Bid Schedule multiplied by the actual number of units performed, constructed, or completed as directed and measured by the City Engineer.

4.2. Payment Procedures. Based upon applications for payment submitted by the Contractor to the City, the City shall make payments to the Contractor in accordance with Section 7 of the Standard Specifications, as modified by Section 7 of the City Special Provisions.

5. CONTRACT TIME.

A. Initial Notice to Proceed. After the Agreement has been fully executed by the Contractor and the City, the City shall issue the "Notice to Proceed to Fulfill Preconstruction Requirements." The date specified in the Notice to Proceed to Fulfill Preconstruction Requirements constitutes the date of commencement of the Contract Time of **Eighty (80) Working Days**. The Contract Time includes the time necessary to fulfill preconstruction requirements, and to complete construction of the Project (except as adjusted by subsequent Change Orders).

The Notice to Proceed to Fulfill Preconstruction Requirements shall further specify that Contractor must complete the preconstruction requirements within **Ten (10) Working Days** after the date of commencement of the Contract Time; this duration is part of the Contract Time.

Critical preconstruction requirements include, but are not limited to, the following:

- Submitting and obtaining approval of any Traffic Control Plans
- Submitting and obtaining approval of the Water Pollution Control Plan (WPCP)
- Submitting and obtaining approval of critical required submittals
- Obtaining an approved no fee Encroachment Permit
- Notifying all agencies, utilities, residents, etc., as outlined in the Contract Documents

If the City's issuance of a Notice to Proceed to Fulfill Preconstruction Requirements is delayed due to Contractor's failure to return the fully executed Agreement and insurance and bond documents within ten (10) Working Days after Contract award, then Contractor agrees to the deduction of one (1) Working Day from the number of days to complete the Project for every

Working Day of delay in the City's receipt of said documents. This right is in addition to and does not affect the City's right to demand forfeiture of Contractor's Bid Security if Contractor persistently delays in providing the required documentation.

B. Notice to Proceed with Construction. After all preconstruction requirements are met in accordance with the Notice to Proceed to Fulfill Preconstruction Requirements, the City shall issue the "Notice to Proceed with Construction," at which time the Contractor shall diligently prosecute the Work, including corrective items of Work, day to day thereafter, within the remaining Contract Time.

C. Notice to Proceed with Construction. After all preconstruction requirements are met and materials have been ordered in accordance with the Notice to Proceed to Fulfill Preconstruction Requirements, the City shall issue the "Notice to Proceed with Construction," at which time the Contractor shall diligently prosecute the Work, including corrective items of Work, day to day thereafter, within the remaining Contract Time.

6. LIQUIDATED DAMAGES AND CONTROL OF WORK.

6.1. Liquidated Damages. The Contractor and City (collectively, the "Parties") have agreed to liquidate damages with respect to Contractor's failure to complete the Work within the Contract Time, which includes the time necessary to fulfill preconstruction requirements, and to complete construction of the Project (except as adjusted by subsequent Change Orders) in accordance with **Article 5** above. The Parties intend for the liquidated damages set forth herein to apply to this Contract as set forth in Government Code Section 53069.85 and in Public Contract Code Section 7203. Contractor acknowledges and agrees that the liquidated damages are intended to compensate the City solely for Contractor's failure to meet the deadlines for completion of the Work and will not excuse Contractor from liability from any other breach, including any failure of the Work to conform to the requirements of the Contract Documents.

In the event that Contractor fails to complete the Work within the Contract Time, Contractor agrees to pay the City **\$500.00 per Calendar Day** that completion of the each such portion of the Work is delayed beyond the Contract Time. The Contractor will not be assessed liquidated damages for delays occasioned by the failure of the City or of the owner of a utility to provide for the removal or relocation of utility facilities.

The Contractor and City acknowledge and agree that the foregoing liquidated damages have been set based on an evaluation of damages that the City will incur in the event of late completion of portions of the Work. The Contractor and City acknowledge and agree that the amount of such damages are impossible to ascertain as of the date of execution hereof and have agreed to such liquidated damages to fix the City's damages and to avoid later disputes. It is understood and agreed by Contractor that liquidated damages payable pursuant to this Agreement are not a penalty and that such amounts are not manifestly unreasonable under the circumstances existing as of the date of execution of this Agreement.

It is further mutually agreed that the City will have the right to deduct liquidated damages against progress payments or retainage and that the City will issue a Change Order or Construction Change Directive and reduce the Contract Price accordingly. In the event the remaining unpaid Contract Price is insufficient to cover the full amount of liquidated damages, Contractor shall pay the difference to the City.

Liquidated damages are owed automatically and without notice of any kind upon the accrual of each day of delay. City may at any time deduct liquidated damages as are payable hereunder from money due or to become due to Contractor, or pursue any other legal remedy to collect such liquidated damages from Contractor and/or its Surety. Neither the City's failure or delay in deducting liquidated damages from payments otherwise due Contractor, nor City's failure or delay in notifying Contractor of the accrual of liquidated damages, shall be deemed a waiver of City's right to liquidated damages.

City's rights under this Section shall not be interpreted as precluding or limiting: (1) any right or remedy of City arising from an event of Contractor default other than a failure to complete the Work within the Contract Time; or (2) City's right to order an acceleration, at Contractor's expense, of performance of the Work to overcome delay, including, without limitation, a delay for which City has the right to assess and/or accrue liquidated damages. The availability of liquidated damages shall not limit City's right to terminate the Contractor's performance and accrual and/or assessment of liquidated damages does not constitute a waiver of such rights.

6.2. Owner is Exempt from Liability for Early Completion Delay Damages. While the Contractor may schedule completion of all of the Work, or portions thereof, earlier than the Contract Time, the Owner is exempt from liability for and the Contractor will not be entitled to an adjustment of the Contract Sum or to any additional costs, damages, including, but not limited to, claims for extended general conditions costs, home office overhead, jobsite overhead, and management or administrative costs, or compensation whatsoever, for use of float time or for Contractor's inability to complete the Work earlier than the Contract Time for any reason whatsoever, including but not limited to, delay cause by Owner or other Excusable Compensable Delay. See Section 6-4 of the Standard Specifications and City Special Provisions regarding compensation for delays.

6.3. Any work completed by the Contractor after the issuance of a Stop Work Notice by the City shall be rejected and/or removed and replaced as specified in Section **3-5** of the City Special Provisions.

7. INSURANCE.

7.1. General. The Contractor shall procure and maintain at its sole expense and throughout the term of this Agreement, any extension thereof, Commercial General Liability, Automobile Liability, and Workers' Compensation Insurance with such coverage limits as described herein.

7.2. Additional Insured Endorsements. The Contractor shall cause the insurance required by the Contract Document to include the City of Moreno Valley, the City Council and each member thereof, the Moreno Valley Housing Authority, and the Moreno Valley Community Services District and their respective officials, employees, commission members, officers, directors, agents, employees, volunteers and representatives as additional insureds. For the Commercial General Liability coverage, said parties shall be named as additional insureds utilizing either:

1. Insurance Services Office ("ISO") Additional Insured endorsement CG 20 10 (11/85); or

2. ISO Additional Insured endorsement CG 20 10 (10/01) and Additional Insured Completed Operations endorsement CG 20 37 (10/01); or
3. Substitute endorsements providing equivalent coverage, approved by the City.

The endorsements shall be signed by a person authorized by the insurer to bind coverage on its behalf. The coverage shall contain no special limitations on the scope of protection afforded to such additional insureds. Coverage for such additional insureds does not extend to liability to the extent prohibited by Insurance Code Section 11580.4.

7.3. Waivers of Subrogation. All policies of insurance required by the Contract Documents shall include or be endorsed to provide a waiver by the insurers of any rights of recovery or subrogation that the insurers may have at any time against the City of Moreno Valley, the City Council and each member thereof, the Moreno Valley Housing Authority, and the Moreno Valley Community Services District and their respective officials, employees, commission members, officers, directors, agents, employees, volunteers, and representatives.

7.4. Primary Coverage. All policies and endorsements shall stipulate that the Contractor's (and the Subcontractors') insurance coverage shall be primary insurance as respects the City of Moreno Valley, the City Council and each member thereof, the Moreno Valley Housing Authority, and the Moreno Valley Community Services District and their respective officials, employees, commission members, officers, directors, agents, employees, volunteers, and representatives, and shall be excess of the Contractor's (and its Subcontractors') insurance and shall not contribute with it.

7.5. Coverage Applies Separately to Each Insured and Additional Insured. Coverage shall state that the Contractor's (and its Subcontractors') insurance shall apply separately to each insured or additional insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability. Coverage shall apply to any claim or suit brought by an additional insured against a named insured or other insured.

7.6. Self-Insurance. Any self-insurance (including deductibles or self-insured retention in excess of \$50,000) in lieu of liability insurance must be declared by Contractor and approved by the City in writing prior to execution of the Agreement. The City's approval of self-insurance, if any, is within the City's sole discretion and is subject to the following conditions:

1. Contractor must, at all times during the term of the Agreement and for a period of at least **one (1)** year after completion of the Project and any extension of the one-year correction guarantee period in accordance with Section 3-13.3 of the City Special Provisions, maintain and upon Owner's reasonable request provide evidence of:
 - (a) Contractor's "net worth" (defined as "total assets" [defined as all items of value owned by the Contractor including tangible items such as cash, land, personal property, and equipment, and intangible items such as copyrights and business goodwill]) minus total outside liabilities must be reflected in a financial statement for the prior fiscal year reflecting sufficient income and budget for

- Contractor to afford at least one loss in an amount equal to the amount of self-insurance;
- (b) Financial statements showing that Contractor has funds set aside/budgeted to finance the self-insured fund (i.e., Contractor has a program that fulfills functions that a primary insurer would fill); and
 - (c) A claims procedure that identifies how a claim is supposed to be tendered to reach the financing provided by the self-insured fund.
2. If at any time after such self-insurance has been approved, the Contractor fails to meet the financial thresholds or otherwise fails to comply with the provisions set forth in this Paragraph 7, at the option of the City:
- (a) The Contractor shall immediately obtain and thereafter maintain the third party insurance required under this Paragraph 7 and otherwise on the terms required above; or
 - (b) The insurer shall reduce or eliminate such deductibles or self-insured retention as respects the City, its officers, officials, employees, and volunteers; or
 - (c) The Contractor shall procure a bond guaranteeing payment of losses and related investigation, claim administration, and defense expenses.

7.7. Insurer Financial Rating. Insurance companies providing insurance hereunder shall be rated A-VII or better in Best's Insurance Rating Guide and shall be legally licensed and qualified to conduct insurance business in the State of California.

7.8. Notices to City of Cancellation or Changes. Each insurance policy described in this Paragraph 7 shall contain a provision or be endorsed to state that coverage will not be cancelled without **thirty (30) days'** prior written notice by certified or registered mail to the City (this obligation may be satisfied in the alternative by requiring such notice to be provided by Contractor's insurance broker and set forth on its Certificate of Insurance provided to the City), except that cancellation for non-payment of premium shall require (10) days prior written notice by certified or registered mail. If an insurance carrier cancels any policy or elects not to renew any policy required to be maintained by Contractor pursuant to the Contract Documents, Contractor agrees to give written notice to the City at the address indicated on the first page of the Agreement. Contractor agrees to provide the same notice of cancellation and non-renewal to the City that is required by such policy(ies) to be provided to the First Named Insured under such policy(ies). Contractor shall provide confirmation that the required policies have been renewed not less than seven (7) days prior to the expiration of existing coverages and shall deliver renewal or replacement policies, certificates and endorsements to the City Clerk within fourteen (14) days of the expiration of existing coverages. Contractor agrees that upon receipt of any notice of cancellation or alteration of the policies, Contractor shall procure within five (5) days, other policies of insurance similar in all respects to the policy or policies to be cancelled or altered. Contractor shall furnish to the City Clerk copies of any endorsements that are subsequently issued amending coverage or limits within fourteen (14) days of the amendment.

7.9. **Commercial General Liability.** Coverage shall be written on an ISO Commercial General Liability “occurrence” form CG 00 01 (10/01 or later edition) or equivalent form approved by the City for coverage on an occurrence basis. The insurance shall cover liability, including, but not limited to, that arising from premises operations, stop gap liability, independent contractors, products-completed operations, personal injury, advertising injury, and liability assumed under an insured contract. The policy shall be endorsed to provide the Aggregate Per Project Endorsement ISO form CG 25 03 (11/85). Coverage shall contain no contractors’ limitation or other endorsement limiting the scope of coverage for liability arising from pollution, explosion, collapse, or underground (x, c, u) property damage. Contractor shall provide Products/Completed Operations coverage to be maintained continuously for a minimum of **one (1) year** after Final Acceptance of the Work, and any extension of the one-year correction guarantee period in accordance with Section 3-13.3 of the City Special Provisions.

Contractor shall maintain Commercial General Liability insurance with the following minimum limits: \$1,000,000 per occurrence / \$2,000,000 aggregate / \$2,000,000 products-completed operations.

7.10. **Business Automobile Liability.** Coverage shall be written on ISO form CA 00 01 (12/93 or later edition) or a substitute form providing equivalent coverage for owned, hired, leased and non-owned vehicles, whether scheduled or not, with \$1,000,000 combined single limit per accident for bodily injury and property damage. If necessary, the policy shall be endorsed to provide contractual liability coverage.

7.11. **Workers’ Compensation.** Contractor shall comply with the applicable sections of the California Labor Code concerning workers’ compensation for injuries on the job. Compliance is accomplished in one of the following manners:

1. Provide copy of permissive self-insurance certificate approved by the State of California; or
2. Secure and maintain in force a policy of workers’ compensation insurance with statutory limits and Employer’s Liability Insurance with a minimal limit of **\$1,000,000** per accident; or
3. Provide a “waiver” form certifying that no employees subject to the Labor Code’s Workers’ Compensation provision will be used in performance of this Contract.

7.12. **Subcontractors’ Insurance.** The Contractor shall include all Subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each Subcontractor. All coverages for Subcontractors shall be subject to all of the requirements stated herein.

8. BONDS. The Contractor shall provide two surety bonds. The Contractor shall furnish a satisfactory Performance Bond meeting all statutory requirements of the State of California on the form provided by the City. The bond shall be furnished as a guarantee of the faithful performance of the requirements of the Contract Documents as may be amended from time to time, including, but not limited to, liability for delays and damages (both direct and consequential) to the City and the City’s Separate Contractors and consultants, warranties, guarantees, and indemnity

obligations, in an amount that shall remain equal to one hundred percent (100%) of the Contract Price.

The Contractor shall furnish a separate satisfactory Labor and Materials Payment Bond meeting all statutory requirements of the State of California on the form provided by the City in an amount that shall remain equal to one hundred percent (100%) of the Contract Price to secure payment of all claims, demands, stop payment notices, or charges of the State of California, of material suppliers, mechanics, or laborers employed by the Contractor or by any Subcontractor, or any person, firm, or entity eligible to file a stop payment notice with respect to the Work.

All bonds shall be executed by a California-admitted surety insurer. Bonds issued by a California-admitted surety insurer listed on the latest version of the U.S Department of Treasury Circular 570 shall be deemed accepted unless specifically rejected by the City. Bonds issued by sureties not listed in Treasury Circular 570 must be accompanied by all documents enumerated in California Code of Civil Procedure Section 995.660(a). The bonds shall bear the same date as the Contract. The attorney-in-fact who executes the required bonds on behalf of the surety shall affix thereto a certified and current copy of the power of attorney. In the event of changes that increase the Contract Price, the amount of each bond shall be deemed to increase and at all times remain equal to the Contract Price. The signatures shall be acknowledged by a notary public. Every bond must display the surety's bond number and incorporate the Contract for construction of the Work by reference. The terms of the bonds shall provide that the surety agrees that no change, extension of time, alteration, or modification of the Contract Documents or the Work to be performed thereunder shall in any way affect its obligations and shall waive notice of any such change, extension of time, alteration, or modification of the Contract Documents. The surety further agrees that it is obligated under the bonds to any successor, grantee, or assignee of the City.

Upon the request of any person or entity appearing to be a potential beneficiary of bonds covering payment of obligations arising under the Contract, the Contractor shall promptly furnish a copy of the bonds or shall authorize a copy to be furnished.

Should any bond become insufficient, or should any of the sureties, in the opinion of the City, become non-responsible or unacceptable, the Contractor shall, within ten (10) Calendar Days after receiving notice from the City, provide written documentation to the Satisfaction of the City that Contractor has secured new or additional sureties for the bonds; otherwise the Contractor shall be in default of the Contract. No further payments shall be deemed due or will be made under Contract until a new surety(ies) qualifies and is accepted by the City.

Contractor agrees that the Labor and Materials Payment Bond and Faithful Performance Bond attached to this Agreement are for reference purposes only, and shall not be considered a part of this Agreement. Contractor further agrees that said bonds are separate obligations of the Contractor and its Surety, and that any attorney's fee provision contained in any payment bond or performance bond shall not apply to this Agreement. In the event there is any litigation between the parties arising from the breach of this Agreement, each party will bear its own attorneys' fees in the litigation.

9. RECORDS. The Contractor and its Subcontractors shall maintain and keep books, payrolls, invoices of materials, and Project records current, and shall record all transactions pertaining to the Contract in accordance with generally acceptable accounting principles. Said

books and records shall be made available to the City of Moreno Valley, Riverside County, the State of California, the Federal Government, and to any authorized representative thereof for purposes of audit and inspection at all reasonable times and places. All such books, payrolls, invoices of materials, and records shall be retained for at least five (5) years after Final Acceptance.

10. INDEMNIFICATION.

10.1. **General.** To the fullest extent permitted by law, the Contractor assumes liability for and agrees, at the Contractor's sole cost and expense, to promptly and fully indemnify, protect, hold harmless and defend (even if the allegations are false, fraudulent, or groundless), the City of Moreno Valley, its City Council, the Moreno Valley Housing Authority, and the Moreno Valley Community Services District, and all of their respective officials, officers, directors, employees, commission members, representatives and agents ("Indemnitees"), from and against any and all claims, allegations, actions, suits, arbitrations, administrative proceedings, regulatory proceedings, or other legal proceeds, causes of action, demands, costs, judgments, liens, stop payment notices, penalties, liabilities, damages, losses, anticipated losses of revenues, and expenses (including, but not limited to, any fees of accountants, attorneys, experts or other professionals, or investigation expenses), or losses of any kind or nature whatsoever, whether actual, threatened or alleged, arising out of, resulting from, or in any way (either directly or indirectly), related to the Work, the Project or any breach of the Contract by Contractor or any of its officers, agents, employees, Subcontractors, Sub-subcontractors, or any person performing any of the Work, pursuant to a direct or indirect contract with the Contractor ("Indemnity Claims"). Such Indemnity Claims include, but are not limited to, claims for:

- A. Any activity on or use of the City's premises or facilities;
- B. Any liability incurred due to Contractor acting outside the scope of its authority pursuant to the Contract, whether or not caused in part by an Indemnified Party;
- C. The failure of Contractor or the Work to comply with any Applicable Law, permit or orders;
- D. Any misrepresentation, misstatement or omission with respect to any statement made in the Contract Documents or any document furnished by the Contractor in connection therewith;
- E. Any breach of any duty, obligation or requirement under the Contract Documents, including, but not limited to any breach of Contractor's warranties, representations or agreements set forth in the Contract Documents;
- F. Any failure to coordinate the Work with City's Separate Contractors;
- G. Any failure to provide notice to any party as required under the Contract Documents;
- H. Any failure to act in such a manner as to protect the Project from loss, cost, expense or liability;
- I. Bodily or personal injury, emotional injury, sickness or disease, or death at any time to any persons including without limitation employees of Contractor;
- J. Damage or injury to real property or personal property, equipment and materials (including, but without limitation, property under the care and custody of the Contractor or the City) sustained by any person or persons

Standard Form of Agreement
00500-9

- (including, but not limited to, companies, corporations, utility company or property owner, Contractor and its employees or agents, and members of the general public);
- K. Any liability imposed by Applicable Law including, but not limited to criminal or civil fines or penalties;
 - L. Any dangerous, hazardous, unsafe or defective condition of, in or on the Site, of any nature whatsoever, which may exist by reason of any act, omission, neglect, or any use or occupation of the Site by Contractor, its officers, agents, employees, or Subcontractors;
 - M. Any operation conducted upon or any use or occupation of the Site by the Contractor, its officers, agents, employees, or Subcontractors under or pursuant to the provisions of the Contract or otherwise;
 - N. Any acts, errors, omission or negligence of Contractor, its officers, agents, employees, or Subcontractors;
 - O. Infringement of any patent rights, licenses, copyrights, or intellectual property which may be brought against the Contractor or Owner arising out of Contractor's Work, for which the Contractor is responsible; and
 - P. Any and all claims against the City seeking compensation for labor performed or materials used or furnished to be used in the Work or alleged to have been furnished on the Project, including all incidental or consequential damages resulting to the City from such claims.

10.2. **Effect of Indemnitees' Active Negligence.** Contractor's obligations to indemnify and hold the Indemnitees harmless exclude only such portion of any Indemnity Claim which is attributable to the active negligence or willful misconduct of the Indemnitee, provided such active negligence or willful misconduct is determined by agreement of the parties or by findings of a court of competent jurisdiction. In instances where an Indemnitee's active negligence accounts for only a percentage of the liability for the Indemnity Claim involved, the obligation of Contractor will be for that entire percentage of liability for the Indemnity Claim not attributable to the active negligence or willful misconduct of the Indemnitee(s). Such obligation shall not be construed to negate, abridge or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this Paragraph 10. Subject to the limits set forth herein, the Contractor, at its own expense, shall satisfy any resulting judgment that may be rendered against any Indemnitee resulting from an Indemnity Claim. The Indemnitees shall be consulted with regard to any proposed settlement.

10.3. **Independent Defense Obligation.** The duty of the Contractor to indemnify and hold harmless the Indemnitees includes the separate and independent duty to defend the Indemnitees, which duty arises immediately upon receipt by Contractor of the tender of any Indemnity Claim from an Indemnitee. The Contractor's obligation to defend the Indemnitee(s) shall be at Contractor's sole expense, and not be excused because of the Contractor's inability to evaluate liability or because the Contractor evaluates liability and determines that the Contractor is not liable. This duty to defend shall apply whether or not an Indemnity Claim has merit or is meritless, or which involves claims or allegations that any or all of the Indemnitees were actively, passively, or concurrently negligent, or which otherwise asserts that the Indemnitees are responsible, in whole or in part, for any Indemnity Claim. The Contractor shall respond within thirty (30) Calendar Days to the tender of any Indemnity Claim for defense and/or indemnity by an Indemnitee, unless the Indemnitee agrees in writing to an extension of this time. The defense

provided to the Indemnitees by Contractor shall be by well qualified, adequately insured and experienced legal counsel acceptable to the City.

10.4. Intent of Parties Regarding Scope of Indemnity. It is the intent of the parties that the Contractor and its Subcontractors of all tiers shall provide the Indemnitees with the broadest defense and indemnity permitted by Applicable Law. In the event that any of the defense, indemnity, or hold harmless provisions in the Contract Documents are found to be ambiguous or in conflict with one another, it is the parties' intent that the broadest and most expansive interpretation in favor of providing defense and/or indemnity to the Indemnitees be given effect.

10.5. Waiver of Indemnity Rights Against Indemnitees. With respect to third party claims against the Contractor, to the fullest extent permitted by law, the Contractor waives any and all rights to any type of express or implied indemnity against the Indemnitees.

10.6. Subcontractor Requirements. In addition to the requirements set forth hereinabove, Contractor shall ensure, by written subcontract agreement, that each of Contractor's Subcontractors of every tier shall protect, defend, indemnify and hold harmless the Indemnitees with respect to Indemnity Claims arising out of, in connection with, or in any way related to each such Subcontractors' Work on the Project in the same manner in which Contractor is required to protect, defend, indemnify and hold the Indemnitees harmless. In the event Contractor fails to obtain such defense and indemnity obligations from others as required herein, Contractor agrees to be fully responsible to the Indemnitees according to the terms of this Paragraph 10.

10.7. No Limitation or Waiver of Rights. Contractor's obligations under this Paragraph 10 are in addition to any other rights or remedies which the Indemnitees may have under the law or under the Contract Documents. Contractor's indemnification and defense obligations set forth in this Paragraph 10 are separate and independent from the insurance provisions set forth in the Contract Documents, and do not limit, in any way, the applicability, scope, or obligations set forth in such insurance provisions. The purchase of insurance by the Contractor with respect to the obligations required herein shall in no event be construed as fulfillment or discharge of such obligations. In any and all claims against the Indemnitees by any employee of the Contractor, any Subcontractor, any supplier of the Contractor or Subcontractors, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, the obligations under this Paragraph 10 shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or any Subcontractor or any supplier of either of them, under workers' or workmen's compensation acts, disability benefit acts or other employee benefit acts. Failure of the City to monitor compliance with these requirements imposes no additional obligations on the City and will in no way act as a waiver of any rights hereunder.

10.8. Withholding to Secure Obligations. In the event an Indemnity Claim arises prior to final payment to Contractor, the City may, in its sole discretion, reserve, retain or apply any monies due Contractor for the purpose of resolving such Indemnity Claims; provided, however, the City may release such funds if the Contractor provides the City with reasonable assurances of protection of the Indemnitees' interests. The City shall, in its sole discretion, determine whether such assurances are reasonable.

10.9. **Survival of Indemnity Obligations.** Contractor's obligations under this Paragraph 10 are binding on Contractor's and its Subcontractors' successors, heirs, and assigns and shall survive the completion of the Work or termination of the Contractor's performance of the Work.

11. **SUCCESSORS AND ASSIGNS.** The Parties bind themselves, their heirs, executors, administrators, successors and assigns the covenants, agreements and obligations contained in the Contract Documents. The Contractor shall not, either voluntarily or by action of law, assign any right or obligation of the Contractor under the Contract Documents without prior written consent of the City.

INSTRUCTIONS FOR COMPLETING THIS FORM

Any acknowledgment completed in California must contain verbiage exactly appears above in the notary section or a separate acknowledgment form must property completed and attached to that document. The only exception is if a document is recorded outside of California. In such instances, any alternative acknowledgment verbiage as may be printed on such a document so long as the verbiage does not require the notary to do something that is illegal for a notary in California (i.e. certifying the authorized capacity of the signer). Please check the document carefully for proper notarial wording and attach this form if required.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. ~~he~~/~~she~~/~~they~~, ~~is~~/~~are~~) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
- Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
- Indicate title or type of attached document, number of pages and date.
- Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document.

Gregory Lane to 680 Feet South**

KNOW ALL MEN AND WOMEN BY THESE PRESENTS:

THAT WHEREAS, the City Council of the City of Moreno Valley, State of California, known as "City," has awarded to **All American Asphalt**, as Principal hereinafter designated as "Contractor" and have entered into an Agreement whereby the Contractor agrees to construct or install and complete certain designated public improvements, which said Agreement, effective on the date signed by the City of Moreno Valley, and identified as **Project No. 801 0076**, and all Contract Documents are hereby referred to and made a part hereof; and

WHEREAS, said Contractor under the terms of said Contract Documents is required to furnish a bond guaranteeing the faithful performance of said Agreement;

NOW THEREFORE, we the undersigned Contractor and _____, as Surety, are held and firmly bound unto the City of Moreno Valley, County of Riverside in the penal sum of _____ dollars, (\$ _____), lawful money of the United States, to be paid to the said City or its certain attorney, its successors and assigns; for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors, and assigns, jointly and severally liable (CCP 995.320 (a)(1)), firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above bound Contractor, his or her or its heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions, and provisions in said Contract Documents and any alterations thereof made as therein provided, on his or her or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City of Moreno Valley, its officers, agents, and employees, as therein stipulated, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect. In the event suit is brought upon this bond by the City and judgement is recovered, the Surety shall pay all costs incurred by the City in such suit, including a reasonable attorney fee to be fixed by the court.

Contractor and Surety agree that this Faithful Performance Bond shall not be considered a part of this Agreement between Contractor and the City ("Agreement"). Contractor and Surety further agree that this Faithful Performance Bond is a separate obligation of the Contractor and its Surety, and that any attorney's fee provision contained in this Faithful Performance Bond shall not apply to the Agreement. In the event there is any litigation between the parties arising from the breach of the Agreement, each party will bear its own attorneys' fees in the litigation.

The Surety hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the Contract Documents or to the Work to be performed thereunder, or the Provisions accompanying the same shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration, or addition to the terms of the Contract Documents or to the Work or the Provisions.

KNOW ALL MEN AND WOMEN BY THESE PRESENTS:

THAT WHEREAS, the City Council of the City of Moreno Valley, State of California, known as "City", has awarded to **All American Asphalt**, as Principal hereinafter designated as "Contractor" and have entered into an Agreement whereby the Contractor agrees to construct or install and complete certain designated public improvements, which said Agreement, effective on the date signed by the City of Moreno Valley, and identified as **Project No. 801 0076**, and Contract Documents are hereby referred to and made a part hereof; and

WHEREAS, said Contractor under the terms of said Contract Documents is required to furnish a bond to secure the payment of claims of laborers, mechanics, materialmen, and other persons, as provided by law;

NOW, THEREFORE, we the undersigned Contractor and _____, as Surety are held and firmly bound unto the City of Moreno Valley, County of Riverside, in the penal sum of _____ dollars, (\$ _____), lawful money of the United States, for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors, and assigns, jointly and severally liable (CCP 995.320 (a)(1)), firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that if said Contractor, his or her or its heirs, executors, administrator, successors, or assigns, or subcontractors, shall fail to pay any of the persons described in the State of California Civil Code, Section 9100, or amounts due under the Unemployment Insurance Code with respect to work or labor performed by any such claimant, or any amounts required to be deducted, withheld, and paid over to the Franchise Tax Board from the wages of employees of the Contractor and his or her subcontractors, pursuant to Section 13020, of the Unemployment Insurance Code, with respect to such work and labor, that the Surety or Sureties herein will pay for the same in an amount not exceeding the sum specified in this bond, otherwise the above obligation shall be void. In the event suit is brought upon this bond by the City or other person entitled to bring such an action and judgement is recovered, the Surety shall pay all costs incurred by the City in such suit, including a reasonable attorney fee to be fixed by the court.

Contractor and Surety agree that this Labor and Materials Payment Bond shall not be considered a part of this Agreement between Contractor and the City ("Agreement"). Contractor and Surety further agree that this Labor and Materials Payment Bond is a separate obligation of the Contractor and its Surety, and that any attorney's fee provision contained in this Labor and Materials Payment Bond shall not apply to the Agreement. In the event there is any litigation between the parties arising from the breach of the Agreement, each party will bear its own attorneys' fees in the litigation.

This bond shall inure to the benefit of any of the persons described in the State of California Civil Code Section 9100, to give a right of action to such persons or their assigns in any suit brought upon this bond.

INSTRUCTIONS FOR COMPLETING THIS FORM

Any acknowledgment completed in California must contain verbiage exactly appears above in the notary section or a separate acknowledgment form must property completed and attached to that document. The only exception is if a document is recorded outside of California. In such instances, any alternative acknowledgment verbiage as may be printed on such a document so long as the verbiage does not require the notary to do something that is illegal for a notary in California (i.e. certifying the authorized capacity of the signer). Please check the document carefully for proper notarial wording and attach this form if required.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. he/she/they, is/are) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
- Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
- Indicate title or type of attached document, number of pages and date.
- Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document.

Attachment: Attachment 2_Agreement and Bond-Heacock St. (5564 : AUTHORIZATION TO AWARD A CONSTRUCTION CONTRACT TO ALL

Report to City Council

TO: Mayor and City Council

FROM: Michael Lloyd, Public Works Director/City Engineer

AGENDA DATE: October 19, 2021

TITLE: ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP) GRANT FUNDING

RECOMMENDED ACTION

Recommendations:

1. Accept the Local Road Safety Plan (LRSP) grant funding of up to \$138,600 for development of a LRSP, which is a citywide systematic evaluation of roadway safety;
2. Authorize the Public Works Director to execute the Master Agreement and Program Supplement Agreement (Agreement No 08-5441S21) with Caltrans;
3. Amend the Fiscal Year 2021/22 & 2022/23 Adopted Capital Improvement Plan to include the Local Roadway Safety Plan for Moreno Valley (Project No. 810 0020); and
4. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

SUMMARY

This report recommends accepting the Local Road Safety Plan (LRSP) grant funding and authorizing the Public Works Director to execute the master agreement with Caltrans.

DISCUSSION

Federal regulations require each State to have a Strategic Highway Safety Plan (SHSP). An SHSP is a statewide data-driven traffic safety plan that coordinates the efforts of a wide range of organizations to reduce traffic accident fatalities and serious

injuries on all public roads. In coordination with federal, state, local and private sector safety stakeholders, the SHSP establishes goals, objectives, and emphasis (or challenge) areas. The SHSP addresses the 4Es of traffic safety: Engineering, Enforcement, Education, and Emergency Services.

The SHSP is the statewide approach for improving roadway safety where the LRSP creates a framework to systematically identify and analyze safety problems and recommend safety improvements at the local level. Preparing an LRSP facilitates the development of local agency partnerships and collaboration, resulting in a prioritized list of improvements and actions that can demonstrate a defined need and contribute to the statewide plan. The LRSP offers a proactive approach to addressing safety needs.

On June 24, 2021, the City of Moreno Valley was awarded the LRSP grant in the amount of \$138,600.00. The City is required to provide \$15,400.00 as the local match. Therefore, the total project amount is \$154,000.00.

ALTERNATIVES

1. Accept the recommended actions as presented in this staff report. *This alternative will allow the City to use state funding to develop a traffic safety plan and compete for future Highway Safety Improvement Program funds.*
2. Do not approve the recommended actions as presented in this staff report. *This alternative will not allow the City to conduct a safety analysis and eliminate the City from competing for future Highway Safety Improvement Program funds.*

FISCAL IMPACT

The project is funded by Local Roadway Safety Plan (LRSP) grant funding and General Fund funding, as the local match.

MASTER AGREEMENT
ADMINISTERING AGENCY-STATE AGREEMENT FOR
STATE-FUNDED PROJECTS

08 City of Moreno Valley
----- -----
District Administering Agency

Agreement No. 08-5441S21

This AGREEMENT, is entered into effective this _____ day of _____, 20____, by and between the City of Moreno Valley, hereinafter referred to as "ADMINISTERING AGENCY," and the State of California, acting by and through its Department of Transportation (Caltrans), hereinafter referred to as "STATE", and together referred to as "PARTIES" or individually as a "PARTY."

RECITALS:

- 1. WHEREAS, the Legislature of the State of California has enacted legislation by which certain State funds are made available for use on local transportation related projects of public entities qualified to act as recipients of these state funds; and
- 2. WHEREAS, ADMINISTERING AGENCY has applied to the California Transportation Commission (CTC) and/or STATE for funding from a State-funded program (herein referred to as STATE FUNDS), as defined in the Local Assistance Program Guidelines (LAPG) and/or in the respective CTC Guidelines, for use on local authorized transportation related projects as a local administered project(s), hereinafter referred to as "PROJECT"; and
- 3. WHEREAS, said PROJECT will not receive any federal funds; and
- 4. WHEREAS, before STATE FUNDS will be made available for PROJECT, ADMINISTERING AGENCY and STATE are required to enter into an agreement to establish terms and conditions applicable to the ADMINISTERING AGENCY when receiving STATE FUNDS for a designated PROJECT facility and to the subsequent operation and maintenance of that completed facility.

NOW, THEREFORE, the PARTIES agree as follows:

Attachment: Master Agreement - Agreement No 08-5441S21 (5566 : ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP) GRANT

1. This AGREEMENT shall have no force or effect with respect to any program project unless and until a project- specific Program Supplement to this AGREEMENT for state funded projects, hereinafter referred to as "PROGRAM SUPPLEMENT", has been fully executed by both STATE and ADMINISTERING AGENCY.
2. The State approved project-specific allocation notification letter and approved CTC allocation documentation designate the party responsible for implementing PROJECT, type of work, and location of PROJECT for projects requiring CTC allocation by PROJECT component of work.
3. The PROGRAM SUPPLEMENT sets out special covenants as a condition for the ADMINISTERING AGENCY to receive STATE FUNDS from/through STATE for designated PROJECT. The PROGRAM SUPPLEMENT shall also show these STATE FUNDS that have been initially encumbered for PROJECT along with the matching funds to be provided by ADMINISTERING AGENCY and/or others. Execution of PROGRAM SUPPLEMENT by the PARTIES shall cause ADMINISTERING AGENCY to adopt all the terms of this AGREEMENT as though fully set forth therein in the PROGRAM SUPPLEMENT. Unless otherwise expressly delegated in a resolution by the governing body of ADMINISTERING AGENCY, and with written concurrence by STATE, the PROGRAM SUPPLEMENT shall be approved and managed by the governing body of ADMINISTERING AGENCY.
4. ADMINISTERING AGENCY agrees to execute and return each project-specific PROGRAM SUPPLEMENT. The PARTIES agree that STATE may suspend future allocations, encumbrances and invoice payments for any on- going or future STATE FUNDED PROJECT performed by ADMINISTERING AGENCY if any project-specific PROGRAM SUPPLEMENT is not returned, unless otherwise agreed by STATE in writing.
5. ADMINISTERING AGENCY further agrees, as a condition to the release and payment of STATE FUNDS encumbered for the PROJECT described in each PROGRAM SUPPLEMENT, to comply with the terms and conditions of this AGREEMENT and all the agreed-upon Special Covenants or Remarks incorporated within the PROGRAM SUPPLEMENT, and Cooperative/Contribution Agreement where appropriate, defining and identifying the nature of the specific PROJECT.
6. STATE FUNDS will not participate in any portion of PROJECT work performed in advance of the effective date of allocation by CTC, or by STATE for allocations delegated to STATE by CTC, for said PROJECT.
7. Projects allocated with STATE FUNDS will be administered in accordance with the current CTC STIP Guidelines, applicable chapter(s) of the LAPG, LAPM and/or any other instructions published by STATE.
8. ADMINISTERING AGENCY agrees to ensure compliance with all relevant State laws and requirements for work related to PROJECT, including the California Environmental Quality Act (CEQA).
9. ADMINISTERING AGENCY's eligible costs for preliminary engineering work includes all preliminary work directly related to PROJECT up to contract award for construction, including, but not limited to, environmental studies and permits (E&P),

preliminary surveys and reports, laboratory work, soil investigations, the preparation of specifications and estimates (PS&E), advertising for bids, awarding of a contract and project development contract administration.

10. ADMINISTERING AGENCY's eligible costs for construction engineering include actual inspection and supervision of PROJECT construction work; construction staking; laboratory and field testing; and the preparation and processing of field reports, records, estimates, final reports, and allowable expenses of employees/consultants engaged in such activities.

11. Unless the PARTIES agree otherwise in writing, ADMINISTERING AGENCY's employees or its contracted engineering consultant shall be responsible for all PROJECT engineering work.

12. ADMINISTERING AGENCY shall not proceed with final design of PROJECT until final environmental approval of PROJECT. Final design entails the design work necessary to complete the PS&E and other work necessary for a construction contract but not required earlier for environmental clearance of that PROJECT.

13. If PROJECT is not on STATE-owned right-of-way, PROJECT shall be constructed in accordance with Chapter 11 of the LAPM that describes minimum statewide design standards for local agency streets and roads. The design standards for projects off the National Highway System (NHS) allow STATE to accept either the current Caltrans Highway Design Manual standards, the current FHWA-adopted American Association of State Highway and Transportation Officials (AASHTO) A Policy on Geometric Design of Highways and Streets standards, or the approved geometric design standards of ADMINISTERING AGENCY. Additionally, for projects off the NHS, STATE will accept ADMINISTERING AGENCY-approved standard specifications, standard plans, materials sampling and testing quality assurance programs that meet the conditions described in the then current Local Assistance Procedures Manual.

14. If PROJECT involves work within or partially within STATE-owned right-of-way, that PROJECT shall also be subject to compliance with the policies, procedures and standards of the STATE Project Development Procedures Manual and Highway Design Manual and where appropriate, an executed cooperative agreement between STATE and ADMINISTERING AGENCY that outlines the PROJECT responsibilities and respective obligations of the PARTIES. ADMINISTERING AGENCY and its contractors shall each obtain an encroachment permit through STATE prior to commencing any work within STATE rights-of-way or work which affects STATE facilities.

15. When PROJECT is not on the State Highway System (SHS) but includes work to be performed by a railroad, the contract for such work shall be prepared by ADMINISTERING AGENCY or by STATE, as the PARTIES may hereafter agree. In either event, ADMINISTERING AGENCY shall enter into an agreement with the railroad providing for future maintenance of protective devices or other facilities installed under the contract.

16. ADMINISTERING AGENCY shall comply with the provisions of sections 4450 and 4454 of the California Government Code, as well as other Department of General Services guidance, if applicable, for the contract PS&E for the construction of buildings, structures, sidewalks, curbs and related facilities for accessibility and

usability. Further requirements and guidance are provided in Title 24 of the California Code of Regulations.

17. ADMINISTERING AGENCY shall provide a full-time public employee to be in responsible charge of each PROJECT. ADMINISTERING AGENCY shall provide or arrange for adequate supervision and inspection of each PROJECT. ADMINISTERING AGENCY may utilize consultants to perform supervision and inspection work for PROJECT with a fully qualified and licensed engineer. Utilization of consultants does not relieve ADMINISTERING AGENCY of its obligation to provide a full-time public employee to be in responsible charge of each PROJECT.

18. Unless otherwise provided in the PROGRAM SUPPLEMENT, ADMINISTERING AGENCY shall advertise, award, and administer the PROJECT construction contract or contracts.

19. The cost of maintenance, security, or protection performed by ADMINISTERING AGENCY or contractor forces during any temporary suspension of PROJECT or at any other time may not be charged to the PROJECT.

20. ADMINISTERING AGENCY shall submit PROJECT-specific award information to STATE's District Local Assistance Engineer, within sixty (60) days after contract award.

21. ADMINISTERING AGENCY shall submit the final report documents that collectively constitute a "Final Project Expenditure Report", LAPM Exhibit 17-M, within one hundred eighty (180) days of PROJECT completion. Failure by ADMINISTERING AGENCY to submit a "Final Project Expenditure Report", within 180 days of project completion will result in STATE imposing sanctions upon ADMINISTERING AGENCY in accordance with the Local Assistance Procedures Manual.

22. ADMINISTERING AGENCY shall comply with the Americans with Disabilities Act (ADA) of 1990 that prohibits discrimination on the basis of disability and all applicable regulations and guidelines issued pursuant to the ADA.

23. The Governor and the Legislature of the State of California, each within their respective jurisdictions, have prescribed certain nondiscrimination requirements with respect to contract and other work financed with public funds. ADMINISTERING AGENCY agrees to comply with the requirements of the FAIR EMPLOYMENT PRACTICES ADDENDUM, attached hereto as Exhibit A and further agrees that any agreement entered into by ADMINISTERING AGENCY with a third party for performance of work connected with PROJECT shall incorporate Exhibit A (with third party's name replacing ADMINISTERING AGENCY) as parts of such agreement.

24. ADMINISTERING AGENCY shall include in all contracts and subcontracts awarded when applicable, a clause that requires each subcontractor to comply with California Labor Code requirements that all workers employed on public works aspects of any project (as defined in California Labor Code sections 1720-1815) be paid not less than the general prevailing wage rates predetermined by the Department of Industrial Relations as effective at the date of contract award by the ADMINISTERING AGENCY.

ARTICLE II - RIGHTS-OF-WAY

1. No contract for the construction of a STATE FUNDED PROJECT shall be awarded until all necessary rights of way have been secured. Prior to the advertising for construction of PROJECT, ADMINISTERING AGENCY shall certify and, upon request, shall furnish STATE with evidence that all necessary rights-of-way are available for construction purposes or will be available by the time of award of the construction contract.

2. The furnishing of rights of way by ADMINISTERING AGENCY as provided for herein includes, and is limited to, the following, unless the PROGRAM SUPPLEMENT provides otherwise.

(a) Expenditures of capital and support to purchase all real property required for PROJECT free and clear of liens, conflicting easements, obstructions and encumbrances, after crediting PROJECT with the fair market value of any excess property retained and not disposed of by ADMINISTERING AGENCY.

(b) The cost of furnishing of right-of-way as provided for herein includes, in addition to real property required for the PROJECT, title free and clear of obstructions and encumbrances affecting PROJECT and the payment, as required by applicable law, of damages to owners of remainder real property not actually taken but injuriously affected by PROJECT.

(c) The cost of relocation payments and services provided to owners and occupants pursuant to Government Code sections 7260-7277 when PROJECT displaces an individual, family, business, farm operation or nonprofit organization.

(d) The cost of demolition and/or the sale of all improvements on the right-of-way after credit is recorded for sale proceeds used to offset PROJECT costs.

(e) The cost of all unavoidable utility relocation, protection or removal.

(f) The cost of all necessary hazardous material and hazardous waste treatment, encapsulation or removal and protective storage for which ADMINISTERING AGENCY accepts responsibility and where the actual generator cannot be identified, and recovery made.

3. ADMINISTERING AGENCY agrees to indemnify and hold STATE harmless from any liability that may result in the event the right-of-way for a PROJECT is not clear as certified by ADMINISTERING AGENCY, including, but not limited to, if said right-of-way is found to contain hazardous materials requiring treatment or removal to remediate in accordance with Federal and State laws. ADMINISTERING AGENCY shall pay, from its own non- matching funds, any costs which arise out of delays to the construction of PROJECT because utility facilities have not been timely removed or relocated, or because rights-of-way were not available to ADMINISTERING AGENCY for the orderly prosecution of PROJECT work.

ARTICLE III - MAINTENANCE AND MANAGEMENT

1. ADMINISTERING AGENCY will maintain and operate the property acquired, developed, constructed, rehabilitated, or restored by PROJECT for its intended public use until such time as the parties might amend this AGREEMENT to otherwise provide. With the approval of STATE, ADMINISTERING AGENCY or its successors in interest in the PROJECT property may transfer this obligation and responsibility to maintain and operate PROJECT property for that intended public purpose to another public entity.

2. Upon ADMINISTERING AGENCY's acceptance of the completed construction contract or upon contractor being relieved of the responsibility for maintaining and protecting PROJECT, ADMINISTERING AGENCY will be responsible for the maintenance, ownership, liability, and the expense thereof, for PROJECT in a manner satisfactory to the authorized representatives of STATE and if PROJECT falls within the jurisdictional limits of another Agency or Agencies, it is the duty of ADMINISTERING AGENCY to facilitate a separate maintenance agreement(s) between itself and the other jurisdictional Agency or Agencies providing for the operation, maintenance, ownership and liability of PROJECT. Until those agreements are executed, ADMINISTERING AGENCY will be responsible for all PROJECT operations, maintenance, ownership and liability in a manner satisfactory to the authorized representatives of STATE. If, within ninety (90) days after receipt of notice from STATE that a PROJECT, or any portion thereof, is not being properly operated and maintained and ADMINISTERING AGENCY has not satisfactorily remedied the conditions complained of, the approval of future STATE FUNDED PROJECTS of ADMINISTERING AGENCY will be withheld until the PROJECT shall have been put in a condition of operation and maintenance satisfactory to STATE. The provisions of this section shall not apply to a PROJECT that has been vacated through due process of law with STATE's concurrence.

3. PROJECT and its facilities shall be maintained by an adequate and well-trained staff of engineers and/or such other professionals and technicians as PROJECT reasonably requires. Said operations and maintenance staff may be employees of ADMINISTERING AGENCY, another unit of government, or a contractor under agreement with ADMINISTERING AGENCY. All maintenance will be performed at regular intervals or as required for efficient operation of the complete PROJECT improvements.

4. ADMINISTERING AGENCY shall comply with all applicable law, including but not limited to, all applicable legal authority regarding construction standards.

1. All contractual obligations of STATE are subject to the appropriation of resources by the Legislature and the allocation of resources by the CTC.
2. STATE'S financial commitment of STATE FUNDS will occur only upon the execution of this AGREEMENT, the execution of each project-specific PROGRAM SUPPLEMENT and/or STATE's approved finance letter.
3. ADMINISTERING AGENCY agrees, as a minimum, to submit invoices in arrears for reimbursement of allowable PROJECT costs at least once every six months commencing after the STATE FUNDS are encumbered on either the project-specific PROGRAM SUPPLEMENT or through a project-specific finance letter approved by STATE. STATE reserves the right to suspend future allocations and invoice payments for any on-going or future STATE FUNDED project performed by ADMINISTERING AGENCY if PROJECT costs have not been invoiced by ADMINISTERING AGENCY for a six-month period
4. Invoices shall be submitted on a standardized billing summary template, in accordance with Chapter 5 of the LAPM to claim reimbursement by ADMINISTERING AGENCY. For construction invoices, pay estimates must be included.
5. ADMINISTERING AGENCY must retain at least one copy of supporting backup documentation for allowable costs incurred and claimed for reimbursement by ADMINISTERING AGENCY. ADMINISTERING AGENCY agrees to submit supporting backup documentation with invoices if requested by State. Acceptable backup documentation includes, but is not limited to, agency's progress payment to the contractors, copies of cancelled checks showing amounts made payable to vendors and contractors, and/or a computerized summary of PROJECT costs.
6. Payments to ADMINISTERING AGENCY can only be released by STATE as reimbursements of actual allowable PROJECT costs already incurred and paid for by the ADMINISTERING AGENCY.
7. Indirect Cost Allocation Plans/Indirect Cost Rate Proposals (ICAP/ICRP), Central Service Cost Allocation Plans and related documentation are to be prepared and provided to the Inspector General - Independent Office of Audits and Investigations for review and approval prior to ADMINISTERING AGENCY seeking reimbursement of indirect cost incurred within each fiscal year being claimed for reimbursement. ICAPs/ICRPs must be prepared in accordance with the requirements set forth in 2 CFR, Part 200, Chapter 5 of the LAPM, and the ICAP/ICRP approval procedures established by STATE.
8. STATE will withhold the greater of either two (2) percent of the total of all STATE FUNDS encumbered for each PROGRAM SUPPLEMENT or \$40,000 until ADMINISTERING AGENCY submits the Final Report of Expenditures for each completed PROGRAM SUPPLEMENT PROJECT.
9. The estimated total cost of PROJECT, the amount of STATE FUNDS obligated, and the required matching funds may be adjusted by mutual consent of the PARTIES with a finance letter, and an allocation notification letter when applicable. STATE FUNDING may be increased to cover PROJECT cost increases only if such additional funds are available and the CTC and/or STATE concurs with that increase in the

form of an allocation and finance letter.

10. When such additional STATE FUNDS are not available, ADMINISTERING AGENCY agrees that any increases in PROJECT costs must be defrayed with ADMINISTERING AGENCY's own funds.

11. ADMINISTERING AGENCY shall use its own non-STATE FUNDS to finance the local share of eligible costs and all PROJECT expenditures or contract items ruled ineligible for financing with STATE FUNDS. STATE shall make the final determination of ADMINISTERING AGENCY's cost eligibility for STATE FUNDED financing with respect to claimed PROJECT costs.

12. ADMINISTERING AGENCY will reimburse STATE for STATE's share of costs for work performed by STATE at the request of ADMINISTERING AGENCY. STATE's costs shall include overhead assessments in accordance with section 8755.1 of the State Administrative Manual.

13. STATE FUNDS allocated by the CTC and/or STATE are subject to the timely use of funds provisions approved in CTC Guidelines and State procedures approved by the CTC and STATE.

14. STATE FUNDS encumbered for PROJECT are available for liquidation only for a limited period from the beginning of the State fiscal year when those funds were appropriated in the State Budget. STATE FUNDS not liquidated within these periods will be reverted unless a Cooperative Work Agreement (CWA) is submitted by ADMINISTERING AGENCY and approved by the California Department of Finance in accordance with Section 16304 of the Government Code. The exact date of fund reversion will be reflected in the STATE signed PROJECT finance letter.

15. Payments to ADMINISTERING AGENCY for PROJECT-related travel and subsistence (per diem) expenses of ADMINISTERING AGENCY forces and its contractors and subcontractors claimed for reimbursement or as local match credit shall not exceed rates authorized to be paid to rank and file STATE employees under current California Department of Human Resources (CalHR) rules unless a Cooperative Work Agreement (CWA) is submitted by ADMINISTERING AGENCY and approved by the California Department of Finance in accordance with Government Code section 16304. If the rates invoiced by ADMINISTERING AGENCY are in excess of CalHR rates, ADMINISTERING AGENCY is responsible for the cost difference, and any overpayments inadvertently paid by STATE shall be reimbursed to STATE by ADMINISTERING AGENCY on demand.

16. ADMINISTERING AGENCY agrees to comply with California Government Code 4525-4529.14. Administering Agency shall undertake the procedures described in California Government Code 4527(a) and 4528(a). Administering Agency shall also comply with 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirement for Federal Awards, excluding 2 CFR Part 200.318-200.326.

17. ADMINISTERING AGENCY agrees and will assure that its contractors and subcontractors will be obligated to agree that Contract Cost Principles and Procedures, 48 CFR, Federal Acquisition Regulations System, Chapter 1, Part 31, et seq., shall be used to determine the allowability of individual PROJECT cost items.

Every recipient and sub-recipient receiving PROJECT funds under this AGREEMENT comply with Federal administrative procedures in accordance with 2 CFR, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirement for Federal Awards, excluding 2 CFR Part 200.318-200.326 Governments. ADMINISTERING AGENCY agrees to comply with the provisions set forth in 23 CFR Parts 140, 645 and 646 when contracting with railroad and utility companies.

18. Every recipient and sub-recipient receiving PROJECT funds under this AGREEMENT shall comply with 2 CFR 200 excluding 2 CFR Part 200.318-200.326, 48 CFR Chapter 1, Part 31, LAPM, Public Contract Code (PCC) 10300- 10334 (procurement of goods), PCC 10335-10381 (non-A&E services), California Government Code 4525-4529.5 including 4527(a) and 4528(a), and other applicable STATE regulations.

19. Any PROJECT costs for which ADMINISTERING AGENCY has received payment or credit that are determined by subsequent audit to be questioned, disallowed, or unallowable under 2 CFR, Part 200, 48 CFR, Chapter 1, Part 31, 23 CFR Parts 140, 645 and 646, LAPM, Public Contract Code (PCC) 10300-10334 (procurement of goods), PCC 10335-10381 (non-A&E services), California Government Code 4525-4529.5 including 4527(a) and 4528(a), and other applicable STATE regulations are subject to repayment by ADMINISTERING AGENCY to STATE and may result in STATE imposing sanctions on ADMINISTERING AGENCY as described in Chapter 20 of the Local Assistance Procedures Manual.

20. Should ADMINISTERING AGENCY fail to refund any moneys due upon written demand by STATE as provided herein or should ADMINISTERING AGENCY breach this AGREEMENT by failing to complete PROJECT without adequate justification and approval by STATE, then, within thirty (30) days of demand, or within such other period as may be agreed to in writing between the PARTIES hereto, STATE, acting through the State Controller, the State Treasurer, the CTC or any other public entity or agency, may intercept, withhold and demand the transfer of an amount equal to the amount paid by or owed to STATE for each PROJECT, from future apportionments, or any other funds due ADMINISTERING AGENCY from the Highway Users Tax Fund or any other sources of funds, and/or may also withhold approval of future STATE FUNDED projects proposed by ADMINISTERING AGENCY.

21. Should ADMINISTERING AGENCY be declared to be in breach of this AGREEMENT or otherwise in default thereof by STATE, and if ADMINISTERING AGENCY is constituted as a joint powers authority, special district, or any other public entity not directly receiving funds through the State Controller, STATE is authorized to obtain reimbursement from whatever sources of funding are available, including the withholding or transfer of funds, 20from those constituent entities comprising a joint powers authority or by bringing of an action against ADMINISTERING AGENCY or its constituent member entities, to recover all funds provided by STATE hereunder.

22. ADMINISTERING AGENCY acknowledges that the signatory party represents the ADMINISTERING AGENCY and further warrants that there is nothing within a Joint Powers Agreement, by which ADMINISTERING AGENCY was created, if any exists, that would restrict or otherwise limit STATE's ability to recover STATE FUNDS improperly spent by ADMINISTERING AGENCY in contravention of the terms of this AGREEMENT.

AUDITS, THIRD PARTY CONTRACTING, RECORDS RETENTION AND REPORTS

1. STATE reserves the right to conduct technical and financial audits of PROJECT work and records and ADMINISTERING AGENCY agrees, and shall require its contractors and subcontractors to agree, to cooperate with STATE by making all appropriate and relevant PROJECT records available for audit and copying as required by paragraph three (3) of Article V.
2. ADMINISTERING AGENCY, its contractors and subcontractors shall establish and maintain a financial management system and records that properly accumulate and segregate reasonable, allowable, and allocable incurred PROJECT costs and matching funds by line item for the PROJECT. The financial management system of ADMINISTERING AGENCY, its contractors and all subcontractors shall conform to Generally Accepted Accounting Principles, enable the determination of incurred costs at interim points of completion, and provide support for reimbursement payment vouchers or invoices sent to or paid by STATE.
3. ADMINISTERING AGENCY, ADMINISTERING AGENCY's contractors and subcontractors, and STATE shall each maintain and make available for inspection and audit by STATE, the California State Auditor, or any duly authorized representative of STATE or the United States, all books, documents, papers, accounting records, and other evidence pertaining to the performance of such contracts, including, but not limited to, the costs of administering those various contracts, and ADMINISTERING AGENCY shall furnish copies thereof if requested. All of the above-referenced parties shall make such AGREEMENT and PROGRAM SUPPLEMENT materials available at their respective offices at all reasonable times during the entire PROJECT period and for three (3) years, or 35 years for Prop 1B funds, from the date of final payment to ADMINISTERING AGENCY.
4. ADMINISTERING AGENCY shall not award a construction contract over \$25,000 on the basis of a noncompetitive negotiation for work to be performed under this AGREEMENT without the prior written approval of STATE. All contracts awarded by ADMINISTERING AGENCY intended or used as local match credit must meet the requirements set forth in this AGREEMENT regarding local match funds.
5. ADMINISTERING AGENCY shall comply with Chapter 10 (commencing with Section 4525) Division 5 of Title 1 of the Government Code and shall undertake the procedures described in California Government Code 4527(a) and 4528(a). Administering Agency shall comply with Chapter 10 of the LAPM for A&E Consultant Contracts.
6. ADMINISTERING AGENCY shall comply with Government Code Division 5 Title 1 sections 4525-4529.5 and shall undertake the procedures described in California Government Code 4527(a) and 4528(a) for procurement of professional service contracts. Administering Agency shall follow Public Contract Code Section 10335-10381 for other professional service contracts.
7. Any subcontract entered into by ADMINISTERING AGENCY as a result of this AGREEMENT shall contain all of the provisions of Article IV, FISCAL PROVISIONS, and this ARTICLE V, AUDITS, THIRD-PARTY CONTRACTING, RECORDS RETENTION AND REPORTS and shall mandate that travel and per diem reimbursements and third-

party contract reimbursements to subcontractors will be allowable as PROJECT costs only those costs are incurred and paid for by the subcontractors.

8. To be eligible for local match credit, ADMINISTERING AGENCY must ensure that local match funds used for a PROJECT meet the fiscal provisions requirements outlined in ARTICLE IV in the same manner that is required of all other PROJECT expenditures.

9. Except as provided in this Article, this AGREEMENT is solely between and for the benefit of the PARTIES and there are no third-party beneficiaries.

Attachment: Master Agreement - Agreement No 08-5441S21 (5566 : ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP) GRANT

ARTICLE VI - MISCELLANEOUS PROVISIONS

1. ADMINISTERING AGENCY agrees to use all PROJECT funds reimbursed hereunder only for transportation purposes that are in conformance with Article XIX of the California State Constitution and other California laws.
2. ADMINISTERING AGENCY shall conform to all applicable State and Federal statutes and regulations, and the Local Assistance Program Guidelines and Local Assistance Procedures Manual as published by STATE and incorporated herein, including all subsequent approved revisions thereto applicable to PROJECT unless otherwise designated in the project-specific executed PROJECT SUPPLEMENT.
3. This AGREEMENT is subject to any additional restrictions, limitations, conditions, or any statute enacted by the State Legislature or adopted by the CTC that may affect the provisions, terms, or funding of this AGREEMENT in any manner.
4. ADMINISTERING AGENCY and the officers and employees of ADMINISTERING AGENCY, when engaged in the performance of this AGREEMENT, shall act in an independent capacity and not as officers, employees or agents of STATE.
5. Each project-specific PROGRAM SUPPLEMENT shall separately establish the terms and funding limits for each described PROJECT funded under this AGREEMENT and that PROGRAM SUPPLEMENT. No STATE FUNDS are obligated against this AGREEMENT.
6. ADMINISTERING AGENCY certifies that neither ADMINISTERING AGENCY nor its principals are suspended or debarred at the time of the execution of this AGREEMENT, and ADMINISTERING AGENCY agrees that it will notify STATE immediately in the event a suspension or a debarment occurs after the execution of this AGREEMENT.
7. ADMINISTERING AGENCY certifies, by execution of this AGREEMENT, that no person or selling agency has been employed or retained to solicit or secure this AGREEMENT upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by ADMINISTERING AGENCY for the purpose of securing business. For breach or violation of this warranty, STATE has the right to annul this AGREEMENT without liability, pay only for the value of the PROJECT work actually performed, or in STATE's discretion, to deduct from the price of PROGRAM SUPPLEMENT consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.
8. In accordance with Public Contract Code section 10296, ADMINISTERING AGENCY hereby certifies under penalty of perjury that no more than one final unappealable finding of contempt of court by a federal court has been issued against ADMINISTERING AGENCY within the immediate preceding two (2) year period because of ADMINISTERING AGENCY's failure to comply with an order of a federal court that orders ADMINISTERING AGENCY to comply with an order of the National Labor Relations Board.
9. ADMINISTERING AGENCY shall disclose any financial, business, or other relationship with STATE that may have an impact upon the outcome of this AGREEMENT or any individual PROJECT encompassed within a PROGRAM SUPPLEMENT. ADMINISTERING AGENCY shall also list current contractors who may have a financial interest in the outcome of a PROJECT undertaken pursuant to this

AGREEMENT. These disclosures shall be delivered to STATE in a form deemed acceptable to the STATE prior to execution of this AGREEMENT.

10. ADMINISTERING AGENCY hereby certifies that it does not have, nor shall it acquire, any financial or business interest that would conflict with the performance of any PROJECT initiated under this AGREEMENT.

11. ADMINISTERING AGENCY certifies that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any STATE employee. For breach or violation of this warranty, STATE shall have the right, in its sole discretion, to terminate this AGREEMENT without liability, to pay only for PROJECT work actually performed, or to deduct from a PROGRAM SUPPLEMENT price or otherwise recover the full amount of such rebate, kickback, or other unlawful consideration.

12. Any dispute concerning a question of fact arising under this AGREEMENT that is not disposed of by agreement shall be decided by the STATE's Contract Manager, who shall be identified to ADMINISTERING AGENCY at the time of execution of this AGREEMENT and, as applicable, any time that Contract Manager changes during the duration of this AGREEMENT who may consider any written or verbal evidence submitted by ADMINISTERING AGENCY. The decision of the Contract Manager, issued in writing, shall be conclusive and binding on the PARTIES on all questions of fact considered and determined by the Contract Manager.

13. Neither the pending of a dispute nor its consideration by the Contract Manager will excuse the ADMINISTERING AGENCY from full and timely performance in accordance with the terms of this AGREEMENT and each PROGRAM SUPPLEMENT.

14. Neither STATE nor any officer or employee thereof is responsible for any injury, damage or liability occurring by reason of anything done or omitted to be done by ADMINISTERING AGENCY under or in connection with any work, authority or jurisdiction of ADMINISTERING AGENCY arising under this AGREEMENT. It is understood and agreed that ADMINISTERING AGENCY shall fully defend, indemnify and save harmless STATE and all of its officers and employees from all claims and suits or actions of every name, kind and description brought forth under, including but not limited to, tortious, contractual, inverse condemnation or other theories or assertions of liability occurring by reason of anything done or omitted to be done by ADMINISTERING AGENCY under this AGREEMENT.

15. Neither ADMINISTERING AGENCY nor any officer or employee thereof is responsible for any injury, damage or liability occurring by reason of anything done or omitted to be done by, under or in connection with any work, authority or jurisdiction arising under this AGREEMENT. It is understood and agreed that STATE shall fully defend, indemnify and save harmless the ADMINISTERING AGENCY and all of its officers and employees from all claims, suits or actions of every name, kind and description brought forth under, including but not limited to, tortious, contractual, inverse condemnation and other theories or assertions of liability occurring by reason of anything done or omitted to be done by STATE under this AGREEMENT.

16. In the event of (a) ADMINISTERING AGENCY failing to timely proceed with effective PROJECT work in accordance with the project-specific PROGRAM SUPPLEMENT; (b) failing to maintain any applicable bonding requirements; and (c)

otherwise materially violating the terms and conditions of this AGREEMENT and/or PROGRAM SUPPLEMENT, STATE reserves the right to terminate funding for that PROJECT upon thirty (30) days' written notice to ADMINISTERING AGENCY.

17. No termination notice shall become effective if, within thirty (30) days after receipt of a Notice of Termination, ADMINISTERING AGENCY either cures the default involved or, if the default is not reasonably susceptible of cure within said thirty (30) day period the ADMINISTERING AGENCY proceeds thereafter to complete that cure in a manner and time line acceptable to STATE.

18. Any such termination shall be accomplished by delivery to ADMINISTERING AGENCY of a Notice of Termination, which notice shall become effective not less than thirty (30) days after receipt, specifying the reason for the termination, the extent to which funding of work under this AGREEMENT and the applicable PROGRAM SUPPLEMENT is terminated and the date upon which such termination becomes effective, if beyond thirty (30) days after receipt. During the period before the effective termination date, ADMINISTERING AGENCY and STATE shall meet to attempt to resolve any dispute. In the event of such termination, STATE may proceed with the PROJECT work in a manner deemed proper by STATE. If STATE terminates funding for PROJECT with ADMINISTERING AGENCY for the reasons stated in paragraph sixteen (16) of ARTICLE VI, STATE shall pay ADMINISTERING AGENCY the sum due ADMINISTERING AGENCY under the PROGRAM SUPPLEMENT and/or STATE-approved finance letter prior to termination, provided, however, ADMINISTERING AGENCY is not in default of the terms and conditions of this AGREEMENT or the project-specific PROGRAM SUPPLEMENT and that the cost of any PROJECT completion to STATE shall first be deducted from any sum due ADMINISTERING AGENCY.

19. In the case of inconsistency or conflicts with the terms of this AGREEMENT and that of a project-specific PROGRAM SUPPLEMENT and/or Cooperative Agreement, the terms stated in that PROGRAM SUPPLEMENT and/or Cooperative Agreement shall prevail over those in this AGREEMENT.

20. Without the written consent of STATE, this AGREEMENT is not assignable by ADMINISTERING AGENCY either in whole or in part.

21. No alteration or variation of the terms of this AGREEMENT shall be valid unless made in writing and signed by the PARTIES, and no oral understanding or agreement not incorporated herein shall be binding on any of the PARTIES.

IN WITNESS WHEREOF, the parties have executed this AGREEMENT by their duly authorized officer.

EXHIBIT A - FAIR EMPLOYMENT PRACTICES ADDENDUM

1. In the performance of this Agreement, ADMINISTERING AGENCY will not discriminate against any employee for employment on account of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. ADMINISTERING AGENCY will take affirmative action to ensure that employees are treated during employment without regard to their race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Such action shall include, but not be limited to, the following: employment; upgrading; demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. ADMINISTERING AGENCY shall post in conspicuous places, available to employees for employment, notices to be provided by STATE setting forth the provisions of this Fair Employment section.

2. ADMINISTERING AGENCY, its contractor(s) and all subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Gov. Code, 1290-0 et seq.), and the applicable regulations promulgated thereunder (Cal. Code Regs., Title 2, 11000, et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code section 12900(a-f), set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations are incorporated into this AGREEMENT by reference and made a part hereof as if set forth in full. Each of the ADMINISTERING AGENCY'S contractors and all subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreements, as appropriate.

3. ADMINISTERING AGENCY shall include the nondiscrimination and compliance provisions of this clause in all contracts and subcontracts to perform work under this AGREEMENT.

4. ADMINISTERING AGENCY will permit access to the records of employment, employment advertisements, application forms, and other pertinent data and records by STATE, the State Fair Employment and Housing Commission, or any other agency of the State of California designated by STATE, for the purposes of investigation to ascertain compliance with the Fair Employment section of this Agreement.

5. Remedies for Willful Violation:

(a) STATE may determine a willful violation of the Fair Employment provision to have occurred upon receipt of a final judgment to that effect from a court in an action to which ADMINISTERING AGENCY was a party, or upon receipt of a written notice from the Fair Employment and Housing Commission that it has investigated and determined that ADMINISTERING AGENCY has violated the Fair Employment Practices Act.

(b) For willful violation of this Fair Employment Provision, STATE shall have the right

to terminate this Agreement either in whole or in part, and any loss or damage sustained by STATE in securing the goods or services thereunder shall be borne and paid for by ADMINISTERING AGENCY and by the surety under the performance bond, if any, and STATE may deduct from any moneys due or thereafter may become due to ADMINISTERING AGENCY, the difference between the price named in the Agreement and the actual cost thereof to STATE to cure ADMINISTERING AGENCY's breach of this Agreement.

Attachment: Program Supplement Agreement - Agreement no 08-5441S21 (5566 : ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP)

SPECIAL COVENANTS OR REMARKS

1. All obligations of STATE under the terms of this Agreement are subject to the appropriation of resources by the Legislature and the encumbrance of funds under this Agreement. Funding and reimbursement are available only upon the passage of the State Budget Act containing these STATE funds.
2. Any State and Federal funds that may have been encumbered for this project are available for disbursement for limited periods of time. For each fund encumbrance the limited period is from the start of the fiscal year that the specific fund was appropriated within the State Budget Act to the applicable fund Reversion Date shown on the State approved project finance letter. Per Government Code Section 16304, all project funds not liquidated within these periods will revert unless an executed Cooperative Work Agreement extending these dates is requested by the ADMINISTERING AGENCY and approved by the California Department of Finance.

ADMINISTERING AGENCY should ensure that invoices are submitted to the District Local Assistance Engineer at least 75 days prior to the applicable fund Reversion Date to avoid the lapse of applicable funds. Pursuant to a directive from the State Controller's Office and the Department of Finance; in order for payment to be made, the last date the District Local Assistance Engineer can forward an invoice for payment to the Department's Local Programs Accounting Office for reimbursable work for funds that are going to revert at the end of a particular fiscal year is May 15th of the particular fiscal year. Notwithstanding the unliquidated sums of project specific State and Federal funding remaining and available to fund project work, any invoice for reimbursement involving applicable funds that is not received by the Department's Local Programs Accounting Office at least 45 days prior to the applicable fixed fund Reversion Date will not be paid. These unexpended funds will be irrevocably reverted by the Department's Division of Accounting on the applicable fund Reversion Date.

3. ADMINISTERING AGENCY agrees to comply with the requirements in 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (applicable to Federal and State Funded Projects).
4. This PROJECT is funded with State-Only funding from the Local Roadway Safety Plan (LRSP) Program. ADMINISTERING AGENCY agrees to develop an LRSP under this PROJECT.

The ADMINISTERING AGENCY agrees to follow all relevant State laws and requirements including the California Environmental Quality Act (CEQA).

This PSA allows reimbursement of eligible PROJECT expenditures to the ADMINISTERING AGENCY for which the LRSP State funds are allocated. The effective State allocation date establishes the eligibility date for the ADMINISTERING AGENCY to start reimbursable work. Any work performed prior the effective allocation date is not eligible for reimbursement from the LRSP funds.

Attachment: Program Supplement Agreement - Agreement no 08-5441S21 (5566 : ACCEPTANCE OF LOCAL ROADWAY SAFETY PLAN (LRSP))

SPECIAL COVENANTS OR REMARKS

ADMINISTERING AGENCY agrees that LRSP funds available for reimbursement will be limited to the amount allocated and encumbered by the STATE consistent with the scope of work in the STATE approved application. Funds encumbered may not be used for a modified scope of work after a project is awarded unless approved by the Statewide LRSP Coordinator prior to performing work.

ADMINISTERING AGENCY agrees to the program delivery and reporting requirements. The study and the LRSP must be completed within thirty-six (36) months of the funding allocation. The Final Report of Expenditure, the final invoice and the LRSP report must be submitted to the DLAE within six (6) months of the report completion.

Report to City Council

TO: Mayor and City Council

FROM: Michael Lloyd, Public Works Director/City Engineer

AGENDA DATE: October 19, 2021

TITLE: AUTHORIZATION TO AWARD AN AGREEMENT TO FEHR & PEERS FOR THE LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY (PROJECT NO. 810 0020)

RECOMMENDED ACTION

Recommendations:

1. Award an Agreement for Professional Consultant Services to Fehr & Peers to provide a Local Road Safety Plan for Moreno Valley and authorize the City Manager to execute the agreement with Fehr & Peers in the amount of \$153,382;
2. Authorize the issuance of a Purchase Order to Fehr & Peers, in the amount of \$153,382 when the agreement has been signed by all parties using LRSP grant funding and the General Fund (Funds 2301 and 1010); and
3. Authorize the Public Works Director to execute any subsequent related amendments to the Agreement with Fehr & Peers, not to exceed the agreement amount, subject to the approval by the City Attorney.

SUMMARY

This report recommends awarding an agreement for professional consultant services to Fehr & Peers to prepare the Local Road Safety Plan (LRSP) for Moreno Valley, in the amount of \$153,382.00.

DISCUSSION

Caltrans awarded the City funding on June 24, 2021 to prepare a LRSP and identify priority projects for future Highway Safety Improvement Program funding. Consistent with Caltrans procedures, a Request for Proposals (RFP) for Professional Consultant Services was distributed and advertised in accordance with the City's procurement

processes in September 2021. The City received eight (8) proposals in response to the RFP. Following a competitive selection process, Fehr & Peers was selected as the most qualified consultant to prepare the LRSP. The selection process was pursuant to the City’s Municipal Code requirements for professional services procurement. Staff recommends the award of the contract to Fehr & Peers to perform Professional Consultant Services for the Local Roadway Safety Plan project.

Fehr & Peers will pair crash data with contextual factors, such as: traffic volume, speed limits, intersection control, streetlights, land use data, and key trip generators (i.e. schools, parks, bus stops). A systemic analysis matrix to identify crash types that account for the most frequent and most severe crash types will be developed. This analysis will look at the top 5 crash types, associated locations, and common risk factors across the locations for all collisions and for collisions that resulted in a severe injury or fatality. A separate analysis will be done for collisions involving someone walking or biking, resulting in a list of up to 10 crash types. This crash type analysis will incorporate roadway and contextual factors. Each collision type will be mapped. The collision and contextual data will be available for exploration via the online safety dashboard, a tool that was developed for this proposal and will be carried forward into the project.

ALTERNATIVES

1. Approve the recommended action as presented in this staff report. *This alternative will provide the City an opportunity to have a LRSP plan.*
2. Do not approve the recommended action as presented in this staff report. *This alternative will prevent the project from moving forward because the City does not enough internal resource to conduct the project.*

FISCAL IMPACT

This project is funded by the LRSP grant funding and the General Fund, as the local match.

AVAILABLE BUDGET:

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES FOR
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

This Local Roadway Safety Plan for Moreno Valley Agreement (hereinafter, this “Agreement”) is made and entered into this ____ day of _____ 2021 (“Effective Date”), by and between the City of Moreno Valley, a municipal corporation in the County of Riverside, State of California, hereinafter referred to as the “City,” and **Fehr & Peers**, a California corporation, hereinafter referred to as “Consultant.”

RECITALS

WHEREAS, the City has determined it is in the public interest to proceed with the professional work hereinafter described as "Project"; and

WHEREAS, the City has determined the Project involves the performance of professional and technical services of a temporary nature as more specifically described in Exhibit "A" (City's Request for Proposal) and Exhibit "B" (Consultant's Proposal) hereto; and

WHEREAS, the City does not have available employees to perform the services for the Project; and

WHEREAS, the City has requested the Consultant to perform such services for the Project; and

WHEREAS, the Consultant is professionally qualified in California to perform the professional and technical services required for the Project, and hereby represents that it desires to and is professionally and legally capable of performing the services called for by this Agreement;

THEREFORE, the City and the Consultant, for the consideration hereinafter described, mutually agree as follows:

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

DESCRIPTION OF PROJECT

1. The Project is described as Local Roadway Safety Plan for Moreno Valley. Project No. 810 0020.

SCOPE OF SERVICES

2. The Consultant's scope of service is described on Exhibit "B" attached hereto and incorporated herein by this reference. In the event of a conflict, the City's Request for Proposal shall take precedence over the Consultant's Proposal.

3. The City's responsibility is described on Exhibit "C" attached hereto and incorporated herein by this reference.

PAYMENT TERMS

4. The City agrees to pay the Consultant and the Consultant agrees to receive a "Not-to-Exceed" fee of **\$153,382.00** in accordance with the payment terms provided on Exhibit "D" attached hereto and incorporated herein by this reference.

TIME FOR PERFORMANCE

5. The Consultant shall commence services upon receipt of written direction to proceed from the City.

6. The Consultant shall perform the work described on Exhibit "A" in accordance with the schedule set forth in Exhibit "B" attached hereto and incorporated by this reference.

7. This Agreement shall be effective from effective date and shall continue in full force and effect date through **December 31, 2022**, subject to any earlier termination in accordance with this Agreement. The services of Consultant shall be completed in a sequence assuring expeditious completion, but in any event, all such services shall be completed prior to expiration of this Agreement.

8. (a) The Consultant agrees that the personnel, including the principal Project

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

Manager, and all subconsultants assigned to the Project by the Consultant, shall be subject to the prior approval of the City.

(b) No change in subconsultants or key personnel shall be made by the Consultant without written prior approval of the City.

SPECIAL PROVISIONS

9. It is understood and agreed that the Consultant is, and at all times shall be, an independent consultant and nothing contained herein shall be construed as making the Consultant or any individual whose compensation for services is paid by the Consultant, an agent or employee of the City, or authorizing the Consultant to create or assume any obligation or liability for or on behalf of the City.

10. The Consultant may also retain or subcontract for the services of other necessary consultants with the prior written approval of the City. Payment for such services shall be the responsibility of the Consultant. Any and all subconsultants employed by the Consultant shall be subject to the terms and conditions of this Agreement, except that the City shall have no obligation to pay any subconsultant for services rendered on the Project.

11. The Consultant and the City agree to use reasonable care and diligence to perform their respective services under this Agreement.

12. The Consultant shall comply with applicable federal, state, and local laws in the performance of work under this Agreement.

13. To the extent required by controlling federal, state and local law, Consultant shall not employ discriminatory practices in the provision of services, employment of personnel, or in any other respect on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era. Subject to the foregoing

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

and during the performance of this Agreement, Consultant agrees as follows:

(a) Consultant will comply with all applicable laws and regulations providing that no person shall, on the grounds of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity made possible by or resulting from this Agreement.

(b) Consultant will not discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era. Consultant shall ensure that applicants are employed, and the employees are treated during employment, without regard to their race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era. Such requirement shall apply to Consultant's employment practices including, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provision of this nondiscrimination clause.

(c) Consultant will, in all solicitations or advertisements for employees placed by or on behalf of Consultant in pursuit hereof, state that all qualified applicants will receive consideration for employment without regard to race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era.

(d) If Consultant should subcontract all or any portion of the services to be performed under this Agreement, Consultant shall cause each subconsultant to also comply with the requirements of this Section 13.

14. To the furthest extent allowed by law (including California Civil Code section 2782.8 if applicable), Consultant shall indemnify, hold harmless and defend the City, the Moreno Valley Community Services District (“CSD”), the Moreno Valley Housing Authority (“Housing Authority”), and each of their officers, officials, employees, agents and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage), and from any and all claims, demands and actions in law or equity (including reasonable attorney's fees and litigation expenses) that arise out of, pertain to, or relate to the negligence, recklessness or willful misconduct of Consultant, its principals, officers, employees, agents or volunteers in the performance of this Agreement. In no event shall the cost to defend charged to Consultant exceed Consultant’s proportionate percentage of fault.

If Consultant should subcontract all or any portion of the services to be performed under this Agreement, Consultant shall require each subconsultant to indemnify, hold harmless and defend City, CSD, Housing Authority and each of their officers, officials, employees, agents and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Agreement.

15. Insurance.

(a) Throughout the life of this Agreement, Consultant shall pay for and maintain in full force and effect all insurance as required in **Exhibit E** or as may be authorized in writing by the City Manager or his/her designee at any time and in his/her sole discretion.

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

(b) If at any time during the life of the Agreement or any extension, Consultant or any of its subconsultant fail to maintain any required insurance in full force and effect, all services and work under this Agreement shall be discontinued immediately, and all payments due or that become due to Consultant shall be withheld until notice is received by City that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to City. Any failure to maintain the required insurance shall be sufficient cause for City to terminate this Agreement. No action taken by City pursuant to this section shall in any way relieve Consultant of its responsibilities under this Agreement. The phrase "fail to maintain any required insurance" shall include, without limitation, notification received by City that an insurer has commenced proceedings, or has had proceedings commenced against it, indicating that the insurer is insolvent.

(c) The fact that insurance is obtained by Consultant shall not be deemed to release or diminish the liability of Consultant, including, without limitation, liability under the indemnity provisions of this Agreement. The duty to indemnify City shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by Consultant. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of Consultant, its principals, officers, agents, employees, persons under the supervision of Consultant, vendors, suppliers, invitees, consultants, sub-consultants, subconsultants or anyone employed directly or indirectly by any of them.

(d) Upon request of City, Consultant shall immediately furnish City with a complete copy of any insurance policy required under this Agreement, including all endorsements, with said copy certified by the underwriter to be a true and correct copy of the original policy. This requirement shall survive expiration or termination of this Agreement.

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

(e) If Consultant should subcontract all or any portion of the services to be performed under this Agreement, Consultant shall require each subconsultant to provide insurance protection in favor of City and each of its officers, officials, employees, agents and volunteers in accordance with the terms of this section, except that any required certificates and applicable endorsements shall be on file with Consultant and City prior to the commencement of any services by the subconsultant.

16. The waiver by either party of a breach by the other of any provision of this Agreement shall not constitute a continuing waiver or a waiver of any subsequent breach of either the same or a different provision of this Agreement. No provisions of this Agreement may be waived unless in writing and signed by all parties to this Agreement. Waiver of any one provision herein shall not be deemed to be a waiver of any other provision herein.

17. Consultant and subconsultants shall pay prevailing wage rates when required by the Labor Laws of the State of California.

18. (a) The Consultant shall deliver to the Public Works Director/City Engineer of the City or his designated representative, fully completed and detailed project-related documents created for the City and prepared by or relied on by Consultant ("Work Product") which shall become the property of the City. The Consultant may retain, for its files, copies of any and all material, including drawings, documents, and specifications, produced by the Consultant in performance of this Agreement. However, notwithstanding the foregoing, Consultant shall retain all rights, titles, and interests, including but not limited to all ownership and intellectual property rights, in all inventions, improvements, discoveries, methodologies, models, formats, software, algorithms, processes, procedures, designs, specifications, findings, and other intellectual properties developed, gathered, compiled or produced by the Consultant prior to or independently of any of its services under this Agreement ("Background IP"), including such

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

Background IP that Consultant may employ in the performance of this Agreement, or may incorporate into any part of the Work Product. Consultant grants the City an irrevocable, non-exclusive, transferable, royalty-free license in perpetuity to use, disclose, and derive from such Background IP, but only as inseparable part of the Work Product. Third-party content that may be used or incorporated in the Work Product ("Third-party Content") shall not become the property of the City. Consultant shall secure all licenses necessary to any Third-Party content incorporated into Consultant's Work Product for the City to utilize Consultant's services and the Work Product for their intended purposes.

(b) The Consultant shall be entitled to copies of all furnished materials for his files and his subconsultants, if any.

(c) The City agrees to hold the Consultant free and harmless from any claim arising from any unauthorized use of computations, maps, and other documents prepared or provided by the Consultant under this Agreement, if used by the City on other work without the permission of the Consultant. Consultant acknowledges that Consultant work product produced under this agreement may be public record under State law.

19. (a) This Agreement shall terminate without any liability of City to Consultant upon the earlier of: (i) Consultant's filing for protection under the federal bankruptcy laws, or any bankruptcy petition or petition for receiver commenced by a third party against Consultant; (ii) 10 calendar days prior written notice with or without cause by City to Consultant; (iii) City's non-appropriation of funds sufficient to meet its obligations hereunder during any City fiscal year of this Agreement, or insufficient funding for the Project; or (iv) expiration of this Agreement. The written notice shall specify the date of termination. Upon receipt of such notice, the Consultant may continue services on the project through the date of termination, provided that no service(s) shall be commenced or continued after receipt of the notice, which is not intended to protect the

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

interest of the City. The City shall pay the Consultant within thirty (30) days after the date of termination for all non-objected to services performed by the Consultant in accordance herewith through the date of termination. Consultant shall not be paid for any work or services performed or costs incurred which reasonably could have been avoided.

(b) In the event of termination due to failure of Consultant to satisfactorily perform in accordance with the terms of this Agreement, City may withhold an amount that would otherwise be payable as an offset to, but not in excess of, City's damages caused by such failure. In no event shall any payment by City pursuant to this Agreement constitute a waiver by City of any breach of this Agreement which may then exist on the part of Consultant, nor shall such payment impair or prejudice any remedy available to City with respect to the breach.

(c) Upon any breach of this Agreement by Consultant, City may (i) exercise any right, remedy (in contract, law or equity), or privilege which may be available to it under applicable laws of the State of California or any other applicable law; (ii) proceed by appropriate court action to enforce the terms of the Agreement; and/or (iii) recover all direct, indirect, consequential, economic and incidental damages for the breach of the Agreement. If it is determined that City improperly terminated this Agreement for default, such termination shall be deemed a termination for convenience.

(d) Consultant shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of Consultant and without its fault or negligence such as, acts of God or the public enemy, acts of City in its contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. Consultant shall notify City in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, and shall remedy such occurrence with all reasonable dispatch, and shall promptly give written

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

notice to Administrator of the cessation of such occurrence.

20. This Agreement is binding upon the City and the Consultant and their successors and assigns. Except as otherwise provided herein, neither the City nor the Consultant shall assign, sublet, or transfer its interest in this Agreement or any part thereof without the prior written consent of the other.

21. A City representative shall be designated by the City and a Consultant representative shall be designated by the Consultant. The City representative and the Consultant representative shall be the primary contact person for each party regarding performance of this Agreement. The City representative shall cooperate with the Consultant, and the Consultant's representative shall cooperate with the City in all matters regarding this Agreement and in such a manner as will result in the performance of the services in a timely and expeditious fashion.

22. This Agreement represents the entire and integrated Agreement between the City and the Consultant, and supersedes all prior negotiations, representations or Agreements, either written or oral. This Agreement may be modified or amended only by a subsequent written Agreement signed by both parties.

23. Where the payment terms provide for compensation on a time and materials basis, the Consultant shall maintain adequate records to permit inspection and audit of the Consultant's time and materials charges under this Agreement. The Consultant shall make such records available to the City at the Consultant's office during normal business hours upon reasonable notice. Nothing herein shall convert such records into public records. Except as may be otherwise required by law, such records will be available only to the City. Such records shall be maintained by the Consultant for three (3) years following completion of the services under this Agreement.

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

24. The City and the Consultant agree, that to the extent permitted by law, until final approval by the City, all data shall be treated as confidential and will not be released to third parties without the prior written consent of both parties.

25. (a) Consultant shall comply, and require its subconsultants to comply, with all applicable (i) professional canons and requirements governing avoidance of impermissible client conflicts; and (ii) federal, state and local conflict of interest laws and regulations including, without limitation, California Government Code Section 1090 et. seq., the California Political Reform Act (California Government Code Section 87100 et. seq.) and the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations Section 18700 et. seq.). At any time, upon written request of City, Consultant shall provide a written opinion of its legal counsel and that of any subconsultant that, after a due diligent inquiry, Consultant and the respective subconsultant(s) are in full compliance with all laws and regulations. Consultant shall take, and require its subconsultants to take, reasonable steps to avoid any appearance of a conflict of interest. Upon discovery of any facts giving rise to the appearance of a conflict of interest, Consultant shall immediately notify City of these facts in writing.

(b) In performing the work or services to be provided hereunder, Consultant shall not employ or retain the services of any person while such person either is employed by City or is a member of any City council, commission, board, committee, or similar City body. This requirement may be waived in writing by the City Manager, if no actual or potential conflict is involved.

(c) Consultant represents and warrants that it has not paid or agreed to pay any compensation, contingent or otherwise, direct or indirect, to solicit or procure this Agreement or any rights/benefits hereunder.

**AGREEMENT FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY
PROJECT NO. 810 0020**

(d) Neither Consultant, nor any of Consultant's subconsultants performing any services on this Project, shall bid for, assist anyone in the preparation of a bid for, or perform any services pursuant to, any other contract in connection with this Project unless fully disclosed to and approved by the City Manager, in advance and in writing. Consultant and any of its subconsultants shall have no interest, direct or indirect, in any other contract with a third party in connection with this Project unless such interest is in accordance with all applicable law and fully disclosed to and approved by the City Manager, in advance and in writing. Notwithstanding any approval given by the City Manager under this provision, Consultant shall remain responsible for complying with Section 25(a), above.

(e) If Consultant should subcontract all or any portion of the work to be performed or services to be provided under this Agreement, Consultant shall include the provisions of this Section 25 in each subcontract and require its subconsultants to comply therewith.

(f) This Section 25 shall survive expiration or termination of this Agreement.

26. All Plans, drawings, Specifications, reports, logs, and other documents prepared by the Consultant in its performance under this Agreement shall, upon completion of the project, be delivered to and be the property of the City, with the exception of any Background IP or Third-Party Content incorporated therein, provided that the Consultant shall be entitled, at its own expense, to make copies thereof for its own use.

27. The laws of the State of California shall govern the rights, obligations, duties, and liabilities of the parties to this Agreement, and shall also govern the interpretation of this Agreement. Venue shall be vested in the Superior Court of the State of California, County of Riverside.

**REQUEST FOR PROPOSAL
FOR PROFESSIONAL CONSULTANT DESIGN SERVICES
LOCAL ROADWAY SAFETY PLAN FOR MORENO VALLEY**

I. INVITATION

You are hereby invited to submit a Proposal for Professional Consultant Design Services associated with the **Local Roadway Safety Plan for Moreno Valley (LRSPMV)**.

Interested parties may register and download copies of the RFP by visiting the City's web site, www.moval.org, selecting "City Bids and RFP's" under the "City Hall" Resources link at the home page and selecting the "Online Bidding System" link. **To download proposal packages and submit proposals, vendors will be required to pay an online usage download fee of \$10.00.** All documents associated with this RFP will be downloadable after the fee has been paid. Once the prospective Offeror downloads any documents relative to a solicitation, that Offeror's name will appear on the Prospective Bidders List.

Proposals will be accepted until 2:00pm on September 24, 2021.

Proposals shall be submitted electronically (in PDF format via the City's vendor portal website, located at <http://www.planetbids.com/portal/portal.cfm?CompanyID=24660>). The proposer shall provide a separate electronic file for their technical proposal and cost proposal.

Technical Proposal shall include, but not be limited to, the following items:

- Proposer should describe in detail their approach and understanding of all necessary tasks and steps involved in the project;
- Include a list of deliverables;
- Related experience including relevant experience date, name of agency, and Reference name/contact information;
- a resource allocation matrix (exclude cost info); and

Cost Proposal shall include, but not be limited to, the following items:

- Proposer should provide a Cost Proposal that includes all costs associated with the delivery of this project;
- A rate schedule aligned with titles in the resource allocation matrix in Technical Proposal.
- The City will use a "Cost-Plus-Fixed-Fee" method to pay for professional services related to this project; therefore, Proposer shall submit a Cost Proposal.
- The general Scope of Services outlined herein is only provided as a guide in this Request for Proposals;
- Proposer should provide a detailed Scope of Services in their submitted Technical Proposal as necessary to reflect the method and procedure in which they intend to provide the required professional services, consistent with the general Scope of Services;
- The Cost Proposal must be identical to the detailed Scope of Services included as part of the Proposer's Technical Proposal.

The proposer is solely responsible for "on time" submission of their electronic proposal.

The City will only consider proposals that have been transmitted successfully and have been issued an ebid confirmation number with a time stamp from the Bid Management System indicating that bid was submitted successfully. Transmission of proposals by any other means will not be accepted. Proposer shall be solely responsible for informing itself with respect to the proper utilization of the proposal management system, for ensuring the capability of their computer system to upload the required documents, and for the stability of their internet service. Failure of the proposer to successfully submit an electronic proposal shall be at the proposer's sole risk and no relief will be given for late and/or improperly submitted proposals. Proposers experiencing any technical difficulties with the proposal submission process may contact PlanetBids at (818) 992-1771. Questions of an operational nature may be directed to the City's Capital Projects Division at (951) 413-3130. Neither the CITY, nor PlanetBids, makes any guarantee as to the timely availability of assistance, or assurance that any given problem will be resolved by the proposal submission deadline.

All questions regarding this RFP must be submitted through the vendor portal noted above within the Q&A section and must be submitted no later than seven (7) days prior to the proposal submission deadline.

II. PROJECT DESCRIPTION

The project will analyze traffic safety for the local street network within the City of Moreno Valley.

III. PROJECT BUDGET

The City of Moreno Valley will fund the project with the Caltrans LRSP grant.

IV. SCOPE OF ENGINEERING SERVICES

Task 1 – Review City, State, and Federal Guidelines

This task shall familiarize the Consultant with City and State policies and programs as all work shall comply with all applicable codes, regulations, specifications, and guidelines. The Consultant shall establish criteria to be utilized in the LRSPMV. The criteria shall identify responsibilities and resources to implement the plan.

Task 2 – Collision History Assessment

This task consists of evaluating 5-year collision reports for intersections and roadway segments. Collision locations are to be analyzed and assessed to determine contributing factors for crash activity within defined areas. Crash activity is to be cross-referenced and compared with roadway characteristics, roadway volumes, speed limitations, intersection controls and other contributing factors that might affect safety. An assessment shall be provided to indicate areas in need of an improvement.

Task 3 – Solutions and Countermeasures

The Consultant shall provide recommendations for proven and cost-effective countermeasures to best address areas needing improvement within the City consistent with criteria established in Task 1 and findings in Task 2. The Consultant shall propose a programmatic approach for implementing solutions and mitigation measures to enhance roadway safety consistent with Federal and State recommendations and guidelines. The recommendations shall be prioritized per the criteria established in Task 1.

Task 4 – Recommended Top Five (5) Improvements.

The City intends to apply for Highway Safety improvement Program (HSIP) Cycle 11. This project shall prepare the conceptual plans and supporting documents for the top five priority locations needing improvements. The LRSPMV must result in a formal plan for local projects to compete and meet the requirements for future HSIP funding.

Task 5 – Prepare a Final LRSPMV Document

A complete LRSPMV shall encompass all findings to establish a program for the City to implement and follow in the development of projects to pursue funding and as new information is made available. The Consultant shall make a formal presentation to the City's Traffic Safety Commission and meet all State requirements for outreach. The LRSP will not be considered complete until it has been approved and accepted by the State and the City.

V. CONSULTANT'S PROPOSAL AND COMPENSATION

The Consultant's Proposal shall be no more than 20 pages, excluding a cover letter of up to two pages, dividers, and certificates. Proposals failing to provide sufficient information and assurances of performance to accurately assess each category of the required services and failing to comply with requirements and conditions of the RFP will not be given further consideration. The Consultant's Proposal shall include the following:

- A. A statement that this RFP shall be incorporated in its entirety as a part of the Consultant's Proposal.

The Consultant shall submit with their proposal a Non-Collusion affidavit. This affidavit must be on the form, which is hereto attached and notarized.

- B. A statement that this RFP and the Consultant's Proposal will jointly become part of the Agreement for Professional Consultant Services for this project when said Agreement is fully executed by the Consultant and the Mayor or City Manager of Moreno Valley.
- C. A statement that the Consultant's Services to be provided, and fees therefore, will be in accordance with the City's RFP except as otherwise specified in the Consultant's Proposal under the heading "ADDITIONS OR EXCEPTIONS TO THE CITY'S REQUEST FOR PROPOSAL."
- D. A single and separate section with the heading "ADDITIONS OR EXCEPTIONS TO THE CITY'S REQUEST FOR PROPOSAL" containing a complete and detailed description of all of the exceptions to the provisions and conditions of this Request for Proposal upon which the Consultant's Proposal is contingent and which shall take precedent over this RFP.
- E. A statement of qualifications applicable to this project including the names, qualifications and proposed duties of the Consultant's Staff to be assigned to this project; a listing of recent similar projects completed including the names, titles, addresses and telephone numbers of the appropriate persons whom the City could contact. If one or more of the Consultant's staff should become unavailable, the Consultant may substitute other staff of at least equal competence only after prior written approval by the City.

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

- F. A statement that all charges for Consultant (construction) services is a “Not-to-Exceed Fee” which must include conservatively estimated reimbursable expenses, as submitted with and made a part of said Consultant’s Proposal.
- G. A statement that the Consultant will document and provide the results of the work to the satisfaction of the City. This may include preparation of field and final reports, or similar evidence of attainment of the Agreement objectives.
- H. A copy of the Consultant's hourly rate schedule and a statement that said hourly rate schedule is part of the Consultant's Proposal for use in invoicing for progress payments and for extra work incurred that is not part of this RFP. **An itemized cost breakdown for the work described herein must be submitted in a separate file, entitled Cost file, as part of your Proposal submittal.** All extra work will require prior approval from the City.
- I. A statement that the Consultant will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin.
- J. A statement that all federal laws and regulations shall be adhered to notwithstanding any state or local laws and regulations. In a case of conflict between federal, state or local laws or regulations the strictest shall be adhered to.
- K. A statement that the Consultant shall allow all authorized federal, state, county, and City officials access to place of work, books, documents, papers, fiscal, payroll, materials, and other relevant contract records pertinent to this special project. All relevant records shall be retained for at least three years.

VI. GENERAL COMPLIANCE WITH LAWS AND WAGE RATES

- A. The Consultant shall be required to comply with all federal, state, and local laws and ordinances applicable to the work. This includes compliance with prevailing wage rates and their payment in accordance with California Labor Code, Section 1775.
- B. The Consultant is required to submit certified payrolls weekly. This applies to all applicable field personnel working on the project. In accordance with Section 1771.5 (b) (5) of the California Labor Code, the City will withhold payments when the payroll records are delinquent or inadequate.

VII. FEDERAL EMPLOYEE BENEFIT

No member of, or delegate to, the Congress of the United States, and no Resident Commissioner shall be admitted to any share or part of the Agreement to the said project or to any benefit to arise from the same.

The Consultant shall complete and include the “Certification for Contracts, Grants, Loans, and Cooperative Agreements” and “Disclosure of Lobbying Activities” forms with the Proposal.

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

VIII. PAYMENT TO CONSULTANT

- A. This work is to be performed for a “Not-to-Exceed Fixed Fee.”
- B. The Consultant shall provide a “Payment Schedule” indicating the fee for individual tasks with a “Not-to-Exceed Fixed Fee” which shall be the sum of all tasks.
- C. Tasks shall include, but not be limited to, all Professional Consultant Services necessary to complete the work covered by this Proposal.
- D. The City will pay the Consultant for work completed as identified in the Payment Schedule.
- E. Progress payments shall be based on tasks performed as identified in the Payment Schedule. Monthly invoices will specifically identify job title, person-hours, and costs incurred by each task.
- F. Sub-categorization of tasks is permitted to better define the task for payment.
- G. Reimbursement costs such as mileage, printing, telephone, photographs, postage and delivery, are to be included in the “Not-to-Exceed Fixed Fee.”
- H. All tasks including labor and reimbursable costs such as mileage, printing, telephone, photographs, postage, and delivery shall have supporting documentation presented at the time payment is requested.
- I. The City will pay the Consultant for all acceptable services rendered in accordance with the “Agreement for Professional Consultant Services.”
- J. When the Consultant is performing, or is requested to perform, work beyond the scope of service in the “Agreement for Professional Consultant Services,” an “Amendment to the Agreement” will be executed between the City and Consultant.
- K. Payment will be based on hourly rate for work completed associated with each applicable task as identified in the consultant’s proposal.

IX. INSURANCE

- A. The Consultant shall provide Errors and Omissions Professional Insurance. Such coverage limits shall not be less than \$1,000,000 per claim and aggregate.
- B. The Consultant shall have Public Liability and Property Damage Insurance in the amounts as follows:

<u>GENERAL LIABILITY</u>		
Bodily Injury	\$1,000,000	per occurrence
Property Damage	\$ 500,000	per occurrence

A combined single limit policy with aggregate limits in the amount of \$2,000,000 will be considered equivalent to the above minimum limits.

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

- C. The Consultant shall have Public Liability and Property Damage Insurance coverage for owned and non-owned automotive equipment in the amount of not less than \$1,000,000.
- D. The Consultant shall have Workers' Compensation Insurance in the amounts as will fully comply with the laws of the State of California.
- E. A Certificate of Insurance or an appropriate binder shall bear an endorsement containing the following provisions:

"Solely as respect to services done by or on behalf of the named insured for the City of Moreno Valley, it is agreed that the City of Moreno Valley, the Community Redevelopment Agency of the City of Moreno Valley, and the Moreno Valley Community Services District, its officers, employees and agents are included as additional insured under this general liability policy and the coverage(s) provided shall be primary insurance and not contributing with any other insurance available to the City of Moreno Valley, the Redevelopment Agency of the City of Moreno Valley, and the Moreno Valley Community Services District, its officers and employees and agents, under any third party liability policy."

- F. Insurance companies providing insurance hereunder shall be rated (A minus: VII - Admitted) or better in Best's Insurance Rating Guide and shall be legally licensed and qualified to conduct insurance business in the State of California.
- G. The terms of the insurance policy or policies issued to provide the above insurance coverage shall not be amended to reduce the above required insurance limits and coverage's nor shall such policies be canceled by the carrier without thirty (30) days prior written notice by certified or registered mail of amendment or cancellation to the Agency, except that cancellation for non-payment of premium shall require ten (10) days prior written notice by certified or registered mail. In the event the said insurance is canceled, the Consultant shall, prior to the cancellation date, submit to the City Clerk new evidence of insurance in the amount established.
- H. It is the consultant's responsibility to ensure that all subconsultants comply with the following: Each subconsultant that encroaches within the City's right-of-way **and** affects (i.e., damages or impacts) City infrastructure must comply with the liability insurance requirements of the City's Capital Projects Division. Examples of such subconsultant work include soil sample borings, utility potholing, etc.

The "Application for Encroachment Permit" form (four pages), including "Application for Encroachment Permit Liability Insurance Requirements," is available in the Capital Projects Division and must be completed and submitted in full to the City Project Manager. It is the Consultant's responsibility to ensure that all subconsultants submit the appropriate encroachment permit and insurance documentation at the same time that the Consultant's insurance documentation is submitted.

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

X. INDEMNIFICATION

- A. The Consultant agrees to indemnify, defend, and save the City, the Moreno Valley Community Services District (CSD), and the Moreno Valley Housing Authority (MVHA), their officers, agents and employees harmless from any and all liability, claims, demands, damages, or injuries to any person, including injury to the Consultant's employees and all claims which arise from or are connected with the negligent performance of or failure to perform the work or other obligations of the Consultant under this Agreement, or are caused or claim to be caused by the negligent acts of the Consultant, its officers, agents or employees, or its subconsultant(s) or any person acting for the Consultant or under its control or direction; provided, however, that this indemnification and hold harmless shall not include claims arising from the sole negligence or willful misconduct of the City, RDA, MVHA, and CSD, their officers, agents or employees.
- B. The City agrees to indemnify, defend and save the Consultant and their officers, agents and employees harmless from any and all liability, claims, damages or injuries to any person, including injury to the City's, RDA's, MVHA's, and CSD's employees and all claims which arise from or are connected with the negligent performance or failure to perform the services or other obligations of the City under this Agreement, or are caused or claim to be caused by the negligent acts of the City, RDA, MVHA, and CSD, their officers, agents or employees, or its subcontractor(s) or any person acting for the City or under its control or direction; provided, however, that this indemnification and hold harmless shall not include any claims arising from the sole negligence or willful misconduct of the Consultant, its officers, agents, or employees (PCC 20103.6).

XI. TERMINATION FOR CONVENIENCE OF THE CITY

The City reserves the right to terminate the "Agreement for Professional Consultant Services" for the "convenience of the City" at any time by giving ten (10) days written notice to the Consultant of such termination and specifying the effective date thereof. All finished or unfinished drawings, maps, documents, field notes and other materials produced and procured by the Consultant under the said aforementioned Agreement is, at the option of the City, City property and shall be delivered to the City by the Consultant within ten (10) working days from the date of such termination. The City will reimburse the Consultant for all acceptable work performed as set forth in the executed Agreement.

XII. INDEPENDENT CONTRACTOR

The Consultant's relationship to the City in the performance of the Consultant's services for this project is that of an independent Contractor. The personnel performing said Surveying Services shall at all times be under the Consultant's exclusive direction and control and shall be employees of the Consultant and not employees of the City. The Consultant shall pay all wages, salaries and other amounts due his employees in connection with the performance of said work shall be responsible for all employee reports and obligations, including but not necessarily restricted to, social security, income tax withholding, unemployment compensation, and Workers' Compensation.

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

XIII. CONTRACT

The Contract includes the Agreement for Professional Consultant Services, City's Request for Proposal, Consultant's Proposal, and Exhibits.

The Political Reform Act and the City's Conflict of Interest Code require that consultants be considered as potential filers of Statements of Economic Interest. Consultants, as defined by Section 18701, may be required to file an Economic Interest Statement (Form 700) within 30 days of signing a Consultant Agreement with the City, on an annual basis thereafter if the contract is still in place, and within 30 days of completion of the contract.

XIV. GENERAL CONDITIONS

- A. Pre-contractual expenses are defined as expenses incurred by the Consultant in: (1) preparing the Proposal; (2) submitting the Proposal to the City; (3) presentation during selection interview; (4) negotiating with the City any matter related to this Proposal; (5) any other expenses incurred by the Consultant prior to an executed Agreement.

The City shall not, in any event, be liable for any pre-contractual expenses incurred by the Consultant.

- B. The Consultant is responsible for notifying Underground Service Alert and providing proper traffic control, at no additional expense to the City.
- C. The City reserves the right to withdraw this RFP at any time without prior notice. Further, the City makes no representations that any Agreement will be awarded to any Consultant responding to this RFP. The City expressly reserves the right to postpone reviewing the Proposal for its own convenience and to reject any and all Proposals responding to this RFP without indicating any reasons for such rejection(s).
- D. The City reserves the right to reject any or all Proposals submitted. Any Contract awarded for these Consultant engagements will be made to the Consultant who, in the opinion of the City, is best qualified.

XV. SELECTION CRITERIA

The Consultant may be invited to a selection interview. The Proposals will be rated/ranked according to the following criteria:

- A. The Firm's General Experience and Qualification Information (20 points) – Information about the company (and all sub-consultants) including professional licenses held; ability to furnish required insurance and meet stipulations of the City's "boiler plate" agreement; details about comparable projects completed by the firm, as well as local experience; and its ability to provide the required services.
- B. Experience of Key Personnel (40 points) – Background on key personnel (including all sub-consultants) qualifications, abilities, familiarity with state and federal procedures, local experience on comparable projects and length of service

**REQUEST FOR PROPOSAL FOR
PROFESSIONAL CONSULTANT DESIGN SERVICES
LRSP**

with the firm, reference information preferably with municipal agencies.

- C. Project Approach/Understanding (40 points) – Discussion of major issues identified on the project and how the consultant team plans to address them; the management approach and organization necessary to complete the specific project; and outline quality control measures to ensure delivery of a quality product on time and within budget.

SUBJECT:
 Moreno Valley LRSP

Dear Wei Sun, TE:

Congratulations on your receipt of Caltrans LRSP funds, an award that will allow the City of Moreno Valley to continue its leadership in proactive traffic safety work. We would be honored to be your partner and technical leader as you embark on this important mission to make a fundamental and lasting impact on mobility in Moreno Valley through your first Local Road Safety Plan.

OUR COMMITMENT TO MORENO VALLEY

Our team fully understands the need to develop a comprehensive LRSP to secure future Highway Safety Improvement Program (HSIP) funding to support roadway safety improvements in Moreno Valley. Having worked with over 100 jurisdictions in California on multi-modal safety planning, we are committed to bringing innovative approaches and the best state-of-the-practice solutions to address roadway safety issues in Moreno Valley.

We do not view safety planning as a commodity, and the Local Road Safety Plan presents an opportunity to customize for Moreno Valley's needs and exceed the State requirements. Our team has a commitment to working in Moreno Valley through our years of service to the City and we care for your community. This plan is a chance to partner together to incorporate Moreno Valley's priorities, such as building on signal system investments and tackling unsafe speeds, while working towards achieving roadway safety goals.

OUR TEAM

Our proposed leadership team brings a depth of knowledge on the state of the engineering practice and an understanding of the latest advancements of that practice related to safety. This team has worked together closely to refine our systemic safety approach and help secure millions of dollars in funding for our clients.

Our proposed Principal, **Matt Benjamin**, is a certified Road Safety Professional and will help ensure that requirements are met for future HSIP funding, while also mitigating liability concerns.

Our proposed Project Manager, **Paul Herrmann**, has demonstrated commitment to serving the City of Moreno Valley over the course of several projects, including as Project Manager for the City's Circulation Element, Impact Fee Study, and Moreno Valley Community College Master Plan. Paul is a seasoned project manager, having served as PM or Associate-In-Charge on 140 projects at Fehr & Peers.

Emily Finkel, our Safety Technical Advisor, serves as our companywide Safety Technical Lead and has managed more than a dozen LRSP and other projects throughout California. Emily was the project manager for Moreno Valley's Systemic Safety Analysis Report (SSAR), also called the Citywide Pedestrian Safety Study.

Our team also includes three certified Road Safety Professionals, including Claude Strayer (Engineering Design

Lead), and several subject matter experts in topics such as data analysis, engineering, complete streets design, and grant application development.

OUR APPROACH

Build on the Strong Foundation of Safety Investments the City is Making:

This plan will build on the successful recent work that Moreno Valley has accomplished, such as:

- ATP grant projects, such as pedestrian facility improvements
- HSIP grant projects, including guardrail upgrades, crossing upgrades, and high-friction surface treatments
- The Dracaea Ave Greenway Corridor project
- Investment in signal upgrades and ITS

We are uniquely positioned to harness the momentum of the recent SSAR, led by our proposed Safety Technical Advisor, Emily Finkel. By incorporating these plans and projects into our approach, we can develop a plan that enhances work that the City has already invested in and won't duplicate it.

Leverage Expertise, Prior Local Work, and Collaboration Opportunities to Allow for Deeper Exploration:

Fehr & Peers brings decades of experience in multi-modal safety with extensive recent experience working throughout California on SSAR and more than 15 Local

Road Safety Plans. Through our prior work with the City of Moreno Valley, we understand the opportunities for collaboration, such as with the City Attorney's Office and local schools, to increase the impact of safety planning work.

Our local road safety planning work produces results. *In HSIP Cycle 10 alone, our SSAR and LRSP clients received over \$10 million in funding for implementation of safety improvement projects.* This is expertise we will bring to Moreno Valley to deliver competitive HSIP projects.

With this combination of safety and local experience, we can leverage established processes to find efficiencies in analysis methods, allowing for deeper and more thoughtful exploration of recommendations specific to Moreno Valley's needs and HSIP guidelines.

Use Innovative Tools to Create a Plan Tailored to Moreno Valley's Needs and Priorities:

The efficiencies outlined above will allow for a plan tailored to the City's priorities, while still meeting Caltrans requirements. Our proposed work plan goes above and beyond the baseline Local Road Safety Plan requirements,

including several enhancements, which are listed in further detail in our proposed scope.

These enhancements include:

- A data dashboard for staff to easily access collision analysis results (sample linked below): <https://tabsoft.co/3ADq8H6>
- Harnessing innovative data collection and analysis technologies, including in-vehicle hard braking and acceleration data, and cell phone big data for counts
- Development of detailed conceptual project designs in support of future grant funding opportunities
- Application support for the HSIP 2022 grant cycle

Thank you for considering our proposal. We look forward to hearing from you.

We confirm receipt of Addendum No 1, Q&A Set 1, and Q&A Set 2.

Sincerely,

Matt Benjamin, RSP
Principal
Authorized Representative

Project Approach & Understanding

2 Project Approach & Understanding

Our work completing the Moreno Valley Citywide Pedestrian Safety Study will allow for significant efficiencies in our approach to the scope of work, allowing for a more tailored approach in the project development phase. The work plan below explains our approach and methodology for each task and any innovative considerations to enhance the LRSP, reduce the cost, or expedite project delivery. Look for this icon  for more details on our proposed project enhancements, and Efficiency Opportunities  highlighted throughout.

TASK 0

PROJECT MANAGEMENT

Paul Herrmann, our Project Manager, will oversee day-to-day operations of the project and report directly to the City's Project Manager. Fehr & Peers will organize and lead a project kick-off meeting to discuss the goals, objectives, tasks, timeline, the City's expectations, and Caltrans' grant requirements. Fehr & Peers is committed to regular, ongoing communication with the City to facilitate smooth project delivery. Fehr & Peers will coordinate and lead monthly progress meetings with the City to discuss the project, monitor project progress, prepare for upcoming tasks, debrief on completed tasks, and any required problem-solving to ensure the Plan development remains on schedule and within budget. Fehr & Peers will provide meeting agendas and notes for the progress meetings.

STAKEHOLDER GROUP MEETINGS

Fehr & Peers will work with the City to establish a stakeholder group for the LRSP that represents FHWA's four E's of safety:

- **Education**, such as representatives from the Moreno Valley Unified School District, Val Verde Unified School District, Moreno Valley College
- **Enforcement**, such as the Moreno Valley Police Department
- **Emergency Services**, such as the Moreno Valley Fire Department
- **Engineering** staff from the City

Additional stakeholders could include representatives from Riverside Transit Agency, Caltrans, WRCOG, and community-based organizations. Many of these stakeholders were convened in support of the Citywide Pedestrian Safety Study led by Fehr & Peers, allowing for efficiency in coordinating the group and developing a common understanding of safety issues in Moreno Valley.

Two stakeholder meetings are planned. The **first meeting** will focus on presenting findings from the crash history and data collection/assessment process and discussing the project's **vision and goals**. The vision and goals will be finalized with City staff, following Caltrans guidance. The **second meeting** will focus on gathering stakeholder feedback on countermeasure strategies, proposed projects, and the final Local Roadway Safety Plan. If

in-person meetings are not possible due to ongoing public health concerns and restrictions, Fehr & Peers is well-positioned to use online collaboration tools to facilitate engaging and collaborative stakeholder meetings. Fehr & Peers will facilitate coordination with stakeholders throughout the duration of the project.

TASK 1

REVIEW CITY, STATE AND FEDERAL GUIDELINES

Fehr & Peers will review City and State policies and programs as all work shall comply with all applicable codes, regulations, specifications, and guidelines. Fehr & Peers will establish criteria to be utilized in the LRSPMV. The criteria will identify responsibilities and resources to implement the plan.

Documents we review will include: FHWA's new Safe System program (this program will be shaping future changes to the federal and state HSIP approach), the California Local Roadway Safety Manual (2020), the new California Strategic Highway Safety Plan, the California MUTCD, Caltrans LRSP and HSIP documentation, and Moreno Valley local documents such as the Circulation Element.

TASK 2

COLLISION HISTORY ASSESSMENT

COLLISION DATABASE DEVELOPMENT

Consistent with guidance provided in Local Roadway Safety: A Manual for California's Local Road Owners (LRSM) (Caltrans, 2020), Fehr & Peers will obtain collision history on Moreno Valley streets for the most recent 5-year period for which complete collision data is available. We will use the UC Berkeley SafeTREC Transportation Injury Mapping System (TIMS) or other locally preferred geocoded collision data.

CONTEXTUAL DATABASE DEVELOPMENT

We will update the contextual database from the Citywide Pedestrian Safety Study, working with City

staff to identify new contextual data sources or updates to roadways, such as new posted speeds, that have occurred within the last several years. In addition to our prior contextual data, we propose supplementing with additional data from new sources, as described below.

INNOVATIVE DATA SOURCES 

Connected Vehicle Data - Wejo: Data from connected vehicles that provides the geographic location for safety related driving events, such as hard braking and speeding

AADT and Turning Movement Counts – StreetLight: As we anticipate the pandemic to continue to impact travel patterns in 2021, we propose using pre-pandemic cell phone big data to collect segment AADT

HOT SPOT IDENTIFICATION

We will identify the top 10 high crash intersections and roadway segments for total collisions, collisions where someone was killed or severely injured (KSI), and by mode. Fehr & Peers will also produce a **collision landscape summary** of key patterns and trends in the collision data by mode, severity, and over time.

TOP COLLISION TYPES IDENTIFICATION

Following Highway Safety Manual and NCHRP 893 guidance, Fehr & Peers will pair crash data with contextual factors, such as: Traffic volume, Speed limits, Intersection control, Streetlights, Land use data, and Key trip generators (i.e. schools, parks, bus stops).

Fehr & Peers will develop a systemic analysis matrix to identify crash types that account for the most frequent and most severe crash types. An example of a crash type is broadside collisions occurring at major signalized intersections without a protected left-turn phase. This analysis will look at the top 5 crash types, associated locations, and common risk factors across the locations for all collisions and for collisions that resulted in a severe injury or fatality. A separate analysis will be done for collisions involving someone walking or biking, resulting in a list of up to 10 crash types. This crash type analysis will incorporate roadway and contextual factors. Each collision type will be mapped.

The collision and contextual data will be available for exploration via the online safety dashboard, a tool that was developed for this proposal and will be carried forward into the project. The interactive data dashboard can be explored at

<https://tabsoft.co/3ADq8H6>

 **EFFICIENCY OPPORTUNITY**

HEAD START ON REVIEW OF CITY GUIDELINES

As part of the Citywide Pedestrian Safety Study, the Fehr & Peers team, which included Emily Finkel and Matt Benjamin, identified key strengths, enhancement areas, and opportunity areas for the existing pedestrian policies, programs, and practices in Moreno Valley. Task 1 can build on the work completed as part of that plan. A few of the findings are listed below:

Key Strengths:

- GIS Database
- Public Input on Traffic Safety
- Safe Routes to School programs

Enhancement Areas:

- Coordination with Health Agencies
- Crosswalk Policy
- Speed Setting Policies

Opportunity Areas:

- Pursue Educational Campaigns
- Focus on Equity
- Restart Collision Monitoring Program

 **EFFICIENCY OPPORTUNITY**

COLLISION AND CONTEXTUAL DATABASE FRAMEWORK

As part of the Citywide Pedestrian Safety Study, Fehr & Peers developed a collision and contextual database framework that cross-references trends within the collision dataset with contextual factors, such as posted speed or number of lanes, to identify key patterns contributing to an outside number or severity of collisions. We will use this framework to update the collision data to include the latest years available and all modes of collisions, while coordinating with the City to update any contextual data that may have changed over the past three years.

Contextual Factors	Distance
Street lights	100 ft
Sidewalk	100 ft
Schools	1,000 ft
Disadvantaged Communities ¹	Inside or within 100 ft of boundary
Transit Stops	500 ft
Signalized Intersection	Minor Roadway Intersection ² : 50 ft Major Roadway Intersection: 175 ft
Unsignalized Intersection	Minor Roadway Intersection: 50 ft Major Roadway Intersection: 175 ft
Uncontrolled Crossings	100 ft
Roadway Speed	100 ft
Roadway Type	100 ft

¹ Disadvantaged Communities defined by SB 536 and CalEnviroScreen 3.0
² Designations for Major and Minor roadways defined by City staff

CONTEXTUAL DATA, MORENO VALLEY CITYWIDE PEDESTRIAN SAFETY STUDY

Attachment: Agreement for Professional Consultant Design Services with Fehr & Peers (5568 : AUTHORIZATION TO AWARD AN AGREEMENT

MANAGEMENT APPROACH & QUALITY CONTROL MEASURES

This project management team is well-equipped to oversee all technical, administrative, and communication-related project needs, ensuring smooth day-to-day management of the project schedule, successful execution of project team meetings, and timely and professional completion of the scope of services within budget. Quality control and quality assurance are provided through structured internal review processes, including review by the project management team and when appropriate, review by staff external to the core project team.

Our management system provides a streamlined mechanism to monitor costs. As work is performed, the VantagePoint system utilizes payroll and expense data to generate reports comparing budgeted versus actual expenditures on a weekly, month-to-date, and project-to-date basis. Detailed invoices and progress reports will be prepared and submitted each month.

Throughout the project, Paul will be responsible for implementing Fehr & Peers' Quality Control (QC) process, which is a hierarchy of staff that are responsible for various aspects of a project. The following hierarchy will be employed in the development of the Moreno Valley LRSP:

- The **Principal-in-Charge, Matt Benjamin**, provides oversight, review, and strategic direction
- The **Project Manager, Paul Herrmann**, is responsible for overall quality and adherence to schedule and budget
- The **Senior Engineer, Claude Strayer**, will oversee all aspects of project development, including QA/QC and adherence to design standards
- The **Project Engineer, Diwu Zhou, and Planner, Sean Reseigh**, conduct the technical calculations, prepare reports, and support the Project Manager
- The **Technical Expert, Emily Finkel**, will serve as advisor on best practices and help develop innovative solutions

EFFICIENCY OPPORTUNITY

HEAD START ON COUNTERMEASURE TOOLBOX

As part of the Citywide Pedestrian Safety Study, Fehr & Peers developed a pedestrian-focused countermeasure toolbox. We propose using the LRSP to build on that toolbox, expanding to include countermeasure suitable for all modes. We will also update the original pedestrian countermeasure information with new research and updated strategies in the latest version of the LRSM.

TASK 3 SOLUTIONS & COUNTERMEASURES

Fehr & Peers will provide recommendations for proven and cost-effective countermeasures to best address areas needing improvement within the City consistent with criteria established in Task 1 and findings in Task 2. Fehr & Peers will propose a programmatic approach for implementing solutions and mitigation measures to enhance roadway safety consistent with Federal and State recommendations and guidelines. The recommendations will be prioritized per the criteria established in Task 1.

SAFETY MITIGATION TOOLBOX

Fehr & Peers will work with City staff to take the findings from Task 2 to identify opportunity areas to build a safety mitigation toolbox that includes proven, cost-effective countermeasures that will best address the most prevalent safety challenges in the City. For engineering interventions, we will focus on the countermeasures from the LRSM (as these are the countermeasures applicable for HSIP applications), but will also investigate additional proven countermeasures from sources like the FHWA PedSAFE toolbox and the CMF Clearinghouse to supplement the countermeasures currently available in the LRSM, to assist the City of Moreno Valley in successful grant pursuits outside of HSIP and help the City prepare for future updates to the LRSM.

In addition to engineering interventions, Fehr & Peers will identify program and policy countermeasures that cover the "Safety Es" identified in the LRSP guidelines: engagement, education, and emergency services. We will provide detailed recommendations for non-engineering countermeasures with a focus on the most effective strategies for speed and DUI collisions, developed with meaningful input from the Moreno Valley Police Department.

The safety mitigation toolbox will include a description of each countermeasure, an associated crash reduction factor, and other key information. The toolbox will show how the countermeasures address safety patterns (i.e. collision types) specifically identified in Moreno Valley through the Task 2 collision analysis.

FOCUS ON EMERGING TECHNOLOGY

To bring this plan into alignment with the recently completed California Strategic Highway Safety Plan, we will also identify countermeasures related to emerging technologies. Fehr & Peers has a breadth of recent experience in Intelligent Transportation Systems (ITS) and Automated Vehicle (AV) readiness that will provide a strong foundation for this work. The toolbox will include strategies that leverage the City's investment in ITS and its signal system, and help set Moreno Valley up for success in a CV and AV world.

**TASK 4
RECOMMENDED TOP FIVE IMPROVEMENTS**

Fehr & Peers will identify up to 15 safety projects to address priority locations that are collision hotspots or a citywide collision type, using the prioritization criteria developed in Task 1 and with a focus on projects that will be most competitive in HSIP Cycle 11, adjusting for increasingly competitive B/C requirements. A **field visit** will be conducted to observe traffic operations at selected collision hotspots, which will further inform the feasibility of countermeasures at specific locations.

For each of the 5 hotspot countermeasure recommendation locations, we will provide:

- Documented countermeasure efficacy
- Planning-level cost estimates
- Applicability for regular maintenance cycles
- Countermeasure benefit calculation summaries
- **Conceptual designs** for use in grant applications

For each of the 10 systemic countermeasure recommendations, we will provide:

- Documented countermeasure efficacy
- Planning-level cost estimates
- Applicability for regular maintenance cycles
- Countermeasure benefit calculation summaries
- Map of recommendation locations, with contextual graphic mark-ups

HSIP CYCLE 11 APPLICATIONS

In addition to providing grant-ready materials in the final LRSP report, we will prepare 5 HSIP Cycle 11 grant support once application materials are released in the spring of 2022. The remainder of the proposed 15 projects will be developed with future HSIP cycles in mind, setting the City up for future success. We will prioritize development of the top 5 projects in order to meet HSIP deadlines.

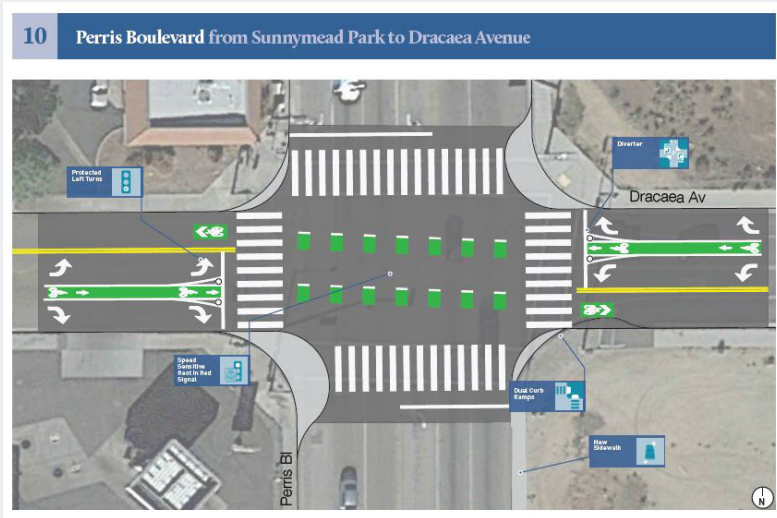

**TASK 5
PREPARE A FINAL LRSPMV DOCUMENT**

Fehr & Peers will prepare written content for the prior tasks in a manner that aligns with LRSP guidelines so that each task can be seamlessly incorporated into the final report. Fehr & Peers will prepare a draft submittal to document the findings of previous tasks. Fehr & Peers will respond to one round of consolidated comments from City staff to produce the Final LRSP. The Final LRSP will present the findings from the work completed in Tasks 1 through 4, and will include HSIP application supporting documentation materials. Fehr & Peers will meet all State guidelines in the final reports and will make a formal presentation to the City's Traffic Safety Commission.

SAFE SYSTEM APPROACH

We will make recommendations following the practices adopted by the Safe System approach, and applying the definition of Safe System adopted by the Institute of Transportation Engineers (ITE) and the Road to Zero Coalition's Safe Systems Framework. The Safe System approach has been embraced internationally by traffic engineering and planning professionals, and has recently been adopted by the Federal Highway Administration (FHWA). It is also a core aspect of the 2020-2024 California Strategic Highway Safety Plan "Pivot" adopted by Caltrans. The Safe System approach is a multidisciplinary strategy in support of the Vision Zero goal: eliminating deaths and serious injuries on the road system. As defined by FHWA, the Safe System approach addresses five elements, with accountability across all five:

- Safe road users
- Safe vehicles
- Safe speeds
- Safe roads
- Post-crash care

CONCEPTUAL PLAN, MORENO VALLEY CITYWIDE PEDESTRIAN SAFETY STUDY

**GRANT OPPORTUNITIES
BEYOND HSIP**

Fehr & Peers has successfully helped agencies and their stakeholders win more than 50 grants totaling hundreds of millions in awards. With our in-depth knowledge and experience in areas such as forecasting, multimodal operations, goods movement, and benefit-cost analysis, we are uniquely qualified to assist in navigating numerous types of funding programs. Our team has the expertise to prepare a final LRSP that can set Moreno Valley up for success across many different grant funding sources beyond HSIP. For example, in 2020 we supported client projects in 18 different successful California SB 1 grant awards, helping our clients secure nearly half of the total funding available through the Local Partnership Program, Trade Corridor Enhancement Program and Solutions for Congested Corridors Program.

List of Deliverables

TASK 0 DELIVERABLES

- Kick-off meeting agenda, materials and notes
- Monthly progress check-in meeting agenda and notes
- Stakeholder meetings meeting agenda, materials and notes
- Monthly project invoices and progress reports

- Hot spot list and maps
- Crash profile list and maps

TASK 3 DELIVERABLES

- Safety Mitigation Toolbox

TASK 4 DELIVERABLES

- 15 project cutsheets
- 5 detailed conceptual designs
- 5 HSIP grant applications

TASK 1 DELIVERABLES

- Draft list of prioritization criteria

TASK 5 DELIVERABLES

- Draft, and Final Local Roadway Safety Plan
- Traffic Safety Commission Presentation

TASK 2 DELIVERABLES

- GIS database with contextual factors, with online data dashboard
- Collision trend summary maps and graphics

Attachment: Agreement for Professional Consultant Design Services with Fehr & Peers (5568 : AUTHORIZATION TO AWARD AN AGREEMENT

Schedule

2021 2022

TASK	NOV	DEC	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT
Task 0: Project Management												
Task 1: Review City, State, and Federal Guidelines												
Task 2: Collisions History Assessment												
Task 3: Solutions and Countermeasures												
Task 4: Recommended Top 5 Improvements												
Task 5: Prepare a Final LRSPMV Document												

Note: Task 4 timeline contingent on HSIP application materials release

Resource Allocation Matrix

Hours

TASK	PRINCIPAL	SR ASSOC.	ASSOCIATE	SR. ENG	PLANNER	ADMIN
Task 0: Project Management	12	0	60	0	12	32
Task 1: Review City, State, and Federal Guidelines	4	12	20	12	0	4

Total	72	124	304	180	136	52

If one or more of our staff should become unavailable, we agree to substitute other staff of at least equal competence only after prior written approval by the City.

3

Qualifications

3 Qualifications

Fehr & Peers is able to meet the City's insurance requirements.

At Fehr & Peers, we are passionate about transforming transportation consulting through innovation and creativity. We differentiate ourselves by investing in research and development to anticipate needs, explore the unknown, and collaboratively imagine a better future. Our culture of applied innovation generates an appetite for new and better ways of approaching problems, motivates us to explore emerging transportation concepts and mobility trends, and inspires us to develop new analytical tools and techniques.

As we grow, our commitment to inclusive, local, and long-term community relationships remains central to our philosophy. Many of our client relationships are decades long, built on years of listening, understanding, collaboration, and successful outcomes. Our clients have appreciated our long-term commitments to the communities we serve, trusting us as their objective partners in transportation since 1985.

Fehr & Peers has a deep bench of safety experts around the country, who come together monthly through the Safety Discipline Group and LRSP Working Group to collaboratively problem-solve on complex safety issues for our clients. These experts will be available to the client whenever needed to provide additional insight, advice, and technical know-how. Our safety team has expertise ranging from safety culture shift management, to in-depth engineering design experience, to data visualization and mapping.

350 EMPLOYEES

16 of our staff hold Road Safety Professional (RSP) Certifications, and several have leadership positions on national safety committees, including:

- Chair and Secretary, ITE Safety Council
- Chair, ITE Complete Streets Council
- Chair, ITE Pedestrian and Bicycle Committee
- Executive Committee, ITE Vision Zero Task Force

YEARS IN BUSINESS

35

OFFICES

18

Our internally-funded Safety Discipline Group, led by Emily Finkel, allows staff from across the country to share LRSP and other safety best practices, and collaboratively problem-solve any challenging issues arising on projects.

COMPANYWIDE SAFETY EXPERTS

33

LOCAL EXPERIENCE

In addition to extensive safety experience, our firm brings more than 10 years of experience in **Moreno Valley**, including the Moreno Valley Community College Master Plan, the World Logistics Center EIR Peer Review, Nason Corridor work, the Impact Fee Feasibility Study, the General Plan Update, and the Citywide Pedestrian Safety Study (SSAR). In 2009, we conducted the City's first Pedestrian Safety Assessment.

LOCAL ROAD SAFETY PLANS & HSIP ♦

Fehr & Peers has experience leading Local Road Safety Plans for 17 jurisdictions in California. We have used our recent LRSP experience in Washington State, including for the City of Tacoma whose LRSP has been lauded as a national example by FHWA, to provide a smooth transition to the new program for our California clients. We completed the first California LRSP under the new grant program for King City. We also previously led 9 Systemic Safety Analysis Report projects, including for Moreno Valley - the precursor program to the LRSP. Through the development of SSARs and LRSPs and direct support in preparing applications, Fehr & Peers helped guide several clients to secure millions in HSIP grant awards in the last two cycles. Our LRSP for the City of Tacoma alone resulted in the City securing nearly \$1 million for priority projects through HSIP.

Safety Projects in California

- Corridor/Feasibility Studies
- Mobility Plans
- Transportation Demand Management

ABOUT

Matt Benjamin has, for more than 15 years, approached transportation planning from a variety of perspectives, both as a user of all modes, and through his work in the public, non-profit and private sectors. Matt has consistently been at the leading edge of his field, offering forward thinking solutions to that are ahead of their time, but on the cusp of mainstream adoption. Matt currently leads the active transportation planning practice for Fehr & Peers in Southern California, and has the expertise to lead policy, planning and design projects. He is a certified Road Safety Professional, and regularly serves as an instructor on complete streets topics. Matt is a Spanish speaker.

SAFETY EXPERIENCE

Irvine Local Road Safety Plan

Fehr & Peers is developing a Local Road Safety Plan for the City of Irvine. Matt is serving as Principal-in-Charge.

Westminster Local Road Safety Plan

Fehr & Peers is developing a Local Road Safety Plan for the City of Westminster. Matt is serving as a Technical Advisor.

Citywide Pedestrian Safety Study (Moreno Valley, CA)

Fehr & Peers recently completed this pedestrian-focused systemic safety analysis (SSAR), including a focus on uncontrolled marked crosswalks and pedestrian access to bus stops, and develop a prioritized list of safety projects that position the City for success in funding and implementation. Matt served as Principal-in-Charge for this project.

Systemic Safety Analysis Report (Montclair, CA)

Fehr & Peers recently completed this multi-modal citywide systemic safety analysis (SSAR) and developed a prioritized list of roadway safety projects. Matt served as a technical advisor on this effort and was involved in the development of infrastructure and non-infrastructure recommendations.

OCTA Systemic Safety Analysis Report

Fehr & Peers led this study which reviewed all bicycle and pedestrian collisions in the County, developed 15 collision typologies representing common crash types, provided appropriate countermeasures, and estimated benefit cost ratios for future HSIP grant applications. Matt served as Principal-in-Charge.

- CEQA & NEPA Transportation Studies
- General Plans, Campus Master Plans and Project Specific Plans
- Caltrans Infrastructure PSR/PDS and PA/ED Projects

ABOUT

Paul Herrmann has over ten years of experience at Fehr & Peers working on transportation engineering projects in the Inland Empire and City of Moreno Valley. He is a seasoned project manager, having served as PM or Associate-In-Charge on 140 projects at Fehr & Peers. Paul just finished managing the Fehr & Peers team contributing to Moreno Valley's General Plan Circulation Element Update and EIR. Paul also leads the Fehr & Peers internal working group that focuses on the updates to the Caltrans Local Development Review Safety Guidelines. Prior to Fehr & Peers, Paul worked at the City of Corona in the Traffic Engineering Department.

EXPERIENCE

Moreno Valley General Plan Update & EIR

Fehr & Peers was part of a team working on the update to the City of Moreno Valley General Plan. Mr. Herrmann was the Project Manager. Fehr & Peers is contributed to the Circulation Element EIR. The comprehensive analysis of the existing transportation system serving Moreno Valley included the roadway system, commuter rail service, bus service, pedestrian facilities, bicycle facilities and collision statistics. The RIVTAM model was utilized to develop future forecasts consistent with the SCAG 2016 RTP. Fehr & Peers conducted a VMT impact assessment related to the build out of the land use element and circulation element roadway network consistent with SB 743. Fehr & Peers also prepared an emergency evacuation assessment consistent with AB747 and SB99. Through a citywide visioning exercise, transportation policies to improve multimodal access and safety in the city were added to the Community Mobility Element as part of the update.

San Bernardino Countywide Points of Interest Pedestrian Plan (PIPP)

Fehr & Peers led a team preparing the Countywide Points of Interest Pedestrian Plan (PIPP) for SANBAG. The project aims to assist member agencies with the development of tools and guidelines for identifying, prioritizing, and implementing pedestrian improvements, including GIS identification of pedestrian activity centers in San Bernardino County. The project yielded a data-driven yet transparent process and results that can be updated over time as projects are completed and land use changes drive new priorities.

SBCTA Pedestrian Sidewalk Inventory Plan Phase I & II

Fehr & Peers is currently leading Phase II of the Comprehensive Pedestrian Sidewalk Inventory Plan for SBCTA, serving as strategic advisers on the work program, data collection approach, quality control review, and data integration into the SBCTA web portal. We also performed pedestrian network analysis for each member agency that evaluated sidewalk coverage metrics around key community uses and transit stops.

Moreno Valley Community College Master Plan Update

Fehr & Peers assisted in the update to the master plan for Moreno Valley College. Mr. Herrmann was the Project Manager. The college plans to double enrollment on campus as part of a ten-year plan. Fehr & Peers provided input on future parking needs, local infrastructure improvement needs and internal and external circulation recommendations. Fehr & Peers also provided recommendations on transit access, bicycle access and pedestrian access on and off campus.

- Traffic Operations
- Campus Planning

ABOUT

Emily Finkel is an Associate and transportation planner with Fehr & Peers and leads the firm's Long Beach office. She is the companywide lead for the firm's Safety Discipline Group and has managed a dozen recent safety planning projects throughout California, including Vision Zero, LRSPs and SSARs. Emily was the lead author for the recent FHWA report *Integrating the Safe System Approach with the Highway Safety Improvement Program*. Emily supported her two most recent systemic safety plan clients in successfully securing over \$1 million for safety improvements through Caltrans HSIP Cycle 10.

Emily was the project manager for the City of Moreno Valley's Systemic Safety Analysis Report focused on citywide pedestrian safety. She partnered with City staff to perform a citywide systemic pedestrian safety analysis, including a focus on uncontrolled marked crosswalks and pedestrian access to bus stops.

SAFETY EXPERIENCE

Emily has served as project manager on the following safety plans:

- San Jacinto Local Road Safety Plan
- Oxnard Local Road Safety Plan
- Westminster Local Road Safety Plan
- Moreno Valley Systemic Safety Analysis Report
- Montclair Systemic Safety Analysis Report
- Lancaster Systemic Safety Analysis Report
- OCTA Systemic Safety Analysis Report
- Complete Streets Safety Assessments (San Jacinto, Oxnard, San Pablo, San Leandro, Baldwin Park, Montclair)
- Los Angeles Vision Zero Corridor Assessments

Emily has supported additional safety work in the following roles:

- HSIP Applications for Montclair and San Jacinto - Technical Advisor
- Irvine Local Road Safety Plan - Associate-In-Charge
- Vista Local Road Safety Plan - Technical Advisor
- Tuolumne County Local Road Safety Plan - Technical Advisor
- Richmond Local Road Safety Plan - Technical Advisor
- Culver City Vision Zero - Technical Advisor
- Sacramento Vision Zero Action Plan - Lead Analyst and Report Author
- Sacramento Vision Zero Top 5 Corridors Plan - Lead Analyst and Report Author
- Los Angeles Vision Zero - Community Outreach Lead
- FHWA Safe System Implementation - Report Author

Claude Strayer, PE, RSP

Senior Engineer

EDUCATION

Bachelor of Science, Civil Engineering,
Northeastern University, MA

REGISTRATIONS

Civil Engineer, CA #86774
Road Safety Professional Level 1 (2021)

AFFILIATIONS

Institute of Transportation Engineers
(ITE), Member

Chair, ITE Pedestrian & Bicycle Standing
Committee

EXPERTISE

- Bicycle and Pedestrian Planning
- Traffic Engineering Design (PS&E)
- Complete Street Design
- Design Support During Construction

ABOUT

Claude has a range of transportation experience with the design of traffic signals, bicycle facilities, signing and striping plans, safe routes to school improvements, pedestrian facilities, wayfinding and the public involvement process. He has led teams of designers on a variety of other transportation engineering projects such as temporary traffic control, roadway and sidewalk design, and lighting. He also has experience performing traffic analysis as well as studies with respect to parking, circulation and school zone safety. Claude is a certified Road Safety Professional and the Chair of the National ITE Pedestrian & Bicycle Standing Committee.

SAFETY EXPERIENCE

San Jacinto Local Road Safety Plan

Claude is the lead engineer for the City of San Jacinto Local Road Safety Plan, overseeing countermeasure development.

Montclair Systemic Safety Analysis Report

Claude is the senior engineer for the City of Montclair Systemic Safety Analysis Report, overseeing conceptual design and cost estimate tasks.

Moreno Valley Systemic Safety Analysis Report

Claude was the senior engineer for the City of Moreno Valley Systemic Safety Analysis Report, overseeing conceptual design and cost estimates.

North Park Mid-City Bikeway Signalization Design (San Diego)

Fehr & Peers completed the planning, specifications and estimates (PS&E) for 11 traffic signal modifications along three bikeways in the North Park-Mid City area of San Diego. Claude was a design engineer.

Willoughby Greenways Design (West Hollywood)

Willoughby Ave and Gardner St/Vista St were identified in the West Hollywood Pedestrian and Bicycle Master Plan as priority corridors for neighborhood greenway facilities. Fehr & Peers was hired to study, plan, and design these corridors. Claude was the lead engineer supporting a pilot test installation and developed concept designs for the full corridors.

Garden Grove Blvd Class IV Bikeway (Westminster)

Claude led the design for traffic signal modifications and street lighting associated with the new bikeway. The new class IV bikeway includes new bicycle traffic signals, bicycle detection, new ATC controllers, video detection, push buttons and other traffic signal upgrades intended to improve traffic flow and safety for all users throughout the corridor.

Sean Reseigh

Project Planner & Data Analyst

ABOUT

Sean is a transportation planner in the Long Beach office who specializes in geospatial analysis, data science, and data visualization. Prior to joining Fehr & Peers, Sean worked at KOA Corporation as a GIS Specialist working on systemic and local roadway safety projects, active transportation and safe routes to school projects, first-last mile studies, and local and regional field inventory pursuits.

SAFETY EXPERIENCE

Sean is the Project Planner and Data Analyst for the following Safety Projects:

Montclair Local Road Safety Plan (Montclair, CA)
Westminster Local Road Safety Plan (Westminster, CA)
Irvine Local Road Safety Plan (Irvine, CA)

Additional Safety Projects with Prior Firm:

Fontana Systemic Safety Analysis Report
Diamond Bar Local Road Safety Plan
Irvine Strategic Active Transportation Plan
Montclair Safe Routes to School Plan

Diwu Zhou, PE, RSP

Project Engineer

ABOUT

Diwu is a transportation engineer who specializes in safety planning, big data, and traffic operations analysis. Diwu is committed to being at the forefront of safety best practices and innovations and serves as a key member of the firm's Multimodal Safety and Transportation Equity Technical Initiatives. Diwu is the secretary for the ITE Safety Council.

SAFETY EXPERIENCE

Safe Routes to School (Alameda County, CA)

Fehr & Peers worked with Alameda County to plan active transportation routes for 35 schools. Diwu served as Deputy Project Manager.

Railroad Avenue Completes Streets Study (Pittsburg, CA)

Fehr & Peers evaluated a newly opened BART station to identify potential multimodal safety and access improvements.

SR-55 Safety Assessment (Orange County, CA)

Fehr & Peers worked with Orange County Transportation Authority to evaluate the safety implications of modifying a proposed freeway mainline auxiliary lane. Crash reduction factors were estimated for four alternatives using the Highway Safety Manual, NCHRP's Crash Modification Factors Clearinghouse, and FHWA's Interchange Safety Analysis Tool. Diwu served as the lead engineer on the project.

SAN JACINTO LOCAL ROAD SAFETY PLAN

2020

Fehr & Peers developed San Jacinto's Local Road Safety Plan, which identifies priority safety improvement projects based on high-risk roadway features that are correlated with particular severe collision types. This systemic safety approach goes beyond spot treatments where previous collisions have occurred by identifying locations that will potentially have severe collisions in the future. This project builds on our experience in San Jacinto, conducting a Complete Streets Safety Assessment for the City in 2019, in partnership with UC Berkeley SafeTREC. Development of the LRSP will incorporate input from a multi-disciplinary stakeholder group organized by Fehr & Peers, including San Jacinto Unified School District, the Soboba Band of Luiseno Indians, and the San Jacinto Sheriff Department. Strategies will include roadway design projects, education programs, and enforcement efforts, based on safety efficacy research and equity best practices. Fehr & Peers provided support early on in the project for San Jacinto's HSIP grant application, fast-tracking project development, cost estimation, and benefit/cost calculations for the City's priority project. San Jacinto was awarded over \$400,000 for pedestrian crossing improvements.

**MONTCLAIR SYSTEMIC SAFETY ANALYSIS REPORT
2019-2020**

Fehr & Peers worked with the City of Montclair to perform a citywide systemic safety analysis and develop a prioritized list of roadway safety projects that position the City for success in funding and implementation. The detailed collision analysis methodology developed for this project categorized common crash types at high-crash locations and identified appropriate engineering countermeasures that could be applied systemically and proactively to similar locations citywide. Fehr & Peers created a GIS inventory of the City's crosswalks and used this data to better understand collision patterns at these locations. Fehr & Peers also studied locations throughout the City for traffic signal and RRFB suitability. Fehr & Peers provided support on Montclair's HSIP application, and the City was awarded \$770,000 for their project.

PROJECT CONCEPT GRAPHICS & RECOMMENDATIONS

82 | Chapter 5 Project Recommendations
10 Kingsley Street, between Amherst and Helena

DESCRIPTION

This segment of Kingsley Street serves Lehigh Elementary School and the adjacent park, but has seen a high number of collisions, including three bicycle collisions. Recommendations proposed at Amherst Avenue are shown on the facing page, and focus on projects to help provide safe pedestrian crossings to the park while using elements such as back-in angled parking, a striped parking lane to define an edgeline, curb extensions that mirror the parking lane, and the raised crosswalk to help discourage vehicle speeding. A speed feedback sign is proposed to further focus on vehicle speeds and help provide comfortable shared space for bicyclists. An additional marked crosswalk at Helena, enhanced with yield markings and signs, provides an additional crossing opportunity where crosswalks are currently spaced far apart. If funding is secured for the San Antonio Creek trail at this location, the enhanced crossing could be relocated as part of the future trail development.

ORANGE COUNTY TRANSPORTATION AUTHORITY SYSTEMIC SAFETY ANALYSIS REPORT
2017-2019

The Orange County Transportation Authority (OCTA) hired Fehr & Peers to develop a Systemic Safety Analysis Report covering all of Orange County. The detailed collision analysis methodology developed for this project categorizes crash types by the roadway and land use characteristics of the immediate crash location and identifies appropriate engineering countermeasures that can be applied systemically and proactively to similar locations countywide, even if severe or fatal collisions have yet to occur at many of these locations. Education, enforcement and other non-infrastructure countermeasures were also developed. The final plan for this project is a unique resource for local jurisdictions throughout the County to develop successful grant applications for funding safety projects. Fehr & Peers worked closely with city staff – our primary audience – to develop tools that will be most useful for their work, including a comprehensive countermeasure toolbox, a reference guide to demystify the state grant funding application process, and grant-ready cut-sheets for projects with user-friendly cost estimates, project descriptions, and graphics files.

INSTRUCTIONS FOR COMPLETING THIS FORM

DESCRIPTION OF THE ATTACHED DOCUMENT
Non - Collusion
(Title or description of attached document)
Affidavit
(Title or description of attached document continued)
Number of Pages Two including this page Document Date 9/21/21

This form complies with current California statutes regarding notary wording and, if needed, should be completed and attached to the document. Acknowledgments from other states may be completed for documents being sent to that state so long as the wording does not require the California notary to violate California notary law.

- State and County information must be the State and County where the document signer(s) personally appeared before the notary public for acknowledgment.
- Date of notarization must be the date that the signer(s) personally appeared which must also be the same date the acknowledgment is completed.
- The notary public must print his or her name as it appears within his or her commission followed by a comma and then your title (notary public).
- Print the name(s) of document signer(s) who personally appear at the time of notarization.
- Indicate the correct singular or plural forms by crossing off incorrect forms (i.e. he/she/~~they~~ is /are) or circling the correct forms. Failure to correctly indicate this information may lead to rejection of document recording.
- The notary seal impression must be clear and photographically reproducible. Impression must not cover text or lines. If seal impression smudges, re-seal if a sufficient area permits, otherwise complete a different acknowledgment form.
- Signature of the notary public must match the signature on file with the office of the county clerk.
 - ❖ Additional information is not required but could help to ensure this acknowledgment is not misused or attached to a different document.
 - ❖ Indicate title or type of attached document, number of pages and date.
 - ❖ Indicate the capacity claimed by the signer. If the claimed capacity is a corporate officer, indicate the title (i.e. CEO, CFO, Secretary).
- Securely attach this document to the signed document with a staple.

Certification for Contracts, Grants, Loans, and Cooperative Agreements
(Federal Fiscal Year 2021 to 2022)

I, Matt Benjamin Principal, hereby certify on behalf
(Name and title of Grantee official)

of The City of Moreno Valley, that
(Name of Grantee)

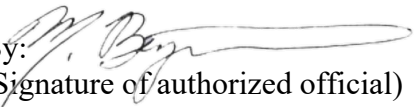

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, and contracts and subcontracts under grants, subgrants, loans, and cooperative agreements) which exceed \$100,000, and that all such subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Executed this 20 of September, 2021.

INSTRUCTIONS FOR COMPLETING EXHIBIT 10-Q DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime federal recipient at the initiation or receipt of covered federal action or a material change to previous filing pursuant to title 31 U.S.C. Section 1352. The filing of a form is required for such payment or agreement to make payment to lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress an officer or employee of Congress or an employee of a Member of Congress in connection with a covered federal action. Attach a continuation sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered federal action for which lobbying activity is or has been secured to influence, the outcome of a covered federal action.
2. Identify the status of the covered federal action.
3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last, previously submitted report by this reporting entity for this covered federal action.
4. Enter the full name, address, city, state, and zip code of the reporting entity. Include Congressional District if known. Check the appropriate classification of the reporting entity that designates if it is or expects to be a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the first tier. Subawards include but are not limited to: subcontracts, subgrants, and contract awards under grants.
5. If the organization filing the report in Item 4 checks "Subawardee" then enter the full name, address, city, state, and zip code of the prime federal recipient. Include Congressional District, if known.
6. Enter the name of the federal agency making the award or loan commitment. Include at least one organization level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the federal program name or description for the covered federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans and loan commitments.
8. Enter the most appropriate federal identifying number available for the federal action identification in item 1 (e.g., Request for Proposal (RFP) number, Invitation for Bid (IFB) number, grant announcement number, the contract grant. or loan award number, the application/proposal control number assigned by the federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered federal action where there has been an award or loan commitment by the Federal agency, enter the federal amount of the award/loan commitments for the prime entity identified in item 4 or 5.
10. Enter the full name, address, city, state, and zip code of the lobbying entity engaged by the reporting entity identified in Item 4 to influence the covered federal action.
11. Enter the full names of the individual(s) performing services and include full address if different from 10 (a). Enter Last Name, First Name and Middle Initial (MI).
12. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (Item 4) to the lobbying entity (Item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
13. Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
14. Check all boxes that apply. If other, specify nature.
15. Provide a specific and detailed description of the services that the lobbyist has performed or will be expected to perform and the date(s) of any services rendered. Include all preparatory and related activity not just time spent in actual contact with federal officials. Identify the federal officer(s) or employee(s) contacted or the officer(s) employee(s) or Member(s) of Congress that were contacted.
16. Check whether or not a continuation sheet(s) is attached.
17. The certifying official shall sign and date the form, and print his/her name title and telephone number.

Public reporting burden for this collection of information is estimated to average 30-minutes per response, including time for reviewing instruction, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503. SF-LLL-Instructions Rev. 06-04

5

Statements

Fehr & Peers agrees to the following statements, as listed in the RFP:

A statement that this RFP shall be incorporated in its entirety as a part of the Consultant's Proposal.

A statement that this RFP and the Consultant's Proposal will jointly become part of the Agreement for Professional Consultant Services for this project when said Agreement is fully executed by the Consultant and the Mayor or City Manager of Moreno Valley.

A statement that the Consultant's Services to be provided, and fees therefore, will be in accordance with the City's RFP except as otherwise specified in the Consultant's Proposal under the heading "ADDITIONS OR EXCEPTIONS TO THE CITY'S REQUEST FOR PROPOSAL."

A statement that all charges for Consultant (construction) services is a "Not-to-Exceed Fee" which must include conservatively estimated reimbursable expenses, as submitted with and made a part of said Consultant's Proposal.

A statement that the Consultant will document and provide the results of the work to the satisfaction of the City. This may include preparation of field and final reports, or similar evidence of attainment of the Agreement objectives.

A statement that the Consultant will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin.

A statement that all federal laws and regulations shall be adhered to notwithstanding any state or local laws and regulations. In a case of conflict between federal, state or local laws or regulations the strictest shall be adhered to.

A statement that the Consultant shall allow all authorized federal, state, county, and City officials access to place of work, books, documents, papers, fiscal, payroll, materials, and other relevant contract records pertinent to this special project. All relevant records shall be retained for at least three years.

6

Additions or Exceptions to the City's RFP

Proposed Contract Exceptions

We appreciate the opportunity to review the contract and provide requests for changes based on the scope of work anticipated under this contract. If our proposed contract exceptions are not acceptable to the City of Moreno Valley, we are open to discussing them further.

1. Section 14.

Changes Requested:

"To the furthest extent allowed by law (including California Civil Code section 2782.8 if applicable), Consultant shall indemnify, hold harmless and defend the City, ~~the Moreno Valley Community Services District ("CSD"), the Moreno Valley Housing Authority ("Housing Authority")~~ and each of ~~their-its~~ officers, officials, employees, agents and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage), and from any and all claims, demands and actions in law or equity (including reasonable attorney's fees and litigation expenses) ~~that to the extent they~~ arise out of, pertain to, or relate to the negligence, recklessness or willful misconduct of Consultant, its principals, officers, employees, agents or volunteers in the performance of this Agreement. In no event shall the cost to defend charged to Consultant exceed Consultant's proportionate percentage of fault.

If Consultant should subcontract all or any portion of the services to be performed under this Agreement, Consultant shall require each subCONSULTANT to indemnify, hold harmless and defend City, ~~CSD, Housing Authority~~ and each of ~~their its~~ officers, officials, employees, agents and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Agreement."

Reasons for Changes: First, we are not entirely clear of the role CSD and the Housing Authority have in this project. Are they affiliates of the City, or are they intended beneficiaries of the services Consultant is providing under this Agreement? However, agreeing to defend and indemnify these types of independent parties means (1) we may be indemnifying parties for whom we would not have liability in the absence of this contractual commitment, thereby creating an uninsured exposure under our professional liability insurance; and (2) the addition of these parties could be interpreted as creating a contractual relationship, or privity, with these parties that would not exist otherwise. If these types of parties suffer economic damages due to something we did, they can sue us directly to recover those damages. They have available legal remedies to protect them. Second, the changes are to more closely align this indemnity obligation with the requirements and limitations found in Civ. Code section 2782.8.

2. Section 18(a)

Changes Requested: "The Consultant shall deliver to the Public Works Director/City Engineer of the City or his designated representative, fully completed and detailed project-related documents created for the City and prepared by Consultant ("Work Product") which shall become the property of the City. The Consultant may retain, for its files, copies of any and all material, including drawings, documents, and specifications, produced by the Consultant in performance of this Agreement. However, notwithstanding the foregoing, Consultant shall retain all rights, titles, and interests, including but not limited to all ownership and intellectual property rights, in all inventions, improvements, discoveries, methodologies, models, formats, software, algorithms, processes, procedures, designs, specifications, findings, and other intellectual properties developed, gathered, compiled or produced by Consultant prior to or independently of any of its services under this Agreement ("Background IP"), including such Background IP that Consultant may employ in the performance of this Agreement, or may incorporate into any part of the Work Product. Consultant grants the City an irrevocable, non-exclusive, transferable, royalty-free license in perpetuity to use, disclose, and derive from such Background IP, but only as an inseparable part of the Work Product. Third-party content that may be used or incorporated in the Work Product ("Third-Party Content") shall not become the property of the City. Consultant shall secure all licenses necessary to

any Third-Party content incorporated into Consultant's Work Product for the City to utilize Consultant's services and the Work Product for their intended purposes."

Reasons for Changes: First, we may use or integrate some of our own pre-existing intellectual properties into our work product, which we believe will enhance our services and further the goals of our clients' projects. Second, we may use content such as big data or technology provided by third-party data or software providers for which we may receive only a limited-use license and not ownership. It is often necessary for such third-party providers to retain ownership of such data or technology for the uses of other clients or purposes. The use of data and technology from third-party providers can greatly enhance the services and work product provided by Consultant to the City. Unfortunately, third-party providers will not give away ownership of their content, but only a mere license, and, therefore, we cannot pass ownership of any such content incorporated into our work product to the City. In such cases, we will secure a license for the City to use such content in conjunction with the work product.

3. Section 26.

Change Requested: "All Plans, drawings, Specifications, reports, logs, and other documents prepared by the Consultant in its performance under this Agreement shall, upon completion of the project, be delivered to and be the property of the City, with the exception of any Background IP or Third-Party Content incorporated therein, provided that the Consultant shall be entitled, at its own expense, to make copies thereof for its own use."

Reason for Change: Please see our reasoning above.

4. Deductibles and Self-Insured Retentions. Exhibit E

Changes Requested: "Consultant shall be responsible for payment of any deductibles contained in any insurance policy(ies) required hereunder and Consultant shall also be responsible for payment of any self-insured retentions. Any deductibles or self-insured retentions must be declared to, and approved by, the City Manager or his/her designee. At the option of the City Manager or his/her designee, either (i) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects City, CSD, Housing Authority and each of their its officers, officials, employees, agents and volunteers; or (ii) Consultant shall provide a financial guarantee, satisfactory to the City Manager or his/her designee, guaranteeing payment of losses and related investigations, claim administration and defense expenses. At no time shall City be responsible for the payment of any deductibles or self-insured retentions."

Reason for Changes: Please see our reasoning for Request for Change No. 1. In addition, we should not be required to name independent third parties as additional insureds to our general and auto liability insurance policies.

5. Other Insurance Provisions. Exhibit E

Changes Requested:

"The General Liability and Automobile Liability insurance policies are to contain, or be endorsed to contain, the following provisions:

1. City, CSD, Housing Authority and each of their its officers, officials, employees, agents and volunteers are to be covered as additional insureds.

2. The coverage shall contain no special limitations on the scope of protection afforded to City, ~~CSD, Housing Authority~~ and each of ~~their~~ its officers, officials, employees, agents and volunteers.
3. Consultant's insurance coverage shall be primary and no contribution shall be required of City. The Workers' Compensation insurance policy is to contain, or be endorsed to contain, the following provision: Consultant and its insurer shall waive any right of subrogation against City, ~~CSD, Housing Authority~~ and each of ~~their~~ its officers, officials, employees, agents and volunteers."

Reason for Changes: Please see our reasoning for Request for Change No. 4.

EXHIBIT "C"CITY - SERVICES TO BE PROVIDED
TO CONSULTANT

1. Furnish the Consultant all in-house data which is pertinent to services to be performed by the Consultant and which is within the custody or control of the City, including, but not limited to, copies of record and off-record maps and other record and off-record property data, right-of-way maps and other right-of-way data, pending or proposed subject property land division and development application data, all newly developed and pertinent design and project specification data, and such other pertinent data which may become available to the City.
2. Provide timely review, processing, and reasonably expeditious approval of all submittals by the Consultant.
3. Provide timely City staff liaison with the Consultant when requested and when reasonably needed.

EXHIBIT "D"

TERMS OF PAYMENT

1. The Consultant's compensation shall not exceed \$153,382.00.
2. The Consultant will obtain, and keep current during the term of this Agreement, the required City of Moreno Valley business license. Proof of a current City of Moreno Valley business license will be required prior to any payments by the City. Any invoice not paid because the proof of a current City of Moreno Valley business license has not been provided will not incur any fees, late charges, or other penalties. Complete instructions for obtaining a City of Moreno Valley business license are located at: <http://www.moval.org/biz-lic>.
3. The Consultant will electronically submit an invoice to the City along with documentation evidencing services completed to date as specified in the Request for Proposal. Progress payments will be made in accordance with the payment schedule outlined in the Request for Proposal, but in no case will progress payments be made to the Consultant more frequently than once per month. The progress payment is based on actual time and materials expended in furnishing authorized professional services during the preceding calendar month. At no time will the City pay for more services than have been satisfactorily completed and the City Engineer's determination of the amount due for any progress payment shall be final. The consultant will submit all original invoices to Accounts Payable staff at TechInfo-CapProj@moval.org. Accounts Payable questions can be directed to (951) 413-3130.
4. The Consultant agrees that City payments will be received via Automated Clearing House (ACH) Direct Deposit and that the required ACH Authorization form will be

completed prior to any payments by the City. Any invoice not paid because the completed ACH Authorization Form has not been provided will not incur any fees, late charges, or other penalties. The ACH Authorization Form is located at:

http://www.moval.org/city_hall/forms.shtml#bf

5. The minimum information required on all invoices is:
 - A. Vendor Name, Mailing Address, and Phone Number
 - B. Invoice Date
 - C. Vendor Invoice Number
 - D. City-provided Reference Number (e.g. Project, Activity)
 - E. Detailed work hours by class title (e.g. Manager, Technician, or Specialist), services performed and rates, explicit portion of a contract amount, or detailed billing information that is sufficient to justify the invoice amount; single, lump amounts without detail are not acceptable.
6. The City shall pay the Consultant for all invoiced, authorized professional services within thirty (30) days of receipt of the invoice for same.

Attachment: Agreement for Professional Consultant Design Services with Fehr & Peers (5568)

EXHIBIT "E"**INSURANCE REQUIREMENTS****Minimum Scope of Insurance**

Coverage shall be at least as broad as:

1. The most current version of Insurance Services Office (ISO) Commercial General Liability Coverage Form CG 00 01, which shall include insurance for "bodily injury," "property damage" and "personal and advertising injury" with coverage for premises and operations, products and completed operations, and contractual liability.
2. The most current version of Insurance Service Office (ISO) Business Auto Coverage Form CA 00 01, which shall include coverage for all owned, hired, and non-owned automobiles or other licensed vehicles (Code 1- Any Auto).
3. Workers' Compensation insurance as required by the California Labor Code and Employer's Liability Insurance.
4. Professional Liability (Errors and Omissions) insurance appropriate to Consultant's profession.

Minimum Limits of Insurance

Consultant shall maintain limits of liability of not less than:

1. General Liability:
 - \$1,000,000 per occurrence for bodily injury and property damage
 - \$1,000,000 per occurrence for personal and advertising injury
 - \$2,000,000 aggregate for products and completed operations
 - \$2,000,000 general aggregate
2. Automobile Liability:
 - \$1,000,000 per accident for bodily injury and property damage
3. Employer's Liability:
 - \$1,000,000 each accident for bodily injury
 - \$1,000,000 disease each employee
 - \$1,000,000 disease policy limit

4. Professional Liability (Errors and Omissions):

\$1,000,000 per claim/occurrence
\$2,000,000 policy aggregate

Umbrella or Excess Insurance

In the event Consultant purchases an Umbrella or Excess insurance policy(ies) to meet the "Minimum Limits of Insurance," this insurance policy(ies) shall "follow form" and afford no less coverage than the primary insurance policy(ies).

Deductibles and Self-Insured Retentions

Consultant shall be responsible for payment of any deductibles contained in any insurance policy(ies) required hereunder and Consultant shall also be responsible for payment of any self-insured retentions. Any deductibles or self-insured retentions must be declared to, and approved by, the City Manager or his/her designee. At the option of the City Manager or his/her designee, either (i) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects The City of Moreno Valley, the City of Moreno Valley Community Services District, the Moreno Valley Housing Authority, and each of their officers, officials, employees, agents and volunteers; or (ii) Consultant shall provide a financial guarantee, satisfactory to the City Manager or his/her designee, guaranteeing payment of losses and related investigations, claim administration and defense expenses. At no time shall City be responsible for the payment of any deductibles or self-insured retentions.

Other Insurance Provisions

The General Liability and Automobile Liability insurance policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Moreno Valley, the City of Moreno Valley Community Services District, the Moreno Valley Housing Authority, and each of their officers, officials, employees, agents and volunteers are to be covered as additional insureds.
2. The coverage shall contain no special limitations on the scope of protection afforded to the City of Moreno Valley, the City of Moreno Valley Community Services District, the Moreno Valley Housing Authority, and each of their officers, officials, employees, agents and volunteers.
3. Consultant's insurance coverage shall be primary and no contribution shall be required of City.

The Workers' Compensation insurance policy is to contain, or be endorsed to contain, the following provision: Consultant and its insurer shall waive any right of subrogation against the City of Moreno Valley, the City of Moreno Valley Community Services District, the Moreno Valley Housing Authority, and each of their officers, officials, employees, agents and volunteers.

If the Professional Liability (Errors and Omissions) insurance policy is written on a claims-made

form:

1. The retroactive date must be shown, and must be before the effective date of the Agreement or the commencement of work by Consultant.
2. Insurance must be maintained and evidence of insurance must be provided for at least 3 years after any expiration or termination of the Agreement or, in the alternative, the policy shall be endorsed to provide not less than a 3-year discovery period.
3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the effective date of the Agreement or the commencement of work by Consultant, Consultant must purchase extended reporting coverage for a minimum of 3 years following the expiration or termination of the Agreement.
4. A copy of the claims reporting requirements must be submitted to City for review.
5. These requirements shall survive expiration or termination of the Agreement.

All policies of insurance required hereunder shall be endorsed to provide that the coverage shall not be cancelled, non-renewed, reduced in coverage or in limits except after 30 calendar day written notice by certified mail, return receipt requested, has been given to City. Upon issuance by the insurer, broker, or agent of a notice of cancellation, non-renewal, or reduction in coverage or in limits, Consultant shall furnish City with a new certificate and applicable endorsements for such policy(ies). In the event any policy is due to expire during the work to be performed for City, Consultant shall provide a new certificate, and applicable endorsements, evidencing renewal of such policy not less than 15 calendar days prior to the expiration date of the expiring policy.

Acceptability of Insurers

All policies of insurance required hereunder shall be placed with an insurance company(ies) admitted by the California Insurance Commissioner to do business in the State of California and rated not less than "A-VII" in Best's Insurance Rating Guide; or authorized by the City Manager or his/her designee.

Verification of Coverage

Consultant shall furnish City with all certificate(s) and **applicable endorsements** effecting coverage required hereunder. All certificates and **applicable endorsements** are to be received and approved by the City Manager or his/her designee prior to City's execution of the Agreement and before work commences.

Report to City Council

TO: Mayor and City Council

FROM: Michael Lloyd, Public Works Director/City Engineer

AGENDA DATE: October 19, 2021

TITLE: AUTHORIZE SUBMISSION OF THE GRANT FUNDING APPLICATION FOR THE CALTRANS SUSTAINABLE TRANSPORTATION PLANNING GRANT - MASTER PLAN OF ELECTRIC VEHICLE CHARGING STATIONS

RECOMMENDED ACTION

Recommendation:

1. Authorize the Public Works Director/City Engineer to submit a Caltrans Sustainable Transportation Planning Grant application for developing a master plan of Electric Vehicle infrastructure

SUMMARY

This report recommends authorizing the Director of Public Works/City Engineer to submit a grant application for funding through the Caltrans Sustainable Transportation Planning Grant Program to develop an Electric Vehicle (EV) Charging Infrastructure Master Plan for Moreno Valley. The Master Plan will provide a comprehensive, systematic approach to building an EV infrastructure network designed to facilitate the movement of electric vehicles within the City and surrounding areas, encourage the growth of electric vehicle ownership, incentivize electrification of public and private sector fleets, and provide affordable access to EV charging stations for all users, including those residing in disadvantaged communities within the City.

DISCUSSION

Electrification infrastructure in the City of Moreno Valley is emerging, with approximately ten charging locations available for public use. Moreno Valley Utility supports stations at three locations – a local Walmart, City Hall, and the City Hall Annex. According to DMV records, about 400 plug-in electric vehicles (PEVs) or plug-in hybrid electric vehicles (PHEVs) are registered within the city limits (California 2018). The number is relatively

low considering the city's estimated population of approximately 215,000 with about 70% of residents above the driving age (U.S. Census Bureau 2018).

The Caltrans Sustainable Transportation Planning Grant Program provides an opportunity for the City to receive State funds to develop an EV Charging Infrastructure Master Plan for Moreno Valley. Key elements of the Master Plan would involve partnering with the Chamber of Commerce, local businesses and other stakeholders such as Moreno Valley Utility (MVU), Southern California Edison (SCE), Riverside Transit Agency (RTA), Riverside County Transportation Commission (RCTC), and Western Riverside Council of Governments (WRCOG), to identify strategic locations for EV charging stations, prioritize the mobility needs of disadvantaged communities within the City, highlight the environmental and economic benefits of driving electric vehicles, and provide a phasing plan for implementation.

The Master Plan will directly support the State's climate goals to reduce greenhouse gas emissions (GHG) to 40% below 1990 levels by 2030 as codified under Assembly Bill 32, also known as the Global Warming Solutions Act of 2006, as well as assist the City with achieving its energy efficiency and climate adaptation targets. For example, the Master Plan would support the following GHG reduction measures identified in the City's Draft Climate Action Plan, dated March 30, 2021:

- TR-7: "Secure funding to install electric vehicle recharging stations or other alternative fuel vehicle support infrastructure in existing public and private parking lots."
- I-3: "Work with electricity providers (e.g. MVU, SCE) to encourage large commercial and industrial facilities to participate in energy efficient upgrade programs including installation of solar PV systems and EV chargers and to establish annual targets."

ALTERNATIVES

1. Approve the recommended action as presented in this staff report. *This alternative will provide the City an opportunity to compete for grant funding to deliver the project.*
2. Do not approve the recommended action as presented in this staff report. *This alternative will prevent the project from moving forward due to lack of funding.*

FISCAL IMPACT

The grant requires a local match of 11.47%, which can be met by recording City staff time spent on project delivery. Therefore, there would be no fiscal impact with the stated recommended action.

Report to City Council

TO: Mayor and City Council

FROM: Brian Mohan, Assistant City Manager

AGENDA DATE: October 19, 2021

TITLE: ACCEPT AND RECEIVE A GRANT AWARD FROM THE CALIFORNIA STATE LIBRARY, CALIFORNIA LIBRARY LITERACY SERVICES PROGRAM

RECOMMENDED ACTION

Recommendations:

1. Accept and receive a grant award from the California State Library in the amount of \$30,000 from the California Library Literacy Services program;
2. Authorize the City Manager to process a budget amendment and appropriation in the amount of \$30,000 in FY21/22 and FY22/23; and
3. Authorize the City Manager to accept, receive, and appropriate California Library Literacy Services program grant funds in subsequent fiscal years, as this is an on-going grant program;
4. Authorize the Library Director to submit yearly reporting and application documents for the California Library Literacy Services program, to secure on-going funding; and
5. Authorize and designate the Library Director to accept California Library Literacy Services program on-going funds.

SUMMARY

This report recommends acceptance of a \$30,000 grant award from the California State Library (CSL) California Library Literacy Services program. This grant supports the Library in offering no cost adult and family literacy services.

DISCUSSION

California Library Literacy Services (CLLS) supports public libraries in offering no cost adult and family literacy services in their communities. Adults are helped to improve basic reading, writing, math and/or speaking skills, and additional programs are offered to support families. This is the first time that Moreno Valley Public Library is receiving these funds.

Read MoVal, Moreno Valley Public Library's adult literacy program, helps adult learners to improve their reading and writing skills in a supportive and confidential learning environment, with the ultimate goals of helping learner reach their life goals such as becoming a citizen or earning a job promotion. The Library relaunched Read MoVal in 2020, after reviewing the program and aligning it with the CLLS mission, values, and program essentials.

Lessons are no cost, one-on-one, and adapted to each individual's needs to help them achieve their personal goals. Tutors receive orientation and continuous training to effectively provide services in-person or via a virtual platform. Through Read MoVal, the Library strives to promote lifelong learning for families by providing take-home kits for all ages, story time activities, STEM activities, reading challenges, and more, to encourage learning and family togetherness.

The CLLS grant award includes \$20,000 in Adult Literacy Services funding and \$10,000 in Family Literacy Services funding for FY 2021/22. As long as the program continues to meet CLLS program essentials and reporting requirements for the first three full fiscal years of CLLS support, the Moreno Valley Public Library will be eligible to receive funding at this level through FY 2023/24. Beginning in FY 2024/25, the allocation will be determined solely by the funding formula, based on the number of adult learners served and the amount of local dollars spent on adult literacy in the previous fiscal year.

Since 2018, the City has successfully partnered with Library Systems & Services (LS&S) to staff and facilitate library operations. Through this grant, LS&S will continue to provide high quality literacy programs to the community.

ALTERNATIVES

1. Approve the recommended actions as presented in this staff report. ***Staff recommends this alternative as it will have a positive impact on the community by increasing adult and family literacy.***
2. Do not approve the recommended actions as presented in this staff report. ***Staff does not recommend this alternative.***

FISCAL IMPACT

Acceptance of the grant award will increase the Library Division's revenue and expenditures for FY 2021/22 and future fiscal years as described in the tables below. There is no match required for this grant during the first three years.

Description	Fund	GL Account No. Project Number	Type (Rev/Exp)	FY 21/22 Budget	Proposed Adjustments	FY 21/22 Amended Budget
Receipt of Grant	Library Services	5010-50-56-73315-486000 PCS LIB-CLLS-01	Rev	\$0	\$30,000	\$30,000
Contract Services	Library Services	5010-50-56-73315-625099 PCS LIB-CLLS-01	Exp	\$0	\$30,000	\$30,000

Description	FY 22/23 (Year 2)	FY 23/24 (Year 3)	FY 24/25 and beyond
Adult Literacy Services Funding	\$20,000	\$20,000	Funding amount and match requirement determined by number of adult learners served and amount of local dollars spent on adult literacy

Maria Sunio
Library Director

CITY COUNCIL GOALS

Positive Environment. Create a positive environment for the development of Moreno Valley's future.

Community Image, Neighborhood Pride and Cleanliness. Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

CITY COUNCIL STRATEGIC PRIORITIES

1. Economic Development
2. Public Safety
3. Library
4. Infrastructure
5. Beautification, Community Engagement, and Quality of Life
6. Youth Programs

Objective 3.2: Expand the library’s technology program to enhance job readiness in our community.

Objective 3.3: Partner with outside organizations to expand the range of workshops and programs provided to the community.

Report to City Council

TO: Mayor and City Council
 Mayor and City Council Acting in its Capacity as
 President and Members of the Board of Directors of the
 Moreno Valley Community Services District (CSD)

FROM: Brian Mohan, Assistant City Manager

AGENDA DATE: October 19, 2021

TITLE: AUTHORIZATION TO AWARD A CONSTRUCTION
 CONTRACT TO MUSCO SPORTS LIGHTING, LLC FOR
 SPORTS LIGHTING AT EL POTRERO PARK, (PROJECT
 NO. 807 0059)

RECOMMENDED ACTION

Recommendations:

1. Award a construction contract to Musco Sports Lighting, LLC for sports lighting at El Potrero Park in substantial conformance with the attached contract, in the amount of \$749,782, funded by Park Improvement funds (Fund 3015);
2. Authorize the issuance of a Purchase Order for Musco Sports Lighting, LLC in the amount of \$824,761 (bid amount plus a 10% contingency) when the contract has been signed by all parties;
3. Authorize the Executive Director to execute any subsequent change orders to the contract, but not exceeding the total contingency of \$74,979, subject to the approval of the City Attorney;
4. Approve Musco Sports Lighting, LLC as the sole source for procurement and installation of the proposed lights and associated equipment;
5. Amend the Fiscal Year 2021/22 & 2022/23 Adopted Capital Improvement Plan to transfer the "Sports Field Lighting Upgrade at Various Park Sites" project from Parks - Unfunded to Parks - Partially Funded; and
6. Authorize a budget adjustment as set forth in the Fiscal Impact section of this report.

SUMMARY

This report recommends approval of a contract and sole source approval with Musco Sports Lighting, LLC, for sports lighting at El Potrero Park.

DISCUSSION

In the City Council approved Capital Improvement Plan Budget for Fiscal Year (FY) 2021/22 & 2022/23, the Sports Field Lighting Upgrades at Various Parks project was approved as an unfunded future project. This project is intended to provide sports field lighting upgrades at various parks throughout the City.

The proposed El Potrero project includes installing light poles and fixtures and two new Control-Link cabinets and system for controlling and programming the lights on two 300' x 200' soccer fields.

Currently, there are nine parks with lighted sports fields; however, five parks accommodate baseball and softball only. Due to the popularity of soccer within the City, along with the number of Moreno Valley-based soccer leagues requesting lighted field space, the need for additional lighted fields is vital to accommodate the leagues and the Moreno Valley youth they serve.

Soccer leagues heavily utilize the unlit fields at El Potrero Park throughout the year, and this project will enhance the park by lighting the two soccer fields. The addition of sports field lighting will extend the availability use up to 5,500 hours per year during peak use hours of 5:00 – 10:00 p.m. This additional lighted field availability will help reduce the overwhelming need for field space for soccer practice and games.

Providing additional lighted field space also aligns with the City of Moreno Valley Parks Master Plan "12 Goals of Success," which aims to offer park amenities that meet the community's desires.

Musco Sports Lighting has standard equipment for sports field lighting throughout the City of Moreno Valley parks. The Control-Link system is Musco's proprietary software application for the control and programming of lights by Musco staff, City staff, and long-term sports user groups for field reservations. For consistency, efficiency, and integration with the existing Musco Sports Lighting system throughout Moreno Valley parks, the Department recommends that the City Council authorize the sole sourcing of Musco Sports Lighting, LLC for this project.

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. **Staff recommends this alternative as it will allow for timely completion of the lighting project at El Potrero Park.**

2. Do not approve and authorize the recommended actions presented in this staff report and provide further direction to staff. **Staff does not recommend this alternative as it will delay the lighting project at El Potrero Park.**

FISCAL IMPACT

This project is funded by Park Improvement DIF funds (Fund 3015). There is no impact to the General Fund.

Category	Fund	GL Account Project Number	Type	FY 21/122 Budget	Proposed Adjustment	FY 21/22 Amended Budget
CIP	DIF – Park Improvements	2905-99-95-92905-903015	EXP	\$2,125,000	\$937,227	\$3,062,227

Budget Estimate

**El Potrero Park Soccer
Moreno Valley, California
Date: September 7, 2021
To: Dean Ristow
City of Moreno Valley- Parks Maintenance Supervisor**

El Potrero Park Soccer – Two Soccer Fields (300' x 200') includes a Turnkey Installation

Musco's Lighting Equipment as described below and delivered to the job site:

➤ Lighting and Installation for Soccer Field #1, and Soccer Field #2:	\$692,000.00
Sales Tax at 7.75% (confirm at time of order):	\$53,630.00
ADDER: Project Bonding (confirm if required):	\$4,152.00

Pricing furnished is effective for 120 days unless otherwise noted and is kindly considered confidential.

Equipment Description- (2) 300' x 200' Soccer Fields

- (9) Pre-cast concrete bases- S1 – S9
- (9) 70' Galvanized steel poles- S1 – S9
- (24) TLC LED 900 Factory-aimed and assembled luminaries for Soccer
- (20) TLC LED 1200 Factory-aimed and assembled luminaries for Soccer
- Pole length wire harnesses (70')
- Includes Dimming- High, Medium, Low
- (18) Mounting Brackets- two per pole for Camera, and Wifi Switch Box similar to L-com 18x16x8 Weatherproof Enclosure. (L-Com enclosure comes with GFCI outlets).

On Field Performance – Control to benefit players, fans

(2) 24" x 72" Control and Monitoring Cabinets (CMC). Control-Link® System for remote on/off control and performance monitoring with 24/7 customer support- *Lighting Control Zones to be configured with site electrical design- per the electrical design.*

Environmental Light Control – Control for neighbors and the environment

Reduction of spill light and glare by 50% or more. Musco can provide horizontal, and vertical footcandle levels at the property line if required.

Always Ready to Play – Control assuring the results you expect

Product assurance and warranty program that includes materials and onsite labor, eliminating 100% of your maintenance costs for 25 years.

Notes

Quote is based on:

- Shipment of entire project together to one location
- The City of Moreno Valley to provide Electrical Engineering Services, and Geotechnical Engineering Services. Please provide Musco a Soil Report- *Parts of Moreno Valley have could have rock formations underground.*
- Musco Includes structural design services for the Musco Light poles. CBC 2019, mph 95.

Budget Estimate

- Includes installation tasks associated with a turnkey lighting/installation solution for Soccer Field's 1 / 2. See scope of work provided on pages 3-4.
- Electrical information- 480v 3p. It is assumed that the existing distribution panel will have to be upgraded. The Electrical Engineer will have to review and provide additional information as necessary. Musco has included the basic cost for a 225amp panel, and the related installation tasks associated with the change out. Any SCE fees, requirements is TBD until final electrical plans are completed. **Musco will provide a project quote upon receipt of a set of Electrical Engineering Plans, and Soil Report.**
- Add Control Voltage for Musco Control Link.
- Delivery to the job site will be 10-12 weeks after submittal approval, confirmation of order details, and coordination with any test and inspection agency assigned to the project. Installation tasks are estimated at 4-6 weeks after receipt of lighting equipment.
- Musco has not designed any security lighting fixtures on this park project. We are utilizing the existing park walkway lighting.

Construction Note #1:

Review Low Voltage Requirements with the city of Moreno Valley. Musco has included (1) 2" conduit to all poles for low voltage requirements. Musco has included (1) 120v circuit to each pole including conduit and wire. Daisy-chaining circuits will be required. Confirm with electrical engineering plans. Electrical, and Low Voltage pull boxes to each pole are included.

Construction Note #2: Confirm permit process, and easement issues with regards to the California Aqueduct, and EMWD Sewer line running through soccer 1, and soccer 2. See Musco Lighting Design 213935B.pdf dated August 24, 2021.

Thank you for the opportunity to discuss Musco's innovative lighting solutions; we are determined to provide you with the best value option for your facility. Please contact us if you have any questions.

El Potrero Park Soccer Practice Field 3 Budget Estimate (300' x 200') includes a Turnkey Installation

Musco's Lighting Equipment as described below and delivered to the job site:

➤ Lighting and Installation for Soccer Field #3:	\$295,000.00
Sales Tax at 7.75% (confirm at time of order):	\$22,862.50
ADDER: Project Bonding (confirm if required):	\$1,991.25

*Budget estimate for Field 3- if in the future this field will be lit, we can provide a detailed lighting design, lighting control setup, and installation scope of work for review.

Budget Estimate

El Portrero Park Soccer Fields 1 and 2 Moreno Valley, CA Turnkey Scope of Work

Customer Responsibilities:

1. Complete access to the site for construction using standard 2-wheel drive rubber tire equipment.
2. Locate existing underground utilities not covered by your local utilities. (i.e. water lines, electrical lines, irrigation systems, and sprinkler heads). Musco or Subcontractor will not be responsible for repairs to unmarked utilities.
3. Stop irrigation prior to the start of work and throughout construction in work areas.
4. Pay for extra costs associated with foundation excavation in non-standard soils (rock, caliche, high water table, collapsing holes, etc.) or soils not defined in geo-technical report. Standard soils are defined as soils that can be excavated using standard earth auguring equipment.
5. Pay any necessary power company fees and requirements.
6. Pay all permitting fees.
7. Musco, and the City of Moreno Valley will have to coordinate any work approvals over the California Aqueduct Easement. The Musco Design team can provide conduit design as identified by the city on plans, and install as necessary. At this time, standard electrical conduit runs, and power wire are included.
8. Provide Electrical Engineering Services including ready to submit plans for City review/approval.
9. Provide Geotechnical Engineering Services including providing a project Soil Report, lab testing, geotechnical observation of the pier drilling, and development of code required seismic design parameters.
- 10.

Musco Responsibilities:

1. Provide required foundations, poles, electrical enclosures, luminaires, pole harnesses, and control cabinets. Includes mounting brackets for security camera's, and wifi enclosures mounted on each pole (total of 18 brackets).
2. Provide layout of pole locations and aiming diagram.
3. Provide Project Management as required.
4. Provide stamped foundation designs based on soils defined in the geotechnical report.
5. Assist our installing subcontractor and ensure our responsibilities are satisfied.

Musco Subcontractor Responsibilities

General:

1. Provide labor, equipment, and materials to off load equipment at jobsite per scheduled delivery.
2. Provide storage containers for material, (including electrical components enclosures), as needed.
3. Provide necessary waste disposal and daily clean up.
4. Provide adequate security to protect Musco delivered products from theft, vandalism or damage during the installation.
5. Obtain any required no fee permitting as directed by the city of Moreno Valley.

Budget Estimate

6. Confirm the existing underground utilities and irrigation systems have been located and are clearly marked in order to avoid damage from construction equipment. Repair any such damage during construction.
 - a. Any work proposed will have to be coordinated with the city of Moreno Valley regarding the 30' CMWG Sewer Easement, and California Aqueduct Easement requirements (confirm that the easement is 100' wide).
7. Keep all heavy equipment off playing fields when possible. Repair damage to grounds which exceeds that which would be expected. Indentations caused by heavy equipment traveling over dry ground would be an example of expected damage. Ruts and sod damage caused by equipment traveling over wet grounds would be an example of damage requiring repair.
8. Provide startup and aiming as required to provide complete and operating sports lighting system.
9. Installation to commence upon delivery and proceed without interruption until complete. Musco to be immediately notified of any breaks in schedule or delays.

Foundations, Poles, and Luminaires:

1. Mark and confirm pole locations per the aiming diagram provided. If there are any issues, immediately notify your Musco Project Manager.
2. Provide labor, materials, and equipment to install 9 LSS foundations as specified on Layout and per the stamped foundation drawings, if applicable.
3. Remove spoils and dispose of offsite.
4. Provide labor, materials, and equipment to assemble Musco TLC-LED luminaires, electrical component enclosures, poles, and pole harnesses.
5. Provide labor, equipment, and materials to erect 9 dressed LSS Poles and aim utilizing the pole alignment beam.

Electrical:

1. Provide labor, materials, and equipment to install new 225amp 480-volt electrical service panels as required.
 - a. Final electrical plan, and scope of work will be reviewed during the electrical engineering design process. Any adjustments to our proposal can be detailed prior to providing a quote.
2. Provide labor, materials and equipment to install the Musco Controls and Monitoring Cabinet.
 - a. Confirm the location of the (2) CMCs. It is planned to pour a new concrete pad adjacent to the South restroom wall, and add two electrical enclosures to secure the two CMCs. Conduit connection to the inside of the building will be reviewed by the city of Moreno Valley. It is intended to run the conduit underneath the roof line with a minimal amount of wall penetration.
3. Provide labor, materials, and equipment to install conduit and electrical wiring as permitted.
4. Provide as-built drawings on completion of installation, **(if required)**.

Control System:

1. Provide labor, equipment, and materials to install (2) Musco Control and Monitoring cabinets and terminate all necessary wiring.
2. Provide a dedicated 120 V 20 A controls circuit or a step-down transformer for 120 V control circuit if not available.

Budget Estimate

3. Check all zones to make sure they work in both auto and manual mode.
4. Commission Control-Link® by contacting Control Link Central™ at 877-347-3319.

CODE OF CONDUCT

In order to maintain a high-quality jobsite and installation, Subcontractor represents to Musco that it has the supervision necessary to, and shall train, manage, supervise, monitor, and inspect the activities of its employees for the purpose of enforcing compliance with these safety requirements. Subcontractor acknowledges that Musco does not undertake any duty toward Subcontractor's employees to train, manage, supervise, monitor, and inspect their work activities for the purpose of enforcing compliance with these safety requirements, but Subcontractor agrees to abide by any reasonable recommendations made by Musco or Musco representatives with respect to safety.

Subcontractor agrees that it is or will be familiar with and shall abide by the safety rules and regulations of Musco and the Owner, including, but not limited to the Occupational Safety and Health Act of 1970 (OSHA), all rules and regulations established pursuant thereto, and all amendments and supplements thereto.

Subcontractor further agrees to require all its employees, subcontractors, and suppliers to comply with these requirements. Subcontractor shall also observe and comply with all laws with respect to environmental protection applicable to the Project.

Subcontractor shall require all its subcontractors, employees, visitors, suppliers, and agents under its direction to comply with the following:

1. GENERAL JOBSITE SAFETY AND CLEANLINESS.

- a. Subcontractor's employees and agents shall be required to wear appropriate personal protective equipment including, but not limited to, safety glasses with side shields, work shoes, fall protection devices, and hard hats.
- b. Where a walking or working surface has an unprotected side or edge which is six feet or more above a lower level, Subcontractor shall use guardrail systems, safety net systems, or personal fall arrest systems.
- c. Jobsite shall be kept free of debris including, but not limited to, cardboard and packing materials which can become windborne.
- d. Construction equipment shall be parked during non-use in an orderly fashion so as not to create inconvenience to others using the jobsite.
- e. Subcontractor shall provide for and ensure the use of safety equipment for the Project in accordance with Musco's and Owner's safety requirements, to the extent these may be stricter than federal, state, or local standards, or generally recognized industry applicable standards.
- f. Subcontractor shall provide the Musco project manager with an "Emergency List" showing Subcontractor's designated medical doctor, hospital, insurance company, and any other health service providers, such list to be updated within 24 hours of any change in the information provided.

Budget Estimate

- g. Within eight (8) hours from the time of an accident (or such shorter period as laws may require), Subcontractor shall advise Musco of any accident resulting in injury to any person or damage to any equipment or facility. Upon request, Subcontractor shall promptly furnish Musco with a written report of any such accident as well as a copy of all insurance and worker's compensation claims involving the Project.
 - h. Subcontractor shall maintain and inspect all construction equipment, including cranes and other lifting equipment, prior to each use. Subcontractor warrants that all equipment operators shall be qualified for each piece of construction equipment they intend to operate. Documentation of specific training is the responsibility of the Subcontractor.
 - i. Jobsite shall be policed daily for compliance to the above conditions.
 - j. Subcontractor's employees and agents are prohibited from using drugs and alcohol on the Project property or being under the influence of alcohol or drugs while performing work on the Project. Anyone observed participating in or observed under the influence will be removed from the Project immediately and prohibited from returning, with no exceptions.
2. CONFORMANCE TO STANDARD MUSCO INSTALLATION GUIDELINES.
- a. Review and understand installation instructions are provided with every product installation.
 - b. Education of installation personnel to allow for highest efficiency and lowest possibility of failure.
 - c. Verify that components have been assembled per Musco installation instructions.
 - d. Verify plumb of concrete foundations prior to standing of poles.
3. PROVIDING A QUALITY INSTALLATION TEAM.
- a. Subcontractor's work directly reflects the quality of the installation and may indirectly relate to the quality of the product upon which Musco's reputation is built.
 - b. Provide and maintain quality installation equipment. Records of maintenance and/or calibration shall be provided upon request.
 - c. Personnel shall be knowledgeable in operation of equipment as well as installation of Musco product.
 - d. All personnel provided by Subcontractor shall understand the relationship developed by and between Subcontractor and Musco, also by and between Musco and the customer, and act accordingly.

Thank you for considering Musco for your sports lighting needs. Please contact me with any questions.

Sole/Single Source Justification

DATE: 9/15/2021	DEPT/DIVISION: Parks & Community Services/Parks Division
VENDOR: Musco Sports Lighting, LLC	VENDOR PART NUMBER: (IF APPLICABLE)
DESCRIPTION OF ITEM: Use of Musco Sports Lighting, LLC for construction, lighting and integration of Control-Link system at El Potrero Park.	
Single Source: <input type="checkbox"/> A Single Source is one of the multiple sources that are capable of producing the desired item(s). It is the one source that is selected without competition for compelling and justifiable reasons.	
Sole Source: <input checked="" type="checkbox"/> A Sole Source is the <i>only</i> source available that is capable of producing the desired item(s) because of exclusive control of patent rights, copyrights, proprietary processes, etc. or similar circumstances.	

JUSTIFICATION: PLEASE PROVIDE REQUESTED INFORMATION IN THE RATIONALE BOX ON PAGE 2

<input type="checkbox"/>	Only known qualified vendor. (<u>List of the vendors</u> which were contacted below and the specific reasons <u>why each was not a viable source</u> . List the qualifications that each source or item meets. If another vendor offers a similar item, provide the item identification, vendor information and comparable pricing).
<input type="checkbox"/>	Dues and/or Membership (Dues and/or Memberships are generally required for various regional agencies and/or professional memberships, and no competitive equal exists. <u>Please list the organization the due and/or membership is for and indicate the reason needed.</u>)
<input type="checkbox"/>	Legal Services Agreement. (Per Procurement Policy 3.18 exempt from competitive requirements).
<input type="checkbox"/>	Contract Class Instructors/Sports Officials and referees (Per Procurement Policy 3.18 exempt from competitive requirements).
<input type="checkbox"/>	Supplier/Consultant proprietary item/service. (The selected supplier/consultant is the only manufacturer of this item and/or service. List the reasons why no substitute can be used and if no similar substitute is available).
<input type="checkbox"/>	Government or Contract Directed. (<u>Provide a copy</u> of the contract page which directs this source or a letter, or memo or e-mail specifically directing this source).
<input checked="" type="checkbox"/>	Continuation of an ongoing service or an addition to a critical system already procured from that vendor. (<u>List the reasons why</u> it would not be cost effective and/or schedule effective and/or mitigate technical risk and/or prudent to procure with another vendor for this procurement).
<input type="checkbox"/>	Economically Justified due to the following reasons:
<input type="checkbox"/>	Delivery Schedule Requirements (list delivery schedule requirements below)
<input type="checkbox"/>	Need for unique capabilities or special techniques (list below)
<input type="checkbox"/>	Standardization (Specify what is being standardized and how this will benefit?)

RATIONALE: (Provide written explanation, technical reasoning and/or evidence of the claim. See Directions. Use additional sheets if necessary)

Musco Sports Lighting, LLC is a comprehensive design/build company utilized for construction, standard equipment, and lighting for Moreno Valley Parks sports fields. The Control-Link system is Musco's proprietary software application for the control and programming of sports field lights by Musco staff, City staff, and long-term sports user groups for field reservations. For consistency, efficiency, and integration with the existing Musco Sports Lighting system throughout Moreno Valley parks, the Department recommends that the City Council authorize the sole sourcing of Musco Sports Lighting, LLC for this project.

JUSTIFICATION VALID FOR: 1 YEAR 2 YEARS 5 YEARS

SPECIFIC SOURCE JUSTIFICATION (SSJ) INSTRUCTIONS

Technical and requirements personnel are responsible for providing and certifying as accurate and complete necessary data to support their recommendation for other than full and open competition. The justification must demonstrate that only one company can perform. The following are examples of bases for an SSJ:

- a) The supplies/services to be acquired are unique to City of Moreno Valley.
- b) Time is of the essence and only one known source can meet City of Moreno Valley's needs within the required timeframe.
- c) Data is unavailable for competitive procurement.
- d) It is necessary that the item being acquired from one source be compatible and interchangeable with existing equipment.

The following elements must be addressed in the SSJ:

- a) State clearly City of Moreno Valley's requirements. Make sure that the entire requirement is covered by the justification.
- b) Explain why the vendor is the only company that can meet City of Moreno Valley's requirement. The documentation necessary to adequately substantiate the two most common basis of Sole/Single source is:
 - i. If the supplier has a unique capability, whether it is an item or service, it is insufficient to simply say that the supplier is unique. If the item is unique to the supplier, the unique characteristics must be set forth. If the supplier has unique expertise, that expertise must be described. If the supplier has unique equipment or facilities or it has proprietary data, it must be explained.
 - ii. If only one supplier can perform within the required timeframe, the timeframe must be explained:
 - 1. Provide the date by which the supplies/services must be delivered.
 - 2. Indicate how that date was determined and its significance.
 - 3. Indicate the impact of delay beyond that date in terms of program schedules, milestones, etc.
 - 4. State how long it would take another supplier to acquire the capability to perform (learning curve), how much it would cost another supplier to get up to speed, and if appropriate, what it would cost City of Moreno Valley in terms of dollars and manhours to get another supplier up to speed. State the bases for the above estimates.
- c) State how the decision to go Sole/Specific Source was reached. Generally, technical personnel's knowledge and experience can be used to support SSJ. The following are examples of documentation supporting this element:
 - i. Explain requisition originator's experience that would indicate that he knows only one source can perform.
 - ii. Explain that technical publications, symposiums, or conferences clearly indicate that only one company can perform. List publications read and symposiums and conferences attended.
 - iii. State what is being done to foster future competition.
 - iv. Justification must be signed and dated.
- d) Describe the item and the particular uses of the item. State specifically what the item is going to be for and what it will do. Include here any project numbers and titles that the material in question will support or historically has supported.
- e) State the distinguishing characteristics of the item and why this is the only item that will fulfill the requirements. This may include being an add-on to an existing system or the replacement of an existing system. Copyrights and trademarks may be applicable here depending on the situation.
- f) Explain what would happen if another, unequal item were procured instead. Include any training delays, alteration of standard operating procedures, etc. that would cost the institution time, funds and overall completion of projects. This is the appropriate area to describe any design changes that would be necessary if another source were to be used.
- g) Outline the work performed to determine what other, similar items are offered from other vendors and why these items will not satisfy the requirements stated in the previous steps. This may need to be explicit to include: company names, contact information, and in some cases, valid quotes.

- h) If there is cost impact, detail the cost impact of utilizing another source.
- i) If there is schedule impact, detail the schedule impact of utilizing another source.

****IMPORTANT****

*The two most often cited basis for SSJ are uniqueness and timeframe. These are often confused and inappropriately interchanged. If a supplier is unique and if his uniqueness is adequately substantiated, a discussion of timeframe is inappropriate. If the basis for the SSJ is timeframe, a discussion of uniqueness should not be made or alluded to.

*Timeframe does not make a supplier unique.

*Statements that a supplier has the best capability, offers the lowest price, or is the only qualified source are not bases for an SSJ. Such determinations can only be made through competitive acquisitions. A strong presentation which merely establishes that the recommended source is most highly qualified to perform but does not establish why other sources cannot perform is unacceptable.

*Incumbency does not justify an SSJ.

*Administrative delay or lack of adequate advanced planning do not create an urgency that justifies an SSJ.

Report to City Council

TO: Mayor and City Council Acting in its Capacity as President and Members of the Board of Directors of the Moreno Valley Community Services District (CSD)

FROM: Brian Mohan, Assistant City Manager

AGENDA DATE: October 19, 2021

TITLE: DECLARING INTENTION TO ANNEX CERTAIN PARCELS INTO COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) OF THE MORENO VALLEY COMMUNITY SERVICES DISTRICT AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN (RESO. NO. CSD 2021-___, CSD 2021-___, CSD 2021-___, CSD 2021-___, CSD 2021-___, AND CSD 2021-___)

RECOMMENDED ACTION

Recommendations:

1. Acting as the legislative body of Community Facilities District No. 2021-01 (Parks Maintenance), adopt Resolution No. CSD 2021-___, a Resolution of the Board for the Moreno Valley Community Services District of the City of Moreno Valley, California, Declaring its Intention to Annex Territory to its Community Facilities District No. 2021-01 (Parks Maintenance) and to Authorize the Levy of a Special Tax Therein. (LCG MVD II, LLC, located at the southeast corner of Heacock St. and Hemlock Ave.)
2. Acting as the legislative body of Community Facilities District No. 2021-01 (Parks Maintenance), adopt Resolution No. CSD 2021-___, a Resolution of the Board for the Moreno Valley Community Services District of the City of Moreno Valley, California, Declaring its Intention to Annex Territory to its Community Facilities District No. 2021-01 (Parks Maintenance) and to Authorize the Levy of a Special Tax Therein. (Maria J. Luna, located at 11950 Mathews Rd.)
3. Acting as the legislative body of Community Facilities District No. 2021-01 (Parks Maintenance), adopt Resolution No. CSD 2021-___, a Resolution of

the Board for the Moreno Valley Community Services District of the City of Moreno Valley, California, Declaring its Intention to Annex Territory to its Community Facilities District No. 2021-01 (Parks Maintenance) and to Authorize the Levy of a Special Tax Therein. (Ada Velis Iglesias de Turcios, located on the north side of Angella Way, east of Indian St.)

4. Acting as the legislative body of Community Facilities District No. 2021-01 (Parks Maintenance), adopt Resolution No. CSD 2021-___, a Resolution of the Board for the Moreno Valley Community Services District of the City of Moreno Valley, California, Declaring its Intention to Annex Territory to its Community Facilities District No. 2021-01 (Parks Maintenance) and to Authorize the Levy of a Special Tax Therein. (MV Resource Center, LLC, located at the northeast corner of Resource Way and Corporate Way)

(Gold Coast Properties CA 3, LLC, located southwest of Indian St. and Hemlock St.)

SUMMARY

This report recommends approval of Resolutions of Intention (Attachments 1 through 6) to annex certain parcels into Community Facilities District (CFD) No. 2021-01 (Parks Maintenance) (the "District"). With adoption of the Resolutions, a Public Hearing to consider annexation of property into the District is scheduled for December 7, 2021. This action impacts only the property owners identified below, not the general citizens or taxpayers of the City.

DISCUSSION

As a condition of approval of the development projects identified below, the applicants are required to provide an ongoing funding source for maintenance of certain public facilities (e.g. parks) impacted by the proposed development.

On June 1, 2021, the CSD Board formed CFD No. 2021-01, pursuant to the Mello-Roos Community Facilities Act of 1982 (the “Act”). The District was created to provide the development community with an alternative funding tool to provide the required funding. If a property owner elects to annex the parcels of their development into the District, they also authorize the CSD to annually levy a special tax, collected on the annual property tax bill, against property in the development project. Thus, satisfying the condition of approval.

The property owners listed below (collectively, the “Property Owners”) have requested to annex into the District. To annex into the District, the Act requires the CSD Board first adopt a Resolution of Intention, which will be followed by a Public Hearing and a mail-ballot election (which will occur at the same meeting as the Public Hearing). Provided each Property Owner approves their respective ballot, the condition of approval to provide an ongoing funding source for the maintenance of parks will be satisfied for their development project. By adoption of the Resolutions, the Public Hearing is scheduled for December 7, 2021. These resolutions replace two prior resolutions that declared the Board’s intention to annex two of the properties listed below.

Property Owner/ Project ACP Record #	APNs	Location
LCG MVD II, LLC* The District Retail & Grocery PEN20-0148/SMP21-0007	481-090-009, 481-090-032 & 481-090-033	Southeast corner of Heacock St. and Hemlock Ave.
Maria J. Luna* Single-family residential unit PEN19-0257/SMP21-0006	474-161-035	11950 Mathews Rd.
Ada Velis Iglesias de Turcios Two single-family residential units PEN18-0042/SMP21-0005	316-110-021	North side of Angella Way, east of Indian St.
MV Resource Center, LLC 47,400 sq. ft. industrial building PEN19-0201/SMP21-0004	297-220-006, 297-220-007 & 297-220-008	Northeast corner of Resource Way and Corporate Way
Alessandro Industrial No. 14, LP 280,800 sf Business Park PEN20-0038/SMP21-0009	297-170-083	South side of Alessandro Blvd., west of Heacock St.
Gold Coast Properties CA 3, LLC Woodspring Suites PEN18-0232/SMP21-0010	481-090-037	Southwest of Indian St. and Hemlock St.
*This action supersedes the prior process to annex the parcels into the District (i.e. Resolution No. CSD 2021-27 and CSD 2021-28).		

ALTERNATIVES

1. Adopt the resolutions. *Staff recommends this alternative since it will initiate proceedings to annex certain parcels into the District, at the request of the property owners.*
2. Do not adopt the resolutions. *Staff does not recommend this alternative because it is contrary to the request of the property owners.*

3. Do not adopt the resolutions but continue the item to a future meeting. *Staff does not recommend this alternative because it will delay the applicants from satisfying their development project's condition of approval.*

FISCAL IMPACT

Revenue received from the special tax is restricted and can only be used to fund the services provided by CFD No. 2021-01. The special tax can only be applied to a property tax bill of a parcel wherein the qualified electors (i.e., landowners or registered voters, depending upon the number of registered voters) have previously provided approval. If the projected revenue from the maximum special tax exceeds what is necessary to fund the services, a lower amount will be applied to the property tax bills for all the properties within the District. The maximum special tax rate for each development project is listed below.

Property Owner Project ACP Record #s	Annexation No.	Property Type	FY 2021/22 Maximum Special Tax Rate
LCG MVD II, LLC* The District Retail & Grocery PEN20-0148/SMP21-0007	5	Commercial	\$18.69 per 1,000 feet of building square feet
Maria J. Luna* Single-family Residential Unit PEN19-0257/SMP21-0006	6	Single-Family	\$291.59 per unit
Ada Velis Iglesias de Turcios Two Single-family Residential Units PEN18-0042/SMP21-0005	7	Single-Family	\$291.59 per unit
MV Resource Center, LLC 47,400 sq. ft. Industrial Building PEN19-0201/SMP21-0004	8	Industrial	\$9.07 per 1,000 feet of building square feet
Alessandro Industrial No. 14, LP 280,800 sq. ft. Business Park PEN20-0038/SMP21-0009	10	Industrial	\$9.07 per 1,000 feet of building square feet
Gold Coast Properties CA 3, LLC Woodspring Suites PEN18-0232/SMP21-0010	11	Commercial	\$18.69 per 1,000 feet of building square feet
*This action supersedes the prior process to annex the parcels into the District (i.e. Resolution No. CSD 2021-27 and CSD 2021-28).			

NOTIFICATION

Each of the affected Property Owners submitted Landowner Petitions and Waivers requesting annexation into the District. In addition, newspaper advertising for the proposed December 7 Public Hearing is scheduled to be published in The Press-Enterprise, consistent with the Act.

PREPARATION OF STAFF REPORT

Prepared By:

Department Head Approval:

Candace E. Cassel
Special Districts Division Manager

Brian Mohan
Assistant City Manager
Chief Financial Officer/City Treasurer

CITY COUNCIL GOALS

Revenue Diversification and Preservation. Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

Community Image, Neighborhood Pride and Cleanliness. Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

CITY COUNCIL STRATEGIC PRIORITIES

1. Economic Development
2. Public Safety
3. Library
4. Infrastructure
5. Beautification, Community Engagement, and Quality of Life
6. Youth Programs

Objective 5.2: Promote the installation and maintenance of cost effective, low maintenance landscape, hardscape and other improvements which create a clean, inviting community.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, by its Resolution No. CSD 2021-27, the CSD Board called a public hearing for September 21, 2021 to consider the annexation of certain parcels (the "Annexation Territory") into the CFD; and

WHEREAS, for reasons unrelated to the annexation, the September 21, 2021 meeting of the Moreno Valley City Council (along with the concurrent meeting of the CSD Board) was cancelled; and

WHEREAS, the CSD received no protests against the proposed annexation; and

WHEREAS, the CSD has received a new petition from the landowner(s) of certain parcel(s) requesting annexation of the "Annexation Territory" into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD;

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.

3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".

4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 5 OF COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA", which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the "Services") to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the "Special Tax") sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there

2

Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. Prior Acts. This Resolution supplants any prior declaration of the CSD Board's intention to annex the Annexation Territory to the CFD.

11. This Resolution shall be effective immediately upon adoption.

12. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

13. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

APPROVED AND ADOPTED this 19th day of October 2021

Mayor of the City of Moreno Valley

EXHIBIT "C" RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX MORENO VALLEY COMMUNITY SERVICES DISTRICT COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor's Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

"Special Tax" means the amount levied in each Fiscal Year on each Assessor's Parcel of Taxable Property to fund the Annual Special Tax Requirement.

"Tax Escalation Factor" means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor's Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

"Tax Zone" means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. ***All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.*** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor's Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor's Parcel number in the annexation documents at the time of annexation.

"Taxable Property" means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

"Undeveloped Property" means all Parcels of Taxable Property that are not Developed Property.

"Unit" means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

"Welfare Exempt Property" means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, by its Resolution No. CSD 2021-28, the CSD Board called a public hearing for September 21, 2021 to consider the annexation of certain parcels (the "Annexation Territory") into the CFD; and

WHEREAS, for reasons unrelated to the annexation, the September 21, 2021 meeting of the Moreno Valley City Council (along with the concurrent meeting of the CSD Board) was cancelled; and

WHEREAS, the CSD received no protests against the proposed annexation; and

WHEREAS, the CSD has received a new petition from the landowner(s) of certain parcel(s) requesting annexation of the "Annexation Territory" into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD;

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.

3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".

4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 6 OF COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA", which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the "Services") to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the "Special Tax") sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there

2

Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. Prior Acts. This Resolution supplants any prior declaration of the CSD Board's intention to annex the Annexation Territory to the CFD.

11. This Resolution shall be effective immediately upon adoption.

12. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

13. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

APPROVED AND ADOPTED this 19th day of October 2021

Mayor of the City of Moreno Valley
Acting in the capacity as President of
the Board of the Moreno Valley
Community Services District

ATTEST:

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
MORENO VALLEY COMMUNITY SERVICES DISTRICT
COMMUNITY FACILITIES DISTRICT NO. 2021-01
(PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

Attachment: Resolution of Intention - Annexation No. 6 (5545 : DECLARING INTENTION TO ANNEX CERTAIN PARCELS INTO COMMUNITY

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor’s Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

“Special Tax” means the amount levied in each Fiscal Year on each Assessor’s Parcel of Taxable Property to fund the Annual Special Tax Requirement.

“Tax Escalation Factor” means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor’s Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

“Tax Zone” means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. **All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor’s Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor’s Parcel number in the annexation documents at the time of annexation.

“Taxable Property” means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

“Undeveloped Property” means all Parcels of Taxable Property that are not Developed Property.

“Unit” means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

“Welfare Exempt Property” means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, the CSD has received a petition from the landowner(s) of certain parcel(s) requesting annexation of those parcels (the "Annexation Territory") into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD.

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.
2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.
3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".
4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 7 OF COMMUNITY FACILITIES

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA”, which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the “Services”) to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the “Special Tax”) sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. This Resolution shall be effective immediately upon adoption.

11. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

12. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
MORENO VALLEY COMMUNITY SERVICES DISTRICT
COMMUNITY FACILITIES DISTRICT NO. 2021-01
(PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor's Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

"Special Tax" means the amount levied in each Fiscal Year on each Assessor's Parcel of Taxable Property to fund the Annual Special Tax Requirement.

"Tax Escalation Factor" means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor's Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

"Tax Zone" means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. ***All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.*** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor's Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor's Parcel number in the annexation documents at the time of annexation.

"Taxable Property" means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

"Undeveloped Property" means all Parcels of Taxable Property that are not Developed Property.

"Unit" means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

"Welfare Exempt Property" means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, the CSD has received a petition from the landowner(s) of certain parcel(s) requesting annexation of those parcels (the "Annexation Territory") into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD.

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.
2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.
3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".
4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 8 OF COMMUNITY FACILITIES

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA”, which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the “Services”) to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the “Special Tax”) sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. This Resolution shall be effective immediately upon adoption.

11. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

12. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
 MORENO VALLEY COMMUNITY SERVICES DISTRICT
 COMMUNITY FACILITIES DISTRICT NO. 2021-01
 (PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor’s Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

“Special Tax” means the amount levied in each Fiscal Year on each Assessor’s Parcel of Taxable Property to fund the Annual Special Tax Requirement.

“Tax Escalation Factor” means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor’s Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

“Tax Zone” means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. **All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor’s Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor’s Parcel number in the annexation documents at the time of annexation.

“Taxable Property” means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

“Undeveloped Property” means all Parcels of Taxable Property that are not Developed Property.

“Unit” means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

“Welfare Exempt Property” means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, the CSD has received a petition from the landowner(s) of certain parcel(s) requesting annexation of those parcels (the "Annexation Territory") into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD.

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.
2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.
3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".
4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 10 OF COMMUNITY FACILITIES

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA”, which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the “Services”) to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the “Special Tax”) sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

2

Resolution No. CSD 2021-
Date Adopted: October 19, 2021

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. This Resolution shall be effective immediately upon adoption.

11. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

12. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

APPROVED AND ADOPTED this 19th day of October 2021

Mayor of the City of Moreno Valley

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
 MORENO VALLEY COMMUNITY SERVICES DISTRICT
 COMMUNITY FACILITIES DISTRICT NO. 2021-01
 (PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor’s Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

“Special Tax” means the amount levied in each Fiscal Year on each Assessor’s Parcel of Taxable Property to fund the Annual Special Tax Requirement.

“Tax Escalation Factor” means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor’s Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

“Tax Zone” means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. **All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor’s Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor’s Parcel number in the annexation documents at the time of annexation.

“Taxable Property” means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

“Undeveloped Property” means all Parcels of Taxable Property that are not Developed Property.

“Unit” means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

“Welfare Exempt Property” means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO ANNEX TERRITORY INTO ITS COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE) AND TO AUTHORIZE THE LEVY OF A SPECIAL TAX THEREIN

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, the CSD has received a petition from the landowner(s) of certain parcel(s) requesting annexation of those parcels (the "Annexation Territory") into the CFD; and

WHEREAS, the parcel(s) included in the Annexation Territory are listed in Exhibit A to this Resolution, which is attached hereto and incorporated herein by reference; and

WHEREAS, the CSD Board desires to initiate proceedings to annex the Annexation Territory into the CFD.

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.
2. Initiation of Proceedings. The CSD Board proposes to annex the Annexation Territory into the CFD.
3. Name of CFD. The CFD is designated "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)".
4. Boundaries of the Annexation Territory. For a description of the boundaries of the territory proposed for annexation to CFD No. 2021-01, reference is made to the boundary map titled "ANNEXATION MAP NO. 11 OF COMMUNITY FACILITIES

1
Resolution No. CSD 2021-____
Date Adopted: October 19, 2021

DISTRICT NO. 2021-01 (PARKS MAINTENANCE), MORENO VALLEY COMMUNITY SERVICES DISTRICT, CITY OF MORENO VALLEY, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA”, which is on file in the office of the Secretary of the CSD Board (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference. A reduced copy of the boundary map is attached hereto as Exhibit B.

5. Description of Services. The following is a general description of the services (the “Services”) to be provided:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv) administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the Annexation Territory prior to annexation and will not supplant services already available within that territory.

6. Special Tax. Except where funds are otherwise available, a special tax (the “Special Tax”) sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the Annexation Territory. Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within CFD No. 2021-01 by more than 10 percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit C and incorporated herein.

The rate and method of apportionment of the Special Tax within the Annexation Territory is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD-55.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the proposed annexation. At the Hearing the testimony of all interested persons or taxpayers for or against the proposed annexation will be heard. At the Hearing, protests against the annexation, may be made in writing by any interested person or taxpayer. If a written majority protest against the annexation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Election. Concurrently with, or subsequently to, the annexation of territory to the CFD, the CSD Board may submit the levy of the Special Tax to the qualified electors of the Annexation Territory. The election will be conducted by the Secretary of the CSD Board, as elections official. The vote will be by the landowners of the Annexation Territory, and each landowner of the Annexation Territory who is the owner of record at the close of the Hearing, or is the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexation Territory. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner. The election will be conducted by mail ballot. All time limits specified in Section 53326 of the Act and all requirements of law pertaining to the conduct of the election will be waived if the City receives both (i) unanimous consent to such waiver from the qualified electors of the Annexation Territory and (ii) the concurrence of the Secretary of the CSD Board, as elections official.

9. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in CFD No. 2021-01 to enter into a contract pursuant to Section 53329.5(a) of the Act.

10. This Resolution shall be effective immediately upon adoption.

11. The Secretary of the CSD shall cause the Boundary Map as approved to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

12. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

APPROVED AND ADOPTED this 19th day of October 2021

Mayor of the City of Moreno Valley
Acting in the capacity as President of
the Board of the Moreno Valley
Community Services District

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
 MORENO VALLEY COMMUNITY SERVICES DISTRICT
 COMMUNITY FACILITIES DISTRICT NO. 2021-01
 (PARKS MAINTENANCE)

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor's Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

"Special Tax" means the amount levied in each Fiscal Year on each Assessor's Parcel of Taxable Property to fund the Annual Special Tax Requirement.

"Tax Escalation Factor" means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor's Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

"Tax Zone" means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. ***All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.*** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor's Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor's Parcel number in the annexation documents at the time of annexation.

"Taxable Property" means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

"Undeveloped Property" means all Parcels of Taxable Property that are not Developed Property.

"Unit" means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

"Welfare Exempt Property" means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District's discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

Report to City Council

TO: Mayor and City Council Acting in its Capacity as President and Members of the Board of Directors of the Moreno Valley Community Services District (CSD)

FROM: Brian Mohan, Assistant City Manager

AGENDA DATE: October 19, 2021

TITLE: DECLARING INTENTION TO DESIGNATE THE FUTURE ANNEXATION AREA FOR COMMUNITY FACILITIES DISTRICT 2021-01 (PARKS MAINTENANCE) OF THE MORENO VALLEY COMMUNITY SERVICES DISTRICT (RESO. NO. CSD 2021-___)

RECOMMENDED ACTION

Recommendation:

Acting as the legislative body of Community Facilities District No. 2021-01 (Parks Maintenance), adopt Resolution No. CSD 2021-___. A Resolution of the Board for the Moreno Valley Community Services District of the City of Moreno Valley, California, Declaring its Intention to Provide for Future Annexation of Territory to its Community Facilities District No. 2021-01 (Parks Maintenance).

SUMMARY

This report recommends adoption of a Resolution of Intention (Attachment 1) to designate the Future Annexation Boundary for Community Facilities District (CFD) No. 2021-01 (Parks Maintenance) (the "District"). With adoption of the Resolution, a Public Hearing to consider the designation is scheduled for December 7, 2021. This action does not change the current services or special tax rate of the District. It will, however, streamline the process for those developing property owners who elect to annex their property into the District in the future.

DISCUSSION

As a condition of approval of development projects, applicants are required to provide an ongoing funding source for the maintenance of certain public facilities (e.g. parks). The funding will be used to mitigate the cost of impacts created by the proposed development.

On June 1, 2021, the CSD Board formed CFD No. 2021-01, pursuant to the Mello-Roos Community Facilities Act of 1982 (the “Act”). The District was created to provide the development community with an alternative funding tool to provide the required funding. If a property owner elects to annex the parcels of the development into the District, they also authorize the CSD to annually levy a special tax, collected on the annual property tax bill, against property in the development project. Thus, satisfying the condition of approval.

To annex into the District, the Act requires the CSD Board first adopt a resolution of intention to annex territory. Between 30-60 days thereafter, a Public Hearing is held and property owner ballot opened to determine whether the property owner has authorized annexation of their property into the District. The Act authorizes the CSD Board to designate a future annexation area, which will streamline the annexation process. With a designated future annexation area, the actual annexations can be completed in the future, without public hearings, “upon the unanimous approval of the owner or owners of each parcel or parcels at the time that the parcel or parcels are annexed.”

To use the alternative annexation process, the Act requires the CSD Board adopt a resolution declaring its intention to designate a Future Annexation Area. Adoption of the resolution also schedules the Public Hearing to consider the designation for December 7, 2021. After the December 7 Public Hearing, the CSD Board can consider adoption of an Ordinance designating the Future Annexation Area. Developing property owners can use the streamline process after the Ordinance becomes effective (30-days after its 2nd reading, which is scheduled for December 21, 2021). The Future Annexation Area encompasses the entirety of the City’s boundaries (Attachment 2).

This action will supersede the designation process initiated by the CSD Board’s adoption of Resolution No. CSD 2021-29.

ALTERNATIVES

1. Adopt the Resolution of Intention to designate the Future Annexation Area of CFD No. 2021-01 (Parks Maintenance). *Staff recommends this alternative since it will provide a streamlined process for property owners to annex into the District.*
2. Do not adopt the Resolution of Intention. *Staff does not recommend this alternative because it will not provide property owners with a streamlined annexation process.*
3. Do not adopt the Resolution of Intention but continue the item to a future Council meeting. *Staff does not recommend this alternative because it*

will delay property owners from using a streamlined annexation process.

FISCAL IMPACT

Third party costs associated with designation of the Future Annexation Area are projected not-to-exceed \$3,500 for special legal counsel, legal notice publication costs, County recording costs, and other related expenses. Sufficient funds exist in the City's FY 2021/22 Adopted Operating Budget of the Special Districts Administrative Fund 2006-30-79-25701.

NOTIFICATION

Newspaper advertising for the December 7 Public Hearing is scheduled to be published in The Press-Enterprise, consistent with the Act.

PREPARATION OF STAFF REPORT

Prepared By:
Candace E. Cassel
Special Districts Division Manager

Department Head Approval:
Brian Mohan
Assistant City Manager
Chief Financial Officer/City Treasurer

CITY COUNCIL GOALS

Revenue Diversification and Preservation. Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

Community Image, Neighborhood Pride and Cleanliness. Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

CITY COUNCIL STRATEGIC PRIORITIES

1. Economic Development
2. Public Safety
3. Library
4. Infrastructure
5. Beautification, Community Engagement, and Quality of Life
6. Youth Programs

Objective 5.2: Promote the installation and maintenance of cost effective, low maintenance landscape, hardscape and other improvements which create a clean, inviting community.

RESOLUTION NO. CSD 2021-____

A RESOLUTION OF THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DECLARING ITS INTENTION TO PROVIDE FOR FUTURE ANNEXATION OF TERRITORY TO MORENO VALLEY COMMUNITY SERVICES DISTRICT COMMUNITY FACILITIES DISTRICT NO. 2021-01 (PARKS MAINTENANCE)

WHEREAS, by its Resolution No. CSD 2021-22, the Board for the Community Services District (the "CSD Board") established the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) (the "CFD"), pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code Section 53311 *et seq.*) (the "Act"); and

WHEREAS, by its Ordinance No. CSD 55, the CSD Board authorized an annual special tax to be levied against all non-exempt parcels of real property within the CFD (the "Special Tax") to fund park maintenance services; and

WHEREAS, if such funding has not otherwise been provided, public convenience and necessity require that territory be added to the CFD in order to fund the operation and maintenance of parks; and

WHEREAS, Article 3.5 of the Act authorizes the CSD Board to provide for the future annexation of territory to a community facilities district by designating a future annexation area for that district; and

WHEREAS, such designation permits the annexation of a parcel with the unanimous approval of the owner or owners of each parcel or parcels at the time that parcel or those parcels are annexed; and

WHEREAS, by its Resolution No. CSD 2021-29, the CSD Board called a public hearing for September 21, 2021 to consider the designation as a future annexation area of the CFD all territory in the City of Moreno Valley that is not already a part of the CFD; and

WHEREAS, for reasons unrelated to the designation of the future annexation area, the September 21, 2021 meeting of the Moreno Valley City Council (along with the concurrent meeting of the CSD Board) was cancelled; and

WHEREAS, the CSD received no protests against the proposed designation of the future annexation area; and

WHEREAS, the CSD Board continues to desire to designate the future annexation area.

1
Resolution No. CSD 2021 - ____
Date Adopted: October 19, 2021

NOW, THEREFORE, THE BOARD FOR THE MORENO VALLEY COMMUNITY SERVICES DISTRICT OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

1. Recitals. The above recitals are all true and correct.
2. Initiation of Proceedings. The CSD Board declares its intention to provide for future annexation of territory to the CFD.
3. Name of CFD. The name of the CFD is "Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance)."
4. Future Annexation Area. The territory on the map titled "Annexation Map No. 4 of Community Facilities District No. 2021-01 (Parks Maintenance), Moreno Valley Community Services District, City of Moreno Valley, County of Riverside, State of California, (Territory proposed for annexation in the future, with the condition that parcels within that territory may be annexed only with the unanimous approval of the owner or owners of each parcel or parcels at the time that parcel or those parcels are annexed)", which is on file in the office of the Secretary of the CSD (the City Clerk of the City of Moreno Valley), available for public inspection and incorporated herein by reference ("Annexation Map No. 4") is proposed for annexation to the CFD in the future, with the condition that parcels within that territory may be annexed only with the unanimous approval of the owner or owners of each parcel or parcels at the time that parcel or those parcels are annexed. A reduced copy of the annexation map is attached hereto as Exhibit A.
5. Description of Services. The following is a general description of the services (the "Services") provided in the CFD and proposed for the future annexation area:

Park Maintenance Services: Maintaining, lighting, and operating parks and park improvements that are owned and operated by the CSD, to the extent such services are in addition to services already provided at the time CFD No. 2021-01 is created and do not supplant existing services.

Fundable services include (i) planting, replanting, mowing, trimming, irrigation and fertilization of grass, trees, shrubs, and other plants and vegetation, (ii) the operation, maintenance, repair, and replacement of irrigation systems and lighting systems, (iii) the operation maintenance, repair and replacement of any real property or improvements with a useful life of more than five years.

Fundable costs include, but are not limited to: (i) contracted costs for such services, (ii) salaries and benefits of staff, including park rangers, devoted to such services, (iii) expenses related to equipment, apparatus, and supplies related to these services, (iv)

administrative and overhead costs, including staff time, associated with providing such services, and (v) lifecycle costs associated with the repair and replacement of facilities and improvements.

These services are in addition to those provided in the territory within the CFD prior to the establishment of the CFD and that such Services will not supplant services already available within the territory.

6. Special Tax. Except where funds are otherwise available, a special tax sufficient to pay for the Services, secured by recordation of a continuing lien against all nonexempt real property in the district, will be annually levied within the CFD (the "Special Tax"). Under no circumstances will the special tax levied in any fiscal year against any parcel be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within the district by more than 10 percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults.

The rate and method of apportionment of the Special Tax within the future annexation area is the same as that applicable within the existing boundaries of the CFD, and no alteration is proposed to the Special Tax as it was adopted by Ordinance No. CSD 55. A complete description of the rate and method of apportionment of the Special Tax is attached hereto as Exhibit B and incorporated herein.

The Special Tax will be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes. Notwithstanding the forgoing, any Special Taxes that cannot be collected on the County tax roll, or are not so collected, may be collected through direct billing by the CSD.

7. Public Hearing. On December 7, 2021, at 6:00 PM (or as soon thereafter as practical), in the City Council Chamber located at 14177 Frederick Street, Moreno Valley, California 92553, the CSD Board will hold a public hearing on the designation of territory for annexation to the CFD in the future. At the hearing the testimony of all interested persons or taxpayers will be heard. At the Hearing, protests against the designation of territory for annexation to the CFD in the future may be made in writing by any interested person or taxpayer. If a written majority protest against the designation is filed (as determined in accordance with Section 53339.6 of the Act), the proceedings shall be abandoned.

8. Public Interest. Pursuant to Section 53329.5(c) of the Act, the CSD Board finds that the public interest will not be served by allowing property owners in the CFD to enter into a contract pursuant to Section 53329.5(a) of the Act.

9. Prior Acts. This Resolution supplants any prior declaration of the CSD Board's intention to annex the Annexation Territory to the CFD.

10. This Resolution shall be effective immediately upon adoption.

Attachment: Resolution of Intention (5546 : DECLARING INTENTION TO DESIGNATE THE FUTURE ANNEXATION AREA FOR COMMUNITY

11. The Secretary of the CSD shall cause Annexation Map No. 4, as approved, to be filed in the Office of the County Recorder no later than fifteen (15) days after the date of adoption of this Resolution and shall give notice of the public hearing as required by law.

12. The Secretary of the CSD shall certify to the adoption of this Resolution, and shall maintain on file as a public record this Resolution.

APPROVED AND ADOPTED this 19th day of October 2021.

Mayor of the City of Moreno Valley,
Acting in the capacity of President of the
Moreno Valley Community Services District

Rate and Method of Apportionment

**RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX
MORENO VALLEY COMMUNITY SERVICES DISTRICT
COMMUNITY FACILITIES DISTRICT NO. 2021-01
(PARKS MAINTENANCE)**

A Special Tax shall be levied and collected in the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance) ("CFD 2021-01") each Fiscal Year, in an amount determined by the application of the procedures described below. All Taxable Property (as defined below) in CFD 2021-01, unless exempted by the provisions hereof, shall be taxed for the purposes, to the extent and in the manner herein provided.

I. DEFINITIONS

The terms used herein shall have the following meanings:

"Accessory Dwelling Unit" means an Accessory Dwelling Unit that is authorized by Section 9.09.130 of the Moreno Valley Municipal Code.

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map or in the Assessor's Data for each Assessor's Parcel. In the event the Assessor's Parcel Map or Assessor's Data shows no Acreage, the Acreage for any Assessor's Parcel shall be determined by the CFD Administrator based upon the applicable final map, parcel map, condominium plan, or other recorded County parcel map. If the preceding maps are not available, the Acreage of an Assessor's Parcel may be determined utilizing GIS. The square footage of an Assessor's Parcel is equal to the Acreage of such parcel multiplied by 43,560.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Division 2 of Title 5 of the Government Code of the State of California (Section 53311 *et seq.*).

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD 2021-01: the costs of computing the Annual Special Tax Requirement and the annual Special Tax and of preparing the annual Special Tax collection schedules; the costs of collecting the Special Tax, including any charges levied by the County Auditor's Office, Tax Collector's Office or Treasurer's Office; the costs of the Community Services District or designee in complying with the disclosure requirements of the California Government Code (including the Act), including public inquiries regarding the Special Tax; the costs of the Community Services District or designee related to an appeal of the Special Tax; and the costs of commencing and pursuing to completion any foreclosure action arising from any delinquent Special Tax in CFD 2021-01.

"Agricultural Property" means all Assessor's Parcels devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber, or livestock products.

"Annual Services Costs" means the amounts required to fund services authorized to be funded by CFD 2021-01.

“Annual Special Tax Requirement” means that amount with respect to CFD 2021-01 determined by the Board of Directors or designee as required in any Fiscal Year to pay: (1) the Administrative Expenses, (2) the Annual Services Costs, (3) any amount required to establish or replenish any reserve or replacement fund established in connection with CFD 2021-01, and (4) any reasonably anticipated delinquent Special Tax based on the delinquency rate for any Special Tax levied in the previous Fiscal Year.

“Assessor’s Data” means Units, Building Square Footage, Acreage, or other information contained in the records of the County Assessor for each Assessor’s Parcel.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown in an Assessor’s Parcel Map with an assigned Assessor’s Parcel Number.

“Assessor’s Parcel Map” means an official map of the Assessor of the County designating parcels by Assessor’s Parcel Number.

“Assessor’s Parcel Number” means, with respect to an Assessor’s Parcel, that number assigned to such Assessment’s Parcel by the County Assessor for purposes of identification.

“Building Square Foot(age)” means the structure square footage as shown on the building permit issued by the City or as contained in the Assessor’s Data.

“Board of Directors” means the Board of Directors of the Moreno Valley Community Services District, acting as the legislative body of CFD 2021-01.

“CFD 2021-01” means the Moreno Valley Community Services District Community Facilities District No. 2021-01 (Parks Maintenance), County of Riverside, State of California.

“CFD Administrator” means the person responsible for administering the Special Tax in accordance with this Rate and Method of Apportionment.

“City” means the City of Moreno Valley, County of Riverside, California.

“Commercial Property” means all Assessor’s Parcels of Developed Property (other than Office Property or Industrial Property) with a non-residential use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Community Services District” means the Moreno Valley Community Services District.

“County” means the County of Riverside, California.

“Developed Property” means, in any Fiscal Year, all Taxable Property in CFD 2021-01 (i) that is improved with one or more structures that were in place on March 1 of the preceding Fiscal Year and were built subsequent to the inclusion of the territory of the Taxable Property in the Community Services District, (ii) for which a building permit for new construction was issued by the applicable land use authority prior to March 1 of the preceding Fiscal Year and/or (iii) is Mobile Home Property.

“Exempt Property” means all property located within the boundaries of CFD 2021-01 which is exempt from the Special Tax pursuant to Section V below.

“Fiscal Year” means the period from July 1st of any calendar year through June 30th of the following calendar year.

“GIS” means a geographic information system.

“Industrial Property” means all Assessor’s Parcels of Developed Property with an industrial use, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Maximum Special Tax” means the maximum Special Tax authorized for levy in any Fiscal Year that may apply to Taxable Property as described in Section III.

“Mixed-Use Property” means all Assessor’s Parcels of Developed Property that is imposed with a mix of two or more of single family residential, multi-family residential, mobile home, office, commercial or industrial uses. For an Assessor’s Parcel of Mixed-Use Property, the Special Tax shall be calculated and levied for each use type present on the Assessor’s Parcel.

“Mobile Home Property” means all Assessor’s Parcels of Developed Property with (i) one or more movable or portable dwellings connected to utilities and/or (ii) a building permit or other permit from the City to install utility connections at one or more space for a movable or portable dwelling. Units are the larger of (i) the number of movable or portable dwellings connected to utilities on the Assessor’s Parcel or (ii) the number of spaces authorized under building permits for such connections.

“Multi-Family Property” means all Assessor’s Parcels of Developed Property that either (i) include two or more Units or (ii) include only a single Unit of a larger structure that is part of condominium project as that term is defined in Civil Code Section 4125 or a townhome.

“Office Property” means all Assessor’s Parcels of Developed Property used as offices, including medical, dental offices and office condominiums, according to Assessor’s Data or as otherwise known by the CFD Administrator.

“Property Owner’s Association” means any property owner’s association. As used in this definition, a Property Owner’s Association includes any home-owner’s association, condominium owner’s association, master or sub-association.

“Property Owner’s Association Property” means any property which is (a) owned by a Property Owner’s Association or (b) designated with specific boundaries and acreage on a final subdivision map as property owner association property.

“Proportionately” means, for Developed Property that the ratio of the Special Tax levy to the Maximum Special Tax is equal for all Assessors’ Parcels of Developed Property within CFD 2021-01.

“Public Property” means any property owned by, irrevocably offered or dedicated to, or for which an easement for purposes of public or private road right-of-way making the property unusable for any other purpose has been granted to the federal government, the State of California, the County, the City, the Community Services District, or any local government or other public agency.

“Single Family Property” means all Parcels of Developed Property with one permanent dwelling Unit,

according to Assessor's Data or as otherwise known by the CFD Administrator. Single Family Property does not include any property that is considered Multi-Family Property.

"Special Tax" means the amount levied in each Fiscal Year on each Assessor's Parcel of Taxable Property to fund the Annual Special Tax Requirement.

"Tax Escalation Factor" means the greater of the increase in the annual percentage change in the Consumer Price Index (CPI) for All Urban Consumers for the Riverside-San Bernardino-Ontario County Region as published by the Department of Labor's Bureau of Labor Statistics or five percent (5%). If the CPI for the Riverside-San Bernardino-Ontario County area is discontinued, the CFD administrator may replace it with a similar index for the purposes of calculating the Annual Escalation Factor.

"Tax Zone" means a mutually exclusive geographic area within which the Special Tax may be levied pursuant to this Rate and Method of Apportionment. ***All the Taxable Property within CFD 2021-01 at the time of its formation is within Tax Zone No. 1.*** Additional Tax Zones may be created when property is annexed to CFD 2021-01, and a separate Maximum Special Tax shall be identified for property within each new Tax Zone at the time of such annexation. The Assessor's Parcels included within a new Tax Zone when such Parcels are annexed to CFD 2021-01 shall be identified by Assessor's Parcel number in the annexation documents at the time of annexation.

"Taxable Property" means all Parcels within the boundary of CFD 2021-01 that are not Exempt Property or exempt from the Special Tax pursuant to the Act.

"Undeveloped Property" means all Parcels of Taxable Property that are not Developed Property.

"Unit" means any individual single family detached or attached home, townhome, condominium, apartment, mobile home or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure. An Accessory Dwelling Unit on a Parcel of Single Family Property shall be considered a separate Unit for purposes of calculating the Special Tax.

"Welfare Exempt Property" means all Parcels within the boundaries of CFD 2021-01 receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

II. DETERMINATION OF TAXABLE PARCELS

On or about July 1 of each Fiscal Year, the CFD Administrator shall determine the Annual Special Tax Requirement for that Fiscal Year and shall identify each parcel of Taxable Property within CFD 2021-01. The property type, APN and characteristics of each such parcel should be updated based on the most current information reasonably available to the CFD Administrator, and a tax amount determined for each parcel as set forth in Section III, below.

III. SPECIAL TAX - METHOD OF APPORTIONMENT

All Taxable Property shall be subject to a Special Tax defined as follows.

The Special Tax shall be levied each Fiscal Year by the CFD Administrator. The Annual Special Tax Requirement shall be apportioned to each Parcel within CFD 2021-01 by the method shown below.

- First. Determine the Annual Special Tax Requirement.
- Second. Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the Maximum Special Tax described in the table below to satisfy the Annual Special Tax Requirement.

Under no circumstances will the Special Tax on any Assessor’s Parcel of Developed Property be increased by more than 10% as a consequence of delinquency or default by the owner of any other Assessor’s Parcel within CFD No. 2021-01.

TABLE 1
MAXIMUM SPECIAL TAX RATES – TAX ZONE NO. 1
FISCAL YEAR 2021/22*

Property Type	Maximum Special Tax Rate	Per
Single Family Property	\$291.59	Unit
Multi-Family Property	291.59	Unit
Mobile Home Property	291.59	Unit
Commercial Property	18.69	1,000 Feet of Building Square Footage
Office Property	31.12	1,000 Feet of Building Square Footage
Industrial Property	9.07	1,000 Feet of Building Square Footage
Undeveloped Property	0	Parcel

**On each July 1, commencing on July 1, 2022, the Maximum Special Tax Rate for each Tax Zone shall be increased by the Tax Escalation Factor.*

Except as otherwise specifically provided in this document in the definition of Mobile Home Property, taxes shall be calculated based on the combined characteristics as of March 1 of the preceding Fiscal Year of (i) all improvements located on a parcel that were constructed after the territory of the parcel became a part of the Community Facilities District and (ii) all unbuilt improvements on the parcel for which a building permit has been issued.

Tax Zone No. 1 is the initial (and only) Tax Zone in CFD 2021-01. Other Tax Zones may be created in the future via the designation of annexation areas.

In some instances, an Assessor’s Parcel of Developed Property may be Mixed-Use Property. The Maximum Special Tax levied on an Assessor’s Parcel shall be the sum of the Maximum Special Tax for all Units and Building Square Feet of each property type on that Assessor’s Parcel.

IV. FORMULA FOR PREPAYMENT OF SPECIAL TAX OBLIGATIONS

The Special Tax may not be prepaid.

V. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Agricultural Property, Property Owner Association Property, Welfare Exempt Property or Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

VI. INTERPRETATION OF RATE AND METHOD OF APPORTIONMENT

The Community Services District reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the Community Services District’s discretion. Interpretations may be made by the Board of Directors by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

VII. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the Community Services District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD 2021-01, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD 2021-01, as needed to fund the Annual Special Tax Requirement, in perpetuity.

VIII. APPEAL OF SPECIAL TAX LEVY

Any taxpayer that believes that the amount of the Special Tax assigned to a Parcel is in error may file a written notice with the CFD Administrator appealing the levy of the Special Tax. This notice is required to be filed with the CFD Administrator during the Fiscal Year the error is believed to have occurred. The CFD Administrator or its designee will then promptly review the appeal and, if necessary, meet with the taxpayer. If the CFD Administrator determines that the tax should be changed the Special Tax levy shall be corrected and, if applicable, a refund shall be granted.

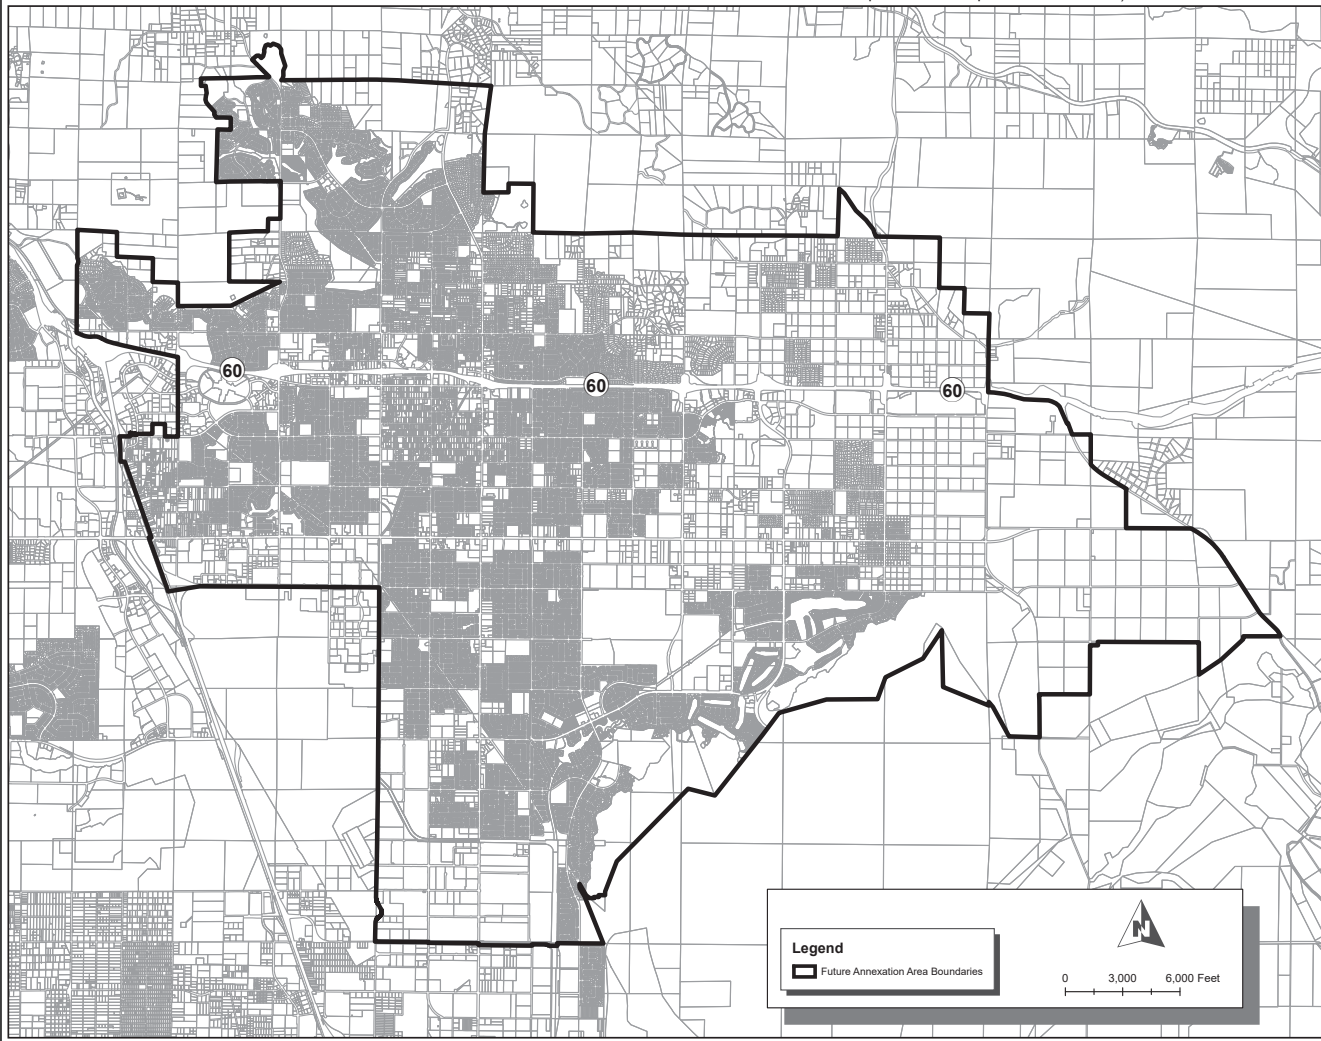

The decision of the CFD Administrator may be appealed by the Taxpayer to the Board of Directors within 30 days of the issuance of a written determination by the CFD Administrator. Any decision of the Board of Directors shall be final.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action.

Report to City Council

TO: Mayor and City Council

FROM: Manuel A. Mancha, Community Development Director

AGENDA DATE: October 19, 2021

TITLE: PROPOSED GENERAL PLAN AMENDMENT AND CHANGE OF ZONE AMENDING "MAP LCC-4: GENERAL PLAN LAND USE" OF THE MORENO VALLEY GENERAL PLAN AND THE CITY ZONING ATLAS, RESPECTIVELY, PROPOSED TENTATIVE PARCEL MAP 37944 FOR TWO (2) LOTS, A PLOT PLAN FOR AN APPROXIMATELY 290,726 SQUARE FOOT LIGHT INDUSTRIAL BUILDING, AND A PLOT PLAN FOR AN APPROXIMATELY 98,877 SQUARE FOOT LIGHT INDUSTRIAL BUILDING

RECOMMENDED ACTION

Recommendations: That the City Council:

1. **ADOPT** Resolution 2021-XX: A Resolution of the City Council of the City of Moreno Valley **CERTIFYING** that the Initial Study/Mitigated Negative Declaration prepared for General Plan Amendment PEN20-0118, Change of Zone PEN20-0119, Tentative Parcel Map PEN20-0120, and Plot Plans PEN20-0121 and PEN20-0124 on file with the Community Development Department, and incorporated herein by this reference, was completed in compliance with the California Environmental Quality Act and the CEQA Guidelines, that the City Council reviewed and considered the information contained in the Initial Study/Mitigated Negative Declaration and that the document reflects the City's independent judgment and analysis, and **ADOPTING** the Mitigation Monitoring and Reporting Program prepared for the above-referenced Mitigated Negative Declaration; and
2. **ADOPT** Resolution 2021-XX: A Resolution of the City Council of the City of Moreno Valley approving a General Plan Amendment based on the Recitals and Evidence contained in the Administrative Record and Findings as set for in the Resolution No. 2021-XX to amend the General Plan Land Use Map as described

in the Resolution, based on the findings contained in the Resolution, and the revised Land Use Map; and

3. **INTRODUCE** and conduct the first reading by title only of Ordinance No. XXX, approving a Change of Zone PEN20-0119 to amend the City Zoning Atlas based on the Recitals, Evidence contained in the Administrative Records and Findings as set forth in Ordinance No. XXX; and
4. **ADOPT** Resolution No. 2021-XX, A Resolution of the City Council of the City of Moreno Valley approving Tentative Parcel Map 37944, PEN20-0120 based on the findings contained in this Resolution, and subject to the conditions of approval included as Exhibit A; and
5. **ADOPT** Resolution No. 2021-XX, A Resolution of the City of the City of Moreno Valley approving Plot Plans PEN20-0121 and PEN20-0124 based on the findings contained in this Resolution, and subject to the conditions of approval included as Exhibit A; and
6. **SCHEDULE** the second reading and adoption of Ordinance No. XXX for the next regular meeting.

SUMMARY

This staff report recommends approval of development applications for the Compass Danbe Project for the development of two light industrial buildings located on the south side of Alessandro Boulevard west of Frederick Street and east of Graham Street.

The recommended actions for the project also include a General Plan Amendment, Change of Zone, Tentative Parcel Map and two Plot Plans for light industrial development.

BACKGROUND

As provided for in the California Government Code, a mandatory element of the General Plan may be amended no more than four times during one calendar year. The recommended action is for the City Council to approve the General Plan Amendment to change the Land Use Element covering the land use designation change. This change will be the third amendment to the Land Use Element of the General Plan for the 2021 calendar year.

Planning Commission Recommendation

At its August 26, 2021 meeting, the Planning Commission held a public hearing and voted to recommend that the City Council certify the Mitigated Negative Declaration, adopt a Mitigation Monitoring and Reporting Program, and approve the General Plan Amendment, Change of Zone, Tentative Parcel Map 37944, and two Plot Plans for the Compass Danbe project.

Prior to the Planning Commission meeting five (5) comment letters were received regarding the Project. Three did not raise any opposition to the Project. Two, one from South Coast Air Quality Management District (SCAQMD) and one from Golden State Environmental Justice Alliance (GSEJA) discussed concerns relating to several categories including air quality and truck traffic. A response to each comment submitted in the SCAQMD letter has been prepared and published. A response to comments for the GSEJA was not prepared, since the City received a withdrawal of the comment letter on September 2, 2021. The letters and response to comments are included in the attachments.

During the Planning Commission public hearing, there were seven commenters, six were in support and one was in opposition to the Project.

DISCUSSION

Project

The Applicant CDRE Holding 17, LLC (“Applicant”) is requesting approval of the following: a General Plan Amendment (PEN20-0118), to change the land use designation of the Project site from Commercial to Business Park/Light Industrial, a Change of Zone (PEN20-0119), to amend the Zoning Atlas from Community Commercial District (CC) to Light Industrial (LI), a Tentative Parcel Map 37944 (PEN20-0120) for two parcels, a Plot Plan (PEN20-0121) for a 290,726 square foot light industrial building and a Plot Plan (PEN20-0124), a Plot Plan for a 98,877 square foot light industrial building located on the south side of Alessandro Boulevard between Frederick Street and Graham Street, on parcels identified as Assessor Parcel Nos. 297-170-002 and 003.

General Plan Amendment

The City’s General Plan is a comprehensive, long-term plan for the development of the City of Moreno Valley. The General Plan is at the top of the hierarchy of the City’s land use regulations, which means that the City’s zoning and other land use decisions must conform to the General Plan. A General Plan’s Land Use Element, which is referred to as the “Land Use & Community Character Element” in the City’s General Plan, must designate the proposed general distribution, location, and extent of land uses for housing; business; industry; open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty; education; public buildings and grounds; waste disposal facilities; and other categories of public and private uses.

Under the General Plan, the Project Site’s land use designation is Commercial. The primary purpose of the Commercial land use designation is to allow for the development of land for business purposes, including but not limited to, retail stores, restaurants, banks, hotels, professional offices, personal services and repair services.

The Applicant is requesting, via A General Plan Amendment, that the Commercial land use designation be changed to Business Park/Light Industrial. The primary purpose of the Business Park/Light Industrial land use designation is to allow for the development

of land for manufacturing, research and development, warehousing and distribution, office uses and other uses that support commercial activities. If the proposed General Plan Amendment is approved, the land use designation of the Project Site will remain consistent with adjacent parcels to the south and east, which fall within the Business Park/Light Industrial land use designation. On balance, the General Plan Amendment will increase the amount of land in the City with a Business Park/Light Industrial land use designation by approximately 17.67-acres, with a corresponding decrease in the amount of land within the City with a Commercial land use designation.

Change of Zone

In contrast to planning goals and objectives of the General Plan, which has a much broader connotation, zoning is a separation of the City into zoning districts, and includes the regulation of buildings and structures, according to their construction, and the nature and extent of their use.

Consistent with the Project Site's General Plan Commercial land use designation, the Project Site is currently zoned Community Commercial (CC). The Applicant, however, want to also change the Project Site's zoning to Light Industrial (LI). The primary purpose of the Light Industrial (LI) zone is to provide for the development of light manufacturing, light industrial, research and development, warehousing and distribution and multitenant industrial uses, as well as certain supporting administrative and professional offices and commercial on a limited basis. While the purpose of the two zoning districts are different, the proposed Change of Zone will be consistent with adjacent parcels to the south since those parcels are developed with light industrial buildings and zoned Light Industrial District (LI).

Tentative Parcel Map

The Applicant is also requesting the approval of a Tentative Parcel Map 37944 to subdivide a single parcel into two separate parcels for Building #1 and Building #2.

The Subdivision Map Act distinguishes between a subdivision consisting of five or more parcels, which requires a tentative and final map, and a subdivision consisting of only four or fewer parcels, which merely requires a parcel map. However, local ordinances may require a tentative map for subdivisions of four or fewer parcels, which is what is required under the City's Municipal Code. When a tentative map is involved, no grading or construction work shall be performed until the tentative map and the improvement plans for such work have been approved by the appropriate approving authority of the City.

Plot Plans

The Applicant is requesting approval of two separate Plot Plans. The purpose of a Plot Plan is to provide a mechanism by which new construction and design of industrial, commercial or multiple-family residential projects can be reviewed.

The Applicant is proposing the construction of two light industrial buildings, one

approximately 290,726 square feet in size and one approximately 98,877 square feet in size (“Project”) with associated parking, landscape improvements and off-site public improvements.

The current proposal anticipates both buildings will be constructed in conjunction with each other. However, should one building be delayed, all on-site and off-site improvements shall be constructed with the first building.

In approving a plot plan, the approving authority shall impose conditions of approval for the project regarding on-site improvements, off-site improvements, the manner in which the site is used and any other conditions as may be deemed necessary to protect the public health, safety and welfare and ensure that the project will be developed in accordance with the purpose and intent of the City’s regulations as set forth in Title 9 (Planning and Zoning).

Surrounding Vicinity

The Project Site is located in the center of the block on the southside of Alessandro Boulevard between Frederick Street and Graham Street.

The property across the street from the Project Site on the northside of Alessandro Boulevard is zoned Neighborhood Commercial (NC), Residential 20 (R20), and Residential 5 (R5), and is developed as such. The property west of the Project Site is vacant and unimproved and it is zoned Community Commercial (CC). The property south of the Project Site is developed with light industrial buildings and zoned Light Industrial District (LI). To the east of the Project Site, the land is vacant and unimproved and zoned Business Park-Mixed Use District (BPX) and Community Commercial (CC).

Access/Parking

Access to the Project Site will be from three new driveways along Alessandro Boulevard. All three driveways will be right-in and right-out, with only two driveways designed to accommodate truck traffic.

The Project’s proposed truck and automobile parking exceed the Municipal Code’s parking standards for such projects. Overall, a total of 217 parking spaces will be provided for both buildings which include standard automobile, ADA, EV, EVCS and Clean Air spaces, with 44-truck stalls in the truck court. Bicycle parking will also be provided as required by the City’s applicable standards.

Design/Landscaping

The proposed light industrial type buildings incorporate a contemporary architectural design. Dark bronze metal tower elements at the building corners provide a focal point with textured concrete sections, glass, tile and various awning types, bringing an office aesthetic to the buildings. The elements are included on the side elevations for continuity of the buildings. The colors of off-white, taupe and warm grey provide the background for the dark bronze metal tower and brown metal window treatments, which

include flat awnings above the pained windows and elongated awnings at intervals, which break up the massing of the buildings.

Extensive landscaping is provided along the building frontage in addition to the required front set back and right-of-way landscaping which includes plant, ground covers, street trees and on-site trees.

Environmental

An Initial Study was prepared by T&B Planning, Inc., in compliance with the California Environmental Quality Act (CEQA) and the CEQA Guidelines. The Initial Study examined the potential Project impacts on the environment. The Initial Study/Mitigation Negative Declaration (IS/MND) provides information in support of the finding that a Mitigated Negative Declaration serves as the appropriate CEQA documentation for the proposed Project in that the proposed Project, with the implementation of the proposed mitigation measures, will not have a significant effect on the environment.

Technical studies prepared in support of the IS/MND include the following: Air Quality Impact Analysis, Mobile Source Health Risk Assessment, MSHCP General Biological Resources Assessment & Compliance Analysis, Jurisdictional Delineation Report and Impact Analysis, MSHCP Determination of Biologically Equivalent or Superior Preservation, Burrowing Owl Focused Survey Report, Least Bell's Vireo Focused Survey Report, Phase I Cultural Resources Survey, Energy Analysis, Geotechnical Engineering Investigation, Greenhouse Gas Analysis, Phase I Environmental Site Assessment Report, Paleontological Assessment, Preliminary Water Quality Management Plan, Preliminary Drainage Study, Noise Impact Analysis, Traffic Analysis, and Vehicle Miles Traveled (VMT) Analysis. The electronic files for the IS/MND with appendices are attached to this staff report.

Public Notices

The City provided the requisite notices related to the Project's Mitigated Negative Declaration as required under the California Environmental Quality Act ("CEQA") (Public Res. Code, § 21000 *et seq.*), the State CEQA Guidelines (14 CCR § 15000 *et seq.*), and the City of Moreno Valley's "Rules and Procedures for the Implementation of CEQA," as discussed below.

There was no notice requirement for an Initial Study until the City determined that it would prepare either a Negative Declaration or an Environmental Impact Report. If the City concluded that a Negative Declaration was required, it was required to immediately send out a Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration. (14 Cal Code Regs. § 15072.) The City was required provide the Notice by:

1. Mailing the Notice to the last known name and address of all organizations and individuals who have previously requested such notice in writing;
and
2. Giving notice by at least one of the following:

- a. Publication at least one time in a newspaper of general circulation in the area;
- b. Posting of notice on and off site in the area where the project is to be located;
- or
- c. Direct mailing to the owners and occupants of property contiguous to the project, with the owners of such property being identified as shown on the latest equalized assessment roll.

The City was also required to send a copy of the Notice of Intent to each responsible agency. (14 Cal. Code Regs. 15073.) The review period must be at least 20 days, but the City provided 30 days. If any agency provided comments, the City was required to also give notice of any public hearing on the project to the commenting agency.

Moreno Valley Municipal Code Section 9.02.200 (Public Hearing and Notification Procedures) provides in part that the public review period for a proposed negative declaration or mitigated negative declaration shall be not less than twenty (20) days. However, when a proposed negative declaration or mitigated negative declaration is submitted to the State Clearinghouse for review by state agencies, the public review period shall not be less than thirty (30) days, unless a shorter period, not less than twenty (20) days, is approved by the State Clearinghouse.

The following records, which are available to review in the Planning Division and which are part of the Administrative Record for the Project, demonstrate that the City complied with all the aforementioned notice requirement under CEQA and the CEQA Guidelines: 1) Public Agency Mailing List; 2) Notice of Availability/Notice of Intent; 3) Notice of Availability/Notice of Intent filed with the County; 4) Notice of Availability/Notice of Intent filed with the Department of Fish & Game; 5) Notice of Availability/Notice of Intent submitted to Press Enterprise Newspaper; 6) State Clearinghouse confirmation of receipt; 7) San Manuel Band of Mission Indians Comment Letter, dated 08/25/2021; 8) South Coast Air Quality Management District Comment Letter dated 08/17/2021; 9) March Joint Powers Authority Comment Letter dated 08/05/2021; 10) Golden State Environmental Justice Alliance Comments Letters, dated 02/20/2021, 08/26/2021 and 09/02/2021, respectively; 11) Planning Commission Public Hearing Notice; 12) Property Owner List; 13) Planning Commission Staff Report; and 14) City Council Public Hearing Notice.

Because the City is a local agency, within five working days after the approval of the project for which the Mitigated Negative Declaration was prepared becomes final, a Notice of Determination must be filed with the County Clerk. (Pub Res C § 21152; 14 Cal Code Regs. § 15075.) Since this Project has not received final approval, there is currently no Notice of Determination.

Moreover, the Project Application, Planning Commission Meeting Agenda, Planning Commission Staff Report and this Staff Report indicate that Project includes applications for the following entitlements: 1) General Plan Amendment; 2) Zone Change; 3) Tentative Tract Map; and 4) Plot Plans.

In addition to providing the notices required under CEQA and/or the CEQA Guidelines, the Moreno Valley Municipal Code requires that public notice be provided for the above entitlement applications as follows:

Section 9.02.040 – General Plan Amendments

For General Plan Amendments, the Planning Commission must conduct a public hearing which requires notice of the Public Hearing to be provided in accordance with Section 9.02.200 (Public Hearing and Notification Procedures).

Section 9.02.050 – Amendments to Zoning Districts or Other Provisions of Title 9

For Amendment to Zoning Districts (Zone Changes), the Planning Commission must conduct a public hearing which requires notice of the Public Hearing to be provided in accordance with Section 9.02.200 (Public Hearing and Notification Procedures).

Section 9.02.070 – Plot Plan

Except as otherwise provided, authority for approval of plot plans is vested with the Planning Commission. Plot plan applications shall be subject to major development review procedures pursuant to Section 9.02.200 (Public Hearing and Notification Procedures).

Section 9.14.050 – Processing of Tentative Maps

For tract maps, a public hearing shall be held before the Planning Commission with notice of the public hearing being provided pursuant to Section 9.02.200 (Public Hearing and Notification Procedures), as amended by Ordinance No. 959.

Section 9.02.20 - Public Hearing and Notification Procedures

Section 9.02.20, as amended by Ordinance No. 959, provides in relevant part that whenever a public hearing is required, notice of public hearings shall be given by: 1) Publication in a newspaper of general circulation within the city at least ten (10) calendar days prior to the public hearing; 2) Mailing, at least ten (10) calendar days prior to the public hearing, to all owners of property within a radius of six hundred (600) feet from the exterior boundaries of the property involved in the application. For this purpose, the last known name and address of each property owner, as contained in the records of the latest equalized Riverside County assessor rolls, shall be used. If the number of owners to whom notice would be mailed or delivered pursuant to this subsection is greater than one thousand (1,000), in lieu of mailed or delivered notice, notice may be provided by placing a display advertisement of at least one-eighth page in at least one newspaper of general circulation in the city at least ten (10) days prior to the hearing.

In addition, Section 9.02.200 provides notice of the public hearing must be mailed at least ten (10) calendar days prior to the public hearing, or delivering at least ten (10) calendar days prior to the public hearing, to each local agency expected to provide

water, sewer, schools, or other essential services or facilities to the project whose ability to provide those facilities and services may be significantly affected.

The notice of the public hearing must also be mailed, at least ten (10) calendar days prior to the public hearing, to any person who has filed a written request with the community development director and has provided the community development director with a self-addressed stamped envelope for that purpose.

Notice of both the Planning Commission Public Hearing and City Council Public Hearing was provided pursuant to Section 9.02.200.

The following records, which are available to review in the Planning Division and which are part of the Administrative Record for the Project, demonstrate that the City complied with all the aforementioned notice requirements set forth in the Municipal Code: 1) Public Agency Mailing List; 2) Public Hearing Notices; 3) Property Owner List; and 4) Planning Commission Staff Report.

ALTERNATIVES

1. Conduct a public hearing and take action to certify the Initial Study/Mitigated Negative Declaration and Mitigated Monitoring and Reporting Program, approve the General Plan Amendment, Change of Zone, Tentative Parcel Map 37944 and approve both Plot Plans consistent with the Staff recommendations to the Planning Commission. Staff recommends this alternative.
2. Conduct a public hearing on the Project and do not approve the applications. Staff does not recommend this alternative.

FISCAL IMPACT

Not applicable

NOTIFICATION

The public hearing notice was published on September 24, 2021 in the local Press Enterprise newspaper. Public notices were sent to all property owners within 600 feet of the project site on September 23, 2021, and posted on the site September 24, 2021.

CITY COUNCIL GOALS

Community Image, Neighborhood Pride and Cleanliness. Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

CITY COUNCIL STRATEGIC PRIORITIES

1. **Economic Development**
2. **Public Safety**
3. **Library**
4. **Infrastructure**
5. **Beautification, Community Engagement, and Quality of Life**
6. **Youth Programs**

Objective 1.1: Proactively attract high-quality businesses.

Objective 1.3: Promote local hiring through the expansion of local, quality, high paying jobs, and workforce development efforts.

Objective 1.5: Showcase Moreno Valley's unique assets.

Objective 2.5: Develop partnerships with local businesses and warehouse operators to reduce traffic related issues.

RESOLUTION NUMBER 2021-

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, ADOPTING A MITIGATED NEGATIVE DECLARATION AND MITIGATION MONITORING AND REPORTING PROGRAM FOR THE COMPASS DANBE CENTERPOINTE PROJECT LOCATED ON THE SOUTH SIDE OF ALESSANDRO BOULEVARD BETWEEN FREDERICK STREET AND GRAHAM STREET (APN'S 297-170-002 AND 003)

WHEREAS, the City of Moreno Valley ("City") is a general law city and a municipal corporation of the State of California, and the lead agency for the preparation and consideration of environmental documents for local projects that are subject to requirements of the California Environmental Quality Act (CEQA) and CEQA Guidelines; and

WHEREAS, CDRE Holdings, LLC., ("Developer") is seeking approval for the development of the Compass Danbe Centerpointe project, a two building light industrial complex on a 17.67-acre site that includes: 1) a General Plan Amendment (GPA) (PEN20-0118) amending the "Land Use Map" (Map LCC-4) of the Moreno Valley General Plan to change the land use designation of the Project site from Commercial to Business Park; 2) a Change of Zone (PEN20-0119) to change the zoning designation of the site from Community Commercial District (CC) to Light Industrial District (LI); 3) a Tentative Parcel Map (PEN20-0120) for two lots; 4) a Plot Plan (PEN20-0121) for an approximately 290,726 square foot light industrial building; 5) a Plot Plan (PEN21-0124) for an approximately 98,877 square foot light industrial building with associated public improvements located on the south side of Alessandro Boulevard between Frederick Street and Graham Street (APN'S 297-170-002-003); and

WHEREAS, the proposed "Project" shall include not only the General Plan Amendment (GPA) (PEN20-0118), Change of Zone (PEN20-0119), Tentative Parcel Map (PEN20-0120), and two Plot Plans (PEN20-0121 and PEN20-0124), but also a corresponding amendment to the City's Zoning Atlas to reflect the proposed changes in the zoning classification and/or redistricting associated with the General Plan Amendment; and

WHEREAS, Planning Division Staff completed an environmental assessment for the proposed Project, and, based on the assessment, decided to prepare an Initial Study ("IS") and a Mitigated Negative Declaration ("MND") in accordance with Section 6 (ND Procedures) of the City's Rules and Procedures for the Implementation of the California Environmental Quality Act and the requirements of the CEQA Guidelines Sections 15070 – 15075; and

WHEREAS, a Notice of Intent to Adopt a Mitigated Negative Declaration was duly noticed and circulated for public review for a period of 30 days commencing on July 26, 2021, through August 25, 2021; and

WHEREAS, in conformance with CEQA and the CEQA Guidelines, a Mitigation Monitoring and Reporting Program (“MMRP”) that includes a program for reporting on and monitoring Project mitigation measures was prepared for the proposed Project and noticed with the Mitigated Negative Declaration; and

WHEREAS, on August 26, 2021 a hearing was conducted by the Planning Commission whereby the Planning Commission approved Planning Commission Resolution 2021-24, a recommendation that the City Council approve the Mitigated Negative Declaration and the Mitigation Monitoring Plan and approve the proposed Project; and

WHEREAS, on October 5, 2021, a hearing was conducted by the City Council to approve the Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program and approve the proposed Project; and

WHEREAS, at the conclusion of the public hearing, in the exercise of its own independent judgment, the City Council has determined that the Mitigated Negative Declaration and the Mitigation Monitoring and Reporting Program will reduce the environmental impacts of the Project to levels of insignificance and that there is no substantial evidence supporting a fair argument that the Project will have a significant effect on the environment.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. Recitals and Exhibits

That the foregoing Recitals and attached exhibits are true and correct and are hereby incorporated by this reference.

Section 2. Evidence

That the City Council has considered all the evidence submitted into the Administrative Record for the Mitigated Negative Declaration and Mitigation Monitoring Plan, including, but not limited to, the following:

- (a) Mitigated Negative Declaration/Initial Study prepared for the proposed Project, attached hereto as Exhibit A;
- (b) Notice of Intent to Adopt a Mitigated Negative Declaration/Newspaper Notice, attached hereto as Exhibit B;
- (c) Mitigation Monitoring and Reporting Program, attached hereto as Exhibit C;
- (d) Staff Report prepared for the City Council’s consideration and all documents, records and references related thereto, and Staff’s presentation at the public hearing; and
- (e) Testimony, comments and correspondence from all persons that were provided at, or prior to, the public hearing.

Section 3. Findings

That based on the content of the foregoing Recitals and the Evidence contained in the Administrative Record as set forth above, the City Council makes the following findings:

- (a) That the City has independently reviewed, analyzed, and considered the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program, and the whole record before it, including, the Initial Study and comments received;
- (b) That the proposed mitigation measures will reduce all environmental impacts of the proposed Project to levels of insignificance and there is no substantial evidence supporting a fair argument that the Project will have a significant effect on the environment;
- (c) That the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program have been completed in compliance with CEQA and the CEQA Guidelines consistent the City’s Rules and Procedures for the Implementation of the California Environmental Quality Act.
- (d) That the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program reflect the independent judgment and analysis of the City as lead agency for the proposed Project; and
- (e) That the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program are adequate to serve as the required CEQA environmental documentation for the proposed Project.

Section 4. Adoption

That based on the foregoing Recitals, Evidence contained in the Administrative Record and Findings, as set forth herein, the City Council hereby adopts the Mitigated Negative Declaration/Initial Study attached hereto as Exhibit A and the Mitigation Monitoring and Reporting Program attached hereto as Exhibit C.

Section 5. Repeal of Conflicting Provisions

That all the provisions as heretofore adopted by the City Council that are in conflict with the provisions of this Resolution are hereby repealed.

Section 6. Severability

That the City Council declares that, should any provision, section, paragraph, sentence or word of this Resolution be rendered or declared invalid by any final court action in a court of competent jurisdiction or by reason of any preemptive legislation, the remaining provisions, sections, paragraphs, sentences or words of this Resolution as hereby adopted shall remain in full force and effect.

Section 7. Effective Date

That this Resolution shall take effect immediately upon the date of adoption.

Section 8. Certification

Attachment: Resolution 2021- Initial Study [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

That the City Clerk for the City Council shall certify to the passage of this Resolution.

MITIGATED NEGATIVE DECLARATION FOR COMPASS DANBE CENTERPOINTE PROJECT

Project Description:

The Compass Danbe Centerpointe project comprises a proposal for a General Plan Amendment (PEN20-0118); Change of Zone (PEN20-0119); Tentative Parcel Map No. 37944 (PEN20-0120); and two Plot Plans (PEN20-0121 and PEN20-0124) that provide for the development of an approximately 17.7-acre property with two light industrial buildings with a total combined building floor area of 389,603 square feet. The Project also would include cargo loading areas at each building (within an enclosed truck court with loading docks on the south sides of the proposed buildings), parking areas, landscaping, signage, and lighting.

Project Location:

The Project site is located south of Alessandro Boulevard, between Frederick Street and Graham Street, in the City of Moreno Valley, Riverside County, California (APNs: 297-170-002 and -003).

Project Proponent:

Mark Bachli
CDRE Holdings 17 LLC
523 Main Street
El Segundo, CA 90245

Findings:

It is hereby determined that, based on the information contained in the attached Initial Study, the Project would not have a significant adverse effect on the environment.

Mitigation Measures:

No.	Mitigation Measure
BR-1	<p>Within 30 days prior to grading, a qualified biologist shall conduct a survey of suitable habitat on site and make a determination regarding the presence or absence of the burrowing owl. The determination shall be documented in a report and shall be submitted, reviewed, and accepted by the City of Moreno Valley prior to the issuance of a grading permit and subject to the following provisions:</p> <ul style="list-style-type: none"> a) In the event that the pre-construction survey identifies no burrowing owls on the property a grading permit may be issued without restriction. b) In the event that the pre-construction survey identifies the presence of at least one individual but less than three (3) mating pairs of burrowing owl, then prior to the issuance of a grading permit and prior to the commencement of ground-disturbing activities on the property, the qualified biologist shall passively or actively relocate any burrowing owls. Passive relocation, including the required use of one-way doors to exclude owls from the site and the collapsing of burrows, will occur if the biologist determines that the proximity and availability of alternate habitat is suitable for successful passive relocation. Passive relocation shall follow CDFW relocation protocol and shall only occur between September 15 and February 1. If proximate alternate habitat is not present as determined by the biologist, active relocation shall follow CDFW relocation protocol. The biologist shall confirm in writing that the species has fledged the site or been relocated prior to the issuance of a grading permit. c) In the event that the pre-construction survey identifies the presence of three (3) or more mating pairs of burrowing owl, the requirements of MSCHP Species-

No.	Mitigation Measure
	<p>Specific Conservation Objectives 5 for the burrowing owl shall be followed. Objective 5 states that if the site (including adjacent areas) supports three (3) or more pairs of burrowing owls and supports greater than 35 acres of suitable habitat, at least 90 percent of the area with long-term conservation value and burrowing owl pairs will be conserved onsite until it is demonstrated that Objectives 1-4 have been met. A grading permit shall be issued, either:</p> <ul style="list-style-type: none"> i) Upon approval and implementation of a property-specific Determination of Biologically Superior Preservation (DBESP) report for the burrowing owl by the CDFW; or ii) A determination by the biologist that the site is part of an area supporting less than 35 acres of suitable Habitat, and upon passive or active relocation of the species following accepted CDFW protocols. Passive relocation, including the required use of one-way doors to exclude owls from the site and the collapsing of burrows, will occur if the biologist determines that the proximity and availability of alternate habitat is suitable for successful passive relocation. Passive relocation shall follow CDFW relocation protocol and shall only occur between September 15 and February 1. If proximate alternate habitat is not present as determined by the biologist, active relocation shall follow CDFW relocation protocol. The biologist shall confirm in writing that the species has fledged the site or been relocated prior to the issuance of a grading permit.
BR-2	<p>All vegetation clearing and ground disturbance shall be prohibited during the bird nesting season (February 1 through September 15), unless a nesting bird survey is completed in accordance with the following requirements:</p> <ul style="list-style-type: none"> a) A bird nesting survey of the Project Site, including suitable habitat within a 100-foot radius, shall be conducted by a qualified biologist within five (5) days prior to initiating vegetation clearing or ground disturbance at the respective property. A copy of the nesting bird survey results report shall be provided to the City of Moreno Valley. b) If the survey does not identify the presence of any active nests, then construction activities can proceed without restriction. c) If the survey identifies the presence of active nests, then the qualified biologist shall provide the City with a copy of maps showing the location of all nests and a species-appropriate buffer zone around each nest sufficient to protect the nest from substantial adverse direct and/or indirect impacts. The size and location of all buffer zones, if required, shall be subject to review and approval by the City but shall be no less than a 100-foot radius around the nest for non-raptor species and no more than a 500-foot radius around the nest for raptor species and any endangered, threatened, or candidate species. <ul style="list-style-type: none"> i) The nests and buffer zones shall be field checked weekly by a qualified biological monitor. The approved buffer zone shall be marked in the field with construction fencing. No construction vehicles shall be permitted within restricted areas (i.e., bird protection zones), unless directly related to the management or protection of the legally protected species, until after the nest becomes inactive (or the nest has failed), the young have fledged, the young are no longer being fed by the parents, the young have left the area, or the young will no longer be impacted by the activities. ii) In the event that a nest is abandoned despite efforts to minimize disturbance and, if the nestlings are still alive, the Project Applicant/Developer shall contact the California Department of Fish and

No.	Mitigation Measure
	Wildlife (CDFW) and, subject to CDFW approval, fund the recovery and hacking (controlled release of captive reared young) of the nestling(s).
BR-3	Prior to the issuance of grading permits, the Project Applicant shall obtain all applicable permits for impacts to jurisdictional features, which may include a 1602 Streambed Alteration Agreement from CDFW and a 401 Certification issued by the RWQCB pursuant to the California Water Code Section 13260. In addition, the Project Applicant shall purchase a minimum of 0.81-acre of re-establishment credits (a 1:1 mitigation-to-impact ratio for impacts to wetland meadow habitat) and 0.82-acre of rehabilitation credits (a 2:1 mitigation-to-impact ratio for impacts to black willow riparian woodland and disturbed wetland-cattail habitats). Habitat mitigation credits can be purchased either at an approved Habitat Mitigation Bank (e.g., Riverpark Mitigation Bank) or via an In-Lieu Fee Program (e.g., Riverside-Corona Resource Conservation District and the Southwest Resource Management Association Santa Ana River Watershed In-Lieu Fee Program). Approval to purchase the mitigation credits must be granted in advance by the resource agencies. The Project Applicant shall provide evidence to the City of Moreno Valley that the applicable permits have been obtained and that the required habitat mitigation credits have been purchased prior to issuance of grading permits.
GEO-1	Prior to the issuance of a grading permit, the Project Applicant shall provide evidence to the City of Moreno Valley that a qualified paleontologist has been retained by the Project Applicant to conduct monitoring of excavation activities and has the authority to halt and redirect earthmoving activities in the event that suspected paleontological resources are unearthed.
GEO-2	The paleontological monitor shall conduct full-time monitoring during grading and excavation operations in undisturbed, very old alluvial fan sediments at depths exceeding five feet below the existing ground surface and shall be equipped to salvage fossils if they are unearthed to avoid construction delays and to remove samples of sediments that are likely to contain the remains of small fossil invertebrates and vertebrates. The paleontological monitor shall be empowered to temporarily halt or divert equipment to allow of removal of abundant and large specimens in a timely manner. Monitoring may be reduced if the potentially fossiliferous units are not present in the subsurface, or if present, are determined upon exposure and examination by qualified paleontological personnel to have a low potential to contain or yield fossil resources.
GEO-3	Recovered specimens shall be properly prepared to a point of identification and permanent preservation, including screen washing sediments to recover small invertebrates and vertebrates, if necessary. Identification and curation of specimens into a professional, accredited public museum repository with a commitment to archival conservation and permanent retrievable storage, such as the Western Science Museum in Hemet, California, is required for significant discoveries.
GEO-4	A final monitoring and mitigation report of findings and significance shall be prepared, including lists of all fossils recovered, if any, and necessary maps and graphics to accurately record the original location of the specimens. The report shall be submitted to the City of Moreno Valley prior to building final.
TCR-1	Prior to the issuance of a grading permit, the Developer shall retain a professional archaeologist to conduct monitoring of all mass grading and trenching activities. The Project Archaeologist shall have the authority to temporarily redirect earthmoving activities in the event that suspected archaeological resources are unearthed during Project construction. The Project Archaeologist, in consultation with the Consulting Tribe(s), the contractor, and the City, shall develop a Cultural Resources Management Plan (CRMP) in consultation pursuant to the definition in

No.	Mitigation Measure
	<p>AB52 to address the details, timing and responsibility of all archaeological and cultural activities that will occur on the project site. A consulting tribe is defined as a tribe that initiated the AB 52 tribal consultation process for the Project, has not opted out of the AB52 consultation process, and has completed AB 52 consultation with the City as provided for in Cal Pub Res Code Section 21080.3.2(b)(1) of AB52. Details in the Plan shall include:</p> <ul style="list-style-type: none"> a) Project grading and development scheduling; b) The Project archeologist and the Consulting Tribes(s) as defined in MM TCR-1 shall attend the pre-grading meeting with the City, the construction manager and any contractors and will conduct a mandatory Cultural Resources Worker Sensitivity Training to those in attendance. The Training will include a brief review of the cultural sensitivity of the Project and the surrounding area; what resources could potentially be identified during earthmoving activities; the requirements of the monitoring program; the protocols that apply in the event inadvertent discoveries of cultural resources are identified, including who to contact and appropriate avoidance measures until the find(s) can be properly evaluated; and any other appropriate protocols. All new construction personnel that will conduct earthwork or grading activities that begin work on the Project following the initial Training must take the Cultural Sensitivity Training prior to beginning work and the Project archaeologist and Consulting Tribe(s) shall make themselves available to provide the training on an as-needed basis; c) The protocols and stipulations that the contractor, City, Consulting Tribe(s) and Project archaeologist will follow in the event of inadvertent cultural resources discoveries, including any newly discovered cultural resource deposits that shall be subject to a cultural resources evaluation.
TCR-2	<p>Prior to the issuance of a grading permit, the Developer shall secure agreements with the Pechanga Band of Luiseño Indians and Soboba Band of Luiseño Indians for tribal monitoring. The Developer is also required to provide a minimum of 30 days advance notice to the tribes of all mass grading and trenching activities. The Native American Tribal Representatives shall have the authority to temporarily halt and redirect earth moving activities in the affected area in the event that suspected archaeological resources are unearthed. If the Native American Tribal Representatives suspect that an archaeological resource may have been unearthed, the Project Archaeologist or the Tribal Representatives shall immediately redirect grading operations in a 100-foot radius around the find to allow identification and evaluation of the suspected resource. In consultation with the Native American Tribal Representatives, the Project Archaeologist shall evaluate the suspected resource and make a determination of significance pursuant to California Public Resources Code Section 21083.2.</p>
TCR-3	<p>In the event that Native American cultural resources are discovered during the course of grading (inadvertent discoveries), the following procedures shall be carried out for final disposition of the discoveries:</p> <ul style="list-style-type: none"> a) One or more of the following treatments, in order of preference, shall be employed with the tribes. Evidence of such shall be provided to the City of Moreno Valley Planning Division: <ul style="list-style-type: none"> i. Preservation-In-Place of the cultural resources, if feasible. Preservation in place means avoiding the resources, leaving them in the place they were found with no development affecting the integrity of the resources.

No.	Mitigation Measure
	ii. Onsite reburial of the discovered items as detailed in the treatment plan required pursuant to MM TCR-1. This shall include measures and provisions to protect the future reburial area from any future impacts in perpetuity. Reburial shall not occur until all legally required cataloging and basic recordation have been completed. No recordation of sacred items is permitted without the written consent of all Consulting Native American Tribal Governments as defined in MM TCR-1.
TCR-4	The City shall verify that the following note is included on the Grading Plan: "If any suspected archaeological resources are discovered during ground-disturbing activities and the Project Archaeologist or Native American Tribal Representatives are not present, the construction supervisor is obligated to halt work in a 100-foot radius around the find and call the Project Archaeologist and the Tribal Representatives to the site to assess the significance of the find."
TCR-5	If potential historic or cultural resources are uncovered during excavation or construction activities at the project site, work in the affected area must cease immediately and a qualified person meeting the Secretary of the Interior's standards (36 CFR 61), Tribal Representatives, and all site monitors per the Mitigation Measures, shall be consulted by the City to evaluate the find, and as appropriate recommend alternative measures to avoid, minimize or mitigate negative effects on the historic, or prehistoric resource. Determinations and recommendations by the consultant shall be immediately submitted to the Planning Division for consideration, and implemented as deemed appropriate by the Community Development Director, in consultation with the State Historic Preservation Officer (SHPO) and any and all Consulting Native American Tribes as defined in MM TCR-1 before any further work commences in the affected area.
TCR-6	If human remains are discovered, no further disturbance shall occur in the affected area until the County Coroner has made necessary findings as to origin. If the County Coroner determines that the remains are potentially Native American, the California Native American Heritage Commission shall be notified within 24 hours of the published finding to be given a reasonable opportunity to identify the "most likely descendant". The "most likely descendant" shall then make recommendations, and engage in consultations concerning the treatment of the remains (California Public Resources Code 5097.98).

Applicant/Developer Mark Bachli CDRE Holdings 17, LLC 523 Main Street El Segundo, CA 90245 (310) 428-3302 mbachli@danbe.com	Property Owner Vir Prabhu Dhalla Moreno Valley Centerpointe, LLC (c/o CDRE Holdings 17, LLC) 523 Main Street El Segundo, CA 90245 (310) 428-3302 mbachli@danbe.com
--	--
8. **Project Location:** The Project site is located in the central-western portion of the City of Moreno Valley, Riverside County, California. The Project site is located south of Alessandro Boulevard, between Frederick Street and Graham Street (APNs: 297-170-002 and -003). Refer to Figure 1, *Regional Map*; Figure 2, *Vicinity Map*; and Figure 3, *USGS Topographic Map*.
9. **General Plan Designation:** Commercial. Refer to Figure 4, *Existing General Plan*.
10. **Specific Plan Name and Designation:** N/A

- 11. **Existing Zoning:** Community Commercial. Refer to Figure 5, *Existing Zoning*.
- 12. **Surrounding Land Uses and Setting** (Refer to Figure 6, *Aerial Photograph* and Figure 7, *Site Photographs*):

	Land Use	General Plan	Zoning
Project Site	Undeveloped	Commercial	Community Commercial
North	Residential	Residential: Max 5 du/ac; Residential: Max 20 du/ac	Residential 5; Residential 20
South	Industrial	Business Park/Light Industrial	Light Industrial
East	Commercial and Undeveloped	Business Park/Light Industrial; Commercial	Business Park-Mixed Use; Community Commercial
West	Undeveloped	Commercial	Community Commercial with Mixed-Use Institutional Anchor Overlay

- 13. **Project Description:** The Compass Danbe Centerpointe project (hereafter, “Project”) comprises a proposal for a General Plan Amendment (PEN20-0118); Change of Zone (PEN20-0119); Tentative Parcel Map No. 37944 (PEN20-0120); and Plot Plans (PEN20-0121 and PEN20-0124) that provides for the development of two light industrial buildings located south of Alessandro Boulevard, between Frederick Street and Graham Street. The components of the proposed Project are summarized on the following pages.

General Plan Amendment (PEN20-0118) would amend the City of Moreno Valley General Plan Land Use Map to change the land use designation for the entire Project site from “Commercial” to “Business Park/Light Industrial.” Refer to Figure 8, *General Plan Amendment (PEN20-0118)*.

Change of Zone (PEN20-0119) would amend the City of Moreno Valley Zoning Map to change the zoning designation for the entire Project site from “Community Commercial” to “Light Industrial.” Refer to Figure 9, *Change of Zone (PEN20-0119)*.

Tentative Parcel Map No. 37944 (PEN20-0120) would relocate the existing property line so that Building 1 and Building 2 would be placed upon separate parcels and, also, would grant various easements for public access (i.e., public sidewalks) and public utilities. Refer to Figure 10, *Tentative Parcel Map No. 37944 (PEN20-0120)*.

Plot Plans (PEN20-0121 and PEN20-0124) provide specific development plans for two industrial warehouse buildings (Buildings 1 and 2). Building 1, located on the western portion of the Project site, contains approximately 290,726 square feet (s.f.) of building floor area, including 280,726 s.f. of warehouse space, 5,000 s.f. of office space, and 5,000 s.f. of mezzanine. Building 2, located on the eastern portion of the Project site, contains approximately 98,877 s.f. of building floor area, including 93,77 s.f. of warehouse space, 2,500 s.f. of office space, and 2,500 s.f. of mezzanine. The total combined building floor area for Building 1 and Building 2 is approximately 389,603 s.f. Both buildings include outdoor employee break areas with tables and seating; provided along the eastern side of Building 1 and along the western side of Building 2. The site plan for the Project is illustrated on Figure 11, *Site Plan*.

Vehicular access to the Project site is provided by three proposed driveways onto Alessandro Boulevard. The middle driveway would be accessible to only passenger vehicles and the westernmost driveway and easternmost driveway would be accessible to both passenger vehicles and trucks. All driveways would be restricted to right turn movements when entering/exiting the site. Sight distance at each Project driveway will be reviewed by the City of Moreno Valley at the time of preparation of final grading, landscape and street improvement plans to ensure that standard Caltrans and City of Moreno Valley sight distance standards are met.

Parking and Loading

The Project provides a range of parking and loading options across the Project site. Buildings 1 and 2 both provide enclosed truck courts on the south sides of the respective buildings. The truck court for Building 1 includes 32 loading bays and 34 truck trailer parking stalls; the truck court for Building 2 includes 10 loading bays and 10 truck trailer parking stalls. Neither truck court would be visible from Alessandro Boulevard. Building 1 also provides 144 passenger vehicle parking spaces (distributed along the north and east side and southeast corner of the building) while Building 2 provides 73 passenger vehicle parking spaces along the north and west sides and southeast corner of the building). Bicycle parking spaces (“racks”) would be provided at the northeast corners of Building 1 (4 racks) and Building 2 (2 racks) in conformance with Moreno Valley Municipal Code Section 9.11.060(B)(1) which requires bicycle parking spaces be provided at a rate equal to five percent of the total required parking spaces.

Architecture

Figure 12, *Architectural Elevations*, depicts the Project’s architectural design. Building 1 would have a maximum height of approximately 46 feet (measured from finished floor to the top of the parapets) and Building 2 would have a maximum height of approximately 46 feet (measured from finished grade to the top of the parapets). Both buildings are proposed to be constructed with painted concrete tilt-up panels and low reflective, blue-glazed glass. Articulated building elements, include parapets with a varied roofline, wall recesses, awnings, and mullions are proposed as decorative elements. The exterior color palette for Buildings 1 and 2 are comprised of various neutral, earth-toned colors, including shades of white, beige, gray, and dark brown.

Prior to the issuance of building permits to construct the Project, the Project Applicant would be required to submit construction architecture documents/plans to the City of Moreno Valley for review and approval. The construction documents/plans would be required to comply with the City of Moreno Valley Building Code, which is based on the California Building Code and is included in Chapter 8.20 of the City of Moreno Valley Municipal Code.

Landscaping

Figure 13, *Conceptual Landscape Plan*, depicts the proposed landscape design for the Project. Proposed landscaping would be ornamental in nature and would feature trees, shrubs, and drought-tolerant accent plants in addition to a variety of groundcovers. Trees and groundcover would be concentrated along the Project site’s frontage with Alessandro Boulevard and along the Project site’s eastern and western boundaries. Landscaping also is massed at driveways, around the buildings, and in and around automobile parking areas.

Prior to the issuance of a building permit to construct the proposed building, the Project Applicant would be required to submit final planting and irrigation plans to the City of Moreno Valley for review and approval. The plans are required to comply with Chapter 9.17 of the Moreno Valley Municipal Code, which establishes requirements for landscape design, automatic irrigation system design, and water-use efficiency.

Project Improvements

Public Roadway Improvements

The Project includes the following public roadway improvements in conjunction with development of the Project site:

1. The Project Applicant would improve the south side of Alessandro Boulevard to its ultimate half-section width as a Divided Major Arterial along the Project site's frontage. With proposed improvements, the south side of the street would feature: a 55-foot-wide travel way (including the existing raised median), new curb and gutter, a 6-foot-wide sidewalk abutting the curb, and a bioretention swale.
2. The Project Applicant would construct three driveways along the northern Project site boundary onto Alessandro Boulevard (which would require striping for lane transitions).
3. The Project Applicant would remove an existing bus stop along the south side of Alessandro Boulevard at the approximate midpoint of the northern Project site boundary. The bus stop would not be replaced as the Project site does not meet City's design requirements for a bus stop (the City's standard for bus stops/turnouts is at the far side of an intersection near a controlled crosswalk, not mid-block which is where the Project site is located).

Water Infrastructure

Eastern Municipal Water District (EMWD) would provide water service to the Project site. As depicted on Figure 14, numerous connection points are proposed to the existing water line installed beneath Alessandro Boulevard for indoor, outdoor (i.e., landscape irrigation), and fire protection (i.e., fire hydrant) services. All proposed water facilities would be designed and constructed in accordance with EMWD standards.

Sanitary Sewer Service

EMWD would provide wastewater conveyance services to the Project site. As shown on Figure 14, the Project would connect to the existing sewer line beneath the southern Project site boundary. All proposed wastewater facilities would be designed and constructed in accordance with EMWD's standards.

Stormwater Drainage Infrastructure

As shown in Figure 14, *Conceptual Drainage Plan*, the Project's on-site stormwater drainage system would consist of catch basins, underground storm drain pipes, bioretention swales, two underground detention basins, two modular wetlands units, and two sump pumps. Runoff from the proposed Building 1 area would drain to a proposed underground detention system located in the southwest corner of the Project site, which would then be pumped to a proposed modular wetlands unit for water quality treatment purposes. Flows would then be conveyed westerly and then southerly via an existing 54-inch storm drain beneath the southwest corner of the Project site. Runoff from the proposed Building 2 area of the Project site would drain to a proposed underground detention system located in the southeast corner of the Project site, which would then be pumped to another proposed modular wetlands unit before being conveyed easterly to an existing 36-inch storm drain beneath the southeast corner of the Project site.

The Project also includes connections to the existing storm drain beneath Alessandro Boulevard to convey storm drain runoff from off-site tributary areas to the north through the Project site. Stormwater runoff from Alessandro Boulevard also would be conveyed through the Project site – after flowing through proposed bioretention swales abutting Alessandro

Boulevard. Off-site runoff flows conveyed through the Project site would discharge to existing storm drains at the southwest and southeast corners of the Project site.

Dry Utilities

Implementation of the Project would result in the installation of conduit for communications cabling along the Project site's frontage with Alessandro Boulevard. Existing wooden power poles along the Project site would be removed as part of Project construction and the overhead electric transmission lines suspended on these poles would be undergrounded. The removal of the power poles and the undergrounding of the transmission lines would be performed in coordination with Moreno Valley Utility.

Earthwork and Grading

Physical disturbances necessary to implement the Project include grading of the entire Project site. As shown on Figure 15, *Conceptual Grading Plan*, the proposed Project would result in approximately 30,500 cubic yards of cut and 26,000 cubic yards of fill. Based on the expected shrinkage and compaction of on-site soils, earthwork activities are expected to balance and no import or export of soil materials would be required. When grading is complete, the Project site would have a slight downward slope from north to southeast. No manufactured slopes and no retaining walls are needed to implement the Project.

Construction Characteristics

Based on information provided by the Project Applicant, the Project is expected to be constructed over a period of approximately 190 work days (8 months). Site preparation would occur first, followed by mass-grading and installation of underground infrastructure. Next, fine grading would occur, surface materials would be poured, and the proposed building would be erected, connected to the underground utility system, and painted. Lastly, landscaping, fencing, screen walls, lighting, signage, and other site improvements would be installed. For purposes of analysis in this MND, construction is assumed to commence in October 2021 and finish in June 2022. The estimated Project construction schedule, organized by construction stage, is summarized in Table 1, *Estimated Construction Schedule*.

Table 1: Estimated Construction Schedule

Phase Name	Start Date	End Date	Days
Site Preparation	10/04/2021	10/15/2021	10
Grading	10/16/2021	11/26/2021	30
Building Construction	11/27/2021	06/24/2022	150
Paving	05/28/2022	06/24/2022	20
Architectural Coating	05/01/2022	06/24/2022	40

Source: (Urban Crossroads, 2020a, Table 3-2)

Construction workers would travel to the site by passenger vehicle and materials deliveries would occur by medium- and heavy-duty trucks. Construction equipment is expected to operate on the Project site up to eight hours per day, six days per week. Even though construction activities are permitted to occur between 7:00 a.m. to 8:00 p.m. on Mondays through Saturdays pursuant to Moreno Valley Municipal Code Section 11.80.030(D)(7), construction equipment is not in continual use and some pieces of equipment are used only periodically throughout a typical day of construction. Thus, eight hours of daily use per piece of equipment is a reasonable assumption. Should construction activities need to occur at night (such as concrete pouring activities which benefit from air temperatures that are lower than daytime temperatures), the Project Applicant would be required to obtain authorization

for nighttime work from the City of Moreno Valley as specified in Moreno Valley Municipal Code Section 11.80.030(D)(7).

The composition of the construction equipment fleet that the Project Applicant intends to use to construct the warehouse building, which also is used for purposes of analysis is in this IS/MND, is summarized in Table 2, *Estimated Construction Equipment Fleet*.

Table 2: Estimated Construction Equipment Fleet

Phase Name	Equipment	Amount	Hours Per Day
Site Preparation	Crawler Tractors	4	8
	Rubber Tired Dozers	3	8
	Water Trucks	1	4
Grading	Crawler Tractors	2	8
	Excavators	2	8
	Graders	1	8
	Rubber Tired Dozers	1	8
	Scrapers	2	8
	Water Trucks	1	4
Building Construction	Cranes	1	8
	Forklifts	3	8
	Generator Sets	1	8
	Tractors/Loaders/Backhoes	3	8
	Welders	1	8

	Rollers	2	8
	Water Trucks	1	4
Architectural Coating	Air Compressors	1	8

Source: (Urban Crossroads, 2020a, Table 3-3)

Operational Characteristics

At this time, the future occupant(s) of the Project is unknown. The Project Applicant expects that the building primarily would be occupied by warehouse distribution operators. The proposed buildings are designed with the potential to utilize up to 30 percent of their floor area for cold storage or refrigerated uses. The Project is expected to be operational 24 hours per day, seven days per week, with exterior loading and parking areas illuminated at night. Lighting would be subject to compliance with Moreno Valley Municipal Code Section 9.08.100, which states that all outdoor lighting associated with nonresidential uses shall be fully shielded and directed away from surrounding residential uses to reduce glare and light trespass, and shall not exceed one-quarter-foot-candle minimum maintained lighting measured from within five (5) feet of any property line.

The proposed warehouse buildings are designed such that business operations would be conducted within the enclosed building, with the exception of traffic movement, parking, and

the loading and unloading of tractor trailers at designated loading bays. As a practical matter, dock doors on industrial buildings are not occupied by a truck at all times of the day. There are typically more dock door positions on industrial buildings than are needed for receiving and shipping volumes. The dock doors that are in use at any given time are usually selected based on interior building operation efficiencies. In other words, trucks ideally dock in the position closest to where the goods to be carried by the truck are inside the building. As a result, many dock door positions are frequently inactive throughout the day. The City of Moreno Valley will condition the Project to use outdoor cargo handling equipment (e.g., yard trucks, hostlers, yard goats, pallet jacks, forklifts) that is only powered by non-diesel engines (e.g., gasoline, natural gas, electric).

During operation, employees, visitors, and vehicles hauling goods will travel to and from the Project site on a daily basis. Project operations are calculated by a trip generation calculation study to generate approximately 742 vehicle trips per day, including 518 passenger vehicle trips and 224 truck trips. Pursuant to State law, on-road diesel-fueled trucks that would service the Project are required to comply with various air quality and greenhouse gas emission standards, including but not limited to the type of fuel used, engine model year stipulations, aerodynamic features, and idling time restrictions. Compliance with State law is mandatory and inspections of on-road diesel trucks subject to applicable State laws are conducted by the California Air Resources Board (CARB).

Project operations are expected to demand approximately 9,735 gallons of water per day and 30,090 gallons of wastewater per day (EMWD's standard demand rates for industrial warehouse/distribution land uses are 550 gallons of water per acre per day and 1,700 gallons of wastewater per acre per day, respectively); 5,261,115 kilowatt hours (kWh) of electricity per year; and 6,438,204 kilo-British thermal units (kBTU) of natural gas per year.

14. **Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentiality, etc.?**

The City of Moreno Valley is required to consult with interested California Native American tribes regarding the Project pursuant to Assembly Bill 52 (AB 52). The City contacted California Native American Tribes with traditional use areas that encompass or are in the vicinity of the Project site. The Project received requests for consultation from Soboba Band of Luiseno Indians, Pechanga Band of Luiseno Indians, Rincon Band of Luiseno Indians, Agua Caliente Band of Cahuilla Indians, and San Manuel Band of Mission Indians. The City concluded consultation on June 16, 2021.

15. **Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement):**

Riverside County Airport Land Use Commission (Airport Land Use Plan Consistency Determination); Santa Ana Regional Water Quality Control Board (NPDES Permit), Riverside County Flood Control and Water Conservation District (drainage infrastructure design); and Eastern Municipal Water District (domestic water and sewer system design/connections).

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

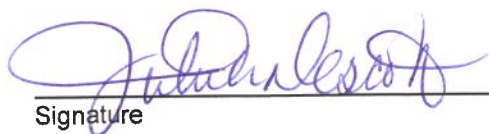

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

- | | | |
|--|---|---|
| <input type="checkbox"/> Aesthetics | <input type="checkbox"/> Agriculture & Forestry Resources | <input type="checkbox"/> Air Quality |
| <input type="checkbox"/> Biological Resources | <input type="checkbox"/> Cultural Resources | <input type="checkbox"/> Energy |
| <input type="checkbox"/> Geology & Soils | <input type="checkbox"/> Greenhouse Gas Emissions | <input type="checkbox"/> Hazards & Hazardous Materials |
| <input type="checkbox"/> Hydrology & Water Quality | <input type="checkbox"/> Land Use & Planning | <input type="checkbox"/> Mineral Resources |
| <input type="checkbox"/> Noise | <input type="checkbox"/> Population & Housing | <input type="checkbox"/> Public Services |
| <input type="checkbox"/> Recreation | <input type="checkbox"/> Transportation | <input type="checkbox"/> Tribal Cultural Resources |
| <input type="checkbox"/> Utilities & Service Systems | <input type="checkbox"/> Wildfire | <input type="checkbox"/> Mandatory Findings of Significance |

DETERMINATION (To be completed by the Lead Agency):

On the basis of this initial evaluation:

- I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- I find that the proposed project MAY have a "potentially significant" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a Lead Agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the Lead Agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect is significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Less Than Significant with Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The Lead Agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or another CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a) Earlier Analyses Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources. A source list should be attached, and other sources used, or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
 - a) the significance criteria or threshold, if any, used to evaluate each question; and
 - b) the mitigation measure identified, if any, to reduce the impact to less than significance.

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS – Except as provided in Public Resources Code § 21099 – Modernization of Transportation Analysis for Transit-Oriented Infill Projects – Would the project:				
a) Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Scenic resources within the City of Moreno Valley are identified as Box Springs Mountains, the Foothills, the Badlands, and Mount Russell and its foothills. According to General Plan Figure 7-2, <i>Major Scenic Resources</i>, the Project site is not located within or adjacent to a designated scenic resource or within a view corridor for any of the designated scenic resources in the City (Moreno Valley, 2006a, Figure 7-2).</p> <p>Scenic resources visible (at least partially) from public viewpoints adjacent to the Project site include Mount Russell (approximately 4.0 miles to the southeast and partially visible from Alessandro Boulevard) (Google Earth Pro, 2020). Under existing conditions, views of Mount Russell are largely obscured from Alessandro Boulevard due to intervening development and landscaping, topography, and atmospheric haze that is common in the Inland Empire throughout the year. The Project would not substantially alter any existing views of Mount Russell from Alessandro Boulevard. As stated above, views of Mount Russell from Alessandro Boulevard are largely obscured from the Project site by the existing warehouse abutting the southern Project site boundary and on-site landscaping (and, for parts of the year, atmospheric haze). The Project would construct buildings up to 46-feet-tall and install new landscaping on the Project site. The proposed building and site improvements would partially obscure views of Mount Russell from Alessandro Boulevard – although not substantially more than views are obscured under existing conditions – and views of the Mountains would continue to be available above the building.</p> <p>Implementation of the Project would not result in any impacts to view corridors as identified in the City of Moreno Valley General Plan (Moreno Valley, 2006a, Figure 7-2). Additionally, implementation of the Project would not result in a substantial adverse impact to the general viewsheds of the scenic resources within the City. Therefore, the Project would result in a less-than-significant impact associated with an adverse effect on a scenic vista.</p>				
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site is not located within or adjacent to a scenic highway corridor and there are no State-designated or eligible scenic highways within the vicinity of the Project site (Caltrans, 2019). Additionally, the City of Moreno General Plan does not identify any Scenic Route within proximity to the Project site (Moreno Valley, 2006a, Figure 7-2). The nearest State-designated scenic highway to the Project site is a segment of State Route (SR-) 74 located approximately 9.3 miles southeast of the Project site; the Project site would not be visible from this SR-74 segment due to distance and intervening development/topography (Caltrans, 2019; Google Earth Pro, 2020). It should be noted, also, that an area of Interstate (I-) 15 near the above-named segment of SR-74 is eligible for consideration as a State scenic highway; however, the Project site would not be visible from this portion of I-15 due to distance and intervening development/topography (Caltrans, 2019; Google Earth Pro, 2020). Accordingly, the Project site is not located within a State scenic highway corridor and implementation of the proposed Project would not have a substantial effect on scenic resources within a State scenic highway corridor. Thus, no impact to a State scenic highway would occur from implementation of the Project.</p>				
c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is located within an urbanized area, as defined by U.S. Census Bureau, and determined as part of the 2010 Census (U.S. Census Bureau, 2012). Thus, pursuant to this threshold,</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>a potentially significant impact to visual character only would occur if the Project were to conflict with applicable zoning and/or other City of Moreno Valley regulations governing scenic quality. Implementation of the proposed Project would result in the visual conversion of the site from vacant, undeveloped land to two industrial warehouse buildings with associated improvements including parking lots, drive aisles, utility infrastructure, landscaping, exterior lighting, and signage. The Project would be compatible with the size, scale, and aesthetic/decorative architectural and landscaping features of other existing light industrial/warehouse buildings constructed to the south and southwest of the Project site. Furthermore, the Project would be required to comply with the applicable development standards and design guidelines contained in the Moreno Valley Zoning Ordinance, which regulates the visual quality of new development and ensure that new development does not detract from any scenic attributes/qualities in the surrounding area. Because the Project site is located in an urbanized area and because the Project would not conflict with applicable regulations governing scenic quality, a less-than-significant impact would occur from implementation of the Project.</p>				
<p>d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Under existing conditions, the Project site contains no sources of artificial lighting; however, street lights are present along the Project site's frontage with Alessandro Boulevard. The Project Applicant proposes to develop the site with two industrial warehouse buildings and would introduce new lighting elements on-site to illuminate the parking areas, truck docking areas, and building entrances.</p> <p>The Project Applicant would be required to comply with lighting requirements as set forth in the City of Moreno Valley Municipal Code Sections 9.10.110 and 9.16.280. The Municipal Code lighting standards govern the placement and design of outdoor lighting fixtures to ensure adequate lighting for public safety while also minimizing light pollution and glare and precluding public nuisances (e.g., blinking/flashing lights, unusually high intensity, or needlessly bright lighting). The City would confirm compliance with applicable lighting requirements during future review of building permit applications/plans. Mandatory compliance with the Municipal Code would ensure that the Project would not introduce any permanent design features that would adversely affect day or nighttime views in the area. This impact would be less than significant.</p> <p>With respect to glare, a majority of Project building materials would consist of concrete panels, which are non-reflective. While window glazing has a potential to result in minor glare effects, such effects would not adversely affect daytime views of surrounding properties, including motorists along adjacent roadways, because the glass proposed for the Project would be low-reflective, proposed buildings would be set back from adjacent roadways at a distance, and proposed landscaping would provide a buffer between all proposed glass surfaces and the public right of way. Thus, glare impacts from proposed building elements would be less than significant.</p>

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>II. AGRICULTURE AND FOREST RESOURCES – In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state’s inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest protocols adopted by the California Air Resources Board. Would the project:</p>				
<p>a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site is not utilized for agricultural purposes under existing conditions. According to mapping information available from the California Department of Conservation’s (CDC) Farmland Mapping and Monitoring Program (FMMP), the Project site is classified as “Farmland of Local Importance” (CDC, 2016). Accordingly, the Project site does not contain any lands mapped by the FMMP as “Prime Farmland,” “Unique Farmland,” or “Farmland of Statewide Importance” and, thus, implementation of the Project would not convert such Farmland to a non-agricultural use. No impact would occur.</p>				
<p>b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site is zoned for “Community Commercial” under existing conditions and would be re-zoned to “Light Industrial” as part of the Project; therefore, implementation of the Project would not conflict with zoning for agricultural use. Additionally, as disclosed in the City of Moreno Valley General Plan Final EIR, no land within the City – including the Project site – is under a Williamson Act Contract (Moreno Valley, 2006b, p. 5.8-6). Accordingly, implementation of the Project would not conflict with existing (or proposed) zoning for agricultural use or a Williamson Act contract. No impact would occur.</p>				
<p>c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site is not zoned as forest land, timberland, or Timberland Production, nor is it surrounded by forest land, timberland, or Timberland Production land. According to the City of Moreno Valley Zoning Map, there are no lands located within the City of Moreno Valley that are zoned for forest land, timberland, or timberland zoned Timberland Production. Therefore, the Project has no potential to conflict with any areas currently zoned as forest, timberland, or Timberland Production and would not result in the rezoning of any such lands. As such, no impact would occur.</p>				
<p>d) Result in the loss of forest land or conversion of forest land to non-forest use?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site does not contain a forest and is not designated as forest land; therefore, the Project would not result in the loss of forest land or the conversion of forest land to non-forest use. As such, no impact would occur.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>e) Involve other changes in the existing environment which, due to their location or nature, could result in the conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: “Farmland” is defined in Section II (a) of Appendix G of the State CEQA Guidelines as “Prime Farmland,” “Unique Farmland” or “Farmland of Statewide Importance” (“Farmland”). As disclosed above under Response II(a), the Project would not result in the conversion of Farmland to non-agricultural use.</p> <p>As discussed under Responses II(c) and II(d), the Project would not convert forest land to non-forest use. No impact would occur.</p>				
<p>Sources:</p> <ol style="list-style-type: none"> Final Environmental Impact Report City of Moreno Valley General Plan, certified July 11, 2006 <ul style="list-style-type: none"> Section 5.8 – Agricultural Resources Title 9 – Planning and Zoning of the Moreno Valley Municipal Code <ul style="list-style-type: none"> Chapter 9.03 – Residential District Moreno Valley Zoning Map, http://www.moreno-valley.ca.us/cdd/pdfs/ZoningMap.pdf California Department of Conservation – California Important Farmland Finder, https://maps.conservation.ca.gov/DLRP/CIFF/ 				
<p>III. AIR QUALITY – Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to make the following determinations. Would the project:</p>				
<p>a) Conflict with or obstruct implementation of the applicable air quality plan?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is located within the South Coast Air Basin (SCAB or “Basin”). The SCAB encompasses approximately 6,745 square miles and includes Orange County and the non-desert portions of Los Angeles, Riverside, and San Bernardino counties. The SCAB is bound by the Pacific Ocean to the west; the San Gabriel, San Bernardino, and San Jacinto Mountains to the north and east, respectively; and the San Diego County line to the south. In these areas, the South Coast Air Quality Management District (SCAQMD) is principally responsible for air pollution control, and works directly with the Southern California Association of Governments (SCAG), county transportation commissions, local governments, as well as state and federal agencies to reduce emissions from stationary, mobile, and indirect sources to meet state and federal ambient air quality standards.</p> <p>Historically and presently, State and federal air quality standards are exceeded in most parts of the SCAB. In response, the SCAQMD has adopted a series of Air Quality Management Plans (AQMPs) to meet the State and federal ambient air quality standards. AQMPs are updated regularly in order to more effectively reduce emissions, accommodate growth, and to minimize any negative fiscal impacts of air pollution control on the economy. The current AQMP, the 2016 AQMP, was adopted by SCAQMD in March 2017. Criteria for determining consistency with the AQMP are defined in Chapter 12 of the SCAQMD’s <i>CEQA Air Quality Handbook (1993)</i>. The Project’s consistency with these criteria is discussed below.</p> <p><i>Consistency Criterion No. 1: The Project will not result in an increase in the frequency or severity of existing air quality violations or cause or contribute to new violations, or delay the timely attainment of air quality standards or the interim emissions reductions specified in the AQMP.</i></p> <p>Consistency Criterion No. 1 refers to violations of the California Ambient Air Quality Standards (CAAQS) and National Ambient Air Quality Standards (NAAQS). As evaluated under Response III(c), below, the Project would not exceed the SCAQMD localized emissions threshold for any criteria pollutant during any construction phase of the Project. Accordingly, localized criteria pollutant emissions from Project construction would not increase the frequency or severity of existing air quality violations, cause or contribute to new violations, and/or delay the timely attainment of air quality standards or the interim emissions reductions specified in the AQMP.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>The Project’s operational emissions would not exceed SCAQMD localized emissions thresholds (refer to Response III(c), below); thus, long-term operation of the Project would not increase the frequency or severity of existing NAAQS and/or CAAQS violations, cause or contribute to new violations, and/or delay the timely attainment of air quality standards or the interim emissions reductions specified in the <i>AQMP</i>.</p> <p>Therefore, construction and operation of the Project is determined to be consistent with the first criterion and the impact would be less than significant.</p> <p><u>Consistency Criterion No. 2:</u> <i>The Project will not exceed the assumptions in the AQMP based on the years of Project build-out phase.</i></p> <p>The growth forecasts used in the <i>AQMP</i> to project future emissions levels are based in part on land use data provided by lead agency general plan documentation. Projects that propose to increase the intensity of use on a subject property may result in increased stationary area source emissions and/or vehicle source emissions when compared to the <i>AQMP</i> assumptions. If a project does not exceed the growth projections in the applicable local general plan, then the project is considered to be consistent with the growth assumptions in the <i>AQMP</i>. The prevailing planning documents for the Project site is the City of Moreno Valley General Plan. The City of Moreno Valley General Plan Land Use Map designates the Project site for Commercial land use. The Project includes a request to change the existing General Plan land use designation for the Project site from Commercial to Business Park/Light Industrial, which, if approved, would result in a land use and development intensity that was not anticipated by the General Plan, and, by extension, the growth models that were used in the <i>AQMP</i>. Although the Project would not be consistent with the land use assumptions used in the <i>AQMP</i>, Project construction and operation would not exceed applicable SCAQMD regional or localized air quality significance thresholds. As such, the Project’s inconsistency with Consistency Criterion No. 2 would not result in a substantial adverse environmental impact.</p> <p>For the reasons stated above, the Project would not result in a substantial adverse environmental impact due to an increase in the frequency or severity of existing air quality violations, the creation creation of new violations, the delay the timely attainment of air quality standards or the interim emissions reductions specified in the <i>AQMP</i>, or the exceedance of growth assumptions in the <i>AQMP</i>. As such, impacts would be less-than-significant.</p>				
<p>b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The proposed Project has the potential to generate substantial pollutant concentrations during both construction activities and long-term operation. An <i>Air Quality Impact Analysis</i> (Urban Crossroads, 2020a) and a <i>Mobile Source Health Risk Assessment</i> (Urban Crossroads, 2020b) were prepared for the Project by Urban Crossroads, Inc. to evaluate potential criteria and hazardous air pollutant emissions that could result from the Project’s construction and operation. These reports are included as <i>Technical Appendices A1 and A2</i> to this IS/MND and their findings are incorporated into the analysis presented herein.</p> <p>The following analysis is based on the applicable significance thresholds established by the SCAQMD for regional criteria pollutant emissions (as summarized in Table 3-1 of <i>Technical Appendix A1</i>). This analysis assumes that the Project would comply with applicable, mandatory regional air quality standards, including: SCAQMD Rule 403, “Fugitive Dust;” SCAQMD Rule 431.2, “Sulfur Content of Liquid Fuels;” SCAQMD Rule 1113, “Architectural Coatings;” SCAQMD Rule 1186, “PM₁₀ Emissions from Paved and Unpaved Roads, and Livestock Operations;” SCAQMD Rule 1186.1, “Less-Polluting Street Sweepers,” and Title 13, Chapter 10, Section 2485, Division 3 of the California Code of Regulations “Airborne Toxic Control Measure.”</p> <p>For a detailed description of the health effects of air pollutants refer to Section 2.4 of the Project’s Air Quality Impact Analysis (<i>Technical Appendix A1</i>). In general, air pollutants have adverse effects to human health including, but not limited to, respiratory illness and carcinogenic effects; however, based</p>

on available modeling it is not feasible to correlate regional criteria pollutant emissions from development projects of the scale of the proposed Project to adverse health effects on a SCAB-wide level (Urban Crossroads, 2020a, pp. 10-16, 56-58). The potential for the Project to result in substantial adverse health effects from toxic air contaminant emissions is addressed under Response III(c), below.

Impact Analysis for Construction Emissions

For purposes of the construction emissions analysis, construction was conservatively expected to occur between October 2021 and June 2022. The California Emissions Estimator Model (CalEEMod) accounts for the implementation and enforcement of California's progressively more restrictive regulatory requirements for construction equipment and the ongoing replacement of older construction fleet equipment with newer, less-polluting equipment. Thus, according to the CalEEMod, construction activities that occur in the near future are expected to generate more air pollutant emissions than the same activities that may occur farther into the future. Accordingly, in the event that the Project's construction occurs at a later date than assumed in this air quality analysis, Project-related construction emissions are not expected to exceed the values presented herein (Urban Crossroads, 2020a, p. 38).

The calculated maximum daily emissions associated with Project construction are presented in Table 3, *Summary of Construction-Related Emissions*. The Project's construction characteristics and construction equipment fleet assumptions used in the analysis were previously described above in the Project Description (see Tables 1 and 2).

Table 3: Summary of Construction-Related Emissions

Year	Emissions (lbs/day)					
	VOC	NO _x	CO	SO _x	PM ₁₀	PM _{2.5}
Summer						
2021	5.43	61.02	32.00	0.10	14.04	6.81

Maximum Daily Emissions	54.69	61.02	50.18	0.13	14.04	6.81
SCAQMD Regional Threshold	75	100	550	150	150	55
Threshold Exceeded?	NO	NO	NO	NO	NO	NO

Source: (Urban Crossroads, 2020a, Table 3-4)

As shown in Table 3, the Project's daily construction emissions of volatile organic compounds (VOCs), nitrogen oxides (NO_x), carbon monoxide (CO), sulfur oxides (SO_x), and particulate matter (PM₁₀ and PM_{2.5}) would not exceed SCAQMD regional criteria thresholds and, thus, would be less than significant. The SCAQMD considers any project-specific criteria pollutant emissions that exceed applicable SCAQMD significance thresholds also to be cumulatively-considerable. To put it another way, if a project does not exceed the SCAQMD regional thresholds, then SCAQMD considers that project's air pollutant emissions to not be cumulatively-considerable. Thus, because Project construction would not exceed the SCAQMD regional criteria significance thresholds, implementation of the Project would not result in a cumulatively-considerable net increase of any criteria pollutant, including any pollutants for which the SCAB does not attain applicable federal or State ambient air quality standards during construction.

Impact Analysis for Operational Emissions

Operational activities associated with the Project are expected to generate air pollutant emissions from the operation of motor vehicles (including trucks), landscape maintenance activities, application of architectural coatings, and the use of electricity and natural gas. Long term operational emissions associated with the Project are presented in Table 4, *Summary of Peak Operational Emissions*.

As summarized in Table 4, Project operational emissions of VOCs, NO_x, CO, SO_x, PM₁₀ and PM_{2.5} would not exceed SCAQMD regional criteria thresholds. Accordingly, the Project would not emit substantial concentrations of these pollutants during long-term operation and would not contribute to an existing or projected air quality violation. The Project's long-term emissions of VOCs, NO_x, CO, SO_x, PM₁₀ and PM_{2.5} would be less than significant.

c) Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The following analysis addresses the Project’s potential to expose sensitive receptors in the immediate vicinity of the Project site to substantial pollutant concentrations during Project construction and long-term operation. The following analysis is based on the applicable significance thresholds established by the SCAQMD (as summarized in Tables 3-9 and 3-11 of *Technical Appendix A1*).

Impact Analysis for Construction Localized Emissions

As summarized in Table 5, *Summary of Construction Localized Emissions*, localized emissions of NO_x, CO, and particulate matter (PM₁₀ and PM_{2.5}) would not exceed applicable SCAQMD thresholds during peak Project construction activities. Accordingly, Project construction would not expose any sensitive receptors to substantial concentrations of criteria pollutants. Impacts would be less than significant.

Impact Analysis for Operational Localized Emissions

The Project’s operational localized emissions are presented in Table 6, *Summary of Operational Localized Emissions*. As shown, the Project’s peak operational emissions would not exceed the localized thresholds established by the SCAQMD. Accordingly, long-term operation of the Project would not result in the exposure of any sensitive receptors to substantial pollutant concentrations. Impacts would be less than significant.

Impact Analysis for CO “Hot Spots”

Localized areas where ambient CO concentrations exceed the CAAQS and/or NAAQS are termed CO “hot spots.” Emissions of CO are produced in greatest quantities from motor vehicle combustion and are usually concentrated at or near ground level because they do not readily disperse into the atmosphere, particularly under cool, stable (i.e., low or no wind) atmospheric conditions. Consequently, the highest CO concentrations are generally found within close proximity to congested intersection locations.

For purposes of providing a conservative, worst-case impact analysis, the Project’s potential to cause or contribute to CO hotspots was evaluated by comparing study area intersections that would receive Project traffic (both intersection geometry and traffic volumes) with prior studies conducted by the SCAQMD in support of their AQMPs. In the 2003 AQMP, the SCAQMD evaluated CO concentrations at

four (4) busy intersections in the City of Los Angeles that were determined to be the most congested intersections in the SCAB. Each of the evaluated intersections were primary thoroughfares, some of which were located near major freeway on/off ramps, and experienced traffic volumes of approximately 100,000 vehicles per day. The SCAQMD’s analysis at these busy intersections did not identify any CO hotspots. Based on an analysis of the intersections in the Project’s study area, Urban Crossroads determined that none of the intersections in the Project’s study area would be subject to the extreme traffic volumes and vehicle congestion of the intersections modeled by the SCAQMD in the 2003 AQMP (Urban Crossroads, 2020a, pp. 52-53). Therefore, Project-related vehicular emissions would not create a CO hot spot and would not substantially contribute to an existing or projected CO hot spot. Impacts would be less than significant.

Impact Analysis for Diesel Particulate Emissions

Diesel-fueled trucks would travel to/from the Project site during operation of the Project. Diesel trucks produce diesel particulate matter (DPM), which is known to be associated with health hazards, including cancer. To evaluate the Project’s potential to expose sensitive receptors within ¼-mile of the Project site and the Project’s primary truck travel routes to substantial amounts of DPM during long-term operation, a *Mobile Source Health Risk Assessment* was prepared for the proposed Project (*Technical Appendix A2*). Project-related DPM health risks are summarized below. Detailed air dispersion model outputs and risk calculations are presented in Appendices 2.1 and 2.2, respectively, of *Technical Appendix A2*.

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>At the maximally exposed individual receptor (MEIR) – the existing residential home located approximately 152 feet north of the Project site – the maximum cancer risk attributable to the Project’s DPM emissions is calculated to be 4.48 in one million. The cancer risk attributable to the Project at the MEIR would not exceed the SCAQMD cancer risk threshold of 10 in one million. At the MEIR, the non-cancer health risk index attributable to the Project would be 0.002, which would not exceed the SCAQMD non-cancer health risk index of 1.0 (Urban Crossroads, 2020b, p. 1). Accordingly, long-term operations at the Project site would not directly cause or contribute in a cumulatively-considerable manner to the exposure of residential receptors to substantial DPM emissions. Therefore, implementation of the Project would result in a less-than-significant impact.</p> <p>At the maximally exposed individual worker (MEIW) – the office building located approximately 744 feet west of the Project site – the maximum cancer risk attributable to the Project’s DPM emissions is calculated to be 0.18 in one million. The cancer risk attributable to the Project at the MEIW would not exceed the SCAQMD cancer risk threshold of 10 in one million. At the MEIW, the non-cancer health risk index attributable to the proposed Project would be 0.0006, which would not exceed the SCAQMD non-cancer health risk index of 1.0 (Urban Crossroads, 2020b, p. 1). Therefore, the Project would result in a less-than-significant impact.</p> <p>There are no schools located within a ¼ mile of the Project site, which is the distance from the Project site with the highest concentration of Project-related DPM emissions. Proximity to sources of toxics is critical to determining the impact. Based on California Air Resources Board and SCAQMD emissions and modeling analyses, particulate matter pollutant concentrations drop by 70 percent at approximately 500 feet from the emissions source and by 80 percent at approximately 1,000 feet from the emissions source (Urban Crossroads, 2020b, p. 2). Because there are no schools located within at least 1,320 feet of the Project site, implementation of the Project would not expose any school child receptors to substantial concentrations of diesel particulate matter emissions. Project-related truck traffic would travel off-site along public streets (traffic to/from I-215 is expected to travel along Alessandro Boulevard and Cactus Avenue). There are no schools located within ¼ mile of Alessandro Boulevard and Cactus Avenue between the Project site and I-215; therefore, the Project-related traffic traveling to/from I-215 would not expose school children receptors to substantial DPM concentrations. Based on the foregoing analysis, implementation of the Project would not expose school child receptors to substantial DPM concentrations. This impact is less than significant.</p>				
<p>d) Result in other emissions (such as those leading to odors adversely affecting a substantial number of people?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project could produce odors during proposed construction activities resulting from construction equipment exhaust, application of asphalt, and/or the application of architectural coatings; however, standard construction practices would minimize the odor emissions and their associated impacts. Furthermore, any odors emitted during construction would be temporary, short-term, and intermittent in nature, and would cease upon the completion of the respective phase of construction. In addition, construction activities on the Project site would be required to comply with SCAQMD Rule 402, which prohibits the discharge of odorous emissions that would create a public nuisance (Urban Crossroads, 2020a, pp. 58-59). Accordingly, the proposed Project would not create objectionable odors affecting a substantial number of people during construction, and short-term impacts would be less than significant.</p> <p>During long-term operation, the Project would include a warehouse land use, which is not typically associated with objectionable odors. The temporary storage of refuse associated with the proposed Project’s long-term operational use could be a potential source of odor; however, Project-generated refuse is required to be stored in covered containers and removed at regular intervals in compliance with the City’s solid waste regulations, thereby precluding any significant odor impact. Furthermore, the proposed Project would be required to comply with SCAQMD Rule 402, which prohibits the discharge of odorous emissions that would create a public nuisance, during long-term operation (Urban Crossroads, 2020b, pp. 58-59) As such, long-term operation of the proposed Project would not create objectionable odors affecting a substantial number of people and impacts would be less than significant.</p>

IV. BIOLOGICAL RESOURCES – Would the project:

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------

Response: A *Multiple Species Habitat Conservation Plan (MSHCP) Compliance Analysis* was prepared for the Project by MIG. The MSHCP compliance analysis addresses potential impacts to candidate, sensitive, or special status species due to implementation of the Project and is included as *Technical Appendix B1* to this IS/MND (MIG, 2020a). Focused burrowing owl and least Bell’s vireo survey reports address the potential for the respective species to occur on the Project site and are included as *Technical Appendices B4* and *B5* (MIG, 2020b; MIG, 2020c). The analysis presented below is based on the findings of the abovementioned reports.

Special-Status Plant Species

All special-status plant species that have potential to occur within the Project survey area are adequately covered by the Western Riverside County MSHCP (MIG, 2020a, p. 15). Furthermore, the Project survey area is not located within a Narrow Endemic Plant Special Survey Area (NEPSSA) or Criteria Area Plant Special Survey Area (CAPSSA) and, thus, is not considered to be in an area with a high likelihood of supporting populations of sensitive native plant species (MIG, 2020a, p. 15). Implementation of the Project would not result in substantial adverse impacts to special-status plants and mitigation is not required.

Special-Status Wildlife Species

The Project site supports suitable habitat for the burrowing owl and least Bell’s vireo; however, neither species was observed on the Project site during focused species surveys (MIG, 2020a, pp. 15-16; MIG 2020b, p. 4; MIG 2020c, p. 5). All other special-status wildlife species that have the potential to occur within the Project survey area are adequately covered by the Western Riverside County MSHCP (MIG, 2020a, pp. 15-16). The Project’s consistency with the MSHCP is addressed under Response IV(f).

Notwithstanding the information presented above, the burrowing owl is a nomadic species and there is the potential that the species could migrate onto the Project site prior to construction. If burrowing owls are present on the Project site during grading activities, the Project’s impact to the species would be significant and mitigation would be required, as discussed below.

Additionally, implementation of Project would result in removal of vegetation across the Project site that has the potential to support nesting and/or migratory birds that are granted special status by federal and State regulations. The Project’s potential to impact nesting birds and migratory birds is a significant direct impact for which mitigation is required, as discussed below.

MM BR-1 and MM BR-2 would reduce potential impacts to the burrowing owl and nesting/migratory birds to less-than-significant levels by ensuring that pre-construction surveys are conducted to determine the presence or absence on the Project site of the burrowing owl and/or protected nesting bird species prior to the commencement of construction activities. If the burrowing owl or protected nesting bird species are present, the mitigation measures provide performance criteria that require avoidance and/or relocation of the species in accordance with accepted protocols.

Based on the foregoing analysis, the proposed Project would result in less-than-significant impacts to candidate, sensitive, or special status species with the implementation of mitigation.

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<u>Mitigation</u>				
MM BR-1	<p>Within 30 days prior to grading, a qualified biologist shall conduct a survey of suitable habitat on site and make a determination regarding the presence or absence of the burrowing owl. The determination shall be documented in a report and shall be submitted, reviewed, and accepted by the City of Moreno Valley prior to the issuance of a grading permit and subject to the following provisions:</p> <ol style="list-style-type: none"> a) In the event that the pre-construction survey identifies no burrowing owls on the property a grading permit may be issued without restriction. b) In the event that the pre-construction survey identifies the presence of at least one individual but less than three (3) mating pairs of burrowing owl, then prior to the issuance of a grading permit and prior to the commencement of ground-disturbing activities on the property, the qualified biologist shall passively or actively relocate any burrowing owls. Passive relocation, including the required use of one-way doors to exclude owls from the site and the collapsing of burrows, will occur if the biologist determines that the proximity and availability of alternate habitat is suitable for successful passive relocation. Passive relocation shall follow CDFW relocation protocol and shall only occur between September 15 and February 1. If proximate alternate habitat is not present as determined by the biologist, active relocation shall follow CDFW relocation protocol. The biologist shall confirm in writing that the species has fledged the site or been relocated prior to the issuance of a grading permit. c) In the event that the pre-construction survey identifies the presence of three (3) or more mating pairs of burrowing owl, the requirements of MSCHP Species-Specific Conservation Objectives 5 for the burrowing owl shall be followed. Objective 5 states that if the site (including adjacent areas) supports three (3) or more pairs of burrowing owls and supports greater than 35 acres of suitable habitat, at least 90 percent of the area with long-term conservation value and burrowing owl pairs will be conserved onsite until it is demonstrated that Objectives 1-4 have been met. A grading permit shall be issued, either: <ol style="list-style-type: none"> i) Upon approval and implementation of a property-specific Determination of Biologically Superior Preservation (DBESP) report for the burrowing owl by the CDFW; or ii) A determination by the biologist that the site is part of an area supporting less than 35 acres of suitable Habitat, and upon passive or active relocation of the species following accepted CDFW protocols. Passive relocation, including the required use of one-way doors to exclude owls from the site and the collapsing of burrows, will occur if the biologist determines that the proximity and availability of alternate habitat is suitable for successful passive relocation. Passive relocation shall follow CDFW relocation protocol and shall only occur between September 15 and February 1. If proximate alternate habitat is not present as determined by the biologist, active relocation shall follow CDFW relocation protocol. The biologist shall confirm in writing that the species has fledged the site or been relocated prior to the issuance of a grading permit. 			
MM BR-2	<p>All vegetation clearing and ground disturbance shall be prohibited during the bird nesting season (February 1 through September 15), unless a nesting bird survey is completed in accordance with the following requirements:</p> <ol style="list-style-type: none"> a) A bird nesting survey of the Project Site, including suitable habitat within a 100-foot radius, shall be conducted by a qualified biologist within five (5) days prior to initiating 			

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>vegetation clearing or ground disturbance at the respective property. A copy of the nesting bird survey results report shall be provided to the City of Moreno Valley.</p> <p>b) If the survey does not identify the presence of any active nests, then construction activities can proceed without restriction.</p> <p>c) If the survey identifies the presence of active nests, then the qualified biologist shall provide the City with a copy of maps showing the location of all nests and a species-appropriate buffer zone around each nest sufficient to protect the nest from substantial adverse direct and/or indirect impacts. The size and location of all buffer zones, if required, shall be subject to review and approval by the City but shall be no less than a 100-foot radius around the nest for non-raptor species and no more than a 500-foot radius around the nest for raptor species and any endangered, threatened, or candidate species.</p> <p>i) The nests and buffer zones shall be field checked weekly by a qualified biological monitor. The approved buffer zone shall be marked in the field with construction fencing. No construction vehicles shall be permitted within restricted areas (i.e., bird protection zones), unless directly related to the management or protection of the legally protected species, until after the nest becomes inactive (or the nest has failed), the young have fledged, the young are no longer being fed by the parents, the young have left the area, or the young will no longer be impacted by the activities.</p> <p>ii) In the event that a nest is abandoned despite efforts to minimize disturbance and, if the nestlings are still alive, the Project Applicant/Developer shall contact the California Department of Fish and Wildlife (CDFW) and, subject to CDFW approval, fund the recovery and hacking (controlled release of captive reared young) of the nestling(s).</p>				
<p>b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?</p>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Response: A jurisdictional delineation report was prepared for the Project. The jurisdictional delineation identifies potential jurisdictional waters and wetlands located on and abutting the Project site and is included as <i>Technical Appendix B2</i> to this IS/MND (MIG, 2021a). Additionally, a DBESP report was prepared to address potential MSHCP riparian/riverine areas located on and abutting the Project site. The DBESP report is included as <i>Technical Appendix B3</i> (MIG, 2021b).</p> <p>The Project would permanently impact approximately 0.61-acre of riparian and riverine habitats subject to CDFW jurisdiction, which are located within the black willow riparian woodland habitat (0.39-acre), disturbed wetland-cattail (0.02-acre), and wetland meadow along two ephemeral drainage courses (Drainages A and B, totaling 0.81-acre) on the Project site (MIG, 2021a, pp. 25-26). Accordingly, the Project would have a direct significant impact on riparian/riverine habitat and sensitive natural community for which mitigation is required.</p> <p>MM BR-3 would reduce potential impacts to less-than-significant impacts by ensuring that the Project Applicant obtains all applicable permits for impacts to jurisdictional features and fully compensates for the permanent impacts to riparian/riverine habitat through the purchase of habitat mitigation credits at an approved mitigation bank. With implementation of MM BR-3, the proposed Project would result in less-than-significant impacts to riparian/riverine habitats and sensitive natural communities (MIG, 2021b, pp. 10-11).</p>				

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>MM BR-3 Prior to the issuance of grading permits, the Project Applicant shall obtain all applicable permits for impacts to jurisdictional features, which may include a 1602 Streambed Alteration Agreement from CDFW and a 401 Certification issued by the RWQCB pursuant to the California Water Code Section 13260. In addition, the Project Applicant shall purchase a minimum of 0.81-acre of re-establishment credits (a 1:1 mitigation-to-impact ratio for impacts to wetland meadow habitat) and 0.82-acre of rehabilitation credits (a 2:1 mitigation-to-impact ratio for impacts to black willow riparian woodland and disturbed wetland-cattail habitats). Habitat mitigation credits can be purchased either at an approved Habitat Mitigation Bank (e.g., Riverpark Mitigation Bank) or via an In-Lieu Fee Program (e.g., Riverside-Corona Resource Conservation District and the Southwest Resource Management Association Santa Ana River Watershed In-Lieu Fee Program). Approval to purchase the mitigation credits must be granted in advance by the resource agencies. The Project Applicant shall provide evidence to the City of Moreno Valley that the applicable permits have been obtained and that the required habitat mitigation credits have been purchased prior to issuance of grading permits.</p>				
<p>c) Have a substantial adverse effect on State or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?</p>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Response: Implementation of the Project would permanently impact 0.02-acre of Wetland Waters of the State, associated with the on-site disturbed wetland-cattail habitat (MIG, 2021a, pp. 25, 27). No other federal or State-protected wetland waters, including vernal pools, are present on the Project site (MIG, 2021a, p. 22). Accordingly, the Project would have a direct significant impact on State-protected wetlands for which mitigation is required.</p>				
<p>MM BR-3 would reduce Project impacts to State-protected wetlands to a less-than-significant level by ensuring that the Project Applicant obtains all applicable permits for impacts to jurisdictional features and fully compensates for the permanent impacts to State wetlands through the purchase of habitat mitigation credits at an approved mitigation bank. With implementation of MM BR-3, the proposed Project would result in less-than-significant impacts to State-protected wetlands (MIG, 2021b, pp. 10-11).</p>				
<p>d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with an established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?</p>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Response: Wildlife movement corridors link together areas of suitable habitat that are otherwise separated by rugged terrain, changes in vegetation, or human disturbances. The Project site was evaluated for its function as a wildlife corridor that species would use to move between wildlife habitat zones as part of the MSHCP Compliance Analysis. Generally, mountain canyons and/or riparian corridors are used by wildlife as corridors; the Project site does not contain either of these features. Furthermore, the Project site is substantially surrounded by human activity in the form of industrial land uses and roadways. Lastly, the Project site is not identified for conservation or designated as a wildlife movement corridor as part of the MSHCP and the Project would be consistent with the MSHCP and, thus, would not interfere with or affect any MSHCP-designated wildlife movement corridor. (MIG, 2020a, p. 17) Therefore, no impact to a wildlife corridor would occur from implementation of the Project.</p>				
<p>Wildlife nurseries are sites where wildlife concentrate for hatching and/or raising young, such as rookeries, spawning areas, and bat colonies. Although no nesting birds or remnant nests were observed on the Project site by MIG, implementation of the Project could potentially result in significant impacts to biological resources (i.e., avian species and their nests) that are protected by the MBTA and CFGC if active nests are present within or adjacent to the site during construction. Implementation of MM BR-2 would reduce potential impacts to nesting birds to less-than-significant levels by ensuring that pre-construction surveys are conducted to determine the presence or absence of nesting birds on or adjacent to the Project site prior to the commencement of construction activities. If active nests are discovered,</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>this mitigation measure establishes performance criteria that requires avoidance of the nests until it can be determined the nest is no longer active or that the juveniles from the occupied nests are capable of surviving independently of the nest.</p>				
<p>e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Implementation of the Project would result in the removal of trees on the Project site. The removal of trees is regulated by City of Moreno Valley Municipal Code Chapter 9.17.030, which requires development projects to conduct a tree survey prior to construction and, if any mature significant trees are to be removed, to replace each removed tree at defined ratios (as specified in Municipal Code Chapter 9.17.030). Prior to removal of any mature significant trees from the Project survey area, the Project Applicant would be required to comply with the provisions of Chapter 9.17.030 of the City of Moreno Valley Municipal Code. Mandatory compliance with the requirements of the Municipal Code would ensure the Project would not conflict with the City of Moreno Valley's ordinance regulating tree removal.</p> <p>In addition, the City of Moreno Valley Municipal Code contains provisions for the protection of the Stephens' Kangaroo Rat (refer to Title 8, Chapter 8.60 of the Municipal Code). The Project site is not located within an identified reserve area for the Stephens' Kangaroo Rat and the species was not observed during biological surveys of the Project site (MIG, 2020a, p. 16). Accordingly, the Project is exempt from the focused survey requirements for the Stephens' Kangaroo Rat established by the City's Municipal Code. The Project Applicant is required by the Municipal Code to contribute a local development impact and mitigation fee, which requires a fee payment to assist the City in implementing the habitat conservation plan for the Stephens' Kangaroo Rat. With mandatory compliance with standard regulatory requirements (i.e., development impact and mitigation fee payment), the proposed Project would not conflict with any City policies or ordinances related to the protection of the Stephens' Kangaroo Rat. (The Project's consistency with applicable provisions of the Stephens' Kangaroo Rat HCP are addressed in Response IV(f).)</p> <p>The City of Moreno Valley Municipal Code also contains provisions for the collection of mitigation fees to further the implementation of the Western Riverside County MSHCP (refer to Title 3, Chapter 3.48 of the Municipal Code). The Project Applicant is required by the Municipal Code to contribute a local mitigation fee, which requires a fee payment to assist the City in implementing the Western Riverside County MSHCP reserve system (including the acquisition, management, and long-term maintenance of sensitive habitat areas). With mandatory compliance with standard regulatory requirements (i.e., mitigation fee payment), the proposed Project would not conflict with any City policies or ordinances related to the mitigation fee program associated with Western Riverside County MSHCP. (The Project's consistency with applicable provisions of the MSHCP are addressed in Response IV(f).)</p> <p>The City of Moreno Valley does not have any additional policies or ordinances in place to protect biological resources that are applicable to the Project. Mandatory compliance with the above referenced Moreno Valley Municipal Code Chapters would ensure that implementation of the Project would result in a less than significant impact associated with local policies and ordinances.</p>				
<p>f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or another approved local, regional, or state habitat conservation plan?</p>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is subject to the provisions of the Western Riverside County MSHCP; however, the Project site is not located in a criteria cell or area plan subunit. The following analysis evaluates the Project's compliance with the Western Riverside County MSHCP requirements pursuant to the following sections of the MSHCP that are applicable to the Project site: Section 6.1.2, <i>Protection of Species Associated with Riparian/Riverine areas and Vernal Pools</i>; Section 6.1.3, <i>Protection of Narrow Endemic Plant Species</i>; Section 6.1.4, <i>Guidelines Pertaining to the Urban/Wildland Interface</i>; and Section 6.3.2, <i>Additional Survey Needs and Procedures</i>.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p><u>Section 6.1.2 Species Associated with Riparian/Riverine Habitat and Vernal Pools</u> The Project survey area does not contain any MSHCP vernal pools or seasonal pools. The Project site does contain 0.59-acre of MSHCP riparian/riverine habitat, all of which would be removed by the Project (MIG, 2021b, p. 1). As required by the MSHCP, a Determination of Biologically Equivalent or Superior Preservation (DBESP) report is required in all instances where MSHCP riparian/riverine areas would be impacted by a development project. The goal of the DBESP report is to demonstrate that the development project provides mitigation that is biologically equivalent or superior to the existing conditions on a development site if left undisturbed. The Project’s DBESP report is provided as <i>Technical Appendix B3</i>.</p> <p>According to the Project’s DBESP report, the purchase of habitat re-establishment and rehabilitation mitigation credits would be considered superior mitigation as compared to the preservation of the 0.59-acre of on-site MSHCP riparian/riverine habitat because the mitigation bank where the habitat credits would be purchased provide high quality habitat areas with habitat functions that are superior to the existing conditions at the Project site (MIG, 2021b, pp. 10-11). As such, with implementation of MM BR-3, the Project’s significant impacts to MSHCP riverine and riparian areas would be reduced to less than significant and the Project would not conflict with Section 6.1.2 of the Western Riverside County MSHCP.</p> <p><u>Section 6.1.3 Protection of Narrow Endemic Plants</u> The Project site is not located within the Western Riverside County MSHCP Narrow Endemic Plant Species Survey Area (NEPSSA); therefore, the NEPSSA requirements are not applicable to the Project and the Project is consistent with the Western Riverside County MSHCP narrow endemic plant species policies (MIG, 2020a, pp. 17-18).</p> <p><u>Section 6.1.4 Urban/Wildlands Interface Guidelines</u> The Project site is not located within or adjacent to a Western Riverside County MSHCP Conservation Area; therefore, the Project site is not required to address Section 6.1.4 of the Western Riverside County MSHCP (MIG, 2020a, pp. 18-19).</p> <p><u>Section 6.3.2 Additional Surveys and Procedures</u> The Project site is not located within the Western Riverside County MSHCP Criteria Area Plant Species Survey Area (CAPSSA); therefore, the CAPSSA requirements are not applicable to the Project. Additionally, the Project site is not located within the Western Riverside County MSHCP additional survey areas for amphibians, survey areas for mammals, or any special linkage areas; however, the Project site is located within the Western Riverside County MSHCP burrowing owl survey area (MIG, 2020a, pp. 17-18).</p> <p>No evidence of use of the site by burrowing mammals was present and no burrows suitable for use by the owl was observed. The species is considered absent from the Project site and potential occurrence is low; however, a preconstruction burrowing owl survey in accordance with the Western Riverside County MSHCP Burrowing Owl Survey Requirements is required to ensure compliance with the Plan’s provisions for protecting the burrowing owl (see MM BR-1). With implementation of MM BR-1, implementation of the Project would result in a less-than-significant impact to the burrowing owl. (MIG, 2020a, p. 18)</p> <p>Additionally, the Project site is located within the Stephens’ Kangaroo Rat Habitat Conservation Plan Fee Area, which is administered by the Riverside County Habitat Conservation Agency. The Project Applicant would be required to pay the Stephens’ Kangaroo Rat, which is established at \$500 per acre (MIG, 2020a, pp. 19-20; Riverside County, 1996, p. 53). Payment of the Stephens’ Kangaroo Rat HCP fee is required – as noted in the analysis under Response IV(e) – and would ensure the Project is consistent with the Stephens’ Kangaroo Rat HCP and the Western Riverside County MSHCP.</p>

V. CULTURAL RESOURCES – Would the project:

a) Cause a substantial adverse change in the significance of a historical resource pursuant to § 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Response: A cultural resources survey conducted for the Project site by Brian F. Smith and Associates (BFSA), which included a comprehensive site survey and archival records search, identified no historic resources on the Project site (BFSA, 2020a, p. 1.0-1). Additionally, the Project site is not identified as containing a historic resource by the City of Moreno Valley General Plan FEIR, Exhibit 5.10-1, *Locations of Listed Historic Resource Inventory Structures* (Moreno Valley, 2006b). Accordingly, the Project has no potential to impact a historical resource as defined by California Code of Regulations Section 15064.5.

b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: According to the cultural resources survey conducted by BFSA, no prehistoric archaeological resources were observed on the Project site during a comprehensive field survey and no prehistoric archaeological resources are known to exist within a one-mile radius of the Project site based on an archival records search conducted with the Eastern Information Center at the University of California, Riverside (BFSA, 2020a, pp. 5.0-1 to 5.0-5). Based on the findings of the field survey and archival research and due to historic disturbances on the Project site, BFSA concluded the Project site had a low likelihood for containing prehistoric archaeological resources (BFSA, 2020a, pp. 1.0-1 and 6.0-1). Based on the foregoing, the Project would result in less-than-significant impact to prehistoric archaeological resources defined by California Code of Regulations Section 15064.5.

c) Disturb any human remains, including those interred outside of formally dedicated cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The Project site does not contain a cemetery, and no known formal cemeteries are located within the immediate site vicinity (Moreno Valley, 2006b, p. 1.0-1). Nevertheless, the remote potential exists that human remains may be unearthed during grading and excavation activities associated with Project construction. If human remains are unearthed during Project construction, the construction contractor would be required by law to comply with California Health and Safety Code, Section 7050.5 "Disturbance of Human Remains." According to Subsections 7050.5(b) and (c), if human remains are discovered, the County Coroner must be contacted and if the Coroner recognizes the human remains to be those of a Native American, or has reason to believe that they are those of a Native American, the Coroner is required to contact, by telephone within 24 hours, the Native American Heritage Commission

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

(NAHC). Pursuant to California Public Resources Code Section 5097.98, whenever the NAHC receives notification of a discovery of Native American human remains from a county coroner, the NAHC is required to immediately notify those persons it believes to be most likely descended from the deceased Native American. The descendants may, with the permission of the owner of the land, or his or her authorized representative, inspect the site of the discovery of the Native American human remains and may recommend to the owner or the person responsible for the excavation work means for treatment or disposition, with appropriate dignity, of the human remains and any associated grave goods. The descendants shall complete their inspection and make recommendations or preferences for treatment within 48 hours of being granted access to the site. According to Public Resources Code Section 5097.94(k), the NAHC is authorized to mediate disputes arising between landowners and known descendants relating to the treatment and disposition of Native American human burials, skeletal remains, and items associated with Native American burials.

With mandatory compliance to California Health and Safety Code Section 7050.5 and Public Resources Code Section 5097.98, any potential impacts to human remains, including human remains of Native American descent, would be reduced to less than significant and mitigation is not required.

VI. ENERGY – Would the project:

a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The analysis below is based on the *Energy Analysis* (included as *Technical Appendix D* to this IS/MND) prepared for the proposed Project by Urban Crossroads and demonstrates that implementation of the Project would not result in a potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation.

Energy Use During Construction

The Project’s construction process would consume electricity and fuel. Project-related construction activities would represent a “single-event” demand and would not require on-going or permanent commitment of energy resources. Project construction is estimated to consume approximately 85,609 kWh of electricity, approximately 36,736 gallons of diesel fuel from operation of construction equipment, 15,941 gallons of diesel fuel from construction vendor trips, and 26,278 gallons of fuel from construction worker trips (Urban Crossroads, 2020c, p. 36). The amount of energy and fuel use anticipated by the Project’s construction activities are typical for the type of scale of construction proposed by the Project and there are no aspects of the Project’s proposed construction process that are unusual or energy-intensive. Furthermore, construction equipment would be required to conform to the applicable CARB emissions standards, acting to promote equipment fuel efficiencies. For example, CCR Title 13, Motor Vehicles, Section 2449(d)(3) Idling, limits idling times of construction vehicles to no more than five minutes, thereby precluding unnecessary and wasteful consumption of fuel due to unproductive idling of construction equipment. As supported by the preceding discussion, the Project’s construction energy consumption would not be considered inefficient, wasteful, or otherwise unnecessary. (Urban Crossroads, 2020c, p. 31) Impacts during Project construction would be less than significant.

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p><u>Energy Use Project Operations</u></p> <p>Energy that would be consumed by Project-related traffic is a function of total vehicle miles traveled and the estimated vehicle fuel economies of vehicles accessing the Project site. The Project would result in 5,292,177 annual vehicle miles traveled and an estimated annual fuel consumption of 405,743 gallons of fuel (Urban Crossroads, 2020c, p. 34). The number of daily trips and miles traveled by Project traffic are consistent with other industrial uses of similar scale and configuration in the Inland Empire. That is, the Project does not propose uses or operations that would inherently result in excessive and wasteful vehicle trips and/or vehicle miles traveled, nor associated excess and wasteful vehicle energy consumption (Urban Crossroads, 2020c, p. 37). Enhanced fuel economies realized pursuant to federal and State regulatory actions, and related transition of passenger vehicles to alternative energy sources (e.g., electricity, natural gas, bio fuels, hydrogen cells) would likely decrease future gasoline fuel demands per mile traveled. The location of the Project site proximate to regional and local arterial roadways (e.g., I-215 and SR-60) is expected to minimize the Project vehicle miles traveled within the region. Based on the foregoing, Project transportation energy consumption would not be considered inefficient, wasteful, or otherwise unnecessary (Urban Crossroads, 2020c, p. 38).</p> <p>Building operations and site maintenance activities associated with the Project would result in the consumption of natural gas and electricity. Natural gas would be supplied to the Project by Southern California Gas Company; electricity would be supplied to the Project by Moreno Valley Utility (MVU). Energy demands resulting from Project operations are estimated at 6,438,204 kilo-British thermal units (kBTU) per year of natural gas and 5,261,115 Kilowatt-hour (kWh) per year of electricity (Urban Crossroads, 2020c, p. 35). The Project provides conventional industrial buildings uses reflecting contemporary energy efficient/energy conserving designs and operational programs. Uses proposed by the Project are not inherently energy intensive, and the Project energy demands in total would be comparable to, or less than, other industrial projects of similar scale and configuration (Urban Crossroads, 2020c, pp. 37-38). Additionally, the Project would be required to comply with Title 24 standards, which would ensure that the Project's energy demand would not be considered inefficient, wasteful, or otherwise unnecessary (ibid.).</p> <p>Based on the foregoing analysis, Project operations would result in a less-than-significant impact to energy resources.</p>				
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The following section analyzes the Project's consistency with the applicable federal and State regulations. As supported by the proceeding analysis, the Project would not conflict with or obstruct a State or local plan for renewable energy or energy efficiency and a less-than-significant impact would occur.</p>				
<p><u>Consistency with Federal Energy Regulations</u></p> <p><i>Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA)</i></p> <p>Transportation and access to the Project site is provided primarily by the local and regional roadway systems, which includes I-215, SR-60, and Alessandro Boulevard. Implementation of the Project would not interfere with, nor otherwise obstruct intermodal transportation plans or projects that may be realized pursuant to the ISTEA because SCAG is not planning for intermodal facilities on or through the Project site (Urban Crossroads, 2020c, p. 39).</p> <p><i>The Transportation Act for the 21st Century (TEA-21)</i></p> <p>The Project site is located along major transportation corridors with proximate access to the interstate freeway system (i.e., I-215). The site selected for the Project facilitates access, acts to reduce vehicle miles traveled (VMT), takes advantage of existing infrastructure systems, and promotes land use compatibilities through collocation of similar uses. The Project supports the strong planning processes emphasized under TEA-21. The Project is therefore consistent with, and would not otherwise interfere with, nor obstruct implementation of TEA-21 (Urban Crossroads, 2020c, p. 39).</p>				

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

Consistency with State Energy Regulations

Integrated Energy Policy Report (IEPR)

Electricity would be provided to the Project by MVU and natural gas would be provided by SoCalGas. The MVU and SoCal Gas energy supplies comply with and build off existing State programs and policies. As such, the Project is consistent with, and would not otherwise interfere with, nor obstruct implementation the goals presented in the IEPR (Urban Crossroads, 2020c, p. 39).

State of California Energy Plan

The Project site is located along Alessandro Boulevard, east of Frederick Street, with proximate access to Interstate 215. The location of the Project site facilitates access, acts to reduce VMT, takes advantage of existing infrastructure systems, and promotes land use compatibilities through the introduction of industrial uses on a site surrounded by industrial and commercial uses. Therefore, the Project supports urban design and planning processes identified under the State of California Energy Plan, is consistent with, and would not otherwise interfere with, nor obstruct implementation of the State of California Energy Plan (Urban Crossroads, 2020c, p. 39).

California Code Title 24, Part 6, Energy Efficiency Standards

The Project would design building shells and building components, such as windows; roof systems: electrical and lighting systems: and heating, ventilating, and air conditioning systems to meet 2019 Title 24 Standards. The Project also is required by State law to be designed, constructed, and operated to meet or exceed Title 24 Energy Efficiency Standards. On this basis, the Project is determined to be consistent with, and would not interfere with, nor otherwise obstruct implementation of Title 24 Energy Efficiency Standards

Pavley Fuel Efficiency Standards (AB 1493)

AB 1493 is applicable to the Project because model year 2009-2016 passenger cars and light duty truck vehicles traveling to and from the Project site are required by law to comply with the legislation’s fuel efficiency requirements. On this basis, the Project is determined to be consistent, with, and would not interfere with, nor otherwise obstruct implementation of AB 1493.

Advanced Clean Cars Program

The Advanced Clean Cars Program is applicable to the Project because model year 2017-2025 passenger car vehicles traveling to and from the Project site are required by law to comply with the legislation’s fuel efficiency requirements. On this basis, the Project is determined to be consistent, with, and would not interfere with, nor otherwise obstruct implementation of California’s Advanced Clean Cars Program.

California Renewable Portfolio Standards (SB 1078)

Energy directly or indirectly supplied to the Project site by electric corporations is required by law to comply with SB 1078.

Sources:

1. Urban Crossroads, 2020c, Compass Danbe Centerpointe Energy Analysis, *Technical Appendix D*

VII. GEOLOGY AND SOILS – Would the project:

a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury or death involving:

i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to https://www.conservation.ca.gov/cgs/Document s/SP_042.pdf	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>Response: There are no Alquist-Priolo Earthquake Fault Zones affecting the Project site (NorCal Engineering, 2020, p. 4). The nearest Earthquake Fault Zone is the San Jacinto Fault, which occurs approximately 3.7 miles southeast of the Project site (Google Earth Pro, 2020; Moreno Valley, 2006a, Figure 6-3). Because there are no known faults located on the Project site, there is no potential for the Project to expose people or structures to adverse effects related to ground rupture. No impact would occur.</p>				
<p>ii) Strong seismic ground shaking?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is located in a seismically active area of southern California and is expected to experience moderate to severe ground shaking during the lifetime of the Project. This risk is not considered substantially different than that of other similar properties in the southern California area. As a mandatory condition of Project approval, the Project would be required to construct the proposed warehouse buildings in accordance with the California Building Standards Code (CBSC), also known as California Code of Regulations (CCR), Title 24 (Part 2), and the City of Moreno Valley Building Code, which is based on the CBSC with local amendments. The CBSC and City of Moreno Valley Building Code (Moreno Valley Municipal Code, Chapter 8.20) provide standards that must be met to safeguard life or limb, health, property, and public welfare by regulating and controlling the design, construction, quality of materials, use and occupancy, location, and maintenance of all buildings and structures, and have been specifically tailored for California earthquake conditions. In addition, the CBSC (Chapter 18) and the City of Moreno Valley Building Code (Chapter 8.21) require development projects to prepare geologic engineering reports to identify site-specific geologic and seismic conditions and implement the site-specific recommendations contained therein to preclude adverse effects involving unstable soils and strong seismic ground-shaking, including, but not limited to, recommendations related to ground stabilization, selection of appropriate foundation type and depths, selection of appropriate structural systems. The Project Applicant has commissioned such a report titled, <i>Geotechnical Investigation – Proposed Warehouse Building Development</i> (NorCal Engineering, 2020), which is included as <i>Technical Appendix E</i> to this IS/MND, and the City would condition the Project to comply with the site-specific ground preparation and construction recommendations contained in the report. With mandatory compliance with these standards and site-specific design and construction measures set forth in the Project's geotechnical report, potential impacts related to seismic ground shaking would be less than significant. As such, implementation of the Project would not expose people or structures to substantial adverse effects, including loss, injury, or death, involving seismic ground shaking. Impacts would be less-than-significant.</p>				
<p>iii) Seismic-related ground failure, including liquefaction?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: According to General Plan FEIR Figure 5.6-2, <i>Seismic Hazards</i>, the Project site is not located in an area with the potential for liquefaction. The geotechnical investigation prepared for the Project site concludes that based on observed subsurface conditions, the potential for liquefaction at the Project site is low due to the characteristics of on-site soils and the depth of the groundwater table beneath the site (greater than 50 feet below the surface) (NorCal Engineering, 2020, pp. 5-6). Regardless, the City of Moreno Valley will require that the property be developed in accordance with the latest applicable seismic safety guidelines, including the standard requirements of the CBSC and the City of Moreno Valley Municipal Code Building Code, to minimize potential liquefaction hazards. Therefore, implementation of the Project would not directly or indirectly expose people or structures to substantial hazards associated with seismic-related ground failure and/or liquefaction hazards. Impacts would be less than significant.</p>				
<p>iv) Landslides?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is generally flat and contains no substantial natural or man-made slopes under existing conditions. There are no substantial natural or man-made slopes in the Project site vicinity, either. Accordingly, development on the subject property would not be exposed to landslide risks, and the Project would not pose a landslide risk to surrounding properties; a less-than-significant impact would occur.</p>				
<p>b) Result in substantial soil erosion or the loss of topsoil?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The analysis below summarizes the likelihood of the Project to result in substantial soil erosion during temporary construction activities and/or long-term operation.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p><u>Construction-Related Impacts</u> Construction of the Project would involve grading, paving, utility installation, building construction, and landscaping installation, which has the potential to temporarily expose on-site soils that would be subject to erosion during rainfall events or high winds. Pursuant to State Water Resources Control Board requirements, the Project Applicant is required to obtain a National Pollutant Discharge Elimination System (NPDES) permit for construction activities, including proposed grading. The NPDES permit is required for all projects that include construction activities, such as clearing, grading, and/or excavation that disturb at least one (1) acre of total land area. In addition, the Project would be required to comply with the Santa Ana RWQCB's <i>Santa Ana River Basin Water Quality Control Program</i>. Compliance with the NPDES permit and the Santa Ana River Basin Water Quality Control Program involves the preparation and implementation of a SWPPP for construction-related activities. The SWPPP will specify the Best Management Practices (BMPs) that would be required to be implemented during construction activities to ensure that waterborne pollution – including erosion/sedimentation – is prevented, minimized, and/or otherwise appropriately treated prior to surface runoff being discharged from the subject property. Examples of BMPs that may be utilized during construction include, but are not limited to, sandbag barriers, geotextiles, storm drain inlet protection, sediment traps, rip rap soil stabilizers, and hydro-seeding. In addition, the Project would be required to comply with SCAQMD Rule 403, which would reduce the amount of particulate matter in the air and minimize the potential for wind erosion (SCAQMD, 2005). With mandatory compliance to the requirements noted in the Project's SWPPP, as well as applicable regulatory requirements, the potential for water and/or wind erosion impacts during Project construction would be less than significant and mitigation is not required.</p> <p><u>Long-Term Operational Activities</u> Following construction, wind and water erosion on the Project site would be minimized, because the areas disturbed during construction would be landscaped or covered with impervious surfaces and drainage would be controlled through a storm drain system. Implementation of the Project would result in less long-term erosion and loss of topsoil than occurs under the site's existing conditions.</p> <p>The City's MS4 NPDES Permit requires the Project Applicant to prepare and submit to the City for approval a Water Quality Management Plan (WQMP) (refer to Moreno Valley Municipal Code Section 8.21.170). The WQMP is required to identify an effective combination of erosion control and sediment control measures (i.e., BMPs) to reduce or eliminate sediment discharge to surface water from storm water and non-storm water discharges. The WQMP also is required to establish a post-construction implementation and maintenance plan to ensure on-going, long-term erosion protection. Compliance with the WQMP will be required as a condition of approval for the Project, as would the long-term maintenance of erosion and sediment control features. The preliminary WQMP for the Project prepared by Thatcher Engineering and Associates, Inc. (Thatcher) (attached hereto as <i>Technical Appendix I1</i>) incorporates design features would be effective at removing silt and sediment from storm water runoff. Because the Project would be required to utilize erosion and sediment control measures to preclude substantial, long-term soil erosion and loss of topsoil, the Project would result in less-than-significant impacts related to soil erosion.</p>				
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project's geotechnical report (<i>Technical Appendix E</i>) indicates that the settlement potential would be attenuated through the proposed removal of near surface soils down to competent materials and replacement with properly compacted fill, which is included as a recommendation in the Project's geotechnical report. Additionally, only minor ground subsidence (±0.2 feet) is expected to occur in the soils below the zone of removal, due to earthwork operations (NorCal Engineering, 2020, p. 9). Through standard conditions of approval in accordance with Moreno Valley Municipal Code Section 8.21.050, the proposed Project would be required by the City to incorporate the recommendations contained within the Project geotechnical report into the grading plan for the Project (Moreno Valley, n.d.). As such, implementation of the Project would result in less-than-significant impacts associated with soil shrinkage/subsidence and collapse.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
As discussed in Responses VII (a), (iii) and (iv), development of the property as proposed by the Project would result in a less than significant impact involving ground failure, including liquefaction and landslide, and a less-than-significant impact involving landslides.				
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Response: According to USDA's Web Soil Survey, the Project site is underlain with Monserate sandy loam 0 to 5 percent slopes, and expansion potential is "very low" to "medium" (USDA, n.d.; NorCal Engineering, 2020, Table II). The expansive characteristics of on-site soils would be attenuated by implementation of the foundation and floor slab design recommendations included in the Project's geotechnical report, which the City will require as a condition of approval pursuant to Section 9.08.080 of the Moreno Valley Municipal Code (NorCal Engineering, 2020, pp. 7-14). According to the above, implementation of the Project would result in less-than-significant impacts associated with expansive soils and would not create substantial risks to life or property.				
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Response: The Project does not propose the use of septic tanks or alternative waste water disposal systems. Accordingly, no impact would occur.				
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Response: The Project site does not contain any known unique geologic features (BFSA, 2020b, p. 6). However, the Project site is underlain by lower Pleistocene (approximately 1.8 million to 200,000 years old), very old, sandy alluvial fan deposits that have a high paleontological sensitivity for fossils of large, terrestrial Ice Age vertebrates (BFSA, 2020b, p. 6). In the event that Project grading and excavation activities encroach into previously undisturbed Pleistocene-age alluvial deposits, the Project could result in impacts to important paleontological resources that may exist below the ground surface if they are unearthed and not properly protected. Therefore, the Project's potential to directly or indirectly destroy a unique paleontological resource buried beneath the ground surface is determined to be a significant impact and mitigation is required.				
Implementation of MM GEO-1 through MM GEO-4 would ensure the proper identification and subsequent treatment of any paleontological resources that may be encountered during ground-disturbing activities associated with implementation of the proposed Project. Therefore, with implementation of MM GEO-1 through MM GEO-4, the Project's potential impacts related to paleontological resources would be reduced to a less-than-significant level.				
Mitigation				
MM GEO-1	Prior to the issuance of a grading permit, the Project Applicant shall provide evidence to the City of Moreno Valley that a qualified paleontologist has been retained by the Project Applicant to conduct monitoring of excavation activities and has the authority to halt and redirect earthmoving activities in the event that suspected paleontological resources are unearthed.			
MM GEO-2	The paleontological monitor shall conduct full-time monitoring during grading and excavation operations in undisturbed, very old alluvial fan sediments at depths exceeding five feet below the existing ground surface and shall be equipped to salvage fossils if they are unearthed to avoid construction delays and to remove samples of sediments that are likely to contain the remains of small fossil invertebrates and vertebrates. The paleontological monitor shall be empowered to temporarily halt or divert equipment to allow of removal of abundant and large specimens in a timely manner. Monitoring may be

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>reduced if the potentially fossiliferous units are not present in the subsurface, or if present, are determined upon exposure and examination by qualified paleontological personnel to have a low potential to contain or yield fossil resources.</p> <p>MM GEO-3 Recovered specimens shall be properly prepared to a point of identification and permanent preservation, including screen washing sediments to recover small invertebrates and vertebrates, if necessary. Identification and curation of specimens into a professional, accredited public museum repository with a commitment to archival conservation and permanent retrievable storage, such as the Western Science Museum in Hemet, California, is required for significant discoveries.</p> <p>MM GEO-4 A final monitoring and mitigation report of findings and significance shall be prepared, including lists of all fossils recovered, if any, and necessary maps and graphics to accurately record the original location of the specimens. The report shall be submitted to the City of Moreno Valley prior to building final.</p>

VIII. GREENHOUSE GAS EMISSIONS – Would the project:

a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: A *Greenhouse Gas Analysis* (Urban Crossroads, 2020d) was prepared for the Project by Urban Crossroads to quantify the greenhouse gas (GHG) emissions that would result from Project-related construction and operational activities. This report is included as *Technical Appendix F* to this IS/MND and its findings are incorporated into the analysis presented herein.

While estimated Project-related GHG emissions can be calculated, the direct impacts of such emissions on Global Climate Change (GCC) and global warming cannot be determined on the basis of available science because global climate change is a global phenomenon and not limited to a specific locale such as the Project site and its immediate vicinity. Furthermore, there is no evidence that would indicate that the emissions from a project the size of the proposed Project could directly or indirectly affect the global climate. Because global climate change is the result of GHG emissions, and GHGs are emitted by innumerable sources worldwide, the proposed Project would not result in a direct impact to global climate change; rather, Project-related impacts to global climate change only could be potentially significant on a cumulative basis. (Urban Crossroads, 2020d, p. 8) Therefore, the analysis below focuses on the Project’s potential to contribute to global climate change in a cumulatively-considerable way.

The City of Moreno Valley has not adopted a numerical threshold for determining the significance of GHG emissions; however, the City has discretion to select an appropriate significance criterion used by other agencies, based on substantial evidence (Urban Crossroads, 2020d, p. 39). Specifically, the City has selected to compare Project-related GHG emissions against the draft 10,000 metric tons of carbon dioxide equivalent (MTCO_{2e}) per year threshold recommended by SCAQMD staff for industrial projects against where SCAQMD is the lead agency. The industrial threshold utilized by SCAQMD is a widely accepted threshold used by numerous lead agencies in the South Coast Air Basin (SCAB) and was established based on the recommendations from California Air Pollution Control Officers Association

ISSUES & SUPPORTING INFORMATION SOURCES:

Potentially Significant Impact

Less Than Significant with Mitigation Incorporated

Less Than Significant Impact

No Impact

(CAPCOA) contained in a report titled “CEQA and Climate Change” (dated January 2008), which serves as a resource for public agencies as they establish agency procedures for reviewing GHG emissions from projects under CEQA. The CAPCOA report provides three recommendations for evaluating a development project’s GHG emissions. When establishing their significance threshold, SCAQMD selected the CAPCOA non-zero approach which establishes a numerical threshold based on capture of approximately 90 percent of emissions from future development (Approach 2, Threshold 2.5). A 90 percent emission capture rate means that 90 percent of total emissions from all new or modified projects would be subject to evaluation under CEQA. Based on SCAQMD’s research of 1,297 major, industrial source point (i.e., stationary) emission sources in the SCAB, SCAQMD found that source point industrial facilities that generate at least 10,000 MTCO_{2e} per year produce approximately 90 percent of the carbon dioxide equivalent emissions in the SCAB per year. As such, SCAQMD established their significance criterion at 10,000 MTCO_{2e} as that threshold would capture 90 percent of total emissions from future industrial development in accordance with CAPCOA recommendations. (CAPCOA, 2008, pp. 46-47) If Project-related GHG emissions do not exceed the 10,000 MTCO_{2e} per year threshold, then Project-related GHG emissions would clearly have a less-than-significant impact. On the other hand, if Project-related GHG emissions exceed 10,000 MTCO_{2e} per year, the Project would be considered a substantial source of GHG emissions.

The Project’s annual GHG emissions are summarized in Table 7, *Total Annual Project Greenhouse Gas Emissions*. The methodology used to calculate the Project’s GHG emissions is described in detail in *Technical Appendix F*.

Table 7: Total Annual Project Greenhouse Gas Emissions

Emission Source	Emissions (MT/yr)			
	CO ₂	CH ₄	N ₂ O	Total CO _{2e}
Annual construction-related emissions amortized over 30 years	26.37	0.00	0.00	26.46
Area Source	0.02	5.00E-05	0.00	0.02
Energy Source	2,019.87	0.08	0.02	2,027.91
Mobile Source (Passenger Cars)	758.61	0.02	0.00	759.02
Mobile Source (Trucks)	3,038.11	0.05	0.00	3,039.35
On-Site Equipment Source	101.58	0.03	0.00	102.41
Waste	75.66	4.47	0.00	187.44
Water Usage	409.48	3.00	0.07	506.56
Total CO_{2e} (All Sources)	6,649.16			

Source: (Urban Crossroads, 2020d, Table 3-6)

As shown in Table 7, the Project is estimated to generate approximately 6,649.16 MTCO_{2e} annually, which is less than the significance threshold of 10,000 MTCO_{2e} (Urban Crossroads, 2020d, p. 48). Because the Project’s total annual GHG emissions would not exceed 10,000 MTCO_{2e}, the Project would not generate substantial GHG emissions – either directly or indirectly – that would have a significant impact on the environment. Impacts would be less than significant.

b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emission of greenhouse gases?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The Project would comply with a number of regulations, policies, plans, and policy goals that would reduce GHG emissions, including the Assembly Bill 32 (AB 32), and Senate Bill 32 (SB 32), which are regulations applicable to the Project. For more information on these regulations as well as other state-wide plans, policies, and regulations associated with GHG emissions that are not applicable to the Project, refer to *Technical Appendix F* of this IS/MND.

On October 9, 2012, the Moreno Valley City Council approved an Energy Efficiency and Climate Action Strategy and related GHG analysis. The Energy Efficiency and Climate Action Strategy document identifies potential programs and policies to reduce overall City energy consumption and increase the use of renewable energy. The majority of the policies are directed at municipal operations of the City,

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
---	--------------------------------	--	------------------------------	-----------

but the document also contains recommended policies for the community at large (including private development projects). These recommended policies include but are not limited to: energy efficiency, water use reduction, trip reduction, solid waste diversion, and educational policies. The overall goal of the Energy Efficiency and Climate Action Strategy is to ensure that the City is consistent with and would not otherwise conflict with the provisions of AB 32. As demonstrated by the analysis below, the Project would not conflict with the provisions of AB 32 and, therefore, would not obstruct implementation of the components of the City's Energy Efficiency and Climate Action Strategy that are applicable to the Project.

CARB identified measures in their 2017 Scoping Plan Update to identify the measures that would achieve the emissions reductions goals of SB 32. As explained in point-by-point detail in Section 3.8 of *Technical Appendix F* (refer to Table 3-7), the Project would not conflict with applicable measures of the 2017 Scoping Plan Update and would not preclude/obstruct implementation of the Scoping Plan Update (Urban Crossroads, 2020d, Table 3-8).

In April 2015, Governor Edmund Brown Jr. signed Executive Order B-30-15, which advocated for a statewide GHG-reduction target of 40 percent below year 1990 levels by 2030 and 80 percent below 1990 levels by 2050. In September 2016, Governor Brown signed the Senate Bill (SB) 32. SB 32 formally established a statewide goal to reduce GHG emissions to 40 percent below year 1990 levels by 2030. To date, no statutes or regulations have been adopted to translate the year 2050 GHG reduction goal into comparable, scientifically-based statewide emission reduction targets.

According to research conducted by the Lawrence Berkeley National Laboratory and supported by the CARB, California, under its existing and proposed GHG reduction policies (i.e., CARB Scoping Plan), is on track to meet the years 2020 and 2030 reduction targets established by AB 32 and SB 32, respectively (Urban Crossroads, 2020d, p. 27). As described above, the Project would not conflict with or obstruct implementation of the CARB Scoping Plan; therefore, the Project would not interfere with the State's ability to achieve the year 2030 GHG-reduction target established by SB 32.

Rendering a significance determination for year 2050 GHG emissions relative to EO B-30-15 would be speculative because EO B-30-15 establishes a goal more than three decades into the future; no agency with GHG subject matter expertise has adopted regulations to achieve these statewide goals at the project-level; and, available analytical models cannot presently quantify all project-related emissions in those future years. Further, due to the technological shifts anticipated and the unknown parameters of the regulatory framework in 2050, available GHG models and the corresponding technical analyses are subject to limitations for purposes of quantitatively estimating the Project's emissions in 2050.

As described above, the Project would not conflict with the State's ability to achieve the State-wide GHG reduction mandates and would be consistent with applicable policies and plans related to GHG emissions reductions. Impacts would be less than significant.

IX. HAZARDS AND HAZARDOUS MATERIALS – Would the project:

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: A Phase I Environmental Site Assessment (ESA) was prepared for the Project site by Partner Engineering and Science, Inc. (Partner) and is included as *Technical Appendix G* to this IS/MND. As part of the Phase I ESA efforts, Partner conducted a visual inspection of the Project site, researched regulatory hazardous materials databases, reviewed historical reference materials (including aerial photographs, topographic maps, and City of Moreno Valley directories), and interviewed people with historical links to the Project site; the findings of this research are incorporated into the analysis presented herein.

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p><u>Existing Site Conditions Impacts</u></p> <p>There were no underground or aboveground storage tanks, drain lines, sumps, ponds, pits, lagoons, stressed vegetation, wells, transformers, or mold found on the Project site (Partner, 2019, pp. 17-18). Based on a review of historic regulatory agency hazardous materials databases, historic site aerial photographs, interviews with current property owners, and a reconnaissance of the Project site, Partner determined that the Project site does not contain any recognized environmental conditions (RECs), historic recognized environmental conditions, or other environmental issues (Partner, 2019, p. 21). A REC is defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: due to release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment” (ibid.). A HREC is defined as “past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the application regulatory authority” (ibid).</p> <p>Based on the foregoing analysis, the Project would not create significant hazard to the public or the environment through routine transport, use, or disposal of hazardous materials from the Project site under existing conditions. A less-than-significant impact would occur.</p> <p><u>Construction-Related Impacts</u></p> <p>Heavy equipment (e.g., dozers, excavators, tractors) would be operated on the subject property during construction of the Project. Heavy equipment is typically fueled and maintained by petroleum-based substances such as diesel fuel, gasoline, oil, and hydraulic fluid, which is considered hazardous if improperly stored or handled. In addition, materials such as paints, adhesives, solvents, and other substances typically used in building construction would be located on the Project site during construction. Improper use, storage, or transportation of hazardous materials can result in accidental releases or spills, potentially posing health risks to workers, the public, and the environment. This is a standard risk on all construction sites, and there would be no greater risk for improper handling, transportation, or spills associated with the proposed Project than would occur on any other similar construction site. Construction contractors would be required to comply with all applicable federal, state, and local laws and regulations regarding the transport, use, and storage of hazardous construction-related materials, including but not limited requirements imposed by the Environmental Protection Agency (EPA), California Department of Toxic Substances Control (DTSC), South Coast Air Quality Management District (SCAQMD), and Santa Ana RWQCB. With mandatory compliance with applicable hazardous materials regulations, the Project would not create a significant hazard to the public or the environment through routine transport, use, or disposal of hazardous materials during the construction phase. Impacts would be less than significant.</p> <p><u>Long-Term Operational Impacts</u></p> <p>The future building occupant(s) for the Project site are not yet identified; however, the Project is designed to house warehouse distribution occupants and it is possible that hazardous materials could be used during the course of a future building user’s daily operations. State and federal Community-Right-to-Know laws allow the public access to information about the amounts and types of chemicals in use at local businesses. Laws also are in place that requires businesses to plan and prepare for possible chemical emergencies. Any business that occupies a building on the Project site and that handles hazardous materials (as defined in Section 25500 of California Health and Safety Code, Division 20, Chapter 6.95) will require a permit from the Moreno Valley County Fire Department Hazardous Materials Division in order to register the business as a hazardous materials handler. Such businesses also are required to comply with California’s Hazardous Materials Release Response Plans and Inventory Law, which requires immediate reporting to the County of Riverside Fire Department and the State Office of Emergency Services regarding any release or threatened release of a hazardous material, regardless of the amount handled by the business. In addition, any business handling at any one time, greater than 500 pounds of solid, 55 gallons of liquid, or 200 cubic feet of gaseous hazardous material, is required, under Assembly Bill 2185 (AB 2185), to file a Hazardous Materials Business Emergency Plan (HMBEP). A HMBEP is a written set of procedures and information created to help minimize the effects and extent of a release or threatened release of a hazardous material. The intent of the HMBEP is to satisfy federal and State Community Right-To-Know laws and to provide detailed information for use by emergency responders.</p>				

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>If businesses that use or store hazardous materials occupy the Project, the business owners and operators would be required to comply with all applicable federal, state, and local regulations to ensure proper use, storage, use, emission, and disposal of hazardous substances (as described above). With mandatory regulatory compliance, the Project is not expected to pose a significant hazard to the public or the environment through the routine transport, use, storage, emission, or disposal of hazardous materials, nor would the Project increase the potential for accident conditions which could result in the release of hazardous materials into the environment.</p> <p>With mandatory regulatory compliance, potential hazardous materials impacts associated with long-term operation of the Project are determined to be less than significant and mitigation is not required.</p>				
<p>b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Accidents involving hazardous materials that could pose a significant hazard to the public or the environment would be highly unlikely during the construction and long-term operation of the Project and are not reasonably foreseeable. As discussed above under Response IX(a), the transport, use, and handling of hazardous materials on the Project site during construction is a standard risk on all construction sites, and there would be no greater risk for upset and accidents than would occur on any other similar construction site. Upon buildout, the Project site would operate as a warehouse distribution center. Based on the operational characteristics of warehouse distribution centers, it is possible that hazardous materials could be used during the course of a future occupant's daily operations; however, as discussed above under Response IX(a), the Project Applicant would be required to comply with all applicable local, State, and federal regulations related to the transport, handling, and usage of hazardous material. Accordingly, impacts associated with the accidental release of hazardous materials would be less than significant during both construction and long-term operation of the Project and mitigation would not be required.</p>				
<p>c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: There are no schools located within 0.25-mile of the Project site (Google Earth Pro, 2020). Thus, the Project would not have a significant effect in emitting hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school. No impact would occur.</p>				
<p>d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Phase I ESA (<i>Technical Appendix G</i> to this IS/MND) prepared for the Project site included a search of regulatory databases, including the California EPA's Regulated Site Portal, the Santa Ana RWQCB's Geotracker database, and DTSC's EnviroStor database (EDR). The Project site is identified on the EDR database as situated within the former Department of Defense (DOD) boundary of March Air Force Base; however, the Project site is not mapped within a national priority list (NPL) or area of concern associated with the Base (Partner, 2019, p. 13). Accordingly, this listing is not expected to represent a significant environmental concern to the Project site and would not create a significant hazard to the public or the environment. The Project site is not included on any other list of hazardous materials sites compiled pursuant to Government Code Section 65962.5. Impacts would be less than significant.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project site is located approximately 1.1 miles southwest of the March Air Reserve Base/Inland Port Airport (MARB/IPA). Pursuant to the March Air Reserve Base Compatible Use Zone Study commissioned by the United States Air Force and as depicted on Figure 6-5, <i>Air Crash Hazards</i>, of the Moreno Valley General Plan, the Project site is not located within a zone subject to hazards related to air crashes (Moreno Valley, 2006a). According to the March Air Reserve Base/Inland Port Airport Land Use Compatibility Plan, the western portion of the Project site is located in Compatibility Zone E and the eastern portion of the Project site is located within Compatibility Zone D (RCALUC, 2014, Map MA-1). Properties located in Zone D and E are subject to safety risks associated with aircraft operations, but the potential hazards are sufficiently minimal that land use restrictions are generally unnecessary (RCALUC, 2014, Table MA-1). Thus, the light industrial land uses proposed by the Project are permitted in Zone D and E by the March Air Reserve Base/Inland Port Airport Land Use Compatibility Plan (ALUCP) and were determined by the ALUC to be consistent with the ALUCP during their January 14, 2021 public meeting. The industrial warehouse buildings proposed by the Project would be no greater than 50 feet tall and does not include an air travel component (e.g., runway, helipad); therefore, would not interfere with flight operations at the March Air Reserve Base. The Project would not result in safety hazards for people residing or working in the Project area. Impacts would be less than significant, and mitigation is not required.</p>				
<p>f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site does not contain any emergency facilities under existing conditions nor does it serve as an emergency evacuation route, so there is no potential for the Project to adversely affect an existing emergency response or evacuation plan. During construction and at Project buildout, the proposed Project would be required to maintain adequate emergency access for emergency vehicles as required by the City. As part of the City's discretionary review process, the City of Moreno Valley reviewed the Project to ensure that appropriate emergency ingress and egress would be available to-and-from the proposed warehouse buildings for public safety, and determined that the Project would not substantially impede emergency response times in the local area. Accordingly, implementation of the proposed Project would not impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan, and no impact would occur.</p>				
<p>g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: According to City of Moreno Valley General Plan FEIR Figure 5.5-2, <i>Floodplains and High Fire Hazard Areas</i>, the Project site is not located in an area of substantial or high fire risk (Moreno Valley, 2006b). Additionally, the California Department of Forestry and Fire Protection (CalFire) identifies the Project site location as within a Non-Very High Fire Hazard Severity Zone (CalFire, 2009). The Project site is located in an area that has been largely developed. No wildlands are located on or adjacent to the Project site and the Project site is largely disturbed or devoid of vegetation and surrounded on all sides by developed or maintained properties and a paved road. Thus, implementation of the proposed Project would not expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands. Impacts would be less than significant.</p>

X. HYDROLOGY AND WATER QUALITY – Would the project:

a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The Project would be required to comply with Section 402 of the Clean Water Act, which authorizes the National Pollution Discharge Elimination System (NPDES) permit program that covers point sources of pollution discharging to a water body. The NPDES program also requires operators of construction sites one-acre or larger to prepare a Storm Water Pollution Prevention Plan (SWPPP) and obtain authorization to discharge stormwater under an NPDES construction stormwater permit. The Project Applicant also would be required to comply with the California Porter-Cologne Water Quality Control Act (Section 13000 et seq., of the California Water Code), which requires that comprehensive water quality control plans be developed for all waters within the State of California. The Project site is located within the jurisdiction of the Santa Ana Regional Water Quality Control Board (RWQCB).

Construction-Related Impacts

Construction of the proposed Project would involve clearing, grading, paving, utility installation, building construction, and landscaping activities. Construction activities would result in the generation of potential water quality pollutants such as silt, debris, chemicals, paints, and solvents, and other chemicals with the potential to adversely affect water quality. As such, short-term water quality impacts have the potential to occur during construction of the Project in the absence of any protective or avoidance measures.

Pursuant to the requirements of the Santa Ana RWQCB and the City Moreno Valley (Municipal Code Chapter 8.10 et seq. and Section 8.21.170), the Project would be required to obtain coverage under the State's General Construction Storm Water Permit (NPDES Permit). The NPDES permit is required for all projects that include construction activities, such as clearing, soil stockpiling, grading, and/or excavation that disturb at least one (1) acre of total land area. In addition, the Project would be required to comply with the Santa Ana RWQCB's *Santa Ana River Basin Water Quality Control Program*. Compliance with the NPDES permit and the *Santa Ana River Basin Water Quality Control Program* involves the preparation and implementation of a SWPPP for construction-related activities, including grading. The SWPPP will specify the Best Management Practices (BMPs) that the Project would be required to implement during construction activities to ensure that all potential pollutants of concern are prevented, minimized, and/or otherwise appropriately treated prior to being discharged from the subject property. Examples of BMPs that may be utilized during construction include, but are not limited to, sandbag barriers, geotextiles, storm drain inlet protection, sediment traps, rip rap soil stabilizers, and hydro-seeding. Mandatory compliance with the SWPPP would ensure that the Project's construction does not violate any water quality standards or waste discharge requirements. Therefore, water quality impacts associated with construction activities would be less than significant and no mitigation measures would be required.

Post-Development Water Quality Impacts

Stormwater pollutants commonly associated with the land uses proposed by the Project include bacterial indicators, metals, nutrients, pesticides, toxic organic compounds, sediments, trash and debris, and oil and grease. Based on current receiving water impairments (pursuant to the Clean Water Act's (CWA)

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

Section 303(d) list), the Project’s pollutants of concern are bacterial indicators, nutrients, pesticides, and sediments (Thatcher, 2020, Table E.1).

Pursuant to the Moreno Valley Municipal Code (Chapter 8.10 *et seq.* and Section 8.21.170), the Project Applicant would be required to implement a Water Quality Management Plan (WQMP) to demonstrate compliance with the City’s NPDES municipal stormwater permit, and to minimize the release of potential waterborne pollutants, including pollutants of concern for downstream receiving waters. The WQMP is a site-specific post-construction water quality management program designed to address the pollutants of concern of a development project via BMPs, implementation of which ensures the on-going protection of the watershed basin. The Project’s Preliminary WQMP, prepared by Thatcher, is included as *Technical Appendix 11* appended to this IS/MND. As identified in the Project’s Preliminary WQMP, the proposed Project is designed to include structural source control BMPs (including bioretention swales, two underground detention systems and two modular wetlands units) as well as operational source controls (including but not limited to: drainage system maintenance, storm drain system stenciling and signage, and implementation of minimal pesticide use) to minimize, prevent, and/or otherwise appropriately treat stormwater runoff flows before they are discharged from the site. Compliance with the WQMP would be required as a condition of Project approval pursuant to Municipal Code Chapter 8.10 and Municipal Code Section 8.21.170, and long-term maintenance of on-site BMPs would be required to ensure their long-term effectiveness. Therefore, water quality impacts associated with long-term operational activities would be less than significant.

In addition to the WQMP, the NDPES program also requires certain land uses, including industrial land uses as proposed by the Project, to prepare a SWPPP for operational activities and to implement a long-term water quality sampling and monitoring program, unless an exemption has been granted. On April 1, 2014, the California State Water Resources Control Board adopted an updated new NPDES permit for stormwater discharge associated with industrial activities (referred to as the “Industrial General Permit”). The new Industrial General Permit, which is more stringent than the existing Industrial General Permit, became effective on July 1, 2015. Under the effective NPDES Industrial General Permit, the Project would be required to prepare a SWPPP for operational activities and implement a long-term water quality sampling and monitoring program or receive an exemption. Because the permit is dependent upon the operational activities of the buildings, and the Project’s future building occupants and their operations are not known at this time, details of the SWPPP (including BMPs) or potential exemption to the SWPPP operational activities requirement cannot be determined at this time. However, based on the requirements of the NPDES Industrial General Permit, it is anticipated that the Project’s mandatory compliance with all applicable regulations would further reduce potential water quality impacts during long-term operation.

Based on the foregoing analysis, the Project would not violate any water quality standards or waste discharge requirements during long-term operation. Impacts would be less than significant.

b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: No potable groundwater wells are proposed by the Project. The proposed Project would be served with potable water by the Eastern Municipal Water District (EMWD). The EMWD relies on local potable groundwater as a source of its water supply (in addition to imported water from the Metropolitan Water District of Southern California, desalted ground water, and recycled water). The EMWD has indicated it has sufficient available water resources, including groundwater resources, to adequately serve the Project in addition to past, present, and future commitments to supply water (EMWD, 2016a, pp. XIV-XVI). Therefore, the proposed Project would not substantially deplete groundwater supplies and the Project’s impact to groundwater supplies would be less than significant.

Development of the Project would increase impervious surface coverage on the property, which would reduce the amount of water percolating down into the underground aquifer that underlies the Project site and a majority of the City. However, and as noted in the City’s General Plan EIR, “the impact of an incremental reduction in groundwater would not be significant as domestic water supplies are not reliant

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>on groundwater as a primary source” (Moreno Valley, 2006b, p. 5.7-12). Additionally, water captured by the proposed Project’s underground detention systems and landscaped areas would have the opportunity to percolate into the ground. With buildout of the Project, the local groundwater levels would not be substantially adversely affected. Accordingly, buildout of the Project would not interfere substantially with groundwater recharge.</p> <p>For the reasons stated above, the Project would neither substantially deplete groundwater supplies nor interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level. Impacts would be less than significant.</p>				
<p>c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would:</p>				
<p>i) Result in substantial erosion or siltation on- or off-site?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Under existing conditions, the Project site primarily drains in southerly direction, ultimately discharging to two existing storm drains at the southwest and southeast corners of the Project site (Thatcher, 2021, p. 6).</p> <p>The Project would mass grade the entire property and construct two industrial warehouse buildings and associated improvements, which would change the site’s existing ground contours and alter the existing drainage patterns interior to the Project site. However, upon buildout of the Project, stormwater flow generated on the Project site would continue to be conveyed to the two existing storm drains adjacent south of the southern Project site boundary.</p> <p>Although the Project would alter the subject property’s internal drainage patterns, such changes would not result in substantial erosion or siltation on- or off-site. Under post-development conditions, a majority of the site would be covered with impervious surfaces and, therefore, the amount of exposed soils on the Project site would be minimal. Also, as discussed under Response X(a), the Project would construct an integrated storm drain system on-site with BMPs to minimize the amount of water-borne pollutants carried from the Project site. The BMPs proposed by the Project, including bioretention swales, two underground detention systems, and two modular wetlands units are highly effective at removing sediment from stormwater runoff flows. Therefore, stormwater runoff flows leaving the Project site would not carry substantial amounts of sediment. Once stormwater runoff leaves the Project site, it would be discharged into two existing storm drains located immediately southeast and southwest of the site. Because there are no exposed soils at the Project’s discharge points, there is no potential for the Project’s stormwater runoff to result in erosion as it leaves the Project site. Accordingly, the Project would not result in substantial erosion or siltation on- site or off-site, and a less-than-significant impact would occur.</p>				
<p>ii) Substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or offsite?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: As described above under Response X(c(i)), proposed grading and earthwork activities on the Project site would alter the site’s existing drainage patterns but would not substantially alter the drainage pattern of the local area. Under long-term development conditions, and with on-site detention, the peak storm water runoff flows discharged from the Project site would be equal to or less than under existing conditions (Thatcher, 2021, pp. 8-9). Accordingly, implementation of the Project would not substantially increase the rate or amount of surface water runoff discharged from the site in a manner that would result in flooding on- or off-site. Impacts would be less than significant.</p>				
<p>iii) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: As discussed above under Response X(c(ii)), the amount of runoff discharged to the two existing storm drains adjacent south of the southern Project site boundary would be either reduced or equal to existing conditions. Furthermore, the Project’s storm drain system would be sized and designed</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>in accordance with the area’s master drainage plan to ensure that off-site flows that are conveyed through the Project site and flows originating off-site are discharged from the site at a volume and rate that can be accommodated by existing and planned downstream storm drain facilities (Thatcher, 2021, pp. 2-3, 8-9). Accordingly, the Project would not create or contribute runoff which would exceed the capacity of any existing or planned storm water drainage system, and impacts would be less than significant.</p> <p>As discussed under Response X(a), the proposed Project would be required to comply with a future SWPPP and the Project’s WQMP (<i>Technical Appendix I1</i>), which identify required BMPs to be incorporated into the Project to ensure that near-term construction activities and long-term post-development activities of the proposed Project would not result in substantial amounts of polluted runoff. Therefore, with mandatory compliance with the Project’s SWPPP and WQMP, the proposed Project would not create or contribute substantial additional sources of polluted runoff, and impacts would be less than significant.</p>				
iv) Impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: According to FEMA Flood Insurance Rate Map (FIRM) No. 06065C0745G, the Project site is located within “Zone X (unshaded)”, which are areas determined to be an area with a 0.2% chance of annual flood (FEMA, 2008). The Zone X (unshaded) designation is considered to be an area of minimal flood hazard and is not considered a special flood hazard area. Accordingly, the Project site is not expected to be inundated by flood flows during the lifetime of the Project and the Project would not impede flood flows. No impact would occur.</p>				
d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Pacific Ocean is located over 40 miles southwest of the Project site (Google Earth Pro, 2020); consequently, there is no potential for the Project site to be impacted by a tsunami as tsunamis typically only reach up to a few miles inland. The nearest large body of water to the Project site is Lake Perris, with the dam located approximately 5.3 miles southeast of the Project site. According to City of Moreno Valley General Plan FEIR Figure 5.5-2, <i>Floodplains, and High Fire Hazard Areas</i>, the Project site is not located in an identified inundation area (Moreno Valley, 2006b); therefore, risk of inundation by dam failure or seiche is low. Additionally, there are no levees in the vicinity of the Project site. Impacts would be less than significant.</p>				
e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: As discussed under Response X(a) above, the Project site is located within the Santa Ana River Basin and Project-related construction and operational activities would be required to comply with the Santa Ana RWQCB’s <i>Santa Ana River Basin Water Quality Control Plan</i> by preparing and adhering to a SWPPP and WQMP. Implementation of the Project would not conflict with or obstruct the <i>Santa Ana River Basin Water Quality Control Plan</i> and impacts would be less than significant.</p> <p>Additionally, as discussed under Response X(a) above, the Project would not substantially decrease groundwater supplies nor interfere substantially with groundwater recharge and, therefore, is not expected to conflict with or obstruct a sustainable groundwater management plan. Further, EMWD produces potable groundwater from the San Jacinto Groundwater Basin, which is an adjudicated basin (DWR, n.d.). Adjudicated basins are exempt from the 2014 Sustainable Groundwater Management Act (SGMA) requirement to develop Groundwater Sustainability Plan because such basins already operate under a court-ordered water management plan to ensure their long-term sustainability. No component of the Project would obstruct with or prevent implementation of the management plan for the San Jacinto Groundwater Basin. As such, the Project’s construction and operation would not conflict with any sustainable groundwater management plan. Impacts would be less than significant.</p>				
<p>Sources:</p> <ol style="list-style-type: none"> 1. Thatcher, 2020, Project Specific Water Quality Management Plan, <i>Technical Appendix I1</i> 2. Thatcher, 2021, Preliminary Drainage Study, <i>Technical Appendix I2</i>.

Department of Water Resources, Adjudicated Basins Annual Reporting, https://sgma.water.ca.gov/webgis/index.jsp?appid=adjbasin				
XI. LAND USE AND PLANNING – Would the project:				
a) Physically divide an established community?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Response: Development of the Project would not physically disrupt or divide the arrangement of an established community. Under existing conditions, the Project site is bordered by Alessandro Boulevard to the north and bordered by vacant, undeveloped land to the east and west. The properties to the immediate south and southwest of the Project site are developed with warehouses; therefore, the Project would serve as an extension of the existing development patterns in the area. No impact would occur.				
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Response: The Project includes an amendment to the City of Moreno Valley General Plan Land Use Map that would change the Project site’s land use designation from “Commercial” to “Business Park/Light Industrial.” Approval of the requested General Plan Amendment would eliminate any potential inconsistency between proposed land use and the site’s existing land use designation. Impacts to the environment associated with the Project’s proposed General Plan Amendment are evaluated throughout this IS/MND, and where significant impacts are identified, mitigation measures are imposed to reduce impacts to less than significant levels. There are no environmental impacts that would result as a specific consequence of the proposed changes to the site’s General Plan land use designation, beyond what is already evaluated and disclosed by this IS/MND. The Project would not conflict with any applicable goals, objectives, and policies of the SCAQMD’s AQMP, SCAG’s Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) (including the tentatively approved <i>Connect SoCal 2020-2045 RTP/SCS</i>), and SCAG’s <i>Regional Comprehensive Plan</i> . Impacts would be less than significant.

XII. MINERAL RESOURCES – Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Response: The Project site is not located within an area known to be underlain by regionally- or locally-important mineral resources (Moreno Valley, 2006b, p. 5.14-2). Implementation of the proposed Project would not result in the loss of availability of a known mineral resource that would be of value to the region or the residents of the State of California. In addition, the City’s General Plan EIR does not identify any locally-important mineral resource recovery sites on-site or within proximity to the Project site (Moreno Valley, 2006b, p. 5.14-2). Accordingly, no impact would occur.				

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Response: Refer to Response XII(a), above. Implementation of the proposed Project would not result in the loss of a locally-important mineral resource recovery site. No impact would occur.				
Sources: 1. Final Environmental Impact Report City of Moreno Valley General Plan, certified July 11, 2006 • Section 5.14 – Mineral Resources				

XIII. NOISE – Would the project result in:				
a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: A <i>Noise Impact Analysis</i> (Urban Crossroads, 2020e) was prepared for the Project by Urban Crossroads to evaluate Project-related long-term operational and short-term construction noise impacts. This report is included as <i>Technical Appendix J</i> to this IS/MND and its findings are incorporated into the analysis presented herein.</p> <p>The analysis presented below summarizes the Project’s potential construction noise levels and operational noise levels. The detailed noise calculations for the analysis presented here are provided in Appendices 7.1, 9.1, and 10.1 of <i>Technical Appendix J</i>.</p> <p><u>Construction Noise Impact Analysis</u> Construction activities on the Project site would create temporary periods of noise when heavy construction equipment is in operation and would cause a short-term increase in ambient noise levels. Maximum daytime construction noise levels at representative sensitive receptor locations near the Project site are summarized in Table 8, <i>Daytime Construction Equipment Noise Level Summary</i>.</p>				

Table 8: Daytime Construction Equipment Noise Level Summary

Receiver Location ¹	Construction Noise Levels (dBA L _{eq})					
	Site Preparation	Grading	Building Construction	Paving	Architectural Coating	Highest Levels ²
R1	61.0	61.9	60.0	56.5	53.6	61.9
R2	55.4	56.3	54.4	50.9	48.0	56.3
R3	57.0	57.9	56.0	52.5	49.6	57.9
R4	56.4	57.3	55.4	52.3	49.0	57.3
R5	59.0	59.9	58.0	54.7	51.6	59.9
at 200'	62.8	63.7	61.8	57.6	55.4	63.7

¹Noise receiver locations are shown on Exhibit 10-A of *Technical Appendix J*.
²Construction noise level calculations based on distance from the project site boundaries (construction activity area) to the nearest receiver locations. CadnaA construction noise model inputs are included in Appendix 10.1 of *Technical Appendix J*.
 Source: (Urban Crossroads, 2020e, Table 10-2)

As shown on Table 8, the Project’s daytime construction noise levels are expected to range from 48.0 to 61.9 A-weighted decibels (dBA) equivalent sound level (L_{eq}) at the nearby receiver locations and range from 55.4 to 63.7 dBA L_{eq} at 200 feet from the Project site. Project construction noise levels are considered exempt from the noise limits specified in the City of Moreno Valley’s Municipal Code if

ISSUES & SUPPORTING INFORMATION SOURCES:

Potentially Significant Impact

Less Than Significant with Mitigation Incorporated

Less Than Significant Impact

No Impact

activities occur within the hours of 7:00 a.m. to 8:00 p.m. (Municipal Code Section 11.80.030(D)(7)). Because Project-related construction activities are expected to occur during daylight hours, Project construction would not exceed the standards established by the City of Moreno Valley Municipal Code and impacts would be less than significant.

Notwithstanding, there is the potential that specific Project construction activities could occur outside of the construction hours permitted by right in the Municipal Code. Pursuant to Municipal Code Section 11.80.030(D)(7), the City of Moreno Valley would be required to approve any nighttime construction activities. If nighttime construction activities were to occur, noise levels above 60 dBA L_{eq} during the nighttime hours would exceed the standards established in the City’s Municipal Code Section 11.80.030(C). The only Project construction activities that have a reasonable potential to occur during nighttime hours are concrete pouring. As shown in Table 9, nighttime concrete pouring activities would not exceed 56.5 dBA L_{eq} at the nearby sensitive receiver locations or 57.6 dBA L_{eq} at a distance of 200 feet from the Project site; neither noise level would exceed the standard established by the City of Moreno Valley Municipal Code. Impacts during potential nighttime concrete pouring activities would be less than significant.

Table 9: Nighttime Construction Equipment Noise Level Summary

Receiver Location ¹	Construction Noise Levels (dBA L_{eq})		
	Paving Construction ²	Nighttime Construction Standard ³	Threshold Exceeded? ⁴
R1	56.5	60	No

⁴Is the applicable standard exceeded?

Source: (Urban Crossroads, 2020e, Table 10-4)

Operational Noise Impact Analysis

Stationary (on-site) noise sources associated with long-term Project operation are expected to include idling trucks, delivery truck and automobile parking, delivery truck backup alarms, roof-mounted equipment (e.g., heating/ventilation equipment), as well as noise associated with the loading and unloading of dry goods. The daytime and nighttime stationary maximum noise levels associated with Project operation at nearby sensitive receptor locations (the same receptor locations used for the construction analysis, above) and at a distance of 200 feet from the Project site are summarized in Table 10, *Operational Noise Level Compliance*.

As shown in Table 10, Project operations would not expose any nearby receptor to noise levels during daytime or nighttime hours in excess of City standards. The Project’s operational noise would contribute a maximum of 0.6 dBA L_{eq} and 0.8 dBA L_{eq} to the existing daytime and nighttime ambient noise environment, respectively in the Project area (Urban Crossroads, 2020e, pp. 48-49). Accordingly, implementation of the Project would not result in the exposure of receivers near the Project site to stationary noise levels that exceed the standards established in the City of Moreno Valley Municipal Code. Impacts would be less than significant.

Operational Noise Impact Analysis – Traffic Noise

To evaluate permanent, off-site noise increases that could result from Project-related traffic, noise levels were modeled for the following traffic scenarios:

- Existing: This scenario refers to the existing traffic noise conditions without and with the proposed Project.
- Existing plus Ambient Growth plus Project (EAP): This scenario refers to the existing traffic noise conditions plus ambient growth without and with the proposed Project.

Traffic noise contours and noise levels were established based on existing and projected future traffic conditions on off-site roadway segments within the Project's study area, and do not take into account the effect of any existing noise barriers or topography that may affect ambient noise levels. Refer to *Technical Appendix J* for a detailed description of the methodology used to evaluate the Project's traffic-related noise effects.

Table 11, *Existing plus Project Traffic Noise Impacts*, presents a comparison of the existing noise conditions along Project study area roadway segments and the noise levels that would result with addition of Project-related traffic. Under Existing plus Project conditions, noise levels along roadway segments within the Project study area would increase between 0.0 and 2.0 dBA CNEL, which would not exceed the applicable significance thresholds. Therefore, the Project's contribution to off-site traffic noise would not result in a substantial permanent increase in ambient noise levels and Project-related impacts would be less than significant.

Table 12, *Existing plus Ambient Growth plus Project Traffic Noise Impacts*, presents a comparison of the existing noise conditions along Project study area roadway segments and the noise levels that would result with addition of ambient growth and Project-related traffic. Under Existing plus Ambient Growth plus Project, noise levels along roadway segments within the Project study area would increase between 0.0 and 1.9 dBA CNEL, which would not exceed the applicable significance thresholds. Therefore, the Project's contribution to off-site traffic noise would not result in a substantial permanent increase in ambient noise levels and Project-related impacts would be less than significant.

b) Generation of excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The analysis presented below demonstrates that implementation of the Project would not generate excessive groundborne vibration or groundborne noise levels.

Construction Analysis

Construction activities on the Project site would utilize construction equipment that has the potential to generate vibration. Table 13, *Construction Equipment Vibration Levels*, below, summarizes Project construction vibration levels at receiver locations near the Project site. As shown in Table 12, all receiver locations in the vicinity of the Project site would be exposed to vibration levels that fall below the City of Moreno Valley's significance threshold (i.e., 78 vibration decibels (VdB) for daytime residential uses, 84 VdB for daytime office use at all receiver locations and at 200 feet from the property line of the source). Accordingly, Project construction would not generate temporary, excessive groundborne vibration or noise levels and a less than significant impact would occur.

Operational Analysis

Under long-term conditions, the proposed Project would not include nor require equipment, facilities, or activities that would result in substantial or perceptible groundborne vibration. Trucks would travel to-and-from the Project site during long-term operation; however, vibration levels for heavy trucks operating

Source: (Urban Crossroads, 2020e, Table 10-6)

at low-to-normal speeds on smooth, paved surfaces – as is expected on the Project site and along surrounding roadways – typically do not exceed 65 VdB. Truck deliveries transiting on-site would travel at very low speeds, so it is expected long-term operations at the Project site would not exceed the City’s allowable levels. Accordingly, long-term operation of the Project would not expose persons to or generate excessive groundborne vibration or groundborne noise levels, and a less-than-significant impact would occur.

c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The Project site is located approximately 1.0-mile northeast of the March Air Reserve Base/Inland Port Airport (MARB/IPA). Based on the Airport Land Use Compatibility Plan (ALUCP) for the MARB/IPA, the Project is located outside of the Airport’s 60 dBA CNEL noise level contours (RCALUC, 2014, Map MA-4), and therefore, represents a moderate to low risk with regard to airport noise. Additionally, the proposed use for the site would not conflict with the allowable uses described in the ALUCP (RCALUC, 2014, Table MA-2). Accordingly, the proposed Project would not expose people residing or working the Project area to excessive noise levels from a public airport; therefore, impacts would be less than significant.

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XIV. POPULATION AND HOUSING – Would the project:				
a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of road or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The proposed Project would result in development of the subject property with industrial land uses that would add employment opportunities to the area. It is anticipated that the employment base for both the construction and operational phases of the Project would come from the existing population in the Inland Empire, which comprises western Riverside County and southwestern San Bernardino County. According to the Bureau of Labor Statistics, the Riverside-San Bernardino-Ontario region's civilian labor force contains approximately 2,032,794 persons with approximately 1,809,690 people employed and an unemployment rate of approximately 11.0% (approximately 223,607 persons) (USBLS, 2020). Accordingly, the Project region already contains an ample supply of potential employees under existing conditions and the Project's labor demand is not expected to draw substantial numbers of new residents to the area. Furthermore, approximately 86% of City of Moreno Valley residents commute outside of the City for work (SCAG, 2019, p. 21); therefore, the Project would provide job opportunities closer to home for existing and future Moreno Valley residents.</p> <p>There are no components of the Project that would reasonably result in indirect or unplanned population growth because the surrounding area is mostly developed under existing conditions or approved for development. The Project would install new/expanded infrastructure; however, this infrastructure would either be master-planned facilities (meaning the facilities would be installed with or without the Project) or would be private facilities for the sole use of the Project (meaning they would not be available for general public use). Accordingly, no significant indirect impacts associated with population growth would result from any Project-related improvements because the Project and its required improvements would not induce substantial growth on surrounding properties.</p> <p>Based on the foregoing analysis, neither the Project nor any Project-related component would result in substantial, direct, or indirect population growth that would cause a significant direct or indirect impact to the environment. This impact is less than significant.</p>				
b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project site does not contain any residential structures and no people live on the site under existing conditions. Accordingly, implementation of the Project would not displace substantial numbers of existing housing or people and would not necessitate the construction of replacement housing elsewhere. No impact would occur.</p>				
<p>Sources:</p> <ol style="list-style-type: none"> 1. Google Earth Pro 2. Southern California Association of Governments (SCAG) – Profile of the City of Moreno Valley, https://www.scag.ca.gov/Documents/MorenoValley.pdf 3. United States Bureau of Labor Statistics – Riverside-San Bernardino-Ontario, CA Economy at a Glance on August 2020, https://data.bls.gov/timeseries/LAUMT064014000000006?amp%253bdata_tool=XGtable&output_view=data&include_graphs=true 				
XV. PUBLIC SERVICES – Would the project:				
a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
i) Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Fire protection services to the Project site are provided by the Moreno Valley Fire Department (MVFD). The Project site is served by the Kennedy Park Fire Station (Station No. 65) located</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>at 15111 Indian Avenue, approximately 2.0 roadway miles to the southeast of the Project site, and the Towngate Fire Station (Station No. 6) located at 22250 Eucalyptus Avenue, approximately 2.5 roadway miles to the northwest of the Project site. Based on the Project site's proximity to the two existing fire stations, the Project would be adequately served by fire protection services, and no new or expanded unplanned facilities would be required. The Project Applicant is required to comply with the provisions of the City of Moreno Valley's Development Impact Fee (DIF) Ordinance (Ordinance No. 695), which requires a fee payment that the City applies to the funding of public facilities, including fire protection facilities. Mandatory compliance with the DIF Ordinance would be required prior to the issuance of a building permit.</p> <p>The Project would feature a minimum of fire safety and fire suppression activities, including type of building construction, fire sprinklers, a fire hydrant system, and paved access. The proposed buildings would be of concrete tilt-up construction that contain a low fire hazard risk rating. In addition, a fire alarm system is proposed to be installed, as well as ceiling-mounted sprinklers that are designed to suppress a fire. To suppress a fire does not necessarily mean it will extinguish the fire but rather it is meant to "knock" the fire back down to its source, making it more manageable for the MVFD to extinguish.</p> <p>Based on the foregoing, the proposed Project would receive adequate fire protection service and would not result in the need for new or physically altered fire protection facilities. Impacts to fire protection facilities would be less than significant.</p>				
ii) Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project would introduce two new building structures and employees to the Project site, which would result in an incremental increase in demand for police protection services, but is not anticipated to require or result in the construction of new or physically altered police facilities. Furthermore, the Project Applicant would be required to comply with the provisions of Moreno Valley's Development Impact Fee (DIF) Ordinance (Ordinance No. 695), which requires a fee payment that the City applies to the funding of public facilities, including police protection facilities. Mandatory compliance with the DIF Ordinance would be required prior to the issuance of a building permit. Based on the foregoing, the proposed Project would receive adequate police protection service, and would not result in the need for new or physically altered fire protection facilities. Impacts to police protection facilities would therefore be less than significant.</p>				
iii) Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Implementation of the Project would not create a direct demand for public school services, as the subject property would contain non-residential uses and would not generate any school-aged children requiring public education. The addition of employment-generating uses on the Project site would assist the City in achieving its goal to provide a better jobs/housing balance within the City and the larger western Riverside County region (Moreno Valley, 2006b, pp. 5.12-1). The proposed Project is not expected to draw a substantial number of new residents to the region and would therefore not indirectly generate school-aged students requiring public education. Because the proposed Project would not directly generate students and is not expected to indirectly draw students to the area, the proposed Project would not cause or contribute to a need to construct new or physically altered public school facilities. Although the Project would not create a demand for additional public school services, the Project Applicant would be required to contribute development impact fees to the Moreno Valley Unified School District in compliance with California Senate Bill 50 (Greene), which allows school districts to collect fees from new developments to offset the costs associated with increasing school capacity needs. Mandatory payment of school fees would be required prior to the issuance of building permits. Impacts to public schools would be less than significant.</p>				
iv) Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: As discussed under Responses XVI(a) and XV(b) below, the Project would not create a demand for public park facilities and would not result in the need to modify existing or construct new park facilities. Accordingly, implementation of the Project would not adversely affect any park facility. Thus, no impact would occur.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
v) Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project is not expected to result in a demand for other public facilities/services, including libraries, community recreation centers, post offices, and/or animal shelters. As such, implementation of the Project would not adversely affect other public facilities or require the construction of new or modified public facilities and no impact would occur.</p>

<p>XVI. RECREATION – Would the project:</p>				
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project would develop the subject property with industrial land uses. The Project does not propose any type of residential use or other land use that may generate a population that would increase the use of existing neighborhood and regional parks or other recreational facilities. Accordingly, implementation of the proposed Project would not result in the increased use or substantial physical deterioration of an existing neighborhood or regional park, thus, no impact would occur.</p>				
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Response: The Project does not propose to construct any new on- or off-site recreation facilities. Additionally, the Project would not expand any existing off-site recreational facilities. Therefore, environmental effects related to the construction or expansion of recreational facilities would not occur.</p>				
<p>Sources:</p> <ol style="list-style-type: none"> 1. Project Application Materials – Site Plan 				
<p>XVII. TRANSPORTATION – Would the project:</p>				
a) Conflict with program plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project would not conflict with applicable objectives from the Moreno Valley General Plan Circulation Element, including Objective 5.1, 5.2, 5.3 (discussed in more detail below), 5.4, 5.5, 5.8, 5.9, 5.10, and 5.11. In addition, Project would not conflict with the City’s Bicycle Master Plan nor with the vehicular and non-vehicular goals from SCAG’s 2016-2040 RTP/SCS, including goals to: 1) maximize mobility and accessibility for all people and goods in the region; 2) ensure travel safety and reliability for all people and goods in the region; 3) preserve and ensure a sustainable regional transportation system; 4) protect the environment and health of residents by improving air quality and encouraging active transportation; and 5) encouraging land use and growth patterns that facilitate transit and active transportation.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:

Potentially Significant Impact

Less Than Significant with Mitigation Incorporated

Less Than Significant Impact

No Impact

In accordance with Senate Bill (SB) 743, the California Natural Resources Agency (CNRA) adopted changes to the CEQA Guidelines in December 2018, which identify that starting on July 1, 2020, vehicle miles traveled (VMT) is the appropriate metric to evaluate a project’s transportation impacts. As of December 2018, when the revised CEQA Guidelines were adopted, automobile delay, as measured by “level of service” (LOS) and other similar metrics, no longer constitutes a significant environmental effect under CEQA. Lead agencies in California are required to use VMT to evaluate project-related transportation impacts. The VMT analysis for the Project is provided in Response XVII(b) below.

Notwithstanding, the City of Moreno Valley traffic study guidelines requires a traffic analysis based on LOS, which the City uses in part to demonstrate compliance with General Plan Circulation Element Objective 5.3, which states that the City shall maintain LOS C on roadway links wherever possible and LOS D in the vicinity of SR-60 and employment centers, and to determine transportation improvement obligations of development projects. For this reason, although LOS cannot be used to make a conclusion of a significant environmental effect, the Project’s impact to transportation facilities based on LOS is provided herein for informational purposes. The LOS analysis provided on the following pages is based on a traffic impact analysis report prepared by the consulting firm Urban Crossroads and included as *Technical Appendix K1* to this IS/MND (Urban Crossroads, 2021a). The traffic impact analysis was prepared in conformance with the City of Moreno Valley’s *Transportation Impact Analysis Preparation Guide for Vehicle Miles Traveled and Level of Service Assessment* (June 2020).

Project Study Area

The Project’s traffic study area (hereafter “Project study area” or “study area”) was devised based on the City of Moreno Valley traffic impact analysis guidelines and consultation with City of Moreno Valley staff via the City’s standard scoping process. The study area includes the intersections listed in Table 14, *Intersection Analysis Locations*.

Table 14: Intersection Analysis Locations

ID	Intersection Location	Jurisdiction	CMP?
1	Frederick St. & Alessandro Bl.	City of Moreno Valley	No
2	Driveway 1 & Alessandro Bl. – Future Intersection	City of Moreno Valley	No
3	Driveway 2 & Alessandro Bl. – Future Intersection	City of Moreno Valley	No
4	Driveway 3 & Alessandro Bl. – Future Intersection	City of Moreno Valley	No
5	Graham St. & Alessandro Bl.	City of Moreno Valley	No

Source: (Urban Crossroads, 2021a, Table 1-1)

Due to the ongoing COVID-19 pandemic, historic traffic counts from 2018 were used in conjunction with a 4.04 percent growth factor to reflect expected “normal” 2020 traffic conditions (Urban Crossroads, 2021a, p. 22). Based on the collected data, all existing intersections in the Project study area operate at a level of service (LOS) of “C” or better during the AM and PM peak hours (7:00-9:00am and 4:00-6:00pm, respectively) (Urban Crossroads, 2021a, p. 22). Refer to *Technical Appendix K1* for more information about existing traffic conditions in the Project study area.

Thresholds of Significance

The Project would result in a conflict with General Plan Circulation Element Objective 5.3 if, under Opening Year traffic conditions, Project traffic would:

- Cause a signalized intersection to degrade from either LOS C or better or LOS D or better to LOS D/E/F or LOS E/F, respectively; or increase the delay by 5.0 or more seconds at a signalized intersection that operates at an unacceptable level of service (i.e., LOS D or LOS E/F) without the Project (Urban Crossroads, 2021a, p. 14).
- Cause an unsignalized intersection to degrade from either LOS C or better or LOS D or better to LOS D/E/F or LOS E/F, respectively; or increase the delay by 5.0 or more seconds at an unsignalized intersection that operates at an unacceptable level of service (i.e., LOS D or LOS E/F) without the Project and the intersection meets the peak hour traffic signal warrant after the addition of Project traffic (Urban Crossroads, 2021a, p. 14).

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
---	--------------------------------	--	------------------------------	-----------

Project Trip Generation and Distribution

Trip generation represents the amount of traffic that is attracted to and produced by a development project. Buildings 1 and 2 are evaluated as 70 percent warehouse use and 30 percent high-cube cold storage warehouse use each. The Institute of Transportation Engineers (ITE) Trip Generation Manual (2017) includes a trip generation rate for warehouse uses (ITE land use code 150) and high-cube cold storage warehouse uses (ITE land use code 157). The assumptions for the mix of trucks, by axle type, relies on recommendations from the SCAQMD Warehouse Truck Trip Study Data Results and Usage (2014). Based on the guidance from the SCAQMD, the following truck fleet mix under ITE land use code 150 was utilized for the purposes of estimating the truck trip generation for Buildings 1 and 2: 16.7% of the total trucks as 2-axle trucks, 20.7% of the total trucks as 3-axle trucks, and 62.6% of the total trucks as 4+-axle trucks (Urban Crossroads, 2021a, p. 29). The following truck fleet mix under ITE land use code 157 was utilized for the purposes of estimating the truck trip generation for Buildings 1 and 2: 34.7% of the total trucks as 2-axle trucks, 11.0% of the total trucks as 3-axle trucks, and 54.3% of the total trucks as 4+-axle trucks (Urban Crossroads, 2021a, p. 29).

Based on the assumptions described above, the Project is calculated to generate approximately 742 total vehicle trips per day, including 59 vehicle trips during the AM peak hour (7:00-9:00am) and 64 vehicle trips during the PM peak hour (4:00-6:00pm) (Urban Crossroads, 2021a, p. 31). Of the Project's 742 daily vehicle trips, 224 would be from trucks with two or more axles (ibid.). In conformance with standard traffic engineering practices in Southern California, the Project's daily vehicle trips were converted to a passenger car equivalent (PCE). PCE factors allow the typical "real-world" mix of vehicle types to be represented as a single, standardized unit (i.e., the passenger car). A PCE factor of 1.5 was applied to two-axle truck trips, a factor of 2.0 was applied to three-axle truck trips, and a factor of 3.0 was applied to four plus-axle truck trips (Urban Crossroads, 2021a, pp. 31, 33). The Project is anticipated to generate approximately 1,062 daily PCE trips, including 21 PCE trips during the AM peak hour and 81 PCE trips during the PM peak hour (ibid.). The Project's PCE vehicle trips were used for purposes of the LOS analysis. For more information about the Project's trip generation, refer to *Technical Appendix K1*.

Trip distribution is the process of identifying the probable destinations, directions, or traffic routes that would be utilized by Project traffic. The potential interaction between the planned land uses and surrounding regional access routes are considered to identify the routes where Project traffic would distribute. The trip distribution for the Project was developed based on anticipated passenger car and truck travel patterns to-and-from the Project site. The total volume on each roadway was divided by the Project's total traffic generation to indicate the percentage of Project traffic that would use each component of the roadway system in each relevant direction.

The assignment of traffic from the Project area to the adjoining roadway system is based on the Project trip generation, trip distribution, and the arterial highway and local street system improvements that would be in place by the time of initial occupancy of the Project. Based on the identified Project traffic generation and trip distribution patterns, PCE factored Project average daily traffic (ADT) volumes for the weekday are shown on Exhibit 4-3 in *Technical Appendix K1*.

Analysis Scenarios

The Project contribution of traffic to the local circulation network were assessed for each of the following conditions:

- Near-term Construction; and
- Opening Year (2022)

The Near-Term Construction conditions analysis determines the potential for the Project's construction-related traffic to result in an adverse effect to the local roadway system. Types of traffic anticipated during construction include construction workers traveling to/from the Project site as well as deliveries of construction materials to the Project site.

The Opening Year (2022) analysis includes an evaluation of traffic conditions at the Project's "opening year." The Opening Year (2022) analysis considers existing traffic + ambient growth + Project traffic.

ISSUES & SUPPORTING INFORMATION SOURCES:

Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Near-term Construction Traffic Conditions

During the Project’s construction phase, traffic to-and-from the subject property would be generated by construction employee trips, delivery of construction materials, and delivery/use of heavy equipment.

Vehicular traffic from construction employees would be substantially less than daily and peak hour traffic volumes generated during Project operational activities because construction activities typically begin/end outside of the peak hour; therefore, a most – if not all – construction employees would not be driving to/from the Project site during hours of peak congestion. Because Project operations would not conflict with the LOS standards from Circulation Element Objective 5.3 under Opening Year (2022) traffic conditions (see “Opening Year (2022) Traffic Conditions,” below) and because construction worker peak hour trips would be substantially less than the peak hour trips generated by Project operations, traffic from construction workers is not expected to conflict with the LOS performance standards of Circulation Element Objective 5.3.

Deliveries of construction materials to the Project site also would make nominal traffic contributions to the local roadway network because most trips would occur during non-peak hours and the total volume of trips would be less than the Project’s operational trips, which are shown below to not conflict with Circulation Element Objective 5.3. Furthermore, construction materials would be delivered to the site throughout the construction phase based on need and would not occur on an everyday basis. Heavy equipment would be utilized on the Project site during the construction phase. As most heavy equipment is not authorized to be driven on public roadways, most equipment would be delivered and removed from the site via flatbed trucks. As with the delivery of construction materials, the delivery of heavy equipment to the Project site would not occur on a daily basis, but would occur periodically throughout the construction phase based on need.

Based on the foregoing analysis, traffic generated by the Project’s construction phase would not result in a conflict with the LOS performance standards contained in Circulation Element Objective 5.3.

Opening Year (2022) Traffic Conditions

As shown in Table 15, all Project study area intersections would operate at acceptable LOS under Opening Year (2022) traffic conditions. Therefore, the Project would not cause or contribute to an exceedance of the LOS performance standards contained in Circulation Element Objective 5.3.

Table 15: Intersection Analysis for Opening Year (2022) Traffic Conditions

#	Intersection	Traffic Control ²	Existing (2020)				EAP (2022)			
			Delay ¹ (secs.)		Level of Service		Delay ¹ (secs.)		Level of Service	
			AM	PM	AM	PM	AM	PM	AM	PM
1	Frederick St. & Alessandro Bl.	TS	22.4	30.7	C	C	23.4	33.8	C	C
2	Driveway 1 & Alessandro Bl.	CSS	Future Intersection				11.8	21.0	B	C
3	Driveway 2 & Alessandro Bl.	CSS	Future Intersection				11.8	22.3	B	C
4	Driveway 3 & Alessandro Bl.	CSS	Future Intersection				11.7	21.8	B	C
5	Graham St. & Alessandro Bl.	TS	20.4	32.6	C	C	22.0	34.0	C	C

¹Per the Highway Capacity Manual (6th Edition), overall average intersection delay and level of service are shown for intersections with a traffic signal or all way stop control. For intersections with cross street stop control, the delay and level of service for the worst individual movement (or movements sharing a single lane) are shown.

²CSS = Cross-street Stop; TS = Traffic Signal; **CSS** = Improvement

b) Conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: As previously discussed, SB 743, which approved in 2013, was intended to change the way transportation impacts are determined according to CEQA. Updates to the CEQA Guidelines that were adopted in December 2018 included the addition of CEQA Guidelines Section 15064.3, of which

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>Subdivision “b” establishes criteria for evaluating a project’s transportation impacts based on project type and using automobile VMT as the metric. As a component of OPR’s revisions to the CEQA Guidelines, lead agencies were required to adopt VMT thresholds of significance by July 1, 2020. The City of Moreno Valley adopted its <i>Transportation Impact Analysis Preparation Guide for Vehicle Miles Traveled and Level of Service Assessment</i> in June 2020, which is used in this analysis to determine the significance of Project-related VMT.</p>				
<p>According to the VMT analysis prepared by Urban Crossroads (<i>Technical Appendix K2</i>), the Project’s VMT per employee would exceed the City’s VMT per employee threshold by approximately 11.7% under baseline (Year 2020) traffic conditions when the Project’s location and Project design features are not considered (Urban Crossroads, 2021b, p. 5). With consideration of the Project’s location and Project design features, including: 1) the Project’s geographic location as an employment use in proximity to existing residential and commercial service land uses – which would reduce Project-related employee VMT from employee commutes, errands during break periods, etc.; and 2) sidewalks along the Project site frontage with Alessandro Boulevard which would facilitate pedestrian and bicycle travel to the site, the Project-related VMT would be reduced by approximately 15% and would fall below the City’s significance threshold (Urban Crossroads, 2021b, p. 8). Therefore, based on the City’s VMT significance guidelines, the Project would have a less-than-significant direct VMT impact and, therefore, would not conflict with or be inconsistent with CEQA Guidelines section 15064.3(b).</p>				
<p>c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The types of traffic generated during operation of the Project (i.e., passenger cars and trucks) would be compatible with the type of traffic observed along Project study area roadways under existing conditions. In addition, all proposed improvements within the public right-of-way would be installed in conformance with City of Moreno Valley design standards. The City reviewed the Project’s application materials and determined that no hazardous transportation design features would be introduced through implementation of the Project. Accordingly, the Project’s construction and operation would not create or substantially increase safety hazards due to a design feature or incompatible use. Implementation of the Project would result in a less-than-significant impact.</p>				
<p>d) Result in inadequate emergency access?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project would result in the construction of two warehouse buildings on the Project site, which would require the need for emergency access to-and-from the site. During the course of the City of Moreno Valley’s review of the proposed Project, the Project’s design was reviewed to ensure that adequate access to-and-from the site is provided for emergency vehicles. The City of Moreno Valley also will require the Project to provide adequate paved access to-and-from the site as a condition of Project approval. The Project’s proposed driveways would connect directly to Alessandro Boulevard, and the Project does not propose any changes to public roads other than frontage improvements along Alessandro Boulevard that would improve local circulation/access. Furthermore, the City of Moreno Valley will review all future Project construction drawings to ensure that adequate emergency access is maintained along abutting public streets during temporary construction activities. With required adherence to City requirements for emergency vehicle access, impacts would be less than significant.</p>				
<p>Sources:</p> <ol style="list-style-type: none"> 1. Urban Crossroads, 2021a, Traffic Analysis, <i>Technical Appendix K1</i> 2. Urban Crossroads, 2021b, Vehicle Miles Travelled Analysis, <i>Technical Appendix K2</i> 3. Final Environmental Impact Report City of Moreno Valley General Plan, certified July 11, 2006 				
<p>XVIII. TRIBAL CULTURAL RESOURCES – Would the project:</p>				
<p>a) Cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code Section 5020.1(k), or ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resources Code section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Response: A Phase I Cultural Resources Study (*Technical Appendix C*) was prepared for the Project site by BFSa. The Phase I Cultural Resources Study included a records search with the Eastern Information Center (EIC) at University of California Riverside in order to assess previous archaeological studies and identify any previously recorded tribal cultural resources within the Project site. Additionally, as part of preparation of the Phase I Cultural Resources Study, BFSa also requested a records search of the Native American Heritage Commission (NAHC) Sacred Lands Files (SLF). According to BFSa’s search of EIC records and NAHC SLFs, no tribal cultural resources listed or eligible for listing in the California Register of Historical Resources or in a local register of historical resources are present on the Project site or previously recorded on the Project site. In addition, the Project site is highly disturbed and no tribal cultural resources were observed on the Project site or in the Project site’s immediate vicinity. (BFSa, 2020a, p. 1.0-1)

As part of the SB 18/AB 52 consultation process required by State law, the City of Moreno Valley sent notification of the Project to Native American tribes with possible traditional or cultural affiliation to the Project area. In response to the AB 52 consultation invitation, five tribes contacted the City to request formal consultation. The City met with each tribe and concluded tribal consultation on June 16, 2021. During the course of the tribal consultation process, no Native American tribe provided the City with substantial evidence indicating that tribal cultural resources, as defined in Public Resources Code section 21074, are present on the Project site or have been found previously on the Project site. Notwithstanding, due to the Project site’s location in an area where multiple Native American tribes are known to have a cultural affiliation, there is the possibility that prehistoric archaeological resources, including tribal cultural resources, could be encountered during ground-disturbing construction activities – although this is considered unlikely due to the pervasive, historic and on-going disturbances that have occurred on the Project site. Were a tribal cultural resource, as defined in Public Resources Code Section 21074, to be found on the Project site during construction – and not protected – a significant impact would occur.

Implementation of MMs TCR-1 through TCR-6, would ensure the proper identification and subsequent treatment of any significant tribal cultural resources that may be encountered during ground-disturbing activities associated with Project development. With implementation of the required mitigation, the Project’s potential impact to significant tribal cultural resources would be reduced to less-than-significant.

Mitigation

MM TCR-1 Prior to the issuance of a grading permit, the Developer shall retain a professional archaeologist to conduct monitoring of all mass grading and trenching activities. The Project Archaeologist shall have the authority to temporarily redirect earthmoving activities in the event that suspected archaeological resources are unearthed during Project construction. The Project Archaeologist, in consultation with the Consulting Tribe(s), the contractor, and the City, shall develop a Cultural Resources Management Plan (CRMP) in consultation pursuant to the definition in AB52 to address the details, timing and responsibility of all archaeological and cultural activities that will occur on the project site. A consulting tribe is defined as a tribe that initiated the AB 52 tribal consultation process

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>for the Project, has not opted out of the AB52 consultation process, and has completed AB 52 consultation with the City as provided for in Cal Pub Res Code Section 21080.3.2(b)(1) of AB52. Details in the Plan shall include:</p> <p>a) Project grading and development scheduling;</p> <p>b) The Project archeologist and the Consulting Tribes(s) as defined in MM TCR-1 shall attend the pre-grading meeting with the City, the construction manager and any contractors and will conduct a mandatory Cultural Resources Worker Sensitivity Training to those in attendance. The Training will include a brief review of the cultural sensitivity of the Project and the surrounding area; what resources could potentially be identified during earthmoving activities; the requirements of the monitoring program; the protocols that apply in the event inadvertent discoveries of cultural resources are identified, including who to contact and appropriate avoidance measures until the find(s) can be properly evaluated; and any other appropriate protocols. All new construction personnel that will conduct earthwork or grading activities that begin work on the Project following the initial Training must take the Cultural Sensitivity Training prior to beginning work and the Project archaeologist and Consulting Tribe(s) shall make themselves available to provide the training on an as-needed basis;</p> <p>c) The protocols and stipulations that the contractor, City, Consulting Tribe(s) and Project archaeologist will follow in the event of inadvertent cultural resources discoveries, including any newly discovered cultural resource deposits that shall be subject to a cultural resources evaluation.</p> <p>MM TCR-2 Prior to the issuance of a grading permit, the Developer shall secure agreements with the Pechanga Band of Luiseño Indians and Soboba Band of Luiseño Indians for tribal monitoring. The Developer is also required to provide a minimum of 30 days advance notice to the tribes of all mass grading and trenching activities. The Native American Tribal Representatives shall have the authority to temporarily halt and redirect earth moving activities in the affected area in the event that suspected archaeological resources are unearthed. If the Native American Tribal Representatives suspect that an archaeological resource may have been unearthed, the Project Archaeologist or the Tribal Representatives shall immediately redirect grading operations in a 100-foot radius around the find to allow identification and evaluation of the suspected resource. In consultation with the Native American Tribal Representatives, the Project Archaeologist shall evaluate the suspected resource and make a determination of significance pursuant to California Public Resources Code Section 21083.2.</p> <p>MM TCR-3 In the event that Native American cultural resources are discovered during the course of grading (inadvertent discoveries), the following procedures shall be carried out for final disposition of the discoveries:</p> <p>a) One or more of the following treatments, in order of preference, shall be employed with the tribes. Evidence of such shall be provided to the City of Moreno Valley Planning Division:</p> <p>i. Preservation-In-Place of the cultural resources, if feasible. Preservation in place means avoiding the resources, leaving them in the place they were found with no development affecting the integrity of the resources.</p> <p>ii. Onsite reburial of the discovered items as detailed in the treatment plan required pursuant to MM TCR-1. This shall include measures and provisions to protect the future reburial area from any future impacts in perpetuity. Reburial shall not occur until all legally required cataloging and basic recordation have been completed. No recordation of sacred items is permitted without the written consent of all Consulting Native American Tribal Governments as defined in MM TCR-1.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>MM TCR-4 The City shall verify that the following note is included on the Grading Plan:</p> <p>"If any suspected archaeological resources are discovered during ground-disturbing activities and the Project Archaeologist or Native American Tribal Representatives are not present, the construction supervisor is obligated to halt work in a 100-foot radius around the find and call the Project Archaeologist and the Tribal Representatives to the site to assess the significance of the find."</p>				
<p>MM TCR-5 If potential historic or cultural resources are uncovered during excavation or construction activities at the project site, work in the affected area must cease immediately and a qualified person meeting the Secretary of the Interior's standards (36 CFR 61), Tribal Representatives, and all site monitors per the Mitigation Measures, shall be consulted by the City to evaluate the find, and as appropriate recommend alternative measures to avoid, minimize or mitigate negative effects on the historic, or prehistoric resource. Determinations and recommendations by the consultant shall be immediately submitted to the Planning Division for consideration, and implemented as deemed appropriate by the Community Development Director, in consultation with the State Historic Preservation Officer (SHPO) and any and all Consulting Native American Tribes as defined in MM TCR-1 before any further work commences in the affected area.</p>				
<p>MM TCR-6 If human remains are discovered, no further disturbance shall occur in the affected area until the County Coroner has made necessary findings as to origin. If the County Coroner determines that the remains are potentially Native American, the California Native American Heritage Commission shall be notified within 24 hours of the published finding to be given a reasonable opportunity to identify the "most likely descendant". The "most likely descendant" shall then make recommendations, and engage in consultations concerning the treatment of the remains (California Public Resources Code 5097.98).</p>

XIX. UTILITIES AND SERVICE SYSTEMS – Would the project:

<p>a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Response: The Project would construct an on-site network of water and sewer pipes and stormwater facilities that would connect to existing water, sewer, and storm drain lines beneath Alessandro Boulevard and along the southern Project site boundary. The Project also would remove existing wooden power poles and underground existing overhead power lines (less than 115kV) along the south side of Alessandro Boulevard abutting the Project site and install connections to existing electricity, natural gas, and communications infrastructure that already exist in the area, and all such connections would be accomplished in conformance with the rules and standards enforced by the applicable service provider. The installation of water and sewer line connections, stormwater drainage facilities, electricity, natural gas, and communications infrastructure as proposed by the Project would result in physical impacts to the environment; however, these impacts are considered to be part of the Project's construction phase and are evaluated throughout this IS/MND accordingly. In instances where significant environmental impacts have been identified for the Project's construction phase, mitigation measures are recommended in each applicable subsection of this IS/MND to reduce impacts to less-than-significant levels. The construction of utility infrastructure necessary to serve the proposed Project would not result in any significant physical effects on the environment that are not already identified and disclosed as part of this IS/MND. Accordingly, additional mitigation measures beyond those identified throughout this IS/MND would not be required.

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: EMWD is responsible for supplying potable water to the Project site and its region. As discussed in the <i>2015 EMWD Urban Water Management Plan</i>, herein incorporated by reference as the “UWMP,” which applies to and was adopted by the EMWD, adequate water supplies are projected to be available to meet EMWD’s estimated water demand through 2040 under normal, historic single-dry and historic multiple-dry year conditions (EMWD, 2016a, p. XV). EMWD forecasts for projected water demand are based on the population projections of SCAG, which rely on the adopted land use designations contained within the general plans that cover the geographic area within EMWD’s service. The water use projections utilized in the <i>2015 EMWD UWMP</i> were based on the site’s existing “Commercial” land use designation on the City of Moreno Valley Land Use Map. The Project would change the site’s land use designation to “Business Park/Light Industrial” and would operate the site as a light industrial land use (i.e., warehousing). According to EMWD’s Water System Planning & Design manual, commercial and industrial development have the same average daily water demand rate (2,000 gpd per acre) (EMWD, 2007, p. 4). Because the Project’s water demand would be identical to the projection for the site’s existing land use designation (as mentioned above), the determination of the <i>2015 EMWD UWMP</i> remains valid and EMWD would have sufficient water supplies available to serve the Project from existing entitlements/resources and no new or expanded entitlements are needed. The Project’s impact would be less than significant.</p>				
<p>c) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project’s projected demand in addition to the provider’s existing commitments?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Wastewater generated by the Project would be treated by the EMWD, which operates the Moreno Valley Regional Water Reclamation Facility. Based upon EMWD’s wastewater generation rate of 1,700 gallons per day (gpd) per acre for industrial light land uses, the proposed Project would generate approximately 30,090 gallons of wastewater per day (1,700 gpd per acre × 17.7 Project acres = 30,090 gpd). Under existing conditions, the Moreno Valley Regional Water Reclamation Facility has an excess treatment capacity of approximately 5.4 million gallons per day (mgpd). Implementation of the Project would utilize approximately 0.6% of the Moreno Valley Regional Water Reclamation Facility daily excess treatment capacity (EMWD, 2016b). Accordingly, the Moreno Valley Regional Water Reclamation Facility has sufficient capacity to treat wastewater generated by the Project in addition to existing commitments. The Project would not create the need for any new or expanded wastewater facility (such as conveyance lines, treatment facilities, or lift stations). Because there is adequate capacity at existing treatment facilities to serve the Project’s projected sewer demand, impacts would be less than significant.</p>				
<p>d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: Implementation of the Project would generate an incremental increase in solid waste volumes requiring off-site disposal during short-term construction and long-term operational activities. Solid waste generated by the Project would be disposed at the El Sobrante Landfill and/or the Badlands Sanitary Landfill.</p> <p>The El Sobrante Landfill is permitted to receive 16,054 tons of refuse per day and has a total capacity of 209,910,000 cubic yards. According the CalRecycle, the El Sobrante Landfill has a total remaining capacity of 143,977,170 cubic yards. The El Sobrante Landfill is estimated to reach capacity, at the earliest time, in the year 2051 (CalRecycle, 2019a). In July 2020 (the most recent period for which disposal volumes are available), the average daily disposal at the El Sobrante Landfill was approximately 11,003 tons, which correlates to an excess daily disposal capacity of approximately 5,051 tons (CalRecycle, 2020a).</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>The Badlands Sanitary landfill is permitted to accept a maximum of 4,800 tons of solid waste per day. In July 2020, the most recent time period for which disposal data was publicly available, the Badlands Sanitary Landfill was receiving an average of 2,709 tons of waste per day, which correlates to an excess daily disposal capacity of approximately 2,091 tons (CalRecycle, 2020b). The Badlands Sanitary Landfill has available capacity until at least the year 2021; however, future landfill expansion opportunities may exist at this site. (CalRecycle, 2019b)</p> <p>The analysis below summarizes the Project’s potential to generate solid waste during construction and/or operation that would exceed the disposal capacity of local landfill facilities. As demonstrated in the analysis below, the Project would generate less-than-significant volumes of solid waste.</p> <p><u>Construction Impact Analysis</u> Based on the United States Environmental Protection Agency’s (U.S. EPA) construction waste generation factor of 4.34 pounds of solid waste generated for the construction of every 1 s.f. for non-residential uses, Project construction is estimated to generate approximately 860.4 tons of solid waste. $([396,275 \text{ s.f.} \times 4.34 \text{ pounds per s.f.}] \div 2,000 \text{ pounds per ton} = 860 \text{ tons})$ (EPA, 2009, Table A-2). CalGreen requires a minimum of 65% of all construction waste be diverted from landfills (by recycling, reusing, and other waste reduction strategies); therefore, the Project is estimated to generate approximately 301.1 tons of construction waste requiring landfill disposal $(860 \text{ tons} \times 0.35 = 301 \text{ tons})$. The Project’s construction phase is estimated to last for up to 190 working days; therefore, the Project is estimated to generate approximately 1.58 tons of solid waste per day $(301 \text{ tons} \div 190 \text{ days} = 1.58 \text{ tons per day})$ requiring landfill during construction.</p> <p>Non-recyclable construction waste generated by the Project would be disposed at the El Sobrante Landfill or Badlands Sanitary Landfill. As described above, these landfills receive well below their maximum permitted daily disposal volume; thus, the relatively minimal construction waste generated by the Project is not anticipated to cause the landfills to exceed their maximum permitted daily disposal volume. (Project construction waste would represent approximately 0.03% of the excess disposal capacity at the El Sobrante Landfill and approximately 0.08% of the excess disposal capacity at the Badlands Sanitary Landfill.) Furthermore, the El Sobrante Landfill and Badlands Sanitary Landfill are not expected to reach its total maximum permitted disposal capacities during the Project’s construction period. The El Sobrante Landfill and Badlands Sanitary Landfill have sufficient daily capacity to accept solid waste generated by the Project’s construction phase; therefore, impacts to landfill capacity associated with the Project’s near-term construction activities would be less than significant.</p> <p><u>Operational Impact Analysis</u> Based on a daily waste generation factor of 1.42 pounds of waste per 100 square feet of industrial building area obtained from CalRecycle, long-term, on-going operation of the Project would generate approximately 2.81 tons of solid waste per day $([1.42 \text{ pounds} \div 100 \text{ s.f.}] \times 396,275 \text{ s.f.}] \div 2,000 \text{ pounds} = 2.81 \text{ tons per day})$ (CalRecycle, 2019c). Pursuant to AB 939, at least 50 percent of the Project’s solid waste is required to be diverted from landfills; therefore, the Project would generate approximately 1.41 tons of solid waste per day requiring landfilling $(2.81 \text{ tons per day} \times 50\% = 1.41 \text{ tons per day})$.</p> <p>Non-recyclable solid waste generated during long-term operation of the Project would be disposed at the El Sobrante Landfill and the Badlands Sanitary Landfill. As described above, these landfills receive well below their maximum permitted daily disposal volume; thus, waste generated by the Project’s operation is not anticipated to cause the landfills to exceed their maximum permitted daily disposal volume. (Project operational rate would represent approximately 0.03% of the daily excess disposal capacity at the El Sobrante Landfill and approximately 0.07% of the daily excess disposal capacity at the Badlands Sanitary Landfill.) Because the Project would generate a relatively small amount of solid waste per day as compared to the permitted daily capacities at the receiving landfills, impacts to the El Sobrante Landfill and Badlands Sanitary Landfill facilities during the Project’s long-term operational activities would be less than significant.</p>				
<p>e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Attachment: Exhibit A to IS Resolution Initial Study - MND [Revision 1] (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>Response: The California Integrated Waste Management Act (AB 939), signed into law in 1989, established an integrated waste management system that focused on source reduction, recycling, composting, and land disposal of waste. In addition, the bill established a 50 percent waste reduction requirement for cities and counties by the year 2000, along with a process to ensure environmentally safe disposal of waste that could not be diverted. Per the requirements of the Integrated Waste Management Act, the Riverside County Board of Supervisors adopted the County of Riverside Countywide Integrated Waste Management Plan (CIWMP), which outlines the goals, policies, and programs the County and its cities implement to create an integrated and cost-effective waste management system that complies with the provisions of AB 939 and its diversion mandates. (RCDWR, 2020)</p> <p>In order to assist the City of Moreno Valley and the County of Riverside in achieving the mandated goals of the Integrated Waste Management Act, the Project’s building user(s) would be required to work with future refuse haulers to develop and implement feasible waste reduction programs, including source reduction, recycling, and composting. Additionally, in accordance with the California Solid Waste Reuse and Recycling Act of 1991 (Cal Pub Res. Code § 42911), the Project is required to provide adequate areas for collecting and loading recyclable materials where solid waste is collected. The collection areas are required to be shown on construction drawings and be in place before occupancy permits are issued. (CA Legislative Information, 2005) Additionally, in compliance with AB 341 (Mandatory Commercial Recycling Program), the future occupant(s) of the proposed Project would be required to arrange for recycling services, if the occupant generates four (4) or more cubic yards of solid waste per week (CA Legislative Information, 2011). The implementation of these mandatory requirements would reduce the amount of solid waste generated by the Project and diverted to landfills, which in turn will aid in the extension of the life of affected disposal sites. The Project Applicant would be required to comply with all applicable solid waste statutes and regulations; as such, impacts related to solid waste statutes and regulations would be less than significant.</p>

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XX. WILDFIRE – If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:				
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Response: The Project site is not located in or near state responsibility areas (SRA) or lands within a very high fire hazard severity zone (CalFire, 2007); therefore, the Project would not exacerbate wildfire hazard risks or expose people or the environment to adverse environmental effects related to wildfires. As such, no impact would occur.				
Sources: 1. California Department of Forestry and Fire Protection – Western Riverside County Fire Hazard Severity Zones in SRA, Adopted on November 7, 2007, https://osfm.fire.ca.gov/media/6752/fhszs_map60.pdf				
XXI. MANDATORY FINDINGS OF SIGNIFICANCE				
a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Response: All impacts to the environment, including impacts to habitat for fish and wildlife species, fish and wildlife populations, plant and animal communities, rare and endangered plants and animals, and historical and pre-historical resources were evaluated as part of this IS/MND. Throughout this IS/MND, where impacts were determined to be potentially significant, mitigation measures have been imposed to reduce those impacts to less-than-significant levels. Accordingly, with incorporation of the mitigation measures imposed throughout this IS/MND, the Project would not substantially degrade the quality of the environment and impacts would be less than significant.				
b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current project, and the effects of probable future projects.)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>Response: As discussed throughout this IS/MND, implementation of the proposed Project has the potential to result in effects to the environment that are individually limited, but cumulatively considerable. In all instances where the Project has the potential to contribute to a cumulatively considerable impact to the environment, mitigation measures have been imposed to reduce potential effects to less-than-significant levels.</p>				
<p><u><i>Aesthetics</i></u></p>				
<p>New development on the Project site and in the surrounding area would change the existing character of the Project's viewshed; however, all development in the immediate vicinity of the Project would be required to comply with the development regulations and design standards contained in the City's Development Code, which would ensure that minimum standards related to visual character and quality are met to preclude adverse aesthetic effects (e.g., size, scale, building materials, lighting). Accordingly, the Project's aesthetic impacts would not be cumulatively considerable.</p>				
<p><u><i>Agriculture and Forestry Resources</i></u></p>				
<p>The Project would have no impact on agricultural resources. Therefore, there is no potential for the Project to contribute to a cumulatively considerable impact under this topic.</p>				
<p><u><i>Air Quality</i></u></p>				
<p>Based on SCAQMD guidance, any direct exceedance of a regional or localized threshold also is considered to be a cumulatively-considerable effect, while air pollutant emissions below applicable regional and/or localized thresholds are not considered cumulatively considerable. As discussed in the preceding analysis, the Project would not exceed SCAQMD's regional threshold for criteria pollutants during construction or operation of the Project. Therefore, Project-related construction and operation emissions are not considered cumulatively-considerable.</p>				
<p><u><i>Biological Resources</i></u></p>				
<p>The Project site does not support any sensitive plant or wildlife species; therefore, there is no potential for the Project to contribute to a cumulatively-considerable impact under these resources. Although the Project site is highly disturbed and fragmented from other open space areas under existing conditions, the site does contain quality habitat for nesting birds and contains habitat that could be used by the burrowing owl. Therefore, there is the potential that nesting birds and/or the burrowing owl could be present on the Project site prior to construction and there also is the potential that other development projects in the Riverside area could support bird nests and/or the burrowing owl. The Project's potential impacts to nesting birds and the burrowing owl would be cumulatively considerable. MMs BR-1 and BR-2 would reduce the Project's cumulative effects to less-than-significant levels by ensuring that no direct take of nesting birds occurs during construction.</p>				
<p>The Project would permanently impact habitat that is classified as: sensitive natural community, riparian/riverine habitat, and a State-protected wetland. Accordingly, the Project would contribute to a cumulatively-considerable impact under these resources. MM BR-3 would reduce the Project's cumulative effects to less-than-significant levels by ensuring that these impacts would be fully compensated through the purchasing of habitat mitigation credits.</p>				
<p><u><i>Cultural Resources</i></u></p>				
<p>The Project site does not contain historic or prehistoric archaeological resources and mandatory compliance with State law would preclude impacts to human remains; therefore, there is no potential for the Project to contribute to a cumulatively considerable impact to these resources.</p>				
<p><u><i>Energy</i></u></p>				
<p>The Project's construction and operation energy consumption would not be considered inefficient, wasteful, or otherwise unnecessary and would not obstruct a state or local plan for renewable energy or energy efficiency. In addition, all cumulative projects would also be required to comply with the California Building Standards Code, which establishes standards for energy efficiency and "green" construction. Therefore, implementation of the Project would result in a less-than-significant cumulative impact to energy.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p><u>Geology and Soils</u> Potential effects related to geology and soils are inherently site-specific; therefore, there is no potential for the Project to contribute to a cumulatively considerable impact under this topic. Furthermore, all development proposals would be required to comply with applicable federal, State, and local regulations that are in place to preclude adverse geology and soils effects, including effects related to strong seismic ground shaking, fault rupture, soil erosion, and hazardous soil conditions (e.g., liquefaction, expansive soils, landslides).</p> <p>Notwithstanding, there is remote potential that paleontological resources are buried beneath the surface of the Project site and could be impacted during construction. Other projects within region would similarly have the potential to impact unknown, subsurface paleontological resources during ground-disturbing activities. Therefore, the potential for development on the Project site to impact subsurface paleontological resource deposits is a cumulatively considerable impact. Application of MMs GEO-1 through GEO-4 would reduce the Project's cumulative impacts to less-than-significant levels.</p> <p><u>Greenhouse Gas Emissions</u> As described in the preceding analysis, global climate change (GCC) occurs as the result of global emissions of GHGs. An individual development project does not have the potential to result in direct and significant GCC-related effects in the absence of cumulative sources of GHGs. The CEQA Guidelines also emphasize that the effects of GHG emissions are cumulative, and should be analyzed in the context of CEQA's requirements for cumulative impacts analysis (See CEQA Guidelines § 15130[f]). Accordingly, the preceding analysis reflects a cumulative impact analysis of the GHG emissions related to the Project. As concluded under Response VIII(a) and (b), the Project would not result in a cumulatively considerable impact related to GHG emissions.</p> <p><u>Hazards and Hazardous Materials</u> Potential effects related to hazards and hazardous materials are inherently site-specific; therefore, there is no potential for the Project to contribute to a cumulatively considerable impact under this topic.</p> <p><u>Hydrology and Water Quality</u> Construction and operation of the Project and other projects in the Santa Ana River watershed would have the potential to result in a cumulative water quality impact, including erosion and sedimentation. However, in accordance with applicable federal, State, and local regulations, all development projects would be required to implement plans during construction and operation (e.g., SWPPP and WQMP) to minimize adverse effects to water quality, which would avoid a cumulatively considerable impact.</p> <p>The Project and other projects in the Santa Ana River Basin would be required to comply with federal, State, and local regulations in order to preclude flood hazards both on- and off-site. Compliance with federal, State, and local regulations would require on-site areas to be protected, at a minimum, from flooding during peak storm events (i.e., 100-year storm) and that proposed development would not expose downstream properties to increased flooding risks during peak storm events. Accordingly, a cumulatively considerable effect related to flooding would not occur.</p> <p><u>Land Use and Planning</u> The Project would not physically divide an established community, or conflict with applicable land use/planning documents; therefore, there is no potential for the Project to contribute to a cumulatively-considerable impact related to land use and planning.</p> <p><u>Mineral Resources</u> The Project would have no impact on mineral resources. Therefore, there is no potential for the Project to contribute to a cumulatively considerable impact under this topic.</p> <p><u>Noise</u> Noise levels diminish rapidly with distance; therefore, for a development project to contribute to a noise-related cumulative impact it must be located in close proximity to another development project or source of substantial noise. There are no construction projects in the immediate vicinity of the Project site that would overlap with Project-related construction activities. Accordingly, cumulatively-considerable impacts related to periodic noise and construction-related vibration would not occur. Under long-term</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>operating conditions the Project would comply with the City of Moreno Valley noise ordinance and would not produce noticeable levels of vibration; therefore, cumulatively considerable impacts related to these issue areas would not occur. The analysis provided under Response XIII(a) demonstrates that the Project would not result in a cumulatively-considerable impact related to transportation noise under long-term conditions.</p> <p><u>Population and Housing</u> The Project would not implement land uses that generate new residents and would not require the construction of replacement housing. Accordingly, the City has anticipated – and planned for – the growth that would occur on the Project site and there is no potential for the Project to result in an adverse, cumulatively considerable environmental effect related to population and housing.</p> <p><u>Public Services</u> All development projects in the City of Moreno Valley, including the Project, would be required to pay development impact fees, a portion of which would be used by the City for the provision of public services, to offset the incremental increase in demand for fire protection and police protection services. Furthermore, future development would generate an on-going stream of property tax revenue and sales tax revenue, which would provide funds that could be used by the City of Moreno Valley for the provision of fire and police protection services. The Project would not directly result in the introduction of new residents to the City and, therefore, would have no potential to result in cumulatively considerable impacts to resident-serving public facilities such as schools, parks, libraries, and other public facilities or services.</p> <p><u>Recreation</u> The Project would have no impact to recreation facilities. Therefore, there is no potential for the Project to contribute to a cumulatively considerable impact under this topic.</p> <p><u>Transportation</u> The Project would not conflict with any City policies addressing the circulation network and would not generate substantial VMT. Therefore, the Project would not contribute to any cumulatively-considerable adverse transportation effects.</p> <p><u>Tribal Cultural Resource</u> Development activities on the Project site would not impact any known tribal cultural resources. However, there is the remote potential that such resources are buried beneath the surface of the Project site and could be impacted during construction. Other projects within region would similarly have the potential to impact unknown, subsurface tribal cultural resources during ground-disturbing activities. Therefore, the potential for development on the Project site to impact subsurface tribal cultural resource deposits is a cumulatively considerable impact. Application of MMs TCR-1 through TCR-6 would reduce the Project’s cumulative impacts to less-than-significant levels.</p> <p><u>Utilities and Service Systems</u> The Project would require water and wastewater infrastructure, as well as solid waste disposal for building operation. Development of public utility infrastructure is part of an extensive planning process involving utility providers and jurisdictions with discretionary review authority. The coordination process associated with the preparation of infrastructure plans is intended to ensure that adequate public utility services and resources are available to serve both individual development projects and cumulative growth in the region. Each individual development project is subject to review for utility capacity to avoid unanticipated interruptions in service or inadequate supplies. Coordination with the utility providers would allow for the provision of utility services to the Project and other developments. The Project and other planned projects are subject to connection and service fees to offset increased demand and assist in facility expansion and service improvements (at the time of need). Because of the utility planning and coordination activities described above, cumulatively considerable impacts to utilities and service systems would not occur.</p> <p><u>Wildfire</u> The Project site is not located in a SRA or very high fire hazard area. Therefore, implementation of the Project would result in no adverse impacts associated with wildfire.</p>				

ISSUES & SUPPORTING INFORMATION SOURCES:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>Response: The Project's potential to result in environmental effects that could adversely affect human beings, either directly or indirectly, has been discussed throughout this IS/MND. As demonstrated by this analysis, construction and operation of the Project would not involve any activities that would result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.</p>

EXECUTIVE SUMMARY

ES.1 SUMMARY OF FINDINGS

The results of this *Compass Danbe Centerpointe Air Quality Impact Analysis* are summarized below based on the significance criteria in Section 3 of this report consistent with Appendix G of the *2019 California Environmental Quality Act (CEQA) Guidelines (CEQA Guidelines)* (1). Table ES-1 shows the findings of significance for each potential air quality impact under CEQA before and after any required mitigation measures described below.

TABLE ES-1: SUMMARY OF CEQA SIGNIFICANCE FINDINGS

Analysis	Report Section	Significance Findings	
		Unmitigated	Mitigated
Regional Construction Emissions	3.4	<i>Less Than Significant</i>	<i>n/a</i>
Localized Construction Emissions	3.6	<i>Less Than Significant</i>	<i>n/a</i>
Regional Operational Emissions	3.5	<i>Less Than Significant</i>	<i>n/a</i>
Localized Operational Emissions	3.7	<i>Less Than Significant</i>	<i>n/a</i>
CO "Hot Spot" Analysis	3.8	<i>Less Than Significant</i>	<i>n/a</i>
Air Quality Management Plan	3.9	<i>Less Than Significant</i>	<i>n/a</i>
Sensitive Receptors	3.10	<i>Less Than Significant</i>	<i>n/a</i>
Odors	3.11	<i>Less Than Significant</i>	<i>n/a</i>
Cumulative Impacts	3.12	<i>Less Than Significant</i>	<i>n/a</i>

ES.2 STANDARD REGULATORY REQUIREMENTS

There are numerous requirements that development projects must comply with by law, and that were put in place by federal, State, and local regulatory agencies for the improvement of air quality. The two most pertinent regulatory requirements that apply to the proposed Project and which are required by South Coast Air Quality Management District (SCAQMD) Rules that are currently applicable during construction activity for this Project are Rule 403 (Fugitive Dust) (2)

and Rule 1113 (Architectural Coatings) (3). Because they are required by law, credit for Rule 403 and Rule 1113 have been taken in the analysis.

SCAQMD RULE 403

This rule is intended to reduce the amount of particulate matter entrained in the ambient air as a result of anthropogenic (human-made) fugitive dust sources by requiring actions to prevent and reduce fugitive dust emissions. Rule 403 applies to any activity or human-made condition capable of generating fugitive dust and requires best available control measures to be applied to earth moving and grading activities.

SCAQMD RULE 1113

This rule serves to limit the Volatile Organic Compound (VOC) content of architectural coatings used on projects in the SCAQMD. Any person who supplies, sells, offers for sale, or manufactures any architectural coating for use on projects in the SCAQMD must comply with the current VOC standards set in this rule.

ES.3 CONSTRUCTION AND OPERATIONAL-SOURCE MITIGATION MEASURES

The Project would not result in an exceedance of any regional or localized construction or operational-source emissions thresholds. As such, the Project would not result in any significant impacts and no MMs are required.

This page intentionally left blank

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

1 INTRODUCTION

This report presents the results of the air quality impact analysis (AQIA) prepared by Urban Crossroads, Inc., for the proposed Compass Danbe Centerpointe (Project). The purpose of this AQIA is to evaluate the potential impacts to air quality associated with construction and operation of the proposed Project and recommend measures to mitigate impacts considered potentially significant in comparison to thresholds established by the SCAQMD.

1.1 SITE LOCATION

The proposed project is located south of Alessandro Boulevard on either side of Chagall Court in the City of Moreno Valley as shown on Exhibit 1-A. The March Air Reserve Base/Inland Port Airport (MARB/IPA) is located approximately 0.9 miles south of the Project site. The Project site is bordered to the west by vacant land, to the east by vacant land, to the north by commercial and residential uses, and to the south are existing industrial buildings.

This proposed Project includes a General Plan Amendment (GPA) and a Zone Change (ZC). The site is currently designated as Commercial in the City's General Plan, which would require a land use and zoning change to Light Industrial use. The proposed changes are consistent with the zones to the west, south and east of the subject site and adjacent properties. The amendment is in keeping with the uses surrounding the project site.

1.2 PROJECT DESCRIPTION

Exhibit 1-B illustrates a preliminary site plan for the Project. The Project is anticipated to be developed within a single phase with an anticipated opening year of 2022. The proposed Project consists of the following uses:

- Building 1: 206,665 square feet (sf) of warehousing (70% of total building sf) and 88,571 sf of high-cube cold storage warehouse use (30% of total building sf) for a total of 295,236 sf for Building 1
- Building 2: 70,876 sf of warehousing (70% of total building sf) and 30,376 sf of high-cube cold storage warehouse use (30% of total building sf) for a total of 101,252 sf for Building 2

This analysis includes a conservative assumption of on-site Project-related emission sources for potential future tenants, including architectural coatings, consumer products, landscape maintenance equipment, emissions associated with natural gas and electricity, and mobile source emissions. This analysis is intended to describe air impacts associated with the expected operational activities at the Project site. This report assumes the Project will operate 24-hours daily for seven days per week. At the time this air quality impact analysis was prepared, the future tenants of the proposed Project were unknown however any tenant would operate consistent with a high-cube warehouse.

2 AIR QUALITY SETTING

This section provides an overview of the existing air quality conditions in the Project area and region.

2.1 SOUTH COAST AIR BASIN

The Project site is located in the South Coast Air Basin (SCAB) within the jurisdiction of SCAQMD (4). The SCAQMD was created by the 1977 Lewis-Presley Air Quality Management Act, which merged four county air pollution control bodies into one regional district. Under the Act, the SCAQMD is responsible for bringing air quality in areas under its jurisdiction into conformity with federal and state air quality standards. As previously stated, the Project site is located within the SCAB, a 6,745-square mile subregion of the SCAQMD, which includes portions of Los Angeles, Riverside, and San Bernardino Counties, and all of Orange County.

The SCAB is bounded by the Pacific Ocean to the west and the San Gabriel, San Bernardino, and San Jacinto Mountains to the north and east. The Los Angeles County portion of the Mojave Desert Air Basin is bounded by the San Gabriel Mountains to the south and west, the Los Angeles/Kern County border to the north, and the Los Angeles/San Bernardino County border to the east. The Riverside County portion of the Salton Sea Air Basin is bounded by the San Jacinto Mountains in the west and spans eastward up to the Palo Verde Valley.

2.2 REGIONAL CLIMATE

The regional climate has a substantial influence on air quality in the SCAB. In addition, the temperature, wind, humidity, precipitation, and amount of sunshine influence the air quality.

The annual average temperatures throughout the SCAB vary from the low to middle 60s degrees Fahrenheit (°F). Due to a decreased marine influence, the eastern portion of the SCAB shows greater variability in average annual minimum and maximum temperatures. January is the coldest month throughout the SCAB, with average minimum temperatures of 47°F in downtown Los Angeles and 36°F in San Bernardino. All portions of the SCAB have recorded maximum temperatures above 100°F.

Although the climate of the SCAB can be characterized as semi-arid, the air near the land surface is quite moist on most days because of the presence of a marine layer. This shallow layer of sea air is an important modifier of SCAB climate. Humidity restricts visibility in the SCAB, and the conversion of sulfur dioxide (SO₂) to sulfates (SO₄) is heightened in air with high relative humidity. The marine layer provides an environment for that conversion process, especially during the spring and summer months. The annual average relative humidity within the SCAB is 71% along the coast and 59% inland. Since the ocean effect is dominant, periods of heavy early morning fog are frequent and low stratus clouds are a characteristic feature. These effects decrease with distance from the coast.

More than 90% of the SCAB's rainfall occurs from November through April. The annual average rainfall varies from approximately nine inches in Riverside to fourteen inches in downtown Los

Angeles. Monthly and yearly rainfall totals are extremely variable. Summer rainfall usually consists of widely scattered thunderstorms near the coast and slightly heavier shower activity in the eastern portion of the SCAB with frequency being higher near the coast.

Due to its generally clear weather, about three-quarters of available sunshine is received in the SCAB. The remaining one-quarter is absorbed by clouds. The ultraviolet portion of this abundant radiation is a key factor in photochemical reactions. On the shortest day of the year there are approximately 10 hours of possible sunshine, and on the longest day of the year there are approximately 14½ hours of possible sunshine.

The importance of wind to air pollution is considerable. The direction and speed of the wind determines the horizontal dispersion and transport of the air pollutants. During the late autumn to early spring rainy season, the SCAB is subjected to wind flows associated with the traveling storms moving through the region from the northwest. This period also brings five to ten periods of strong, dry offshore winds, locally termed “Santa Anas” each year. During the dry season, which coincides with the months of maximum photochemical smog concentrations, the wind flow is bimodal, typified by a daytime onshore sea breeze and a nighttime offshore drainage wind. Summer wind flows are created by the pressure differences between the relatively cold ocean and the unevenly heated and cooled land surfaces that modify the general northwesterly wind circulation over southern California. Nighttime drainage begins with the radiational cooling of the mountain slopes. Heavy, cool air descends the slopes and flows through the mountain passes and canyons as it follows the lowering terrain toward the ocean. Another characteristic wind regime in the SCAB is the “Catalina Eddy,” a low level cyclonic (counterclockwise) flow centered over Santa Catalina Island which results in an offshore flow to the southwest. On most spring and summer days, some indication of an eddy is apparent in coastal sections.

In the SCAB, there are two distinct temperature inversion structures that control vertical mixing of air pollution. During the summer, warm high-pressure descending (subsiding) air is undercut by a shallow layer of cool marine air. The boundary between these two layers of air is a persistent marine subsidence/inversion. This boundary prevents vertical mixing which effectively acts as an impervious lid to pollutants over the entire SCAB. The mixing height for the inversion structure is normally situated 1,000 to 1,500 feet above mean sea level.

A second inversion-type forms in conjunction with the drainage of cool air off the surrounding mountains at night followed by the seaward drift of this pool of cool air. The top of this layer forms a sharp boundary with the warmer air aloft and creates nocturnal radiation inversions. These inversions occur primarily in the winter when nights are longer and onshore flow is weakest. They are typically only a few hundred feet above mean sea level. These inversions effectively trap pollutants, such as Nitrogen Oxides (NO_x) and carbon monoxide (CO) from vehicles, as the pool of cool air drifts seaward. Winter is therefore a period of high levels of primary pollutants along the coastline.

2.3 WIND PATTERNS AND PROJECT LOCATION

The distinctive climate of the Project area and the SCAB is determined by its terrain and geographical location. The SCAB is located in a coastal plain with connecting broad valleys and

low hills, bounded by the Pacific Ocean in the southwest quadrant with high mountains forming the remainder of the perimeter.

Wind patterns across the south coastal region are characterized by westerly and southwesterly onshore winds during the day and easterly or northeasterly breezes at night. Winds are characteristically light although the speed is somewhat greater during the dry summer months than during the rainy winter season.

2.4 CRITERIA POLLUTANTS

Criteria pollutants are pollutants that are regulated through the development of human health based and/or environmentally based criteria for setting permissible levels. Criteria pollutants, their typical sources, and health effects are identified below (5):

TABLE 2-1: CRITERIA POLLUTANTS

Criteria Pollutant	Description	Sources	Health Effects
CO	CO is a colorless, odorless gas produced by the incomplete combustion of carbon-containing fuels, such as gasoline or wood. CO concentrations tend to be the highest during the winter morning, when little to no wind and surface-based inversions trap the pollutant at ground levels. Because CO is emitted directly from internal combustion engines, unlike ozone (O ₃), motor vehicles operating at slow speeds are the primary source of CO in the SCAB. The highest ambient CO concentrations are generally found near congested transportation corridors and intersections.	Any source that burns fuel such as automobiles, trucks, heavy construction equipment, farming equipment and residential heating.	Individuals with a deficient blood supply to the heart are the most susceptible to the adverse effects of CO exposure. The effects observed include earlier onset of chest pain with exercise, and electrocardiograph changes indicative of decreased oxygen (O ₂) supply to the heart. Inhaled CO has no direct toxic effect on the lungs but exerts its effect on tissues by interfering with O ₂ transport and competing with O ₂ to combine with hemoglobin present in the blood to form carboxyhemoglobin (COHb). Hence, conditions with an increased demand for O ₂ supply can be adversely affected by exposure to CO. Individuals most at risk include fetuses, patients with diseases involving heart and blood vessels, and patients with chronic hypoxemia (O ₂ deficiency) as seen at high altitudes.

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

Criteria Pollutant	Description	Sources	Health Effects
SO ₂	SO ₂ is a colorless, extremely irritating gas or liquid. It enters the atmosphere as a pollutant mainly as a result of burning high sulfur-content fuel oils and coal and from chemical processes occurring at chemical plants and refineries. When SO ₂ oxidizes in the atmosphere, it forms SO ₄ . Collectively, these pollutants are referred to as sulfur oxides (SO _x).	Coal or oil burning power plants and industries, refineries, diesel engines	<p>A few minutes of exposure to low levels of SO₂ can result in airway constriction in some asthmatics, all of whom are sensitive to its effects. In asthmatics, increase in resistance to air flow, as well as reduction in breathing capacity leading to severe breathing difficulties, are observed after acute exposure to SO₂. In contrast, healthy individuals do not exhibit similar acute responses even after exposure to higher concentrations of SO₂.</p> <p>Animal studies suggest that despite SO₂ being a respiratory irritant, it does not cause substantial lung injury at ambient concentrations. However, very high levels of exposure can cause lung edema (fluid accumulation), lung tissue damage, and sloughing off of cells lining the respiratory tract.</p> <p>Some population-based studies indicate that the mortality and morbidity effects associated with fine particles show a similar association with ambient SO₂ levels. In these studies, efforts to separate the effects of SO₂ from those of fine particles have not been successful. It is not clear whether the two pollutants act synergistically, or one pollutant alone is the predominant factor.</p>

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

Criteria Pollutant	Description	Sources	Health Effects
NO _x	<p>NO_x consist of nitric oxide (NO), nitrogen dioxide (NO₂) and nitrous oxide (N₂O) and are formed when nitrogen (N₂) combines with O₂. Their lifespan in the atmosphere ranges from one to seven days for nitric oxide and nitrogen dioxide, to 170 years for nitrous oxide. NO_x is typically created during combustion processes and are major contributors to smog formation and acid deposition. NO₂ is a criteria air pollutant and may result in numerous adverse health effects; it absorbs blue light, resulting in a brownish-red cast to the atmosphere and reduced visibility. Of the seven types of nitrogen oxide compounds, NO₂ is the most abundant in the atmosphere. As ambient concentrations of NO₂ are related to traffic density, commuters in heavy traffic may be exposed to higher concentrations of NO₂ than those indicated by regional monitoring station.</p>	<p>Any source that burns fuel such as automobiles, trucks, heavy construction equipment, farming equipment and residential heating.</p>	<p>Population-based studies suggest that an increase in acute respiratory illness, including infections and respiratory symptoms in children (not infants), is associated with long-term exposure to NO₂ at levels found in homes with gas stoves, which are higher than ambient levels found in Southern California. Increase in resistance to air flow and airway contraction is observed after short-term exposure to NO₂ in healthy subjects. Larger decreases in lung functions are observed in individuals with asthma or chronic obstructive pulmonary disease (e.g., chronic bronchitis, emphysema) than in healthy individuals, indicating a greater susceptibility of these sub-groups.</p> <p>In animals, exposure to levels of NO₂ considerably higher than ambient concentrations result in increased susceptibility to infections, possibly due to the observed changes in cells involved in maintaining immune functions. The severity of lung tissue damage associated with high levels of O₃ exposure increases when animals are exposed to a combination of O₃ and NO₂.</p>
O ₃	<p>O₃ is a highly reactive and unstable gas that is formed when VOCs and NO_x, both byproducts of internal combustion engine exhaust, undergo slow photochemical reactions in the presence of sunlight. O₃ concentrations are generally highest during the summer</p>	<p>Formed when reactive organic gases (ROG) and NO_x react in the presence of sunlight. ROG sources include any source</p>	<p>Individuals exercising outdoors, children, and people with preexisting lung disease, such as asthma and chronic pulmonary lung disease, are considered to be the most susceptible sub-groups for O₃ effects. Short-term exposure (lasting for a</p>

Criteria Pollutant	Description	Sources	Health Effects
	<p>months when direct sunlight, light wind, and warm temperature conditions are favorable to the formation of this pollutant.</p>	<p>that burns fuels, (e.g., gasoline, natural gas, wood, oil) solvents, petroleum processing and storage and pesticides.</p>	<p>few hours) to O₃ at levels typically observed in Southern California can result in breathing pattern changes, reduction of breathing capacity, increased susceptibility to infections, inflammation of the lung tissue, and some immunological changes. Elevated O₃ levels are associated with increased school absences. In recent years, a correlation between elevated ambient O₃ levels and increases in daily hospital admission rates, as well as mortality, has also been reported. An increased risk for asthma has been found in children who participate in multiple outdoor sports and live in communities with high O₃ levels.</p> <p>O₃ exposure under exercising conditions is known to increase the severity of the responses described above. Animal studies suggest that exposure to a combination of pollutants that includes O₃ may be more toxic than exposure to O₃ alone. Although lung volume and resistance changes observed after a single exposure diminish with repeated exposures, biochemical and cellular changes appear to persist, which can lead to subsequent lung structural changes.</p>
<p>Particulate Matter</p>	<p>PM₁₀: A major air pollutant consisting of tiny solid or liquid particles of soot, dust, smoke, fumes, and aerosols. Particulate matter pollution is a major cause of reduce visibility (haze) which is caused by the scattering of light</p>	<p>Sources of PM₁₀ include road dust, windblown dust and construction. Also formed from other pollutants (acid rain, NO_x, SO_x,</p>	<p>A consistent correlation between elevated ambient fine particulate matter (PM₁₀ and PM_{2.5}) levels and an increase in mortality rates, respiratory infections, number and severity of</p>

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

Criteria Pollutant	Description	Sources	Health Effects
	<p>and consequently the significant reduction air clarity. The size of the particles (10 microns or smaller, about 0.0004 inches or less) allows them to easily enter the lungs where they may be deposited, resulting in adverse health effects. Additionally, it should be noted that PM₁₀ is considered a criteria air pollutant.</p> <p>PM_{2.5}: A similar air pollutant to PM₁₀ consisting of tiny solid or liquid particles which are 2.5 microns or smaller (which is often referred to as fine particles). These particles are formed in the atmosphere from primary gaseous emissions that include SO₄ formed from SO₂ release from power plants and industrial facilities and nitrates that are formed from NO_x release from power plants, automobiles and other types of combustion sources. The chemical composition of fine particles highly depends on location, time of year, and weather conditions. PM_{2.5} is a criteria air pollutant.</p>	<p>organics). Incomplete combustion of any fuel.</p> <p>PM_{2.5} comes from fuel combustion in motor vehicles, equipment and industrial sources, residential and agricultural burning. Also formed from reaction of other pollutants (acid rain, NO_x, SO_x, organics).</p>	<p>asthma attacks and the number of hospital admissions has been observed in different parts of the United States and various areas around the world. In recent years, some studies have reported an association between long-term exposure to air pollution dominated by fine particles and increased mortality, reduction in lifespan, and an increased mortality from lung cancer.</p> <p>Daily fluctuations in PM_{2.5} concentration levels have also been related to hospital admissions for acute respiratory conditions in children, to school and kindergarten absences, to a decrease in respiratory lung volumes in normal children, and to increased medication use in children and adults with asthma. Recent studies show lung function growth in children is reduced with long term exposure to particulate matter.</p> <p>The elderly, people with pre-existing respiratory or cardiovascular disease, and children appear to be more susceptible to the effects of high levels of PM₁₀ and PM_{2.5}.</p>
VOC	<p>VOCs are hydrocarbon compounds (any compound containing various combinations of hydrogen and carbon atoms) that exist in the ambient air. VOCs contribute to the formation of smog through atmospheric photochemical reactions and/or may be toxic. Compounds of carbon (also known as organic compounds) have different levels of reactivity; that is, they do not react at the same speed or do not</p>	<p>Organic chemicals are widely used as ingredients in household products. Paints, varnishes and wax all contain organic solvents, as do many cleaning, disinfecting, cosmetic, degreasing and hobby products.</p>	<p>Breathing VOCs can irritate the eyes, nose and throat, can cause difficulty breathing and nausea, and can damage the central nervous system as well as other organs. Some VOCs can cause cancer. Not all VOCs have all these health effects, though many have several.</p>

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

Criteria Pollutant	Description	Sources	Health Effects
	<p>form O₃ to the same extent when exposed to photochemical processes. VOCs often have an odor, and some examples include gasoline, alcohol, and the solvents used in paints. Exceptions to the VOC designation include CO, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate. VOCs are a criteria pollutant since they are a precursor to O₃, which is a criteria pollutant. The terms VOC and ROG (see below) interchangeably.</p>	<p>Fuels are made up of organic chemicals. All of these products can release organic compounds while you are using them, and, to some degree, when they are stored.</p>	
<p>ROG</p>	<p>Similar to VOC, ROGs are also precursors in forming O₃ and consist of compounds containing methane, ethane, propane, butane, and longer chain hydrocarbons, which are typically the result of some type of combustion/decomposition process. Smog is formed when ROG and NO_x react in the presence of sunlight. ROGs are a criteria pollutant since they are a precursor to O₃, which is a criteria pollutant. The terms ROG and VOC (see previous) interchangeably.</p>	<p>Sources similar to VOCs.</p>	<p>Health effects similar to VOCs.</p>
<p>Lead (Pb)</p>	<p>Pb is a heavy metal that is highly persistent in the environment and is considered a criteria pollutant. In the past, the primary source of Pb in the air was emissions from vehicles burning leaded gasoline. The major sources of Pb emissions are ore and metals processing, particularly Pb smelters, and piston-engine aircraft operating on leaded aviation gasoline. Other stationary sources include waste incinerators, utilities, and lead-acid battery manufacturers. It should be noted that the Project does not include</p>	<p>Metal smelters, resource recovery, leaded gasoline, deterioration of Pb paint.</p>	<p>Fetuses, infants, and children are more sensitive than others to the adverse effects of Pb exposure. Exposure to low levels of Pb can adversely affect the development and function of the central nervous system, leading to learning disorders, distractibility, inability to follow simple commands, and lower intelligence quotient. In adults, increased Pb levels are associated with increased blood pressure.</p>

Criteria Pollutant	Description	Sources	Health Effects
	operational activities such as metal processing or Pb acid battery manufacturing. As such, the Project is not anticipated to generate a quantifiable amount of Pb emissions.		Pb poisoning can cause anemia, lethargy, seizures, and death; although it appears that there are no direct effects of Pb on the respiratory system. Pb can be stored in the bone from early age environmental exposure, and elevated blood Pb levels can occur due to breakdown of bone tissue during pregnancy, hyperthyroidism (increased secretion of hormones from the thyroid gland) and osteoporosis (breakdown of bony tissue). Fetuses and breast-fed babies can be exposed to higher levels of Pb because of previous environmental Pb exposure of their mothers.
Odor	Odor means the perception experienced by a person when one or more chemical substances in the air come into contact with the human olfactory nerves (6).	Odors can come from many sources including animals, human activities, industry, natures, and vehicles.	Offensive odors can potentially affect human health in several ways. First, odorant compounds can irritate the eye, nose, and throat, which can reduce respiratory volume. Second, studies have shown that the VOCs that cause odors can stimulate sensory nerves to cause neurochemical changes that might influence health, for instance, by compromising the immune system. Finally, unpleasant odors can trigger memories or attitudes linked to unpleasant odors, causing cognitive and emotional effects such as stress.

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

2.5 EXISTING AIR QUALITY

Existing air quality is measured at established SCAQMD air quality monitoring stations. Monitored air quality is evaluated in the context of ambient air quality standards. These standards are the levels of air quality that are considered safe, with an adequate margin of safety, to protect the public health and welfare. National Ambient Air Quality Standards (NAAQS) and California Ambient Air Quality Standards (CAAQS) currently in effect are shown in Table 2-2 (7).

The determination of whether a region's air quality is healthful or unhealthful is determined by comparing contaminant levels in ambient air samples to the state and federal standards. At the time of this AQIA, the most recent state and federal standards were updated by CARB on May 4, 2016 and are presented in Table 2-2. The air quality in a region is considered to be in attainment by the state if the measured ambient air pollutant levels for O₃, CO, SO₂ (1 and 24 hour), NO₂, PM₁₀, and PM_{2.5} do not exceed standards. All others are not to be equaled or exceeded. It should be noted that the three-year period is presented for informational purposes and is not the basis for how the State assigns attainment status. Attainment status for a pollutant means that the SCAQMD meets the standards set by the Environmental Protection Agency (EPA) or the California EPA (CalEPA). Conversely, nonattainment means that an area has monitored air quality that does not meet the NAAQS or CAAQS standards. In order to improve air quality in nonattainment areas, CARB has implemented a State Implementation Plan (SIP). The SIP outlines the measures that the state will take to improve air quality. Once nonattainment areas meet the standards and additional redesignation requirements, the EPA will designate the area as a maintenance area (8).

TABLE 2-2: AMBIENT AIR QUALITY STANDARDS (1 OF 2)

Ambient Air Quality Standards							
Pollutant	Averaging Time	California Standards ¹		National Standards ²			
		Concentration ³	Method ⁴	Primary ^{3,5}	Secondary ^{3,8}	Method ⁷	
Ozone (O ₃) ⁸	1 Hour	0.09 ppm (180 µg/m ³)	Ultraviolet Photometry	—	Same as Primary Standard	Ultraviolet Photometry	
	8 Hour	0.070 ppm (137 µg/m ³)		0.070 ppm (137 µg/m ³)			
Respirable Particulate Matter (PM10) ⁹	24 Hour	50 µg/m ³	Gravimetric or Beta Attenuation	150 µg/m ³	Same as Primary Standard	Inertial Separation and Gravimetric Analysis	
	Annual Arithmetic Mean	20 µg/m ³		—			
Fine Particulate Matter (PM2.5) ⁹	24 Hour	—	—	35 µg/m ³	Same as Primary Standard	Inertial Separation and Gravimetric Analysis	
	Annual Arithmetic Mean	12 µg/m ³	Gravimetric or Beta Attenuation	12.0 µg/m ³			15 µg/m ³
Carbon Monoxide (CO)	1 Hour	20 ppm (23 mg/m ³)	Non-Dispersive Infrared Photometry (NDIR)	35 ppm (40 mg/m ³)	—	Non-Dispersive Infrared Photometry (NDIR)	
	8 Hour	9.0 ppm (10 mg/m ³)		9 ppm (10 mg/m ³)			
	8 Hour (Lake Tahoe)	6 ppm (7 mg/m ³)		—			
Nitrogen Dioxide (NO ₂) ¹⁰	1 Hour	0.18 ppm (339 µg/m ³)	Gas Phase Chemiluminescence	100 ppb (188 µg/m ³)	—	Gas Phase Chemiluminescence	
	Annual Arithmetic Mean	0.030 ppm (57 µg/m ³)		0.053 ppm (100 µg/m ³)			Same as Primary Standard
Sulfur Dioxide (SO ₂) ¹¹	1 Hour	0.25 ppm (655 µg/m ³)	Ultraviolet Fluorescence	75 ppb (196 µg/m ³)	—	Ultraviolet Fluorescence; Spectrophotometry (Pararosaniline Method)	
	3 Hour	—		—			0.5 ppm (1300 µg/m ³)
	24 Hour	0.04 ppm (105 µg/m ³)		0.14 ppm (for certain areas) ¹¹			—
	Annual Arithmetic Mean	—		0.030 ppm (for certain areas) ¹¹			—
Lead ^{12,13}	30 Day Average	1.5 µg/m ³	Atomic Absorption	—	—	High Volume Sampler and Atomic Absorption	
	Calendar Quarter	—		1.5 µg/m ³ (for certain areas) ¹²			Same as Primary Standard
	Rolling 3-Month Average	—		0.15 µg/m ³			
Visibility Reducing Particles ¹⁴	8 Hour	See footnote 14	Beta Attenuation and Transmittance through Filter Tape	No National Standards			
Sulfates	24 Hour	25 µg/m ³	Ion Chromatography				
Hydrogen Sulfide	1 Hour	0.03 ppm (42 µg/m ³)	Ultraviolet Fluorescence				
Vinyl Chloride ¹²	24 Hour	0.01 ppm (26 µg/m ³)	Gas Chromatography

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

TABLE 2-2: AMBIENT AIR QUALITY STANDARDS (2 OF 2)

1. California standards for ozone, carbon monoxide (except 8-hour Lake Tahoe), sulfur dioxide (1 and 24 hour), nitrogen dioxide, and particulate matter (PM10, PM2.5, and visibility reducing particles), are values that are not to be exceeded. All others are not to be equaled or exceeded. California ambient air quality standards are listed in the Table of Standards in Section 70200 of Title 17 of the California Code of Regulations.
2. National standards (other than ozone, particulate matter, and those based on annual arithmetic mean) are not to be exceeded more than once a year. The ozone standard is attained when the fourth highest 8-hour concentration measured at each site in a year, averaged over three years, is equal to or less than the standard. For PM10, the 24 hour standard is attained when the expected number of days per calendar year with a 24-hour average concentration above $150 \mu\text{g}/\text{m}^3$ is equal to or less than one. For PM2.5, the 24 hour standard is attained when 98 percent of the daily concentrations, averaged over three years, are equal to or less than the standard. Contact the U.S. EPA for further clarification and current national policies.
3. Concentration expressed first in units in which it was promulgated. Equivalent units given in parentheses are based upon a reference temperature of 25°C and a reference pressure of 760 torr. Most measurements of air quality are to be corrected to a reference temperature of 25°C and a reference pressure of 760 torr; ppm in this table refers to ppm by volume, or micromoles of pollutant per mole of gas.
4. Any equivalent measurement method which can be shown to the satisfaction of the ARB to give equivalent results at or near the level of the air quality standard may be used.
5. National Primary Standards: The levels of air quality necessary, with an adequate margin of safety to protect the public health.
6. National Secondary Standards: The levels of air quality necessary to protect the public welfare from any known or anticipated adverse effects of a pollutant.
7. Reference method as described by the U.S. EPA. An "equivalent method" of measurement may be used but must have a "consistent relationship to the reference method" and must be approved by the U.S. EPA.
8. On October 1, 2015, the national 8-hour ozone primary and secondary standards were lowered from 0.075 to 0.070 ppm.
9. On December 14, 2012, the national annual PM2.5 primary standard was lowered from $15 \mu\text{g}/\text{m}^3$ to $12.0 \mu\text{g}/\text{m}^3$. The existing national 24-hour PM2.5 standards (primary and secondary) were retained at $35 \mu\text{g}/\text{m}^3$, as was the annual secondary standard of $15 \mu\text{g}/\text{m}^3$. The existing 24-hour PM10 standards (primary and secondary) of $150 \mu\text{g}/\text{m}^3$ also were retained. The form of the annual primary and secondary standards is the annual mean, averaged over 3 years.
10. To attain the 1-hour national standard, the 3-year average of the annual 98th percentile of the 1-hour daily maximum concentrations at each site must not exceed 100 ppb. Note that the national 1-hour standard is in units of parts per billion (ppb). California standards are in units of parts per million (ppm). To directly compare the national 1-hour standard to the California standards the units can be converted from ppb to ppm. In this case, the national standard of 100 ppb is identical to 0.100 ppm.
11. On June 2, 2010, a new 1-hour SO_2 standard was established and the existing 24-hour and annual primary standards were revoked. To attain the 1-hour national standard, the 3-year average of the annual 99th percentile of the 1-hour daily maximum concentrations at each site must not exceed 75 ppb. The 1971 SO_2 national standards (24-hour and annual) remain in effect until one year after an area is designated for the 2010 standard, except that in areas designated nonattainment for the 1971 standards, the 1971 standards remain in effect until implementation plans to attain or maintain the 2010 standards are approved.
Note that the 1-hour national standard is in units of parts per billion (ppb). California standards are in units of parts per million (ppm). To directly compare the 1-hour national standard to the California standard the units can be converted to ppm. In this case, the national standard of 75 ppb is identical to 0.075 ppm.
12. The ARB has identified lead and vinyl chloride as 'toxic air contaminants' with no threshold level of exposure for adverse health effects determined. These actions allow for the implementation of control measures at levels below the ambient concentrations specified for these pollutants.
13. The national standard for lead was revised on October 15, 2008 to a rolling 3-month average. The 1978 lead standard ($1.5 \mu\text{g}/\text{m}^3$ as a quarterly average) remains in effect until one year after an area is designated for the 2008 standard, except that in areas designated nonattainment for the 1978 standard, the 1978 standard remains in effect until implementation plans to attain or maintain the 2008 standard are approved.
14. In 1989, the ARB converted both the general statewide 10-mile visibility standard and the Lake Tahoe 30-mile visibility standard to instrumental equivalents, which are "extinction of 0.23 per kilometer" and "extinction of 0.07 per kilometer" for the statewide and Lake Tahoe Air Basin standards, respectively.

For more information please call ARB-PIO at (916) 322-2990

California Air Resources Board (5/4/16)

2.6 REGIONAL AIR QUALITY

Air pollution contributes to a wide variety of adverse health effects. The EPA has established NAAQS for six of the most common air pollutants: CO, Pb, O₃, particulate matter (PM₁₀ and PM_{2.5}), NO₂, and SO₂ which are known as criteria pollutants. The SCAQMD monitors levels of various criteria pollutants at 37 permanent monitoring stations and 5 single-pollutant source Pb air monitoring sites throughout the air district (9). On February 21, 2019, CARB posted the 2018 amendments to the state and national area designations. See Table 2-3 for attainment designations for the SCAB (10). Appendix 2.1 provides geographic representation of the state and federal attainment status for applicable criteria pollutants within the SCAB.

TABLE 2-3: ATTAINMENT STATUS OF CRITERIA POLLUTANTS IN THE SCAB

Criteria Pollutant	State Designation	Federal Designation
O ₃ – 1-hour standard	Nonattainment	--
O ₃ – 8-hour standard	Nonattainment	Nonattainment
PM ₁₀	Nonattainment	Attainment
PM _{2.5}	Nonattainment	Nonattainment
CO	Attainment	Unclassifiable/Attainment
NO ₂	Attainment	Unclassifiable/Attainment
SO ₂	Unclassifiable/Attainment	Unclassifiable/Attainment
Pb ¹	Attainment	Unclassifiable/Attainment

Note: See Appendix 2.1 for a detailed map of State/National Area Designations within the SCAB
 "--" = The national 1-hour O₃ standard was revoked effective June 15, 2005.

2.7 LOCAL AIR QUALITY

The SCAQMD has designated general forecast areas and air monitoring areas (referred to as Source Receptor Areas [SRA]) throughout the district in order to provide Southern California residents about the air quality conditions. The Project site is located within the Perris Valley area (SRA 24). The Perris Valley monitoring station is located approximately 8.5 miles southeast of the Project site and reports air quality statistics for O₃ and PM₁₀. As the Perris Valley monitoring station does not include statistics for CO, NO₂, and PM_{2.5}, the next nearest station will be used. The Metropolitan Riverside County (SRA 23) monitoring station, located approximately 10.7 miles northwest of the Project, is the next nearest monitoring stations that reports air quality statistics for CO, NO₂, and PM_{2.5}. It should be noted that the Metropolitan Riverside County monitoring station was utilized in lieu of the Perris Valley monitoring station only in instances where data was not available.

The most recent three (3) years of data available is shown on Table 2-4 and identifies the number of days ambient air quality standards were exceeded for the study area, which is considered to be representative of the local air quality at the Project site. Data for O₃, CO, NO₂, PM₁₀, and PM_{2.5}

¹ The Federal nonattainment designation for lead is only applicable towards the Los Angeles County portion of the SCAB.

for 2017 through 2019 was obtained from the SCAQMD Air Quality Data Tables (11). Additionally, data for SO₂ has been omitted as attainment is regularly met in the SCAB and few monitoring stations measure SO₂ concentrations.

TABLE 2-4: PROJECT AREA AIR QUALITY MONITORING SUMMARY 2017-2019

Pollutant	Standard	Year		
		2017	2018	2019
O ₃				
Maximum Federal 1-Hour Concentration (ppm)		0.120	0.117	0.118
Maximum Federal 8-Hour Concentration (ppm)		0.105	0.103	0.095
Number of Days Exceeding State 1-Hour Standard	> 0.09 ppm	33	31	26
Number of Days Exceeding State/Federal 8-Hour Standard	> 0.070 ppm	80	67	64
CO				
Maximum Federal 1-Hour Concentration	> 35 ppm	1.9	2.2	1.5
Maximum Federal 8-Hour Concentration	> 20 ppm	1.7	2.0	1.2
NO ₂				
Maximum Federal 1-Hour Concentration	> 0.100 ppm	0.063	0.055	0.056
Annual Federal Standard Design Value		0.015	0.014	0.014
PM ₁₀				
Maximum Federal 24-Hour Concentration (µg/m ³)	> 150 µg/m ³	75	64	97
Annual Federal Arithmetic Mean (µg/m ³)		32.2	29.7	25.3

Annual Federal Arithmetic Mean (µg/m ³)	> 12 µg/m ³	12.18	12.41	11.13
Number of Days Exceeding Federal 24-Hour Standard	> 35 µg/m ³	6	2	4

ppm= Parts Per Million

Source: Data for O₃, CO, NO₂, PM₁₀, and PM_{2.5} was obtained from SCAQMD Air Quality Data Tables.

2.8 REGULATORY BACKGROUND

2.8.1 FEDERAL REGULATIONS

The EPA is responsible for setting and enforcing the NAAQS for O₃, CO, NO_x, SO₂, PM₁₀, and Pb (12). The EPA has jurisdiction over emissions sources that are under the authority of the federal government including aircraft, locomotives, and emissions sources outside state waters (Outer Continental Shelf). The EPA also establishes emission standards for vehicles sold in states other than California. Automobiles sold in California must meet the stricter emission requirements of CARB.

The Federal Clean Air Act (CAA) was first enacted in 1955 and has been amended numerous times in subsequent years (1963, 1965, 1967, 1970, 1977, and 1990). The CAA establishes the federal air quality standards, the NAAQS, and specifies future dates for achieving compliance (13). The CAA also mandates that states submit and implement SIPs for local areas not meeting these standards. These plans must include pollution control measures that demonstrate how the standards will be met.

The 1990 amendments to the CAA that identify specific emission reduction goals for areas not meeting the NAAQS require a demonstration of reasonable further progress toward attainment and incorporate additional sanctions for failure to attain or to meet interim milestones. The sections of the CAA most directly applicable to the development of the Project site include Title I (Non-Attainment Provisions) and Title II (Mobile Source Provisions) (14) (15). Title I provisions were established with the goal of attaining the NAAQS for the following criteria pollutants O₃, NO₂, SO₂, PM₁₀, CO, PM_{2.5}, and Pb. The NAAQS were amended in July 1997 to include an additional standard for O₃ and to adopt a NAAQS for PM_{2.5}. Table 2-3 (previously presented) provides the NAAQS within the SCAB.

Mobile source emissions are regulated in accordance with Title II provisions. These provisions require the use of cleaner burning gasoline and other cleaner burning fuels such as methanol and natural gas. Automobile manufacturers are also required to reduce tailpipe emissions of hydrocarbons and NO_x. NO_x is a collective term that includes all forms of NO_x which are emitted as byproducts of the combustion process.

2.8.2 CALIFORNIA REGULATIONS

CARB

CARB, which became part of the CalEPA in 1991, is responsible for ensuring implementation of the California Clean Air Act (AB 2595), responding to the federal CAA, and for regulating emissions from consumer products and motor vehicles. AB 2595 mandates achievement of the maximum degree of emissions reductions possible from vehicular and other mobile sources in order to attain the state ambient air quality standards by the earliest practical date. CARB established the CAAQS for all pollutants for which the federal government has NAAQS and, in addition, establishes standards for SO₄, visibility, hydrogen sulfide (H₂S), and vinyl chloride (C₂H₃Cl). However, at this time, H₂S and C₂H₃Cl are not measured at any monitoring stations in the SCAB because they are not considered to be a regional air quality problem. Generally, the CAAQS are more stringent than the NAAQS (16) (12).

Local air quality management districts, such as the SCAQMD, regulate air emissions from stationary sources such as commercial and industrial facilities. All air pollution control districts have been formally designated as attainment or non-attainment for each CAAQS.

Serious non-attainment areas are required to prepare Air Quality Management Plans (AQMP) that include specified emission reduction strategies in an effort to meet clean air goals. These plans are required to include:

- Application of Best Available Retrofit Control Technology to existing sources;

- Developing control programs for area sources (e.g., architectural coatings and solvents) and indirect sources (e.g. motor vehicle use generated by residential and commercial development);
- A District permitting system designed to allow no net increase in emissions from any new or modified permitted sources of emissions;
- Implementing reasonably available transportation control measures and assuring a substantial reduction in growth rate of vehicle trips and miles traveled;
- Significant use of low emissions vehicles by fleet operators;
- Sufficient control strategies to achieve a 5% or more annual reduction in emissions or 15% or more in a period of three years for ROG_s, NO_x, CO and PM₁₀. However, air basins may use alternative emission reduction strategy that achieves a reduction of less than 5% per year under certain circumstances.

TITLE 24 ENERGY EFFICIENCY STANDARDS AND CALIFORNIA GREEN BUILDING STANDARDS

California Code of Regulations (CCR) Title 24 Part 6: The California Energy Code was first adopted in 1978 in response to a legislative mandate to reduce California's energy consumption.

The standards are updated periodically to allow consideration and possible incorporation of new energy efficient technologies and methods. CCR, Title 24, Part 11: California Green Building Standards Code (CALGreen) is a comprehensive and uniform regulatory code for all residential, commercial, and school buildings that went in effect on January 1, 2009, and is administered by the California Building Standards Commission.

CALGreen is updated on a regular basis, with the most recent approved update consisting of the 2019 California Green Building Code Standards that became effective January 1, 2020.

Local jurisdictions are permitted to adopt more stringent requirements, as state law provides methods for local enhancements. CALGreen recognizes that many jurisdictions have developed existing construction waste and demolition ordinances and defers to them as the ruling guidance provided they establish a minimum 65% diversion requirement.

The code also provides exemptions for areas not served by construction waste and demolition recycling infrastructure. The State Building Code provides the minimum standard that buildings must meet in order to be certified for occupancy, which is generally enforced by the local building official.

Energy efficient buildings require less electricity; therefore, increased energy efficiency reduces fossil fuel consumption and decreases greenhouse gas (GHG) emissions. The 2019 version of Title 24 was adopted by the California Energy Commission (CEC) and became effective on January 1, 2020.

The 2019 Title 24 standards will result in less energy use, thereby reducing air pollutant emissions associated with energy consumption in the SCAB and across the State of California. For example, the 2019 Title 24 standards require solar photovoltaic systems for new homes, establish requirements for newly constructed healthcare facilities, encourage demand responsive technologies for residential buildings, and update indoor and outdoor lighting requirements for nonresidential buildings.

The CEC anticipates that single-family homes built with the 2019 standards will use approximately 7% less energy compared to the residential homes built under the 2016 standards. Additionally, after implementation of solar photovoltaic systems, homes built under the 2019 standards will use about 53% less energy than homes built under the 2016 standards. Nonresidential buildings (such as the Project) will use approximately 30% less energy due to lighting upgrade requirements (18).

Because the Project will be constructed after January 1, 2020, the 2019 CALGreen standards are applicable to the Project and require, among other items (19):

- Short-term bicycle parking. If the new project or an additional alteration is anticipated to generate visitor traffic, provide permanently anchored bicycle racks within 200 feet of the visitors' entrance, readily visible to passers-by, for 5% of new visitor motorized vehicle parking spaces being added, with a minimum of one two-bike capacity rack (5.106.4.1.1).
- Long-term bicycle parking. For new buildings with tenant spaces that have 10 or more tenant-occupants, provide secure bicycle parking for 5% of the tenant-occupant vehicular parking spaces with a minimum of one bicycle parking facility (5.106.4.1.2).
- Designated parking for clean air vehicles. In new projects or additions to alterations that add 10 or more vehicular parking spaces, provide designated parking for any combination of low-emitting, fuel-efficient and carpool/van pool vehicles as shown in Table 5.106.5.2 (5.106.5.2).
- Electric vehicle (EV) charging stations. New construction shall facilitate the future installation of EV supply equipment. The compliance requires empty raceways for future conduit and documentation that the electrical system has adequate capacity for the future load. The number of spaces to be provided for is contained in Table 5.106. 5.3.3 (5.106.5.3).
- Outdoor light pollution reduction. Outdoor lighting systems shall be designed to meet the backlight, upright and glare ratings per Table 5.106.8 (5.106.8)
- Construction waste management. Recycle and/or salvage for reuse a minimum of 65% of the nonhazardous construction and demolition waste in accordance with Section
- 5.408.1.1. 5.405.1.2, or 5.408.1.3; or meet a local construction and demolition waste management ordinance, whichever is more stringent (5.408.1).
- Excavated soil and land clearing debris. 100% of trees, stumps, rocks and associated vegetation and soils resulting primarily from land clearing shall be reused or recycled. For a phased project, such material may be stockpiled on site until the storage site is developed (5.408.3).
- Recycling by Occupants. Provide readily accessible areas that serve the entire building and are identified for the depositing, storage and collection of non-hazardous materials for recycling, including (at a minimum) paper, corrugated cardboard, glass, plastics, organic waste, and metals or meet a lawfully enacted local recycling ordinance, if more restrictive (5.410.1).
- Water conserving plumbing fixtures and fittings. Plumbing fixtures (water closets and urinals) and fittings (faucets and showerheads) shall comply with the following:
 - Water Closets. The effective flush volume of all water closets shall not exceed 1.28 gallons per flush (5.303.3.1)
 - Urinals. The effective flush volume of wall-mounted urinals shall not exceed 0.125 gallons per flush (5.303.3.2.1). The effective flush volume of floor-mounted or other urinals shall not exceed 0.5 gallons per flush (5.303.3.2.2).

- Showerheads. Single showerheads shall have a minimum flow rate of not more than 1.8 gallons per minute and 80 psi (5.303.3.3.1). When a shower is served by more than one showerhead, the combine flow rate of all showerheads and/or other shower outlets controlled by a single valve shall not exceed 1.8 gallons per minute at 80 psi (5.303.3.3.2).
- Faucets and fountains. Nonresidential lavatory faucets shall have a maximum flow rate of not more than 0.5 gallons per minute at 60 psi (5.303.3.4.1). Kitchen faucets shall have a maximum flow rate of not more than 1.8 gallons per minute of 60 psi (5.303.3.4.2). Wash fountains shall have a maximum flow rate of not more than 1.8 gallons per minute (5.303.3.4.3). Metering faucets shall not deliver more than 0.20 gallons per cycle (5.303.3.4.4). Metering faucets for wash fountains shall have a maximum flow rate not more than 0.20 gallons per cycle (5.303.3.4.5).
- Outdoor portable water use in landscaped areas. Nonresidential developments shall comply with a local water efficient landscape ordinance or the current California Department of Water Resources' Model Water Efficient (MWELO), whichever is more stringent (5.304.1).
- Water meters. Separate submeters or metering devices shall be installed for new buildings or additions in excess of 50,000 sf or for excess consumption where any tenant within a new building or within an addition that is project to consume more than 1,000 gallons per day (5.303.1.1 and 5.303.1.2).
- Outdoor water use in rehabilitated landscape projects equal or greater than 2,500 sf. Rehabilitated landscape projects with an aggregate landscape area equal to or greater than 2,500 sf requiring a building or landscape permit (5.304.3).
- Commissioning. For new buildings 10,000 sf and over, building commissioning shall be included in the design and construction processes of the building project to verify that the building systems and components meet the owner's or owner representative's project requirements (5.410.2).

2.8.3 AQMP

Currently, the NAAQS and CAAQS are exceeded in most parts of the SCAB. In response, the SCAQMD has adopted a series of AQMP to meet the state and federal ambient air quality standards (17). AQMPs are updated regularly in order to more effectively reduce emissions, accommodate growth, and to minimize any negative fiscal impacts of air pollution control on the economy. A detailed discussion on the AQMP and Project consistency with the AQMP is provided in Section 3.10.

2.9 REGIONAL AIR QUALITY IMPROVEMENT

The Project is within the jurisdiction of the SCAQMD. In 1976, California adopted the Lewis Air Quality Management Act which created SCAQMD from a voluntary association of air pollution control districts in Los Angeles, Orange, Riverside, and San Bernardino counties. The geographic area of which SCAQMD consists is known as the SCAB. SCAQMD develops comprehensive plans and regulatory programs for the region to attain federal standards by dates specified in federal law. The agency is also responsible for meeting state standards by the earliest date achievable, using reasonably available control measures.

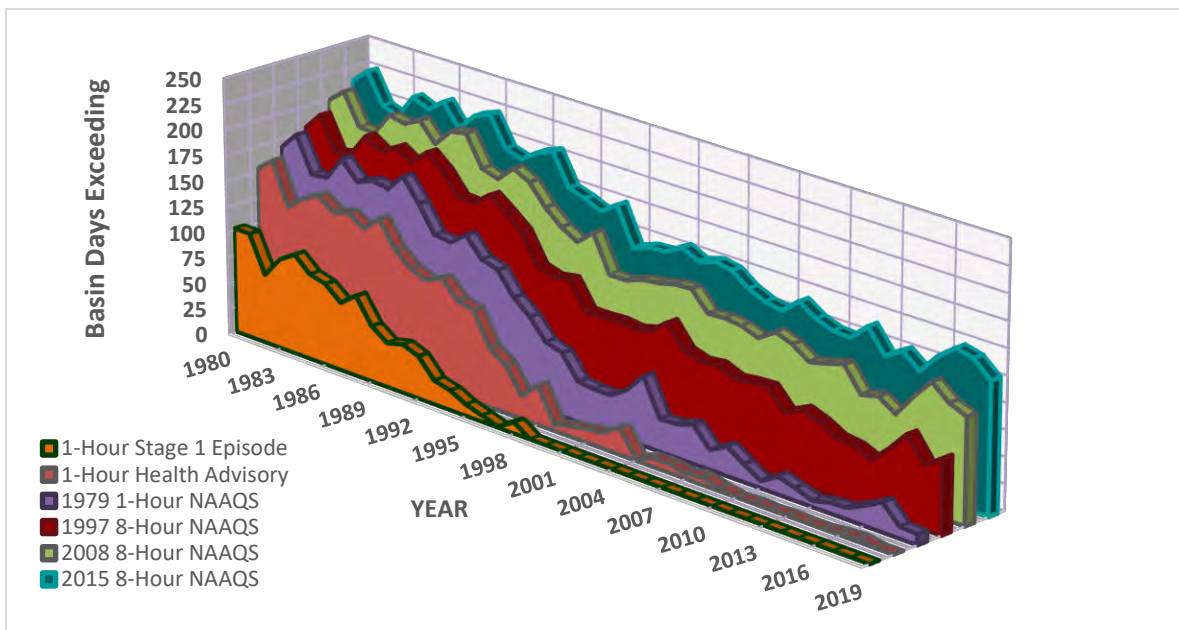

SCAQMD rule development through the 1970s and 1980s resulted in dramatic improvement in SCAB air quality. Nearly all control programs developed through the early 1990s relied on (i) the

development and application of cleaner technology; (ii) add-on emission controls, and (iii) uniform CEQA review throughout the SCAB. Industrial emission sources have been significantly reduced by this approach and vehicular emissions have been reduced by technologies implemented at the state level by CARB.

As discussed above, the SCAQMD is the lead agency charged with regulating air quality emission reductions for the entire SCAB. SCAQMD created AQMPs which represent a regional blueprint for achieving healthful air on behalf of the 16 million residents of the SCAB. The 2012 AQMP states, “the remarkable historical improvement in air quality since the 1970’s is the direct result of Southern California’s comprehensive, multiyear strategy of reducing air pollution from all sources as outlined in its AQMPs,” (18).

Emissions of O₃, NO_x, VOC, and CO have been decreasing in the SCAB since 1975 and are projected to continue to decrease through 2020 (19). These decreases result primarily from motor vehicle controls and reductions in evaporative emissions. Although vehicle miles traveled (VMT) in the SCAB continue to increase, NO_x and VOC levels are decreasing because of the mandated controls on motor vehicles and the replacement of older polluting vehicles with lower-emitting vehicles. NO_x emissions from electric utilities have also decreased due to use of cleaner fuels and renewable energy. O₃ contour maps show that the number of days exceeding the 8-hour NAAQS has generally decreased between 1980 and 2019. For 2019, there was an overall decrease in exceedance days compared with the 1980 period. However, as shown on Table 2-5, O₃ levels have increased in the past three years due to higher temperatures and stagnant weather conditions. Notwithstanding, O₃ levels in the SCAB have decreased substantially over the last 30 years with the current maximum measured concentrations being approximately one-third of concentrations within the late 70’s (20).

TABLE 2-5: SCAB O₃ TREND

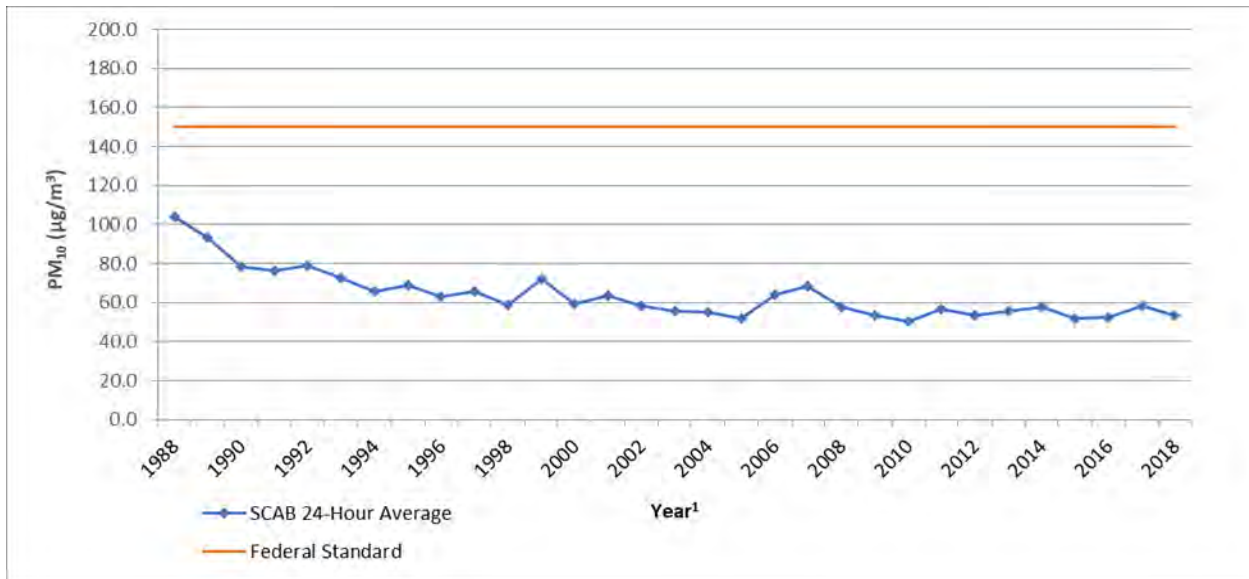

Source: 2020 SCAQMD, Historical O₃ Air Quality Trends (1976-2018)

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

The overall trends of PM₁₀ and PM_{2.5} levels in the air (not emissions) show an overall improvement since 1975. Direct emissions of PM₁₀ have remained somewhat constant in the SCAB and direct emissions of PM_{2.5} have decreased slightly since 1975. Area wide sources (fugitive dust from roads, dust from construction and demolition, and other sources) contribute the greatest amount of direct particulate matter emissions.

As with other pollutants, the most recent PM₁₀ statistics show an overall improvement as illustrated in Tables 2-6 and 2-7. During the period for which data are available, the 24-hour national annual average concentration for PM₁₀ decreased by approximately 48%, from 103.7 microgram per cubic meter (µg/m³) in 1988 to 53.5 µg/m³ in 2018 (21). Although the values are below the federal standard, it should be noted that there are days within the year where the concentrations will exceed the threshold. The 24-hour state annual average for emissions for PM₁₀, have decreased by approximately 53% since 1988 (21). Although data in the late 1990's show some variability, this is probably due to the advances in meteorological science rather than a change in emissions. Similar to the ambient concentrations, the calculated number of days above the 24-hour PM₁₀ standards has also shown an overall drop.

¹ Some year have been omitted from the table as insufficient data (or no) data has been reported. Years with reported value of "0" have also been omitted.

Tables 2-8 and 2-9 shows the most recent 24-hour average PM_{2.5} concentrations in the SCAB from 1999 through 2018. Overall, the national and state annual average concentrations have decreased by almost 52% and 33% respectively (21). It should be noted that the SCAB is currently designated as nonattainment for the state and federal PM_{2.5} standards.

TABLE 2-9: SCAB ANNUAL AVERAGE CONCENTRATION PM_{2.5} TREND (BASED ON STATE STANDARD)¹

Source: 2020 CARB, iADAM: Top Four Summary: PM_{2.5} 24-Hour Averages (1999-2018)

¹ Some year have been omitted from the table as insufficient data (or no) data has been reported. Years with reported value of "0" have also been omitted.

While the 2012 AQMP PM₁₀ attainment demonstration and the 2015 associated supplemental SIP submission indicated that attainment of the 24-hour standard was predicted to occur by the end of 2015, it could not anticipate the effect of the ongoing drought on the measured PM_{2.5}.

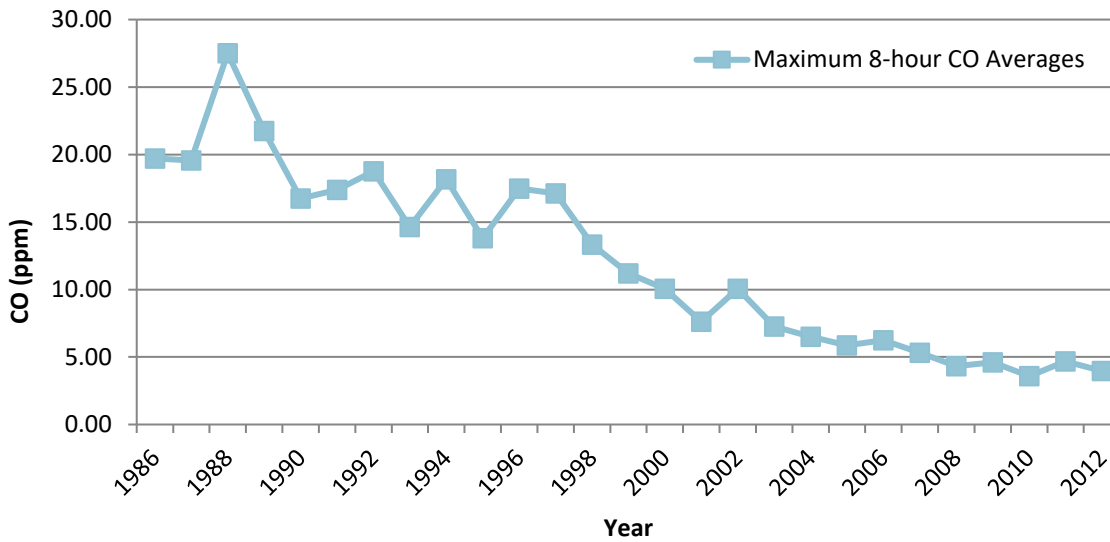

The 2006 to 2010 base period used for the 2012 attainment demonstration had near-normal rainfall. While the trend of PM_{2.5}-equivalent emission reductions continued through 2015, the severe drought conditions contributed to the PM_{2.5} increases observed after 2012. As a result of the disrupted progress toward attainment of the federal 24-hour PM_{2.5} standard, SCAQMD submitted a request and the EPA approved, in January 2016, a "bump up" to the nonattainment classification from "moderate" to "serious," with a new attainment deadline as soon as practicable, but not beyond December 31, 2019. As of March 14, 2019, the EPA approved portions of a SIP revision submitted by California to address CAA requirements for the 2006 24-hour PM_{2.5} NAAQS in the Los Angeles-SCAB Serious PM_{2.5} nonattainment area. The EPA also approved 2017 and 2019 motor vehicle emissions budgets for transportation conformity purposes and inter-pollutant trading ratios for use in transportation conformity analyses (22).

In March 2017, the SCAQMD released the Final 2016 AQMP. The 2016 AQMP continues to evaluate current integrated strategies and control measures to meet the NAAQS, as well as, explore new and innovative methods to reach its goals. Some of these approaches include utilizing incentive programs, recognizing existing co-benefit programs from other sectors, and developing a strategy with fair-share reductions at the federal, state, and local levels (23). Similar to the 2012 AQMP, the 2016 AQMP incorporates scientific and technological information and planning assumptions, including the 2016-2040 Regional Transportation Plan/Sustainable Communities Strategy (2016-2040 RTP/SCS) and updated emission inventory methodologies for various source categories (17).

The 2022 AQMP is currently being developed by SCAQMD to address the EPA’s strengthened ozone standard. Development of the 2022 AQMP is in its early stages and no formal timeline for completion and adoption is currently known.

The most recent CO concentrations in the SCAB are shown in Table 2-10 (21). CO concentrations in the SCAB have decreased markedly — a total decrease of more about 80% in the peak 8-hour concentration from 1986 to 2012. It should be noted 2012 is the most recent year where 8-hour CO averages and related statistics are available in the SCAB. The number of exceedance days has also declined. The entire SCAB is now designated as attainment for both the state and national CO standards. Ongoing reductions from motor vehicle control programs should continue the downward trend in ambient CO concentrations.

TABLE 2-10: SCAB 8-HOUR AVERAGE CONCENTRATION CO TREND¹

Source: 2020 CARB, iADAM: Top Four Summary: CO 8-Hour Averages (1999-2018)

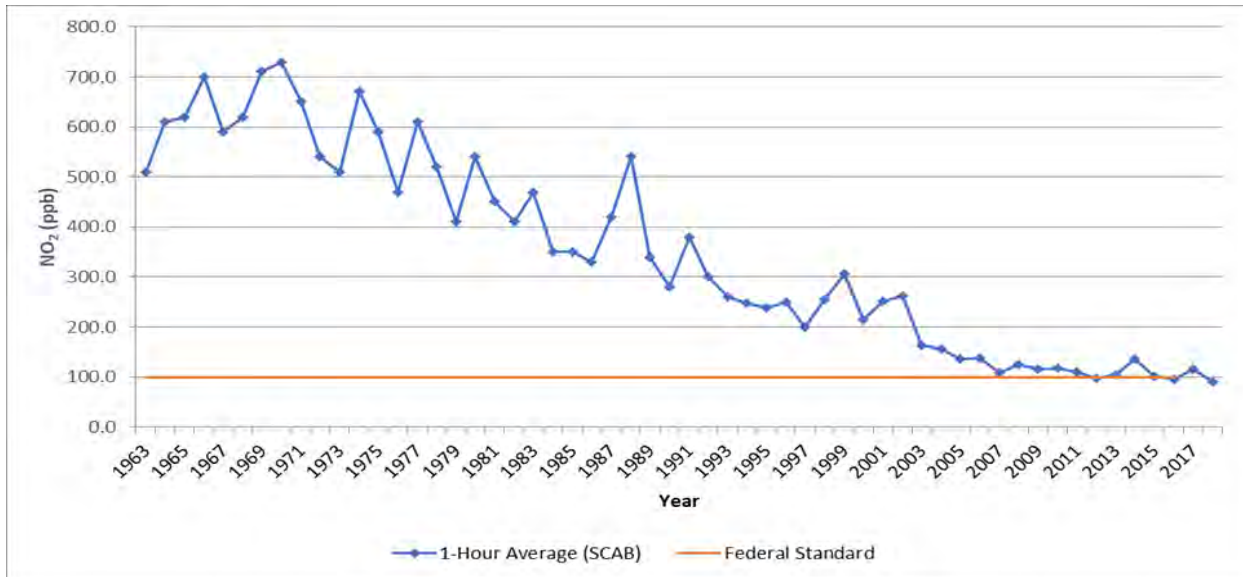

¹ The most recent year where 8-hour concentration data is available is 2012.

Part of the control process of the SCAQMD’s duty to greatly improve the air quality in the SCAB is the uniform CEQA review procedures required by SCAQMD’s *CEQA Air Quality Handbook (1993) (1993 CEQA Handbook)* (24). The single threshold of significance used to assess Project direct and cumulative impacts has in fact “worked” as evidenced by the track record of the air quality in the SCAB dramatically improving over the course of the past decades. As stated by the SCAQMD, the District’s thresholds of significance are based on factual and scientific data and are therefore appropriate thresholds of significance to use for this Project.

The most recent NO₂ data for the SCAB is shown in Tables 2-11 and 2-12 (21). Over the last 50 years, NO₂ values have decreased significantly; the peak 1-hour national and state averages for 2018 is approximately 82% lower than what it was during 1963. The SCAB attained the State 1-hour NO₂ standard in 1994, bringing the entire state into attainment. A new state annual average standard of 0.030 ppm was adopted by the ARB in February 2007 (25). The new standard is just barely exceeded in the SCAQMD. NO₂ is formed from NO_x emissions, which also contribute to O₃.

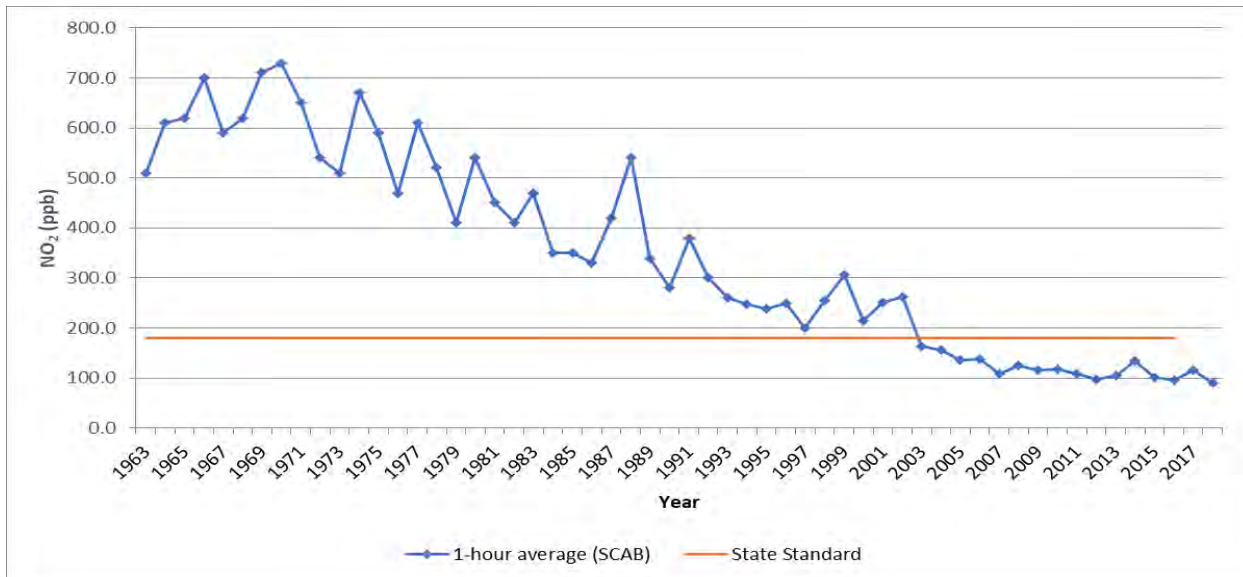

As a result, the majority of the future emission control measures will be implemented as part of the overall O₃ control strategy. Many of these control measures will target mobile sources, which account for more than three-quarters of California’s NO_x emissions. These measures are expected to bring the SCAQMD into attainment of the state annual average standard.

2.9.1 TOXIC AIR CONTAMINANTS (TAC) TRENDS

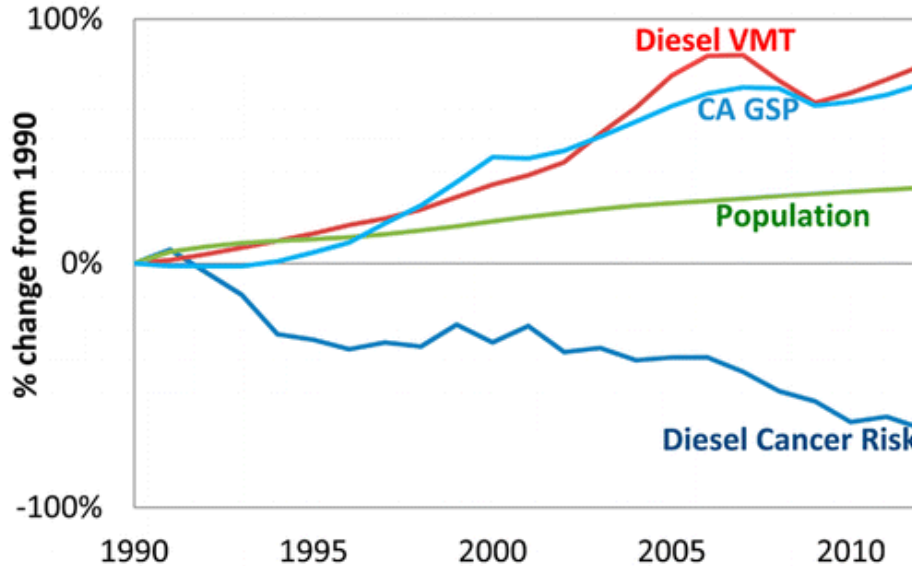

In 1984, as a result of public concern for exposure to airborne carcinogens, CARB adopted regulations to reduce the amount of TAC emissions resulting from mobile and area sources, such as cars, trucks, stationary products, and consumer products. According to the *Ambient and Emission Trends of Toxic Air Contaminants in California* journal article (26) which was prepared for CARB, results show that between 1990-2012, ambient concentration and emission trends for the seven TACs responsible for most of the known cancer risk associated with airborne exposure in California have declined significantly (between 1990 and 2012). The seven TACs studied include those that are derived from mobile sources: diesel particulate matter (DPM), benzene (C₆H₆), and 1,3-butadiene (C₄H₆); those that are derived from stationary sources: perchloroethylene (C₂Cl₄) and hexavalent chromium (Cr(VI)); and those derived from photochemical reactions of emitted VOCs: formaldehyde (CH₂O) and acetaldehyde (C₂H₄O)². The decline in ambient concentration and emission trends of these TACs are a result of various regulations CARB has implemented to address cancer risk.

MOBILE SOURCE TACS

CARB introduced two programs that aimed at reducing mobile emissions for light and medium duty vehicles through vehicle emissions controls and cleaner fuel. In California, light-duty vehicles sold after 1996 are equipped with California's second-generation On-Board Diagnostic (OBD-II) system. The OBD-II system monitors virtually every component that can affect the emission performance of the vehicle to ensure that the vehicle remains as clean as possible over its entire life and assists repair technicians in diagnosing and fixing problems with the computerized engine controls. If a problem is detected, the OBD-II system illuminates a warning lamp on the vehicle instrument panel to alert the driver. This warning lamp typically contains the phrase "Check Engine" or "Service Engine Soon". The system will also store important information about the detected malfunction so that a repair technician can accurately find and fix the problem. CARB has recently developed similar OBD requirements for heavy-duty vehicles over 14,000 pounds (lbs). CARB's phase II Reformulated Gasoline Regulation (RFG-2), adopted in 1996, also led to a reduction of mobile source emissions. Through such regulations, benzene levels declined 88% from 1990-2012. 1,3-Butadiene concentrations also declined 85% from 1990-2012 as a result of the use of reformulated gasoline and motor vehicle regulations (26).

In 2000, CARB's Diesel Risk Reduction Plan (DRRP) recommended the replacement and retrofit of diesel-fueled engines and the use of ultra-low-sulfur (<15 ppm) diesel fuel. As a result of these measures, DPM concentrations have declined 68% since 2000, even though the state's population increased 31% and the amount of diesel vehicles miles traveled increased 81%, as shown on Exhibit 2-B. With the implementation of these diesel-related control regulations, CARB expects a DPM decline of 71% for 2000-2020.

² It should be noted that ambient DPM concentrations are not measured directly. Rather, a surrogate method using the coefficient of haze (COH) and elemental carbon (EC) is used to estimate DPM concentrations.

EXHIBIT 2-A: DPM AND DIESEL VEHICLE MILES TREND**California Population, Gross State Product (GSP),
Diesel Cancer Risk, Diesel Vehicle-Miles-Traveled (VMT)**

Source: 2020 CARB

DIESEL REGULATIONS

CARB and the Ports of Los Angeles and Long Beach (POLA and POLB) have adopted several iterations of regulations for diesel trucks that are aimed at reducing DPM. More specifically, CARB Drayage Truck Regulation (27), CARB statewide On-road Truck and Bus Regulation (28), and the Ports of Los Angeles and Long Beach Clean Truck Program (CTP) require accelerated implementation of “clean trucks” into the statewide truck fleet (29). In other words, older more polluting trucks will be replaced with newer, cleaner trucks as a function of these regulatory requirements.

Moreover, the average statewide DPM emissions for Heavy Duty Trucks (HDT), in terms of grams of DPM generated per mile traveled, will dramatically be reduced due to the aforementioned regulatory requirements.

Diesel emissions identified in this analysis would therefore overstate future DPM emissions since not all the regulatory requirements are reflected in the modeling.

CANCER RISK TRENDS

Based on information available from CARB, overall cancer risk throughout the SCAB has had a declining trend since 1990. In 1998, following an exhaustive 10-year scientific assessment process, CARB identified particulate matter from diesel-fueled engines as a toxic air contaminant. The SCAQMD initiated a comprehensive urban toxic air pollution study called the Multiple Air Toxics Exposure Study (MATES). DPM accounts for more than 70% of the cancer risk.

In 2008 the SCAQMD prepared an update to the MATES-II study, referred to as MATES-III. MATES-III estimates the average excess cancer risk level from exposure to TACs is an approximately 17% decrease in comparison to the MATES-II study.

In 2015, the SCAQMD published an in-depth analysis of the toxic air contaminants and the resulting health risks for all of Southern California. The *Multiple Air Toxics Exposure Study in the SCAB, MATES IV* shows that cancer risk decreased less than 50% between 2005 and 2015 (30).

MATES-IV study represents the baseline health risk for a cumulative analysis. MATES-IV calculated cancer risks based on monitoring data collected at ten fixed sites within the SCAB. None of the fixed monitoring sites are within the local area of the Project site. However, MATES-IV has extrapolated the excess cancer risk levels throughout the SCAB by modeling the specific grids. MATES-IV modeling predicted an excess cancer risk of 587.29 in one million for the geographic grid containing the Project site. DPM is included in this cancer risk along with all other TAC sources. DPM accounts for 68% of the total risk shown in MATES-IV. Cumulative Project generated TACs are limited to DPM.

In January 2018, as part of the overall effort to reduce air toxics exposure in the SCAB, SCAQMD began conducting the MATES V Program. MATES V field measurements were conducted at ten fixed sites (the same sites selected for MATES III and IV) to assess trends in air toxics levels. MATES V also included measurements of ultrafine particles (UFP) and black carbon (BC) concentrations, which can be compared to the UFP levels measured in MATES IV (31). The final report for the MATES V study was expected to be available in Fall 2019, however it is not yet available and no definitive date for its release has been provided by SCAQMD.

3 PROJECT AIR QUALITY IMPACT

3.1 INTRODUCTION

This study quantifies air quality emissions generated by construction and operation of the Project and addresses whether the Project conflicts with implementation of the SCAQMD's AQMP. The analysis of Project-generated air emissions determines whether the Project would result in a cumulatively considerable net increase of any criteria pollutant for which the SCAB is in non-attainment under an applicable NAAQS and CAAQS. Additionally, the Project has been evaluated to determine whether the Project would expose sensitive receptors to substantial pollutant concentrations and the impacts of odors. The significance of these potential impacts is described in the following section.

3.2 STANDARDS OF SIGNIFICANCE

The criteria used to determine the significance of potential Project-related air quality impacts are taken from the *CEQA Guidelines* (14 CCR §§15000, et seq.). Based on these thresholds, a project would result in a significant impact related to air quality if it would (1):

- Conflict with or obstruct implementation of the applicable air quality plan.
- Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is in non-attainment under an applicable federal or state ambient air quality standard.
- Expose sensitive receptors to substantial pollutant concentrations.
- Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people.

The SCAQMD has also developed regional significance thresholds for other regulated pollutants, as summarized at Table 3-1 (32). The SCAQMD's *CEQA Air Quality Significance Thresholds* (April 2019) indicate that any projects in the SCAB with daily emissions that exceed any of the indicated thresholds should be considered as having an individually and cumulatively significant air quality impact.

TABLE 3-1: MAXIMUM DAILY REGIONAL EMISSIONS THRESHOLDS

Pollutant	Regional Construction Threshold	Regional Operational Thresholds
NO _x	100 lbs/day	55 lbs/day
VOC	75 lbs/day	55 lbs/day
PM ₁₀	150 lbs/day	150 lbs/day
PM _{2.5}	55 lbs/day	55 lbs/day
SO _x	150 lbs/day	150 lbs/day
CO	550 lbs/day	550 lbs/day
Pb	3 lbs/day	3 lbs/day

lbs/day = Pounds Per Day

3.3 MODELS EMPLOYED TO ANALYZE AIR QUALITY

3.3.1 CALIFORNIA EMISSIONS ESTIMATOR MODEL (CALEEMOD)

Land uses such as the Project affect air quality through construction-source and operational-source emissions.

On October 17, 2017, the SCAQMD in conjunction with the California Air Pollution Control Officers Association (CAPCOA) and other California air districts, released the latest version of the CalEEMod Version 2016.3.2. The purpose of this model is to calculate construction-source and operational-source criteria pollutant (VOCs, NO_x, SO_x, CO, PM₁₀, and PM_{2.5}) and GHG emissions from direct and indirect sources; and quantify applicable air quality and GHG reductions achieved from MMs (33). Accordingly, the latest version of CalEEMod has been used for this Project to determine construction and operational air quality emissions. Output from the model runs for both construction and operational activity are provided in Appendices 3.1 through 3.3.

3.3.2 EMISSION FACTORS MODEL

On August 19, 2019, the EPA approved the 2017 version of the EMISSIONS FACTOR model (EMFAC) web database for use in SIP and transportation conformity analyses. EMFAC2017 is a mathematical model that was developed to calculate emission rates, fuel consumption, VMT from motor vehicles that operate on highways, freeways, and local roads in California and is commonly used by the CARB to project changes in future emissions from on-road mobile sources (34). This AQIA utilizes summer, winter, and annual EMFAC2017 emission factors in order to derive vehicle emissions associated with Project operational activities, which vary by season.

Because the EMFAC2017 emission rates are associated with vehicle fuel types while CalEEMod vehicle emission factors are aggregated to include all fuel types for each individual vehicle class, the EMFAC2017 emission rates for different fuel types of a vehicle class are averaged by activity or by population and activity to derive CalEEMod emission factors. The equations applied to obtain CalEEMod vehicle emission factors for each emission type are detailed in CalEEMod User's Guide *Appendix A: Calculation Details for CalEEMod* (35).

3.4 CONSTRUCTION EMISSIONS

3.4.1 CONSTRUCTION ACTIVITIES

Construction activities associated with the Project will result in emissions of VOCs, NO_x, SO_x, CO, PM₁₀, and PM_{2.5}. Construction related emissions are expected from the following construction activities:

- Site Preparation
- Grading
- Building Construction
- Paving
- Architectural Coating

GRADING ACTIVITIES

Dust is typically a major concern during grading activities. Because such emissions are not amenable to collection and discharge through a controlled source, they are called “fugitive emissions”. Fugitive dust emissions rates vary as a function of many parameters (soil silt, soil moisture, wind speed, area disturbed, number of vehicles, depth of disturbance or excavation, etc.). CalEEMod was utilized to calculate fugitive dust emissions resulting from this phase of activity. This analysis assumes that earthwork activities are expected to balance on site and no import or export of soils would be required.

CONSTRUCTION WORKER VEHICLE TRIPS

Construction emissions for construction worker vehicles traveling to and from the Project site, as well as vendor trips (construction materials delivered to the Project site) were estimated based on information from CalEEMod model defaults.

3.4.2 CONSTRUCTION DURATION

Construction is expected to commence in October 2021 and will last through June 2022. The construction schedule utilized in the analysis, shown in Table 3-2, represents a “worst-case” analysis scenario should construction occur any time after the respective dates since emission factors for construction decrease as time passes and the analysis year increases due to emission regulations becoming more stringent.³ The duration of construction activity and associated equipment represents a reasonable approximation of the expected construction fleet as required per *CEQA Guidelines* (1). The duration of construction activity was based on the 2022 opening year.

TABLE 3-2: CONSTRUCTION DURATION

Phase Name	Start Date	End Date	Days
Site Preparation	10/04/2021	10/15/2021	10
Grading	10/16/2021	11/26/2021	30
Building Construction	11/27/2021	06/24/2022	150
Paving	05/28/2022	06/24/2022	20
Architectural Coating	05/01/2022	06/24/2022	40

Source: Construction activity based the 2022 opening year.

3.4.3 CONSTRUCTION EQUIPMENT

Consistent with industry standards and typical construction practices, each piece of equipment listed in Table 3-3 will operate up to a total of eight (8) hours per day, or more than two-thirds of the period during which construction activities are allowed pursuant to the code. It should be

³ As shown in the CalEEMod User’s Guide Version 2016.3.2, Section 4.3 “OFFROAD Equipment” as the analysis year increases, emission factors for the same equipment pieces decrease due to the natural turnover of older equipment being replaced by newer less polluting equipment and new regulatory requirements.

noted that most pieces of equipment would likely operate for fewer hours per day. A summary of construction equipment assumptions by phase is provided at Table 3-3.

TABLE 3-3: CONSTRUCTION EQUIPMENT ASSUMPTIONS

Phase Name	Equipment ^{A,B}	Amount	Hours Per Day
Site Preparation	Crawler Tractors	4	8
	Rubber Tired Dozers	3	8
	Water Trucks	1	4
Grading	Crawler Tractors	2	8
	Excavators	2	8
	Graders	1	8
	Rubber Tired Dozers	1	8
	Scrapers	2	8
	Water Trucks	1	4
Building Construction	Cranes	1	8
	Forklifts	3	8
	Generator Sets	1	8
	Tractors/Loaders/Backhoes	3	8
	Welders	1	8
	Water Trucks	1	4
Paving	Pavers	2	8
	Paving Equipment	2	8
	Rollers	2	8
	Water Trucks	1	4
Architectural Coating	Air Compressors	1	8

^A In order to account for fugitive dust emissions associated with Site Preparation and Grading activities, Crawler Tractors were used in lieu of Tractors/Loaders/Backhoes.

^B As Water Trucks are driven on-road, emissions associated with the operations of Water Trucks have been modeled as additional trips (two 2-way trips per Water Truck).

3.4.4 CONSTRUCTION EMISSIONS SUMMARY

IMPACTS WITHOUT MITIGATION

CalEEMod calculates maximum daily emissions for summer and winter periods. As such, the estimated maximum daily construction emissions without mitigation for both summer and winter periods are summarized on Table 3-4. Detailed construction model outputs are presented in Appendix 3.1. Under the assumed scenarios, emissions resulting from the Project construction would not exceed criteria pollutant thresholds established by the SCAQMD for emissions of any criteria pollutant.

TABLE 3-4: PROJECT CONSTRUCTION EMISSIONS SUMMARY – WITHOUT MITIGATION

Year	Emissions (lbs/day)					
	VOC	NO _x	CO	SO _x	PM ₁₀	PM _{2.5}
Summer						
2021	5.43	61.02	32.00	0.10	14.04	6.81
2022	54.69	42.10	50.18	0.13	6.92	2.92
Winter						
2021	5.43	61.02	31.86	0.09	14.04	6.81
2022	54.68	42.02	47.88	0.13	6.39	2.92
Maximum Daily Emissions	54.69	61.02	50.18	0.13	14.04	6.81
SCAQMD Regional Threshold	75	100	550	150	150	55
Threshold Exceeded?	NO	NO	NO	NO	NO	NO

Source: CalEEMod unmitigated regional construction-source emissions are presented in Appendix 3.1.

3.5 OPERATIONAL EMISSIONS

Operational activities associated with the Project will result in emissions of VOCs, NO_x, SO_x, CO, PM₁₀, and PM_{2.5}. Operational emissions would be expected from the following primary sources:

- Area Source Emissions
- Energy Source Emissions
- Mobile Source Emissions
- On-Site Cargo Handling Equipment Emissions

3.5.1 AREA SOURCE EMISSIONS

ARCHITECTURAL COATINGS

Over a period of time the buildings that are part of this Project will require maintenance and will therefore produce emissions resulting from the evaporation of solvents contained in paints, varnishes, primers, and other surface coatings. The emissions associated with architectural coatings were calculated using CalEEMod.

CONSUMER PRODUCTS

Consumer products include, but are not limited to detergents, cleaning compounds, polishes, personal care products, and lawn and garden products. Many of these products contain organic compounds which when released in the atmosphere can react to form ozone and other photochemically reactive pollutants. The emissions associated with use of consumer products were calculated based on defaults provided within CalEEMod.

LANDSCAPE MAINTENANCE EQUIPMENT

Landscape maintenance equipment would generate emissions from fuel combustion and evaporation of unburned fuel. Equipment in this category would include lawnmowers, shredders/grinders, blowers, trimmers, chain saws, and hedge trimmers used to maintain the landscaping of the Project. The emissions associated with landscape maintenance equipment were calculated based on assumptions provided in CalEEMod.

3.5.2 ENERGY SOURCE EMISSIONS

COMBUSTION EMISSIONS ASSOCIATED WITH NATURAL GAS AND ELECTRICITY

Criteria pollutant emissions are emitted through the generation of electricity and consumption of natural gas.

When combustion of natural gas occurs within a building, the building is considered a direct emission source and CalEEMod will calculate emissions of all criteria pollutants (35). For purposes of analysis, the emissions associated with natural gas use were calculated using CalEEMod.

CalEEMod also calculates criteria pollutants from generation of electricity associated with a building. It should be noted that when electricity is used in buildings, the electricity generation typically takes place offsite (i.e. power plants). Because power plants are existing stationary sources, criteria pollutant emissions are generally associated with the power plants and not the individual buildings or electricity users (35). Since electricity will be provided to the Project by Southern California Edison, Project-related electricity generation is considered to take place offsite and therefore criteria pollutant emissions are not accounted for.

TITLE 24 ENERGY EFFICIENCY STANDARDS

California's Energy Efficiency Standards for Residential and Nonresidential Buildings was first adopted in 1978 in response to a legislative mandate to reduce California's energy consumption. The standards are updated periodically to allow consideration and possible incorporation of new energy efficient technologies and methods. Energy efficient buildings require less electricity. The 2019 version of Title 24 was adopted by the CEC and became effective on January 1, 2020. The CEC anticipates that nonresidential buildings will use approximately 30% less energy compared to the prior code (36). The CalEEMod defaults for Title 24 – Electricity and Lighting Energy were reduced by 30% in order to reflect consistency with the 2019 Title 24 standard.

3.5.3 MOBILE SOURCE EMISSIONS

The Project related operational air quality emissions derive primarily from vehicle trips generated by the Project, including employee and driver trips to and from the site and truck trips associated with the proposed uses. Trip characteristics available from the *Alessandro Warehouse Traffic Analysis* (TA) report were utilized in this analysis. Per the TA, the Project would generate a total of approximately 742 two-way vehicular trips per day (371 inbound and 371 outbound), including 224 two-way truck trips per day (112 inbound and 112 outbound) (37).

3.5.3.1 APPROACH FOR ESTIMATE OF MOBILE SOURCE EMISSIONS

Two separate model runs were utilized to accurately analyze emissions resulting from passenger car and truck operations.

PASSENGER CAR

For purposes of analysis, the CalEEMod default trip length of 16.6 miles was utilized along with an assumption of 100% primary trips. It is important to note that although the TA does not breakdown passenger cars by type, this analysis assumes that passenger cars include Light-Duty-Auto vehicles (LDA), Light-Duty-Trucks (LDT1⁴ & LDT2⁵), and Medium-Duty-Vehicles (MDV) vehicle types. In order to account for emissions generated by employees, the fleet mix presented in Table 3-5 was utilized in this analysis. Additional details on the use of the applicable fleet mix can be found in the footnote to Table 3-5.

TABLE 3-5: PASSENGER CAR FLEET MIX⁶

Land Use	Vehicle Type	%
Building 1		
Warehouse/ High-Cube Cold Storage Warehouse	LDA	61.73
	LDT1	4.17
	LDT2	21.05
	MDV	13.05
Building 2		
Warehouse/ High-Cube Cold Storage Warehouse	LDA	61.73
	LDT1	4.17
	LDT2	21.05
	MDV	13.05

TRUCKS

The second run analyzed truck emissions, incorporated the SCAQMD recommended truck trip length of 40 miles⁷ and an assumption of 100% primary trips. In order to be consistent with the TA, trucks are broken down by truck type. The trucks are comprised of 2-axle/Light-Heavy-Duty Trucks (LHDT), 3-axle/Medium-Heavy-Duty Trucks (MHDT), and 4+-axle/Heavy-Heavy-Duty Trucks (HHDT). In order to account for emissions generated by trucks, the fleet mix presented in

⁴ Vehicles under the LDT1 category have a gross vehicle weight rating (GVWR) of less than 6,000 lbs. and equivalent test weight (ETW) of less than or equal to 3,750 lbs.

⁵ Vehicles under the LDT2 category have a GVWR of less than 6,000 lbs. and ETW between 3,751 lbs. and 5,750 lbs.

⁶ The Project-specific employee and driver fleet mix used in this analysis is based on a proportional split utilizing the CalEEMod default percentage assigned to LDA, LDT1, LDT2, and MDV vehicle types.

⁷ The average trip length for heavy trucks were based on the SCAQMD documents for the implementation of the Facility Based Mobile Source Measures (FBMSMs) adopted in the 2016 AQMP. SCAQMD's "Preliminary Warehouse Emission Calculations" cites 39.9-mile trip length for heavy-heavy trucks (41). As a conservative measure, a trip length of 40 miles has been utilized for all trucks for the purpose of this analysis.

Table 3-6 was utilized in this analysis. Additional details on the use of the applicable fleet mix can be found in the footnote to Table 3-6.

TABLE 3-6: TRUCK FLEET MIX⁸

Land Use	Vehicle Type	%
Building 1		
Warehouse	LHDT	16.32
	MHDT	20.41
	HHDT	63.27
High-Cube Cold Storage Warehouse	LHDT	35.30
	MHDT	11.76
	HHDT	52.94
Building 2		
Warehouse	LHDT	16.67
	MHDT	22.22
	HHDT	61.11
High-Cube Cold Storage Warehouse	LHDT	36.36
	MHDT	9.09
	HHDT	54.55

FUGITIVE DUST RELATED TO VEHICULAR TRAVEL

Vehicles traveling on paved roads would be a source of fugitive emissions due to the generation of road dust inclusive of break and tire wear particulates. The emissions estimates for travel on paved roads were calculated using CalEEMod.

3.5.4 ON-SITE CARGO HANDLING EQUIPMENT EMISSIONS

It is common for industrial warehouse buildings to require cargo handling equipment to move empty containers and empty chassis to and from the various pieces of cargo handling equipment that receive and distribute containers. The most common type of cargo handling equipment is the yard truck which is designed for moving cargo containers. Yard trucks are also known as yard goats, utility tractors (UTRs), hustlers, yard hostlers, and yard tractors. The cargo handling equipment is assumed to have a horsepower (hp) range of approximately 175 hp to 200 hp. Based on the latest available information from SCAQMD (38); for example, high-cube warehouse projects typically have 3.6 yard trucks per million sf of building space. For this particular Project, based on the maximum square footage of each building space, on-site modeled operational equipment includes up to two (2) 200 hp, compressed natural gas or gasoline-powered yard tractors operating at 4 hours a day for 365 days of the year.

⁸ Project-specific truck fleet mix is based on the number of trips generated by each truck type (LHDT, MHDT, HHDT) relative to the total number of truck trips generated by the Project.

3.5.5 OPERATIONAL EMISSIONS SUMMARY

IMPACTS WITHOUT MITIGATION

As previously stated, CalEEMod utilizes summer and winter EMFAC2017 emission factors in order to derive vehicle emissions associated with Project operational activities, which vary by season. The estimated operational-source emissions are summarized on Tables 3-7. Detailed operation model outputs for the Project are presented in Appendices 3.2 through 3.3. As shown on Table 3-7, the Project's daily regional emissions from on-going operations will not exceed any of the thresholds of significance.

TABLE 3-7: SUMMARY OF PEAK OPERATIONAL EMISSIONS– WITHOUT MITIGATION

Source	Emissions (lbs/day)					
	VOC	NO _x	CO	SO _x	PM ₁₀	PM _{2.5}
Summer						
Area Source	9.02	7.20E-04	0.08	0.00	2.80E-04	2.80E-04

3.6 LOCALIZED SIGNIFICANCE

BACKGROUND ON LOCALIZED SIGNIFICANCE THRESHOLD (LST) DEVELOPMENT

The analysis makes use of methodology included in the SCAQMD *Final Localized Significance Threshold Methodology* (LST Methodology) (39). The SCAQMD has established that impacts to air quality are significant if there is a potential to contribute or cause localized exceedances of the federal and/or state ambient air quality standards (NAAQS/CAAQS). Collectively, these are referred to as Localized Significance Thresholds (LSTs).

The SCAQMD established LSTs in response to the SCAQMD Governing Board's Environmental Justice Initiative I-4⁹. LSTs represent the maximum emissions from a project that will not cause or contribute to an exceedance of the most stringent applicable federal or state ambient air quality standard at the nearest residence or sensitive receptor. The SCAQMD states that lead agencies can use the LSTs as another indicator of significance in its air quality impact analyses.

LSTs were developed in response to environmental justice and health concerns raised by the public regarding exposure of individuals to criteria pollutants in local communities. To address the issue of localized significance, the SCAQMD adopted LSTs that show whether a project would cause or contribute to localized air quality impacts and thereby cause or contribute to potential localized adverse health effects. The analysis makes use of methodology included in the LST Methodology (40).

APPLICABILITY OF LSTs FOR THE PROJECT

For this Project, the appropriate SRA for the LST analysis is the SCAQMD Perris Valley (SRA 24). LSTs apply to CO, NO₂, PM₁₀, and PM_{2.5}. The SCAQMD produced look-up tables for projects less than or equal to 5 acres in size.

In order to determine the appropriate methodology for determining localized impacts that could occur as a result of Project-related construction, the following process is undertaken:

- Identify the maximum daily on-site emissions that will occur during construction activity:
 - The maximum daily on-site emissions could be based on information provided by the Project Applicant; or
 - The SCAQMD's *Fact Sheet for Applying CalEEMod to Localized Significance Thresholds* and *CalEEMod User's Guide Appendix A: Calculation Details for CalEEMod* can be used to determine the maximum site acreage that is actively disturbed based on the construction equipment fleet and equipment hours as estimated in CalEEMod (41) (35).
- If the total acreage disturbed is less than or equal to 5 acres per day, then the SCAQMD's screening look-up tables are utilized to determine if a Project has the potential to result in a significant impact. The look-up tables establish a maximum daily emissions threshold in lbs/day that can be compared to CalEEMod outputs.

⁹ The purpose of SCAQMD's Environmental Justice program is to ensure that everyone has the right to equal protection from air pollution and fair access to the decision-making process that works to improve the quality of air within their communities. Further, the SCAQMD defines Environmental Justice as "...equitable environmental policymaking and enforcement to protect the health of all residents, regardless of age, culture, ethnicity, gender, race, socioeconomic status, or geographic location, from the health effects of air pollution."

- If the total acreage disturbed is greater than 5 acres per day, then LST impacts may still be conservatively evaluated using the LST look-up tables for a 5-acre disturbance area. Use of the 5-acre disturbance area thresholds can be used to show that even if the daily emissions from all construction activity were emitted within a 5-acre area, and therefore concentrated over a smaller area which would result in greater site adjacent concentrations, the impacts would still be less than significant if the applicable 5-acre thresholds are utilized.
- The LST Methodology presents mass emission rates for each SRA, project sizes of 1, 2, and 5 acres, and nearest receptor distances of 25, 50, 100, 200, and 500 meters. For project sizes between the values given, or with receptors at distances between the given receptors, the methodology uses linear interpolation to determine the thresholds.

EMISSIONS CONSIDERED

SCAQMD's LST Methodology clearly states that "off-site mobile emissions from the Project should not be included in the emissions compared to LSTs (39)." Therefore, for purposes of the construction LST analysis, only emissions included in the CalEEMod "on-site" emissions outputs were considered.

MAXIMUM DAILY DISTURBED-ACREAGE

As a conservative measure, it is assumed that a maximum of 10 acres per day can be actively disturbed. As such, the "Total Acres Graded" field in CalEEMod has been revised to 100 acres for site preparation (10 acres disturbed per day x 10 working days) and 300 acres for grading activities (10 acres disturbed per day x 30 working days)¹⁰.

SENSITIVE RECEPTORS

As previously stated, LSTs represent the maximum emissions from a project that will not cause or contribute to an exceedance of the most stringent applicable NAAQS and CAAQS at the nearest residence or sensitive receptor. Receptor locations are off-site locations where individuals may be exposed to emissions from Project activities.

RESIDENTIAL RECEPTORS

Some people are especially sensitive to air pollution and are given special consideration when evaluating air quality impacts from projects. These groups of people include children, the elderly, individuals with pre-existing respiratory or cardiovascular illness, and athletes and others who engage in frequent exercise. Structures that house these persons or places where they gather to exercise are defined as "sensitive receptors". These structures typically include residences, hotels, hospitals, etc. as they are also known to be locations where an individual can remain for 24 hours. Consistent with the LST Methodology, the nearest land use where an individual could remain for 24 hours to the Project site (in this case the nearest residential land use) has been used to determine construction and operational air quality impacts for emissions of PM₁₀ and PM_{2.5}, since PM₁₀ and PM_{2.5} thresholds are based on a 24 hour averaging time.

¹⁰ CalEEMod does not provide a "Total Acres Graded" field for Building Construction, Paving, or Architectural Coating activities.

NON-RESIDENTIAL RECEPTORS

As per the LST Methodology, commercial and industrial facilities are not included in the definition of sensitive receptor because employees and patrons do not typically remain onsite for a full 24 hours but are typically onsite for 8 hours or less. The LST Methodology explicitly states that “LSTs based on shorter averaging periods, such as the NO₂ and CO LSTs, could also be applied to receptors such as industrial or commercial facilities since it is reasonable to assume that a worker at these sites could be present for periods of one to eight hours (39).” For purposes of analysis, if an industrial/commercial use is located at a closer distance to the Project site than the nearest residential use, the nearest industrial/commercial use will be utilized to determine construction and operational LST air impacts for emissions of NO₂ and CO an individual could be present at these sites for periods of 1 to 8 hours.

PROJECT-RELATED SENSITIVE RECEPTORS

Receptors in the Project study area are described below and shown on Exhibit 3-A. Localized air quality impacts were evaluated at sensitive receptor land uses nearest the Project site. Consistent with the *Compass Danbe Centerpointe Noise Impact Analysis*, prepared by Urban Crossroads, Inc., all distances are measured from the Project site boundary to the outdoor living areas (e.g., backyards) or at the building façade, whichever is closer to the Project site.

- R1: Location R1 represents the existing residence at 13994 Chagall Court, approximately 152 feet north of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site, receptor R1 is placed at the residential building façade.
- R2: Location R2 represents the Motel 6 at 23581 Alessandro Blvd, approximately 1,023 feet east of the Project site. Receptor R2 is placed at the building façade.
- R3: Location R3 represents the Moreno Valley City Hall at 14177 Frederick Street, approximately 744 feet west of the Project site. Receptor R3 is placed at the building façade.
- R4: Location R4 represents the existing residence at 13979 Frederick Street, approximately 784 feet northwest of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site, receptor R4 is placed at the residential building façade.
- R5: Location R5 represents the existing residences at 13933 Chagall Court, approximately 217 feet north of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site, receptor R5 is placed at the residential building façade.

The SCAQMD recommends that the nearest sensitive receptor be considered when determining the Project’s potential to cause an individual a cumulatively significant impact. The nearest land use where an individual could remain for 24 hours to the Project site has been used to determine localized construction and operational air quality impacts for emissions of PM₁₀ and PM_{2.5} (since PM₁₀ and PM_{2.5} thresholds are based on a 24 hour averaging time). The nearest receptor used for evaluation of localized impacts of PM₁₀ and PM_{2.5} is represented by location R1 which represents the existing residence at 13994 Chagall Court, approximately 152 feet/ 46 meters north of the Project site.

 - Existing Barrier

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

As previously stated, and consistent with *LST Methodology*, the nearest industrial/commercial use to the Project site is used to determine construction and operational LST air impacts for emissions of NO_x and CO as the averaging periods for these pollutants are shorter (8 hours or less) and it is reasonable to assumed that an individual could be present at these sites for periods of one to 8 hours. It should be noted that the existing residence (R1) is located at a closer distance than the nearest industrial/commercial use. As such, same receptor will be used for evaluation of localized NO_x and CO.

3.7 CONSTRUCTION-SOURCE EMISSIONS LST ANALYSIS

3.7.1 LOCALIZED THRESHOLDS FOR CONSTRUCTION ACTIVITY

As previously stated, approximately 10 acres can be disturbed per day. For the purposes of this analysis, and as a conservative measure, the SCAQMD look-up tables of 5 acres are used to determine localized significance thresholds. The LST lookup tables can be used as a conservative measure to show that even if the daily emissions from all project construction were emitted on a 5-acre site (and therefore concentrated over a smaller area which would result in greater site adjacent concentrations), if the impacts are less than significant, then a more detailed evaluation is not necessary. The thresholds presented in Table 3-8 were calculated by interpolating the threshold values for a 5-acre site and a 46-meter distance for localized PM₁₀, PM_{2.5}, NO_x, and CO evaluation.

TABLE 3-8: MAXIMUM DAILY LOCALIZED EMISSIONS THRESHOLDS

Pollutant	Construction Localized Thresholds
NO _x	297 lbs/day
CO	2,082 lbs/day
PM ₁₀	36 lbs/day
PM _{2.5}	10 lbs/day

Source: Localized Thresholds presented in this table are based on the SCAQMD Final LST Methodology, July 2008

3.7.2 LOCALIZED CONSTRUCTION-SOURCE EMISSIONS

IMPACTS WITHOUT MITIGATION

In order to estimate on-site emissions from each building area, the total on-site construction emissions were weighed based on the ratio of each building area relative to the entire Project site. Table 3-9 identifies the localized impacts at the nearest receptor location in the vicinity of the Project. Without mitigation, localized construction emissions would not exceed the applicable SCAQMD LSTs for emissions of any criteria pollutant.

TABLE 3-9: PROJECT LOCALIZED CONSTRUCTION EMISSIONS – WITHOUT MITIGATION

On-Site Emissions	Emissions (lbs/day)			
	NO _x	CO	PM ₁₀	PM _{2.5}
Site Preparation				
Maximum Daily Emissions	60.79	21.85	13.83	6.75
SCAQMD Localized Threshold	297	2,082	36	10
Threshold Exceeded?	NO	NO	NO	NO
Grading				
Maximum Daily Emissions	56.54	31.23	8.77	3.84
SCAQMD Localized Threshold	297	2,082	36	10
Threshold Exceeded?	NO	NO	NO	NO
Building Construction				
Maximum Daily Emissions	18.75	17.67	1.03	0.96
SCAQMD Localized Threshold	297	2,082	36	10
Threshold Exceeded?	NO	NO	NO	NO
Paving				
Maximum Daily Emissions	11.12	14.58	0.57	0.52
SCAQMD Localized Threshold	297	2,082	36	10
Threshold Exceeded?	NO	NO	NO	NO

Maximum Daily Emissions	1.88	2.42	0.11	0.11
SCAQMD Localized Threshold	297	2,082	36	10
Threshold Exceeded?	NO	NO	NO	NO

Source: CalEEMod unmitigated localized construction-source emissions are presented in Appendix 3.1.

3.8 LOCALIZED SIGNIFICANCE – LONG-TERM OPERATIONAL ACTIVITY

The Project is located on an approximately 17.65-net acre parcel. As noted previously, the LST Methodology provides look-up tables for sites with an area with daily disturbance of 5 acres or less. For projects that exceed 5 acres, the 5-acre LST look-up tables can be used as a screening tool to determine whether pollutants require additional detailed analysis. This approach is conservative as it assumes that all on-site emissions associated with the project would occur within a concentrated 5-acre area. This screening method would therefore over-predict potential localized impacts, because by assuming that on-site operational activities are occurring over a smaller area, the resulting concentrations of air pollutants are more highly concentrated once they reach the smaller site boundary than they would be for activities if they were spread out

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

over a larger surface area. On a larger site, the same amount of air pollutants generated would disperse over a larger surface area and would result in a lower concentration once emissions reach the project-site boundary. As such, LSTs for a 5-acre site during operations are used as a screening tool to determine if further detailed analysis is required.

The LST analysis generally includes on-site sources (area, energy, mobile, and on-site cargo handling equipment are previously discussed in Section 3.5 of this report). However, it should be noted that the CalEEMod outputs do not separate on-site and off-site emissions from mobile sources. In an effort to establish a maximum potential impact scenario for analytic purposes, the emissions shown on Table 3-11 represent all on-site Project-related stationary (area) sources and 5% of the Project-related mobile sources. Considering that the trip length used in CalEEMod for the Project is approximately 16.60 miles for passenger cars and 40.00 miles for all trucks, 5% of this total would represent an on-site travel distance of approximately 0.83 miles/4,382.40 feet for passenger cars and 2.00 miles/10,560.00 feet for trucks.

It should be noted that the longest on-site distance, is less than 0.5 mile for both trucks and passenger cars (entry into Driveway 1 and exit out of Driveway 3). As such, the 5% assumption is conservative and would tend to overstate the actual impact because it is not likely that a passenger car would drive 0.83 miles on the site or that a truck would drive 2.00 miles on the site. Modeling based on these assumptions demonstrates that even within broad encompassing parameters, Project operational-source emissions would not exceed applicable LSTs.

3.8.1 LOCALIZED THRESHOLDS FOR OPERATIONAL ACTIVITY

As previously stated, LSTs for a 5-acre site during operations are used as a screening tool to determine if further detailed analysis is required. As such, the threshold values presented in Table 3-10, were calculated by interpolating the threshold values for a 5-acre site and a 46-meter distance for localized PM₁₀, PM_{2.5}, NO_x, and CO evaluation.

TABLE 3-10: MAXIMUM DAILY LOCALIZED OPERATIONAL EMISSIONS THRESHOLDS

Pollutant	Operational Localized Thresholds
NO _x	297 lbs/day
CO	2,082 lbs/day
PM ₁₀	9 lbs/day
PM _{2.5}	3 lbs/day

Source: Localized Thresholds presented in this table are based on the SCAQMD Final LST Methodology, July 2008

3.8.2 OPERATIONAL-SOURCE LOCALIZED EMISSIONS

IMPACTS WITHOUT MITIGATION

As shown on Table 3-11 operational emissions will not exceed the LST thresholds for the nearest sensitive receptor. Therefore, the Project will have a less than significant localized impact during operational activity.

TABLE 3-11: LOCALIZED SIGNIFICANCE SUMMARY OF OPERATIONS – WITHOUT MITIGATION

Operational Activity	Emissions (lbs/day)			
	NO _x	CO	PM ₁₀	PM _{2.5}
Maximum Daily Emissions	6.69	4.48	0.97	0.44
SCAQMD Localized Threshold	297	2,082	9	3
Threshold Exceeded?	NO	NO	NO	NO

Source: CalEEMod localized operational-source emissions are presented in Appendices 3.2 through 3.3.

3.9 CO “HOT SPOT” ANALYSIS

As discussed below, the Project would not result in potentially adverse CO concentrations or “hot spots.” Further, detailed modeling of Project-specific carbon monoxide (CO) “hot spots” is not needed to reach this conclusion.

An adverse CO concentration, known as a “hot spot”, would occur if an exceedance of the state one-hour standard of 20 ppm or the eight-hour standard of 9 ppm were to occur. At the time of the 1993 Handbook, the SCAB was designated nonattainment under the California AAQS and National AAQS for CO (42).

It has long been recognized that CO hotspots are caused by vehicular emissions, primarily when idling at congested intersections. In response, vehicle emissions standards have become increasingly stringent in the last twenty years. Currently, the allowable CO emissions standard in California is a maximum of 3.4 grams/mile for passenger cars (there are requirements for certain vehicles that are more stringent). With the turnover of older vehicles, introduction of cleaner fuels, and implementation of increasingly sophisticated and efficient emissions control technologies, CO concentration in the SCAB is now designated as attainment, as previously noted in Table 2-3.

To establish a more accurate record of baseline CO concentrations affecting the SCAB, a CO “hot spot” analysis was conducted in 2003 for four busy intersections in Los Angeles at the peak morning and afternoon time periods. This “hot spot” analysis did not predict any violation of CO standards, as shown on Table 3-12.

TABLE 3-12: CO MODEL RESULTS

Intersection Location	CO Concentrations (ppm)		
	Morning 1-hour	Afternoon 1-hour	8-hour
Wilshire Boulevard/Veteran Avenue	4.6	3.5	4.2
Sunset Boulevard/Highland Avenue	4	4.5	3.9
La Cienega Boulevard/Century Boulevard	3.7	3.1	5.8
Long Beach Boulevard/Imperial Highway	3	3.1	9.3

Source: 2003 AQMP, Appendix V: Modeling and Attainment Demonstrations

Notes: Federal 1-hour standard is 35 ppm and the deferral 8-hour standard is 9.0 ppm.

Based on the SCAQMD's 2003 AQMP and the 1992 Federal Attainment Plan for Carbon Monoxide (1992 CO Plan), peak CO concentrations in the SCAB were a result of unusual meteorological and topographical conditions and not a result of traffic volumes and congestion at a particular intersection. As evidence of this, for example, 9.3 ppm 8-hour CO concentration measured at the Long Beach Boulevard and Imperial Highway intersection (highest CO generating intersection within the “hot spot” analysis), only 0.7 ppm was attributable to the traffic volumes and congestion at this intersection; the remaining 8.6 ppm were due to the ambient air measurements at the time the 2003 AQMP was prepared (43). In contrast, the ambient 8-hour CO concentration within the Project study area is estimated at 1.4 ppm—1.6 ppm. Therefore, even if the traffic volumes for the Project were double or even triple of the traffic volumes generated at the Long Beach Boulevard and Imperial Highway intersection, coupled with the on-going improvements in ambient air quality, the Project would not be capable of resulting in a CO “hot spot” at any study area intersections. Similar considerations are also employed by other Air Districts when evaluating potential CO concentration impacts. More specifically, the Bay Area Air Quality Management District (BAAQMD) concludes that under existing and future vehicle emission rates, a given project would have to increase traffic volumes at a single intersection by more than 44,000 vehicles per hour (vph) —or 24,000 vph where vertical and/or horizontal air does not mix—in order to generate a significant CO impact (44).

The 2003 AQMP, and as previously shown in Table 3-12, estimated that the 1-hour concentration for this intersection was 4.6 ppm; this indicates that, should the daily traffic volume increase four times to 400,000 vehicles per day, CO concentrations ($4.6 \text{ ppm} \times 4 = 18.4 \text{ ppm}$) would still not likely exceed the most stringent 1-hour CO standard (20.0 ppm)¹¹. As shown in TA on Exhibit 5-1, EAP¹² (2022) Traffic Volumes (In PCE¹³), the highest trips on a segment of is 43,500 vph on east Graham Street and Alessandro Boulevard (37).

Traffic volumes generating the CO concentrations for the “hot spot” analysis is shown on Table 3-13. The busiest intersection evaluated for traffic volumes was at La Cienega Boulevard and Century Boulevard, which has an traffic volume of approximately 8,674 vph (45). As shown on Table 3-14, the highest trips on a segment of road for the proposed Project is 4,070 vph on Frederick Street and Alessandro Boulevard. As such, Project-related traffic volumes are less than the traffic volumes identified in the 2003 AQMP. The Project considered herein would not produce the volume of traffic required to generate a CO “hot spot” either in the context of the 2003 Los Angeles hot spot study or based on representative BAAQMD CO threshold considerations. Therefore, CO “hot spots” are not an environmental impact of concern for the Project. Localized air quality impacts related to mobile-source emissions would therefore be less than significant.

¹¹ Based on the ratio of the CO standard (20.0 ppm) and the modeled value (4.6 ppm).

¹² EAP = Existing Plus Ambient Growth Plus Project

¹³ PCE = Passenger Car Equivalent

3.10 AIR QUALITY MANAGEMENT PLANNING

The Project site is located within the SCAB, which is characterized by relatively poor air quality. The SCAQMD has jurisdiction over an approximately 10,743 square-mile area consisting of the four-county Basin and the Los Angeles County and Riverside County portions of what use to be referred to as the Southeast Desert Air Basin. In these areas, the SCAQMD is principally responsible for air pollution control, and works directly with the Southern California Association of Governments (SCAG), county transportation commissions, local governments, as well as state and federal agencies to reduce emissions from stationary, mobile, and indirect sources to meet state and federal ambient air quality standards.

Currently, these state and federal air quality standards are exceeded in most parts of the SCAB. In response, the SCAQMD has adopted a series of AQMPs to meet the state and federal ambient air quality standards. AQMPs are updated regularly in order to more effectively reduce emissions, accommodate growth, and to minimize any negative fiscal impacts of air pollution control on the economy.

In March 2017, the AQMD released the Final 2016 AQMP. The 2016 AQMP continues to evaluate current integrated strategies and control measures to meet the NAAQS and explores new and innovative methods to reach its goals. Some of these approaches include utilizing incentive programs, recognizing existing co-benefit programs from other sectors, and developing a strategy with fair-share reductions at the federal, state, and local levels (46). Similar to the 2012 AQMP,

the 2016 AQMP incorporates scientific and technological information and planning assumptions, including the 2016-2040 RTP/SCS, a planning document that supports the integration of land use and transportation to help the region meet the federal Clean Air Act requirements (17). The Project's consistency with the AQMP will be determined using the 2016 AQMP as discussed below.

Criteria for determining consistency with the AQMP are defined in Chapter 12, Section 12.2 and Section 12.3 of the SCAQMD's CEQA Air Quality Handbook (1993) (47). These indicators are discussed below:

3.10.1 CONSISTENCY CRITERION No. 1

The proposed Project will not result in an increase in the frequency or severity of existing air quality violations or cause or contribute to new violations or delay the timely attainment of air quality standards or the interim emissions reductions specified in the AQMP.

The violations that Consistency Criterion No. 1 refers to are the CAAQS and NAAQS. CAAQS and NAAQS violations would occur if regional or localized significance thresholds were exceeded.

Construction Impacts – Consistency Criterion 1

Consistency Criterion No. 1 refers to violations of the CAAQS and NAAQS. CAAQS and NAAQS violations would occur if LSTs or regional significance thresholds were exceeded. As evaluated, the Project's regional and localized construction-source emissions would not exceed applicable regional significance threshold and LST thresholds. As such, a less than significant impact is expected.

Operational Impacts – Consistency Criterion 1

As evaluated, and when taking into consideration existing emissions, the Project's operational emissions would not exceed the applicable regional significance thresholds and LST thresholds for operational activity. Therefore, the Project would not conflict with the AQMP according to this criterion.

On the basis of the preceding discussion, the Project is determined to be consistent with the first criterion.

3.10.2 CONSISTENCY CRITERION No. 2

The Project will not exceed the assumptions in the AQMP based on the years of Project build-out phase.

The 2016 AQMP demonstrates that the applicable ambient air quality standards can be achieved within the timeframes required under federal law. Growth projections from local general plans adopted by cities in the district are provided to the SCAG, which develops regional growth forecasts, which are then used to develop future air quality forecasts for the AQMP. Development consistent with the growth projections in City of Moreno Valley General Plan is considered to be consistent with the AQMP.

Construction Impacts – Consistency Criterion 2

Peak day emissions generated by construction activities are largely independent of land use assignments, but rather are a function of development scope and maximum area of disturbance. Irrespective of the site’s land use designation, development of the site to its maximum potential would likely occur, with disturbance of the entire site occurring during construction activities.

Operational Impacts – Consistency Criterion 2

Per the City’s General Plan, the Project site is designated for Commercial uses. The primary purpose of areas designated Commercial is to provide property for business purposes, including, but not limited to, retail stores, restaurants, banks, hotels, professional offices, personal services and repair services. The zoning regulations shall identify the particular uses permitted on each parcel of land, which could include compatible noncommercial uses (48).

The proposed Project will consist of 206,665 sf of warehousing (70% of total building sf) and 88,571 sf of high-cube cold storage warehouse use (30% of total building sf) for a total of 295,236 sf for Building 1 and 70,876 sf of warehousing (70% of total building sf) and 30,376 sf of high-cube cold storage warehouse use (30% of total building sf) for a total of 101,252 sf for Building 2. As such, even though the Project involves a GPA and ZC to change the land use designation to Light Industrial use. The proposed changes are consistent with the zones to the west, south and east of the subject site and adjacent properties. The amendment is in keeping with the uses surrounding the Project site. Furthermore, the Project, as evaluated herein would not exceed the regional or localized air quality significance thresholds.

On the basis of the preceding discussion, the Project is determined to be consistent with the second criterion

AQMP CONSISTENCY CONCLUSION

The Project would not have the potential to result in or cause NAAQS or CAAQS violations. Additionally, Project construction and operational-source emissions would not exceed the regional or localized significance thresholds. The Project is therefore considered to be consistent with the AQMP.

3.11 POTENTIAL IMPACTS TO SENSITIVE RECEPTORS

The potential impact of Project-generated air pollutant emissions at sensitive receptors has also been considered. Sensitive receptors can include uses such as long-term health care facilities, rehabilitation centers, and retirement homes. Residences, schools, playgrounds, childcare centers, and athletic facilities can also be considered as sensitive receptors.

Results of the LST analysis indicate that the Project will not exceed the SCAQMD localized significance thresholds during construction. Therefore, sensitive receptors would not be exposed to substantial pollutant concentrations during Project construction.

Additionally, the Project will not exceed the SCAQMD localized significance thresholds during operational activity. Further Project traffic would not create or result in a CO “hotspot.”

Therefore, sensitive receptors would not be exposed to substantial pollutant concentrations as the result of Project operations.

3.11.1 FRIANT RANCH CASE

In December 2018, in the case of *Sierra Club v. County of Fresno* (2018) 6 Cal.5th 502, the California Supreme Court held that an Environmental Impact Report's (EIR) air quality analysis must meaningfully connect the identified air quality impacts to the human health consequences of those impacts, or meaningfully explain why that analysis cannot be provided.

As discussed in briefs filed in the Friant Ranch case, correlating a project's criteria air pollutant emissions to specific health impacts is challenging. Health effects caused by criteria pollutant emissions are dependent on a variety of interrelated variables. In particular, ozone precursors (VOCs and NO_x) affect air quality on a regional scale. The SCAQMD, which has among the most sophisticated air quality modeling and health impact evaluation capability of any of the air districts in the State, and thus it is uniquely situated to express an opinion on how lead agencies should correlate air quality impacts with specific health outcomes noted that it may be "difficult to quantify health impacts for criteria pollutants." (49).

As noted in the *Brief*, the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) ties the difficulty of correlating the emission of criteria pollutants to health impacts to how ozone and particulate matter are formed, stating that "[b]ecause of the complexity of ozone formation, a specific tonnage amount of NO_x or VOCs emitted in a particular area does not equate to a particular concentration of ozone in that area." (50). Similarly, the tonnage of PM "emitted does not always equate to the local PM concentration because it can be transported long distances by wind," and "[s]econdary PM, like ozone, is formed via complex chemical reactions in the atmosphere between precursor chemicals such as sulfur dioxides (SO_x) and NO_x," meaning that "the tonnage of PM-forming precursor emissions in an area does not necessarily result in an equivalent concentration of secondary PM in that area." (50). The disconnect between the amount of precursor pollutants and the concentration of ozone or PM formed makes it difficult to determine potential health impacts, which are related to the concentration of ozone and PM experienced by the receptor rather than levels of NO_x, SO_x, and VOCs produced by a source.

Health effects related to ozone are therefore the product of emissions generated by numerous sources throughout a region. SCAQMD's *Brief of Amicus Curiae (Brief)* goes on to state that "it takes a large amount of additional precursor emissions (NO_x and VOCs) to cause a modeled increase in ambient ozone levels over an entire region,". The SCAQMD states that based on their own modeling in the SCAQMD's 2012 AQMP, a reduction of "NO_x by 432 tons per day (157,680 tons/year) and reducing VOC by 187 tons per day (68,255 tons/year) would reduce ozone levels at the SCAQMD's monitor site with the highest levels by only 9 parts per billion." As such, the SCAQMD concludes that it is not currently possible "to accurately quantify ozone-related health impacts caused by NO_x or VOC emissions from relatively small projects." (51).

Most local agencies, including the City of Moreno Valley, lack the data to do their own assessment of potential health impacts from criteria air pollutant emissions, as would be required to establish customized, locally-specific thresholds of significance based on potential health impacts from an

individual development project. The use of national or “generic” data to fill the gap of missing local data would not yield accurate results because such data does not capture local air patterns, local background conditions, or local population characteristics, all of which play a role in how a population experiences air pollution. Because it is impracticable to accurately isolate the exact cause of a human disease (for example, the role a particular air pollutant plays compared to the role of other allergens and genetics in cause asthma), the City has determined that existing scientific tools cannot accurately estimate health impacts of the Project’s air emissions without undue speculation. Instead, readers are directed to the Project’s air quality impact analysis above, which provides extensive information concerning the quantifiable and non-quantifiable health risks related to the Project’s construction and long-term operation.

Notwithstanding, this AQIA does evaluate the proposed Project’s localized impact to air quality for emissions of CO, NO_x, PM₁₀, and PM_{2.5} by comparing the proposed project’s on-site emissions to the SCAQMD’s applicable LST thresholds. The LST analysis above determined that the project would not result in emissions exceeding SCAQMD’s LSTs. Therefore, the proposed Project would not be expected to exceed the most stringent applicable federal or state ambient air quality standards for emissions of CO, NO_x, PM₁₀, and PM_{2.5}.

As the Project’s emissions will comply with federal, state, and local air quality standards, the proposed Project’s emissions are not sufficiently high enough to use a regional modeling program to correlate health effects on a basin-wide level, and would not provide a reliable indicator of health effects if modeled.

3.11.2 HEALTH RISK ASSESSMENT

A Health Risk Assessment (HRA) has been prepared by Urban Crossroads, Inc. under a separate cover. The results of the *Compass Danbe Centerpointe Mobile Source Health Risk Assessment* (Urban Crossroads, Inc. 2020) indicate that the proposed Project would not result in any significant health risk impacts from exposure to TACs resulting from the proposed Project.

3.12 ODORS

The potential for the proposed Project to generate objectionable odors has also been considered. Land uses generally associated with odor complaints include:

- Agricultural uses (livestock and farming)
- Wastewater treatment plants
- Food processing plants
- Chemical plants
- Composting operations
- Refineries
- Landfills
- Dairies
- Fiberglass molding facilities

The proposed Project does not contain land uses typically associated with emitting objectionable odors. Potential odor sources associated with the proposed Project may result from construction equipment exhaust and the application of asphalt and architectural coatings during construction activities and the temporary storage of typical solid waste (refuse) associated with the proposed Project's (long-term operational) uses. Standard construction requirements would minimize odor impacts from construction. The construction odor emissions would be temporary, short-term, and intermittent in nature and would cease upon completion of the respective phase of construction and is thus considered less than significant. It is expected that Project-generated refuse would be stored in covered containers and removed at regular intervals in compliance with the City's solid waste regulations. The proposed Project would also be required to comply with SCAQMD Rule 402 to prevent occurrences of public nuisances. Therefore, odors associated with the proposed Project construction and operations would be less than significant and no mitigation is required (52).

3.13 CUMULATIVE IMPACTS

The proposed Project site area is designated as an extreme non-attainment area for ozone, and a non-attainment area for PM₁₀, PM_{2.5}, and lead.

The AQMD has published a report on how to address cumulative impacts from air pollution: *White Paper on Potential Control Strategies to Address Cumulative Impacts from Air Pollution* (53). In this report the AQMD clearly states (Page D-3):

"...the AQMD uses the same significance thresholds for project specific and cumulative impacts for all environmental topics analyzed in an Environmental Assessment or EIR. The only case where the significance thresholds for project specific and cumulative impacts differ is the Hazard Index (HI) significance threshold for toxic air contaminant (TAC) emissions. The project specific (project increment) significance threshold is HI > 1.0 while the cumulative (facility-wide) is HI > 3.0. It should be noted that the HI is only one of three TAC emission significance thresholds considered (when applicable) in a CEQA analysis. The other two are the maximum individual cancer risk (MICR) and the cancer burden, both of which use the same significance thresholds (MICR of 10 in 1 million and cancer burden of 0.5) for project specific and cumulative impacts.

Projects that exceed the project-specific significance thresholds are considered by the SCAQMD to be cumulatively considerable. This is the reason project-specific and cumulative significance thresholds are the same. Conversely, projects that do not exceed the project-specific thresholds are generally not considered to be cumulatively significant."

Therefore, this analysis assumes that individual projects that do not generate operational or construction emissions that exceed the SCAQMD's recommended daily thresholds for project-specific impacts would also not cause a cumulatively considerable increase in emissions for those pollutants for which the Basin is in nonattainment, and, therefore, would not be considered to have a significant, adverse air quality impact. Alternatively, individual project-related

construction and operational emissions that exceed SCAQMD thresholds for project-specific impacts would be considered cumulatively considerable.

CONSTRUCTION IMPACTS

The Project-specific evaluation of emissions presented in the preceding analysis demonstrates that proposed Project construction-source air pollutant emissions would not result in exceedances of regional thresholds. Therefore, proposed Project construction-source emissions would be considered less than significant on a project-specific and cumulative basis.

OPERATIONAL IMPACTS

The Project-specific evaluation of emissions presented in the preceding analysis demonstrates that proposed Project operational-source air pollutant emissions would not result in exceedances of regional thresholds. Therefore, proposed Project operational-source emissions would be considered less than significant on a project-specific and cumulative basis.

STATE AND NATIONAL AMBIENT AIR QUALITY STANDARDS***

[This page intentionally left blank]

APPENDIX C

MAPS AND TABLES OF AREA DESIGNATIONS FOR STATE AND NATIONAL AMBIENT AIR QUALITY STANDARDS

This attachment fulfills the requirement of Health and Safety Code section 40718 for CARB to publish maps that identify areas where one or more violations of any State ambient air quality standard (State standard) or national ambient air quality standard (national standard) have been measured. The national standards are those promulgated under section 109 of the federal Clean Air Act (42 U.S.C. 7409).

This attachment is divided into three parts. The first part comprises a table showing the levels, averaging times, and measurement methods for each of the State and national standards. This is followed by a section containing maps and tables showing the area designations for each pollutant for which there is a State standard in the California Code of Regulations, title 17, section 70200. The last section contains maps and tables showing the most current area designations for the national standards.

<h2 style="text-align: center;">Ambient Air Quality Standards</h2> <p style="text-align: center;">(Updated 5/4/16)</p>						
Pollutant	Averaging Time	California Standards ¹		National Standards ²		
		Concentration ³	Method ⁴	Primary ^{3,5}	Secondary ^{3,6}	Method ⁷
Ozone (O ₃) ⁸	1 Hour	0.09 ppm (180 µg/m ³)	Ultraviolet Photometry	—	Same as Primary Standard	Ultraviolet Photometry
	8 Hour	0.070 ppm (137 µg/m ³)		0.070 ppm (137 µg/m ³)		
Respirable Particulate Matter (PM ₁₀) ⁹	24 Hour	50 µg/m ³	Gravimetric or Beta Attenuation	150 µg/m ³	Same as Primary Standard	Inertial Separation and Gravimetric Analysis
	Annual Arithmetic Mean	20 µg/m ³		—		
Fine Particulate Matter (PM _{2.5}) ⁹	24 Hour	—	—	35 µg/m ³	Same as Primary Standard	Inertial Separation and Gravimetric Analysis
	Annual Arithmetic Mean	12 µg/m ³	Gravimetric or Beta Attenuation	12.0 µg/m ³	15 µg/m ³	
Carbon Monoxide (CO)	1 Hour	20 ppm (23 mg/m ³)	Non-Dispersive Infrared Photometry (NDIR)	35 ppm (40 mg/m ³)	—	Non-Dispersive Infrared Photometry (NDIR)
	8 Hour	9.0 ppm (10 mg/m ³)		9 ppm (10 mg/m ³)	—	
	8 Hour (Lake Tahoe)	6 ppm (7 mg/m ³)		—	—	
Nitrogen Dioxide (NO ₂) ¹⁰	1 Hour	0.18 ppm (339 µg/m ³)	Gas Phase Chemiluminescence	100 ppb (188 µg/m ³)	—	Gas Phase Chemiluminescence
	Annual Arithmetic Mean	0.030 ppm (57 µg/m ³)		0.053 ppm (100 µg/m ³)	Same as Primary Standard	
Sulfur Dioxide (SO ₂) ¹¹	1 Hour	0.25 ppm (655 µg/m ³)	Ultraviolet Fluorescence	75 ppb (196 µg/m ³)	—	Ultraviolet Fluorescence; Spectrophotometry (Pararosaniline Method)
	3 Hour	—		—	0.5 ppm (1300 µg/m ³)	
	24 Hour	0.04 ppm (105 µg/m ³)		0.14 ppm (for certain areas) ¹¹	—	
	Annual Arithmetic Mean	—		0.030 ppm (for certain areas) ¹¹	—	
Lead ^{12,13}	30 Day Average	1.5 µg/m ³	Atomic Absorption	—	—	High Volume Sampler and Atomic Absorption
	Calendar Quarter	—		1.5 µg/m ³ (for certain areas) ¹²	Same as Primary Standard	
	Rolling 3-Month Average	—		0.15 µg/m ³		
Visibility Reducing Particles ¹⁴	8 Hour	See footnote 14	Beta Attenuation and Transmittance through Filter Tape	No National Standards		
Sulfates	24 Hour	25 µg/m ³	Ion Chromatography			
Hydrogen Sulfide	1 Hour	0.03 ppm (42 µg/m ³)	Ultraviolet Fluorescence			
Vinyl Chloride ¹²	24 Hour	0.01 ppm (26 µg/m ³)	Gas Chromatography			

See footnotes on next page ...

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-0124 Compass Danbe)

1. California standards for ozone, carbon monoxide (except 8-hour Lake Tahoe), sulfur dioxide (1- and 24-hour), nitrogen dioxide, and particulate matter (PM10, PM2.5, and visibility reducing particles), are values that are not to be exceeded. All others are not to be equaled or exceeded. California ambient air quality standards are listed in the Table of Standards in Section 70200 of Title 17 of the California Code of Regulations.
2. National standards (other than ozone, particulate matter, and those based on annual arithmetic mean) are not to be exceeded more than once a year. The ozone standard is attained when the fourth highest 8-hour concentration measured at each site in a year, averaged over three years, is equal to or less than the standard. For PM10, the 24-hour standard is attained when the expected number of days per calendar year with a 24-hour average concentration above $150 \mu\text{g}/\text{m}^3$ is equal to or less than one. For PM2.5, the 24-hour standard is attained when 98 percent of the daily concentrations, averaged over three years, are equal to or less than the standard. Contact the U.S. EPA for further clarification and current national policies.
3. Concentration expressed first in units in which it was promulgated. Equivalent units given in parentheses are based upon a reference temperature of 25°C and a reference pressure of 760 torr. Most measurements of air quality are to be corrected to a reference temperature of 25°C and a reference pressure of 760 torr; ppm in this table refers to ppm by volume, or micromoles of pollutant per mole of gas.
4. Any equivalent measurement method which can be shown to the satisfaction of the CARB to give equivalent results at or near the level of the air quality standard may be used.
5. National Primary Standards: The levels of air quality necessary, with an adequate margin of safety to protect the public health.
6. National Secondary Standards: The levels of air quality necessary to protect the public welfare from any known or anticipated adverse effects of a pollutant.
7. Reference method as described by the U.S. EPA. An "equivalent method" of measurement may be used but must have a "consistent relationship to the reference method" and must be approved by the U.S. EPA.
8. On October 1, 2015, the national 8-hour ozone primary and secondary standards were lowered from 0.075 to 0.070 ppm.
9. On December 14, 2012, the national annual PM2.5 primary standard was lowered from $15 \mu\text{g}/\text{m}^3$ to $12.0 \mu\text{g}/\text{m}^3$. The existing national 24-hour PM2.5 standards (primary and secondary) were retained at $35 \mu\text{g}/\text{m}^3$, as was the annual secondary standard of $15 \mu\text{g}/\text{m}^3$. The existing 24-hour PM10 standards (primary and secondary) of $150 \mu\text{g}/\text{m}^3$ also were retained. The form of the annual primary and secondary standards is the annual mean, averaged over 3 years.
10. To attain the 1-hour national standard, the 3-year average of the annual 98th percentile of the 1-hour daily maximum concentrations at each site must not exceed 100 ppb. Note that the national 1-hour standard is in units of parts per billion (ppb). California standards are in units of parts per million (ppm). To directly compare the national 1-hour standard to the California standards the units can be converted from ppb to ppm. In this case, the national standard of 100 ppb is identical to 0.100 ppm.

Note that the 1-hour national standard is in units of parts per billion (ppb). California standards are in units of parts per million (ppm). To directly compare the 1-hour national standard to the California standard the units can be converted to ppm. In this case, the national standard of 75 ppb is identical to 0.075 ppm.
12. The CARB has identified lead and vinyl chloride as 'toxic air contaminants' with no threshold level of exposure for adverse health effects determined. These actions allow for the implementation of control measures at levels below the ambient concentrations specified for these pollutants.
13. The national standard for lead was revised on October 15, 2008 to a rolling 3-month average. The 1978 lead standard ($1.5 \mu\text{g}/\text{m}^3$ as a quarterly average) remains in effect until one year after an area is designated for the 2008 standard, except that in areas designated nonattainment for the 1978 standard, the 1978 standard remains in effect until implementation plans to attain or maintain the 2008 standard are approved.
14. In 1989, the CARB converted both the general statewide 10-mile visibility standard and the Lake Tahoe 30-mile visibility standard to instrumental equivalents, which are "extinction of 0.23 per kilometer" and "extinction of 0.07 per kilometer" for the statewide and Lake Tahoe Air Basin standards, respectively.

[This page intentionally left blank]

Area Designations for the State Ambient Air Quality Standards

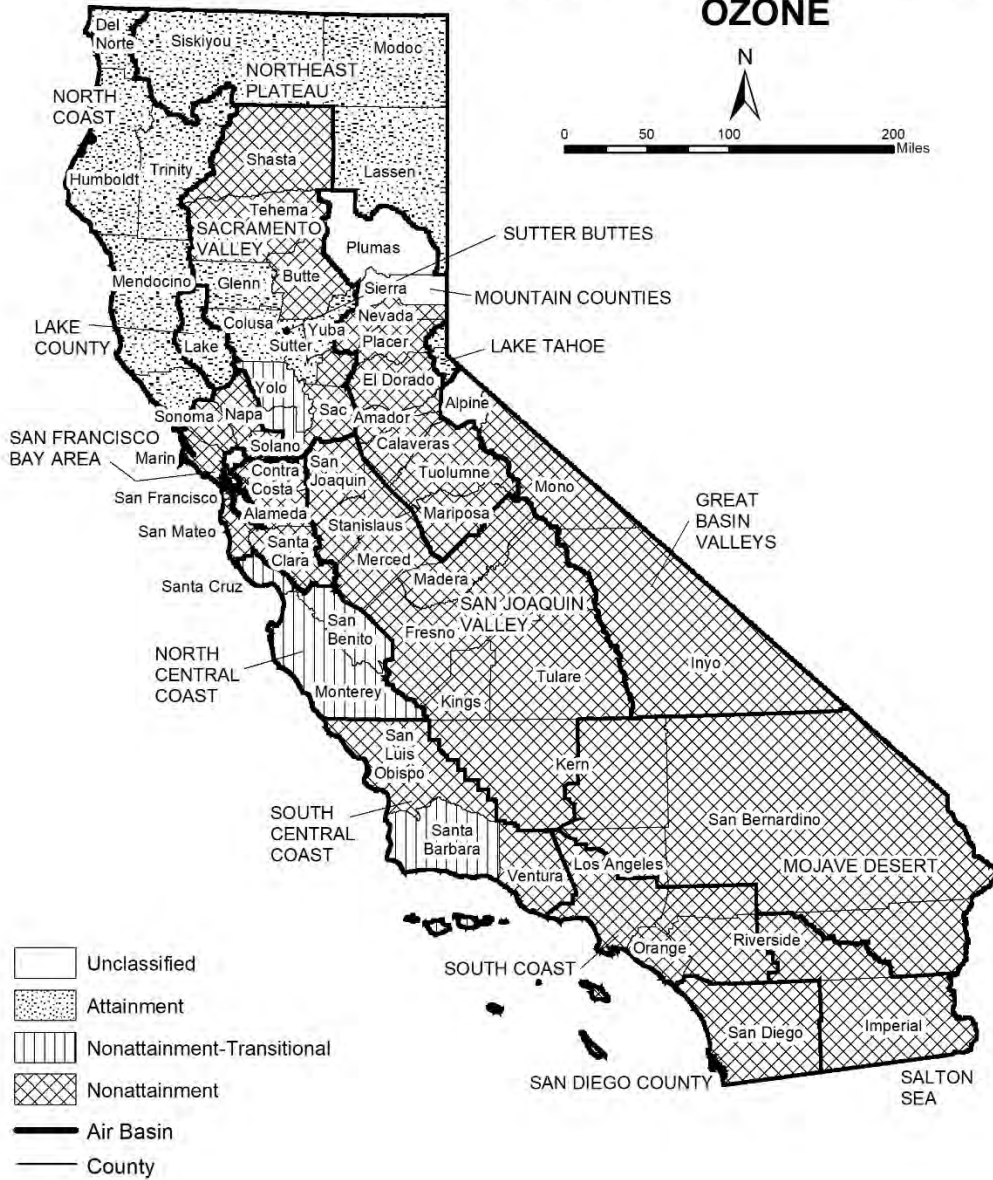

The following maps and tables show the area designations for each pollutant with a State standard set forth in the California Code of Regulations, title 17, section 60200. Each area is identified as attainment, nonattainment, nonattainment-transitional, or unclassified for each pollutant, as shown below:

Attainment	A
Nonattainment	N
Nonattainment-Transitional	NA-T
Unclassified	U

In general, CARB designates areas by air basin for pollutants with a regional impact and by county for pollutants with a more local impact. However, when there are areas within an air basin or county with distinctly different air quality deriving from sources and conditions not affecting the entire air basin or county, CARB may designate a smaller area. Generally, when boundaries of the designated area differ from the air basin or county boundaries, the description of the specific area is referenced at the bottom of the summary table.

(1) AB 3048 (Olberg) and AB 2525 (Miller) signed into law in 1996, made changes to Health and Safety Code, section 40925.5. One of the changes allows nonattainment districts to become nonattainment-transitional for ozone by operation of law.

Area Designations for the National Ambient Air Quality Standards

The following maps and tables show the area designations for each pollutant with a national ambient air quality standard. Additional information about the federal area designations is available on the U.S. EPA website:

<https://www.epa.gov/green-book>

Over the last several years, U.S. EPA has been reviewing the levels of the various national standards. The agency has already promulgated new standard levels for some pollutants and is considering revising the levels for others. Information about the status of these reviews is available on the U.S. EPA website:

<https://www.epa.gov/criteria-air-pollutants>

Designation Categories

Suspended Particulate Matter (PM₁₀). The U.S. EPA uses three categories to designate areas with respect to PM₁₀:

- Attainment
- Nonattainment
- Unclassifiable

Ozone, Fine Suspended Particulate Matter (PM_{2.5}), Carbon Monoxide (CO), and Nitrogen Dioxide (NO₂). The U.S. EPA uses two categories to designate areas with respect to these standards:

- Nonattainment
- Unclassifiable/Attainment

The national 1-hour ozone standard was revoked effective June 15, 2005, and the area designations map reflects the 2015 national 8-hour ozone standard of 0.070 ppm. Original designations were finalized on August 3, 2018.

On December 14, 2012, the U.S. EPA established a new national annual primary PM_{2.5} standard of 12.0 µg/m³. New area designations reflecting this revised standard became final in December 2014. The current designation map reflects the most recently revised (2012) annual average standard of 12.0 µg/m³ as well as the 24-hour standard of 35 µg/m³, revised in 2006.

On January 22, 2010, the U.S. EPA established a new national 1-hour NO₂ standard of 100 parts per billion (ppb) and retained the annual average standard of 53 ppb. Designations for the primary NO₂ standard became effective on February 29, 2012. All areas of California meet this standard.

Sulfur Dioxide (SO₂). The U.S. EPA uses three categories to designate areas with respect to the 24-hour and annual average sulfur dioxide standards. These designation categories are:

- Nonattainment,
- Unclassifiable, and
- Attainment/Unclassifiable.

On June 2, 2010, the U.S. EPA established a new primary 1-hour SO₂ standard of 75 parts per billion (ppb). At the same time, U.S. EPA revoked the 24-hour and annual

average standards. Area designations for the 1-hour SO₂ standard were finalized on December 21, 2017 and are reflected in the area designations map.

Lead (particulate). The U.S. EPA promulgated a new rolling 3-month average lead standard in October 2008 of 0.15 µg/m³. Designations were made for this standard in November 2010.

Designation Areas

From time to time, the boundaries of the California air basins have been changed to facilitate the planning process. CARB generally initiates these changes, and they are not always reflected in the U.S. EPA's area designations. For purposes of consistency, the maps in this attachment reflect area designation boundaries and nomenclature as promulgated by the U.S. EPA. In some cases, these may not be the same as those adopted by CARB. For example, the national area designations reflect the former Southeast Desert Air Basin. In accordance with Health and Safety Code section 39606.1, CARB redefined this area in 1996 to be the Mojave Desert Air Basin and Salton Sea Air Basin. The definitions and boundaries for all areas designated for the national standards can be found in Title 40, Code of Federal Regulations (CFR), Chapter I, Subchapter C, Part 81.305. They are available on the web at:

https://ecfr.io/Title-40/se40.20.81_1305

* Definitions and references for all areas can be found in 40 CFR, Chapter I, Part 81.305.

NOTE: This map and table reflect the 2015 8-hour ozone standard of 0.070 ppm.

(1) South Central Coast Air Basin Channel Islands:

Santa Barbara County includes Santa Cruz, San Miguel, Santa Rosa, and Santa Barbara Islands.

Ventura County includes Anacapa and San Nicolas Islands.

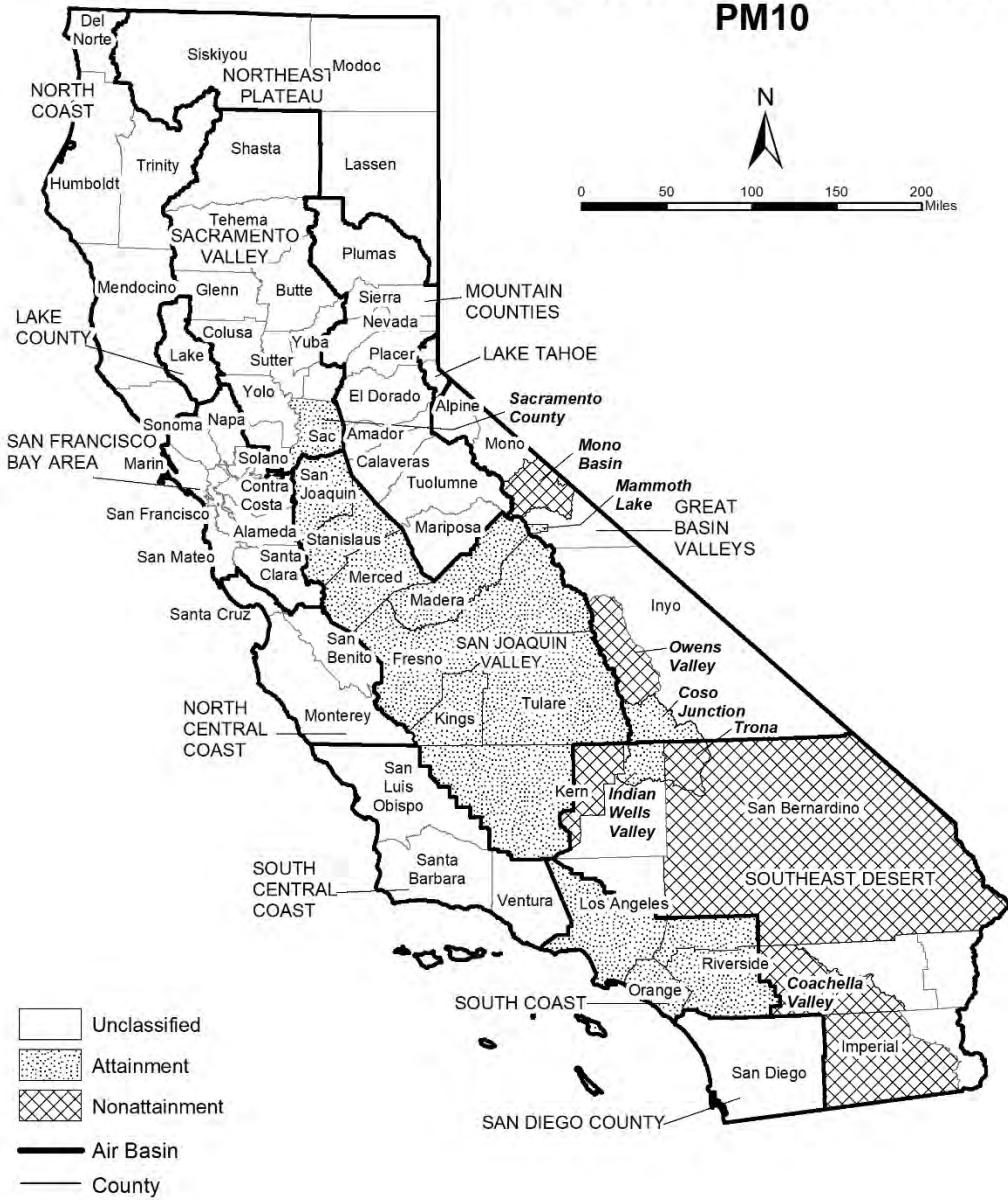

South Coast Air Basin:

Los Angeles County includes San Clemente and Santa Catalina Islands.

(2) For this purpose, the Sacramento Metro Area comprises all of Sacramento and Yolo Counties, the Sacramento Valley Air Basin portion of Solano County, the southern portion of Sutter County, and the Sacramento Valley and Mountain Counties Air Basins portions of Placer and El Dorado counties.

(1) Air quality in Sacramento County meets the national PM10 standards. The request for redesignation to attainment was approved by U.S. EPA in September 2013.

(2) U.S. EPA designation puts the Sacramento Valley Air Basin portion of Placer County in the Mountain Counties Air Basin.

(3) Air quality in Coachella Valley meets the national PM10 standards. A request for redesignation to attainment has been submitted to U.S. EPA.

(1) For this purpose, Sacramento Metro Area comprises all of Sacramento and portions of El Dorado, Placer, Solano, and Yolo Counties. Air quality in this area meets the national PM2.5 standards. A Determination of Attainment for the 2006 24-hour PM2.5 standard was made by U.S. EPA in June 2017.

(2) Air quality in this area meets the national PM2.5 standards. A Determination of Attainment for the 2006 24-hour PM2.5 standard was made by U.S. EPA in June 2017.

(3) Those lands of the Santa Rosa Band of Cahulla Mission Indians in Riverside County are designated Unclassifiable/Attainment.

(4) That portion of Imperial County encompassing the urban and surrounding areas of Brawley, Calexico, El Centro, Heber, Holtville, Imperial, Seeley, and Westmorland. Air quality in this area meets the national PM2.5 standards. A Determination of Attainment for the 2006 24-hour PM2.5 standard was made by U.S. EPA in June 2017.

Riverside-South Coast County, Summer

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
Refrigerated Warehouse-No Rail	118.95	1000sqft	2.73	118,947.00	0
Unrefrigerated Warehouse-No Rail	277.54	1000sqft	6.37	277,541.00	0
Other Non-Asphalt Surfaces	73.97	1000sqft	1.70	73,972.00	0
Parking Lot	298.22	1000sqft	6.85	298,221.00	0

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.4	Precipitation Freq (Days)	28
Climate Zone	10			Operational Year	2022
Utility Company	Southern California Edison				
CO2 Intensity (lb/MW hr)	702.44	CH4 Intensity (lb/MW hr)	0.029	N2O Intensity (lb/MW hr)	0.006

1.3 User Entered Comments & Non-Default Data

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-

Compass Danbe Centerpointe (Construction - Unmitigated) - Riverside-South Coast County, Summer

Project Characteristics -

Land Use -

Construction Phase - Construction is anticipated to occur over an 8-month timeframe.

Off-road Equipment - Hours are based on an 8-hour workday.

Off-road Equipment - Hours are based on an 8-hour workday.

Off-road Equipment - Crawler Tractors used in lieu of Tractors/Loaders/Backhoes.

Off-road Equipment -

Off-road Equipment - Crawler Tractors used in lieu of Tractors/Loaders/Backhoes.

Trips and VMT - Vendor Trips have been adjusted to account for Water Trucks.

Grading - This analysis conservatively assumes that up to 10 acres will be disturbed per day.

Architectural Coating - Rule 1113

Vehicle Trips - Construction Run Only.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - Construction Run Only.

Water And Wastewater - Construction Run Only.

Solid Waste - Construction Run Only.

Construction Off-road Equipment Mitigation - Rule 403

Compass Danbe Center (Building 1 Operations - Passenger Cars) - Riverside-South Coast County, Summer

Project Characteristics -

Land Use - Total Building 1 Area is 12.47 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Passenger Car Fleet Mix estimated based on the CalEEMod default fleet mix and the ratio of the vehicle classes (LDA, LDT1, LDT2, and MDV).

Compass Danbe Center (Building 1 Operations - Passenger Cars) - Riverside-South Coast County, Winter

Project Characteristics -

Land Use - Total Building 1 Area is 12.47 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Passenger Car Fleet Mix estimated based on the CalEEMod default fleet mix and the ratio of the vehicle classes (LDA, LDT1, LDT2, and MDV).

1.0 Project Characteristics

1.1 Land Usage

Land Uses	Size	Metric	Lot Acreage	Floor Surface Area	Population
Refrigerated Warehouse-No Rail	30.38	1000sqft	0.70	30,376.00	0
Unrefrigerated Warehouse-No Rail	70.88	1000sqft	1.63	70,876.00	0
Other Non-Asphalt Surfaces	28.94	1000sqft	0.66	28,940.00	0
Parking Lot	95.45	1000sqft	2.19	95,454.00	0

1.2 Other Project Characteristics

Urbanization	Urban	Wind Speed (m/s)	2.4	Precipitation Freq (Days)	28
Climate Zone	10			Operational Year	2022
Utility Company	Southern California Edison				
CO2 Intensity (lb/MWhr)	702.44	CH4 Intensity (lb/MWhr)	0.029	N2O Intensity (lb/MWhr)	0.006

1.3 User Entered Comments & Non-Default Data

Attachment: Appendix A1-Air Quality Impact Analysis (5554 : PEN20-0118-0119, PEN20-0122 and PEN 20-

Compass Danbe Centerpointe (Building 2 Operations - Passenger Cars) - Riverside-South Coast County, Summer

Project Characteristics -

Land Use - Total Building 2 Area is 5.18 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Passenger Car Fleet Mix estimated based on the CalEEMod default fleet mix and the ratio of the vehicle classes (LDA, LDT1, LDT2, and MDV).

Compass Danbe Centerpointe (Building 2 Operations - Passenger Cars) - Riverside-South Coast County, Winter

Project Characteristics -

Land Use - Total Building 2 Area is 5.18 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Passenger Car Fleet Mix estimated based on the CalEEMod default fleet mix and the ratio of the vehicle classes (LDA, LDT1, LDT2, and MDV).

Compass Danbe Center (Building 1 Operations - Trucks) - Riverside-South Coast County, Summer

Project Characteristics -

Land Use - Total Building 1 Area is 12.47 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Truck Fleet Mix estimated by rationing the Trip Rates for each truck type based on information provided in the Traffic Analysis.

Compass Danbe Center (Building 1 Operations - Trucks) - Riverside-South Coast County, Winter

Project Characteristics -

Land Use - Total Building 1 Area is 12.47 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Truck Fleet Mix estimated by rationing the Trip Rates for each truck type based on information provided in the Traffic Analysis.

Compass Danbe Centerpointe (Building 2 Operations - Trucks) - Riverside-South Coast County, Summer

Project Characteristics -

Land Use - Total Building 2 Area is 5.18 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Truck Fleet Mix estimated by rationing the Trip Rates for each truck type based on information provided in the Traffic Analysis.

Compass Danbe Centerpointe (Building 2 Operations - Trucks) - Riverside-South Coast County, Winter

Project Characteristics -

Land Use - Total Building 2 Area is 5.18 acres.

Construction Phase - Operations Run Only.

Off-road Equipment - Operations Run Only.

Trips and VMT - Operations Run Only.

Vehicle Trips - Trip Characteristics based on information provided in the Traffic Analysis report prepared by Urban Crossroads, Inc.

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Vehicle Emission Factors - EMFAC2017

Energy Use - The Project will design building shells and building components to meet 2019 Title 24 Standards which expects 30% less energy for nonresidential uses.

Operational Off-Road Equipment - Based on SCAQMD High Cube Warehouse Truck Trip Study White Paper Summary of Business Survey Results (2014)

Fleet Mix - Truck Fleet Mix estimated by rationing the Trip Rates for each truck type based on information provided in the Traffic Analysis.
